The regulations governing the designation, use, and care of land set-aside from production under this program and approved conservation uses thereon are set forth in Part 792 of this chapter, as amended.

§ 775.14 Determination of compliance.

(a) Determination of the acreage devoted to feed grains and of the acreage designated as set-aside acreage shall be made in accordance with Part 718 of this chapter, as amended.

(b) A representative of the county committee or the State committee or any authorized representative of the Secretary shall have the right at any reasonable time to enter a farm, concerning which representations have been made on any forms filed under the program, in order to measure the acreage planted to feed grains and the acreage which the operator designated as being devoted to approved conservation uses on the farm, to examine any records pertaining thereto, and otherwise to determine the accuracy of a producer's representation and the performance of his obligations under the program.

§ 775.15 Payments.

(a) Payments of any amounts due the producers on a farm shall be made only after they sign Form 516 and the farm operator certifies that the farm is in compliance with the requirements of the program. The certification of compliance after May 1 of the year following the current year shall not be accepted by the county committee unless prior approval of the State committee is obtained.

(b) Except as otherwise provided herein and in Part 791 of this chapter, as amended, payment shall not be made for a farm or to a producer when there is failure to comply fully with the regulations in this subpart.

(c) Except as provided in paragraph (j) of this section, payments at the minimum acre set-aside payment rates shall be determined by multiplying 50 percent of the feed grain base for each commodity by the applicable per acre farm payment rate as determined in accordance with § 775.7(b)(2).

(d) Payments at the additional acre set-aside payment rates for acreage set aside pursuant to § 775.11(a) shall be determined by crediting the additional set-aside proportionately to each commodity of the base and multiplying the acreage credited by the applicable per acre farm payment rate as determined in accordance with § 775.7(c). Payments at the additional acre set-aside payment rates for acreage set aside pursuant to § 775.11(b) shall be determined by crediting as much of the additional set-aside as possible to the commodity, corn or grain sorghums, with the higher payment rate, not to exceed one-half the amount that the 1972 acreage of that commodity is reduced below the 1971 acreage, crediting the remaining additional set-aside to the other commodity, and multiplying the acreage credited by the applicable per acre farm payment rate as determined in accordance with § 775.7(c).

(e) Payments will be made to producers as soon as practicable after July 1 of the current year.

(f) Subject to the provisions of the payment limitation regulations in Part 795 of this chapter, as amended, the total earned payment due each eligible producer under the program shall be determined by multiplying the total earned payment for the farm by the producer's share of such payment.

(g) Part or all of the acreage set aside under §§ 775.10(b)(2) and 775.11 may be devoted to approved alternate crops. If a producer elects to devote the set-aside acreage to approved alternate crops, a reduction shall be made in the payments otherwise computed for the farm.

(1) For 1972, the approved alternate crops are castor beans, crambe, guar, mustard seed, plantago ovato, safflower, sesame, and sunflower. The per acre reduction for set-aside acreage devoted to approved alternate crops shall be at a fair and reasonable rate as determined in accordance with instructions issued by the Deputy Administrator.

(2) For 1973, the approved alternate crops will be announced by amendment to this subpart.

(h) If a producer declines, for personal reasons, to accept all or any part of his share of the payment computed for a farm in accordance with the provisions of this section, such payment or portion thereof shall not become available for any other producer on the farm.

(i) Payments to any producer which exceed the total payment he earns under the program with respect to any farm shall be refunded to the Commodity Credit Corporation, and, if for any reason such earned payment is zero, he shall pay interest at the rate of 6 percent per annum on the amount of the refund from the issue dates of the sight drafts to the date the payments are refunded. The provisions of the foregoing sentence requiring the payment of interest when no payment is earned shall not apply if the producer earns any wheat marketing certificates or upland cotton payments for the farm.

(j) Producers otherwise eligible for payment may elect to limit the acres for payment at the minimum acre set-aside payment rates to the feed grain planted and considered planted acreage in order to protect the feed grain base from reduction due to failure to plant. The acres for payment shall be proportionate to each commodity of the base.

§ 775.16 Division of payments and additional provisions relating to tenants and sharecroppers.

The regulations relating to the division of payments and additional provisions relating to tenants and sharecroppers are set forth in Part 794 of this chapter, as amended.

§ 775.17 Successors-in-interest.

(a) In the case of the death, incompetency, or disappearance of any producer whose name appears on Form 516, the payment due him shall be made to his successor as determined in accordance with the regulations in Part 707 of this chapter, as amended.

(b) When any person who had an interest as a producer of feed grains or would have had an interest as a producer if feed grains had been produced (herein called "predecessor") is succeeded on the farm by another producer (herein called "successor") after Form 516 has been filed, the payment to the predecessor and successor shall be divided between them on such basis as they agree is fair and equitable. If such persons are unable to agree to a division of the payment, the payment shall be issued to the producer who has the interest in the crop at the time of harvest. If the crop is completely destroyed prior to harvest, the payment

V 37-77 APR 20 72 XUM

shall be issued to the producer who had the interest at the time of destruction of the crop. In the event no crop is planted for harvest, a fair and equitable division of the payment shall be determined by the county committee.

(c) In any case where any payment due any successor producer has previously been paid to the producer who filed Form 516, such payment shall not be paid to the successor producer unless it is recovered from the producer to whom it has been paid or payment is authorized by the Deputy Administrator.

§ 775.18 Scheme or device and fraudulent representation.

(a) A producer who is determined by the State committee, or the county committee with the approval of the State committee, to have adopted any scheme or device which tends to defeat the purpose of the feed grain set-aside program shall not be entitled to receive payments under the program for the year with respect to which the scheme or device was adopted and shall refund to the Commodity Credit Corporation any payments received by him.

(b) The making of a fraudulent representation by a person in the program documents or otherwise for the purpose of obtaining payments shall render the person liable for a refund to the Commodity Credit Corporation of the payments received by him with respect to which the fraudulent representation was made.

(c) A producer who is determined by the State committee, or the county committee with the approval of the State mittee, to have knowingly (1) made a false report of the feed grain, wheat, or upland cotton acreage on a farm participating in the programs for such commodities, (2) falsely certified compliance with other provisions of the feed grain, wheat, or upland cotton set-aside programs, or (3) obstructed the county committee's efforts to determine compliance with the feed grain, wheat, or upland cotton set-aside programs, shall not be entitled to receive program benefits under the feed grain set-aside program, the upland cotton set-aside program, and the wheat set-aside program for the year in which such action occurred and shall refund any payment and return any wheat marketing certificates received by him, or in the case of certificates, pay the value thereof, to the Commodity Credit Corporation.

(d) The provisions of this section shall be applicable in addition to any liability under criminal and civil fraud statutes.

§ 775.19 Setoffs and assignments.

(a) *Producer indebtedness.* The regulations issued by the Secretary governing setoffs and withholdings, Part 13 of this title, as amended, shall be applicable to this program.

(b) *Assignments.* Payments may be assigned only to the Farmers Home Administration in accordance with instructions issued by the Deputy Administrator.

§ 775.20 Appeals.

A producer may obtain reconsideration and review of determinations made under this subpart in accordance with the Appeal Regulations, Part 780 of this chapter, as amended.

§ 775.21 Performance based upon advice or action of county or State committee.

The provisions of Part 790 of this chapter, as amended, relating to performance based upon action or advice of an authorized representative of the Secretary shall be applicable to this subpart.

§ 775.22 Prohibition against payments to producers.

The regulations in Part 796 of this chapter prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use marihuana or other such prohibited drug-producing plants on any part of the lands owned or controlled by them are applicable to this program.

§ 775.23 Supervisory authority of State committee.

The State committee may take any action required by these regulations which has not been taken by the county committee. The State committee may also (a) correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations of this subpart, or (b) require a county committee to withhold taking any action which is not in accordance with the regulations of this subpart.

§ 775.24 Delegation of authority.

No delegation herein to a State or county committee shall preclude the Administrator, ASCS, or his designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

Effective date: Upon publication in the FEDERAL REGISTER (4-20-72).

Signed at Washington, D.C., on April 14, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 265]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.565 Navel Orange Regulation 265.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 18, 1972.

(b) *Order.* (1) The respective quantities of Naval oranges grown in Arizona and designated part of California which may be handled during the period April 21, 1972, through April 27, 1972, are hereby fixed as follows:

(i) District 1: 913,000 cartons;

(ii) District 2: 187,000 cartons; and

(iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: April 19, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6182 Filed 4-19-72;11:40 am]

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

[Valencia Orange Reg. 386]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.686 Valencia Orange Regulation 386.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the regulation stems from an appraisal of the current and prospective marketing conditions for Valencia oranges. The production of Valencia oranges in California-Arizona for the 1971-72 season is estimated as of March 21, 1972, at 43,000 carloads—down 2,836 carloads from the 45,386 carloads produced last season. Valencia orange production in District 2 is estimated at 20,500 carloads—down 8,175 carloads from the production of last year.

(i) It is estimated that there will be opportunity to market 20,200 carloads of California-Arizona Valencia oranges in fresh market channels. This amount represents 47 percent of the total estimated available supply of California-Arizona Valencia oranges. The remaining 53 percent of such oranges will be available for utilization in export markets and in processing outlets.

(ii) It is estimated that Valencia oranges produced in District 2 will be of such size that on July 1, 1972, 132 such oranges will pack a carton. Last season it took 150 oranges to pack a carton. It is anticipated that on July 1 only 15.17 percent of the Valencia oranges produced in District 2 will be size 180 and smaller.

(iii) Available information indicates that 180 size and smaller oranges will not provide consumer satisfaction, will cause disruption of orderly marketing, will depress grower returns, which, based on data for March 1972, are only 33 percent of parity. As there are ample supplies of the more desirable sizes (size 163 and larger) to fill all of the anticipated demand for fresh Valencia oranges, it is determined that the accompanying size regulation should be issued to prevent undesirable size Valencia oranges (size 180 and smaller) from being marketed in fresh market channels.

(3) It is further found that good cause exists for not postponing the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (i) notice of proposed rule making concerning this regulation, with an effective date as herein specified, was published in the FEDERAL REGISTER (37 F.R. 6478) and no objection to this regulation or such effective date was received; (ii) the recommendation and supporting information for regulation during the period specified herein were submitted to the Department after an open meeting of the Valencia Orange Administrative Committee on March 21, 1972, which was held to consider recommendations for regulation, after giving due notice to this meeting, at which interested persons were afforded an opportunity to submit their views; (iii) shipments of Valencia oranges are currently being made and the regulation should be effective on the specified date to be of maximum benefit during the current season; and (iv) compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) During the period April 28, 1972, through January 15, 1973, no handler shall handle any Valencia oranges grown in District 2, which are of a size smaller than 2.32 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the Valencia oranges contained in any type of container may measure smaller than 2.32 inches in diameter.

(2) As used in this section, "handle," "handler," and "District 2," shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: April 17, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6038 Filed 4-19-72;8:51 am]

[Valencia Orange Reg. 388]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.688 Valencia Orange Regulation 388.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 18, 1972.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period April 21 through April 27, 1972, are hereby fixed as follows:

(i) District 1: 22,277 cartons;

(ii) District 2: 30,106 cartons; and

(iii) District 3: 150,000 cartons.

(2) As used in this section, "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Areas Quarantined

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

In § 82.3, the introductory portion of paragraph (a) is amended by adding thereto the name of the State of Arizona immediately before the reference to "California," and a new subparagraph (a)(5) relating to the State of Arizona is added to read:

§ 82.3 Areas quarantined.

(a) • • •

(5) *Arizona.* All of Yuma County and that portion of Mohave County south of the Colorado River, excluding that portion of the Hualpai Indian Reservation lying in Mohave County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 29 F.R. 16210, as amended; 37 F.R. 6327, 6505).

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines all of Yuma County and a portion of Mohave County in Arizona because of the existence of exotic Newcastle disease. The amendment imposes certain restrictions necessary to prevent the interstate spread of exotic Newcastle disease, a communicable disease of poultry, and must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[F.R. Doc.72–5994 Filed 4–19–72;8:48 am]

Title 12—BANKS AND BANKING

Chapter VII—National Credit Union Administration

PART 735—EMPLOYEE RESPONSIBILITY AND CONDUCT

A proposal to adopt the provisions of 5 CFR Part 735 was published at 36 F.R. 214 by the Administrator, National Credit Union Administration. That proposal is hereby revoked.

Notice is hereby given that the Administrator, National Credit Union Administration, has received the permission of the Civil Service Commission to adopt the provisions of 5 CFR Part 735. These regulations have been approved by the Civil Service Commission and are hereby made applicable to the employees of the National Credit Union Administration as of February 22, 1972.

This notice is published pursuant to the authority conferred in 5 CFR 735.104(F)(2).

HERMAN NICKERSON, JR.,
Administrator.

APRIL 13, 1972.

Sec.
735.101 Adoption of regulations.
735.102 Review of statements of employment and financial interests.
735.103 Disciplinary and other remedial action.
735.104 Gifts, entertainment, and favors.
735.105 Outside employment and other activity.
735.106 Financial interest.
735.107 Miscellaneous statutory provisions.
735.108 Specific provisions of agency regulations governing special Government employees.
735.109 Statements of employment and financial interests.
735.110 Supplementary statements.
735.111 Use of Government property.
735.112 Misuse of information.
735.113 General conduct prejudiced to the Government.

AUTHORITY: The provisions of this Part 735 issued under E.O. 11222; 3 CFR 1964–65 Comp., p. 306; 5 CFR 735.104.

§ 735.101 Adoption of regulations.

Pursuant to 5 CFR 735.104(f) the National Credit Union Administration (referred to hereinafter as the Administration) hereby adopts the following sections of Part 735 of Title 5, Code of Federal Regulations: Sections 735.101–102, 735.201a, 735.202 (a), (e), (f), 735.210, 735.302, 735.303(a), 735.304, 735.305(a), 735.306, 735.403(a), 735.404, 735.405–735.411, and 735.412 (b) and (d). These adopted sections are modified and supplemented as set forth in this part.

§ 735.102 Review of statements of employment and financial interests.

Each statement of employment and financial interests submitted under this part shall be reviewed by the General Counsel. When this review indicates a conflict between the interests of an employee of special Government employee of the Administration and the performance of his services for the Government, the General Counsel shall have the indicated conflict brought to the attention of the employee or special Government employee, grant the employee or special Government employee an opportunity to explain the indicated conflict, and attempt to resolve the indicated conflict. If the indicated conflict cannot be resolved the General Counsel shall forward a written report on the indicated conflict to the Administrator, National Credit Union Administration.

§ 735.103 Disciplinary and other remedial action.

An employee or special Government employee of the Administration who violates any of the regulations in this part or adopted under § 735.101 may be disciplined. The disciplinary action may be in addition to any penalty prescribed by law for the violation. In addition to or in lieu of disciplinary action, remedial action to end conflicts or appearance of conflicts of interest may include but is not limited to:

(a) Changes in assigned duties;

(b) Divestment by the employee or special Government employee of his conflicting interest; or

(c) Disqualification for a particular assignment.

§ 735.104 Gifts, entertainment, and favors.

The Administration authorizes the exception to 5 CFR 735.202(a) set forth in 5 CFR 735.202(b) (1)–(4).

§ 735.105 Outside employment and other activity.

(a) An employee of the Administration may engage in outside employment or other outside activity not incompatible with the full and proper discharge of the duties and responsibilities of his Government employment. An employee who engages in outside employment shall report that fact in writing in advance to the Administrator, or to the Regional Director of a regional employee is involved.

(b) Employees of the Administration may engage in teaching, writing, and lecturing provided, however, employees shall not receive compensation or anything of monetary value for any consultation, discussion, writing, lecturing or appearance, the subject matter of which is devoted substantially to the specific responsibilities, programs, or operations of the Administration, or which draws substantially on official data or ideas which have not been published or otherwise publicly released by the Administration. The foregoing limitation on the receipt of compensation or anything of monetary value shall not be construed as applying to amounts received for reimbursement for travel and other expenses incurred in performing the outside employment.

(c) Incompatible activities in which an employee may not engage include, but are not limited to, the following:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, conflicts of interest; or

(2) Outside employment which tends to impair his mental or physical capacity to perform his Government duties and responsibilities in an acceptable manner.

§ 735.106 Financial interest.

(a) An employee shall not:

(1) Have a direct or indirect financial interest that conflicts, or appears to conflict with his Government duties and responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of, or primarily relying on, information obtained through his Government employment.

(b) This section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, the Executive Order, this section, or the Administration regulations.

§ 735.107 Special statutory provisions.

The Administration authorizes the adoption of the regulations regarding miscellaneous statutory provisions as set forth in 5 CFR 735.210.

§ 735.108 Specific provisions of Administration regulations governing special Government employees.

(a) Special Government employees of the Administration shall adhere to the standards of conduct applicable to employees as set forth in this part and adopted under § 735.101, except 5 CFR 735.203(b).

(b) Special Government employees of the agency may teach, lecture, or write in a manner not inconsistent with 5 CFR 735.203(c).

(c) Pursuant to 5 CFR 735.305(b), the agency authorizes the same exceptions concerning gifts, entertainment, and favors for special Government employees as are authorized for employees by § 735.104.

§ 735.109 Statements of employment and financial interests.

(a) Employees in the following named positions shall submit statements of employment and financial interests:

(1) Deputy Administrator.

(2) Assistant Administrator for Administration.

(b) Each statement of employment and financial interests required by this section shall be submitted to the Administrator, National Credit Union Administration, Washington, D.C. 20456.

(c) An employee who believes that his position has been improperly included in this section as one requiring the submission of a statement of employment and financial interests may obtain a review of his complaint under the Administration's grievance procedure.

§ 735.110 Supplementary statements.

Notwithstanding the filing of the annual supplementary statement of employment and financial interests on June 30 as required by 5 CFR 735.406, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts-of-interest provisions of section 208 of title 18, United States Code, or the regulations in this part or adopted under § 735.101.

§ 735.111 Use of Government property.

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property, including equipment, supplies, and other property entrusted or issued to him.

§ 735.112 Misuse of information.

For the purpose of furthering a private interest, an employee shall not, directly or indirectly use, or allow the use of, official information obtained through or in connection with his Government employment which has not been made available to the general public.

§ 735.113 General conduct prejudicial to the Government.

An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Government.

NOTE: This part was approved by the Civil Service Commission on April 6, 1972, and is effective on publication in the FEDERAL REGISTER (4–20–72).

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71–WE–52]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On February 18, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 3645) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Fortuna, Calif., transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.181 (37 F.R. 2143) the Fortuna, Calif., transition area is amended to read as follows:

FORTUNA, CALIF.

That airspace extending upward from 700 feet above the surface within 2 miles each side of the Fortuna VORTAC 327° radial, extending from the VORTAC to 8 miles northwest of the VORTAC; within 2 miles northeast and 4.5 miles southwest of the Fortuna VORTAC 147° radial, extending from the VORTAC to 3.5 miles southeast of the VORTAC; within 2.5 miles southwest and 3.5 miles northeast of the 129° and 309° bearings from the Rohnerville Airport (lat. 40°33'15" N., long. 124°07'53" W.), extending from 7.5 miles northwest to 3 miles southeast of the airport, and within 2 miles each side of the Fortuna VORTAC 034° radial, extending from the VORTAC to 11 miles northeast of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 4.5 miles southeast and 10 miles northwest of the Fortuna VORTAC 229° radial, extending from the VORTAC 19.5 miles southwest of the VORTAC.

(Sec. 307(a), 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a), 1510; Executive Order 10854, 24 F.R. 9565; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 13, 1972.

H. B. HELMSTROM,
Chief, Airspace and Air Traffic Rules Division.

[Docket No. 11876, Amdt. 135–31]

PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS OF SMALL AIRCRAFT

Additional Airworthiness Requirements: Airplanes With 10 or More Passenger Seats

The purpose of this amendment to Part 135 of the Federal Aviation Regulations is to establish procedures for the extension of the May 31, 1972, compliance date of § 135.144 which prescribes additional airworthiness requirements for reciprocating engine and turbo-propeller powered small airplanes with a passenger seating configuration, excluding any pilot seat, of 10 seats or more.

Section 135.144 was adopted by Amendment 135–18 and made effective on July 19, 1970. As adopted, the section prohibits, after May 31, 1972, any person from operating a reciprocating engine or turbo-propeller powered small airplane in Part 135 operations that has

V 37-77 APR 20 72 XUM

a passenger seating configuration, excluding any pilot seat, of 10 seats or more unless that airplane is type certificated—

(a) In the transport category;

(b) Before July 1, 1970, in the normal category and meets special conditions issued by the Administrator for airplanes intended for use in operations under Part 135;

(c) Before July 19, 1970, in the normal category and meets the additional airworthiness standards in SFAR No. 23; or

(d) In the normal category and meets the additional airworthiness standards prescribed in Appendix A to Part 135.

In recent months the FAA has learned, through request for exemptions and its own examination, that several operators have encountered difficulty in obtaining the modification kits necessary for achieving compliance with § 135.144 by May 31, 1972. This difficulty is further compounded by the fact that operators who place their orders now are faced with a lead time of 36 weeks for delivery after receipt of the order by the manufacturer. Once the kits are delivered, it is anticipated that a few more months, depending on the size of particular fleets, will be needed to complete installation on all affected airplanes. Furthermore, the FAA is aware of at least two operators who have taken steps to type certificate their airplanes in accordance with § 135.144 but who would, without the extension adopted herein or an exemption, be unable to operate. Accordingly, the FAA believes that it would be in the public interest to prevent the widespread disruption in air taxi service that would occur in the absence of the relief provided by this amendment.

Finally, it appears that several operators have delayed compliance with § 135.144 pending action by the FAA on a request which attempts to show that compliance with certain airworthiness requirements of SFAR 23 can be obtained with modifications less costly than those currently under consideration. Agency action on the substance of that request will be completed in the near future. Because we believe that the request is a good faith attempt to provide an alternate means of compliance, any associated delays in compliance should be accommodated where such action is in the public interest.

Because not all operators are in the same stage of modification, the FAA is of the opinion that an extension of the May 31, 1972 compliance date of § 135.144 that would provide flexibility is appropriate for dealing with individual situations. Accordingly, two new compliance dates have been selected, and will be available to affected operators based on their individual capabilities for compliance with § 135.144. Under this amendment, paragraph (a) of new § 135.144a permits an operator to obtain an extension, until November 30, 1972, of the May 31, 1972 compliance date by applying, prior to May 31, 1972, to the FAA Regional Director having jurisdiction over its operations. Paragraph (a) of § 135.144a requires the certificate holder to: submit its request to the FAA Principal Maintenance Inspector in the particular region; show that it has prepared and begun a program to modify the airplane in compliance with the additional airworthiness standards of § 135.144 by a certain date; describe what has been accomplished to achieve compliance as of the date of application; and submit a schedule for compliance with each requirement necessary for full compliance with § 135.144.

In order to provide for those operators who are granted an extension under paragraph (a) of § 135.144a but who are unable to achieve compliance with § 135.144 by November 30, 1972, paragraph (b) of § 135.144a permits a further extension until May 31, 1973, if the applicant shows that he has made a diligent effort to achieve compliance prior to November 30, 1972; that his inability to do so is due to circumstances beyond his control; and his request complies with the requirements of paragraph (a).

In view of the imminence of the May 31, 1972 compliance date, and since this amendment imposes no additional burden on any person, I find that notice and public procedure thereon are impracticable and that good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 135 of the Federal Aviation Regulations is amended, effective April 20, 1972, by adding a new section immediately following § 135.144 to read as follows:

§ 135.144a Special provisions for extension of the compliance date of § 135.144.

(a) A certificate holder may obtain an extension of the May 31, 1972 compliance date prescribed in § 135.144 until November 30, 1972, from the Director of the FAA Regional Office having jurisdiction over its operations if—

(1) It submits its request for an extension before May 31, 1972;

(2) It submits its request to the FAA Principal Maintenance Inspector in the region having jurisdiction over the certificate holder's operations;

(3) It shows that it has prepared and begun a program to modify the airplane in compliance with § 135.144 by a certain date;

(4) It describes what has been accomplished to achieve compliance as of the date of application; and

(5) It submits a schedule for compliance with § 135.144 with regard to each requirement necessary for full compliance therewith.

(b) A certificate holder granted an extension of the compliance date under paragraph (a) of this section may be granted a further extension of that date, but not beyond May 31, 1973, if—

(1) It submits its request after May 31, 1972, and before November 30, 1972;

(2) Its request complies with the requirements of paragraphs (a) (2) through (5) of this section; and

(3) It shows that due to circumstances beyond its control it cannot comply with the extended compliance date granted under paragraph (a) of this section.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 13, 1972.

K. M. SMITH,
Acting Administrator.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2179]

PART 13—PROHIBITED TRADE PRACTICES

Ecology Corporation of America et al.

Subpart—Advertising falsely or misleadingly: § 13.85 *Government approval, action, connection or standards;* § 13.195 *Safety:* 13.195-60 Product.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45 [Cease and desist order, Ecology Corporation of America et al., Paterson, N.J., Docket No. C-2179, March 30, 1972]

In the Matter of Ecology Corporation of America, a Corporation, North American Chemical Corporation, a Corporation, Venet Advertising, Inc., a Corporation

Consent order requiring two Paterson, N.J., corporations selling and distributing Ecolo-G detergent and their New York City advertising agency to cease misrepresenting that their detergent is safe and not hazardous, that no special precautions need be taken when using the detergent, and misrepresenting that any municipal, State or Federal agency has approved the label or any feature of their product.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondent Ecology Corporation of America, a corporation, its officers, representatives, agents, employees, successors and assigns and respondent North American Chemical Corp., a corporation, its officers, representatives, agents, employees, successors and assigns directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of Ecolo-G detergent or any other consumer product in commerce, as "commerce" is defined in the Federal Trade Commission Act, forthwith cease and desist from:

1. Representing, directly or by implication, that Ecolo-G, or any other such product which is a hazardous substance within the meaning of that term as used in the Federal Hazardous Substances Act, is safe and not hazardous.

2. Representing, directly or by implication, that no special precautions to avoid harm need be taken when using Ecolo-G, or any other product which is a hazardous substance within the meaning of that term as used in the Federal Hazardous Substances Act, and

3. Representing in any manner that the U.S. Government, or any agency thereof, or any State, municipal or local government, or any agency thereof, has approved the label of such product, or any part thereof, or has approved any feature of such product.

II. *It is ordered,* That respondent Venet Advertising Inc., a corporation, its officers, representatives, agents, employees, successors and assigns, directly or through any corporate or other device, in connection with the advertising, created and prepared by respondent, for Ecolo-G detergent or any other home laundry products used in the cleaning of clothing in commerce, as "commerce" is defined in the Federal Trade Commission Act, forthwith cease and desist from:

1. Representing, directly or by implication, that Ecolo-G, or any other such product which is a hazardous substance within the meaning of that term as used in the Federal Hazardous Substances Act, is safe and not hazardous,

2. Representing, directly or by implication, that no special precautions to avoid harm need be taken when using Ecolo-G, or any other product which is a hazardous substance within the meaning of that term as used in the Federal Hazardous Substances Act, and

3. Representing in any manner that the U.S. Government, or any agency thereof, or any State, municipal or local government, or any agency thereof, has approved the label of such product, or any part thereof, or has approved any feature of such product.

III. *It is further ordered,* That respondents Ecology Corporation of America and North American Chemical Corp. forthwith cease and desist from disseminating any advertisement for Ecolo-G detergent unless the cautionary statements required by the Food and Drug Administration under the Federal Hazardous Substances Act are clearly and conspicuously disclosed in such advertisement.

IV. *It is further ordered,* That all respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That each respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other changes in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That each respondent, within sixty (60) days after service upon it of this order, file with the Commission a written report setting forth in detail the manner and form of its compliance with the order.

Issued: March 30, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[Docket No. C-2178]

PART 13—PROHIBITED TRADE PRACTICES

Marshall Lewis Enterprises, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.15 *Business status, advantages, or connections:* 13.15-20 Business methods and policies; § 13.60 *Earnings and profits;* § 13.115 *Jobs and employment service;* § 13.260 *Terms and conditions.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1760 *Terms and conditions.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1905 *Terms and conditions.* Subpart—Securing signatures wrongfully: § 13.2175 *Securing signatures wrongfully.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Marshall Lewis Enterprises, Inc., et al., Jersey City, N.J., Docket No. C-2178, March 30, 1972]

In the Matter of Marshall Lewis Enterprises, Inc., a Corporation Doing Business as Radio Broadcasting Associates, and Dean Lewis, and Stuart Marshall, Individually

Consent order requiring a Jersey City, N.J., firm engaged in producing and coproducing radio shows and program features for radio stations to cease misrepresenting in its newspaper advertising that its courses of instruction will qualify participants as program producers, announcers or disc jockeys, misrepresenting the profits to be made by persons accepting respondents' offers, failing to reveal the costs to applicants prior to their signing a contract for tests and pilot shows, and failing to reveal all other terms and conditions of respondents' operation.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Dean Lewis and Stuart Marshall individually and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the solicitation of members of the general public to enter into contractual agreements to produce or coproduce and/or host radio shows or otherwise solicit contracts for the purchase of respondents' services, facilities, air time, or courses of instruction and training in broadcasting in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Misrepresenting directly or by implication:

(a) That employment is being offered when in fact the purpose is to obtain purchasers of respondents' services, facilities, air time or course of instruction and training.

(b) That the radio shows of respondents' "producers" are to be broadcast over a broadcasting network or networks or otherwise misrepresenting the range of radio transmission of said radio shows.

(c) That the radio shows of respondents' "producers" will be distributed by respondents to radio stations for sale or syndication; that such distributions are successful in terms of selling or syndicating said radio shows and that the "producers" of said radio shows may realize earnings therefrom.

(d) That the course of instruction and training offered by respondents is adequate to qualify participants as program producers, radio program hosts, announcers or disc jockeys.

2. Placing advertisements in newspapers, publications or any other media without a clear disclosure in said advertisements of the full name and address of the advertiser and the business in which the advertiser is engaged.

3. Misrepresenting in any manner the earnings, profits or gains derived or which may reasonably be derived by persons who are accepted by respondents to produce or coproduce and/or host radio shows or otherwise engage respondents' services, facilities, air time or courses of instruction and training in broadcasting.

4. Failing clearly and unqualifiedly to reveal, at the outset of the initial contact with members of the general public, that the purpose of such contact is to induce said members of the public to enter into contractual agreements with respondents to purchase respondents' products, services, or facilities as the case may be which shall be identified and described with particularity, including: the amounts or costs that may be incurred by applicants prior to the signing of a contract for tests, pilot shows or any other service or facility; the total cost of reveal, at the outset of the initial contact, the number, frequency and amount of all payments to be made pursuant to the terms of any contract which may be offered to any applicant; the downpayment required on the signing of a contract and the number, frequency and amount of all payments to be made pursuant to the terms of any contract which may be offered to any applicant.

5. Failing clearly and unqualifiedly to reveal, at the outset of the political contact with members of the general public who may enter into contractual agreements with respondents, all the terms and conditions of each and every type of contract which respondents may ultimately offer to said persons; the circumstances and requirements pursuant to which each type of contract may be offered to any individual and complete details as to the manner and method by which said persons can derive income pursuant to each such contract.

6. Failing clearly and unqualifiedly to disclose orally or by written communication at the outset of the initial contact

V 37 77
APR 20 72
XUM

with members of the general public and prior to their entry into contractual agreements with respondents to produce or coproduce and/or host radio shows or engage respondents' services, facilities, air time or courses of instruction and training in broadcasting:

(a) That respondents do not undertake to obtain sponsors or lend any assistance in obtaining sponsors for radio shows of said members of the public.

(b) The percentage of persons who have entered into such contractual agreements with respondents who have obtained sponsors for their radio shows and the average income derived from sponsors for all such persons during the year preceding.

7. Failing to clearly and unqualifiedly set forth in writing in all contracts for the production of radio programs the minimum number of radio programs which must be completed in order to avoid a retroactive increase in each program's production costs and the dollar amount to be paid for each program's production costs or any other costs, retroactively, in the event the contract is canceled prior to the completion of the minimum number of radio programs.

It is further ordered, That respondents deliver a copy of this order to all present and future employees, instructors or other persons engaged in the offering for sale or sale of respondents services, facilities, air time or courses of instruction and training.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: March 30, 1972.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Titan Enterprises, Inc., et al., Chicago, Ill., Docket No. C-2173, March 20, 1972]

In the Matter of Titan Enterprises, Inc., a Corporation, Trading as V.I.P. International Scientific Co., and Anthony J. Damato, Individually and as an Officer of Said Corporation, and Dean Forcucci, Individually

Consent order requiring a Chicago, Ill., corporation engaged in selling surgically-implanted hairpieces to cease making false claims for its PERMATEQUE hair replacement system by misrepresenting that the replaced hair has all the characteristics of natural hair and that no maintenance costs are necessary, respondents are also required to affirmatively disclose that the application of its system involves surgery wherein discomfort, pain and medical problems may occur, they are also required to notify prospective purchasers to consult their personal physicians, no contract shall become binding prior to the third day after execution, nor shall any promissory note be negotiated to a third party until the fifth day after the physician consultation, and each prospective customer shall be notified of his right to cancel any contract within 3 days.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Titan Enterprises, Inc., a corporation, trading as V.I.P. International Scientific Co., or under any other trade name or names, its successors and assigns, and Anthony J. Damato, individually and as an officer of said corporation and Dean Forcucci, individually (hereinafter sometimes referred to as "respondents"), and respondents' officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, or distribution of the Perma-Teque hair replacement system or other hair replacement product or process involving surgery (hereinafter sometimes referred to as the "System"), in commerce, as "commerce" is defined in the Federal Trade Commission Act, or by the U.S. mails within the meaning of section 12 (a) (1) of the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That the System does not involve wearing a device or cosmetic which is like a hairpiece or toupee;

2. That after the System has been applied, the hair applied becomes part of the anatomy like natural hair, teeth, and fingernails and has the following characteristics of natural hair;

a. The same appearance in all applications as natural hair, upon normal observation, and upon extreme close-up examination;

b. It may be cared for like natural hair where care involves possible pulling on the hair;

c. The wearer may engage in physical activity and movement with the same disregard for his hair as he would if he had natural hair.

3. That after the System has been applied, the wearer can care for it himself, and will not have to seek professional or skilled assistance in maintaining the System, and that the customer will not incur maintenance costs over and above the cost of applying the System.

It is further ordered, That respondents, in advertising and in all oral sales presentations, offering for sale, selling, or distributing the System, disclose clearly and conspicuously that:

1. The System involves a surgical procedure resulting in the implantation of stainless steel sutures in the scalp, to which hair is affixed;

2. By virtue of the surgical procedure involving implantation of stainless steel sutures in the scalp, and by virtue of the stainless steel sutures remaining in the scalp, there is a high probability of discomfort and pain; and a risk of infection, skin disease, and scarring.

3. The System has been in use for too short a period of time to determine to a reasonable medical certainty the extent or seriousness of the above-described side effects, or whether there are other side effects.

4. Continuing special care of the System is necessary to minimize the probabilities and risks referred to in subparagraph 2 of this paragraph, and such care may involve additional costs for medications and assistance.

5. The purchaser is advised to consult with his personal physician about the System before deciding whether to purchase it.

Respondents shall set forth the above disclosures separately and conspicuously from the balance of each advertisement or presentation used in connection with the advertising, offering for sale, sale, or distribution of the System, and shall devote no less than 15 percent of each advertisement or presentation to such disclosures: *Provided however,* That in advertisements which consist of less than 10 column inches in newspapers or periodicals, and in radio or television advertisements with a running time of 1 minute or less, respondents may substitute the following statement, in lieu of the above requirements:

Warning: This application involves surgery whereby stainless steel sutures are placed in the scalp. Discomfort, pain and medical problems may occur. Continuing care is necessary. Consult your own physician.

No less than 15 percent of such advertisements shall be devoted to this disclosure, such disclosure shall be set forth clearly and conspicuously from the balance of each of such advertisements, and if such disclosure is in a newspaper or periodical, it shall be in at least 11-point type.

It is further ordered, That respondents provide prospective purchasers with a separate disclosure sheet containing the information required in the immediately preceding paragraph of this order, subparagraphs 1 through 5, thereof, and that respondents require that such prospective purchasers, subsequent to receipt of such disclosure sheet, consult with a duly licensed physician who is not associated, directly or indirectly, financially or otherwise, with the respondents regarding the nature of the surgery to be done, the probabilities of discomfort and pain, and risks of infection, skin disease, and scarring.

It is further ordered, That no contract for application of respondents' System shall become binding on the purchaser prior to midnight of the third day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician who is not associated, directly or indirectly, financially, or otherwise, with the respondents, or after the day on which said contract for application of the System was executed, whichever day is later, and that:

1. Respondents shall clearly and conspicuously disclose, orally prior to the time of sale, and in writing on any contract, promissory note or other instrument executed by the purchaser in connection with the sale of the System, that the purchaser may rescind or cancel any obligation incurred, by mailing or delivering a notice of cancellation to the office responsible for the sale prior to midnight of the third day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician or after the day on which said contract for application of the System was executed, whichever day is later.

2. Respondents shall provide a separate and clearly understandable form which the purchaser may use as a notice of cancellation.

3. Respondents shall not negotiate any contract, promissory note, or other instrument of indebtedness to a finance company or other third party prior to midnight of the fifth day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician, or after the day on which said contract for application of the System was executed, whichever day is later.

4. Respondents shall obtain for each purchaser a certificate signed by the physician who was consulted as required by this order, such certificate specifying that the said physician has explained to the purchaser the nature of the surgery to be done, and has advised him of the probabilities of discomfort and pain, and risks of infection, skin disease and scarring, and specifying the date and approximate time of the consultation; and respondents shall retain all such certificates for 3 years.

It is further ordered, That respondents serve a copy of this order upon each physician participating in application of respondents' System, and obtain written acknowledgment of the receipt thereof. Respondents shall retain such acknowledgments for so long as such persons continue to participate in the application of respondents' System.

It is further ordered, That respondents forthwith distribute a copy of this order to each of their operating divisions or departments.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, licensees, or franchisees, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That in the event that the corporate respondent merges with another corporation or transfers all or a substantial part of its business or assets to any other corporation or to any other person, said respondent shall require such successor or transferee to file promptly with the Commission a written agreement to be bound by the terms of this order; provided that if said respondent wishes to present to the Commission any reasons why said order should not apply in its present form to said successor or transferee, it shall submit to the Commission a written statement setting forth said reasons prior to the consummation of said succession or transfer.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, signed by such respondents, setting forth in detail the manner and form of their compliance with this order.

Issued: March 20, 1972.

By the Commission.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852–75 Truth in Lending Act; § 13.1892 *Sales contract, right-to-cancel provisions;* § 13.1905 *Terms and conditions:* 13.1905–60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601–1605) [Cease and desist order, Union Mortgage Co., et al., Los Angeles, Calif., Docket No. C-2177]

In the Matter of Union Mortgage Co., a Corporation Doing Business as Union Home Loans, and Stockton Home Mortgage Co., a Corporation Doing Business as Union Home Loans, and Hacienda Home Loans, a Corporation, and Irving Tushner, Individually, and Joseph Seedman, Individually and as an Officer of Said Corporations

Consent order requiring three California companies located in Los Angeles and Sacramento engaged in arranging loans secured by real property to cease violating the Truth in Lending Act by failing to disclose in its extension of consumer credit the terms annual percentage rate, finance charge, amount financed, the number of installments, any charge for life or property insurance, and other disclosures required by Regulation Z of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Union Mortgage Co., a corporation, doing business as Union Home Loans or any other name, respondent Stockton Home Mortgage Co., a corporation, doing business as Union Home Loans or any other name, respondent Hacienda Home Loans, a corporation doing business as Hacienda Home Loans or any other name, their officers, and respondent Irving Tushner, individually, and respondent Joseph Seedman, individually and as an officer of respondent corporations, and respondents; agents, representatives, and employees, directly or thorugh any corporate or other device, in connection with the advertising, extension of "consumer credit," or arranging for "consumer credit" as defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Causing to be disseminated to the public in any manner whatsoever any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, which advertisement states:

a. The dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit unless it states all of the following items in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z;

(1) The amount of the loan;

(2) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(3) The amount of the finance charge expressed as an annual percentage rate; and

(4) The sum of the payments.

b. That a specific amount of credit, installment amount, or period of repayment can be arranged unless respondents usually and customarily arrange or will arrange credit amounts on installments for the stated amount and for the stated period, as required by § 226.10(a) of Regulation Z.

c. That loans at a specific annual percentage rate can be arranged unless respondents usually and customarily arrange or will arrange loans at the stated annual percentage rate.

d. Any amount represented to be the amount of credit available to borrowers other than the "amount financed" as defined in §§ 226.2(d) and 226.8(d)(1) of Regulation Z.

2. Failing to disclose the annual percentage rate computed in accordance

APR 20 72 XUM

with § 226.5 of Regulation Z to the nearest quarter of 1 percent, as required by §§ 226.8 and 226.10 of Regulation Z.

3. Failing to make all disclosures required by Regulation Z clearly, conspicuously, and in meaningful sequence, as required by § 226.6(a) of Regulation Z.

4. Failing to print the terms "finance charge" and "annual percentage rate," where required to be used, more prominently than the other terminology required to be used by Regulation Z, as required by § 226.6(a) thereof.

5. Failing to make all the required disclosures in one of the following three ways, in accordance with § 226.8(a) or § 226.801 of Regulation Z.

(a) Together on the contract evidencing the obligation on the same side of the page and above or adjacent to the place for the customer's signature; or

(b) On one side of a separate statement which identifies the transaction; or

(c) On both sides of a single document containing on each side thereof the statement "Notice: See other side for important information," with the place for the customer's signature following the full content of the document.

6. Stating, utilizing, or placing any additional information in conjunction with the disclosures required by Regulation Z to be made, which information misleads or detracts attention from the information required by Regulation Z to be disclosed.

7. Failing to identify each creditor in the transaction, as required by § 226.6(d) of Regulation Z.

8. Failing to disclose the date on which the finance charge begins to accrue when different from the date of the transaction, as required by § 226.8(b)(1) of Regulation Z.

9. Failing to disclose the due dates of the payments scheduled to repay the indebtedness, as required by § 226.8(b)(3) of Regulation Z.

10. Failing to include in the finance charge, for purposes of disclosure of the finance charge and computation of the annual percentage rate, any of the following charges incurred by the customer:

a. Any charge for credit life or disability insurance, if a specific dated and separately signed affirmative written indication of the customer's desire for such insurance is not obtained, as provided in § 226.4(a)(5) of Regulation Z;

b. Any charge for property insurance, if a specific statement in writing is not made that the customer may choose the person through whom such insurance is obtained, as provided in § 226.4(a)(5) of Regulation Z;

c. Any charge for servicing extensions of credit or for collecting payments scheduled to repay the customer's indebtedness, as required by § 226.4(a) of Regulation Z.

11. Failing to disclose the amount of the finance charge accurately, as required by § 226.8(d)(3) of Regulation Z.

12. Failing to identify any payment which is more than twice the amount of an otherwise regularly scheduled equal payment as a "balloon payment," or failing to state the conditions under which that payment may be refinanced if not paid when due, as required by § 226.8(b)(3) of Regulation Z.

13. Failing, when any existing extension of credit is refinanced within the meaning of § 226.8(j) of Regulation Z, to make all disclosures required by Regulation Z to be made as if the refinancing were a new transaction, as required by § 226.8(j) of Regulation Z.

14. Failing, in any transaction in which a security interest is or will be retained or acquired in real property which is used or is expected to be used as the principal residence of the customer, including any transaction required by § 226.8(j) of Regulation Z to be treated as a new transaction, to:

a. Provide each customer who has the right provided by § 226.9(a) of Regulation Z to rescind the transaction with two copies of the notice of right to rescind in the form required by § 226.9(b) of Regulation Z, which notice shall identify the transaction to which the right to rescind related, as required by § 226.9(b) of Regulation Z.

b. Provide each customer who has the right provided by § 226.9(a) of Regulation Z to rescind the transaction with a copy of all disclosures required under § 226.8 thereof, as required by § 226.6(e) of Regulation Z.

15. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents cease and desist collecting monthly loan service charges on any loans consummated subsequent to July 1, 1969, in which said loan service charge was not disclosed on the truth in lending disclosure statements as part of the finance charge of those transactions.

It is further ordered, That respondents rebate or credit the account of every borrower who obtained a loan through respondents subsequent to July 1, 1969, with the amount of any monthly loan service charge imposed against those borrowers' accounts subsequent to July 1, 1971, in which said loan service charge was not originally disclosed as part of the finance charge of those transactions on the truth in lending disclosure statements provided those borrowers at the time the loans were consummated.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondents herein shall, within 60 days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 24, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or For the Treatment of Food-Producing Animals

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

DIETHYLCARBAMAZINE

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (11-380V) filed by American Cyanamid Co., Post Office Box 400, Princeton, N.J. 08540, proposing revised labeling regarding the safe and effective use of diethylcarbamazine including the requirement that the drug be made available only on a prescription basis. The supplemental application is approved.

The order also provides for recodification of the regulation concerning diethylcarbamazine from Part 121 to Part 135c in accordance with § 3.517 (21 CFR 3.517).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)), in accordance with § 3.517 (21 CFR 3.517), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135c are amended as follows:

§ 121.214 [Deleted]

1. Part 121 is amended in Subpart C by deleting § 121.214 *Diethylcarbamazine* which is being recodified into Part 135c.

2. Part 135c is amended by adding the following new section:

§ 135c.20 Diethylcarbamazine.

(a) *Chemical name.* N,N-Diethyl-4-methyl-1-piperazine-carboxamide.

(b) *Specifications.* Each pound of the drug contains 30 grams of diethylcarbamazine (as base).

(c) *Sponsor.* See code No. 004 in § 135.501(c) of this chapter.

(d) *Conditions of use.* (1) It is administered to dogs to control large roundworms (*Toxocara canis*). It is added to the daily diet in those areas where roundworms are suspected or known to be a problem.

(2) It is administered daily in meal or moist feeds as follows:

Weight of animal in pounds	Recommended amount per day	Dosage in milligrams
20	¼ level teaspoonful	82
50	½ level teaspoonful	70
100	1 level teaspoonful	149

(3) Dogs with established heartworm infections should not receive diethylcarbamazine until they have been converted to a negative status.

(4) For use only by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4-20-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: April 12, 1972.

FRED J. KINGMA, *Acting Director, Bureau of Veterinary Medicine.*

Title 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 479-72]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart H—Antitrust Division

CONSUMER AFFAIRS LITIGATION; SPECIAL FUNCTIONS

This order updates the Department of Justice regulations assigning responsibility for certain consumer affairs litigation to the Antitrust Division.

By virtue of the authority vested in me by 5 U.S.C. 301 and 28 U.S.C. 509, 510, Subpart H of Part O of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

Section 0.41 is amended by revising paragraph (b) and by adding a new paragraph (h) to read as follows:

§ 0.41 Special functions.

• • • • •

(b) Upon appropriate certification by the Federal Trade Commission the institution of civil or criminal proceedings to impose penalties for violations of the unfair or deceptive practices provisions of the Federal Trade Commission Act.

• • • • •

(h) All litigation arising under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), the Federal Hazardous Substances Act (15 U.S.C. 1261 et seq.), the Fair Packaging and Labeling Act (15 U.S.C. 1451 et seq.), the Child Protection and Toy Safety Act of 1969 (15 U.S.C. 1261, 1261 note, 1262, and 1274), the Automobile Information Disclosure Act (15 U.S.C. 1231 et seq.), the Federal Cigarette Labeling and Advertising Act as amended by the Public Health Cigarette Smoking Act (15 U.S.C. 1331 et seq.), the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471 et seq.), the Federal Caustic Poison Act (15 U.S.C. 401 note), sections 112, 619, and 620 of the Consumer Credit Protection Act (15 U.S.C. 1611, 1681q, and 1681r), the Wool Products Labeling Act of 1939 (15 U.S.C. 68 et seq.), the Fur Products Labeling Act (15 U.S.C. 69 et seq.), and the Textile Fiber Products Identification Act (15 U.S.C. 70 et seq.).

Dated: April 13, 1972.

RICHARD G. KLEINDIENST,
Acting Attorney General.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER B—PERSONNEL; MILITARY AND CIVILIAN

PART 60—DEPARTMENT OF DEFENSE DRUG ABUSE TESTING PROGRAM

The Assistant Secretary of Defense (Health and Environment) approved the following:

Sec.
60.1 Purpose.
60.2 Applicability.
60.3 Policy and responsibilities.
60.4 Periodic review.
60.5 Testing criteria and geographic areas of responsibility.

AUTHORITY: The provisions of this Part 60 issued under sec. 301, 80 Stat. 379; 5 U.S.C. 301.

§ 60.1 Purpose.

This part establishes requirements for a systematic drug abuse testing program of military personnel on extended duty; to provide for early identification of individuals who require treatment and rehabilitation; to develop improved data on prevalence rates of drug abuse by area; and to provide a degree of deterrence for certain individuals.

§ 60.2 Applicability.

The provisions of this part apply to the Departments of Army, Navy, and Air Force.

§ 60.3 Policy and responsibilities.

(a) *General.* All members of the United States Army, Navy, Marine Corps, and Air Force on extended active duty will be screened annually using a method of random testing. Biochemical testing of urine samples is the acceptable screening method, with tests sufficiently sensitive to identify to a high degree of certainty those individuals who, at the time of testing, are excreting the drugs in question. Since biochemical tests cannot differentiate drug abusers from legitimate users, medical evaluation is essential to arrive at a diagnosis. Thus, for those individuals who may be identified as positive through the biochemical screen, medical evaluation provides the only means of differentiating drug dependent individuals, casual drug abusers, legitimate drug users, and false positives.

(b) *Characteristics and establishment of the random testing program.* (1) The overall objectives of the random testing program are to provide a deterrent effect on experimental and casual users, and enable earlier detection of drug abusers thereby enhancing their recovery from the drug abuse syndrome prior to serious physical or psychological deterioration.

(2) The detection rate is calculable in advance as a function of the number of days per year an individual uses drugs and the proration of tests performed on each man per year. This program will generate data which may also be used to identify drug abuse trends, and geographic risk areas. Also the frequency of testing may be increased to better the odds of detecting an individual during his most vulnerable periods of service.

(3) The concept of the random testing program establishes a procedure to attain the maximum realistic detection capability within certain prescribed criteria. Although the guidance contained in Optimized Method of Random Testing, DASD(DAA) No. 1–72[1] is of a detailed nature, its provision is for information and assistance only. The services are authoried to develop their own random testing program utilizing the following criteria:

(i) Ensure a relatively constant workload on the urine testing labs.

(ii) Provide a completely random system of selecting those to be tested so that an individual's chances for testing will remain relatively constant throughout the year.

(iii) Be completely unannounced to the individuals tested.

(iv) Be invulnerable to prediction by the subjects based upon historical analysis.

(v) Be capable of adjusting to changing requirements.

(vi) Use the testing frequencies prescribed in § 60.5 for guidance.

(c) *Laboratory methodology.* The military departments will develop standardized laboratory procedures for detection of users of drugs of abuse consistent with the following:

(1) Determine the specific gravity on each sample. Individuals whose samples are found to be less than 1.010 specific gravity will be required to submit another specimen for testing.

(2) Collect urine specimens for testing under direct observation, minimum volume 50 milliliters, properly label for positive identification and forward to the laboratory under secure conditions without preservation or refrigeration to arrive within 5 days of specimen collection.

(3) For drug screening, apply a single set of drug detection sensitivity levels, regardless of the screening method used, as follows:

(i) Total Morphine—0.5 microgram/milliliter

(ii) Methadone/Codeine—1.0 microgram/milliliter

(iii) Amphetamines—5.0 microgram/milliliter

(iv) Barbiturates — 1.0 microgram/milliliter

(4) For laboratory confirmation use gas liquid chromatography.

(5) The laboratory will report electrically, within 48 hours of receipt of the specimen, confirmed positive results to the originating agency for medical evaluation. A written follow-up report of results will be provided on all specimens received.

(d) *Quality control.* Pursuant to authority in 37 F.R. 3772, Secretary of the Army is designated the Executive Agent for coordinating quality control of the drug detection program of the military departments. The objective is to establish a single quality control program applicable to all in-service laboratories of the military departments and to civilian contract laboratories, with the quality control activity performed by the Armed Forces Institute of Pathology. Each of the services will support as necessary the Army's function as quality control agent for the triservice urine testing program. The provisions of the Armed Services Procurement Regulations 32 CFR 1–30 will be observed in contractual arrangements with civilian agencies.

(e) *Geographic area testing responsibilities.*[2] The assigned geographic areas of responsibility for drug testing are shown in Section II of § 60.5(b) below. Since they vary in their drug prevalence and military populations, a redistribution of testing assignments may be made in the future. The designated drug risk areas and frequency of testing shown in the Testing Criteria (§ 60.5 (a)) were determined in accordance with drug abuse experience or predicted drug availability.

(f) *Service personnel to be tested.* (1) All members of the Army, Navy, Marine Corps, and Air Force on extended active duty will be tested in accordance with random methods to at least the minimum frequencies prescribed herein. In addition, certain mandatory event testing is required:

(i) Initial entry into active duty.

(ii) DEROS (Vietnam and Thailand).

(iii) First reenlistments.

(2) The following types of military personnel are classified as high risk, for testing purposes, and shall be tested at a more frequent rate:

(i) Drug rehabilitants undergoing treatment at rehabilitation centers.

(ii) Staff members supporting rehabilitation efforts.

(iii) Rehabilitatees on return to duty.

(3) Schedules of testing for the foregoing are included in testing criteria (§ 60.5(a)).

§ 60.4 Periodic review.

Review of the testing program will be conducted on a semiannual basis with notice provided by ASD(H&E) on his designee. For planning purposes the first review will be a triservice conference scheduled for July 1972.

§ 60.5 Testing criteria and geographic areas of responsibility.[2]

(a) *Testing criteria.*—(1) *Random testing frequency.* (i) High Risk Areas–Average 3.0 Tests Per Person/Year:

(*a*) Vietnam
(*b*) Thailand
(*c*) Philippines
(*d*) Okinawa;

(ii) Moderate Risk Areas–Average 1.6 Tests Per Person/Year:

(*a*) Korea

SUBCHAPTER F—TRANSPORTATION

PART 178—TRANSPORTATION AND TRAFFIC MANAGEMENT

The Deputy Secretary of Defense approved the following revision to Part 178.

Sec.
178.1 Purpose and applicability.
178.2 Responsibilities.
178.3 Policies.

AUTHORITY: The provisions of this Part 178 issued under 5 U.S.C. 301 and 10 U.S.C. 2202.

§ 178.1 Purpose and applicability.

(a) This part promulgates general policies governing the use of Department of Defense (DoD)-owned transportation capability and the use of commercial transportation for the movement of cargo (including personal property) and passengers.

(b) The provisions of this part apply to all components of the DoD.

§ 178.2 Responsibilities.

The Assistant Secretary of Defense (Installations and Logistics) shall be responsible for:

(a) Establishing policies and providing guidance to DoD components concerning (1) the efficient and effective use of DoD and commercial transportation resources, and (2) the establishment and operation of Transportation Single Manager Agencies.

(b) Assuring that all DoD components are guided by and pursue policies which are consistent with applicable statutes and relevant decisions and rulings of the courts, the Office of Management and Budget, and transportation regulatory bodies.

§ 178.3 Policies.

(a) *Control and organization of transportation resources.* DoD transportation resources shall be so organized and managed as to assure optimum responsiveness, efficiency, and economy in support of the defense mission.

(b) *The DoD-owned transportation force.* There shall be maintained and operated in peacetime sufficient DoD-owned transportation resources to meet approved DoD emergency and wartime requirements, having due regard for available commercial transportation. These transportation resources will be used in peacetime to provide essential training for operational personnel and for logistic needs as appropriate to assure military effectiveness in support of national defense policies. The military capability generated thereby will be utilized in the most efficient and effective manner possible.

(c) *Selecting the means of transportation*—(1) *General.* The means of transportation selected shall be that which will meet DoD requirements satisfactorily at the lowest overall cost from origin to the final known destination (in CONUS or overseas). In determining the lowest overall cost, consideration shall be given to the extent to which expedited movement will contribute to economies through reduction in pipeline or stored supplies, personnel travel time, or other factors such as shipment preparation costs or reduction of loss or damage to cargo. In addition, the benefits of routing cargo to enable (i) consolidation of shipments and (ii) distribution of fixed costs through the use of government controlled resources shall be considered.

(2) *Foreign flag ships.* (i) Foreign flag ships will not be used for DoD traffic except to the extent necessary to meet military requirements when U.S. flagships are (*a*) not available or (*b*) available only at prices higher than private persons are charged.

(ii) No cargoes financed by the Department of Defense will be shipped from the United States on a foreign-flag ship which has called at a (*a*) Cuban port on or after January 1, 1963, or (*b*) North Vietnam port on or after January 25, 1966, unless the Secretary of Commerce, after consultation with the Secretary of State, has made a specific exception therefor.

(3) *Foreign-flag air carriers.* Foreign-flag air carriers will not be used for DOD traffic (cargo and passenger) except when (i) U.S.-flag air carriers are not available or capable of satisfying the transportation requirement, or (ii) foreign-flag air carriers will accept payment in excess or near-excess U.S.-owned foreign currencies which U.S.-flag carriers will not accept (DOD Instruction 7360.9, "Use of United States-owned Foreign Currencies", July 2, 1971).[1]

(d) *Explosives and other dangerous articles.* (1) Shipments of explosives and other dangerous articles shall conform to applicable requirements established by statute or by regulatory bodies having responsibility over such traffic.

(2) Shipments will not knowingly be tendered for transportation in a manner, form, or under conditions which will result in a carrier violation of any of the above-mentioned requirements

(3) Any proposed DOD requirement governing the movement of explosives or other dangerous articles which is more restrictive than or exceeds such requirements must be submitted to the Assistant Secretary of Defense (Installations and Logistics) for approval.

(e) *Negotiations for commercial transportation.* (1) The appropriate Transportation Single Manager or Military Department (DOD Directives 5160.2 (published at 32 F.R. 6291), 5160.10 (published at 32 F.R. 6300 and 32 F.R. 11387), 5160.53 (published at 32 F.R. 6295)) and DOD Instructions 4500.2, "Land Transportation in Overseas Areas," August 17, 1954 [1] and 4500.17, "Proceedings Before Transportation Regulatory Bodies," January 16, 1969 [1] shall (i) maintain a continuing review of applicable charges to assure that they are fair and reasonable for the DOD traffic to which they apply, and (ii) take appropriate action to obtain proper relief from those which are found to be unfair or unreasonable.

(2) In negotiations involving general rate and service matters or competitive procurement the responsible DOD element will assure that all qualified carriers are afforded an opportunity to participate on an equal basis.

(3) In negotiating for rates or services, a guarantee of tonnage apart from the contract for specific services shall not be made to individuals carriers or carrier groups or associations. This will not preclude dissemination of information as to potential movements if such information does not compromise national security.

(f) *Non-DOD use of DOD transportation.* (1) DOD transportation may be authorized for other than DOD missions when:

(i) U.S. commercial carriers cannot meet the official national interest requirements of other U.S. Government agencies, space is available on DOD tranportation resources, and use of such resources will not impair the defense mission. Reimbursement will be at a rate computed to recover all costs except those related to military personnel and capital investments, in accordance with DOD Directive 7410.4, "Regulations Governing Industrial Fund Operations", January 2, 1970.[1]

(ii) The Head of a Federal executive department or agency certifies that U.S. commercial carriers are not available to meet the national interest requirement of non-U.S. Government traffic or the service is justified by reason of statute, public health, or safety. Reimbursement by the organization or individual concerned will be at a rate computed to cover full costs to the U.S. Government, including military personnel costs and/or depreciation allowances for capital investments, in accordance with DOD Directive 7410.4, "Regulations Governing Industrial Fund Operations." January 2, 1970,[1] but shall not be lower than comparable commercial rates.

(2) Requests for such DoD transportation will be submitted to the Secretary of Defense or the Secretaries of the Army, Navy, or Air Force, and must include a certification as to the need therefor and the nonavailability of commercial transportation. When the danger to public health or safety is of such imminent seriousness as to preclude obtaining such approval, the appropriate commander will take such action as the circumstances require, with notification to the appropriate Secretary; however, the transportation will be furnished with the understanding that the DoD will be reimbursed unless reimbursement is subsequently waived by the Assistant Secretary of Defense (Comptroller).

Chapter XVIII—Office of Civil Defense, Office of the Secretary of the Army

PART 1807—CONTRIBUTIONS FOR CIVIL DEFENSE PERSONNEL AND ADMINISTRATIVE EXPENSES

Cash Advances

Section 1807.10 is revised to read as follows:

§ 1807.10 Advances.

(a) States may obtain cash advances of the Federal contribution by drawing payment vouchers against letters of credit in accordance with procedures established by OCD. Each drawdown on a letter of credit shall be initiated at approximately the same time that the recipient State, or its participating political subdivision is to disburse its funds in payment of eligible civil defense personnel and administrative expenses, and shall be in the amount required to cover the Federal share of such imminent disbursement. Neither the State nor any of its political subdivisions shall accumulate Federal funds beyond the amounts needed for immediate disbursement.

(b) Unlike the States, political subdivisions are required to return to the Federal Government interest earned on advances. Proper use of the drawdown procedure should preclude the accrual of interest on funds drawn by a State or any of its political subdivisions. Failure to observe the time and amount limitations on drawdowns or to meet the reporting requirements established by OCD may result in revocation of the unobligated portion of the letter of credit.

(c) Advanced funds must be separately identified and properly accounted for as Federal funds in the fund accounts of the State and, where applicable, its political subdivisions. The Director of Civil Defense and the Comptroller General of the United States or any of their duly authorized representatives shall have access for the purpose of audit and examination to any books, documents, papers, and records that are pertinent to a Federal contribution or to an advance of Federal funds.

(64 Stat. 1255, 72 Stat. 533, 50 U.S.C. App. 2253, 2286; Reorg. Plan No. 1 of 1958, as amended, 72 Stat. 1799–1801, 23 F.R. 4991; E.O. 10952, as amended, 26 F.R. 6577; Establishment of the Office of Civil Defense and Delegation of Authority Regarding Civil Defense Functions, published 10 April 1964, 29 F.R. 5017)

Effective date. This amendment is effective immediately.

Dated: April 11, 1972.

JOHN E. DAVIS,
Director of Civil Defense.

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O-Ethyl S,S-Dipropylphosphorodithioate

A petition (PP 2F1204) was filed by Mobil Chemical Co., Industrial Chemicals Division, Post Office Box 677, Richmond, VA 23208, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the insecticide *O*-ethyl *S,S*-dipropylphosphorodithioate in or on the raw agricultural commodities sugarcane and sugarcane fodder and forage at 0.02 part per million (negligible residue).

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the tolerances are being established.

2. The proposed use is not reasonably expected to result in residues of the insecticide in eggs, meat, milk, and poultry. The use is classified in the category in § 180.6(a)(3).

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.262 is revised to read as follows:

§ 180.262 *O*-Ethyl *S,S*-dipropylphosphorodithioate; tolerances for residues.

Tolerances are established for negligible residues of the insecticide *O*-ethyl *S,S*-dipropylphosphorodithioate in or on the raw agricultural commodities bananas, corn grain, corn fodder and forage, fresh corn including sweet corn (kernels plus cob with husk removed), peanuts, peanut hay, pineapples, pineapple fodder and forage, soybeans, soybean forage and hay, sugarcane, sugarcane fodder and forage, and sweetpotatoes at 0.02 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4–20–72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: April 12, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 101—Federal Property Management Regulations

SUBCHAPTER E—SUPPLY AND PROCUREMENT

PART 101–25—GENERAL

Subpart 101–25.1—General Policies

TIRE IDENTIFICATION PROGRAM

This amendment clarifies the policy with regard to tire recordkeeping required of motor vehicle manufacturers.

V 37-77
APR 20 72
XUM

Section 101-25.110-3 is revised as follows:

§ 101-25.110-3 Tires accompanying new motor vehicles.

The tire identifications and record-keeping regulations issued by the Department of Transportation require each motor vehicle manufacturer or his designee to maintain a record of tires on or in each vehicle shipped by him together with the name and address of the first purchaser.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (4-20-72).

Dated: April 14, 1972.

HAROLD S. TRIMMER, Jr.,
Acting Administrator of General Services.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1030-A]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Co. Authorized to Operate Over Tracks of Atchison, Topeka and Santa Fe Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 10th day of April 1972.

Upon further consideration of Service Order No. 1030 (34 F.R. 11211, 15250; 35 F.R. 5334, 10661, 15294; 36 F.R. 5978, 11999, 19370, 25423), and good cause appearing therefor:

It is ordered, That: *§ 1033.1030 Service Order No. 1030-A.* (Chicago, Rock Island and Pacific Railroad Company authorized to operate over tracks of the Atchison, Topeka and Santa Fe Railway Company) be, and it is hereby vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10-17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17 (2))

It is further ordered, That this order shall become effective at 11:59 p.m., April 11, 1972; that copies of this order and direction shall be served upon the Association of American Railroads Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.72-6055 Filed 4-19-72;8:52 am]

[S.O. 1096]

PART 1033—CAR SERVICE

Southern Railway Co. Authorized To Operate Over Tracks of St. Louis-San Francisco Railway Co. and Over Tracks of Missouri Pacific Railroad Co. and Missouri Pacific Railroad Co. Authorized To Operate Over Tracks of Southern Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 11th day of April 1972.

It appearing, that, because of general deterioration, the present crossings and track connections between the Missouri Pacific Railroad Co. and the Southern Railway Co. at Kansas City Junction, Memphis, Tenn., have become unsafe for normal operation unless undertaken with excessive precautions; that extensive rebuilding of these crossings and connections is necessary for continued operation through this area; that a general rearrangement of the use of tracks approaching Kansas City Junction, Memphis, Tenn., from the west will facilitate the prompt reconstruction of the necessary crossings and track connections at Kansas City Junction; that the Southern Railway Co. seeks authority to operate over the former northbound main track of the St. Louis-San Francisco Railway Co. (SL-SF) between SL-SF chaining station 25656+03 and SL-SF chaining station 25558+58.5 at Memphis, Tenn.; that the Missouri Pacific Railroad Co. seeks authority to operate over the former eastbound main track of the Southern Railway Co. (Sou) between Sou chaining station 103+07 and Sou chaining station 5+63 at Memphis, Tenn.; that the Missouri Pacific Railroad Co. seeks authority to operate over the westbound main track of the Southern Railway Co. (Sou) between Sou chaining station 106+68 and Sou chaining station 7+63 at Memphis, Tenn.; that the Southern Railway Co. seeks authority to operate over the former main track of the Missouri Pacific Railroad Co. (MP) between MP chaining station 15+63 and MP chaining station 21+04 at Memphis, Tenn.; that the Commission is of the opinion that operations over these tracks together with the necessary connecting tracks, at Memphis, Tenn., by the aforementioned carriers is necessary in the interest of the public and the commerce of the people pending disposition of their applications seeking permanent authority of this Commission; that notice and public procedure herein are impractical and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 1033.1096 Service Order No. 1096.

Southern Railway Co. authorized to operate over tracks of St. Louis-San Francisco Railway Co. and over tracks of Missouri Pacific Railroad Co.; Missouri Pacific Railroad Co. authorized to operate over tracks of Southern Railway Co.

(a) The Southern Railway Co. be, and it is hereby, authorized to operate over the former northbound main track of the St. Louis-San Francisco Railway Co. (SL-SF) between SL-SF chaining station 25656+03 and SL-SF chaining station 25558+58.5, at Memphis, Tenn.;

(b) The Missouri Pacific Railroad Co. be, and it is hereby, authorized to operate over the former eastbound main track of the Southern Railway Co. (Sou between Sou chaining station 103+07 and Sou chaining station 5+63, at Memphis, Tenn.;

(c) The Missouri Pacific Railroad Co. be, and it is hereby, authorized to operate over the westbound main track of the Southern Railway Co. (Sou) between Sou chaining station 106+68 and Sou chaining station 7+63, at Memphis, Tenn.;

(d) The Southern Railway Co. be, and it is hereby, authorized to operate over the former main track of the Missouri Pacific Railroad Co. (MP) between MP chaining station 15+63 and MP chaining station 21+04, at Memphis, Tenn.; and

(e) The Missouri Pacific Railroad Co. and the Southern Railway Co., be, and they are hereby, authorized to operate over the necessary connecting tracks at Memphis, Tenn., to effect the operations authorized in paragraphs (a), (b), (c), and (d) of this section.

(f) Application: The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(g) Effective date: This order shall become effective at 11:59 p.m., April 13, 1972.

(h) Expiration date: The provisions of this order shall expire at 11:59 p.m., September 30, 1972, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies secs. 1(10-17), 16 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17 (2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE AND RECREATION

Parker River National Wildlife Refuge, Mass.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4-20-72).

§ 28.28 Special regulations: Recreation: for the individual wildlife refuge areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Entrance into the public use areas of the refuge is permitted for the purpose of nature study, photography, hiking, bicycling, snowshoeing, cross-country skiing, sunbathing, and picnicking from 6 a.m. to 9 p.m. from May 1 through October 15, and from dawn to dusk from October 16 through April 30. The landing of boats and entrance into the refuge is permitted at the Knobbs, Grape Island, and Stage Island for the purposes listed above from 6 a.m. to 9 p.m. from May 1 to October 15. Bathing and swimming are permitted in the designated area during the hours 10 a.m. to 6 p.m. from May 30 through September 1. Surf fishing is permitted day and night on the ocean beach of the public use area from May 1 through October 15 and at other times by permit. Plums and cranberries may be picked outside of the dune research natural area from August 25 to October 31, to the limit of one-half bushel per family.

Foot travel is not permitted in the dune research natural area. Cooking fires are permitted only in refuge fireplaces installed by the Bureau, or on the ocean beach of the public use area. Pets are allowed if on a leash not over 10 feet in length.

Alcoholic beverages are not permitted on the refuge. Glass beverage bottles may not be taken out of vehicles.

Designated nature trails located west of the refuge access road are available for use without securing a permit from the manager-in-charge. All other areas west of the refuge access road are closed.

Tents and camping trailers are not permitted on the refuge.

Bicycles and registered motor vehicles are permitted on the refuge access road and in designated parking areas only. Parking vehicles along the access roadside is prohibited. Snowmobiles, air cushion, all-terrain or other similar vehicles are not permitted on the refuge. A required permit may be obtained upon application to the manager-in-charge for the use of over-the-sand vehicles for surf fishing only, day and night from May 1 to May 29 and September 2 to October 15 inclusive, and during the hours from 6 p.m. to 8 a.m. from May 30 to September 1 inclusive. No vehicle shall be operated on the beach between the hours of 8 a.m. and 6 p.m., and during such hours all authorized vehicles shall exit from the refuge or remain in the designated parking area.

Applicants for over-the-sand vehicle permits must provide evidence that the vehicle is duly registered and licensed in accordance with applicable State and Federal regulations and show that it is equipped with the following: Spare tire, shovel, jack, towrope or chain, board or similar support for jack, and low pressure tire gauge. Permits are to be affixed to the vehicles as instructed at the time of issuance. Vehicles authorized by permit to operate on the beach exclusively for the purpose of surf fishing and which are equipped with self-contained water or chemical toilets and permanently installed holding tanks, having a minimum capacity of not less than 3 days waste material, may park in the designated area for a period not to exceed 72 consecutive hours. At the end of such period, the operator of said vehicle shall exit from the refuge but may be readmitted after emptying the vehicle's holding tank at designated disposal sites. Operators must be checked in, in accordance with procedures specified by the manager-in-charge.

Over-the-sand vehicles shall not be parked in the over-sand routes or interfere with moving traffic.

When the process of freeing a vehicle which has been stuck results in ruts or holes, the ruts or holes shall be filled by the operator of such vehicle before it is removed from that area.

Riding on fenders, tailgate, roof, or any other position outside of the vehicle is prohibited.

Failure to comply with the provisions of permits issued or with regulations listed above shall be grounds for immediate cancellation of the permit.

Public Use Areas which include portions of the beach, the Knobbs, Grape Island, and Stage Island are delineated on a map available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office and Courthouse, Boston, Mass. 02109.

The provisions of this special regulation supplement the regulations governing recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1972.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

APRIL 13, 1972.

[FR Doc.72-6018 Filed 4-19-72;8:49 am]

Title 6—ECONOMIC STABILIZATION

Chapter I—Cost of Living Council

PART 101—COVERAGE, EXEMPTIONS, AND CLASSIFICATIONS OF ECONOMIC UNITS

Miscellaneous Amendments

Part 101—Coverage, Exemptions and Classifications of Economic Units was added to a new Title 6 of a new Chapter I of the Code of Federal Regulations on November 13, 1971 (36 F.R. 21788). Part 101 was amended and republished on January 27, 1972 (37 F.R. 1237), and further amended on February 4, 1972 (37 F.R. 2678), February 24, 1972 (37 F.R. 3913), March 9, 1972 (37 F.R. 5043), March 18, 1972 (37 F.R. 5700), and March 31, 1972 (37 F.R. 6827).

Subpart B is amended to add a paragraph (i) to § 101.16 to modify the prenotification requirements for price adjustments proposed or established by low-profit or loss firms to further implement the Council's and the Price Commission's policy of relief for such firms.

Subpart D is amended to add a paragraph (l) to § 101.34 to reflect a Council decision to exempt rates and other charges of U.S. tankers. The Council determined that the rates, which are subject to intense price competition, were at a very depressed level during the base period. Use of this base price could cause severe economic hardship, and relief is not feasible under Price Commission regulations. The Council also considered the fact the rates are not likely to increase materially in the future beyond levels necessary to maintain an adequate return, and since the industry itself is small, exemption would have minimum inflationary impact on the rest of the economy.

Because the purpose of these regulations is to amend and modify Part 101 to provide immediate guidance and information as to Cost of Living Council decisions, the Council finds that publication in accordance with usual rule making procedures is impracticable and that good cause exists for making this regulation effective in less than 30 days. Interested persons may submit written comments regarding the above amendments. Communications should be addressed to the Office of General Counsel, Cost of Living Council, New Executive Office Building, Washington, D.C. 20507.

These amendments shall become effective when filed with the Office of the Federal Register.

DONALD RUMSFELD,
Director, Cost of Living Council.

V 37 N 77 APR 20 72 XUM

Part 101 of Chapter I of Title 6 of the Code of Federal Regulations is amended as follows:

1. Subpart B is revised and amended to add § 101.16(l) to read as follows:

§ 101.16 Modification of prenotification requirements.

Notwithstanding the provisions of § 101.11 the following price adjustments by price category I firms need not be prenotified.

. . . . .

(l) Price adjustments proposed or established by low-profit firms as defined in and subject to the conditions and procedures prescribed in § 300.31 of this title.

2. Subpart D is revised and amended to add § 101.34(l) to read as follows:

§ 101.34 Certain price adjustments.

. . . . .

(l) *U.S. tanker rates.* Rates for the transportation of goods in a coastwise voyage by sea as defined in 46 U.S.C. section 88, in tank vessels built in and documented under the laws of the United States and owned by persons who are citizens of the United States, or tank vessels to which the privilege of engaging in the coastwise trade is extended by section 13 or 808 of title 46 of the United States Code.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Parts 8, 15, 158]

MERCHANDISE LOST, DAMAGED, ABANDONED, OR EXPORTED

Relief From Duties

Notice is hereby given that under the authority of Revised Statute 251, as amended (19 U.S.C. 66), and section 624 of the Tariff Act of 1930 (19 U.S.C. 1624), it is proposed to revise the Customs Regulations pertaining to relief from duties on merchandise lost, damaged, abandoned, or exported.

The proposed revision is part of the general revision of the Customs Regulations which includes a rearrangement of the sequence of parts in Chapter I of Title 19 of the Code of Federal Regulations. As part of this rearrangement, it is proposed to revise and redesignate Part 15 as Part 158, and include therein the material presently in § 8.49 of the Customs Regulations.

Changes or additions in language are proposed to clarify some provisions, eliminate inconsistencies, and conform the Customs Regulations to current administrative practices. The principal changes in the requirements and procedures in proposed Part 158 from those set forth in Part 15 and § 8.49 are as follows:

1. In the second sentence of § 158.4, the term "to the importer" has been deleted after the term "permitted," since the importing carrier's liability for shortages is the same whether the merchandise is "permitted" to the importer or to the next carrier.

2. In the last sentence of § 158.4, the term "bonded common carrier" has been changed to "bonded carrier," since liquidated damages may be assessed against any type of bonded carrier, whether a common carrier, contract carrier, freight forwarder, or private carrier.

3. In § 158.5, the term "before the liquidation of the entry becomes final" has been added for clarification, and to be consistent with the same time limit in § 158.3.

4. In § 158.5(b), the term "importing carrier" has been changed to "importing or bonded carrier, as appropriate," to allow for instances where an unconcealed shortage occurs while the merchandise is in the custody of a bonded carrier.

5. Section 158.12, which is based primarily on C.D. 679, has been added to show the treatment given to merchandise which is partially damaged, but not completely worthless, at the time of importation.

6. In § 158.45(a), the special procedure in the present § 8.49(c) for liquidated consumption entities has been eliminated, based on current practice.

The proposed revision of Part 15 as Part 158 is as follows:

PART 158—RELIEF FROM DUTIES ON MERCHANDISE LOST, DAMAGED, ABANDONED, OR EXPORTED

Sec.
158.0 Scope.

Subpart A—Lost or Missing Packages and Deficiences in Contents of Packages

158.1 Definition of "permitted" merchandise.
158.2 Shortage in packages released under immediate delivery.
158.3 Allowance for lost or missing packages included in an entry.
158.4 Liability of carrier for lost or missing packages.
158.5 Deficiencies in contents of packages—general.
158.6 Deficiencies in contents of examination packages.

Subpart B—Damaged or Defective Merchandise

158.11 Merchandise completely worthless at time of importation.
158.12 Merchandise partially damaged at time of importation.
156.13 Excessive moisture and other impurities.
158.14 Perishable merchandise condemned.

Subpart C—Casualty, Loss, or Theft While in Customs Custody

158.21 Allowance in duties for casualty, loss, or theft while in Customs custody.
158.22 Not applicable when allowances made under other provisions.
158.23 Filing of application and evidence by importer.
158.24 Place of filing.
158.25 Partial destruction or injury.
158.26 Loss or theft in public stores.
158.27 Accidental fire or other casualty.
158.28 Waiver of evidence.
158.29 Decision by district director.
158.30 Review of district director's decision.

Subpart D—Destroyed, Abandoned, or Exported Merchandise

158.41 Destruction of prohibited merchandise.
158.42 Abandonment by importer within 30 days after entry.
158.43 Abandonment or destruction of merchandise in bond.
158.44 Disposition of abandoned merchandise.
158.45 Exportation of merchandise.

AUTHORITY: The provisions of this Part 158 issued under R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624. Subpart C also issued under sec. 563, 46 Stat. 746, as amended; 19 U.S.C. 1563. Additional authority is cited in the text or following the sections affected.

§ 158.0 Scope.

This part sets forth general rules for granting relief from duties on merchandise which is lost, damaged, abandoned, or exported.

Subpart A—Lost or Missing Packages and Deficiences in Contents of Packages

§ 158.1 Definition of "permitted" merchandise.

For the purpose of this subpart, merchandise is "permitted" when Customs authorizes the carrier bringing the shipment to the port to make delivery to the consignee or the next carrier and:

(a) These parties in interest, or their agents, make a joint determination of the quantities being delivered, or,

(b) The carrier bringing the shipment to the port, at its option, independently declares the quantities available for delivery by filing with the district director, no later than the close of business on the next working day after a determination of quantities is made, a signed statement that:

(1) An independent determination of quantities of merchandise available for delivery has been made, with the date of the determination shown;

(2) At least 4 days have elapsed since the consignee or his agent was notified that Customs has authorized delivery; and,

(3) The merchandise was and is available for delivery.

§ 158.2 Shortage in packages released under immediate delivery.

An importer may file a consumption or warehouse entry for less than the invoiced and manifested number of packages in a shipment "permitted" and delivered to him or deposited in a bonded warehouse under the immediate delivery provisions of § 8.59 of this chapter, if he files with the entry a Customs Form 5931, in triplicate. The Customs Form 5931 shall be executed by both the importer and the importing carrier or bonded carrier, as appropriate, and shall contain a declaration by the carrier that the missing packages were not available for delivery within the provisions of section 448(a), Tariff Act of 1930, as amended (19 U.S.C. 1448(a)).

§ 158.3 Allowance for lost or missing packages included in an entry.

Allowance shall be made in the assessment of duties for lost or missing packages of merchandise included in an entry whenever it is established to the satisfaction of the district director before the liquidation of the entry becomes final that the merchandise claimed to be lost or missing was not "permitted." A claim for such allowance shall be made on Customs Form 5931, in triplicate, executed by the importer and the importing carrier or bonded carrier, as appropriate. When the importing or bonded carrier refuses to execute the Customs Form

V 37-77 APR 20 72 XUM

5931, a claim may be allowed if the importer properly executes the Customs Form 5931 and attaches copies of the dock receipt or other document evidencing nonreceipt of the lost or missing packages.

§ 158.4 Liability of carrier for lost or missing packages.

Upon a joint determination or independent determination of quantity as set forth in § 158.1 (a) or (b) resulting in the merchandise being "permitted," the carrier shall be responsible only for any discrepancy between the manifested quantity and the "permitted" quantity. In the case of an importing carrier, when there is a difference between the quantity shown on the inward foreign manifest and the quantity "permitted," liquidated damages or duties shall be assessed under the provisions of the carrier's bond or under the provisions of section 448, Tariff Act of 1930, as amended (19 U.S.C. 1448), unless the carrier corrects his manifest (see § 4.12 of this chapter). In the case of a bonded carrier, liquidated damages for lost or missing merchandise shall be assessed in accordance with § 18.8 of this chapter.

§ 158.5 Deficiencies in contents of packages—general.

An allowance shall be made in the assessment of duties for deficiencies in the contents of packages when, before the liquidation of the entry becomes final, the importer files:

(a) In the case of a concealed shortage, a Customs Form 5931, in triplicate, executed by the importer alone, and the district director satisfies himself as to the validity of the claim; or,

(b) In the case of an unconcealed shortage, a Customs Form 5931, in triplicate, executed by both the importer and the importing or bonded carrier, as appropriate.

§ 158.6 Deficiencies in contents of examination packages.

Allowance for deficiency in the contents of any examination package reported to the district director by a Customs officer shall be made in the liquidation of the entry. No Customs officer except one making an examination contemplated by section 499, Tariff Act of 1930, as amended (19 U.S.C. 1499), shall report a supposed deficiency to the district director unless it is established to the satisfaction of the reporting officer that the merchandise was not imported.

(Sec. 499, 46 Stat. 728, as amended; 19 U.S.C. 1499)

Subpart B—Damaged or Defective Merchandise

§ 158.11 Merchandise completely worthless at time of importation.

(a) *Nonperishable merchandise.* When a shipment of nonperishable merchandise, or any portion thereof which shall have been segregated from the remainder of the shipment under Customs supervision at the expense of the importer, is found by the district director to be entirely without commercial value at the time of importation by reason of damage or deterioration, an allowance in duties on such merchandise on the ground of nonimportation shall be made in the liquidation of the entry.

(b) *Perishable merchandise.* In the case of perishable merchandise, an allowance in duties may be made under the following conditions:

(1) An application for such allowance shall be filed with the district director on Customs Form 4315 in duplicate, within 96 hours after the unlading of the merchandise and before any of the shipment involved has been removed from the pier pursuant to the entry permit.

(2) Should an application filed in accordance with subparagraph (1) of this paragraph be withdrawn, the merchandise involved shall thereafter be released upon presentation of an appropriate permit.

(3) Allowance in duty shall be made in the liquidation of the entry on such of the merchandise covered by the application as is found by the district director to be entirely without commercial value by reason of damage or deterioration.

(Sec. 506, 46 Stat. 732, as amended; 19 U.S.C. 1506)

§ 158.12 Merchandise partially damaged at time of importation.

(a) *Allowance in value.* Merchandise which is subject to ad valorem or compound duties and found by the district director to be partially damaged at the time of importation shall be appraised in its condition as imported, with an allowance made in the value to the extent of the damage. However, no allowance shall be made when forbidden by law or regulation; for example, schedule 6, part 2, headnote 4, Tariff Schedules of the United States (19 U.S.C. 1202), provides that no allowance or reduction of duties for partial damage or loss in consequence of discoloration or rust occurring before importation shall be made upon iron or steel or upon any article of iron or steel.

(b) *No allowance in specific duties.* In the case of merchandise subject to specific or compound duties and found to be partially damaged at the time of importation, no allowance may be made in the specific duties or in the weight, quantity, or measure (except that an allowance for any excessive moisture or other impurities may be made in accordance with § 158.13). However, any part of the shipment which is totally worthless and can be segregated from the rest of the shipment may be treated as a nonimportation in accordance with § 158.11.

(Sec. 506, 46 Stat. 732, as amended; 19 U.S.C. 1506)

§ 158.13 Excessive moisture and other impurities.

(a) *Application by importer.* An application for an allowance in duties under section 507, Tariff Act of 1930 (19 U.S.C. 1507), for excessive moisture or other impurities not usually found in or upon such or similar merchandise shall be made by the importer on Customs Form 4315. The application shall be filed with the district director within 10 days after the report of weight or gauge has been received by the district director or within 10 days after the date upon which the entry or a related document was endorsed to show that invoice weight or gauge has been accepted by the Customs inspector or other Customs officer.

(b) *Allowance by district director.* If the district director is satisfied after any necessary investigation that the merchandise contains excessive moisture or other impurities not usually found in or upon such or similar merchandise, he shall make allowance for the amount thereof in the liquidation of the entry.

(c) *Limitations on allowance.* No allowance under this section shall be made when forbidden by law or regulation; for example, Schedule 1, Part 6, Subpart B, Headnote 2, Tariff Schedules of the United States (19 U.S.C. 1202), provides that no allowance in weight shall be made for dirt or other impurities in seed of any kind provided for in that subpart.

(Sec. 507, 46 Stat. 732; 19 U.S.C. 1507)

§ 158.14 Perishable merchandise condemned.

(a) *Application by importer.* When fruit or other perishable merchandise has been condemned by health officers or other legally constituted authorities within 10 days after landing, an importer who desires allowance in duties under section 506(2), Tariff Act of 1930, as amended (19 U.S.C. 1506(2)), shall within 5 days after such condemnation file with the district director written notice of the condemnation. The date of landing in the case of merchandise forwarded under an entry for immediate transportation is the date of arrival at the port of destination.

(b) *Allowance in duties.* If the district director is satisfied after any necessary investigation that the claim is valid, allowance in duties shall be made in the liquidation of the entry. Such allowance shall be limited to perishable goods condemned by the health officers or authorities in the original package, unless segregation of the merchandise was under constant Customs supervision at the importer's expense.

(Sec. 506(2), 46 Stat. 732, as amended; 19 U.S.C. 1506(2))

Subpart C—Casualty, Loss, or Theft While in Customs Custody

§ 158.21 Allowance in duties for casualty, loss, or theft while in Customs custody.

Section 563(a), Tariff Act of 1930, as amended (19 U.S.C. 1563(a)), provides for allowance in duties upon satisfactory proof of the loss or theft of any merchandise while in the public stores, or of the actual injury or destruction, in whole or in part, of any merchandise by accidental fire or other casualty, while in bonded warehouse, or in the public stores, or while in transportation under bond, or while in Customs custody although not in bond, or while within the limits of any port of entry and before having been landed under Customs supervision. Such allowance is subject to the conditions set forth in this subpart.

§ 158.22 Not applicable when allowances made under other provisions.

The procedures in this subpart do not apply in cases where allowances in duties are made under Subpart A or Subpart B of this part, or § 18.6 of this chapter.

§ 158.23 Filing of application and evidence by importer.

Within 30 days from the date of his discovery of the loss, theft, injury, or destruction, the importer shall file an application in duplicate on Customs Form 4315, and within 90 days from the date of discovery shall file any evidence required by § 158.26 or § 158.27.

§ 158.24 Place of filing.

The application and evidence shall be filed with the district director at the port where the loss, theft, injury, or destruction occurred. In the case of total loss of merchandise by fire or other casualty while in transportation under bond, the application and evidence shall be filed with the district director at the port at which the transportation entry was made. In the case of partial destruction of or injury to such merchandise, the application and evidence shall be filed with the district director at the port of destination, except that if the merchandise is returned to the port at which the transportation entry was made, the application shall be filed at that port.

§ 158.25 Partial destruction or injury.

In the case of partial destruction or injury, no application shall be entertained unless the district director shall have had an opportunity to examine the merchandise or the remainder thereof for the purpose of fixing the percentage of injury or destruction. Whether the duty involved is ad valorem, specific, or compound, the percentage of injury for the purpose of the allowance shall be determined by comparing the market value of comparable sound merchandise with the net salvage value of the injured merchandise computed on the basis of the market value of comparable injured merchandise, such comparison to be made as of the time and place of examination.

§ 158.26 Loss or theft in public stores.

In the case of alleged loss or theft while the merchandise is in the public stores, there shall be filed a declaration of the importer, owner, or ultimate consignee that he did not receive the merchandise and that to the best of his knowledge and belief it was lost or stolen as alleged in the application. If the alleged loss or theft consisted of only a part of an examination package and was discovered after the release of the package from Customs custody, the following evidence shall be submitted:

(a) A declaration of each cartman, lighterman, or other carrier handling the package between the public stores and the place of delivery, setting forth the condition of the package at the time of receipt and delivery by him and whether or not there was an abstraction of the merchandise while the package was in his possession.

(b) A declaration of the person who first received the package for the importer, owner, or ultimate consignee as to whether or not he examined the package at the time of receipt, and, if so, as to its condition at that time.

(c) A declaration of the person who opened the package after release from Customs custody that the alleged missing merchandise was not found by him in the package or elsewhere.

§ 158.27 Accidental fire or other casualty.

In the case of injury or destruction by accidental fire or other casualty, the following evidence shall be submitted:

(a) A declaration of the master of the vessel, the conductor or driver of the vehicle, the proprietor of the warehouse, or other person (except a Customs officer) having charge of the merchandise at the time of casualty, stating:

(1) The time, place, and nature of such casualty;

(2) That the merchandise was on board the vessel or vehicle, in the warehouse, or otherwise in his charge, as the case may be, at the time of the casualty; and

(3) That it was totally destroyed and there is no probability of recovering or saving any part thereof, or that it was injured as the result of the casualty.

(b) The bill of lading, the entry, and the invoice covering the merchandise, or certified copies of the foregoing, unless such documents are already in the possession of the district director at the port where the claim is filed.

(c) A copy of the insurance appraiser's report, if any.

§ 158.28 Waiver of evidence.

The district director may waive the production of any of the evidence required by this subpart if the validity of the claim is otherwise established to his satisfaction.

§ 158.29 Decision by district director.

When the application and evidence have been received and examined by the district director, he shall determine whether the desired abatement or refund of duty shall be made and notify the importer of his decision.

§ 158.30 Review of district director's decision.

(a) *Filing of petition.* The importer may file with the district director a petition addressed to the Commissioner of Customs for a review of the district director's decision. Such petition shall be filed in duplicate within 30 days from the date of the notice of the district director's decision, shall completely identify the case, and shall set forth in detail the objections to the district director's decision.

(b) *Decision by Commissioner.* When the petition has been filed, the district director shall promptly transmit both copies thereof and the entire file to the Commissioner, together with a full statement of his views. When the Commissioner's decision is received, the district director shall proceed in conformity therewith.

Subpart D—Destroyed, Abandoned, or Exported Merchandise

§ 158.41 Destruction of prohibited merchandise.

Merchandise regularly entered or withdrawn for consumption in good faith and denied admission into the United States by any Government agency after its release from Customs custody, pursuant to a law or regulation in force on the date of entry or withdrawal for consumption, may be destroyed under Government supervision. In such case, the destroyed merchandise is exempt from duty and any duties collected thereon shall be refunded. In lieu of destruction, the merchandise may be exported under Customs supervision in accordance with § 158.45(c).

(Sec. 558(a), 46 Stat. 744, as amended; 19 U.S.C. 1558(a))

§ 158.42 Abandonment by importer within 30 days after entry.

Allowance in duties for merchandise abandoned to the Government in accordance with section 506(1), Tariff Act of 1930, as amended (19 U.S.C. 1506(1)), shall be subject to the following conditions:

(a) *Minimum quantity to be abandoned.* The merchandise being abandoned shall represent 5 percent or more of the total value of all the merchandise of the same class or kind entered in the invoice in which the merchandise being abandoned appears.

(b) *Application within 30 days.* The importer shall file written notice of abandonment with the district director at the port where the entry was filed within 30 days after the date of entry, or, in the case of examination packages, within 30 days after release, whether or not delivery is taken by the importer immediately after entry or release as the case may be.

(c) *Delivery of merchandise.* Within the 30-day period set forth in paragraph (b) of this section, the importer shall deliver the abandoned merchandise to such place as the district director specifies, unless the district director is satisfied that the merchandise is so far destroyed as to be nondeliverable.

(d) *Identification of merchandise.* The importer shall identify the abandoned merchandise with that described in the invoice used in making entry to the satisfaction of the district director, who shall make such examination as may be necessary to verify such identification.

(e) *Segregation and repacking.* When repacking is necessary to segregate the abandoned merchandise from the remainder of the shipment, such repacking shall be done at the expense of the importer and under Customs supervision.

(Sec. 506, 46 Stat. 732, as amended; 19 U.S.C. 1506)

V 37-77
APR 20 72
XUM

§ 158.43 Abandonment or destruction of merchandise in bond.

Allowance in duties for merchandise entered under bond destroyed under section 557(c), Tariff Act of 1930, as amended (19 U.S.C. 1557(c)), or for merchandise in bonded warehouse abandoned to the Government under section 563(b), Tariff Act of 1930, as amended (19 U.S.C. 1563(b)), shall be subject to the following conditions:

(a) *Application by importer.* The importer shall file an application for abandonment or destruction of merchandise in bond with the district director on Customs Form 3499, with the title modified to read "Application and Permit to Abandon (or Destroy) Goods in Bond." When an application is for permission to destroy, the proposed method of destruction shall be stated in the application and be subject to the approval of the district director.

(b) *Concurrence of warehouse proprietor.* An application to abandon or destroy warehoused merchandise shall not be approved unless concurred in by the warehouse proprietor.

(c) *Costs of abandonment.* When in the opinion of the district director the abandonment of merchandise under section 563(b), Tariff Act of 1930, as amended (19 U.S.C. 1563(b)), will involve any expense or cost to the Government, or if the merchandise is worthless or unsalable, or cannot be sold for a sum sufficient to pay the expenses of sale, such abandonment shall not be permitted unless the importer deposits a sum which in the opinion of the district director will be sufficient to save the Government harmless from any expense or cost resulting from such abandonment. The sum so advanced shall be placed in a special deposit account and expended to cover the cost of destruction or to meet any deficit should the merchandise be sold and the proceeds of sale be less than the expenses of such sale. After meeting such expenses or deficit, any balance remaining shall be refunded to the importer. However, the applicant may elect to destroy such merchandise under Customs supervision pursuant to the provisions of section 557(c), Tariff Act of 1930, as amended (19 U.S.C. 1557(c)).

(d) *Costs of destruction.* Destruction of merchandise under section 557(c), Tariff Act of 1930, as amended (19 U.S.C. 1557(c)), shall be at the expense of the importer.

(e) *Action by district director.* When the conditions set forth in paragraphs (a) through (d) of this section are met, the district director may grant applications and make an allowance in duties for the merchandise abandoned or destroyed. In any case where doubt exists, the matter shall be referred to the Commissioner of Customs.

(Secs. 557, 563, 46 Stat. 744, as amended, 746, as amended; 19 U.S.C. 1557, 1563)

§ 158.44 Disposition of abandoned merchandise.

(a) *General conditions.* The disposition of merchandise abandoned to the Government pursuant to section 158.42 or 158.43, and not retained for official use, shall be governed by the regulations of the General Services Administration applicable to the Bureau of Customs.

(b) *Sale of merchandise.* If the merchandise is cleared for sale, it shall be sold in accordance with the applicable provisions of Part 20 of this chapter, unless it is worthless or it appears probable that the expenses of sale will exceed the proceeds. If the merchandise is sold, no part of the proceeds shall be returned to the importer.

(c) *Disposition of worthless merchandise.* If the merchandise or any part thereof is worthless or it appears probable that the expenses of its sale will exceed the proceeds, it shall be destroyed or otherwise disposed of as the district director shall specify. The district director shall insure that such merchandise is destroyed or removed from the control of the importer to avoid the possibility of any part of the same merchandise being made the subject of another application.

(Secs. 506(1), 563(b), 46 Stat. 732, as amended, 746, as amended; 19 U.S.C. 1506(1), 1563(b))

§ 158.45 Exportation of merchandise.

(a) *From continuous Customs custody.* Merchandise in Customs custody for which entry has not been completed and merchandise which has remained in continuous Customs custody that is covered by a liquidated or unliquidated consumption entry may be exported under Customs supervision in accordance with §§ 18.25–18.27 of this chapter, with refund of any duties that have been paid.

(b) *After release from Customs custody.* Except as provided for in paragraphs (c) and (d) of this section, no refund or other allowance in duties shall be made because of the exportation of merchandise after its release from Customs custody unless a drawback of duties is expressly provided for by law (see Part 22 of this chapter).

(c) *Prohibited merchandise.* If merchandise has been regularly entered or withdrawn for consumption in good faith and is thereafter found to be prohibited entry under any law of the United States, it may be exported under Customs supervision in accordance with §§ 18.25–18.27 of this chapter, with refund of any duties that have been paid. In lieu of exportation, the merchandise may be destroyed in accordance with § 158.41.

(d) *Not legally marked merchandise.* When merchandise found to be not legally marked is exported or destroyed under Customs supervision after once having been released from Customs custody, as provided for in section 304(c), Tariff Act of 1930, as amended (19 U.S.C. 1304(c)), such exportation or destruction shall not exempt such merchandise from the payment of duties other than the marking duties.

(Sec. 558, 46 Stat. 744, as amended; 19 U.S.C. 1558)

For ready comparison there is annexed to this notice a parallel reference table showing the relation of sections in the proposed Part 158 to 19 CFR Part 15.

Prior to adoption of the revision, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, and received not later than 60 days from the date of publication of this notice in the FEDERAL REGISTER. Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)), in the Division of Regulations, Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 10, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-441]

NEW PRODUCER SALES OF NATURAL GAS

Notice Denying Motion for Extension of Time

APRIL 13, 1972.

Notice is hereby given that the motion filed on April 10, 1972 (37 F.R. 7345), by the Associated Gas Distributors, for a 2-week extension of time from May 1 to May 15, 1972, to submit comments in the above-designated matter is denied.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-6086 Filed 4-19-72;8:52 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 52]

CANNED PLUMS

Proposed Standards for Grades [2]

Notice is hereby given that the U.S. Department of Agriculture is considering a revision of the U.S. Standards for Grades of Canned Plums (7 CFR 52.1781–52.1796). These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover the cost of such services.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than October 1, 1972, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration leading to the proposed revision. Current grade standards for canned plums do not provide for an allowance for pit material in the style of halves in grade A or grade B. Since these grade standards were last amended in 1962 the industry has employed a mechanical means of cutting the plums in half rather than cutting them by hand, as previously practiced. With the use of mechanical equipment to cut the plums in half, packers are experiencing considerable difficulty in packing plums entirely free from pit material as required by the current grade standards for Grade A and Grade B.

Recommended minimum drained weights are the same for both the purple and green-yellow varietal types. Information gained over the past several years indicate there may be a need for higher drained weights for the green-yellow types than for the purple type. Higher drained weights are recommended for the smaller size plums than for the larger size (less than 70 count) for No. 10 containers.

Proposed changes in the grade standards for canned plums include:

(1) The elimination of the Grade D classification since it no longer serves any purpose in marketing channels;

(2) An allowance for pit material in the style of halves in Grades A and B which would reflect good commercial practice;

(3) Separate drained weights for green-yellow varietal types which would be a slight increase over those currently recommended;

(4) A standard sample unit size which will eliminate bias due to differences in amount of product in different container sizes. This also makes the standard easier to apply since allowances are specified in numbers of units, thereby eliminating percentage calculations as currently required;

(5) Fill weight values as an alternate method of ascertaining compliance with fill of container with respect to the fruit ingredient;

(6) A partial limiting rule included in the Grade C classification for the factor of uniformity of size. A sample unit scoring in the Grade C classification for this factor would not be classified above Grade B regardless of the total score. Such a limit is not provided in the current grade standards;

(7) A slightly different format utilizing a chart form of listing various types of defects and other deviations along with applicable allowances which makes the standards easier to read.

No other changes are proposed except for slight adjustments in allowances due to rounding off percentage calculations to whole numbers in the transposition to the standard sample unit size.

The proposed revision is as follows:

PRODUCT DESCRIPTION, VARIETIES, STYLES, AND GRADES

Sec.
52.1781 Product description.

SCORE SHEET

52.1798 Score sheet for canned plums.

AUTHORITY: The provisions of this subpart issued under sec. 205, 60 Stat. 1090 as amended; 7 U.S.C. 1624.

PRODUCT DESCRIPTION, VARIETIES, STYLES, AND GRADES

§ 52.1781 Product description.

"Canned plums," as defined in the standards of identity for canned fruits (21 CFR 27.45) issued pursuant to the Federal Food, Drug, and Cosmetic Act, is the food prepared from mature plums of the domestic (Prunus domestica L.) varietal groups; are packed in water or plum juice with or without nutritive sweetening ingredients; and are sealed in a container and so processed by heat as to prevent spoilage. The food may be seasoned with one or more of the optional ingredients permitted under the Federal Food, Drug, and Cosmetic Act.

§ 52.1782 Varietal types.

(a) Purple plum groups.
(b) Green-yellow plum groups.

§ 52.1783 Styles.

(a) "Whole, unpeeled, unpitted."
(b) "Whole, peeled, unpitted."
(c) "Whole, unpeeled pitted."
(d) "Whole, peeled, pitted."
(e) "Halves, unpeeled, pitted."
(f) "Halves, peeled, pitted."

§ 52.1784 Grades.

(a) "U.S. Grade A" or "U.S. Fancy" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a good, practically uniform color;
(4) Are at least reasonably uniform in size;
(5) Are practically free from defects;
(6) Have a good character; and
(7) Score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" or "U.S. Choice" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a reasonably good and reasonably uniform color;
(4) Are at least fairly uniform in size;
(5) Are reasonably free from defects;
(6) Have a reasonably good character; and
(7) Score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U.S. Grade C" or "U.S. Standard" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a fairly good color;
(4) Are fairly uniform in size;
(5) Are fairly free from defects;
(6) Have a fairly good character; and

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972. 37 F.R. 6327.

[2] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

V 37-77 APR 20 72 XUM

(7) Score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned plums that fail to meet the requirements of U.S. Grade C.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS, AND FILL WEIGHTS

§ 52.1785 Liquid media and Brix measurements for canned plums.

"Cut-out" requirements for liquid media in canned plums are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. The "cut-out" Brix measurements for the particular varieties and respective designations are specified in Table I:

TABLE I—BRIX REQUIREMENTS

Designations	Brix measurement	
	Purple plum groups	Other varieties
Extra heavy sirup or extra heavy plum juice sirup.	26° or more but not more than 35°.	24° or more but not more than 35°.
Heavy sirup or heavy plum juice sirup.	21° or more but less than 26°.	19° or more but less than 24°.
Light sirup or light plum juice sirup.	18° or more but less than 21°.	16° or more but less than 19°.
Slightly sweetened water or slightly sweetened plum juice.	Less than 18°..	Less than 16°.
In water	Not applicable.	Not applicable.
In plum juice	do.	Do.

§ 52.1786 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled with plums as full as practicable without impairment of quality, and that the product and packing medium occupy not less than 90 percent of the volume of the container.

§ 52.1787 Recommended minimum drained weight.

(a) *General.* (1) The minimum drained weight recommendations specified in Table II are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades. (2) The recommended minimum drained weights are based on equalization of the product 30 days or more after the product has been canned.

(b) *Method for ascertaining drained weights.* The drained weight is determined by emptying the contents of the container upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch ±3 percent, square openings) so as to distribute the product evenly, turning the pit cavities down in halves, inclining the sieve slightly to facilitate drainage, and allowing to drain for 2 minutes. The drained weight is the weight of the sieve and plums less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

(c) *Compliance with recommended drained weights.* A lot of canned plums is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(1) The average of the drained weights from all the sample units in the sample meets the recommended minimum average drained weight (designated as "$\bar{X}_d$" in Table II); and

(2) The number of sample units which fail to meet the recommended drained weight lower limit for individuals (designated as "LL" in Table II does not exceed the applicable acceptance number specified in the single sampling plan contained in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables and Related Products.

TABLE II

RECOMMENDED MINIMUM DRAINED WEIGHTS

Container size (metal, unless otherwise stated)	In any liquid medium							
	Purple				Green, yellow			
	Halved unpeeled (ounces)		Whole unpeeled (ounces)		Whole peeled (ounces)		Whole unpeeled (ounces)	
	LL	$\bar{X}_d$	LL	$\bar{X}_d$	LL	$\bar{X}_d$	LL	$\bar{X}_d$

Any count	15.8	17.0			16.4	16.7	15.0	16.3
16 or less			14.2	15.5				
17 to 22			14.7	16.0				
23 or more			15.2	16.5				
No. 2½ Glass:								
Any count	15.7	16.8			15.2	16.5	14.7	16.0
16 or less			13.7	15.0				
17 or more			14.2	15.5				
No. 10 (603 x 700):								
Any count	60.8	63.0			59.9	62.4	58.3	60.8
Less than 70			57.5	60.0				
70 or more			59.5	62.0				

§ 52.1788 Recommended fill weights.

(a) *General.* The minimum fill weight recommendations specified in Table III are not incorporated in the grades of the finished product since fill weight, as such, is not a factor of quality for the purposes of these grades.

(b) *Method for ascertaining fill weight.* Fill weight is determined in accordance with the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

(c) *Definitions of terms and symbols.* "Subgroup" means a group of sample units representing a portion of a sample.

$\bar{X}'_{min}$ means the minimum lot average fill weight.

LWL_x means the lower warning limit for subgroup averages.

LRL_x means the lower reject limit for subgroup averages.

LWL means the lower warning limit for individual fill weight measurements.

LRL means the lower reject limit for individual fill weight measurements.

$\bar{R}'$ means a specified average range value.

R_{max} means a specified maximum range for a subgroup.

Sampling allowance code means a code letter on the Sampling Allowance Chart of the Variables Control Chart Plan. This letter identifies the appropriate line which gives the amount of sampling allowance to be applied to the specification average for fill weights in order to determine compliance with requirements for fill weight averages for a sample.

(d) *Subgroup size.* The subgroup size for the determination of fill weights shall be 5 containers.

(e) *Sampling frequency.* (1) Small lots—for lots consisting of 100 cases or less which require 4 hours or more to pack use the "optional fill weight procedure" contained in the Instructions for Adaptation of the Variables Control Chart Plan to Fill Weights.

(2) Other than small lots—draw at least one subgroup per code approximately every 40 minutes.

(f) *Compliance with recommended fill weights.* Compliance with the recommended fill weights shall be in accordance with the acceptance criteria specified in the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

TABLE III

RECOMMENDED FILL WEIGHT VALUES

SAMPLE UNIT SIZE

§ 52.1789 Sample unit size.

Compliance with requirements for the various quality factors is based on the following sample unit size for the applicable style:

(a) Whole—25 whole plums.

(b) Halves—50 halves.

FACTORS OF QUALITY

§ 52.1790 Ascertaining the grade of a sample unit.

(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.* (i) Varietal characteristics.

(ii) Flavor and ordor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	20
Uniformity of size	20
Defects	30
Character	30
Total score	100

(b) *Definition of flavor and odor.* "Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.1791 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.1792 Color.

(a) *General.* The factor of color refers to the color of the skin and any exposed flesh typical for the varietal group and to the intensity and brightness of such characteristic color. Characteristic mottling on the skin for the varietal group is considered as typical color and not as lacking in uniformity of color.

(b) *Definitions of color*—(1) *Well colored.* The color is bright and well developed, typical of well-matured plums. Any exposed flesh is at least reasonably bright and with respect to purple plums the packing media is a practically clear and highly colored purple liquid.

(2) *Reasonably well colored.* The color is reasonably bright and reasonably well developed, typical of reasonably well-matured plums. Any exposed flesh is at least fairly bright and with respect to purple plums and packing media is a reasonably clear and reasonably high-colored purple liquid.

(3) *Fairly well colored.* The color is fairly bright and fairly well developed, typical of fairly well-matured plums. Any exposed flesh may be slightly dull.

(4) *Poorly colored.* The color may be dull, poorly developed, typical of immature plums, including the "dead brown" color of canned purple plums. Any exposed flesh may be excessively dull; or the plums may be off-color due to improper processing.

(c) (*A*) *classification.* Canned plums that possess a good color may be given a score of 18 to 20 points. "Good color" means that the plums are well colored and as a mass possess a practically uniform color, typical of a single varietal group; and the number of reasonably well colored plums does not exceed the number specified for the style in § 52.1796.

(d) (*B*) *classification.* Canned plums that possess a reasonably good color may be given a score of 16 or 17 points. Canned plums that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score (this is a limiting rule). "Reasonably good color" means that the plums are reasonably well colored and as a mass possess a reasonably uniform color, typical of a single varietal group; and the number of fairly well colored units does not exceed the number specified for the style in § 52.1796.

(e) (*C*) *classification.* Canned plums that possess a fairly good color may be given a score of 14 or 15 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the plums may be at least fairly well colored; possess a color typical of a single varietal group which have been properly processed; that such characteristic color may be markedly variable: and the number of poorly colored plums does not exceed the number specified for the style in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1793 Uniformity of size.

(a) *General.* Compliance with uniformity of size is ascertained by determining the percent by which the weight of the largest full-sized unit exceeds the weight of the smallest full-sized unit in the sample unit. Plums of halved style that are not cleanly divided into halves shall be separated into two approximately equal halves before ascertaining uniformity of size.

(b) (*A*) *classification.* Canned plums that are practically uniform in size may be given a score of 18 to 20 points. "Practically uniform in size" means that the number of units that are in excess of the maximum weight variation does not exceed the number specified for the style for U.S. Grade A in § 52.1796.

(c) (*B*) *classification.* Canned plums that are reasonably uniform in size may be given a score of 16 or 17 points. "Reasonable uniform in size" means that the number of units that are in excess of the

V 37-77
APR 20 72
XUM

maximum weight variation does not exceed the number specified for the style for U.S. Grade B in § 52–1796.

(d) (C) *classification.* Canned plums that are fairly uniform in size may be given a score of 14 or 15 points. Canned plums that fall into this classification shall not be classified above U.S. Grade B, regardless of the total score (this is a partial limiting rule). "Fairly uniform in size" means that the number of units that are in excess of the maximum weight variation does not exceed the number specified for the style for U.S. Grade C in § 52.1796.

(e) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 13 points and shall not be graded above substandard, regardless of the total score (this is a limiting rule).

§ 52.1794 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from stems, leaves, crushed or broken units, pits or loose pits for the applicable style—damaged and seriously damaged units—and from any other defects not specifically mentioned which detract from the appearance or edibility of the product.

(b) *Definitions.* (1) A "unit," in whole style, means a whole or substantially whole plum. In halved style, any whole or partially whole plum is separated into two approximately equal halves and each half therefrom is considered a "unit."

(2) "Small stem" means the small stem or portion thereof that attaches the plum to the branch of the tree.

(3) "Harmless extraneous material" means leaves or portions thereof or other harmless plant material.

(4) "Crushed or broken" means that a unit bears marks of crushing or is otherwise crushed or broken not due to ripeness. In whole style, plums that possess broken skins or that are split to the pit cavity are not considered crushed or broken unless the entire pit cavity is exposed or the unit is mutilated to the extent that it is not intact as a whole or substantially whole plum. In halved style, halves of plums that are slightly split are not considered crushed or broken unless the unit is seriously mutilated.

(5) A "pit" means a whole pit or any portion thereof. In whole style, only "loose pits" are considered as defects. In halved style, pits are considered as defects whether loose or attached to a unit.

(6) "Damaged" means any injury which, singly or in the aggregate on a unit or in a unit (except for internal gummosis), materially affects the appearance of the unit and includes, but is not limited to:

(i) Surface areas blemished by sunburn, scab, or other discoloration (exclusive of characteristic mottling having an aggregate area exceeding that of a circle three-sixteenths of an inch in diameter not extending into the fruit tissue and materially affects the appearance or eating quality of the unit.

(ii) Surface areas blemished by sunburn, scab, or other serious discoloration (exclusive of characteristic mottling) having an aggregate area equivalent of, or less than, that of a circle three-sixteenths of an inch in diameter and extending into the fruit tissue so that the flesh is materially discolored or toughened;

(iii) Abnormalities, such as "doubles" and growth cracks, but not "shriveled" areas;

(iv) External gummosis.

(7) "Seriously damaged" means any damage that seriously affects the appearance or edibility of the unit, regardless of area.

(c) (*A*) *classification.* Canned plums that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(d) (*B*) *classification.* Canned plums that are reasonably free from defects may be given a score of 24 to 26 points. Canned plums that fall into this classification shall not be graded above U.S. Grade B, regardles of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(e) (*C*) *classification.* Canned plums that are fairly free from defects may be given a score of 21 to 23 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1795 Character.

(a) *General.* The factor of character refers to the texture and condition of the flesh, to the tenderness and firmness of the plums, and to shriveled areas of the skin.

(b) *Definitions*—(1) *Good character.* The units are thick-fleshed, tender, may be soft but hold their apparent original conformation, and otherwise possess a good texture of both skin and flesh characteristic of canned plums that have been properly processed from well-ripened or well-matured plums.

(2) *Reasonably good character.* The units may be reasonably fleshy, may be variable in texture from soft to slightly firm, and otherwise possess a reasonably good texture of both skin and flesh characteristic of canned plums that have been properly processed from reasonably well-ripened or reasonably well-matured plums.

(3) *Fairly good character.* The units may be thin fleshed, possess a fairly good texture of both skin and flesh, may be variable in texture from very soft to slightly tough but are not so soft as to show material disintegration, and may possess shriveled areas that materially affect, but do not seriously affect, the appearance of the product.

(4) *Poor character.* The units may be very thin fleshed, possess a poor texture of both skin and flesh, may be variable in texture from mushy to more than slightly tough, and may possess shriveled areas that seriously affect the appearance of the product.

(c) (*A*) *classification.* Canned plums that possess a good character may be given a score of 27 to 30 points. To score in this classification the number of units that are of reasonably good character shall not exceed the number specified for the style in § 52.1796.

(d) (*B*) *classification.* Canned plums that possess a reasonable good character may be given a score of 24 to 26 points. Canned plums that fall into this classification shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule). To score in this classification the number of units that are of fairly good character shall not exceed the number specified for the style in § 52.1796.

(e) (*C*) *classification.* Canned plums that possess a fairly good character may be given a score of 21 to 23 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). To score in this classification the number of units that are of poor character shall not exceed the number specified for the style in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

ALLOWANCES FOR QUALITY FACTORS

§ 52.1796 Allowances for quality factors.

[7 CFR Part 725]

FLUE-CURED TOBACCO

Notice of Determination To Be Made With Respect to Allotment and Marketing Quota Regulations, 1970–71 and Subsequent Marketing Years.

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended, the Department is preparing to amend the regulations pertaining to lease and transfer of allotments and marketing quotas, the identification of marketings of tobacco and the records and reports incident thereto for Flue-cured tobacco.

The proposed amendment to the regulations results primarily from an extensive audit by the Office of the Inspector General of the operation of the Flue-cured tobacco marketing quota program. Results of the audit pointed up several areas where administration of the program needed to be strengthened to prevent potential violations and to facilitate the examination of records and reports to determine compliance with marketing quota regulations.

The purpose of this document is to give notice of the proposed changes in the regulations which are as follows:

1. Sections 725.51(o) and 725.94(c) would be amended to reduce the allowable rate of floor sweepings from 0.005 to 0.001 times total first sales. Purchases by the warehouseman on his own warehouse floor would also be eliminated in computing total first sales.

2. Section 725.72(p)(1) would be amended to clarify that the cancellation of a lease and transfer agreement shall not preclude application of erroneous notice provisions where such provisions are applicable.

3. Section 725.85 would be amended to make it clear that in the identification of kinds of tobacco the term "tobacco" with respect to any farm located in an area in which Flue-cured tobacco is normally produced shall include all tobacco produced on the farm, excluding other kinds of tobacco subject to marketing quotas, except where the operator of the farm furnishes satisfactory proof that the production on the acreage has been certified by Agricultural Marketing Service of this Department as a kind of tobacco not subject to marketing quotas.

4. In § 725.99, a new general statement would be added to the beginning of the section, and a new paragraph (m) would be added to provide that a warehouseman shall maintain copies of bill-out invoices to the buyer.

V 37 - 77 - 7 7
APR 20 72
XUM

5. In § 725.99(a), subparagraph (3) and the sixth sentence of subparagraph (4) would be amended to require a warehouse to include negative adjustment invoices from dealers as a part of records to be maintained and to provide orderly filing of basket tickets by sale dates.

6. In paragraph (a) of § 725.99, subparagraph (7) would be amended to require sale bills for warehouse resales to be identified as floor sweepings or leaf account tobacco and a new subparagraph (8) would be added to provide for determination by the Agricultural Marketing Service of this Department of tobacco presented for sale that is represented to be nonquota tobacco or there is question as to what kind of quota tobacco is being offered for sale.

7. Paragraphs (g)(14) of § 725.99 and (c)(4) of § 725.100 would be amended to clarify that dealers and warehousemen are responsible for the actual weighing of carryover tobacco reported on hand on final MQ–79's and MQ–80's for the season.

8. In § 725.100 the general statement at the beginning would be amended to clarify that dealer's reports and records required in this section shall be kept separately for each kind of tobacco and that adjustment invoices required to be furnished to the auction warehouse shall be identified by the appropriate warehouse and dealer number.

9. Section 725.100(d) would be amended to require a negative report from any dealer purchasing tobacco on a warehouse floor for any sale day in which there is no adjustment to the bill-out for that sale day as furnished by the warehouseman.

10. Section 725.101(a) would be amended to provide that dealers exempt from regular records and reports on MQ–79 are required to furnish adjustment invoices or buyers settlement sheets and negative reports where no adjustment is necessary for a particular sale day, as provided in § 725.100(d).

11. Section 725.102(b) would be amended to require persons engaged in the business of redrying, prizing, or stemming tobacco and storage firms handling tobacco to expand recordkeeping to include data on dealers, warehousemen or other persons for whom tobacco was received for processing or storage and to report such data, with certain exceptions, to the State ASCS office within 15 days of the end of the marketing year.

12. Section 725.107 would be amended to add warehouse bill-out invoices and the tissue copy of Form MQ–72–1 Report of Tobacco Auction Sale, to the list of records to be made available for examination upon written request by the State executive director.

It is proposed that the Flue-cured tobacco regulations for 1970–71 and subsequent marketing years be amended as follows:

1. Section 725.51(o) is revised to read as follows:

§ 725.51 Definitions.

• • • • • •

(o) *Floor sweepings.* The actual quantity of scraps or leaves of tobacco which accumulate on the warehouse floor in the regular course of business: *Provided,* That floor sweepings above the pounds determined by multiplying 0.001 times the total first sales of tobacco at auction for the season for the warehouse, shall be deemed to be leaf account tobacco. For the purpose of computing allowable floor sweepings, tobacco purchases for the warehouse leaf account shall not be included in determining total first sales. Floor sweeping tobacco shall be kept separate from any other tobacco when sold.

• • • • • •

2. Section 725.72(p)(1) is amended by adding a sentence at the end to read as follows:

§ 725.72 Lease and transfer of tobacco marketing quota.

• • • • • •

(p) *Cancellation, dissolution or revision of transfer*—(1) *Cancellation.* • • • The provisions of this subparagraph (1) shall not preclude application of the erroneous notice provisions under § 725.70 where such provisions are applicable.

• • • • • •

3. Section 725.85 is revised to read as follows:

§ 725.85 Identification of kinds of tobacco.

Any tobacco that has the same characteristics and corresponding qualities, colors, and lengths of a kind and type shall be considered such kind and type without regard to any factor of historical or geographical nature which cannot be determined by examination of the tobacco. The term "tobacco" with respect to any farm located in an area in which one or more of a kind and type of tobacco classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the former Bureau of Agricultural Economics of the U.S. Department of Agriculture, is normally produced shall include all acreage of tobacco, excluding other kinds subject to marketing quotas, on a farm unless the county committee with the approval of the State committee determines from satisfactory proof furnished by the operator of the farm that a part or all of the production of such acreage has been certified by the Agricultural Marketing Service, U.S. Department of Agriculture, under the Tobacco Inspection Act (7 U.S.C. 511), and regulations issued pursuant thereto, as a kind of tobacco not subject to marketing quotas.

4. The last sentence of paragraph (c) of § 725.94 is amended to read as follows:

§ 725.94 Penalties considered to be due from warehousemen, dealers, buyers, and others excluding the producer.

• • • • • •

(c) *Leaf account tobacco.* • • • The actual quantity of floor sweepings which the State executive director determines have been properly identified as floor sweepings and sold and reported as such by the warehouseman shall be considered acceptable proof that such marketings are not marketings of excess tobacco if the amount thereof for the warehouse does not exceed the maximum allowable floor sweepings for the season determined by multiplying the limitation set forth in § 725.51(o) by producer's first sales, excluding warehouse leaf account purchases.

• • • • • •

5. In § 725.99, a general statement is added at the beginning of the section, a new paragraph (m) and a new subparagraph (8) to paragraph (a) would be added, and subparagraphs (3) and (7) of paragraph (a) and subparagraph (14) of paragraph (g) and the sixth sentence of subparagraph (4) of paragraph (a) would be revised, to read as follows:

§ 725.99 Warehouseman's records and reports.

Each warehouse shall keep the records and make the reports separately for each kind of tobacco as provided in this section.

(a) *Record of marketing.* • • •

(3) *Buyers corrections account.* Each warehouseman shall keep such records including negative adjustment invoices as will enable him to furnish a weekly report on Form MQ–71 to the State ASCS office showing the total pounds of the debits (for returned baskets, short baskets, and short weights of tobacco) and the credits (for long baskets, and long weights of tobacco) to the buyers corrections account. Where the warehouseman returns to the seller tobacco debited to the buyers corrections account, the warehouseman shall prepare an adjustment invoice to the seller. This invoice shall be the basis for a credit entry for the warehouse in the buyers corrections account and a corresponding purchase (debit entry) in the case of a dealer on his MQ–79, Dealer's Report. Any balancing figure reflected on the warehouseman's summary of bill-outs shall not be included in the buyers corrections account.

(4) *Tobacco sale bill and daily warehouse sales summary.* • • • At the end of each sale day, the tobacco sale bills shall be sorted and filed in numerical order by sale dates, and basket tickets shall be filed in an orderly manner by sale dates.

• • • • • •

(7) *Labeling tobacco sale bill for resale tobacco.* In the case of resales, each sale bill shall show resale and: (i) For dealers, the name of the dealer making each resale; and (ii) for the warehouse, the name of the warehouse and either "floor sweepings" or "leaf account" tobacco.

(8) *Nonquota tobacco or quota tobacco of a different kind.* Should tobacco be presented for sale that is represented to be nonquota tobacco or there is question as to what kind of quota tobacco is being offered, an inspection shall be obtained from the Agricultural Marketing Service of this Department (AMS) before the tobacco is weighed in and offered for sale. If an AMS inspection shows that a basket or lot of tobacco is of a different kind than that identified by the basket ticket after it is weighed in and a sale bill prepared, such tobacco shall be deleted from the original sale bill and a revised sale bill prepared.

• • • • • •

(g) *Daily warehouse sale summary.* • • •

(14) At the end of the season, each warehouseman shall: (i) Report on his final MQ–80 for the season the quantity of leaf account tobacco and floor sweepings, if any, on hand and its location, (ii) permit its inspection by a representative of ASCS, and (iii) provide for the weighing of such tobacco (to be witnessed by ASCS) and furnish to ASCS at that time a certification as to the actual weight of such tobacco. After the weight of such tobacco has been obtained as provided in subdivision (iii) of this subparagraph, it shall be considered as the official weight for comparing purchases and resales for the purpose of determining the amount of penalty, if penalty is due.

• • • • • •

(m) *Invoice to purchaser.* Each warehouseman shall keep copies of bill-out invoices to the purchaser by grades showing the pounds purchased.

6. The general statement at the beginning of § 725.100 and paragraphs (c)(4) and (d) thereof are amended to read as follows:

§ 725.100 Dealer's records and reports.

Each dealer, except as provided in § 725.101, shall keep the records and make the reports separately for each kind of tobacco as provided by this section. Adjustment invoices, including the adjustment invoices for any sale day for which there is no adjustment to be made, required to be furnished to an auction warehouse shall be identified by the warehouse identification number and the reporting dealer's identification number as well as the names of the warehouse and dealers involved in the transaction.

• • • • • •

(c) *Record and report of purchases and resales.* • • •

(4) At the end of the dealer's marketing operation, but not later than March 1, he shall for each kind of tobacco: (i) Show the word "final" on his final report, MQ–79, for the season, (ii) report on such final MQ–79 for the season the quantity of tobacco on hand and its location, (iii) permit its inspection by a representation of ASCS, and (iv) provide for weighing of such tobacco (to be witnessed by ASCS) and furnish to ASCS at that time a certification as to the actual weight of such tobacco. After the weight of such tobacco has been determined as provided in subdivision (iv) of this subparagraph, it shall be considered as the official weight for comparing purchases and resales for the purpose of determining the amount of penalty, if penalty is due.

• • • • • •

(d) *Daily report to warehouseman for buyers corrections account.* Notwithstanding the provisions of § 725.101, reports shall be made as follows:

(1) Any dealer, buyer, or any other person receiving tobacco from or through a warehouseman at an auction sale or otherwise, which is not invoiced to him or which is incorrectly invoiced to him by the warehouseman, shall furnish to the warehouseman an adjustment invoice or buyers settlement sheet.

(2) Each dealer who purchases tobacco on a warehouse floor for any sale day in which there is no adjustment required in the account as shown on the warehouse bill-out invoice for that sale day, shall file a negative report with the warehouseman for that sale day.

(3) Such reports as required under subparagraphs (1) and (2) of this paragraph shall be furnished daily, if practicable (otherwise, they shall be furnished at the end of each week), and shall show the identification number of the purchasing dealer and the identification number of the warehouse where the purchase was made.

7. The first sentence in § 725.101(a) is amended to read as follows:

§ 725.101 Dealers exempt from regular records and reports on MQ–79; and season report for exempted dealers.

(a) Any dealer or buyer who acquires tobacco only at auction sale and resells, in the form in which tobacco ordinarily is sold by farmers, 5 percent or less of any such tobacco shall not be subject to the requirements of § 725.100, except as provided in paragraph (d) of § 725.100. • • •

• • • • • •

8. Section 725.102(b) is amended to read as follows:

§ 725.102 Records and reports of truckers, persons redrying, prizing or stemming tobacco, and storage firms.

• • • • • •

(b) Each person engaged in the business of redrying, prizing, and stemming tobacco and storage firms handling tobacco shall keep records with respect to each lot of tobacco received by him showing:

(1) The name and address of producer, dealer, warehouseman, or other person for whom the tobacco was received.

(2) The date of receipt of tobacco.

(3) The number of pounds received.

(4) The purpose for which tobacco was received.

(5) The amount of any advance or loan made by him on the tobacco.

(6) The disposition of the tobacco.

(7) Person to whom delivered and pounds involved.

Any such person shall report this information to the State ASCS office within 15 days of the end of the marketing year, except for tobacco handled for an association operating the price support program and tobacco purchased by him at auction or for which he had previously reported in Form MQ–79.

§ 725.107 [Amended]

9. Section 725.107 is amended by adding the language "warehouse bill-out invoices, and the tissue copy of Form MQ–72–1, Report of Tobacco Auction Sale", immediately following the language "documents,".

Prior to issuance of the proposed changes in the regulations, data, views, or recommendations pertaining thereto which are submitted to the Director, Commodity Stabilization Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, will be given consideration. To be sure of consideration, such submission should be postmarked not later than 30 days after date of publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in the manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on April 11, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 130]

OVER-THE-COUNTER DRUGS

Status of Drugs Previously Reviewed Under Drug Efficacy Study (DESI); Need for Updating; Implications of "Grandfather" Provisions

The FDA is undertaking a review of all over-the-counter (OTC) drug products currently marketed in the United States to determine whether they are safe and effective for their labeled indications and not misbranded. In this review, the safety and effectiveness of all OTC drugs will be evaluated on a class-by-class approach in lieu of bringing regulatory action against individual products. A notice of this review, an explanation of its purpose, and proposed procedural regulations were published in the FEDERAL REGISTER of January 5, 1972 (37 F.R. 85). This review complements the Drug Efficacy Study (DESI) which was a review of drugs introduced to the market through the new drug procedures between 1938 and 1962 and which dealt primarily with prescription drugs. Implementation of the Drug Efficacy Study conclusions is nearing completion. It is estimated that 2 to 5 years will be required to complete the new review on various classes of OTC drugs.

There were 420 OTC drugs reviewed in the Drug Efficacy Study. The review of these drugs, which are broadly representative of the estimated 100,000 to

V 37 7 7 7 APR 20 72 XUM

500,000 OTC drugs on the market, showed the need for a study of the whole OTC market by means of a liberal class-by-class approach. The impracticality of a product-by-product approach has been set forth by prior publication (37 F.R. 85).

A careful review has been made of all OTC drugs which were reviewed in the Drug Efficacy Study to determine whether implementation steps relating to these products could be deferred, without significant risk to the public health, pending review of OTC drugs by appropriate OTC panels as provided for in the January 5, 1972 procedural regulations proposal.

The 420 drugs are, for the most part, representative of all OTC products. Deferral of further action under the published DESI notices pending review of the drugs in their appropriate categories (other than those listed in the section proposed below) would not represent any significant health hazard to the public for most of the products involved. Immediate action would be likely only to divert the public to competitive products, with the unfair result that NDA products would be penalized and identical, related and similar drug products would be given an advantage. To isolate many of these drugs for action prior to a review of an entire class would defeat the purpose of the planned approach to the whole OTC drug review. It would tie up the limited resources available and would not resolve the major issues presented by the OTC market.

To aid manufacturers and distributors in reviewing the status of OTC products the Commissioner of Food and Drugs proposes clarifying regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 507, 701, 52 Stat. 1040–42 as amended, 1050–53 as amended, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948, 59 Stat. 463 as amended; 21 U.S.C. 321, 352, 355, 357, 371) and under authority delegated to the Commissioner of Foods and Drugs (21 CFR 2.120), it is proposed that the Subpart D of Part 130 proposal published on January 5, 1972 (37 F.R. 85) be amended to add the following new section:

§ 130.------ **Status of over-the-counter drugs previously reviewed under the Drug Efficacy Study (DESI).**

(a) There were 420 OTC drugs reviewed in the Drug Efficacy Study. A careful review has been made of the reports on these drugs to determine those drugs for which implementation may be deferred, without significant risk to the public health, pending review by appropriate OTC panels. Deferral of action will not be granted for any of the following:

(1) Products which are not typical OTC products and therefore will not be reviewed by OTC panels.

(2) Products which are unique and are easily separated from other marketed products for final action.

(3) Products which represent a significant health hazard.

(b) For products for which Drug Efficacy Study conclusions have been established prior to March 1, 1972 (except for the products listed in subdivisions (i) through (vii) of subparagraph (1) of this paragraph and the products listed in subdivisions (i) through (ix) of subparagraph (2) of this paragraph) all actions, requests for data, revised labeling, requests for new drug applications, abbreviated new drug applications, updated supplements, data to support less than effective claims, if any, etc. are deferred and the OTC products will be subject to review in their appropriate class.

(1) The requirements of the following DESI announcements are not deferred:

(i) Certain Surgical Sutures (DESI 4725), FEDERAL REGISTER of November 11, 1971 (36 F.R. 21612).

(ii) Absorbable Dusting Powder (DESI 6264), FEDERAL REGISTER of May 25, 1971 (36 F.R. 9475).

(iii) Certain Insulin Preparations (DESI 4286), FEDERAL REGISTER of April 9, 1971 (36 F.R. 6842).

(iv) Candette Cough Jel (DESI 11562), FEDERAL REGISTER of July 17, 1971 (36 F.R. 13281).

(v) Sulfo-Van Ointment (DESI 2230), FEDERAL REGISTER of October 8, 1970 (35 F.R. 15860).

(vi) Certain Sulfonamide-Containing Preparations for Topical, Ophthalmic, or Otic Use (DESI 3684), FEDERAL REGISTER of September 25, 1970 (35 F.R. 14954) and notice of opportunity for hearing in the FEDERAL REGISTER of February 12, 1972 (37 F.R. 3198).

(vii) Curad Medicated Adhesive Bandage containing tyrothricin-nitrofurazone (DESI 6898), FEDERAL REGISTER of February 27, 1971 (36 F.R. 3833).

(2) Deferral of requirements is not appropriate when an announcement has been published and has been followed by a final order classifying a drug either as lacking substantial evidence of effectiveness or as not shown to be safe. These products will be removed from the market, if they have not already been removed. Immediate regulatory action will also be undertaken against related products. Deferral of requirements is not appropriate for the following (the referenced document may also pertain to prescription drugs):

(i) Certain Sulfonamide-Decongestant Nasal Preparations (DESI 4850), for which notice of withdrawal of approval of new drug applications was published in the FEDERAL REGISTER of October 24, 1970 (35 F.R. 16605, 16606).

(ii) Eskay's Theranates, containing strychnine, sodium, and calcium glycerophosphates, thiamine hydrochloride, alcohol, and phosphoric acid (DESI 2220), for which notice of withdrawal of approval of the new drug application was published in the FEDERAL REGISTER of February 18, 1971 (36 F.R. 3152).

(iii) The following topical drugs (DESI 1726), for which notice of withdrawal of approval of new drug applications was published in the FEDERAL REGISTER of August 28, 1971 (36 F.R. 17368):

(*a*) Rhulitol Solution, containing tannic acid, chorobutanol, phenol, camphor, alum, and isopropyl alcohol.

(*b*) Zirnox Topical Lotion, containing phenyltoloxamine citrate and zirconium oxide.

(iv) Menacyl Tablets, containing aspirin, menadione, and ascorbic acid (DESI 6363), for which notice of withdrawal of approval of the new drug application was published in the FEDERAL REGISTER of July 23, 1970 (35 F.R. 11827).

(v) Curad Medicated Adhesive Bandage containing sulfathiazole (DESI 4964), for which notice of withdrawal of approval of the new drug application was published in the FEDERAL REGISTER of December 31, 1969 (34 F.R. 20441).

(vi) Drugs Containing Rutin, Quercetin, Hesperidin, or any Bioflavonoids (DESI 5960), for which notice of withdrawal of approval of new drug applications was published in the FEDERAL REGISTER of July 3, 1970 (35 F.R. 10872, 10873) and October 17, 1970 (35 F.R. 16332).

(vii) Antibiotics in Combination with Other Drugs for Nasal Use (DESI 7561), for which an order revoking provision for certification was published in the FEDERAL REGISTER of August 6, 1971 (36 F.R. 14469).

(viii) Antibiotic Troches (DESI 8328), for which an order revoking provision for certification was published in the FEDERAL REGISTER of July 14, 1971 (36 F.R. 13089).

(ix) Certain Drugs Containing Oxyphenisatin Acetate (DESI 10732), for which notice of withdrawal of approval of new drug applications was published in the FEDERAL REGISTER of February 1, 1972 (37 F.R. 2460).

(c) For those products reviewed in the Drug Efficacy Study for which conclusions have not been published, the NAS/NRC reports will be published in the near future to give interested persons the benefit of the opinions of the review panels. FDA conclusions will not be included. Hence, appropriate action will be deferred, except for those products not granted deferral of action (subparagraphs (1), (2), and (3) of paragraph (a) of this section).

(d) Manufacturers and distributors should take notice that the information on OTC drugs provided by the Drug Efficacy Study review is valuable information as to the deficiencies in the data available to support indications for use. They are encouraged to perform additional studies to obtain adequate evidence of effectiveness for the forthcoming review of OTC drugs. In the interim, it is in the public interest that all OTC drug manufacturers and distributors effect changes in their formulations and/or labeling to bring the products into conformity with current medical knowledge and experience.

(e) Manufacturers and distributors of OTC drugs may be reluctant to make appropriate formulation and/or labeling changes for fear of losing the protection of the so-called "grandfather" provisions of the 1938 Federal Food, Drug, and Cosmetic Act (sec. 201(p)(1)) and the 1962 amendments to the act (sec. 107(c) of those amendments). To encourage and facilitate prompt changes, the Food and Drug Administration will not take legal action based on a charge that the product is a new drug and not "grandfathered" under the act as a result of the changes if the changes in formulation and/or labeling are of the following kind:

(1) The addition to the labeling of warning, contraindications, side effects, and/or precaution information.

(2) The deletion from the labeling of false, misleading, or unsupported indications for use or claims of effectiveness.

(3) Changes in the components or composition of the drug that will give increased assurance that the drug will have its intended effect, yet not raise or contribute any added safety questions.

(4) Changes in the components or composition of the drug which may reasonably be concluded to improve the safety of the drug, without diminishing its effectiveness.

(f) The forbearance from legal action for lack of "grandfather" protection is an interim procedure designed to encourage appropriate change in formulation and/or labeling during the time period required to review the various classes of OTC drugs. At such time as an applicable OTC drug monograph becomes effective, the interim procedure will automatically be terminated and any appropriate regulatory action will be initiated.

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

(Secs. 201, 502, 505, 507, 701, 52 Stat. 1040–42 as amended, 1050–53 as amended, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948, 59 Stat. 463 as amended; 21 U.S.C. 321, 352, 355, 357, 371)

Dated: April 10, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-5977 Filed 4-19-72;8:47 am]

[21 CFR Part 295]

HOUSEHOLD PRODUCTS CONTAINING 10 PERCENT OR MORE OF SULFURIC ACID

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that accidental contact with household substances containing 10 percent or more of sulfuric acid has been a cause of serious injury to children under 5 years of age.

Sulfuric acid is a strong mineral acid that produces severe burns on contact with body tissues due to its corrosive, oxidizing, and sulfonating properties. Ingestion of this strong acid may result in severe internal corrosive burns causing esophageal strictures or perforation of the esophagus or stomach walls.

Sulfuric acid is used in household products such as certain liquid drain cleaners. Some liquid drain cleaners contain as much as 93 percent of concentrated sulfuric acid as the primary ingredient. Reports indicate that since 1967 contact with such liquid drain cleaners has resulted in 10 severe external burn injuries, one of which resulted in the death of a 17-month-old child. The capacity of household products containing 10 percent or more of sulfuric acid to cause serious personal injury and even death to children under 5 years of age is unequivocal.

The Federal Caustic Poisons Act of 1927 classified sulfuric acid, and any preparation containing free or chemically unneutralized sulfuric acid in a concentration of 10 percent or more, as a dangerous caustic or corrosive substance.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by household products containing 10 percent or more of sulfuric acid, by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from ingestion or handling of such products.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to the standards proposed herein. At least 15 different special packages have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) that meet or exceed the child-resistant effectiveness and adult-use effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since the special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

In the order published June 10, 1971 (36 F.R. 11190), which promulgated 21 CFR 191.9(a)(4) that bans certain liquid drain cleaners containing sodium and/or potassium hydroxide, notice was given that two manufacturers had suggested that acid-type liquid drain cleaners should be similarly banned. The Commissioner acknowledge the potential hazard of such household substances and indicated that they would be dealt with separately. Although the information presently available to the Food and Drug Administration is inadequate to support the suggested similar banning of acid-type liquid drain cleaners, the Food and Drug Administration solicits and will give careful consideration to any data or other information that interested persons may file with the Hearing Clerk (address given below) regarding such suggested banning. On the basis of the information presently available the Commissioner concludes that banning sulfuric acid-containing household products is not warranted at this time and that the child protection packaging standards proposed below offer the most appropriate means of dealing with the hazards of such household products. The Commissioner will take further action as appropriate if experience with the special packaging standards proposed below indicates a need for change to provide sufficient protection to children.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph be added to § 295.2 (a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of February 16, 1972; 37 F.R. 3427):

§ 295.2 **Substances requiring "special packaging."**

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

. . . . . .

(9) *Sulfuric acid.* Household substances containing 10 percent or more of sulfuric acid shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

. . . . . .

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may

V 37 77 APR 20 72 XUM

be seen in the above office during working hours, Monday through Friday.

Dated: April 17, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-CE-3]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Kearney, Nebr.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

The development of an instrument approach procedure and its associated airspace to serve Brewster Field, Holdrege, Nebr., has resulted in conflicting, adjacent procedure turn areas at Brewster Field and the Kearney, Nebr., Municipal Airport, which will not permit simultaneous approaches to the two airports. This conflict can be resolved by changing the procedure turn from the west to the east side of the final approach course to Runway 26 at the Kearney Municipal Airport. Accordingly, it is necessary to alter the Kearney, Nebr., transition area to provide controlled airspace protection for aircraft executing the changed approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

KEARNEY, NEBR.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Kearney Municipal Airport (latitude 40°43'37" N., longitude 99°00'04" W.); within 4½ miles east and 9½ miles west of the Kearney VOR 360° radial, extending from the airport to 18½ miles north of the airport; within 4 miles each side of the Kearney VOR 194° radial, extending from the airport to 13 miles south of the airport; and that airspace extending upward from 1,200 feet above the surface within 4½ miles west and 9½ miles east of the Kearney VOR 194° radial, extending from the airport to 18½ miles south of the airport.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 8, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5988 Filed 4-19-72;8:47 am]

ATOMIC ENERGY COMMISSION

[10 CFR Part 50]

LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Information Requested by Attorney General for Antitrust Review of Facility License Applications

The Atomic Energy Commission has under consideration amendments of 10 CFR Part 50, Licensing of Production and Utilization Facilities, which would describe and provide appropriate references to information requested by the Attorney General for the conduct of his antitrust review and rendering of advice to the Commission with respect to facility license applications.

Following the enactment of Public Law 91-560 (84 Stat. 1472), which, among other things, amended section 105c of the Atomic Energy Act of 1954, as amended, pertaining to antitrust review of facility license applications, the Commission adopted certain amendments (35 F.R. 19655, December 29, 1970) to its rules of practice, 10 CFR Part 2, and its regulation, Licensing of Production and Utilization Facilities, 10 CFR Part 50, in implementation of that legislation. Section 50.33 of 10 CFR Part 50 relating to contents of license applications was amended to require the inclusion in the application of "• • • such information as the Attorney General determines to be appropriate in regard to the finding to be made by the Commission as to whether the activities to be licensed would create or maintain a situation inconsistent with the antitrust laws specified in section 105a of the Act." A new § 50.55b was added authorizing the Commission to incorporate a condition in certain construction permits and licenses which would among other things, require the licensee to furnish to the Commission "• • • such information as the Attorney General determines to be appropriate for the conduct of the review and the rendering of his advice with respect to the license • • •." Section 50.80 was amended by § 50.80(b) to provide that an application for transfer of a license involving the issuance of a class 103 license shall include "• • • such information as the Attorney General deems appropriate in regard to the finding to be made by the Commission as to whether the transfer of the license would create or maintain a situation inconsistent with the antitrust laws."

The proposed amendments set forth below describe and provide appropriate references to information requested by the Attorney General for the conduct of his antitrust review and rendering of advice to the Commission with respect to facility license applications.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 50 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, within 30 days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified. Copies of comments received by the Commission may be examined at the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

§ 50.33 [Amended]

1. Paragraph (k) of § 50.33 is revoked.

2. A new § 50.33a is added to read as follows:

§ 50.33a Information requested by the Attorney General for antitrust review.

If the application is for a class 103 permit or license, or for a class 104 operating license as to which a person who intervened or sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination has requested an antitrust review under section 105 of the Act within 25 days after the date of publication in the FEDERAL REGISTER of notice of filing of the application for an operating license or December 19, 1970, whichever is later, the information described in Appendix L, which the Attorney General has determined to be appropriate in regard to the finding to be made by the Commission as to whether the activities to be licensed would create or maintain a situation inconsistent with the antitrust laws specified in section 105a of the Act shall be submitted as a separate document accompanying the license application.

3. Section 50.55b is amended to read as follows:

§ 50.55b Conditions of construction permits and operating licenses pertaining to antitrust matters.

The Commission may incorporate, in construction permits for production or utilization facilities of the type described in § 50.22 for which applications were on file on December 19, 1970, and in operating licenses for production or utilization facilities of a type described in §§ 50.22 and 50.21(b)(i), as to which a person who intervened or sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination within 25 days after the date of publication in the FEDERAL REGISTER of notice of filing of the application for an operating license on December 19, 1970, whichever is later, a condition to the effect that the license shall be subject to an antitrust review by the Attorney General pursuant to section 105c of the Atomic Energy Act of 1954, as amended; that the licensee shall furnish to the Commission the information described in Appendix L, which the Attorney General has determined to be appropriate for the conduct of the review and the rendering of his advice with respect to the license; that the Commission may hold a hearing on antitrust matters on the recommendation of the Attorney General or at the request of any person whose interest may be affected by the proceeding; that on the basis of its findings made after such hearing, the Commission will continue, rescind, or amend the license to include such conditions as the Commission deems appropriate; and that the licensee shall comply with any order or license condition made by the Commission pursuant to section 105c of the Atomic Energy Act of 1954, as amended, with respect to the licensed activities.

4. The first sentence of § 50.80(b) is amended to read as follows:

§ 50.80 Transfer of licenses.

• • • • •

(b) An application for transfer of a license shall include as much of the information described in §§ 50.33 and 50.34 with respect to the identity and technical and financial qualifications of the proposed transferee as would be required by those sections if the application were for an initial license, and, if the license to be issued is a class 103 license, the information described in Appendix L, which the Attorney General has determined to be appropriate in regard to the finding to be made by the Commission as to whether the transfer of the license would create or maintain a situation inconsistent with the antitrust laws. • • •

• • • • •

5. A new Appendix L is added to read as follows:

APPENDIX L—INFORMATION REQUESTED BY THE ATTORNEY GENERAL FOR ANTITRUST REVIEW OF FACILITY LICENSE APPLICATIONS

Introduction. The information in this appendix is that requested by the Attorney General in connection with his review, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, of certain facility license applications. The applicant shall submit the information as a separate document titled, "Information Requested by the Attorney General for Antitrust Review." Twenty (20) copies shall be submitted with the facility license application and not less than twenty-five (25) additional copies shall be retained by the applicant to be available as needed during the antitrust review.

I. Definitions

1. "Applicant" means the entity applying for authority to construct or operate subject unit and each corporate parent, subsidiary, and affiliate. Where application is made by two or more electric utilities not under common ownership or control, each utility should set forth separate responses to each item herein.

2. "Subject unit" means the nuclear generating unit or units for which application for construction or operation is being made.

3. "Electric utility" or "system" means any entity owning, controlling, or operating facilities for the generation or transmission or distribution of electric power.

4. "Coordination" means any arrangement between two or more systems for generation and transmission planning, or operation of two or more interconnected electric utilities not under common ownership or control, including but not limited to arrangements for sharing operating and installed reserves, arrangements for joint or staggered construction of generating facilities, economy energy transactions, capacity transactions based on load diversities, thermal-hydro generation pooling, common maintenance arrangements, and joint use of transmission facilities or wheeling.

5. "Coordinating power and energy" means energy transmitted in accordance with an arrangement for coordination including but not limited to emergency power, economy energy, deficiency power and associated energy, and maintenance power and energy.

6. Except where specifically mentioned otherwise, the term "reserve generating capacity" or "reserves" shall refer to installed reserves in contrast to spinning or operating reserves.

II. Required Information

1. State separately for hydroelectric and thermal generating resources applicant's most recent peak load and dependable capacity for the same time period. State applicant's dependable capacity at time of system peak for each of the next 10 years for which information is available. Identify each new unit or resource. For hydroelectric generating capacity, indicate the number of kilowatt-hours of use associated with each kilowatt of capacity during the "adverse water year" upon which dependable capacity is based. Indicate average annual kilowatt-hour loads per kilowatt, associated with each system peak shown (exclusive of interchange arrangements).

2. State applicant's estimated annual load growth for each of the next 20 years or for the period applicant utilizes in system planning. Indicate growth both in kilowatt requirements and kilowatt-hour requirements.

3. State estimated annual load growth in kilowatts and kilowatt-hours of companies or pools upon which the economic justification of the subject unit is based for each of the next 20 years or for the period applicant utilizes in system planning. Identify each company or pool member.

4. For the year the subject unit would first come on line, state estimated annual load growth in kilowatts and kilowatt hours of any coordinating group or pool of which the applicant is a member (other than the coordinating group or pool referred to in the applicant's response to Item 3) which has generating and/or transmission planning functions. Identify each company or pool member whose loads are indicated in the response thereto.

5. State applicant's minimum installed reserve criterion (as a percentage of load)[1] for the period when the subject unit will first come on line. If the applicant shares reserves with other systems, identify the other systems and provide minimum installed reserve criterion (as a percentage of load)[1] by contracting parties or pool for the period when the proposed unit will first come on line.

6. Describe methods used as a basis to establish, or as a guide in establishing the criteria for applicant's and/or applicant's pool's minimum amount of installed reserves. [E.g., (a) single largest unit down, (b) probability methods such as loss of load 1 day in 20 years, loss of capacity once in 5 years, (c) other methods and/or (d) judgment. List contingencies other than risk of forced outage that enter into the determination.]

7. Indicate whether applicant's system interconnections are credited explicitly or implicitly in establishing applicant's installed reserves.

8. List rights to receive emergency power and obligations to deliver emergency power, rights or obligations to receive or deliver deficiency power or unit power, or other coordinating arrangements, by reference to applicant's Federal Power Commission (FPC) rate schedules (i.e., ABC Power & Light Co., FPC Rate Schedule No. 15 including supplement 1-5),[2] and also by reference to applicant's state commission filings. Where documents are not on file with the FPC, supply copies, or where not reduced to writing describe arrangements. Identify for each such arrangement the participating parties other than applicant. Provide one line electrical and geographic diagrams of coordinating groups or power pools (with generation or transmission planning functions) of which applicant's generation and transmission facilities constitute a part.

9. List non-affiliated[3] electric utility systems with peak loads smaller than applicant's which serve either at wholesale or at retail adjacent to areas served by applicant. Provide a geographic one line diagram of applicant's generating and transmission facilities (including subtransmission), indicating the location of adjacent systems and as to such systems indicate (if available) their load, their annual load growth, their generating capacity, their largest thermal generating unit size, and their minimum reserve criteria.

10. List separately those systems in item 9 which purchase from applicant (a) all bulk power supply and (b) systems which purchase partial bulk power supply requirements. Where information is available to applicant, identify those item 9 systems purchasing part or all of their bulk power supply requirements from suppliers other than applicant.

---

[1] Indicate whether loads other than peak loads are considered.

[2] List separately and identify certificates of concurrence.

[3] Systems not in the same holding company system.

V 37 77 APR 20 72 XUM

11. State as to all power generated and sold by applicant and most recent average cost of bulk power supply experienced by applicant (a) at site of generating facilities, (b) at the delivery points from the primary transmission (backbone) system, (c) at delivery points from the secondary transmission system, and (d) at delivery points from the distribution system, in terms of dollars per kilowatt per year, in mills per kilowatt hour, and in both the kilowatt costs and kilowatt hour costs divided by the kilowatt hours. If wholesale sales are made at varying voltages, indicate average costs at each voltage.

12. State (a) for generating facilities and (b) for transmission subdivided by voltage classes the most recent estimated cost of applicant's bulk power supply expansion program of which the subject unit is a part, in terms of dollars per kilowatt/per year, in mills per kilowatt hour and in both the kilowatt costs and kilowatt hour costs divided by the kilowatt hours.

13. List and describe all requests for, or indications of interest in, interconnection and/or coordination and purchases or sales of coordinating power and energy from adjacent utilities listed in item 9 since 1960 and state applicant's response thereto. List and describe all requests for, or indications of interest in, supply of full or partial requirements or bulk power for the same period and state applicant's response thereto.

14. List (a) agreements to which applicant is a party (reproducing relevant paragraphs) and (b) State laws (supply citations only), which restrict or preclude coordination by, with, between, or among any electric utilities or systems identified in applicant's response to items 8 and 9. List (a) agreements to which the applicant is a party (reproducing relevant paragraphs) and (b) State laws (supply citations only) which restrict or preclude subetitution of service or establishment of service of full or partial bulk power supply requirements by an electric utility other than applicant to systems identified in items 8 and 9. Where the contract provision appears in contracts or rate schedules on file with a Federal agency, identify each in the same form as in previous responses. Where the contract has not been filed with a Federal agency, a copy should be supplied unless it has been supplied pursuant to another item hereto. Where it is not in writing, it should be described.

15. State, at point of delivery, average future costs of power purchased from applicant to adjacent systems identified in applicant's response to item 9 in terms of dollars/month/kw for capacity, mill/kwh for energy and mills/kwh for both power and energy at purchaser's present load factor (a) at present load, (b) at 50 percent increase over present load, (c) at 100 percent increase over present load, and (d) at 200 percent increase over present load. [All costs should be determined under present rate schedules.] Where sales are made under contracts or rate schedules on file with a Federal agency and not included in the response to item 9, identify each in the same form as in previous responses. Where the contract has not been filed with a Federal agency, a copy should be supplied.

16. State whether applicant has prepared, caused to be prepared, or received engineering studies for generation and transmission expansion programs which include loads of each system in item 9.

17. List adjacent systems to which applicant has offered to sponsor or to conduct system surveys in contemplation of an offer by applicant to purchase, merge or consolidate with said adjacent system, subsequent to January 1, 1960.

18. List applicant's offers or proposals to purchase, merge or consolidate with electric utilities, subsequent to January 1, 1960.

19. List all acquisitions of or mergers or consolidations with electric utilities by applicant, subsequent to January 1, 1960, including:

(a) The name and principal place of business of the system prior to the acquisition, merger or consolidation;

(b) The date the acquisition merger or consolidation was consummated;

(c) Gross annual revenue and most recent peak load, dependable capacity and the largest thermal generating unit of the system, prior to the dates of consummation.

20. State applicant's six (or fewer if there are not six) lowest industrial or large commercial rates for firm electric power supply in terms of cost for power and energy in mills per kilowatt hour (and separately, the demand and energy components) and indicate the portion of the charge attributed to bulk power supply. State the rates or rate blocks applicant utilizes for its six (or fewer if there are not six) promotional services such as electric space heating, electric hot water heating, and the like, in terms of mills per kilowatt hour for power and energy and indicate the portion of the rate or rate blocks attributed to bulk power supply.

(Secs. 105, 161, 68 Stat. 938, 948; 42 U.S.C. 2135, 2201)

Dated at Germantown, Md., this 7th day of April 1972.

For the Atomic Energy Commission.

W. B. McCool,
Secretary of the Commission.

[FR Doc.72-6003 Filed 4-19-72;8:50 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

PIPERONYL BUTOXIDE AND PYRETHRINS

Proposed Tolerances

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, on behalf of the Agricultural Experiment Stations of Delaware, Massachusetts, New Jersey, New York, and Utah and the U.S. Department of Agriculture submitted a petition (PP 0E0977) proposing establishment of tolerances for residues of two insecticides from use on poultry and their premises as follows:

1. Piperonyl butoxide ((butyl carbityl) (6-propyl piperonyl) ether) in meat, fat, and meat byproducts of poultry at 3 parts per million and eggs at 1 part per million.

2. Pyrethrins (insecticidally active principles of *Chrysanthemum cinerariaefolium*) in meat, fat, and meat byproducts of poultry at 0.2 part per million and eggs at 0.1 part per million.

Prior to December 2, 1970, the Secretary of Agriculture advised that these pesticide chemicals are useful for the purpose for which the tolerances are being proposed.

Based on consideration given data submitted in the petition and other relevant material, it is concluded that the proposed tolerances will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that Part 180 be amended as follows:

1. In § 180.127, by adding two new paragraphs "3 parts per million • • •" and "1 part per million • • •" after the paragraph "8 parts per million • • •", as follows:

§ 180.127 Piperonyl butoxide; tolerances for residues.

• • • • •

3 parts per million in meat, fat, and meat byproducts of poultry.

1 part per million in eggs.

• • • • •

2. In § 180.128, by inserting the new paragraph "0.2 part per million • • •" after the paragraph "0.5 part per million • • •" and by revising the paragraph "0.1 part per million • • •", as follows:

§ 180.128 Pyrethrins; tolerances for residues.

• • • • •

0.2 part per million in meat, fat, and meat byproducts of poultry.

0.1 part per million (negligible residue) in eggs and meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep.

• • • • •

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the Federal Register, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the Federal Register, file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: April 14, 1972.

William M. Upholt,
Deputy Assistant Administrator for Pesticides Programs.

SOIL SAMPLES

List of Approved Laboratories Authorized to Receive Interstate Shipments for Processing, Testing, or Analysis

Pursuant to the Japanese Beetle, Whitefringed Beetle, European Chafer, Soybean Cyst Nematode, Witchweed, Imported Fire Ant, and Golden Nematode Quarantines (Notices of Quarantine Nos. 48, 72, 77, 79, 80, 81, and 85; 7 CFR 301.48, 301.72, 301.77, 301.79, 301.80, 301.81, and 301.85), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), the list of laboratories (36 F.R. 3272) operating under a compliance agreement and approved under said quarantines to receive interstate shipments of soil samples for processing, testing, or analysis is hereby revised as follows:

This document shall become effective upon publication in the FEDERAL REGISTER (4-20-72) when it shall supersede PPD 639 dated February 20, 1971.

Under the provisions of the regulations supplemental to the notices of quarantine cited herein, soil samples for processing, testing, or analysis may be moved interstate from any regulated area specified in the regulations to laboratories approved by the Deputy Administrator and so listed by him. A laboratory may be approved if a compliance agreement is signed; samples are packaged to prevent spilling of soil; and soil residues, hazardous water residues, and shipping containers are treated in accordance with specified procedures.

The Deputy Administrator of Plant Protection and Quarantine Programs has approved the above-listed laboratories as establishments which meet the qualifications required under the regulations. The listed establishments are, therefore, authorized to receive soil samples from the regulated areas specified in the regulations without certificates or permits attached.

This action relieves certain restrictions presently imposed. Therefore, it should be made effective promptly to be of maximum benefit to persons subject to the restrictions that are being relieved. Accordingly, it is found, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with regard to this action are impracticable and unnecessary, and good cause is found for making this revision effective less than 30 days after publication in the FEDERAL REGISTER.

V 37-77 APR 20 72 XUM

Done at Washington, D.C., this 13th day of April 1972.

LEO G. IVERSON,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

Commodity Credit Corporation

GRAINS AND SIMILARLY HANDLED COMMODITIES

Final Date for Redemption of Warehouse-Storage Loans

Unless demand is made earlier by CCC, warehouse-storage loans under 1971 loan programs on the commodities listed in the table below mature and are due and payable on the dates indicated. Unless, on or before the final date for repayment specified below, such loans are repaid, title to the unredeemed collateral shall immediately vest in CCC, without a sale thereof, on the date next succeeding the final date for repayment specified below: *Provided*, That CCC will not acquire title to any commodity for which repayment has been mailed to the county ASCS office by letter postmarked (not patron postage meter date stamp) not later than the final date for repayment of such commodity. This notice applies to all such unredeemed collateral pledged to CCC under warehouse-storage loans. CCC shall have no obligation to pay for any market value which the unredeemed collateral may have in excess of the loan indebtedness; i.e., the unpaid amount of the note plus interest and charges. Nothing herein shall preclude making payment to a producer of any amount by which the settlement value of the pledged commodity may exceed the principal amount of the loan. The settlement value as used herein is the loan value of the pledged commodity determined on the basis of the weight, grade, and other quality factors shown on the warehouse receipts or accompanying documents in accordance with the applicable loan rate provided in the program regulations. Notwithstanding the foregoing provisions, if the producer has made a fraudulent representation in obtaining the loan or in settlement or deliveries under the loan or has converted all or any part of the loan collateral, the producer shall remain personally liable for the amounts specified in the Warehouse Note and Security Agreement and in the loan program regulations.

Amounts due the producer will be paid to the producer by the appropriate county ASCS office.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[File 23(71)-11]

OPORTO TRADING (PTY.) LTD. AND MAURICE J. FLUXMAN

Order Denying Export Privileges for an Indefinite Period

In the matter of Oporto Trading (Pty.) Ltd., care of Maurice J. Fluxman, North State Building, corner Kruis and Market Streets, Johannesburg, South Africa, respondent; file No. 23(71)-11.

The Director, Compliance Division, Office of Export Control, Bureau of International Commerce, U.S. Department of Commerce, has applied for an order denying to the above-named respondent all U.S. export privileges for an indefinite period because the said respondent, without good cause being shown, failed to furnish answers to interrogatories and failed to furnish certain records and other writings specifically requested. This application was made pursuant to § 388.15 of the Export Control Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations).

In accordance with the usual practice, the application for an indefinite denial order was referred to the Compliance Commissioner, Bureau of International Commerce, who, after consideration of the evidence, has recommended that the application be granted. The report of the Compliance Commissioner and evidence in support of the application have been considered.

The evidence presented shows the following: The respondent is a trading firm whose address in Johannesburg, South Africa, is that of its attorney and sole director, Maurice J. Fluxman; in December 1970 the respondent ordered from a U.S. manufacturer certain plastic working machinery, concerning which a firm in Southern Rhodesia had previously requested price quotations from the U.S. manufacturer and which price quotations were given to said Southern Rhodesian firm; in February 1971 the U.S. manufacturer exported the machinery valued at $10,600 and on instructions from respondent the port to which the machinery was shipped was Lourenco Marques, Mozambique; the commercial invoice to respondent, the bill of lading, and the shipper's export declaration each contained a destination control notice showing the ultimate destination of the machinery as South Africa.

The Compliance Division is conducting an investigation into the above transaction to ascertain the details of the respondent's role in the transaction, what disposition was made of the machinery in question, and whether there were violations of the Export Control Regulations.

It is impracticable to subpena the respondent, and relevant and material interrogatories relating to its participation in the above transaction and regarding disposition of the commodities in question were served on it pursuant to § 388.15 of the Export Control Regulations. The respondent also, pursuant to said section, was requested to furnish certain specific documents relating to said transaction. The respondent has failed to furnish responsive answers to said interrogatories or to furnish the documents requested, and it has not shown good cause for such failure. I find that an order denying export privileges to said respondent for an indefinite period may properly be entered under § 388.15 of the Export Control Regulations and that such an order is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Administration Act of 1969.

Accordingly, it is hereby ordered,

I. All outstanding validated export licenses in which respondent appears or participates, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. The respondent is denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license, or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part, exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondent, but also to its agents, employees, representatives, and partners, and to any other person, firm, corporation, or business organization with which the respondent now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith. This order is applicable to Maurice J. Flexman as agent or representative of the respondent.

IV. This order shall remain in effect until the respondent provides responsive answers, written information, and documents in response to the interrogatories heretofore served upon it or gives adequate reasons for failure to do so, except insofar as this order may be amended or modified hereafter in accordance with the Export Control Regulations.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondent or any related party, or whereby the respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondent.

VII. In accordance with the provisions of § 388.15 of the Export Control Regulations, the respondent may move at any time to vacate or modify this indefinite denial order by filing with the Compliance Commissioner, Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C. 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which if requested shall be held before the Compliance Commissioner, at Washington, D.C., at the earliest convenient date.

This order shall become effective on April 20, 1972.

Dated: April 14, 1972.

RAUER H. MEYER,
Director, Office of Export Control.

NORTH CAROLINA STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 70-00711-01-77040. Applicant: North Carolina State University, Department of Chemistry—NCSU, Raleigh, N.C. 27607. Article: Mass spectrometer, Model MS-1201. Manufacturer: Associated Electrical Industries, Ltd., United Kingdom.

Intended use of article: The article will be used for research studying the mechanism of the transmission of electronic effects in the adamantane skeleton; for a study of the solvolytic behavior of the isomeric 2-substituted compounds to attempt an elucidation of the mass spectral behavior of these compounds; and for quantitative analysis of complex gaseous mixtures.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The captioned application is a resubmission of Docket No. 68-00646-01-77040 which was denied without prejudice to resubmission on December 5, 1968, due to informational deficiencies contained therein. In this application the applicant alleged that the metastable performance and analytical (quantitative) accuracy of the foreign article were not matched by the instruments which were offered by domestic manufacturers, including the Model 12-90-G manufactured by Nuclide Corporation (Nuclide). A comparison of the foreign article and the Nuclide 12-90-G discloses as to the pertinent characteristics:

Metastable performance. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated September 14, 1970, that the Nuclide 12-90-G is similar to the foreign article and should have comparable metastable characteristics. The applicant, in material attached to the application, acknowledges the physical similarity of the 12-90-G to the article but points out that a representative sample of 1-bromoadamantane was sent to the companies concerned and an adequate spectrum was received from the manufacturer of the article while Nuclide replied that a 12-90-G was not available at State College (the location of Nuclide) to evaluate the sample. In this connection HEW advises: "The test run on 1-bromoadamtane [sic] with regard to metastable performance is not very conclusive. The intensity of metastables is largely a function of the length of the drift free region in front of the magnet. Intense metastables can be the result of collision induced reactions and may thus be intense with an overloaded source."

The National Bureau of Standards (NBS) advises in its memorandum dated November 17, 1970, that this application does not justify a finding different from that of its previous evaluation relating to the applicant's initial submission. NBS advised as to metastable performance in its previous evaluation:

"For mass spectrometric study of metastable species, the instrument should possess, (a) extremely good resolution, (b) wide range of accelerating voltage, and (c) a suitable long path length from the point it receives its accelerating voltage to the magnetic analyzer. Assuming its other characteristics to be equal, the mass spectrometer that provides the best "metastable" performance will be a double focusing instrument.

"The subject foreign article is a single focusing instrument. Among single focusing mass spectrometers, the instrument with the highest resolution, assuming each is comparable in the features (b) and (c) should give superior metastable

V 37 77 APR 20 72 XUM

performance. The Nuclide 12–90–G is considered comparable to the AEI–MS–1201 (the foreign article) for general purposes and should give equivalent metastable species detection."

NBS also advised that, with respect to type, geometry, and resolution, the foreign article and the 12–90–G are similar in that both feature a magnetic sector having a 12-inch radius and 90° deflection and both provide a resolution of 7,500 while, in the case of accelerating voltage, the article provides 8,000 volts regulated step wise and the 12–90–G provides 10,000 volts continuously adjustable.

Quantitative accuracy. Although rigid formal specifications were not sent to the manufacturers contacted, the applicant alleges that all contacted, including Nuclide, were requested to provide a maximum deviation of analytical results from the value of the component being analyzed of 1 percent, 1 percent, 5 percent, and 10 percent when the component represents 100 percent, 10 peroent, 1 percent, and 0.1 percent of the sample respectively. The applicant did not indicate to the manufacturers concerned the conditions under which such accuracy was to be attained. The foreign article provides the maximum deviations requested by the applicant but the manufacturer specifies, "These values may be obtained when the MS–1201 (the foreign article) is equipped with appropriate inlet systems, precision recorder, and source temperature is allowed to equilibrate for 2 hours." According to the applicant, Nuclide's reply to the request for an instrument providing the required maximum deviations was that it did not have information available pertaining to this specification. The applicant did indicate, however, that the intended uses of the required mass spectrometer were communicated to each manufacturer concerned and that Nuclide offered to furnish an instrument for these uses, i.e., the Model 12–90–G. In this connection HEW advises that: "The quantitative analysis requirements are * * * vague and depends on the quality and size of the reservoir and leak. This figure can be increased even above that stated by proper attention to enough variables (use of balanced electrometers, etc.), not a really good test of mass spectrometer quality."

Finally, NBS and HEW advise in a joint memorandum dated December 16, 1970, that the Nuclide 12–90–G could be used to accomplish the intended purposes of the applicant and that therefore a scientifically equivalent domestic instrument is available for the applicant's intended purposes.

SETH M. BODNER,
Director,
Office of Import Programs.

Notice of Applications for Duty-Free Entry of Scientific Articles

Correction

In F.R. Doc. 72–5644 appearing at page 7354 in the issue for Thursday, April 13, 1972, in the fourth line of the first complete paragraph on page 7355 the word "spin" should be inserted after the word "Electron".

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket 6499]

OTC ANALGESIC AND ANTIPYRETIC PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has received reports from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, for the over-the-counter drugs listed below. Pending the results of the OTC study of drugs in this class, action on these reports will be deferred in accordance with the "Proposal Establishing Status of Over-the-Counter Drugs Previously Reviewed Under the Drug Efficacy Study (DESI)" published elsewhere in this issue of the FEDERAL REGISTER.

The following analgestic and/or antipyretic drugs are included in this announcement:

1. Surfacaine Suppositories containing cyclomethycaine; Eli Lilly and Co., Indianapolis, Ind. 46206 (NDA 6–139).

2. Bufferin Tablets containing aspirin, aluminum glycinate and magnesium carbonate; Bristol-Myers Co., 225 Long Avenue, Hillside, N.J. 07207 (NDA 6–499).

3. Trigesic Tablets containing acetaminophen, aspirin and caffeine; E. R. Squibb & Sons, Division Olin Mathieson Chemical Corp., 745 Fifth Avenue, New York, N.Y. 10022 (NDA 7–289).

4. Nebs Tablets containing acetaminophen; the Norwich Pharmacal Co., 17 Eaton Avenue, Norwich, N.Y. 13815 (NDA 7–654).

5. Apamide Tablets containing acetaminophen; Dome Laboratories, Division Miles Laboratories, Inc., 125 West End Avenue, New York, N.Y. 10023 (NDA 8–188).

6. Metalid Tablets containing acetaminophen; Philips Roxane Laboratories, Division of Philips Roxane, Inc., 330 Oak Street, Columbus, Ohio 43216 (NDA 8–717).

7. Duplexin Tablets containing dihydroxyaluminum sodium carbonate, magnesium carbonate, aspirin, phenacetin, and caffeine; Whitehall Laboratories, Inc., Division American Home Products Corp., 685 Third Avenue, New York, N.Y. 10017 (NDA 9–329).

8. Nysacetol Tablets containing acetaminophen; Nysco Laboratories, Inc., 34–24 Vernon Boulevard, Long Island City, N.Y. 11106 (NDA 9–870).

9. Tylenol Elixir containing acetaminophen; McNeil Laboratories, Inc., Camp Hill Road, Fort Washington, Pa. 19034 (NDA 9–927).

10. Tempra Drops and Tempra Syrup containing acetaminophen; Mead Johnson Laboratories, Division of Mead Johnson & Co., 2404 Pennsylvania Street, Evansville, Ind. 47721 (NDA 10–382).

11. Tralgon Elixir containing acetaminophen; E. R. Squibb & Sons (NDA 10–800).

12. Tylenol Tablets containing acetaminophen; McNeil Laboratories, Inc. (NDA 11–630).

13. Arthropan Liquid and Actasal Pediatric Drops containing chlorine salicylate; the Purdue-Frederick Co., 99–101 Saw Mill River Road, Yonkers, N.Y. 10701 (NDA 11–844).

14. Defencin Tablets, containing glyceryl guaiacolate, aspirin, and phenyltoloxamine dihydrogen citrate; Grove Division, Bristol-Myers Products, Post Office Box 7300, St. Louis, Mo. 63177 (NDA 12–622).

The NAS/NRC, Drug Efficacy Study Group, Panel on Drugs for Relief of Pain, made the following General Statements on Analgesic Preparations, which are applicable to these OTC analgesic products that are intended for oral use.

GENERAL STATEMENTS ON ANALGESIC PREPARATIONS

EVIDENCE FOR GENERAL ANALGESIC EFFECT

It is the recommendation of the Panel that, when a drug has been shown to be an effective analgesic in several different kinds of clinical pain, by suitable controlled trials using modern criteria, such a drug be entitled to consideration as an "all-purpose analgesic" unless special considerations indicate that this is not appropriate. In such cases, it would seem desirable to allow the drug to be marketed for the relief of most kinds of pain, thus avoiding the necessity for listing specific conditions.

ANALGESIC MIXTURES

There is increasing evidence, which has accumulated particularly within the past few years, that it is not always easy to predict the effects of adding one drug to another. Thus, drugs may merely summate in their activities, antagonize each other, or produce true potentiation. Since adequate trials on the relative efficacy of single drugs and mixtures are usually unavailable, it is hard for the Panel to be both fair and scientific in the evaluation of many of the mixtures which it has been asked to review.

Furthermore, some ingredients appear to have been added to these mixtures on the basis of a rationale that is not evident to the Panel. On other occasions, the rationale seems evident, but the reason for the particular doses chosen (especially those which seem homeopathic) is not clear.

In addition to the well-known objections that fixed-ratio mixtures do not allow flexibility in the doses of individual ingredients, one can object to many analgesic mixtures because they contribute little additional therapeutic benefit while increasing the risks of side effects, allergic sensitization, etc. One can perhaps justify the use of some of these mixtures when pain is present with some other symptom, such as a stuffy nose, and both symptoms can be handled reasonably well by the mixture. However, to promote such a mixture as an all-purpose remedy for all kinds of pain, including those which cannot possibly be aided by one or more of the ingredients, is, in the view of the Panel, to encourage bad therapeutics.

SEMANTIC CONFUSION

The words "synergism" and "potentiation" are subject to multiple interpretations, even among professional pharmacologists. It would seem desirable to avoid their use, focusing instead on a description of what actually was achieved in the clinical setting. The word "potency" also has different meanings to different persons. If one is talking simply about milligram potency, this is actually a trivial matter in the clinical setting and, therefore, the term "potency" should probably be avoided.

IRRELEVANT INFORMATION

Many package inserts contain material of no relevance to most practitioners. For example, the animal data are often not helpful, and are not always clearly identifiable as such. This material often seems to be used as a substitute for clinical data. Also irrelevant and not particularly helpful to the reader is a long list of clinical testimonials, only some of which bear on the points at issue, and most of which are uninterpretable because of defects in clinical design.

DRUG DEPENDENCE AND ABUSE

The following statement is proposed to bring uniformity to the claims made concerning the dependence-producing properties of narcotic analgesics and preparations containing narcotic analgesics. It is recognized that many of the claims concerning a lesser dependence-producing liability of specific narcotic analgesics reflect the fact that the particular agents are not commonly abused. However, it must also be recognized that the actual abuse rates do not accurately reflect dependence-producing potential. It is known that agents and preparations that have not been commonly abused in some social settings at some times, have been extensively abused in other settings at other times.

One of the major purposes of the existing laws and regulations concerning narcotic analgesics is to prevent abuse. Therefore, all agents that have been shown to produce morphine-like physiologic and subjective changes when administered chronically, that will produce morphine-like dependence, or that will substitute for morphine in morphine-dependent subjects, shall carry the following recommended warning: "(Name of agent) can produce dependence of the morphine type and therefore has the potential for being abused."

The only exceptions to this recommendation are substances specifically exempted from bearing the label "Warning—may be habit forming" required by Federal law or regulation.

RIGID DOSE RECOMMENDATIONS

The Panel believes that doctors should not be bound legally by dose recommendations in package inserts. These recommendations represent advice as to the dose at which most patients can be started, and the range at which the needs of most patients can be met. However, it is good practice to manipulate the dose in the event of a therapeutic failure, or in the event of untoward effects. Furthermore, tolerance to a drug may develop, and may require an increase in dose. It is the Panel's observation that some of the recommended doses are too low.

DEFICIENCIES OF METHODOLOGY

There is a need for additional methodology for the study of pain. Thus, for example, there is a paucity of information available on the comparative effects of analgesics given repeatedly to patients with chronic pain. The result with single doses may or may not be transferable to such situations. Another area of deficiency is the evaluation of topical ointments that produce obvious sensations of cooling or warmth. Such limitations in methodology should be kept in mind by the Food and Drug Administration when evaluating data on drugs, both old and new.

The evaluations of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, are as follows:

1. Surfacaine Suppositories containing cyclomethycaine.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "For local anesthetic or analgesic effect, as directed by the physician."
Evaluation: Effective, but * * *.
Comments: The warning concerning sensitivity should be clarified directing the patient to consult a physician if use of the medication aggravates his symptoms.

2. Bufferin Tablets containing aspirin, aluminum glycinate and magnesium carbonate.

This drug has been evaluated by the following Panels:

a. Panel on Drugs for Relief of Pain
b. Panel on Drugs Used in Rheumatic Diseases

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: "* * * for fast, effective relief of simple headache, painful discomforts of colds, minor arthritic pain, menstrual pain, muscular aches, * * * and pain of tooth extraction."
Evaluation: Effective.
Comments: This mixture contains the known analgesic, aspirin, which at recommended dose would provide relief of pain.
Indication: For "mild temporary tension."
Evaluation: Possibly effective.
Comments: There is very litle evidence that aspirin has any tranquilizing or sedative effect.

General comments. The claim is made that Bufferin is "twice as fast as aspirin." This statement is ambiguous and misleading.

While the preponderance of studies comparing blood levels of salicylate after ingestion of Bufferin and various types of unbuffered aspirin indicate that the buffered product is somewhat more rapidly absorbed from the gastrointestinal tract than plain aspirin, there is no evidence to indicate that the speed of onset of analgesic action is significantly increased.

The claim is made that Bufferin "helps prevent the stomach upset often caused by aspirin." Most of the published studies with which the panel is familiar indicate there is litle difference in the incidence or intensity of subjective gastrointestinal side effects after ingestion of Bufferin or plain aspirin.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic, and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

3. Trigesic Tablets containing acetaminophen, aspirin, and caffeine.

This drug has been evaluated by the Panel on Drugs for Relief of Pain.

Indication: "For the temporary relief of pain from muscular aches, simple headache and discomforts due to colds."
Evaluation: Effective, but * * *.
Comments: This combination contains the known analgesics, aspirin, and acetaminophen, which at the recommended dose would provide relief of pain. There is no reason to expect that the additional ingredient, caffeine, would detract from this effect. However, there are no specific, well-controlled, and conclusive studies on the above-mentioned conditions.

4. Nebs Tablets containing acetaminophen.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain.
b. Panel on Drugs Used in Rheumatic Diseases
c. Panel on Neurological Drugs.

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: Relief for a variety of pains (headache throb, sinus headache, tension headache, menstrual distress, colds, flu, neuritis, neuralgia, rheumatism).
Evaluation: Effective, but * * *.
Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

Indication: Relieves fever of colds and flu.
Evaluation: Effective.

V 37-77 APR 20 72 XUM

Comments: Acetaminophen is antipyretic.

Indication: "Pain-free in minutes."

Evaluation: Ineffective.

Comments: There is no evidence for lightning speed of this type.

General comments. How can a drug that has been around since 1889 be called "the most modern of pain relievers" and a product of "modern laboratory research"? This statement is "puffery" and should be removed from the insert.

The statement is made: "Unlike aspirin the active ingredient in NEBS has been shown not to irritate stomach lining. Increasingly it is being acknowledged in scientific and medical reports as safer than aspirin for many people." This claim is justifiable.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the panel and should be deleted. Because these claims are vague and ill-defined the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis should be deleted from brochures and package inserts.

5. Apamide Tablets containing acetaminophen.

This drug has been evaluated by the Panel on Drugs for Relief of Pain.

Indication: "For temporary relief of pain, such as simple headache, minor muscular aches, ordinary discomfort of the menstrual period, minor pain following dental work, and discomforts of the common cold."

Evaluation: Effective, but • • •.

Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

6. Metalid Tablets containing acetaminophen.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain.

b. Panel on Drugs Used in Rheumatic Diseases.

c. Panel on Neurological Drugs.

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: Relief of minor aches and pains of simple headache, neuralgia, arthritis, and rheumatism.

Evaluation: Effective, but • • •

Comments: The drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the Panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis, should be deleted from brochures and package inserts.

7. Duplexin Tablets containing dihydroxyaluminum sodium carbonate, magnesium carbonate, aspirin, phenacetin, and caffeine.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain

b. Panel of Drugs Used in Rheumatic Diseases

c. Panel on Neurological Drugs

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: Pain of headache, neuritis, neuralgia, cold distress, arthritis, rheumatism, cold discomforts, and muscle aches.

Evaluation: Effective, but • • •.

Comments: This combination contains the known analgesics, phenacetin and aspirin, which at the recommended dose would provide relief of pain. There is no reason to expect that the additional ingredients would detract from or add to this effect.

This combination is probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive studies on the above-mentioned conditions.

Indication: Pain of mild migraine.

Evaluation: Ineffective.

Comments: Since this is an OTC or nonprescription drug, the Panel objects to its use by the lay public for such a serious condition, which requires medical advice and diagnosis.

General comments. The claim is made: "An advance over either plain or ordinary buffered aspirin." This is an unjustifiable statement. No evidence exists that "APC" as compared to aspirin has better analgesic effect.

Claims such as "reduces muscular tensions," "calm jumpy nerves that exaggerate pain," and "soothe swollen tissues that aggravate pain" are too vague and should be deleted. It would be proper for the company to mention the antiinflammatory properties of aspirin.

There should be justification and supportive data for the inclusion of antacids in this combination.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic, and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the Panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis, should be deleted from brochures and package inserts.

8. *Nysacetol Tablets* containing acetaminophen.

This drug has been evaluated by the Panel on Drugs for Relief of Pain.

Indication: For the relief of minor aches and pains due to colds.

Evaluation: Effective, but • • •.

Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

9. Tylenol Elixir containing acetaminophen.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain

b. Panel on Neurological Drugs

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: "Useful in mild upper respiratory infections (tonsillitis, common cold, 'grippe'), headache, myalgia, postimmunization reactions, posttonsillectomy discomfort, and gastroenteritis."

Analgesic in bronchitis, pharyngitis, tracheobronchitis, sinusitis, pneumonia, otitis media, cervical adenitis, and viral infections.

Evaluation: Effective, but • • •.

Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive studies on the above-mentioned conditions.

Indication: Antipyretic in bronchitis, pharyngitis, tracheobronchitis, sinusitis, pneumonia, otitis media, cervical adenitis, and viral infections.

Evaluation: Effective, but • • •.

Comments: Acetaminophen is antipyretic. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis, should be deleted from brochures and package inserts.

10. Tempra Drops and Tempra Syrup containing acetaminophen.

These drugs have been evaluated by the panel on Drugs for Relief of Pain.

Indication: Relieves "discomfort due to colds, simple headaches, minor aches and pains."

Evaluation: Effective, but • • •.

Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

11. Tralgon Elixir containing acetaminophen.

This drug has been evaluated by the Panel on Drugs for Relief of Pain.

General comments. No insert was available. See comments on Trigesic Tablets.

12. Tylenol Tablets containing acetaminophen.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain

b. Panel on Drugs Used in Rheumatic Diseases

c. Panel on Neurological Drugs

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: "Tylenol provides effective analgesia in a wide variety of arthritic and rheumatic conditions involving musculoskeletal pain, as well as in other painful disorders such as headache, dysmenorrhea, myalgias, and neuralgias."

"Analgesic in diseases accompanied by discomfort and fever, such as the common cold and other viral infections."

Evaluation: Effective, but • • •.

Comments: This drug is an effective analgesic, and probably capable of relieving many different kinds of pain. However, there are no specific, well-controlled, and conclusive clinical studies on the above-mentioned conditions.

Indication: Antipyretic in diseases accompanied by discomfort and fever, such as the common cold and other viral infections.

Evaluation: Effective, but • • •.

Comments: Acetaminophen is antipyretic. However, there are no specific, well-controlled and conclusive clinical studies on the above-mentioned conditions.

General comments. Under "Advantages," the claims are made that Tylenol is "unusually free from side effects" and "safe for long-term use." These claims are justifiable only for short-term use, but no evidence exists for "long-term use."

Under "Advantages," the claim is made: "Nonirritating. Tylenol is not likely to cause gastric irritation often encountered with aspirin or other salicylates." This statement is justifiable.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic, and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis, should be deleted from brochures and package inserts.

13. Arthropan Liquid and Actasal Pediatric Drops containing choline salicylate.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain.

b. Panel on Drugs Used in Rheumatic Diseases.

c. Panel on Neurological Drugs.

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: Relief of minor pains of arthritis, rheumatism, simple headache, and discomfort of menstrual cramps.

Evaluation: Effective, but • • •.

Comments: Choline salicylate is an effective analgesic. There is bibliographic support of the claims for arthritis and rheumatism but no acceptable and controlled studies for simple headache or menstrual cramps.

Indication: Reduce inflammation.

Evaluation: Probably effective.

Comments: Salicylates have been shown to reduce inflammation, however, there is no documentation for this formulation.

General comments. The claims are made:

a. "Faster-Acting, Long-Lasting Pain Reliever."

b. "Taken on an Empty Stomach, Starts Acting 5 Times Faster Than Aspirin."

c. "Reaches Peak of Action 12 Times Faster Than Aspirin."

d. "For Quicker, Gentler, More Convenient Temporary Relief of Minor Pains of Arthritis, Rheumatism, Simple Headache, Menstruation."

These claims assert that choline salicylate acts sooner, last longer, and reach a peak of action faster than aspirin. Adequate studies show that blood salicylate levels after choline salicylate administration are five times as high in 12 minutes and twice as high in 30 minutes as a comparable dose of aspirin. However, there are no clinical studies available to show that the onset of analgesic action is sooner, greater, or more prolonged than with aspirin. Various studies suggest that choline salicylate has analgesic activity equivalent to corresponding doses of aspirin, but these studies were not truly double-blind, in that the liquid form of choline salicylate was compared with the tablet form of aspirin. No studies were done to compare choline salicylate with sodium salicylate. Therefore, the panel finds the above claims unjustified.

The statement is made: "Arthropan Liquid does not irritate the stomach, as does aspirin in many people. As a result, Arthropan Liquid may often be taken in required doses without stomach discomfort—even by people who have a history of stomach sensitivity to aspirin." There are some clinical studies to show that choline salicylate is less irritating to the stomach.

The statement is made: "Arthropan Liquid represents an advance in temporary relief of minor pains of arthritis, rheumatism, simple headache, and menstrual cramps. It is preferable for relief of such pains because it is much less likely to irritate the stomach than aspirin." The panel dislikes the use of the word "advance" because there is doubt that the drug really offers quicker, more prolonged, or safer action than aspirin.

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic, and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the disease (e.g., osteo-arthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis, because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis, should be deleted from brochures and package inserts.

14. Defencin Tablets containing glyceryl guaiacolate, aspirin, and phenyltoloxamine dihydrogen citrate.

This drug has been evaluated by the following panels:

a. Panel on Drugs for Relief of Pain.

b. Panel on Drugs Used in Rheumatic Diseases.

c. Panel on Neurological Drugs.

d. Panel on Drugs Used in Allergy.

PANEL ON DRUGS FOR RELIEF OF PAIN

Indication: Relief of pain.

Evaluation: Effective, but • • •.

Comments: This combination contains the known analgesic, aspirin, which at the recommended dose would provide relief of pain. There is no reason to expect that the additional ingredients would detract from or add to this effect.

Indication: Temporary symptomatic relief of minor pain of neuralgia, arthritis, rheumatism, and simple headache.

V 37-77 APR 20 72 XUM

Evaluation: Effective, but * * *.

Comments: This combination contains the known analgesic, aspirin, which at the recommended dose would provide relief of pain. There is no reason to expect that the additional ingredients would detract from or add to this effect.

This combination is probably capable of relieving many different kinds of pain. However, there are no specific well controlled, and conclusive studies on the above-mentioned conditions.

Indication: For minor muscle aches and pains due to fatigue, overexertion, exposure.

Evaluation: Effective, but * * *.

Comments: This combination contains the known analgesic, aspirin, which as stated in the first two indications would provide relief of pain. The panel, however, objects to vague and ill-defined conditions such as "fatigue, overexertion, and exposure," which may not be associated with pain. It would be better to delete these conditions.

General comments. Whether the addition of phenyltoloxamine and glyceryl guaiacolate contributes anything to the management of the clinical entities "neuralgia, arthritis, rheumatism" is not known.

The drug is advertised as a "new and different analgesic for more effective pain relief" and contains in addition to aspirin an antihistamine and an expectorant. The panel considers this unjustifiable in that there is no valid evidence of "more pain relief" and the drug is not "new" or "different."

Under "What you can expect of Defencin," the statement is made: "Clinical studies have shown that most patients who use Defencin had no side effects. Among the remainder, the principal side effects were minor stomach and intestinal irritation similar to those from aspirin alone." This may be true, but also glyceryl guaiacolate may cause stomach irritation.

Two tablets every 3 or 4 hours are recommended. This means 25 mg. phenyltoloxamine every 3 hours, i.e., presumably enough to cause drowsiness. In the light of this side effect, the panel objects to the other statements made by the company: "Defencin has been found to be sufficiently free of undesirable side effects—so safe—that it is sold without prescription. In fact, because Defencin is safe, you can use it repeatedly."

PANEL ON DRUGS USED IN RHEUMATIC DISEASES

General comments. The Panel on Drugs Used in Rheumatic Diseases recommends that certain ill-defined and vague claims be modified or deleted. The following is a list of these claims.

1. Fibrositis, myositis, arthritis, spondylitis, and torticollis.

2. Lumbago, "stiff neck," whiplash injury, rheumatism, rheumatic, and arthritides.

The claims in the first category are of such different etiologies that it would be better to specify the diseases (e.g., osteoarthritis, rheumatoid arthritis, and ankylosing spondylitis) or modify the claims to specify the etiology. The claims in the second category are imprecise and unscientific terms which are objectionable to the Panel and should be deleted. Because these claims are vague and ill-defined, the objective criteria necessary to evaluate the efficacy of a drug is greatly compromised.

PANEL ON NEUROLOGICAL DRUGS

General comments. The panel finds it impossible to evaluate for efficacy any drug used in the treatment of such unqualified conditions as neuralgia, neuritis, and radiculitis because of the multiple known and unknown causes of these conditions.

Unless specific types of disease or recognizable syndromes affecting peripheral nerves and roots are stated, reference to the use of any drug for the treatment of neuralgia, neuritis, and radiculitis should be deleted from brochures and package inserts.

PANEL ON DRUGS USED IN ALLERGY

Indication: Relief of common cold symptoms, such as runny nose and sneezing.

Evaluation: Possibly effective.

Comments: Phenyltoloxamine, in the experience of the panel, is only weakly active as an antihistamine. Several carefully controlled studies, in which different antihistamines were tried, disclosed no alleviation of symptoms or shortening of the duration of symptoms of colds. When allergic rhinitis is mistaken for a cold, antihistamines may be of benefit; but allergic rhinitis is being treated in that instance, not an upper respiratory infection.

This indication was subsequently reevaluated as ineffective as a fixed combination with the following additional comments:

The evidence presented by the manufacturer that the addition of glyceryl guaiacolate improved the overall preparation was totally unconvincing. Its effectiveness in controlling runny nose, sneezing, and as a sedative was not documented.

The studies purporting to demonstrate that phenyltoloxamine improved the action of aspirin through its sedative effect was not convincing; although by inference with other studies, theoretically possible.

It has not been proven that the antihistamine contributes to the relief of cold symptoms which is provided by this combination. The majority of carefully controlled studies that have been performed with antihistamines disclosed no alleviation of symptoms or shortening of the duration of symptoms of colds. When allergic rhinitis is mistaken for a cold, antihistamines may be of benefit, but allergic rhinitis is being treated in that instance, not an upper respiratory infection.

Indication: Relief of cough.

Evaluation: Effective, but * * *. Subsequently reevaluated as ineffective as a fixed combination.

Comments: Glyceryl guaiacolate is an effective expectorant that is helpful in relieving nonproductive coughs. There is no evidence that the antihistamine or aspirin contributes significantly to this effect.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 6499, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5978 Filed 4-19-72;8:47 am]

[DESI 1676]

CERTAIN OTC ANTACID PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has received reports from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, for the over-the-counter drugs listed below. Pending the results of the OTC study of drugs in this class, action on these reports will be deferred in accordance with the "Proposal Establishing Status of Over-the-Counter Drugs Previously Reviewed Under the Drug Efficacy Study (DESI)" published elsewhere in this issue of the FEDERAL REGISTER.

The following OTC antacid drugs are included in this announcement.

1. Chooz Chewing Gum Tablets containing calcium carbonate and magnesium trisilicate; Pharmaco, Inc., Galloping Hill Rd., Kenilworth, N.J. 07033 (NDA 1–875).

2. Kamat Tablets containing atropine sulfate, aluminum hydroxide, magnesium trisilicate, and kaolin; Cole Pharmacal Co., Inc., 3715–31 Laclede Ave., St. Louis, Mo. 63101 (NDA 1–952).

3. Amphojel Tablets containing aluminum hydroxide; Wyeth Laboratories, Division American Home Products Corp., Post Office Box 8299, Philadelphia, Pa. 19101 (NDA 2–436).

4. Gelusil Liquid containing magnesium trisilicate and aluminum hydroxide; Warner-Chilcott Laboratories, Division Warner-Lambert Pharmaceutical Co., 201 Tabor Road, Morris Plains, N.J. 07950 (NDA 2–545).

5. Endo-Magsal Suspension containing magnesium trisilicate and aluminum hydroxide; Endo Laboratories, Inc., 1000 Stewart Avenue, Garden City, Long Island, N.Y. 11533 (NDA 3–807).

6. Gelusil Tablets containing magnesium trisilicate and aluminum hydroxide; Warner-Chilcott Laboratories (NDA 4–380).

7. Alglyn Tablets and Alglyn Magma containing dihydroxyaluminum aminoacetate; Brayten Pharmaceuticals Co., 1715 West 38th Street, Chattanooga, Tenn. 37409 (NDA 5–668).

8. Alzinox Tablets and Alzinox Magma containing dihydroxyaluminum aminoacetate; Smith, Miller & Patch, Inc., 401 Joyce Kilmer Avenue, New Brunswick, N.J. 08902 (NDA 6–547).

9. Carmethose Suspension containing sodium carboxymethylcellulose; and

10. Carmethose with Magnesium Oxide Tablets containing sodium carboxymethylcellulose and magnesium oxide; and

11. Carmethose-Trasentine Tablets containing sodium carboxymethylcellulose, adiphenine hydrochloride, and magnesium oxide; Ciba Pharmaceutical Co., Division of Ciba Corp., 558 Morris Avenue, Summit, N.J. 07901 (NDA 6–738).

12. Resinat Capsules and Tablets containing polyaminemethylene resin; Merrell-National Drug Co., Division of Richardson-Merrell, Inc., 110 East Amity Road, Cincinnati, Ohio 45215 (NDA 7–706).

13. Kolantyl Tablets containing dicyclomine hydrochloride, aluminum hydroxide, magnesium oxide, and methylcellulose; Merrell-National Drug Co. (NDA 7–911).

14. Dimacid B Tablets containing magnesium carbonate, bismuth subcarbonate, calcium carbonate, and magnesium glycinate; Otis Clapp and Son, Inc., 143 Albany Street, Cambridge, Mass. 02139 (NDA 8–431).

15. Kolantyl Gel containing dicyclomine hydrochloride, aluminum hydroxide, magnesium hydroxide, and methylcellulose; Merrell-National Drug Co. (NDA 8–467).

16. Rolaids Antacid Mint Tablets containing dihydroxy-aluminum sodium carbonate; American Chicle Division, Warner-Lambert Pharmaceutical Co. (NDA 9–100).

17. Rolaids Antacid Mint with HMAS Tablets containing almadrate sulfate; American Chicle Division, Warner-Lambert Pharmaceutical Co. (NDA 12–165).

18. "A" Plus Tablets containing isomylamine hydrochloride, calcium carbonate, magnesium carbonate, and magnesium trisilicate; Vick Chemical Co., Division of Richardson-Merrell, Inc., 122 East 42d Street, New York, N.Y. 10017 (NDA 12–298).

19. Belglyn Tablets containing belladonna alkaloids and dihydroxyaluminum aminoacetate; Brayten Pharmaceutical Co. (NDA 5–668).

The evaluations of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, are as follows:

1. Chooz Chewing Gum Tablets containing calcium carbonate and magnesium trisilicate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Fast relief of heartburn.
Evaluation: Probably effective.
Comments: The ingredients in this preparation are useful in this regard when heartburn is associated with gastroesophageal reflux of acid gastric contents.
Indication: Gas.
Evaluation: Ineffective.
Comments: There is no evidence supporting the claim that aerophagic symptoms can be relieved by any of the ingredients in this preparation. Furthermore, gum chewing would increase the amount of air swallowed, belching, etc., creating a vicious cycle.
Indication: Upset stomach due to "acid indigestion."
Evaluation: Possibly effective.
Comments: The term used in this indication is vague. The symptoms attributed by the patient to "acid indigestion" may be due to a variety of conditions, some pertaining to the gastrointestinal tract (duodenal ulcer, hiatal hernia, etc.) and some originating in other organs (postprandial angina, etc.).

General comments. This preparation has no package insert and the information on the label is inadequate, as far as side effects and contraindications are concerned. The dose schedule is limited to: "chew 1 or 2 tablets as needed." The presence of calcium carbonate in this preparation makes it imperative to establish a dosage schedule, with a warning about the possible danger of high doses for a long period, due to the inherent danger of milk-alkali syndrome, renal stones, etc., as well as the advisability of assessing the serum levels of calcium before and during the treatment periods, renal function, etc. The statement, "Hospital X-ray tests proves the superior action * * *," is not documented.

2. Kamat Tablets containing atropine sulfate, aluminum hydroxide, magnesium trisilicate and kaolin.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "For the temporary relief of gastric hyperacidity."
Evaluation: Possibly effective.
Comments: In the dosage advocated, the amount of atropine (0.260 mg.) does not have an appreciable effect on gastric acidity. The point is clearly made in some of the references provided by the manufacturer, and is common knowledge.

There is no reason to believe that this dosage potentiates the acid-neutralizing effect of the other ingredients.

No data are provided to support the claim that Kamat has any effect on gastric hyperacidity. Furthermore, the indication "for the temporary relief of gastric hyperacidity" is highly dubious, in that there is no consistent relationship between the level of gastric acidity and symptoms.

Any pharmacologic effect of this formulation can be ascribed to its content of aluminum hydroxide and magnesium trisilicate.

3. Amphojel Tablets containing aluminum hydroxide.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: As an antacid.
Evaluation: Effective.
Comments: Amphojel is representative of a large group of aluminum hydroxide preparations in general use.

General comments. A warning is advisable concerning the use of aluminum hydroxide preparation by patients who have recently suffered massive upper gastrointestinal hemorrhage and therefore have a large amount of blood in the bowel; occasionally, intestinal obstruction has been induced as the result of formation of an inspissated mass of blood clot and the medication. This preparation may cause rather severe constipation and measures should be taken to guard against it.

4. Gelusil Liquid containing magnesium trisilicate and aluminum hydroxide.

This drug has been evaluated by the Panel on Drugs Used In Gastroenterology.

Indication: For acid control in gastritis and hyperacidity.
Evaluation: Probably effective.
Comments: The ingredients contained in this drug, aluminum hydroxide and magnesium trisilicate have been found to elevate the pH of gastric contents when given in a sufficient dosage. While the label states this drug is indicated "for acid control, in gastritis and hyperacidity," there is the implication that hyperacidity per se requires treatment. As a rule in the clinical setting the presence of hyperacidity has not been established; neither has the presence of gastritis. The sodium concentration of the antacid should also be stated.
Indication: Adsorption.
Evaluation: Probably effective.
Comments: Both ingredients adsorb in vitro. Aluminum hydroxide gel has been shown to adsorb pepsin and in this way inhibits peptic activity. Whether the adsorption of gases, toxins, bacteria, etc., is significant is unproven.

5. Endo-Magsal Suspension containing magnesium trisilicate and aluminum hydroxide.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Antacid.
Evaluation: Effective.
Comments: The ingredients in this drug (magnesium trisilicate and aluminum hyroxide) have been found to increase the pH of gastric contents when given in a sufficient dosage.

Indication: Adsorbent.
Evaluation: Possibly effective.
Comments: Both ingredients adsorb in vitro but whether adsorption of toxins, gases, bacteria, histamine, etc., in the gastrointestinal tract is clinically significant is unproved.

6. Gelusil Tablets containing magnesium trisilicate and aluminum hydroxide.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: For acid control in gastritis and hyperacidity.
Evaluation: Probably effective.
Comments: The ingredients contained in this drug, aluminum hydroxide and magnesium trisilicate have been found to elevate the pH of gastric contents when given in a sufficient dosage. While the label states this drug is indicated "for acid control, in gastritis and hyperacidity," there is the implication that hyperacidity per se requires treatment. As a rule in the clinical setting the presence of hyperacidity has not been established; neither has the presence of gastritis. The sodium concentration of the antacid should also be stated.
Indication: Adsorption.
Evaluation: Probably effective.
Comments: Both ingredients adsorb in vitro. Aluminum hydroxide gel has been shown to adsorb pepsin and in this way inhibits peptic activity. Whether adsorption of gases, toxins, bacteria, etc., is significant is unproven.

7. Alglyn Tablets and Alglyn Magma containing dihydroxy aluminum aminoacetate.

These drugs have been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "As an antacid."
Evaluation: Effective.
Comments: There is no package insert. The package labels say nothing about what an antacid is used for. Therapeutic claims are not made or implied. Alglyn and Alglyn Magma are tablet and suspension respectively, of dihydroxyaluminum aminoacetate.

Although the labels do not reflect the full scope of the usage of antacids, they make clear that dosage other than the small amounts recommended should be prescribed by the physician.

8. Alzinox Tablets and Alzinox Magma containing dihydroxyaluminum aminoacetate.

These drugs have been evaluated by the Panel on Drugs Used in Gastroenterology.

V 37-77 APR 20 72 XUM

Indication: "As an antacid for the relief of gastric hyperacidity * * *"
Evaluation: Possibly effective.
Comments: Gastric hyperacidity is not a clinical entity and there is no known relationship between the gastric acid level and symptoms. The presence of a given level of gastric acidity does not call for therapy.

Indication: "For physicians' use in the management of peptic ulcer patients."
Evaluation: Effective.
Comments: The package labels make no claims. Alzinox and Alzinox Magma are tablet and suspension respectively, of dihydroxyaluminum aminoacetate. These compounds are antacids whose activity is comparable with that of aluminum hydroxide.

9. Carmethose Suspension containing sodium carboxymethylcellulose;

10. Carmethose with Magnesium Oxide Tablets containing sodium carboxymethylcellulose and magnesium oxide;

11. Carmethose-Trasentine Tablets containing sodium carboxymethylcellulose, adiphenine hydrochloride, and magnesium oxide.

These drugs were evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "For the temporary relief of gastric discomfort due to hyperacidity."
Evaluation: Possibly effective.
Comments: Carboxymethylcellulose is a weak antacid, with a very low neutralizing capacity. The magnesium oxide combined with Carmethose probably provides the important neutralizing capacity of this combination. More evidence is needed to demonstrate that the carboxymethylcellulose makes a significant addition.
Furthermore, the indication of "gastric discomfort due to hyperacidity" is highly dubious, in that there is no consistent relationship between the level of gastric acidity and symptoms.
The addition of Trasentine to Carmethose in no way changes the evaluation of this preparation.

12. Resinat capsules and tablets containing polyaminemethylene resin.

These drugs were evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "Effective for the temporary relief of gastric hyperacidity."
Evaluation: Probably effective.
Comments: Resinat has been shown to have antacid action, but its clinical efficacy in relieving symptoms induced by acid has not been compared with other standard products.
General comments. The ionic form of the resin should be stated. If the resin contains sodium, potassium, or ammonium the amount per tablet should be stated.

13. Kolantyl Tablets containing dicyclomine hydrochloride, aluminum hydroxide, magnesium oxide, and methylcellulose.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "Fast temporary relief of acid indigestion or heartburn due to gastric hyperacidity."
Evaluation: Possibly effective.
Comments: This OTC preparation contains dicyclomine HCl (5 mg.), aluminum hydroxide (300 mg.), magnesium oxide (165 mg.), and methylcellulose (100 mg.). There is no package insert.
The Panel knows of no evidence that dicyclomine in the dose advised has any pharmacologic effect.
Methylcellulose is listed as an active ingredient, but there is no evidence that it makes a significant contribution.
The aluminum and magnesium compounds are effective antacids, but the additional ingredients have not been shown to contribute.
The term "indigestion" is a poorly defined colloquialism describing a variety of complaints related to many disorders. Its meaning is not clarified by adding the word "acid." The presence of digestive symptoms calls for adequate diagnostic studies and subsequent therapy should be based on the results of these studies. The sale of this type of preparation OTC may lead to dangerous self therapy.

14. Dimacid B Tablets containing magnesium carbonate, bismuth subcarbonate, calcium carbonate, and magnesium glycinate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: "Excess stomach acidity."
Evaluation: Probably effective.
Comments: The label implies that the preparation provides relief from "the effects of excess stomach acidity"; hyperacidity is a laboratory finding, not a clinical entity.

Indication: Heartburn.
Evaluation: Probably effective.
Comments: The different antacid components of this preparation have been shown to neutralize HCl. Similar preparations with the same ingredients as Dimacid B or combinations thereof have been shown to alleviate the symptom heartburn.

Indication: Gas.
Evaluation: Possibly effective.
Comments: There is no evidence supporting the claim that aerophagic symptoms can be relieved by any of the ingredients in this preparation.
Indication: "Upset or sour stomach."
Evaluation: Possibly effective.
Comments: The term used in this indication is very vague. The symptoms attributed by the patient to "upset or sour stomach" may be due to a variety of conditions, some pertaining to the gastrointestinal tract (duodenal ulcer, hiatal hernia, etc.), and some originating in other organs (postprandial angina, etc.).
General comments. This preparation has no package insert and the information on the label is inadequate, as far as side effects and contraindications are concerned. The dose recommended is two tablets when needed. The presence of calcium carbonate in this preparation makes it imperative to establish a dosage schedule, with a warning about the possible danger of high doses for a long period due to the inherent danger of milk-alkali syndrome, renal stones, etc., as well as the advisability of assessing the serum level of calcium before and during the treatment periods, renal function, etc. The statement that Dimacid B does not cause "acid rebound or harmful overalkalinizing" have not been documented.

15. Kolantyl Gel containing dicyclomine hydrochloride, aluminum hydroxide, magnesium hydroxide, and methylcellulose.

This drug has been evaluated by the Panel on Drugs used in Gastroenterology.

Indication: "Fast temporary relief of acid indigestion or heartburn due to gastric hyperacidity."
Evaluation: Possibly effective.
Comments: This OTC preparation contains dicyclomine HCl, aluminum hydroxide, magnesium hydroxide, and methylcellulose. There is no package insert.
The Panel knows of no evidence that dicyclomine in the dose advised has any pharmacologic effect.
Methylcellulose is listed as an active ingredient, but there is no evidence that it makes a significant contribution.
The aluminum and magnesium compounds are effective antacids, but the additional ingredients have not been shown to contribute.
The term "indigestion" is a poorly defined colloquialism describing a variety of complaints related to many disorders. Its meaning is not clarified by adding the word "acid." The presence of digestive symptoms calls for adequate diagnostic studies and subsequent therapy should be based on the results of these studies. The sale of this type of preparation OTC may lead to dangerous self therapy.

16. Rolaids Antacid Mint Tablets containing dihydroxyaluminum sodium carbonate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Heartburn, gas, indigestion, and upset or sour stomach due to excessive gastric acidity.
Evaluation: Probably effective.
Comments: The warnings and dose schedule are inadequate.

General comments. This preparation has no package insert and the information on the label is inadequate, as far as side effects and contraindications are concerned. The dose schedule is limited to: "chew 1 or 2 tablets as required."

17. Rolaids Antacid Mint with HMAS Tablets containing almadrate sulfate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Heartburn, gas, indigestion, and upset or sour stomach due to excessive gastric acidity.
Evaluation: Probably effective.
Comments: No clinical data are available to the Panel, inasmuch as all the references but one are private reports. However, the relief of such symptoms by other alkaline medication has often been demonstrated and presumably will be obtained with adequate amounts of this compound. However, this compound has not been adequately tested.

General comments. This preparation has no package insert and the information on the label is inadequate, as far as side effects and contraindications are concerned. The dose schedule is limited to: "chew 1 or 2 tablets as required."

18. A-Plus Tablets containing isomylamine HCl, calcium carbonate, magnesium carbonate, and magnesium trisilicate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Neutralizes excess acid.
Evaluation: Probably effective.
Comments: The warnings and dose schedule are inadequate.

General comments. This preparation has no package insert and the information on the label is inadequate, as far as side effects and contraindications are concerned. The dose schedule is limited to: "chew 1 or 2 tablets as required."

19. Belglyn Tablets containing belladonna alkaloids and dihydroxyaluminum aminoacetate.

This drug has been evaluated by the Panel on Drugs Used in Gastroenterology.

Indication: Gastric hyperacidity.
Evaluation: Possibly effective.
Comments: Gastric hyperacidity is not a clinical entity and there is no known relationship between the gastric acid level and symptoms. The presence of a given level of gastric acidity does not call for therapy.
The label advises use of one tablet 1–2 hour after meals and at bedtime, not to exceed three or four tablets a day. The dose of dihydroxyaluminum aminoacetate (DAA), 0.5 g/tablet, may or may not be effective in a high percentage of instances. The content of 0.162 mg. of belladonna alkaloids is too small to have any pharmacologic effect, even if absorption from DAA were 100 percent.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be indentified with the reference number DESI 1875, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 14, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5998 Filed 4-19-72;8:46 am]

Comments: Evidence is submitted that the anticholinergic agent (Benzyl) has antimotility effects in animals, but none to support the claim that it will inhibit the motility of neurally stimulated ("nervous") stomach in man, in the dosage provided. No controlled clinical trials of this mixture are available.

Indication: "Relieves indigestion distress as no plain antacid can."
Evaluation: Possibly effective.
Comments: No clinical evidence is submitted in support of this claim. There is much experience with the relief of abdominal fullness after eating by the ingestion of antacids, this relief being due to eructation of gas and to the more rapid emptying of the stomach. Presumably, the antacid mixture offered here will provide these same benefits. However, the addition of an anticholinergic agent to the mixture may actually decrease this action by delaying the emptying of the stomach, and the claim of superiority over plain antacids should be supported by evidence.

[DESI 5213]

CERTAIN COUGH PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences–National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Hydrocodone bitartrate and homatropine methylbromide, marketed as Hycodan Syrup, Tablets, and Powder, by Endo Laboratories, Inc., 1000 Stewart Avenue, Garden City, Long Island, NY 11533 (NDA 5–213).

2. Dimethoxanate hydrochloride, marketed as Cothera Syrup, by Ayerst Laboratories, 685 Third Avenue, New York, NY 10017 (NDA 11–174).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that these drugs are probably effective for the temporary relief of cough.

B. *Marketing status.* 1. Marketing of such drug with labeling which recommends or suggests its use for indications for which it has been classified as probably effective may be continued for 12 months as described in paragraphs (c), (e), and (f) of the notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273).

2. Within 60 days from publication hereof in the FEDERAL REGISTER, the holder of any approved new drug applications for such drug is requested to submit a supplement to his application to provide for revised labeling as needed, which, taking into account the comments of the Academy, furnishes adequate information for safe and effective use of the drug; is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970 (21 CFR 3.74); and recommends use of the drug for the probably effective indication as follows:

INDICATION

SYMPTOMATIC RELIEF OF COUGH

The supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period.

3. After 60 days following publication hereof in the FEDERAL REGISTER, any such drug on the market without an approved new drug application and shipped within the jurisdiction of the Federal Food, Drug, and Cosmetic Act should be labeled in accord with this notice.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 5213, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original new drug applications: Office of Scientific Evaluation (BD–100), Bureau of Drugs.

[DESI 7387]

DRUGS CONTAINING OXYCODONE HYDROCHLORIDE, OXYCODONE TEREPHTHALATE, HOMATROPINE TEREPHTHALATE, ASPIRIN, PHENACETIN, AND CAFFEINE; OXYCODONE HYDROCHLORIDE, OXYCODONE TEREPHTHALATE, HOMATROPINE TEREPHTHALATE, AND PENTYLENETETRAZOL; OR MEPERIDINE HYDROCHLORIDE AND PROMETHAZINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Percodan Tablets containing oxycodone hydrochloride, oxycodone terephthalate, homatropine terephthalate, aspirin, phenacetin, and caffeine; Endo Laboratories, Inc., 1000 Stewart Avenue, Garden City, Long Island, N.Y. 11530 (NDA 7–337).

2. Nucodan Tablets containing oxycodone hydrochloride, oxycodone terephthalate, homatropine terephthalate, and pentylenetetrazol; Endo Laboratories, Inc. (NDA 7–337).

3. Mepergan Capsules and Mepergan Fortis Capsules containing meperidine hydrochloride and promethazine hydrochloride; Wyeth Laboratories, Inc., Post Office Box 8299, Philadelphia, Pa. 19101 (NDA 11–730; see below).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness

V 37-77 APR 20 72 XUM

classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. These combination drugs are possibly effective for moderate to moderately severe pain.

2. In addition, the drug containing oxycodone hydrochloride, oxycodone terephthalate, homatropine terephthalate, aspirin, phenacetin, and caffeine lacks substantial evidence of effectiveness as a fixed dose combination for antipyresis.

No new drug applications have been approved or are deemed approved for oral preparations containing meperidine hydrochloride with promethazine hydrochloride for oral use.

B. *Marketing status.* 1. Within 60 days of the date of publication of this announcement in the FEDERAL REGISTER, the holder of any approved new drug application for a drug classified in paragraph A above as lacking substantial evidence of effectiveness is requested to submit a supplement to his application, as needed, to provide for revised labeling which deletes those indications for which substantial evidence of effectiveness is lacking. Such a supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period. Failure to do so may result in a proposal to withdraw approval of the new drug application.

2. If any such preparation is on the market without an approved new drug application, its labeling should be revised if it includes those claims for which substantial evidence of effectiveness is lacking as described in paragraph A above. Failure to delete such indications and put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER may cause the drug to be subject to regulatory proceedings.

3. The notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), describes in paragraphs (d), (e), and (f) the marketing status of a drug labeled with those indications for which it is regarded as possibly effective.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 7337, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.

ATOMIC ENERGY COMMISSION

[Docket No. 50–247]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Notice of Availability of Applicant's Environmental Report and AEC Draft Detailed Statement

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that reports entitled "Applicant's Environmental Report—Operating License Stage, August 6, 1970," and "Applicant's Supplemental Environmental Reports No. 1 and Appendices Volumes Nos. 1 and 2," and Supplement No. 2 on the Indian Point Nuclear Generating Unit No. 2, September 9 and October 15, 1971, respectively" (collectively "the report"), submitted by Consolidated Edison Company of New York, Inc., are available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Hendrick Hudson High School Library, Albany Post Road, Montrose, N.Y. 10548. The report is also being made available at the New York State Office of Planning Coordination, 488 Broadway, Albany, NY 12207, and the Metropolitan District Review Coordinator, Office of Planning Coordination, 1841 Broadway, New York, NY 10023.

This report discusses environmental considerations related to the proposed issuance of an operating license for the Indian Point Nuclear Generating Unit No. 2, located in the town of Buchanan, Westchester County, N.Y.

The report has been analyzed by the Commission's Division of Radiological and Environmental Protection and a draft detailed statement on the environmental considerations related to the proposed issuance of an operating license for the Indian Point Nuclear Generating Unit 2, dated April 13, 1972, has been prepared and has been made available for public inspection at the locations designated above. Copies of the Commission's April 13, 1972, draft detailed statement on the environmental considerations may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection. This statement supersedes the November 20, 1970, detailed statement for which a notice of availability was published in the FEDERAL REGISTER on December 15, 1970 (35 F.R. 18989).

Pursuant to sections A.7 and D.1 of Appendix D to 10 CFR Part 50, interested persons may, within thirty (30) days from date of publication of this notice in the FEDERAL REGISTER, submit comments on the proposed action, the report and the draft detailed statement for the Commission's consideration. Federal and State agencies are being provided with copies of the report and the draft detailed statement (local agencies may obtain these documents on request), and when comments thereon of the Federal, State, and local officials are received, they will be made available for public inspection at the above-designated locations. Comments on the draft detailed statement on environmental considerations from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 14th day of April 1972.

For the Atomic Energy Commission.

RICHARD C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

PORTLAND GENERAL ELECTRIC CO. ET AL.

Notice and Order for Evidentiary Hearing

The Atomic Energy Commission, by its Memorandum and Order, and Notice of Hearing on suspension of construction activities at the Trojan Nuclear Plant authorized pursuant to CPPR–79 pending completion of NEPA environmental review, both dated April 12, 1972, ordered the Atomic Safety and Licensing Board duly appointed in this case, to conduct a hearing on the question of whether construction activities under the construction permit for the Trojan Nuclear facility should be suspended pending completion of the ongoing NEPA review, and to render a de novo decision based on criteria set forth in the notice within 40 days of its publication. The parties to the proceeding as set forth in the order, shall be the licensees, the Regulatory Staff, and the joint petitioners.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, that the initial session of evidentiary hearing in this proceeding shall convene at 9:30 a.m., local time, on Monday, May 1, 1972, at the Cosmopolitan Airtel, 6221 Northeast 82d Street, Portland, OR.

Issued: April 18, 1972, in Washington, D.C.

ENVIRONMENTAL PROTECTION AGENCY

E. I. DU PONT DE NEMOURS & CO., INC.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 2F1254) has been filed by E. I. du Pont de Nemours and Co., Inc., Wilmington, Del. 19898, proposing establishment of tolerances (40 CFR Part 180) for residues of the insecticide methomyl (*S*-methyl *N*-[methylcarbamoyl)oxy]thioacetimidate) in or on the raw agricultural commodities grapefruit, lemons, oranges, and tangelos at 2 parts per million.

The analytical method proposed in the petition for determining residues of the insecticide is a modification of the method of H. L. Pease and J. J. Kirkland, "Journal of Agricultural and Food Chemistry," Vol. 16, pp. 554–7 (1968), using a flame photometric detector instead of a sulfur microcoulometric detector.

Dated: April 14, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-5992 Filed 4-19-72;8:47 am]

NUCLEAR POLYHEDROSIS VIRUS OF *HELIOTHIS ZEA*

Extension of Temporary Exemption From Requirement of Tolerance for Microbial Pesticide

Nutrilite Products, Inc., 5600 Beach Boulevard, Buena Park, CA 90620, was granted a temporary exemption from requirement of a tolerance for residues of the insecticide nuclear polyhedrosis virus of *Heliothis zea* in or on cottonseed on December 1, 1970 (notice was published in the FEDERAL REGISTER of December 9, 1970 (35 F.R. 18690)). The firm has requested a 1-year extension of the temporary exemption to obtain additional experimental data.

It has been determined that such extension will protect the public health. The exemption is therefore extended as requested.

Conditions under which this exemption is extended are that:

1. The insecticide will be used in accordance with the temporary permit which is being issued concurrently for distribution under the Nutrilite Products, Inc. name.

2. Each lot of active viral insecticide shall have the following specifications:

a. The level of bacterial contamination as determined by an aerobic plate count on trypticase soy agar will not exceed 10^9 colonies per gram of active viral insecticide.

b. Absence of any pathogens, e.g. *Salmonella, Shigella,* or *Vibrio.*

c. Safety to mice as demonstrated by standardized intraperitoneal injections and a standardized 21-day feeding study.

d. Integrity of the viral product as determined by standardized serological tests.

This temporary exemption expires December 1, 1972.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346(a)(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: April 14, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-5993 Filed 4-19-72;8:48 am]

3-[2-(3,5-DIMETHYL-2-OXOCYCLOHEXYL)-2-HYDROXYETHYL] GLUTARIMIDE

Notice of Reextension of Temporary Tolerance

The Upjohn Co. Kalamazoo, Mich. 49001, was granted a temporary tolerance for residues of the plant abscission agent 3-[2-(3, 5-dimethyl-2-oxocyclohexyl)-2-hydroxyethyl]glutarimide in or on the raw agricultural commodity oranges on January 23, 1970 (notice was published in the FEDERAL REGISTER of January 30, 1970 (35 F.R. 1169)). At the request of the firm, the temporary tolerance was extended to April 21, 1971. Subsequently, the firm requested and was granted an additional 1-year reextension to obtain additional experimental data (notice was published in the FEDERAL REGISTER of July 17, 1971 (36 F.R. 13290)).

The firm has requested an additional 1-year reextension to complete their experimental program. It is concluded that such reextension will protect the public health. A condition under which this temporary tolerance is reextended is that the plant abscission agent will be used in accordance with the temporary permit which is being issued concurrently by the Environmental Protection Agency and which provides for distribution under The Upjohn Co. name.

This temporary tolerance expires April 21, 1973.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: April 12, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-5971 Filed 4-19-72;8:46 am]

S-ETHYL DIETHYLTHIOCARBAMATE

Notice of Establishment of Temporary Tolerance

Gulf Oil Corp., Pittsburgh, Pa. 15230, submitted a petition (PP 2G1214) requesting establishment of temporary tolerances for negligible residues of the herbicide *S*-ethyl diethylthiocarbamate in or on the raw agricultural commodities corn grain, corn fodder and forage and fresh corn including sweet corn (kernels plus cob with husk removed) at 0.1 part per million.

It has been determined that the temporary tolerances are safe and will protect the public health. They are therefore established as requested on condition that the herbicide be used in accordance with the temporary permit being issued concurrently by the Environmental Protection Agency and which provides for distribution under the Gulf Oil Corp. name.

These temporary tolerances expire April 12, 1973.

This action is being taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: April 12, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL MARITIME COMMISSION

[Docket No. 71-85]

AIR-MAR SHIPPING, INC.

Order of Investigation and Hearing Regarding Independent Ocean Freight Forwarder Application; Notice of Enlargement

On February 23, 1972, a motion was filed in this proceeding by Hearing Counsel to amend the Federal Maritime Commission's order of investigation and hearing to include a determination of whether Air-Mar Shipping, Inc. is carrying on the business of ocean freight forwarding as defined in section 1, Shipping Act, 1916, pending resolution of civil case No. 124-72, "Air-Mar Shipping, Inc. v. Federal Maritime Commission," in violation of section 44(a) of the Shipping Act, 1916; and whether, because of the violations as set forth above, the Commission should order respondent to cease and desist such action until it is licensed by the Commission.

In response to this motion and after review and consideration of respondent's reply thereto, the Commission has determined that the order of investigation and hearing should be so amended. Furthermore, the Commission has determined that no persuasive reasons exist for further postponement of this proceeding and that accordingly it should proceed.

Therefore, it is ordered, That the order of investigation and hearing be, and it is hereby, amended to include a determination whether Air-Mar Shipping, Inc. is carrying on the business of ocean freight forwarding as defined in section 1, Shipping Act, 1916, pending resolution of civil case No. 124-72, "Air-Mar Shipping, Inc. v. Federal Maritime Commission," in violation of section 44(a) of the Shipping Act, 1916, and whether the Commission should order respondent to cease and desist such action.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.72-6035 Filed 4-19-72;8:51 am]

STATE OF HAWAII AND SEATRAIN LINES, CALIF.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Fujio Matsuda, Director, State of Hawaii, Department of Transportation, 869 Punchbowl Street, Honolulu, HI 96813.

Agreement No. T-2523-1, between the State of Hawaii (State) and Seatrain Lines, Calif. (Seatrain), modifies the basic agreement which provides for the 20-year lease of certain terminal facilities at Sand Island, Honolulu Harbor, Hawaii, for use as a container facility and purposes related thereto. The purpose of the modification is to provide for (1) the deletion of a 900-square-foot "Easement B" from the leased premises; (2) the addition of 11,131 square feet to "Parcel 1" of the leased premises; and (3) the addition of a 900-square-foot "Parcel II" to the leased premises. Parcel II is to be used for the construction of a yard operations building for use in conjunction with Seatrain's operations at the facility. The changes contemplated by the modification result in a net effective annual rental increase of $8,114.50.

Dated: April 17, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-7712]

KENTUCKY UTILITIES CO.

Notice of Application

APRIL 11, 1972.

Take notice that on February 14, 1972, Kentucky Utilities Co. (applicant) filed an application pursuant to section 203 of the Federal Power Act, for authorization to acquire securities of a wholly owned subsidiary, Old Dominion Power Co. (Old Dominion). The securities will consist of the unsecured notes of Old Dominion which will be issued from time to time in an aggregate principal amount not to exceed $1.5 million outstanding at any one time. The notes will be payable on or before 10 years from the date of their issuance.

Applicant is incorporated under the laws of the State of Kentucky with its principal business office at Lexington, Ky., and is engaged in the electric utility in 78 counties in Kentucky and one adjoining county in Tennessee. Old Dominion is incorporated under the laws of the State of Virginia and furnishes electric services in five counties in southwestern Virginia. It is wholly owned by the applicant.

The notes which Old Dominion proposes to issue shall bear interest from the date thereof at the rate of 7½ percent per annum, and will be subject to prepayment by Old Dominion at any

V 37-77
APR 20 72
XUM

time (in whole or in part) without premium or penalty.

The proceeds from the issuance of the notes will be used by Old Dominion to finance the construction, completion, extension, and improvement of its electric utility facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 26, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-220]

MOUNTAIN FUEL SUPPLY CO.

Further Notice of Application

APRIL 11, 1972.

Take notice that on April 3, 1972, Mountain Fuel Supply Co. (applicant), 180 East First South Street, Salt Lake City, UT 84111, filed in Docket No. CP72-220 a supplement to its application filed in said docket pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity by correcting the description of the location of certain proposed facilities, all as more fully set forth in the supplement which is on file with the Commission and open to public inspection.

Applicant states that the proposed 1,100 horsepower compressor station on its main gathering trunk line in the State Line Field will be located in Moffat County, Colo., and not Sweetwater County, Wyo., as is stated in the application.

Any person desiring to be heard or to make any protest with reference to said application, as supplemented, should on or before May 2, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file petitions to intervene or protests need not file again.

KENNETH F. PLUMB,
Secretary.

[Docket No. G-16026 etc.]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Motion for Adoption of Settlement Agreement Relative to Consolidated Effective Tax Rate Issue

APRIL 11, 1972.

Take notice that on April 3, 1972, Natural Gas Pipeline Company of America (Natural) filed a motion for commission approval of an attached settlement agreement relative to the consolidated effective tax rate issue reserved in the above dockets (Dockets Nos. G-16026, G-18148, G-18149, RP60-5, RP61-8). The agreement arises from a petition filed by Natural on May 19, 1970, with respect to the aforementioned dockets wherein the Commission was requested to issue an order finding and declaring that Natural had no liability under the "consolidated effective tax rate" conditions contained in settlement agreements previously approved by the Commission in these dockets. Natural's petition also requested Commission approval of use of that interpretation of the consolidated effective tax rate issue in future rate proceedings before the Commission.

The settlement agreement that is the subject of the above motion relies on the Commission ruling on the consolidated tax issue in Florida Gas Transmission Co., Opinion No. 611, issued February 16, 1972. The provisions of the settlement agreement are that Natural would have no refund obligation under the above dockets relative to the consolidated effective tax rate conditions set out therein and such conditions are terminated. Additionally, if Peoples Gas (parent of Natural), through its own operations or those of any company (other than Natural) in which Peoples Gas owns, directly or indirectly, 50 percent or more of stock of such company, shall suffer tax losses, even to the extent of creation of a "loss company" in the system, such result will not and may not be used to reduce the rates of Natural below the level at which they would otherwise be.

Comments or objections to the proposed agreement as to the disposition of the consolidated effective tax issue in the above dockets may be filed with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, on or before April 21, 1972.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-6009 Filed 4-19-72;8:48 am]

[Docket No. CP72-236]

NORTHERN NATURAL GAS CO.

Notice of Application

APRIL 11, 1972.

Take notice that on April 3, 1972, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP72-236 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to construct and operate certain measuring facilities and to transport natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is currently constructing certain gas gathering system facilities to enable it to gather and transport natural gas purchased in the West Wellman Field, Terry County, Tex. Pioneer Natural Gas Co. (Pioneer), which purchases gas produced in the West Wellman Field from Caprock Pipeline Co. (Caprock), has requested applicant to transport this gas from the field for redelivery to Caprock for Pioneer's account. Applicant states that its West Wellman Gathering System is being installed to connect with its 30-inch Florey, Tex., to Plains, Tex., pipeline and will cross an existing 10-inch pipeline of Caprock en route. Applicant further states that, under the terms of a gas transportation agreement it has entered into with Pioneer, Caprock will deliver, for Pioneer's account, approximately 5,000 Mcf of gas per day to Northern at two points of intersection to be located in Terry County. Applicant will dehydrate, transport, and redeliver to Caprock at a point of interconnection in Gaines County, Tex., for the account of Pioneer, that quantity of gas which will result in Caprock's receiving the same number of B.t.u.'s as Caprock delivered to it for Pioneer's account.

Applicant indicates that it will have adequate capacity in the dehydration equipment being installed on its gathering system to dehydrate the gas received from Caprock for transportation. Pioneer will pay applicant 4 cents per Mcf of gas for all volumes Caprock delivers to applicant for dehydration, transportation, and redelivery to Caprock for Pioneer's account.

Applicant estimates that the cost of the proposed facilities is $18,300, which will be financed from cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 2, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10 (and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. CP72-100, CP72-101]

TECON GASIFICATION CO. AND TEXAS EASTERN TRANSMISSION CORP.

Notice of Availability of Environmental Statement for Inspection

APRIL 17, 1972.

Notice is hereby given that on March 27, 1972, as required by § 2.82(b) of Commission Regulations under Order 415-B (36 F.R. 22738, Nov. 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, Apr. 23, 1971) was placed in the public files of the Federal Power Commission. Simultaneously with such placing in the public files, the statement was also circulated for comments, pursuant to the requirements of the National Environmental Policy Act, to all appropriate Federal, State, and local agencies. The environmental statement has been prepared by Tecon Gasification Co., and Texas Eastern Transmission Corp., to accompany applications for certificates of public convenience and necessity authorizing the construction and operation of a gasification plant and appurtenant facilities, pursuant to section 7(c) of the Natural Gas Act. A summary of environmental impact has been prepared by the Federal Power Commission Staff. The environmental statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The environmental statement contains information on each of the five statutory points listed in section 102(2)(c) of the National Environmental Policy Act of 1969. The gasification plant will be constructed near South Plainfield, N.J., with storage facilities to be constructed on Staten Island, and related pipeline facilities to connect the two sites and deliver the gas to Tecon's customers. The environmental statement states that the proposed sites are primarily unimproved, unproductive areas which are zoned for heavy industrial use. The construction of the facilities has been studied toward minimizing environmental impact, and applicants believe that they will be able to avoid any detrimental environmental effects.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any differences with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of order 415-B. Written statements by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before May 12, 1972. The Commission will consider all responses to the statement.

KENNETH F. PLUMB,
Secretary.

Secretary.

[FR Doc.72-6012 Filed 4-19-72;8:49 am]

[Docket No. CP65-49]

TENNESSEE GAS PIPELINE CO.

Notice of Petition To Amend

APRIL 11, 1972.

Take notice that on March 20, 1972, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (petitioner), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP65-49 a petition to amend the order of the Commission heretofore issued in said docket pursuant to section 7(c) of the Natural Gas Act on November 24, 1964 (32 F.P.C. 1366), by authorizing a reallocation of certain maximum daily quantities to be delivered by petitioner, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By order issued in the subject docket petitioner is authorized to deliver to Longhorn Gas, Inc. (Longhorn), a maximum daily quantity of 155 Mcf of gas for its Crowville service area and to deliver to the village of Robeline, La. (Robeline), a maximum daily quantity of 190 Mcf of gas for its Robeline service area. On March 8, 1967, Robeline assigned its rights in its gas sales contract with petitioner dated November 1, 1964, to Longhorn. On April 17, 1967, the Commission accepted for filing the presently effective gas sales contract dated March 8, 1967, between petitioner and Longhorn providing a maximum daily quantity of 190 Mcf of gas for Longhorn's Robeline service area.

Petitioner proposes to reallocate maximum daily quantities by service areas to provide a maximum daily quantity of 205 Mcf of gas to the Crowville service area instead of 155 Mcf of gas and to provide 140 Mcf of gas to the Robeline service area instead of 190 Mcf of gas. Longhorn has advised petitioner that this reallocation is necessary because growth has been experienced in Crowville while the number of customers in Robeline has decreased.

Petitioner states that rendition of natural gas service to Longhorn after the proposed reallocation of Longhorn's maximum daily contract quantities will result in no additional cost to Tennessee and can be done with existing facilities without operating problems and without affecting petitioner's ability to render authorized natural gas service to any other customer.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 2, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file

V 37-77 APR 20 72 XUM

a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

JACOBUS CO. AND INLAND FINANCIAL CORP.

Application for Acquisition of Bank

Correction

In F.R. Doc. 72-5550 appearing on page 7272 of the issue for Wednesday, April 12, 1972, the first sentence should read as follows: "The Jacobus Co., Milwaukee, Wis., and its subsidiary Inland Financial Corp., Milwaukee, Wis., have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) for Inland Financial Corp. to acquire directly, and the Jacobus Co. to acquire indirectly, 56.3 percent or more of the voting shares of Heritage Bank of Milwaukee, Milwaukee, Wis."

FEDERAL TRADE COMMISSION

CIGARETTE TESTING RESULTS

The Federal Trade Commission's laboratory has determined the "tar" (dry particulate matter) and total alkaloid (reported as nicotine) content of 130 varieties of cigarettes. The laboratory utilized the Cambridge filter method with the specifications set forth in the Commission's announcement dated July 31, 1967 (32 F.R. 11178).

GENERAL SERVICES ADMINISTRATION

ELECTRIC VACUUM CLEANERS

Specification Development Conference

Notice is hereby given that the Federal Supply Service, General Services Administration, will hold a specification development conference in connection with the following Federal specifications:

W-C-421G—Cleaner, vacuum, electric (household/commercial).
W-C-1749—Cleaner, vacuum, electric (institutional/hospital).
W-C-1750—Cleaner, vacuum, electric (commercial/industrial).

The purpose of this conference is to provide a forum for consideration of suggestions, ideas, or ways and means to improve the specifications for electric vacuum cleaners to the end that (1) mutual understanding by both the Government and industry of the Government's technical requirements for the items and (2) the quality of the product to be shipped to the Government will be enhanced. It will be open to all those in the private sector who have an interest or concern for these matters, and all other Government departments or agencies having an interest therein are also being invited to send their representatives.

The conference will be held on May 2 and 3, 1972, at 9 a.m., in Room 1022, Building 4, Crystal Mall, 1941 Jefferson Davis Highway, Arlington, Va. Anyone who wants to attend or desires further information should contact Mr. L. W. Parsons, Federal Supply Service, Office of Standards and Quality Control, telephone number area code 703-557-7800; or should write to the General Services Administration (FMSK), Washington, DC 20406.

Issued in Washington, D.C., on April 12, 1972.

M. S. MORRIS,
Commissioner,
Federal Supply Service.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (72-4)]

APOLLO PROGRAM

Final Environmental Impact Statement; Public Notice Regarding Availability

Notice is hereby given of the public availability of the final Environmental Impact Statement for the Apollo Program of the National Aeronautics and Space Administration.

Comments on the draft Environmental Statement for the Apollo Program were previously solicited from State and local agencies and members of the public through a notice in the FEDERAL REGISTER of March 18, 1971.

Copies of the draft statement were sent to the Office of Management and Budget, the Council on Environmental Quality, and the Environmental Protection Agency.

Copies of the final statement will be furnished to the Office of Management and Budget and the Council on Environmental Quality.

Copies of the final statement may be purchased (price $1 each) or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), Independence Avenue SW., Washington, DC 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, Calif. 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), Post Office Box 273, Edwards, CA 93523.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The material contained in Chapters 604, 611, 612, 617, 621, 622, and 643 is considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore Chapters 604, 611, 612, 617, 621, 622, and 643 are set forth in full as follows:

CHAPTER 604—ORGANIZATION FOR REGISTRANT PROCESSING

THE LOCAL BOARD

1. *Jurisdiction.* The jurisdiction of each local board shall extend to all persons registered with, or subject to registration with that local board. It shall have full authority to do and perform all acts within its jurisdiction authorized by the selective service law.

2. *Disqualification.* a. No member of a local board shall act on his own case or on the case of a registrant who is his first cousin or closer relation, either by blood, marriage, or adoption, or who is an employee or employer, or who is a fellow employee, or stands in the relation of a superior or subordinate in connection with any employment, or is a partner or close business associate of the member. If because of this provision a majority of a local board cannot act on the case of a registrant, the local board shall request the State Director of Selective Service to designate another local board to which the registrant shall be transferred for action on his case.

b. The local board shall be disqualified to consider the classification of any registrant who is an advisor to registrants, or employee of such local board and in each such case it shall advise the State Director of Selective Service of its disqualification. The State Director of Selective Service shall then designate another local board to classify such registrant, and the registrant shall be transferred for classification to the local board thus designated.

3. *Organization and meeting.* Each local board shall elect a chairman and a secretary. A majority of the members of the local board shall constitute a quorum for the transaction of business. A majority of the members present at any meeting at which a quorum is present shall decide any question or classification. Every member present, unless disqualified, shall vote on every question or classification. In case of a tie vote on any question or classification, the board shall

V37-77 APR 20 72 XUM

postpone action on the question or classification until the next local board meeting or until it can be decided by a majority vote. If any member is absent so long as to hamper the work of the local board, the chairman of the local board shall recommend to the State Director of Selective Service that such member be removed and a new member appointed.

4. *Oath of witnesses.* A member of the local board shall administer the following oath to every person testifying before the local board:

You swear (or affirm) that the evidence you give in the matter now in hearing shall be the truth, the whole truth, and nothing but the truth. So help you God.

5. *Minutes of meetings.* Each local board shall keep a record of each meeting of the board on Minutes of Local Board Meeting (SSS Form 112) which shall be filed by the local board as minutes of its meetings.

6. *Signing of official papers.* Official papers issued by a local board may be signed by any compensated employee of the local board if he is authorized to do so by resolution duly adopted by and entered in the minutes of the meetings of the local board: *Provided,* That the chairman or a member of the local board must sign a particular paper when specifically required to do so by the Director of Selective Service.

7. *Interpreters.* a. When necessary, the local board is authorized to use interpreters.

b. The following oath shall be administered to an interpreter each time he is used by a local board:

You swear (or affirm) that you will truly interpret in the matter now in hearing. So help you God.

THE APPEAL BOARD

1. *Jurisdiction.* The appeal board shall have jurisdiction to review and to affirm or change any decision appealed to it from any local board in its area or any decision appealed from any local board not in its area when such appeal is either transferred to it in the manner provided in this Manual or is appealed to it by or on behalf of any registrant whose principal place of employment is located in its area or submitted to it in the manner required by law.

2. *Disqualification.* No member of an appeal board shall act on his own case or on the case of a registrant who is his first cousin or closer relation, either by blood, marriage, or adoption, or who is an employer, employee, or fellow employee, or stands in the relationship of superior or subordinate in connection with any employment, or is a partner or close business associate of the member. If because of this provision, or for any other reason, an appeal board cannot act on the case of a registrant, and there is no panel of the appeal board to which the case may be transferred, the appeal board shall transmit such case to the State Director of Selective Service for transfer to another appeal board.

3. *Organization and meeting.* Each appeal board or panel shall elect a chairman and a secretary. A majority of the members of an appeal board or panel when present at any meeting shall constitute a quorum for the transaction of business. A majority of the members present at any meeting at which a quorum is present shall decide any question. Every member present, unless disqualified, shall vote on every question or classification. In case of a tie vote on a question or classification, the board shall postpone action until it can be decided by a majority vote. If any member is absent so long as to hamper the work of the board, the chairman of the board or panel concerned shall recommend to the State Director of Selective Service that such member be removed and a new member appointed.

4. *Minutes of meetings.* Each appeal board or panel of an appeal board shall keep minutes of each of its meetings.

5. *Signing official papers.* Official papers issued by an appeal board or panel may be signed by the clerk "By direction of the Appeal Board", if he is authorized to do so by a resolution duly adopted by and entered in the minutes of such appeal board or panel, provided that the chairman or a member of an appeal board or panel must sign a particular paper when specifically required to so do by the provisions of a regulation or by an instruction issued by the Director of Selective Service.

NATIONAL SELECTIVE SERVICE APPEAL BOARD (PRESIDENTIAL APPEAL BOARD)

1. *Organization and Function.* a. Members of the National Selective Service Appeal Board (sometimes referred to as "Presidential Appeal Board" or "National Board") are appointed by the President and he designates one member as chairman. A majority of the members of the National Board shall constitute a quorum for the transaction of business, and a majority of the members present at any meeting at which a quorum is present shall decide any question. The National Board may sit en banc or, upon the request of the Director of Selective Service or as determined by the Chairman of the National Board, in panels, each panel to consist of at least three members. The chairman of the National Board shall designate the members of each panel and he shall designate one member of each panel as chairman. A majority of the members of a panel shall constitute a quorum for the transaction of business, and a majority of the members present at any meeting at which a quorum is present shall decide any question. Each panel of the National Board shall have full authority to act on all cases assigned to it. The National Board, or a panel thereof, shall hold meetings in Washington, D.C., and, upon request of the Director of Selective Service or as determined by the Chairman of the National Board, at any other place.

b. The National Board or panel thereof, is authorized and directed to perform all the functions and duties vested in the President by that sentence of section 10(b)(3) of the Military Selective Service Act, which reads as follows:

"The President, upon appeal or upon his own motion, shall have power to determine all claims or questions with respect to inclusion for, or exemption or deferment from training and service under this title, and the determination of the President shall be final." The National Board, when an appeal to the President has been taken, shall classify each registrant, giving consideration to the various classifications which a local board might consider, and shall give effect to the provisions of the Military Selective Service Act and the established policies of the Director of Selective Service.

2. *Consideration of appeals.* The Director of Selective Service shall establish the order, by category, in which appeals by registrants will be considered, but he shall not determine the sequence in which appeals within a given category shall be processed.

CHAPTER 611—PERSONS REQUIRED TO REGISTER

1. Except as otherwise indicated below, it shall be the duty of every male citizen of the United States, and every other male person, except an alien male person who is in a medical, dental, or allied specialist category, residing in or who hereafter enters the United States, who shall have attained the 18th anniversary of the day of his birth and who shall not have attained the 26th anniversary of the day of his birth on the day or any of the days fixed for registration by Presidential proclamation to present himself for and submit to registration at such time or times and place or places, and in such manner as is required by proclamation of the President and the provisions of this chapter.

2. Every alien male person who is in a medical, dental, or allied specialist category residing in the United States or who thereafter enters the United States, who shall have attained the 18th anniversary of the day of his birth and who shall have not attained the 35th anniversary of the day of his birth on the day or any days fixed for registration by Presidential proclamation is required to present himself for and submit to registration at such time or times and place or places, and in such manner as is required by proclamation of the President and the provisions of this chapter.

3. Every male person required to register shall present himself for and submit to registration before a duly designated registration official or the local board having jurisdiction in the area in which he has his permanent home or in which he may happen to be on the day or any of the days fixed for his registration. All persons waiting to register at any place of registration at the closing hour on the last day fixed for their registration by the Presidential proclamation shall be registered.

4. Any person, who upon attaining the age of 18 years is required to register, shall be registered on the day he attains the 18th anniversary of the day of his birth or within 30 days before or after such date.

5. *Persons not required to be registered.*—The following persons are not required to be registered:

(1) Commissioned officers, warrant officers, enlisted men, and aviation cadets of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the National Oceanic and Atmospheric Administration and the regular Public Health Service;

(2) Cadets, U.S. Military Academy;

(3) Midshipmen, U.S. Navy;

(4) Cadets, U.S. Air Force Academy;

(5) Cadets, U.S. Coast Guard Academy;

(6) Midshipmen, Merchant Marine Reserve, U.S. Naval Reserve;

(7) Students enrolled in an officer procurement program at the following military colleges, the curriculum of which has been approved by the Secretary of Defense:

(a) The Citadel, Charleston, S.C.
(b) Norwich University, Northfield, Vt.
(c) Virginia Military Institute, Lexington, Va.
(d) North Georgia College, Dahlonega, Ga.
(e) Pennsylvania Military College, Chester, Pa.

(8) Members of the reserve components of the Armed Forces, the Coast Guard, and the Public Health Service, while on active duty, provided that such active duty in the Public Health Service that commenced after June 30, 1967, is performed by members of the Reserve of the Public Health Service while assigned to staff any of the various offices and bureaus of the Public Health Service, including the National Institutes of Health, or while assigned to the Coast Guard, the Bureau of Prisons of the Department of Justice, or the National Oceanic and Atmospheric Administration;

(9) A male alien who is now in or who hereafter enters the United States and who has not been admitted for permanent residence in the United States shall not be required to be registered unless he is (a) a conditional entrant or refugee who has been admitted to the United States and who does not possess either an immigrant or nonimmigrant status, or (b) a person who illegally enters or is illegally in the United States. A male alien who is not required to register will have in his possession an Immigration Form I-94 (Entry—Departure Record).

6. *Change of status.*—Except as otherwise provided herein, every male person who would have been required to be registered on a day or one of the days fixed by Presidential proclamation except for the fact that he was in one of the categories described above as exempt from registration shall present himself for and submit to registration before a local board when a change in his status removes him from such category.

7. *Registration of male persons separated from Armed Forces.*—Every male person who (1) has been separated from active service in the Armed Forces, the National Oceanic and Atmospheric Administration or the Public Health Service, (2) has not been registered prior to such separation, (3) would have been required to be registered except for the fact that he was in such active service on the day or days fixed for his registration by Presidential proclamation, and (4) who has not (a) served honorably on active duty (other than active duty for training, in the Armed Forces for at least 6 months, or (b) served honorably in the National Oceanic and Atmospheric Administration or the Public Health Service for at least 24 months, shall present himself for and submit to registration before a local board within the period of 30 days following the date on which he was so separated.

8. *Time period for registration of certain persons entering the United States.*—Every male person, other than a citizen of the United States or a person excepted from registration, who enters the United States subsequent to the day or days fixed by Presidential proclamation for his registration, must present himself for registration before a local board within 6 months following the date on which he enters the United States.

9. *Inmate of institution.*—Unless he has already been registered, every person subject to registration who is an inmate of an insane asylum, jail, penitentiary, reformatory, or similar institution shall be registered on the day he leaves the institution.

10. *Responsibility for performance of duty.* a. Every person subject to registration is required to familiarize himself with the rules and regulations governing registration and to comply therewith.

b. Every person who, on the day or one of the days fixed for registration, is required to be registered, is personally charged with the duty of presenting himself before the proper officials and submitting to registration.

c. The duty of every person subject to registration to present himself for and submit to registration shall continue at all times, and if for any reason any such person is not registered on the day or one of the days fixed for his registration, he shall immediately present himself for and submit to registration before the local board in the area where he happens to be.

d. Persons required to present themselves for and submit to registration shall not be paid for performing such obligation nor shall they be paid travel allowances or expenses.

11. No alien male person who is in a medical, dental, or allied specialist category shall be registered after he has attained the 35th anniversary of his birth. No other person shall be registered after he has attained the 26th anniversary of his birth.

CHAPTER 612—DUTIES IN REGISTRATION

1. *Responsibility of Director of Selective Service.* Whenever the President by Proclamation or other public notice fixes a day or days for registration, the Director of Selective Service shall take the necessary steps to prepare for registration and, on the day or days fixed, shall supervise the registration of those persons required to present themselves for and submit to registration. The Director of Selective Service shall also arrange for and supervise the registration of persons who present themselves for registration at times other than on the day or days fixed for any registration.

2. *Responsibility of State Director of Selective Service.* The State Director of Selective Service shall supervise the registration of persons who present themselves for registration in his State. Each State Director of Selective Service may, with the approval of the Director of Selective Service, make such modifications of the procedures contained in this chapter as may be necessary in order to properly effect a complete registration.

3. *Duties of Chairman of Local Board.* a. Whenever the President by Proclamation or other public notice fixes a day or days for registration, the chairman of the local board, under the general supervision and direction of the State Director of Selective Service, shall take necessary action to prepare for registration in his local board area. On the day or days fixed for registration, he shall supervise the registration of those persons who present themselves for registration.

b. No expense shall be incurred in connection with the registration except upon the prior approval of the State Director of Selective Service.

4. *Establishing and making ready places of registration.* a. The chairman of the local board shall procure, designate, and establish within the boundaries of the area of his local board as many suitable places of registration as are necessary for the efficient accomplishment of the registration.

b. The chairman of the local board shall make certain that all places of registration are made ready prior to the time fixed for registration and are open on the day or days during the hours fixed for registration in the Presidential proclamation or public notice.

5. *Registrars.* a. Any member or compensated employee of a local board may perform the duties of registrar without special appointment. The chairman of the local board may appoint as registrars qualified persons whose services can be secured without compensation. When the services of registrars cannot be secured without compensation, the chairman of the local board will recommend the appointment by the State Director of Selective Service of registrars on a compensated basis. Compensated employees of the local board shall serve as registrars whenever possible in lieu of appointing other persons as registrars to serve with compensation.

b. Each person who is appointed as registrar to serve without compensation shall execute an Oath of Office and Waiver of Pay (SSS Form 400) before undertaking any duties as registrar.

c. For each place of registration the chairman of the local board shall designate a chief registrar who shall be responsible to him for the proper conduct of the registration at each such place.

d. The chairman of the local board shall see that all registrars are instructed in their duties and are familiar with the

V 37-77 APR 20 72 XUM

regulations and procedures governing the registration.

6. *Interpreters.* Whenever the services of interpreters are necessary in conducting the registration, the chairman of the local board may appoint such interpreters as may be necessary.

7. *Care and Custody of Registration Cards and Registration Certificates.* The chairman of the local board is charged with the care and custody of the Registration Cards (SSS Form 1) and the Registration Certificates (SSS Form 2) received by him from the State Director of Selective Service. He shall guard against their loss or destruction and shall not permit anyone to tamper with them and shall warn all persons concerned against entrusting them to the custody of unauthorized persons.

CHAPTER 617—THE REGISTRATION CERTIFICATE

1. *Effect of failure to have unaltered Registration Certificate in personal possession.* Every person required to present himself for and submit to registration must, after he has registered, have in his personal possession until his liability for training and service has terminated his Registration Certificate (SSS Form 2) prepared by his local board which has not been altered and on which no notation duly and validly inscribed thereon has been changed in any manner after its preparation by the local board. The failure of any person to have his SSS Form 2 in his personal possession shall be prima facie evidence of his failure to register. When a registrant is inducted into the Armed Forces or enters upon active duty in the Armed Forces, other than active duty for training only or active duty for the sole purpose of undergoing a physical examination, he shall surrender his SSS Form 2 to the commanding officer of the Armed Forces Examining and Entrance Station or to the responsible officer at the place to which he reports for active duty. The responsible officer shall return the certificate to the local board that issued the form.

2. *Effect of date of birth that appears on Registration Questionnaire (SSS Form 100).* The date of birth of the registrant that appears on his Registration Questionnaire (SSS Form 100) on the day before the lottery is conducted to establish his Random Sequence Number will be conslusive as to his date of birth in all matters pertaining to his relations with the Selective Service System.

3. *Duty of Registrant separated from active duty in Armed Forces.* Every registrant who is separated from active duty in the Armed Forces and who has been previously registered with Selective Service shall, within 10 days after the date of his separation, request his local board to return his Registration Certificate (SSS Form 2) if available or issue him a duplicate SSS Form 2. The registrant shall make this request by a letter mailed to his local board or on a Request for Duplicate Registration Certificate or Notice of Classification (SSS Form 6) which he shall file with his own or any other local board.

4. *Issuing of Duplicate Registration Certificate.* a. A duplicate SSS Form 2 shall be issued to a registrant by the local board with which he is registered upon receipt of his request made by letter or SSS Form 6 and the presentation of satisfactory proof to the local board that the SSS Form 2 of the registrant has been lost, destroyed, mislaid, or stolen.

b. A registrant may complete and file a request for a duplicate Registrant Certificate (SSS Form 2) made on a Request for Duplicate Registration Certificate or Notice of Classification (SSS Form 6) at his own or any other local board. When he makes such request by letter he may file it only at his own local board. If the registrant files a request made on Request for Duplicate Registration Certificate or Notice of Classification (SSS Form 6) at any local board other than the local board with which he is registered and the registrant's own local board or the place of residence of the registrant at the time of registration is within its State, the local board with which the request is filed shall immediately mail the request to the local board having jurisdiction of the registrant. If the local board with which the request is filed has any doubt as to which other local board in its State has jurisdiction or if the registrant's own local board or his place of residence at the time of registration is not within its State, it shall mail the request to the State Director of Selective Service for transmission to the proper local board. Upon receipt of the request, the local board with which the registrant is registered shall issue a duplicate Registration Certificate (SSS Form 2) to the registrant. If the registrant has appeared in person at his local board to file the request, the local board shall deliver the duplicate Registration Certificate (SSS Form 2) to him. If the registrant has filed the request through another local board or by letter, the duplicate Registration Certificate (SSS Form 2) shall be mailed to him at his mailing address.

5. *Changes to Registration Certificate when Selective Service number remains unchanged.* The local board shall record changes in registration information which do not affect the selective service number by issuing a corrected SSS Form 2. It shall mark the "Change" block of the form, and shall mail copy 1 to the Data Processing Center and copy 2 to the registrant. Such changes shall include name change, day or month of birth change, social security number change, date of registration change, or place of birth change. Changes in descriptive information, other than those resulting from registration errors, shall not be included. No cancellation action shall be taken when any of the above changes are made.

6. *Return of Registration Certificate to local board.* Whenever a registrant at the time he receives a duplicate Registration Certificate (SSS Form 2) from his local board has in his possession any such certificate previously issued to him by the local board or he later finds or regains possession of any such certificate previously issued to him, it shall be the duty of the registrant to immediately return to the local board the certificate previously issued to him upon his receipt of the duplicate certificate or upon his finding or regaining possession of such certificate previously issued to him.

CHAPTER 621—PREPARATION FOR CLASSIFICATION BY LOCAL BOARD

SECTION 621.1. 1. *Introduction.* Preparation for classification by the local board includes all procedures necessary in order for the local board to identify and select registrants for classification and insure that the registrants' files are properly documented and complete, and ready for classification.

2. *Selection for classification.* a. Preparation for classification out of the administratively assigned 1–H classification will not be initiated for any registrant who has not been assigned a random sequence number unless review of his Registration Questionnaire (SSS Form 100), or other information in his file, indicates that he may qualify for a lower classification.

(1) A registrant whose Registration Questionnaire indicates that he may qualify for a lower classification will be requested to substantiate his status or claim by submitting the proper SSS form or other documentary evidence.

(2) Upon receipt of the necessary information, the local board will consider the registrant for a classification lower than 1–H.

b. Immediately following the lottery drawing for the appropriate year group, the Random Sequence Number (RSN) for each registrant in that year group will be entered on SSS Forms 101, 102, and as required on other forms. Any correspondence relating to the registrant will include his RSN.

c. A 1–H cutoff number will be designated by the Director as early as possible to apply against each year's First Priority Selection Group (FPSG). The designation of a 1–H cutoff number by the Director for a First Priority Selection Group is a basis for reopening the classification of those registrants in class 1–H in that selection group whose RSN's are equal to or below that cutoff number. These registrants will be classified into an available class unless they qualify for a deferred or exempt class.

3. *Preparation for classification.* a. When a registrant has been selected for classification, the local board shall review the file of each such registrant whose RSN is equal to or below the 1–H cutoff number, starting with the lowest Random Sequence Number.

(1) A Current Information Questionnaire (SSS Form 127) will be mailed to each registrant eligible for classification out of 1–H.

(2) The Registration Questionnaire (SSS Form 100) will be reviewed to determine whether any other forms or requests for documentation should be mailed to the registrant.

(3) All other information in the registrant's file folder will be reviewed and evaluated as pertaining to the classification of the registrant.

(4) If the registrant fails to return any form or submit information having a bearing on his classification prior to the time the local board considers his classification, he shall be classified on the basis of the information contained in his file.

(5) Mailings of all forms and requests for information will be entered and dated on page 2 of SSS Form 101.

b. Upon receipt, the requested information will be reviewed by local board compensated personnel for completeness and clarity prior to presentation to the local board members for classification action. If necessary, additional information will be requested from the registrant. Receipt of all forms and information will be entered on page 2 of SSS Form 101.

4. *Claims for, or information relating to, deferment or exemption.* The registrant shall be entitled to present appropriate information which he believes necessary to assist the local board in determining his proper classification. Such information should be included in or attached to the SSS Form 100 or SSS Form 127 and may include documentation, affidavits, or depositions. The affidavits and depositions shall be as brief as possible.

5. *Special form for conscientious objector.* A registrant who claims to be a conscientious objector may submit information in support of his claim as provided in the Special Form for Conscientious Objector (SSS Form 150). The local board, upon request, shall furnish to any person claiming to be a conscientious objector a copy of SSS Form 150. Issuance of SSS Form 150 and receipt of the information requested shall be noted on page 2 of SSS Form 101.

6. *Inadequate questionnaire.* When a registrant's SSS Form 100 as submitted to the local board of jurisdiction omits information, contains significant errors, or shows that the registrant failed to understand the questions, the local board shall send an SSS Form 127 or a written request for specific information to the registrant for completion. He shall be requested to reply on or before a specific date. Issuance and receipt shall be noted on page 2 of SSS Form 101.

7. *Securing information from welfare and governmental agencies.* a. The local board is authorized to request and receive information from local welfare and governmental agencies whenever such information will assist in determining the proper classification of a registrant.

b. The local board is authorized to request the State Director of Selective Service to secure information from State or national welfare and governmental agencies when such information will assist in determining the proper classification of a registrant.

8. *Subpena power of the local board.* a. To the extent necessary for carrying out its functions, the local board shall have authority:

(1) To subpena any person to appear before it,

(2) To direct such person to produce such papers and records as may be deemed necessary, and

(3) To require him to testify, under oath, in regard to any pertinent matter within his knowledge.

b. It shall be the duty of any person subpenaed to appear, to produce the papers and records described in the subpena, and to testify.

c. The local board shall use, for this purpose, a Subpena to Witnesses to Appear Before Local Board (SSS Form 161). The original of such a subpena shall be served upon the individual who is required to appear as a witness. Such service may be made by any person who is 21 years of age or over, and it shall be made in the manner provided by the law of the State in which the subpena is served. Any person subpenaed may be compelled to appear and testify before the local board in the same manner as persons subpenaed by a court of the United States may be compelled to appear and testify in proceedings before such court. The local board may apply to a court of the United States for summary aid to compel a person within its jurisdiction who has failed or refused to testify, to appear before such local board, to produce such papers and records as may be deemed necessary, or to testify.

CHAPTER 623—CLASSIFICATION PROCEDURE

1. *Commencement of classification.* a. Each registrant shall be classified as soon as practicable after his registration.

b. The registrant's classification shall be determined on the basis of the official forms of the Selective Service System and such other written information as may be placed in his file; provided that the board shall proceed with the registrant's classification if his RSN is below the established 1–H cut off number and he fails to provide the board in a timely manner with any information concerning his status which he is requested or required to furnish. Since it is imperative that appeal agencies have available to them all information on which the local board determined the registrant's classification, oral information shall not be considered unless it is summarized in writing and the summary placed in the registrant's file. Under no circumstances shall the local board rely upon information received by a member personally unless such information is reduced to writing and placed in the registrant's file. None of the provisions of this chapter shall impair the power of the local board to take notice of the vulnerability of any registrant for induction and of the fact that the Congress has made such registrants liable for induction for military service and in the absence of any other information, when the registrant has failed to furnish such information within the time prescribed, to classify the registrant as available for military service.

2. *Consideration of classes.* Every registrant who is being considered for induction shall be placed in Class 1–A except that when grounds are established to place a registrant in one or more of the classes listed in the following table, the registrant shall be classified in the lowest class for which he is determined to be eligible, with class 1–A–O considered the highest class and Class 1–C considered the lowest class according to the following table:

Class	Class
1–A–O	4–D
1–O	1–H
2–A	4–F
2–C	4–A
2–S	4–G
2–D	1–W
3–A	4–W
4–B	1–D
4–C	1–C

3. *Action to be taken when classification determined.* a. As soon as practicable after the local board has classified or reclassified a registrant (except a registrant who is classified in Class 1–C because of his entry into active service in the armed forces), it shall mail him a notice thereof. When a registrant is classified in Class 2–A, 2–C, 2–D, or 2–S, the date of the termination of the deferment shall be entered on the notice.

b. After each local board meeting, a notice listing the registrants who have been classified or whose classification has been changed shall be posted in a conspicuous place in the office of the local board. When a person is unable to ascertain the current classification of a registrant from this posted notice, an employee of the local board, upon request, shall consult the Classification Record (SSS Form 102) and shall furnish the person making the inquiry the current classification of such registrant.

c. In the event the local board classifies the registrant in a class other than that which he requested, it shall record its reasons for such classification in his file. The local board shall inform the registrant of such reasons in writing at the time it mails to him a notice of his classification. Every registrant will be notified on SSS Form 110 of his change or continuance in his classification.

4. *Issuing a duplicate of a lost, destroyed, mislaid or stolen Notice of Classification (SSS Form 110).* A duplicate SSS Form 110 may be issued to a registrant only by the local board which mailed the original SSS Form 110 to him, upon his written statement requesting a duplicate notice and the presentation of proof satisfactory to the local board that his Notice of Classification has been lost, destroyed, mislaid or stolen.

5. *Registrants transferred for classification.* a. After completing the Registration Questionnaire (SSS Form 100), and before the local board of origin has undertaken the classification of a registrant, he may be transferred to another local board by the State director for classification if he is so far from his local board as to make complying with notices a hardship.

b. After completing the Registration Questionnaire (SSS Form 100), a registrant may be transferred to another local board by the State director for classification at any time (1) when the

V 37-77 APR 20 72 XUM

local board cannot act on his case because of disqualification, or (2) when a majority of the members of the local board, or a majority of the members of every panel thereof if the board has separate panels, withdraw from consideration of the registrant's classification because of any conflicting interest, bias, or other reason.

c. The State director may transfer a registrant to another local board for classification at any time (1) when any member of the local board cannot act on the registrant's case because of disqualification, or (2) when the State director deems such transfer to be necessary in order to assure equitable administration of the selective service law.

6. *Procedure upon transfer for classification.* a. The local board from which the registrant is transferred shall prepare, in triplicate, an Order for Transfer for Classification (SSS Form 114), shall send one copy thereof to the registrant, and shall transmit the original to the local board to which the registrant is transferred, together with all papers pertaining to the registrant except the Registration Card (SSS Form 1) and the remaining copy of the SSS Form 114. The local board from which the registrant is transferred shall, with red ink, note the transfer in the "Remarks" column of the SSS Form 102.

b. The local board to which the registrant is transferred shall classify the registrant. It shall follow the same procedure as in the case of one of its own registrants if a request for hearing, a request for reopening, or an appeal is filed. It shall give the same notices and maintain the same records as are sent and maintained for its own registrants, except that it shall use a separate page in its SSS Form 102 for transferred registrants and shall make all entries on that page in red ink. The local board to which the registrant is transferred shall prepare a duplicate SSS Form 101. After the classification, after the hearing, when requested, and after the determination on appeal, when taken, the local board to which the registrant is transferred shall return to the local board of origin all papers pertaining to the registrant except the duplicate SSS Form 101 and the SSS Form 114. In the proper column of the SSS Form 102 the local board to which the registrant is transferred shall note the date of the returning of the papers.

c. The classification made by the local board to which a registrant is transferred shall be appealed through that local board only. The local board of origin shall accept and enter on its records, without any change, the classification reported by the board which classified the registrant. If the local board of origin receives new information that might affect the registrant's classification, the board shall send the information and the registrant's file to the board to which he was transferred for further consideration; provided, that if the disqualification of the local board or other reason for the original transfer for classification no longer exists, the local board of origin may consider the new information and classify the registrant in the same manner as if he had never been transferred for classification.

CHAPTER 643—PAROLE FOR SELECTIVE SERVICE LAW VIOLATORS

SECTION 643.1. *Parole—general.* Any person required to register under the provisions of the Military Selective Service Act and any proclamation of the President arrived under its authority, who is convicted of a violation of any of the provisions of the Military Selective Service Act, or any rules or regulations prescribed under its authority, shall be eligible for release from custody on parole for service in the Armed Forces of the United States or for alternate service in lieu of induction in the manner and under the conditions provided below.

SEC. 643.2. *Authority to grant parole.* In accordance with the procedures specified below and upon the recommendation of the Director of Selective Service, the parole of a convicted person provided for above may be granted by the Attorney General if in his judgment it is compatible with the public interest and the enforcement of the Military Selective Service Act. In recommending the parole of any such person, the Director of Selective Service shall also recommend whether he should be paroled (1) for induction into the Armed Forces of the United States, (2) for induction into the Armed Forces of the United States for noncombatant service, but only in cases in which the person's claim for exemption from combatant service has been sustained in his latest classification on its merits by his local board or by an appeal board in the case of an appeal, or (3) subject to the provisions below, for assignment to alternate service contributing to the maintenance of the national health, safety, or interest in lieu of induction into the Armed Forces of the United States. If the parole is granted by the Attorney General, it shall conform to such recommendation.

SEC. 643.3. *Application for parole and recommendation of Director of Selective Service.* 1. Any person who has been convicted of a violation described above may apply to the Attorney General for parole. He shall submit with his application a consent in writing to induction, or if he claims to be a conscientious objector to both combatant and noncombatant service, shall execute a consent to assignment to alternate service contributing to the maintenance of the national health, safety, or interest.

2. If the Attorney General determines that the application for parole should receive consideration, he shall arrange for the applicant to be physically and mentally examined in the light of Armed Forces induction standards and to be given an intelligence test. A written report shall be prepared setting forth the level of mental ability attained in the test.

3. The papers executed under the above paragraph, including the chest X-ray film and report of serology, shall be transmitted to the Director of Selective Service by the Attorney General with a request that the Director of Selective Service determine whether he will recommend the parole.

SEC. 643.4. *Action upon recommendation or advice of the Director.* The Director of Selective Service shall either recommend to the Attorney General that the registrant be paroled or shall advise the Attorney General that he does not recommend the parole of the registrant, and he shall forward the papers and chest X-ray film and report of serology, together with a copy of this recommendation or advice, to the appropriate State Director of Selective Service for transmittal to the proper local board.

SEC. 643.5 *Induction of paroled registrant.* 1. If the Attorney General grants parole to a registrant for induction into the Armed Forces, or for induction into the Armed Forces for noncombatant service only, he shall send the local board a certified copy of an order suspending parole supervision of the registrant during military service.

2. Upon receipt of the certified copy of the order suspending parole supervision, the local board shall proceed to order the registrant to report for induction. Whenever the institution in which the registrant is confined is not located within the area over which his local board has jurisdiction, the registrant shall be transferred for induction to the local board having jurisdiction of the area in which such institution is located. Arrangements shall be made by the Attorney General for the delivery of the registrant to the examining and entrance station of the Armed Forces so that he may comply with the order to report for induction.

3. In addition to other records required to be forwarded by a local board in delivering a registrant, for each paroled registrant there shall be forwarded to the examining and entrance station of the Armed Forces:

a. The written consent of the registrant to induction;

b. The certified copy of the order suspending parole supervision of the registrant during military service granted by the Attorney General;

c. A certified copy of a statement from the Director of Selective Service recommending such parole which will indicate whether the individual is paroled for induction into the Armed Forces for combatant or noncombatant service;

d. The report of the registrant's intelligence test;

e. The original and three copies of the Report of Medical Examination (SF 88) completely filled out by the examining physician of the institution of custody;

f. The Report of Medical History (SF 93);

g. Serology (SF 514c) original and duplicate copy; and

h. The chest X-ray films which were completed by the institution physician.

The Delivery List (SSS Form 261) should be separate from any other delivery list and should identify the registrants as paroled registrants.

SEC. 643.6. *Parole for assignment to alternate service in lieu of induction.* 1. No person shall be considered for parole for the purpose of assignment to alternate service in lieu of induction unless his conviction and incarceration resulted from his failure or refusal to perform alternate service ordered by his local board.

2. If the Attorney General grants parole to a person for assignment to alternate service, the Attorney General shall send to the local board a certified copy of his order paroling the registrant for such assignment.

3. Upon receipt of a certified copy of an order paroling a registrant for alternate service, the State director shall determine what alternate service would be appropriate for the registrant to perform and shall direct the local board to order him for that alternate service.

4. Any person paroled for assignment to alternate service who fails or refuses to perform any such work satisfactorily, shall be reported by the Director of Selective Service to the Attorney General.

CURTIS W. TARR,
Director.

APRIL 17, 1972.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 F.R. 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the act. While effective and expiration dates are shown for those cetrificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Wood's 5 & 10c Stores, Inc., variety-department store; Tri-City Shopping Center, Rockingham, N.C.; salesclerk, stock clerk; 9 to 34 percent; 12–31–72.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 30 days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 11th day of April 1972.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[No. 121–72]

FAMILIES PLANNING TO MOVE

Advice Regarding Agency Rules

APRIL 17, 1972.

A word of caution was issued today for persons planning to move during the 6-month period beginning May 1.

The Interstate Commerce Commission advises that the summer months bring an upswing in family relocations, and that there is a special need for anyone shipping his household goods to be fully aware of his rights and obligations.

All interstate movements of household goods by motor common carriers are subject to a strict set of ICC rules designed to protect the public. You should become acquainted with these ICC rules designed for your protection before the moving van door closes and the vehicle heads for your new home with all your possessions.

The Commission has been active in seeking to provide you, the consumer, with better service and protection. Vigorous enforcement of the ICC rules has resulted in carrier fines and forfeitures and even individual imprisonment.

The most important action for the consumer to take is to obtain from any household goods carrier certificated by the ICC a copy of the 17-page publication entitled "Summary of Information for Shippers of Household Goods." Carriers are required to provide a free copy of this ICC booklet on request, and it should be obtained early enough to allow adequate time for review of the guidance it provides.

In essence, the booklet emphasizes the following points for consumers:

Moving plans and contact with the carrier should begin well in advance of a prospective move.

Carriers should be asked for a written estimate of charges for a move.

An estimate made by the carrier is not binding and all carriers must charge rates based upon the actual weight of the shipment, which is determined after loading of the van. Accordingly, you should arrange to view the weighing of the loaded van at the scales.

Credit arrangements should be worked out before a move begins. Otherwise, the shipper must have adequate cash or certified check on hand to insure delivery of his shipment.

To be sure of being paid full value for lost or damaged goods, you should declare an appropriate lump sum value for your shipment. There is an additional charge for such protection depending on the valued declared. See page II of the summary.

Further information on moving may be obtained from ICC offices located in 78 major cities. The addresses are listed in Public Advisory No. 3 (containing an important questionnaire) which may be obtained from the mover or by writing to:

INTERSTATE COMMERCE COMMISSION,
[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 54]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 14, 1972.

The following are notices of filing of applications[1] for temporary authority

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37-77 APR 20 72 XUM

under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 58549 (Sub-No. 16 TA), filed April 5, 1972. Applicant: CLINE MUNDY, doing business as GENERAL MOTOR LINES, 526 Orange Avenue NE., Post Office Box 5157, Roanoke, VA 24016. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between points in Montgomery and Pulaski Counties, Va., on the one hand, and, on the other, Woodrum Airport at or near Roanoke, Va., restricted to traffic having a prior or subsequent movement by air, for 180 days. NOTE: Applicant states that it intends to tack the authority here applied for to other authority held by it. Supporting shippers: Piedmont Airlines, Winston-Salem, N.C.; Inland Motor Corporation of Virginia, Radford, Va.; Flow Laboratories, Dublin, Va.; Radford Community Hospital, Radford, Va. Send protests to: Clatin M. Harmon, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 215 Campbell Avenue SW., Roanoke, VA 24011.

No. MC 100666 (Sub-No. 213 TA), filed March 22, 1972. Applicant: MELTON TRUCK LINES, INC., Post Office Box 7666, 1129 Grimmett Drive, Shreveport, LA 71107. Applicant's representatives: Paul Caplinger (same address as applicant) and W. L. Williamson, National Foundation Life Center, 3535 Northwest 58th Street, Oklahoma City, OK 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, (1) from Houston, Tex., to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas, and (2) *lumber*, from Houston, Tex., to points in Louisiana, Oklahoma, and Texas, for 180 days. Supporting shippers: Holland Import Company of Houston, Inc., and Tree Plex, Inc. (a subsidiary of Holland Import Company of Houston, Tex.), Post Office Box 33249, 6811 Silsbee, Houston, TX 77033. Send protests to: Paul D. Collins, District Supervisor, Interstate Commerce Commission, Bureau of Operations, T-4009 Federal Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 111729 (Sub-No. 337 TA) (Correction), filed February 17, 1972, published in the FEDERAL REGISTER issue of March 8, 1972, corrected in part, and republished as corrected, this issue. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: John M. Delany (same address as above). (1) (b) Between Congers, N.Y., on the one hand, and, on the other, Malvern, Pleasant Gap, and Uniontown, Pa., Boonsboro, Hagerstown, and Williamsport, Md.; (e) *Between* Indianapolis, Ind., on the one hand, and, on the other, Ashland, Bowling Green, Covington, Erlanger, Frankfort, Henderson, Lexington, Louisville, Madisonville, Ownesboro, Paducah, and Shively, Ky.; Part (4) Small replacement and repair parts for ,tractors, farm *machinery and industrial and material handling equipment*, restricted to articles or packages weighing in the aggregate less than 95 pounds from one consignor to one consignee on any 1 day, etc. NOTE: The purpose of this partial republication is (1) to correctly spell Malvern in (1b) above, (2) to insert the word *between* before the territorial description and (3) to correctly set forth the commodity description in (4) above, by adding the word machinery and reflect the correct spelling of Malvern. The rest of the application remains as previously published.

No. MC 114312 (Sub-No. 25 TA), filed March 28, 1972. Applicant: ABBOTT TRUCKING, INC., Route 3, Box 74, Delta, OH 43515. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials*, from Coldwater, Mich., to points in Indiana on, north and east of a line beginning at the junction of U.S. Highway 40 and the Indiana-Ohio State line, thence west on U.S. Highway 40 to junction U.S. Highway 231, thence north on U.S. Highway 231 to junction Indiana Highway 43, thence via U.S. Highway 421 to Michigan City, Ind., for 180 days. Supporting shipper: Swift Agricultural Chemicals Corp., a Delaware corporation, 111 West Jackson Boulevard, Chicago, IL. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 534 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

No. MC 117574 (Sub-No. 218 TA), filed April 5, 1972. Applicant: DAILY EXPRESS, INC., Post Office Box 39, 1076 Harrisburg Pike, Carlisle, PA 17013. Applicant's representative: S. Berne Smith, Post Office Box 1166, Harrisburg, PA 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bituminous fiber pipe, conduit, parts, attachments, and fittings*, from West Bend, Wis., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, and Tennessee, for 180 days. Supporting shipper: Fibre Products Division, McGraw-Edison Co., Post Office Box 238, West Bend, WI 53095. Send protests to: Robert W. Ritenour, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 508 Federal Building, Post Office Box 869, Harrisburg, PA 17108.

No. MC 119390 (Sub-No. 12 TA), filed March 29, 1972. Applicant: MAIRS TRANSPORT, LTD., 976 Adair Street, Coquitlam, BC 7583 Edmonds Street, Burnaby, Canada. Applicant's representative: J. Stewart Black, 1322 Laburnum Street, Vancouver, BC. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Baled wastepaper*, from Seattle, Wash., to the international boundary at or near Blaine, Wash., for 180 days. NOTE: Applicant states it does intend to tack the authority with MC 119390. Supporting shipper: Belkin Paperboard Ltd., Post Office Box 490, New Westminster, B.C. Send protests to E. J. Casey, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 6130 Arcade Building, Seattle, Wash. 98101.

No. MC 133221 (Sub-No. 10 TA), filed March 29, 1972. Applicant: OVERLAND CO., INC., Route 1, Box 406 A, Lawrenceville, GA 30245. Applicant's representative: Alan E. Serby, Suite 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polystyrene shapes and forms*, from the plantsite and warehouse facilities of Dolco Packaging Corp., at Decatur, Ind., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New York, Ohio, Pennsylvania, South Dakota, Rhode Island, and Wisconsin, for 150 days. Supporting shipper: Dolco Packaging Corp., Post Office Box 27, Decatur, IN 46733. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 133656 (Sub-No. 2 TA), filed March 31, 1972. Applicant: REA BROTHERS LIMITED, 322 Queen Street South, Streetsville, ON, Canada. Applicant's representative: Robert D. Gunderman, Suite 1708 Statler Hilton, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rough and dressed lumber and veneer*, from ports of entry on the international boundary line between the United States and Canada on the Niagara River, to

North Tonawanda, N.Y., restricted to shipments originating at or destined to the plantsite of Goodman-Staniforth, Division of Universal Oil Products Co., Ltd., Tee Lake, Quebec, Canada, for 180 days. Supporting shipper: Goodman-Staniforth, Division Universal Oil Products, Ltd., Tee Lake, Quebec, Canada. Send protests to: George M. Parker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 612 Federal Building, 111 West Huron Street, Buffalo, NY 14202.

No. MC 135378 (Sub-No. 5 TA), filed April 5, 1972. Applicant: EASTERN TRANSPORT, INC., 320 Stiles Street, Linden, NJ 07036. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, chain grocery, and food business houses (except commodities in bulk), and in connection therewith equipment, materials, and supplies, used in the conduct of such business (except commodities in bulk), for the account of Food Fair Stores, Inc., between Linden, N.J., on the one hand, and, on the other, Bethlehem, Reading, Allentown, Quakertown, Shillington, Pottstown, and Easton, Pa., under continuing contract with Food Fair Stores, Inc., for 150 days. Supporting shipper: Food Fair Stores, Inc., 320 South Stiles Street, Linden, NJ 07036. Send protests to: District Supervisor Robert E. Johnston, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 136344 (Sub-No. 1 TA), filed April 3, 1972. Applicant: A. L. JOHNSON AND A. R. JOHNSON, doing business as A. L. & A. R. JOHNSON, Route 2, Adairville, Ky. 42202. Applicant's representative: Robert L. Baker, 500 Court Square Building, 300 James Robertson Parkway, Nashville, TN 37201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer and fertilizer materials*, dry, in bulk or in bags; and (2) *agricultural chemicals*, in containers when shipped in mixed loads with fertilizer or fertilizer materials, (1) from Nashville, Tenn., to points within Simpson and Logan Counties, Ky., (2) from Clarksville, Tenn., to points within Simpson and Logan Counties, Ky., and (3) from Cherokee, Ala., to points within Simpson and Logan Counties, Ky., for 180 days. Supporting shipper: Bruce N. Maney, Motor Freight Supervisor, USS Agri-Chemicals Division, United States Steel Corp., Atlanta, Ga. Send protests to: Wayne L. Merilatt, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 426 Post Office Building, Louisville, Ky. 40202.

No. MC 136581 TA, filed April 4, 1972. Applicant: ALL FREIGHT DISTRIBUTION CO., INC., 28 South Front Street, Baltimore, MD 21202. Applicant's representative: James J. Doherty, Southeast corner St. Paul Place and Franklin Street, Baltimore, Md. 21202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cargo-containers and demountable trailer bodies; cargo containers and demountable trailer bodies and their contents; and general commodities* shipped in cargo containers or demountable trailer bodies having a prior or subsequent movement by water; between Baltimore, Md., Richmond and Norfolk, Va.; Wilmington, N.C.; Charleston, S.C., Wilmington, Del., Philadelphia, Pa.; and New York, N.Y., and points within 50 miles of the aforesaid-named cities, for 180 days. Supporting shippers: Seymour S. Yaffe, Samuel Meisel & Co., Inc., 918 East Fort Avenue, Baltimore, MD 21230; Texas Transport & Terminal Co., Inc., agents, 20–22 Commerce Street, Baltimore, MD 21203; Furness Withy Agencies (USA), 20–22 Commerce Street, Baltimore, MD 21203. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814–B Federal Building, Baltimore, Md. 21201.

MOTOR CARRIERS OF PASSENGERS

No. MC 123577 (Sub-No. 13 TA) (Amendment), filed March 1, 1972, published in the FEDERAL REGISTER, issue of March 21, 1972, amended and republished in part as amended this issue. Applicant: WARWICK-GREENWOOD LAKE AND NEW YORK TRANSIT, INC. (DONALD A. ROBINSON, TRUSTEE, 60 Galloway Road, Terminal, Warwick, NY 10990), 419 Anderson Avenue, Fairview, NJ 07022. Applicant's representative: Edward F. Bowes, 744 Broad Street, Newark, NJ 07102. NOTE: The purpose of this partial republication is to add a restrictive clause which was not included in the previous publication of the last paragraph to read as follows: The applicant proposes to join the above-described proposed routes (1), (2), and (3) to all its existing routes in Docket MC 123577 and subnumbers thereunder in order to provide service between all points on its existing routes in New Jersey and New York via such existing routes and the proposed routes, *restricted, however, with respect to routes (2) and (3) to traffic moving to or from points north of Paterson, N.J.* The rest of the application remains the same.

By the Commission.

MOTOR CARRIER TRANSFER PROCEEDINGS

APRIL 17, 1972.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC–FC–73670. By application filed April 13, 1972, RAY BETHERS, Post Office Box 116, Kamas, UT 84036, seeks temporary authority to lease the operating rights of GRAHAM TRUCKING CORP., Post Office Box 488, Morgan, UT 84050, under section 210a(b). The transfer to RAY BETHERS, of the operating rights of GRAHAM TRUCKING CORP., is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72–6052 Filed 4–19–72;8:51 am]

[Ex Parte No. 265]

INCREASED FREIGHT RATES, 1970

Present: Lawrence K. Walrath, Commissioner, to whom the matter which is the subject of this order has been referred for action thereon.

It appearing, that pursuant to the provisions of the report and order of the Commission entered March 4, 1971 (339 ICC 125), the parties to these proceedings listed in appendix A of this order have severally petitioned the Commission for relief from the provisions of the order in ex parte No. 265, entered on March 4, 1971 (339 ICC 125 p. 307), requiring the filing with the Commission of quarterly reports on or before July 1, October 1, January 1, and April 1 of each year, describing their actions to correct service deficiencies set forth in the aforesaid report of the Commission;

It further appearing, that the record in these proceedings and the quarterly reports submitted by these petitioners in response to the order of the Commission disclose that the operations of the carriers listed in appendix A of this order do not have a significant effect on the overall standards of service given to shippers by the railroads as a whole.

It is ordered, That the parties named in appendix A of this order be, and they are hereby, relieved of filing with the Commission quarterly reports of their actions to correct service deficiencies.

Dated at Washington, D.C., this 12th day of April 1972.

By the Commission, Commissioner Walrath.

[Ex Parte No. 265]

INCREASED FREIGHT RATES, 1970

Present: Lawrence K. Walrath, Commissioner, to whom the matter which is the subject of this order has been referred for action thereon.

V 37-77 APR 20 72 XUM

It appearing, that pursuant to the provisions of the report and order of the Commission entered March 4, 1971 (339 ICC 125), the carrier listed below has petitioned the Commission for relief from the provisions of the order in ex parte No. 265, entered on March 4, 1971 (339 ICC 125 p. 307), requiring the filing with the Commission of quarterly reports on or before July 1, October 1, January 1, and April 1 of each year, describing its actions to correct service deficiencies set forth in the aforesaid report of the Commission

The Lehigh and Hudson River Railway Company

It further appearing, that the record in these proceedings and the quarterly reports submitted by this petitioner in response to the order of the Commission disclose that its operations have a significant effect on the overall standards of service given to shippers by the railroads as a whole; that the petition states no errors of fact or law warranting the relief sought; and for good cause appearing;

It is ordered, That the petition be, and it is hereby denied.

Dated at Washington, D.C., this 12th day of April 1972.

By the Commission, Commissioner Walrath.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. MC-135975]

IMEL TRUCKING, INC.

Common Carrier Application

Order. At a session of the Interstate Commerce Commission, Review Board No. 2, held at its office in Washington, D.C., on the fifth day of April 1972.

It appearing, that by application filed August 18, 1971, Imel Trucking, Inc., of Decatur, Ind., seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of wrecked motor vehicles, between points in Indiana, Michigan, Illinois, and Ohio;

It further appearing, that the application has been processed under the Commission's modified procedure; that applicant and supporting shipper have filed verified statements in support of the application; that protestant, Joe Moss, doing business as Simpsonville Garage Wrecker Service, has filed a verified statement in opposition; and that applicant has filed a statement in rebuttal to the position advanced by protestant;

It further appearing, that supporting shipper, Decatur Salvage, Inc., employs a portable motor vehicle crushing machine to crush wrecked motor vehicles and then ships them from the customer's location on flatbed trailers to scrap brokers, scrap yards, and recycling locations where large shredders and other recycling equipment is available; that shipper performs or intends to perform this service throughout the involved area; and that shipper needs the transportation services offered by applicant;

It further appearing, that protestant, Joe Moss, is interested in the application only to the extent authority is sought to transport wrecked motor vehicles; that it has no interest in transporting the commodity produced by supporting shipper's operations; and that its interest would be satisfied if the description were changed to one which would more properly describe the commodity being transported;

It further appearing, that the commodity description employed in the application and in the resulting notice in the FEDERAL REGISTER clearly does not adequately describe the service proposed and does not, accordingly, provide notice of the issues involved to potentially interested parties, and that the commodity description set forth in our grant of authority herein more accurately describes and reflects the commodities and the issues involved;

It further appearing, that because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition or other appropriate pleading;

And it further appearing, that otherwise the evidence, submitted in the form of verified statements, demonstrates that applicant has suitable and available equipment, is in compliance with the rules and regulations governing motor carrier operations, and is able, financially and otherwise, to conduct the proposed service; and that the application should be granted as set forth below subject to prior publication in the FEDERAL REGISTER;

Wherefore, and good cause appearing therefor:

We find, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of compacted scrap motor vehicles between points in Indiana, Michigan, Illinois, and Ohio; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that an appropriate certificate should be granted, subject to the condition described in the second succeeding paragraph in this order, and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder, a certificate be issued to applicant authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, in the manner described above, subject to prior publication in the FEDERAL REGISTER of a notice of the authority granted by this order.

It is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board No. 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. MC-121687]

KELLER'S FREIGHT LINE

Application for Certificate of Registration

Order. At a session of the Interstate Commerce Commission, Operating Rights Board, held at its office in Washington, D.C., on the 14th day of March, 1972.

It appearing, that applicant, in accordance with the requirements of section 206(a)(6) of the Interstate Commerce Act, as amended, and the Commission's rules and regulations promulgated thereunder, has made timely application for a certificate of registration as evidence of the right to conduct operations, in interstate or foreign commerce, within limits which do not exceed the scope of the intrastate operations for which applicant holds a State certificate as a common carrier by motor vehicle, solely within a single State, as set forth in the appendix hereto;

It further appearing, that applicant has been issued a State certificate of public convenience and necessity authorizing the motor carrier operations in intrastate commerce described in the appendix hereto; that interested parties withdrew their opposition during the State Commission proceeding; that the certificate issued by the State Commission satisfies the provisions of section 206(a)(6) of the Act; and that applicant has otherwise met the requirements for a certificate of registration contained in section 206(a)(6) of the Act;

And it further appearing, that since it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application, as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority without the requested limitation set forth in the appendix hereto, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the certificate of registration in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been prejudiced; and good cause appearing therefor:

It is ordered, That upon full compliance with the requirements of sections 215, 217, and 221(c) of the Act and the rules and regulations of the Commission thereunder, governing the filing and approval of insurance or other security for the protection of the public, common carrier rate-filing requirements, and designation of agent for service of process, within the time specified in the next succeeding paragraph herein, a certificate of registration shall be issued to applicant, unless otherwise ordered, as evidence of a right to engage in operations in interstate or foreign commerce, as a common carrier by motor vehicle, transporting the commodities from, to, or between the points, over the routes, or within the territory, and in the manner described below, and subject to such additional and further conditions as may be necessary to give effect to the provisions of section 206(a)(6) of the Interstate Commerce Act, as amended, and subject to prior publication in the FEDERAL REGISTER of the actual authority granted herein.

It is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, this application shall stand denied in its entirety effective upon the expiration of said compliance time.

By the Commission, Operating Rights Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. MC-121687]

KELLER'S FREIGHT LINE

(San Francisco, Calif.)

Description of the transportation service authorized to be conducted solely within the State of California, in intrastate commerce, as a common carrier by motor vehicle, pursuant to Certificate of Public Convenience and Necessity granted by Decision No. 79746 dated February 23, 1972, issued by the Public Utilities Commission of the State of California:

PART I

GENERAL COMMODITIES

1. Between all points and places in the San Francisco-East Bay Cartage Zone as described in Part II attached hereto.

2. Between all points and places on and within 10 miles of the following routes:

a. U.S. Highway 101 between Santa Rosa and San Jose, inclusive.

b. State Highway 17 between San Rafael and Los Gatos, inclusive.

c. Interstate Highway 80 between San Francisco and Vallejo, inclusive.

d. U.S. Highway 50 between Hayward and Livermore, inclusive.

e. State Highway 12 between Santa Rosa and junction with State Highway 29, inclusive.

f. State Highway 4 between Pinole and Antioch, inclusive.

g. State Highway 24 between Oakland and junction with State Highway 4, inclusive.

h. Interstate Highway 680 between Vallejo and Warm Springs, inclusive.

i. State Highway 29 between Vallejo and Napa, inclusive.

RESTRICTION: Commodities when transported in cargo containers shall be transported only over Routes (2a) and (2b) above, and between points and places within 10 miles of said routes.

In performing the service herein authorized, applicant may make use of any and all streets, roads, highways, and bridges necessary or convenient for the performance of said service.

Applicant shall not transport any shipments of:

1. Used household goods and personnel effects not packed in accordance with the crated property requirements set forth in Item No. 5 of Minimum Rate Tariff 4-B.

2. Automobiles, trucks, and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, truck and trailers combined, buses and bus chassis.

3. Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment.

4. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers.

5. Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.

6. Commodities when transported in bulk in dump trucks or in hopper-type trucks.

7. Commodities when transported in motor vehicles equipped for mechanical mixing in transit.

8. Logs.

9. Articles of extraordinary value.

PART II

SAN FRANCISCO-EAST BAY CARTAGE ZONE INCLUDES THE AREA EMBRACED BY THE FOLLOWING BOUNDARY:

Beginning at the point where the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to Lake Merced Boulevard; thence southerly along said Lake Merced Boulevard and Lynnewood Drive to South Mayfair Avenue; thence westerly along said South Mayfair Avenue to Crestwood Drive; thence southerly along Crestwood Drive to Southgate Avenue; thence westerly along Southgate Avenue to Maddux Drive; thence southerly and easterly along Maddux Drive to a point 1 mile west of Highway U.S. 101; thence southeasterly along an imaginary line 1 mile west of and paralleling Highway U.S. 101 (El Camino Real) to its intersection with the southerly boundary line of the city of San Mateo; thence northeasterly, northwesterly, northerly and easterly along said southerly boundary to Bayshore Highway (U.S. 101 Bypass); thence leaving said boundary line and continuing easterly along the projection of last said course to its intersection with Belmont (or Angelo) Creek, thence northeasterly along Belmont (or Angelo) Creek to Seal Creek; thence westerly and northerly to a point 1 mile south of Toll Bridge Road; thence easterly along an imaginary line 1 mile southerly and paralleling Toll Bridge Road and San Mateo Bridge and Mount Eden Road to its intersection with State Sign Route 17; thence continuing easterly and northeasterly along an imaginary line 1 mile south and southeasterly of and paralleling Mount Eden Road and Jackson Road to its intersection with an imaginary line 1 mile easterly of and paralleling State Sign Route 9; thence northerly along said imaginary line 1 mile easterly of and paralleling State Sign Route 9 to its intersection with "B" Street, Hayward; thence easterly and northerly along "B" Street to Center Street; thence northerly along Center Street to Castro Valley Boulevard; thence westerly along Castro Valley Boulevard to Redwood Road; thence northerly along Redwood Road to William Street; thence westerly along William Street and 168th Avenue to Foothill Boulevard; northwesterly along Foothill Boulevard to the southerly boundary line of the city of Oakland, thence easterly and northerly along the Oakland boundary line to its intersection with the Alameda-Contra Costa County boundary line; thence northwesterly along last said line to its intersection with Arlington Avenue (Berkeley); thence northwesterly along Arlington Avenue to a point 1 mile northeasterly of San Pablo Avenue (Highway U.S. 40); thence northwesterly along an imaginary line 1 mile easterly of and paralleling San Pablo Avenue (Highway U.S. 40) to its intersection with County Road 20 (Contra Costa County); thence westerly along County Road 20 to Broadway Avenue (also known as Balboa Road); thence northerly along Broadway Avenue (also known as Balboa Road) to Highway U.S. 40; thence northerly along Highway U.S. 40 to Rivers Street; thence westerly along Rivers Street to 11th Street; thence northerly along 11th Street to Johns Avenue; thence westerly along Johns Avenue to Collins Avenue; thence northerly along Collins Avenue to Morton Avenue; thence westerly along Morton Avenue to the Southern Pacific Co. right-of-way and continuing westerly along the prolongation of Morton Avenue to the shoreline of San Pablo Bay; thence southerly and westerly along the shoreline and waterfront of San Pablo Bay to Point San Pablo; thence southerly along an imaginary line from Point San Pablo to the San Francisco Waterfront at the foot of Market Street; thence westerly along said waterfront and shoreline to the Pacific Ocean; thence southerly along the shoreline of the Pacific Ocean to the point of beginning.

[No. 35571]

UTAH INTRASTATE FREIGHT RATES AND CHARGES—1972

Order. At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 28th day of March 1972.

By petition filed February 22, 1972, Union Pacific Railroad Co., Southern Pacific Transportation Co., Western Pacific Railroad Co., the Denver and Rio Grande Western Railroad Co., Utah Railway Co., Carbon County Railway Co., Tooele Valley Railway Co., and Salt Lake Garfield and Western Railway Co., common carriers by railroad transporting freight

V 37-77 APR 20 72 XUM

from, to, through, and between points in the State of Utah, state that under the laws of that State, and the regulations of the Public Service Commission of Utah, they may not increase their intrastate rates on sugar and cement to the extent authorized by this Commission on the same commodities moving in interstate or foreign commerce in Ex Parte No. 259, Increased Freight Rates, 1968, 332 ICC 590 and 332 ICC 714, on sugar beets to the extent authorized by this Commission on the same commodity moving in interstate or foreign commerce in Ex Parte No. 262, Increased Freight Rates, 1969, 337 ICC 436, nor may they increase their intrastate rates and charges to the same extent as their interstate rates and charges as authorized by this Commission in Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971, 339 ICC 125, and petitioners have not sought authority from the State to increase their intrastate rates and charges on shipments moving within the State of Utah to the same extent as they increased their interstate rates and charges as a result of the authorization by this Commission, by order dated February 1, 1972, in Ex Parte No. 281, Increased Freight Rates, 1972, as the Utah Commission has refused to grant part or all of the increases in Utah intrastate freight rates and charges corresponding to the increases in rates and charges on interstate or foreign commerce previously authorized by this Commission; and

It appearing, that the petitioners allege that the increases were authorized on interstate rates and charges on the grounds of the revenue needs of the carriers based on both interstate and intrastate traffic; that the interstate rates are just and reasonable; that transportation conditions incident to the transportation of intrastate freight traffic within Utah on petitioners' lines are not more favorable than conditions incident to interstate transportation on like traffic on such lines within Utah and adjacent States; that intrastate freight rates and charges on traffic moving within the State of Utah, if increased as sought by the petitioners will not exceed a just and reasonable level; that a disparity in favor of intrastate freight rates and charges within Utah now exists as compared to the interstate freight rates and charges to, from, and within Utah; that traffic moving under the present Utah intrastate rates and charges imposed by the State of Utah fails to produce its fair share of the earnings required to enable petitioners under honest, economical, and efficient management to provide adequate and efficient transportation service at the lowest cost consistent with the furnishing of such service; that the present Utah intrastate freight rates and charges create undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce within Utah on the one hand, and interstate and foreign commerce on the other, and result in undue, unreasonable, and unjust discrimination against and undue burden on interstate and foreign commerce; thus, petitioners request that the Commission institute an investigation, under sections 3, 13(4), and 15a of the Interstate Commerce Act, of the Utah intrastate rates as more fully described above, and enter an order for the removal of the unlawfulness by prescribing the rates and charges for the transportation of intrastate traffic within the State of Utah; and that the action requested will have no effect on the environment;

And it further appearing, that there have been brought in issue by the railroad petitioners matters sufficient to require an investigation into the lawfulness of intrastate rates and charges made or imposed by the State of Utah; therefore,

It is ordered, That the petition be, and it is hereby granted.

It is further ordered, That an investigation be, and it is hereby, instituted under section 13 of the Interstate Commerce Act to determine whether the intrastate rates and charges of the petitioning carriers by railroads, or any of them, operating in the State of Utah, for the intrastate transportation of property, made or imposed by the State of Utah, as previously indicated, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those authorized on interstate traffic by this Commission in Ex Parte No. 281, Increased Freight Rates, 1972, by order of February 1, 1972, Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971, supra, Ex Parte No. 262 Increased Freight Rates, 1969, supra, and Ex Parte No. 259, Increased Freight Rates, 1968, supra, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce on the one hand, and those in interstate or foreign commerce, on the other, or any undue, unreasonable, or unjust discrimination against, or undue burden on, interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum, rates and charges should be prescribed to remove the unlawful advantage, preference, discrimination or undue burden, if any, that may be found to exist.

It is further ordered, That all carriers by railroad operating within the State of Utah, subject to the jurisdiction of this Commission, be, and they are hereby, made respondents to this proceeding.

It is further ordered, That any person intending to participate in this proceeding by submitting initial or reply statements, or otherwise, shall notify this Commission, by filing with the Secretary, Interstate Commerce Commission, within 30 days of the service date of this order, the original and one copy of a statement of his intention to participate. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of this type only upon those who intend to take an active part in the proceedings, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interests extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be issued in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of service of this service list the Commission will fix the time within which initial statements and replies must be filed.

It is further ordered, That a copy of this order be served upon each of the said petitioners, and that the State of Utah be notified by sending copies of this order and the said petition by certified mail to the Governor of Utah, Salt Lake City, Utah, and to the Public Service Commission of Utah, Salt Lake City, Utah.

And it is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication therein. Interested persons shall be afforded the opportunity to inspect pleadings at the Office of the Secretary of the Commission in Washington, D.C.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 30]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

APRIL 14, 1972.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Commisssion's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER, issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER, issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 340 (Sub-No. 21), filed March 20, 1972. Applicant: QUERNER TRUCK LINES, INC., 1131 Austin Street, San Antonio, TX 78208. Applicant's representative: M. Ward Bailey, 2412 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Floor tile and adhesives therefor* when moving with shipments of floor tile, from the plantsite of Armstrong Cork Co. at or near Bourbonnais Township, Kankakee County, Ill., to points in Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Dallas, Tex.

No. MC 409 (Sub-No. 44), filed March 20, 1972. Applicant: SCHROETLIN TANK LINE, INC., Post Office Box 511, Sutton, NE 68979. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia, fertilizer, and fertilizer solutions and materials, and urea*, in tank or hopper-type vehicles, from the plantsite and storage facilities of Cooperative Farm Chemical Association, at or near Lawrence, Kans., to points in Missouri, Iowa, Nebraska, and Oklahoma. NOTE: Applicant states that some theoretical tacking possibilities exist between the requested authority and its existing authority, but none are proposed, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 1334 (Sub-No. 11), filed March 10, 1972. Applicant: RITEWAY TRANSPORT, INC., Post Office Box 20433, Phoenix, AZ 85036. Applicant's representative: Robert R. Digby, 217 Luhrs Tower, Phoenix, Ariz. 85003. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities*, Regular: (1) between Cortez, Colo., and Cow Springs, Ariz., serving all intermediate points, from Cortez, Colo., over U.S. Highway 164 to Cow Springs, Ariz., and return over the same route and Irregular: (2) between points in Montezuma County, Colo., and Tonalea, Davis Dam, and Red Lake, Ariz. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Cortez, Colo., or Phoenix, Ariz.

No. MC 2860 (Sub-No. 111), filed March 10, 1972. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, NJ 08360. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Cleveland and Solon, Ohio, to points in Kentucky, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Florida, Mississippi, and Louisiana. NOTE: Applicant states tacking is possible in connection with applicant's present authority on general commodities at MC 2860, Sub 37, Sheets 2 and 3 at Alexandria, Va., so as to provide service in conjunction with applicant's base authority at MC 2860, to all points in New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Delaware, Pennsylvania, and Maryland. Applicant further states tacking would also be possible in connection with applicant's present authority at MC 2860, Sub 37, Sheet 10 on frozen foods, and poultry and seafood other than frozen so as to provide service to Arkansas. Other tacking potentials inherent in that authority are either circuitous or are covered by the authority mentioned above. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 4761 (Sub-No. 27), filed March 10, 1972. Applicant: LOCK CITY TRANSPORTATION COMPANY, a corporation, 3213 10th Street, Menominee, MI 49858. Applicant's representative: Edward Solie, Executive Building, Suite 100, 4513 Vernon Boulevard, Madison, WI 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sulphur dioxide and methyl chloride*, from the plantsite and storage facilities of the Ansul Co. at Marinette, Wis., to points in Arkansas, Connecticut, Delaware, Florida, Georgia, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Nebraska, New Hampshire, New Jersey, North Carolina, North Dakota, Rhode Island, South Carolina, South Dakota, Texas, Vermont, Virginia, and the District of Columbia; and (2) *sulphur dioxide*, from the plantsite and storage facilities of the Ansul Co. at Marinette, Wis., to points in New York, Pennsylvania, and West Virginia. NOTE: Applicant states it is presently authorized to transport the above-described commodities, from Marinette, Wis., to points in or points in a portion of the requested States. No duplicate authority is being sought. Common control may be involved. Applicant further states that the requested authority cannot be tacked with its existing authority,. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 4963 (Sub-No. 33), filed March 2, 1972. Applicant: ALLEGHANY CORPORATION, doing business as JONES MOTOR, a corporation, Bridge Street and Schuylkill Road, Spring City, Pa. 19475. Applicant's representative: Roland Rice, Suite 618, Perpetual Building, 1111 E Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor

V 37-77 APR 20 72 XUM

vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in Ohio, restricted to traffic originating at named origins and destined to points in named territory. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 10761 (Sub-No. 262), filed March 15, 1972. Applicant: TRANS-AMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit, MI 48209. Applicant's representative: A. Alvis Layne, Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* as described in sections A and C appendix I to the report in *Descriptions in Motor Carriers Certificates*, 61 M.C.C. 209 and 766 (except hides and skins), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Connecticut, Delaware, Georgia, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 10875 (Sub-No. 33), filed March 20, 1972. Applicant: BRANCH MOTOR EXPRESS COMPANY, a corporation, 114 Fifth Avenue, New York, NY 10011. Applicant's representative: G. G. Heller (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold, except in bulk in tank vehicles, from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in New York, North Carolina, Ohio, Virginia, and West Virginia, restricted to traffic originating at named origin points and destined to points in named territory. NOTE: Applicant states that the requested authority can be tacked with its existing authority from Fogelsville and Allentown, Pa., to those areas granted in applicant's previous certificates. However, applicant does not contemplate tacking at any point within the areas this application encompasses. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 31389 (Sub-No. 150), filed March 15, 1972. Applicant: McLEAN TRUCKING COMPANY, a corporation, 617 Waughton Street, Post Office Box 213, Winston-Salem, NC 27102. Applicant's representative: Harry J. Jordan, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, with the usual exceptions, serving the site of the United Gas Pipe Line Co. Station, near Erath, La., as an off-route point in connection with regular route operations. NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Washington, D.C.

No. MC 32882 (Sub-No. 67), filed March 22, 1972. Applicant: MITCHELL BROS. TRUCK LINES, a corporation, 3841 North Columbia Boulevard, Portland, OR 97217. Applicant's representative: Norman E. Sutherland, 1200 Jackson Tower, Portland, OR 97205, and Thomas E. James, Post Office Box 5976, Dallas, TX 75222. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in cargo containers and cargo vans, between points in the United States including Alaska (but excluding Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., Houston, Tex., and Washington, D.C.

No. MC 38921 (Sub-No. 5), filed March 15, 1972. Applicant: NEEDHAM'S MOTOR SERVICE, INC., Post Office Box 138, Hightstown, NJ 08520. Applicant's representative: A. David Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in Delaware, Maryland, New Jersey, New York, and Pennsylvania, restricted to traffic originating at named origins and destined to points in named territory. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Philadelphia, Pa.

No. MC 48213 (Sub-No. 33), filed March 22, 1972. Applicant: C. E. LIZZA, INC., Post Office Box 447, Latrobe, PA 15601. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic fiber yarn and materials, equipment, and supplies* used or useful in the manufacture and distribution thereof, between Painesville, Ohio, on the one hand, and, on the other, points in Georgia, North Carolina, South Carolina, New York, Ohio, Florida, Kentucky, Alabama, Colorado, Pennsylvania, Virginia, and New Jersey, under a continuing contract or contracts with IRC Fibers Co., a wholly owned subsidiary of American Cyanamid Co. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 50069 (Sub-No. 450), filed March 21, 1972. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon (Toledo), OH 43616. Applicant's representative: J. A. Kundtz, 1100 National Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid ink*, in bulk, in tank vehicles, from Detroit, Mich., and points within 5 miles thereof to Huntington, Ind., Chicago and Dwight, Ill., Owensboro, Ky., Anoka, Owanatonna, Minneapolis, St. Paul, and Mankato, Minn., Elyria, Ohio, Superior, Wis.; and (2) *petrolatum*, in bulk, in tank vehicles, from Petrolia, Pa., to London, Ark. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 51146 (Sub-No. 264), filed March 21, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, 33 North Dearborn, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such commodities*, as are manufactured or distributed by manufacturers of restaurant and dairy equipment and supplies; and (2) *equipment, materials, and supplies* used in the manufacture and distribution of commodities described in (1) above, between points in the United States (except Alaska and Hawaii), on the one hand, and, on the other, the plant and warehouse sites of Haskon, Inc., Bingham-Risdon Division in the town of Ashwaubenon, Wis. NOTE: Applicant states that the requested authority could be tacked with various subs of MC 51146 and applicant will tack with its MC 51146 where feasible. Applicant has various duplicative items of authority under various subs but does not seek duplicative authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 56244 (Sub-No. 29), filed March 15, 1972. Applicant: KUHN TRANSPORTATION COMPANY, INC., Rural Delivery No. 2, Post Office Box 71, Gardners, PA 17324. Applicant's representative: John M. Musselman, Post Office Box 1146, 400 North Third Street, Harrisburg, PA 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved foodstuffs*, between Biglerville, Camp Hill, and Gardners, Pa., Inwood, W. Va., Bryan, Ohio, and Greenville, Ill. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 56244 (Sub-No. 30), filed March 15, 1972. Applicant: KUHN TRANSPORTATION COMPANY, INC., Rural Delivery No. 2 also Box 71, Gardners, PA 17324. Applicant's representative: John M. Musselman, Post Office Box 1146, 400 North Third Street, Harrisburg, PA 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products, and advertising materials, equipment, and supplies* used in or incidental to the preparation, packing, sale, or distribution of prepared food products, from the plantsite and storage facilities of H. J. Heinz Co., located at Holland, Mich., to the distribution center sites of H. J. Heinz Co. located at Mechanicsburg, Pa., and at Harrison, N.J. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 61592 (Sub-No. 262), filed March 15, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: R. Conner Wiggins, Jr., 100 North Main Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned and bottled foodstuffs*, from the plantsites of Bruce Foods Corp. at or near Cade, La., to points in Maryland, West Virginia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Arkansas, and Florida; and (2) *material, equipment, and supplies* used in the processing and distribution of the commodities in (1) above, from points in the destination States named in (1) above to the plantsites of Bruce Food Corp. at or near Cade, La. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 61592 (Sub-No. 263), filed March 15, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald W. Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movement, and *buildings*, in section on undercarriages, from the plantsite of Continental Modules, Inc., in New Castle County, Del., to points in the United States on and east of the western boundaries of Wisconsin, Illinois, Kentucky, Tennessee, and Mississippi. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 61592 (Sub-No. 264), filed March 20, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donal Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese, butter, and dairy products*, from St. Louis, Mo., and its commercial zone, to points in Connecticut, Indiana, Ohio, Massachusetts, Maryland, Michigan, New York, New Jersey, Pennsylvania, Rhode Island, and Washington, D.C. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 63792 (Sub-No. 17), filed March 20, 1972. Applicant: TOM HICKS TRANSFER COMPANY, INC., 4132 Peters Road, Post Office Box 283, Harvey, LA 70058. Applicant's representative: C. W. Ferebee, Post Office Box 283, Harvey, LA 70058. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and plastic tubing*, from the plantsite of Tex-Tube Division Detroit Steel Corp., Houston, Tex., to points in Arkansas, Alabama, Colorado, Texas, Oklahoma, Kansas, Louisiana, New Mexico, Florida, Missouri, Wyoming, Utah, Georgia, and Mississippi. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Houston or Dallas, Tex.

No. MC 64932 (Sub-No. 503), filed March 13, 1972. Applicant: ROGERS CARTAGE CO., a corporation, 1439 West 103d Street, Chicago, IL 60643. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Louisville, Ky., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Maryland, Massachusetts, Nebraska, New Jersey, New York, Oklahoma, Pennsylvania, Tennessee, Texas, West Virginia, Virginia, North Carolina, South Carolina, Louisiana, Connecticut, and Rhode Island. Applicant may presently provide service via Marshall, Ill. NOTE: Applicant states that the requested authority can be tacked at Louisville, Ky., in connection with traffic originating under its certificate at points north and east of Louisville. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 66886 (Sub-No. 28) (Amendment), filed January 11, 1972, published in the FEDERAL REGISTER, issue of February 10, 1972, and republished as amended, this issue. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut Street, Kansas City, MO 64108. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fabricated iron or steel articles* used in the construction or installation of antipollution or environmental control systems; and (2) *safes, vaults, tanks, hoppers, bins, structural steel, conveyors, and mail handling equipment*, from the plantsite and warehouse facilities of Global Steel of Arkansas, Inc., subsidiary of California Blowpipe & Steel Co., at Fort Smith, Ark., to points in the United States (except Alaska and Hawaii). NOTE: The purpose of this republication is to redescribe the authority sought. Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Fort Smith, Ark.

No. MC 70083 (Sub-No. 22), filed March 20, 1972. Applicant: DRAKE MOTOR LINES, INC., 20 Olney Avenue, Cherry Hill, NJ 08034. Applicant's representative: Herbert Burstein, 30 Church Street, New York, NY 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between points in that part of Pennsylvania east of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 11 to Lemoyne, Pa., and thence along Interstate Highway 83 to the Pennsylvania-Maryland State line on the one hand, and, on the other, La Guardia and John F. Kennedy Airports at New York, N.Y., Newark Airport at Newark, N.J., and Philadelphia International Airport at Philadelphia, Pa., restricted to shipments having an immediate prior or subsequent movement by air. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 79577 (Sub-No. 40), filed March 10, 1972. Applicant: OILFIELDS TRUCKING COMPANY, a corporation, 1601 South Union Avenue, Post Office Box 751, Bakersfield, CA 93302. Applicant's representative: Phil Jackson, 510 West Sixth Street, Los Angeles, CA 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid calcium chloride*, in bulk, from, at, or near Amboy, Calif., to points in Clark County, Nev., and Pima and Maricopa Counties, Ariz. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Las Vegas, Nev.

No. MC 83539 (Sub-No. 331), filed March 6, 1972. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce Street, Post Office

APR 20 72
XUM

Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite, lignite coal, treated lignite* in bags; *boards, foundation, water impedance, and foundry molding sand treating compounds*, consisting of mixtures of clay, and/or carbon (ground coal, carbon black and/or other carbons) and/or cellulose (wood flour, corn cob flour, and/or cellulose byproducts) and/or other binding or treating compounds, in bags, from the plantsite and warehouse facilities of American Colloid Co. at or near Belle Fourche, S. Dak.; Upton, Wyo.; Lovell, Wyo.; and Gascoyne, N. Dak., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Kentucky, Louisiana, Michigan, Mississippi, Nevada, New Mexico, South Carolina, South Dakota, Tennessee, Texas, on and east of U.S. Highway 281 commencing at the Oklahoma-Texas State line and continuing to Wichita Falls, Tex., thence points on and south of U.S. Highway 82 from Wichita Falls, Tex., to the Texas-New Mexico State line, Virginia, West Virginia, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 83539 (Sub-No. 333), filed March 21, 1972. Applicant: C & H TRANSPORTATION CO., INC., 1936 2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron or steel roofing, flooring, decking, siding, or ceiling and accessories or component parts therefor*, between Stockton, Calif., on the one hand, and, on the other, points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 94350 (Sub-No. 308), filed March 10, 1972. Applicant: TRANSIT HOMES, INC., Post Office Box 1628, Haywood Road, Greenville, SC 29602. Applicant's representative: Mitchell King, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial shipments, from points in Madison County, La., and White County, Ark., to points in the United States (excluding Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 95084 (Sub-No. 87), filed March 10, 1972. Applicant: HOVE TRUCK LINE, a corporation, Stanhoe, Iowa 50246. Applicant's representative: Kenneth F. Dudley, 611 Church Street, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Yeast culture*, from Des Moines, Iowa, to Rockford, Ohio, and (2) *feed and feed ingredients*, from Mason City, Iowa, to points in Illinois, Indiana, and Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Des Moines, Iowa.

No. MC 95084 (Sub-No. 88), filed March 15, 1972. Applicant: HOVE TRUCK LINE, a corporation, Stanhope, Iowa 50246. Applicant's representative: Kenneth F. Dudley, 611 Church Street, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements and machinery, farm machinery, farm equipment, industrial and construction machinery, and equipment and parts and attachments* for agricultural implements and machinery, farm machinery, farm equipment, and industrial and construction machinery, and equipment, (a) from Dodge City, Kans., to points in the United States (except Alaska and Hawaii), (b) from Salina, Kans., to points in Illinois, Indiana, Iowa, Kentucky, Minnesota, Ohio, Pennsylvania, South Dakota, and Tennessee, (c) from Washington Court House, Ohio, to points in Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming, and (d) from Buckner, Ky., and Milford, Ind., to points in Iowa, Kansas, Minnesota, Nebraska, North Dakota, and South Dakota, and (2) *steel buildings*, from Washington Court House, Ohio, to points in Iowa, Kansas, Minnesota, Nebraska, North Dakota, and South Dakota. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Kansas City, Mo.

No. MC 102567 (Sub-No. 148), filed March 20, 1972. Applicant: EARL GIBBON TRANSPORT, INC., 4295 Meadow Lane, Post Office Drawer 5357, Bossier City, LA 71010. Applicant's representative: Jo E. Shaw, 816 Houston First Savings Building, Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite*, in bulk from Marrero, La., to Pine Bluff, Ark., Port St. Joe, Fla., and Redwood, Miss. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Houston, Tex.

No. MC 103435 (Sub-No. 218), filed March 13, 1972. Applicant: UNITED-BUCKINGHAM FREIGHT LINES, INC., 5773 South Prince Street, Littleton, CO 80120. Applicant's representative: Robert P. Tyler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Clay or clay products, and machinery, equipment, supplies, and materials* incidental to, or used in mining or milling, serving points located in Crook County, Wyo., as offroute points in connection with applicant's presently authorized regular route operations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 103993 (Sub-No. 699), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Noble County, Okla., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tulsa, Okla.

No. MC 103993 (Sub-No. 700), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D.. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Plymouth County, Mass., and to points in the United States (except Alaska and Hawaii), Rutland County, Vt.; and (2) *building and sections of buildings* on undercarriages, from points in Rutland County, Vt., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 103993 (Sub-No. 701), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frames and undercarriages equipped with hitchball and/or pintle hook connectors, roof sections and component parts*, used in the manufacture of trailers designed to be drawn by passenger automobiles and *buildings in sections* on undercarriages, between points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103993 (Sub-No. 702), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Monroe County, Miss., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

No. MC 103993 (Sub-No. 703), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boats*, from points in Lauderdale County, Ala., to points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 103993 (Sub-No. 704), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Henderson County, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 103993 (Sub-No. 705), filed March 20, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pipe, fittings, and accessories*, from Chattanooga, Tenn., and Birmingham, Ala., to points in the United States in and east of Louisiana, Arkansas, Missouri, Iowa, and Minnesota; and (2) *gypsum products, composition board, wallboard, insulating materials, roofing and roofing materials, and urethane and urethane products*, from Marrero, La., to points in the United States in and east of Louisiana, Arkansas, Missouri, Iowa, and Minnesota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 105159 (Sub-No. 25), filed March 22, 1972. Applicant: KNUDSEN TRUCKING, INC., 1320 West Main Street, Red Wing, MN 55066. Applicant's representative: Robert D. Gisvold, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dried egg products*, with or without additives; and (2) *commodities*, exempt under 203(b) of the Interstate Commerce Act when moving in mixed loads with commodities subject to economic regulations under the Interstate Commerce Act described in (1) above, from Marshall and Pipestone, Minn., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 105813 (Sub-No. 185), filed March 20, 1972. Applicant BELFORD TRUCKING CO., INC., 3500 Northwest 79th Avenue, Miami, FL 33148. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Alabama, Florida, Georgia, North Carolina, and South Carolina, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 106644 (Sub-No. 135), filed March 20, 1972. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road, NW., Atlanta, GA 30301. Applicant's representative: Duane W. Acklie, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and plastic tubing, and related plastic fittings, connections, and accessories*, from the plantsite of Tex-Tube Division of Detroit Steel Corp., Houston, Tex., to points in the United States (except Alaska and Hawaii). NOTE: Common control and dual operation may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex., or Washington, D.C.

No. MC 106644 (Sub-No. 136), filed March 20, 1972. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., Atlanta, GA. 30301. Applicant's representative: Duane W. Acklie, Post Office Box 80806, Lincoln, NE, 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand and/or gravel spreaders, fertilizer spreaders, feed bodies, and slurry spreaders*, from Cedar Rapids, Iowa, and Lebannon, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: Common control and dual operation may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Nashville, Tenn.

No. MC 107403 (Sub-No. 832), filed March 7, 1972. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representative: Harry C. Ames, Jr., 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid petroleum products*, in bulk, in tank vehicles, from Gulfport, Hattiesburg, Jackson, Laurel, Meridian, and Natchez, Miss.; Mobile, Ala., and Vidalia, La., to points in Alabama, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Minnesota, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, and Virginia, restricted to traffic originating in Louisiana; (2) *Chemicals*, in bulk, in tank vehicles, (a) from Anniston, Ala., to points in West Virginia, restricted to traffic originating in Louisiana; (b) from Barfield, Ark., and points within 10 miles thereof, to points in Indiana, Iowa, Kansas, Michigan, Missouri, New Jersey, New York, Ohio, and Pennsylvania, restricted to traffic originating in Louisiana; (c) from Fox, Ala., to points in Georgia and South Carolina, restricted to traffic originating in Louisiana; (d) from Memphis, Tenn., to points in Arkansas, Illinois, Kentucky, Michigan, Ohio, Indiana, Pennsylvania, and Wisconsin, restricted to traffic originating in Louisiana; (3) *Liquid chemicals*, in bulk, in tank vehicles, from Fox, Ala., to points in Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virgina, West Virgina, and Wisconsin, restricted to traffic originating in Texas. NOTE: Applicant states that the requested authority sought herein can be tacked with its present authority, but it has no present intention of doing so. Common

control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New Orleans, La.

No. MC 107403 (Sub-No. 833), filed March 14, 1972. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representative: Harry C. Ames, Jr., 666 11th Street, NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite*, in bulk, from Marrero, La., to Pine Bluff, Ark., Redwood, Miss., and Port St. Joe, Fla. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in a unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 107515 (Sub-No. 794), filed March 20, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, GA 30050. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, fruits, vegetables, and potatoes*, from Fort Dodge, Iowa, to Anniston, Ala., and Indianola, Miss. NOTE: Common control and dual operations may be involved. Applicant holds authority in its Sub 416 and Sub 1 to transport fresh and cured meats from and to the points here named. No duplicating authority, however, is sought and applicant has no objection to an appropriate restriction. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 107515 (Sub-No. 795), filed March 27, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, GA 30050. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cleaning, polishing, and waxing compounds;* (2) *starch;* (3) *air fresheners and disinfectants;* (4) *mops, dusters, waxers, and brooms;* (5) *plastic bags; and* (6) *diet and nutritional foods* (except frozen), from Franklin, Ky., and Urbana, Ohio, to Atlanta, Ga.; Jacksonville, Fla.; Kansas City and St. Louis, Mo.; and points in Iowa. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 107515 (Sub-No. 796), filed March 22, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, GA 30050. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, from Walton, N.Y., to points in North Carolina, South Carolina, Alabama, Georgia, and Florida. NOTE: Applicant can tack the authority sought with its Sub 1 authority to serve the additional States of Tennessee, Mississippi, and Louisiana but has no intention of doing so. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York City, N.Y.

No. MC 108053 (Sub-No. 114), filed March 20, 1972. Applicant: LITTLE AUDREY'S TRANSPORTATION COMPANY, INC., Post Office Box 129, Fremont, NE 68025. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 108398 (Sub-No. 42), filed March 13, 1972. Applicant: RINGSBY-PACIFIC LTD., 5773 South Prince Street, Littleton, CO 80120. Applicant's representative: Robert P. Tyler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving missile launching sites and supply points therefor, located in Tooele, Ponders, Teton, Cascade, and Chouteau Counties, Mont., as off-route points in connection with carrier's presently authorized regular operations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 109637 (Sub-No. 386), filed March 14, 1972. Applicant: SOUTHERN TANK LINES, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representative: John E. Nelson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sulphur hexafluoride*, in bulk, in shipper-owned trailers, from Metropolis, Ill., to points in Pennsylvania; (2) *calcium carbide*, in bulk, from Louisville, Ky., to points in Maryland and New Jersey; and (3) *alcoholic liquors*, in bulk, in tank vehicles, from Pekin, Ill., to Cincinnati, Ohio, and Philadelphia, Pa. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111320 (Sub-No. 55), filed March 16, 1972. Applicant: KEEN TRANSPORT, INC., 2001 Barlow Road, Post Office Box 668, Hudson, OH 44236. Applicant's representative: James W. Wilson, Suite 1032, Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building, earthmoving, construction, and contractors machinery and parts thereof* when moving at the same time or separately, from Chattanooga, Tenn., to points in the United States (including Alaska, but excluding Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111812 (Sub-No. 471), filed March 19, 1972. Applicant: MIDWEST COAST TRANSPORT, INC., 405½ E. Eighth Street., Post Office Box 1233, Sioux Falls, SD 57101. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts* as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Arizona, California, Connecticut, Delaware, Idaho, Maine, Maryland, Massachusetts, Montana, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming, and the District of Columbia, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 112520 (Sub-No. 260), filed March 22, 1972. Applicant: McKENZIE TANK LINES, INC., Post Office Box 1200, Tallahassee, FL 32302. Applicant's representative: W. Guy McKenzie, Jr. (same address as applicant). Authority sought

to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pulp mill liquor*, in bulk, in tank vehicles, from the plantsites of International Paper Co., Moss Point, Miss., to the plantsite of International Paper Co., Mobile, Ala. NOTE: Applicant states it would be possible to tack authority sought with authorities applicant now holds, but operations under such combinations of authorities would be extremely circuitous and applicant does not contemplate tacking with the authority here sought. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 112822 (Sub-No. 230), filed March 23, 1972. Applicant: BRAY LINES, INCORPORATED, Post Office Box 1191, 1401 North Little Street, Cushing, OK 74023. Applicant's representative: K. Charles Elliott (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cedar slats*, from Gold Beach, Oreg., to Pine Bluff, Ark. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Memphis, Tenn.

No. MC 112989 (Sub-No. 23), filed March 20, 1972. Applicant: WEST COAST TRUCK LINES, INC., Post Office Box 668, Coos Bay, OR 97420. Applicant's representative: John G. McLaughlin, 726 Blue Cross Building, 100 Southwest Market Street, Portland, OR 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber mill products, particleboard, pressboard, flakeboard, and wallboard*, between points in Oregon and Washington, on the one hand, and, on the other, points in Oregon, Washington, California, Arizona, Nevada, Idaho, Utah, and Colorado. NOTE: Applicant states that the requested authority can be tacked with its existing authority in Oregon and permit service from California points to balance of area. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 113267 (Sub-No. 279), filed March 20, 1972. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, IL 62232. Applicant's representative: Lawrence A. Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from New Orleans, La., to points in the United States (except Pensacola, Fla., Montgomery, Ala., Atlanta, Ga., and points in New Hampshire, Rhode Island, Alaska, Hawaii, Pennsylvania, Maine, Vermont, Connecticut, Massachusetts, New York, New Jersey, Delaware, Maryland, and the District of Columbia). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is sought. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Washington, D.C.

No. MC 113784 (Sub-No. 46), filed March 21, 1972. Applicant: LAIDLAW TRANSPORT LIMITED, a corporation, 65 Guise Street, Hamilton 21, ON, Canada. Applicant's representative: David A. Sutherland, 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, in tank vehicles, from those ports of entry on the international boundary line between the United States and Canada on the Niagara River to points in Niagara, Erie, and Chautaugua Counties, N.Y. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y., or Washington, D.C.

No. MC 114019 (Sub-No. 233), filed March 20, 1972. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, IL 60629. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114265 (Sub-No. 13), filed March 24, 1972. Applicant: RALPH SHOEMAKER, doing business as SHOWMAKER TRUCKING CO., 8624 Franklin Road, Boise, ID 83705. Applicant's representative: Raymond D. Givens, Box 964, Boise, ID 83701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber and lumber products*, (a) between points in Idaho south of the southern boundary of Idaho County on the one hand, and points in Oregon and Washington, on the other; (b) from points in Grant County, Oreg., to points in Cowlitz County, Wash., and points in Washington on and west of Interstate Highway 5; and (c) from points in Cowlitz, Skamania, Klickitat, and Yakima Counties, Wash., and points in Washington on and west of Interstate Highway 5 to points in Baker, Grant, Malheur, Umatilla, and Union Counties, Oreg.; and (2) *wood I-beam trusses and component parts*, from Fort Lupton, Colo., to points in Arizona, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Louisiana, Arkansas, Missouri, Iowa, Minnesota, Montana, Wyoming, and Colorado. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 114284 (Sub-No. 54), filed March 16, 1972. Applicant: FOX-SMYTHE TRANSPORTATION CO., INC., Post Office Box 82307, Stockyards Station, 1700 South Portland, Oklahoma City, OK. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, KS 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Arizona, Arkansas, New Mexico, Oklahoma, and Texas, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 114290 (Sub-No. 64), filed March 6, 1972. Applicant: EXLEY EXPRESS, INC., 2610 Southeast Eighth Avenue, Portland, OR 97202. Applicant's representative: James T. Johnson, 1610 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry pet food*, when transported in the same vehicle with canned pet food, from points in California to points in Oregon and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 115669 (Sub-No. 129), filed March 23, 1972. Applicant: HOWARD N. DAHLSTEN, doing business as DAHLSTEN TRUCK LINE, Post Office Box 95, Clay Center, NE 68933. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Catalyst*, in bulk, in tank vehicles, from McPherson, Kans., to Scottsbluff, Nebr.; (2) *anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite of Cominco American Inc., located 5 miles northwest of Beatrice, Nebr., to points in Iowa, Kansas, and Missouri (except St. Louis, Mo., and its commercial zone); (3) *anhydrous ammonia*, in bulk, in tank vehicles, from the terminals and storage facilities located on the Gulf Central Pipeline Co., at or near Murphy, Nebr., to points in Colorado, Iowa, Kansas, Minnesota, Missouri, North Dakota, South Dakota, and Wyoming; and (4) *fertilizer and fertilizer*

V 37 - 77 APR 20 72 XUM

materials, between points in Kansas and Nebraska (except from Lawrence, Kansas City, and Dodge City, Kans., and Omaha, Nebr.). NOTE: Applicant states that tacking possibilities exist with presently held authority, however, it has no intention to tack. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 115826 (Sub-No. 241), filed March 6, 1972. Applicant: W. J. DIGBY, INC., 1960 31st Street, Denver, CO 80217. Applicant's representative: Robert R. Digby, 217 Luhrs Towers, Phoenix, Ariz. 85003. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Carnivorous animal feed*, from Columbus, Ohio, to points in the United States on and east of U.S. Highway 85 and (2) *materials and supplies* used in the manufacture, sale and distribution of carnivorous animal feed (except in bulk), from points in the United States (except Alaska and Hawaii) to the plantsite and warehouse facilities of Kal Kan Foods, Inc., at Columbus, Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Denver, Colo.

No. MC 116947 (Sub-No. 24), filed March 20, 1972. Applicant: SCOTT TRANSFER CO., INC., 920 Ashby Street SW., Atlanta, GA 30310. Applicant's representative: William Addams, Suite 527, 1776 Peachtree Street SW., Atlanta, GA 30309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers, parts, and accessories thereto*, from Birmingham, Ala., to points in Arkansas, Florida, Georgia, Louisiana, Indiana, Kentucky, Mississippi, Missouri, North Carolina, Ohio, South Carolina, Tennessee, and West Virginia, under contract with Package and Chemical Supply Co., Inc., Tampa, Fla. NOTE: Applicant holds common carrier authority under 117956 and subs thereunder, therefore common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 117233 (Sub-No. 10), filed January 24, 1972. Applicant: MERCURY MOTOR FREIGHT, INC., 415 Waddell Avenue, Clairton, PA 15025. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Roof trusses, precut and prefabricated building sections, and components and materials* used in the construction of prefabricated buildings from Belle Vernon and Elizabeth, Pa., to points in Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Virginia, and West Virginia, under continuing contracts with Lincoln Homes Co., Wylie Construction & Development, Inc., and Swift Development Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 117304 (Sub-No. 29), filed March 20, 1972. Applicant: DON PAFFILE, doing business as PAFFILE TRUCK LINES, 2906 29th Street, Lewiston, ID 83501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Houses, buildings, and components parts thereof*, (b) *trusses, beams, girders, walls, tees, panels, and articles* for reason of size and weights in excess of 15,000 pounds or excess of 8 feet wide, *equipment, parts and supplies* used in the assembling or erecting thereof, from points in Spokane County, Wash., to points in Idaho, north of the Salmon River, to points in Washington, Idaho, Oregon, Montana, Wyoming, Utah, Colorado, Arizona, Nevada, California, and Alaska. Restriction: Restricted from hauling or towing items noted (A) above, which are equipped with own wheels or axles for towing, (2) (a) *scrap metals, wrecked machines, or equipment* for scrap, salvage or remelting purposes only, and (b) *equipment, materials, and supplies* used in direct operation for dismantling, loading, and unloading of same in operation therewith, from points in Spokane County, Wash., to points in Idaho north of the Salmon River, to points in Washington, Idaho, Oregon, Montana, Wyoming, Utah, Colorado, Arizona, Nevada, California, and Alaska, and (3) (a) *return shipments* of the articles listed above which for any reason are rejected or unclaimed, and (b) *materials, equipment, and supplies* used in the handling, loading, construction, erecting or dismantling thereof, between points listed above, from or to any new construction or salvage site, from or to any of the points listed above when destined or in prior use of job site in any of the above points of previous erecting or the dismantling of materials set forth in conjunction with inbound shipments to points above. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash.

No. MC 117565 (Sub-No. 57), filed March 20, 1972. Applicant: MOTOR SERVICE COMPANY, INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles and accessories*, used in floral arrangements, from Kent, Ohio, to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus or Cleveland, Ohio.

No. MC 117815 (Sub-No. 190), filed March 20, 1972. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th Street, Des Moines, IA 50317. Applicant's representative: Larry D. Knox, 910 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts and articles distributed by meat packinghouses*, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Iowa, Illinois, Indiana, Michigan, Wisconsin, and Minnesota. Restriction: Restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, and Omaha, Nebr.

No. MC 117883 (Sub-No. 169), filed March 20, 1972. Applicant: SUBLER TRANSFER, INC., 791 East Main Street, Versailles, OH 45380. Applicant's representative: Edward J. Subler, Post Office Box 62, Versailles, OH 45380. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Carroll, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. Restriction: Restricted to the transportation of traffic originating at the plantsite and/or storage facilities utilized by Farmland Industries, Inc., located at or near Carroll, Iowa, and destined to the named destination points. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 119229 (Sub-No. 4), filed March 27, 1972. Applicant: ORLANDO TRUCKING, INC., 10 Glory Road, Lebanon, NJ 08833. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Upholstered furniture, couches, mattresses, box springs, headboards, beds, bedding and parts thereof*, from Linthicum Heights, Md., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Ohio, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia, (2) *beds, bedding and parts thereof*, from New York, N.Y., to Lebanon, N.J., (3) *beds, bedding and parts thereof*, from Lebanon, N.J., to points in New York, Connecticut, Massachusetts, Maine, Vermont, New Jersey, New Hampshire, Rhode Island, Pennsylvania, Delaware, Maryland, Virginia, Illinois, Indiana, Michigan, West Virginia, Ohio, and the District of Columbia, and (4) *materials and supplies* used in the manufacture and distribution of the above-mentioned commodities (except in bulk); *returned or damaged shipments*, from the above-described destination territory to Lebanon, N.J. and Linthicum Heights, Md. Restriction: The proposed service to be under contract with Eclipse Sleep Products, Inc. Duplicating authority is not sought. Applicant holds portion of the authority. NOTE: If a hearing is deemed necessary applicant requests it be held at New York, N.Y

No. MC 119765 (Sub-No. 29), filed March 15, 1972. Applicant: HENRY G. NELSEN, INC., 1548 Locust Street, Avoca, IA 51521. Applicant's representative: Joseph M. Scanlan, 111 West Washington Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C, appendix to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and storage facilities of E. W. Kneip, Inc., at or near Wahoo, Nebr., to points in Illinois. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 119789 (Sub-No. 114), filed March 10, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, Dallas, TX 75222. Applicant's representative: James K. Newbold (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products*, from Louisville, Ky., to points in Arkansas, Kansas, Texas, Oklahoma, Mississippi, and Louisiana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Frankfort, Ky., or Washington, D.C.

No. MC 119864 (Sub-No. 47), filed March 17, 1972. Applicant: HOFER MOTOR TRANSPORTATION CO., a corporation, 26741 Eckel Road, Perrysburg, OH 43551. Applicant's representative: Dale K. Craig (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, food products, and matches*, (1) from Chicago, Ill., to points in Michigan on and south of Michigan Highway 21; and (2) from Indianapolis, Ind., to St. Louis, Mo. NOTE: Applicant states that tacking is intended from Indianapolis, Ind., on some limited items to St. Louis, Mo. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 119934 (Sub-No. 177), filed March 21, 1972. Applicant: ECOFF TRUCKING, INC., 625 East Broadway, Portville, IN 46040. Applicant's representative: Robert W. Loser II, 1001 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup, liquid sugar, and blends of corn syrup and liquid sugar*, in bulk, in tank vehicles, from points in Louisiana (except shipments originating in St. Bernard, Orleans, Jefferson, and St. John the Baptist Parishes, La.), to points in Alabama, Arkansas, Florida, Mississippi, Tennessee, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority is held, nor are there any applications pending that would involve duplicating authority. Common control may be involved. Applicant holds contract carrier authority under MC 128161 Sub-No. 1, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., New Orleans, La., or Washington, D.C.

No. MC 123255 (Sub-No 17), filed March 13, 1972. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, OH 43055. Applicant's representative: C. F. Schnee, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from Covington, Ky., to Columbus and Bucyrus, Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant now holds contract carrier authority under its No. MC 81968 and subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 123255 (Sub-No. 18), filed March 13, 1972. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, OH 43055. Applicant's representative: C. F. Schnee, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Food, food products, beverages, and advertising matter therefor*, from Battle Creek, Mich., to points in Ohio, Pennsylvania, Kentucky, West Virginia, Maryland, New York, Delaware, New Jersey, Illinois, and Indiana; (2) *foodstuffs*, (a) from Milford, Ill., to points in Ohio, Pennsylvania, Kentucky, West Virginia, Maryland, New York, Delaware, New Jersey, and Indiana, and (b) from Milford, Ill., to points in Ohio, Pennsylvania, Kentucky, West Virginia, Maryland, New York, Delaware, New Jersey, and Indiana; and (3) *carbonated beverages*, from Detroit, Mich., to points in Ohio, Pennsylvania, Kentucky, West Virginia, Maryland, New York, Delaware, New Jersey, Illinois, and Indiana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 81968 Sub 19 and other subs, therefore dual operations may also be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 123294 (Sub-No. 26), filed March 13, 1972. Applicant: WARSAW TRUCKING CO., INC., 1102 West Winona, Warsaw, IN 46580. Applicant's representative: Martin J. Leavitt, 1000 Buhl Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Reclaimed, nonferrous metals*, from Atwood, Ind., to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin; and (2) *scrap insulated copper or aluminum wire and cable, scrap printer plates, and scrap nonferrous metals* for mechanical reclaiming purposes, on return. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 123415 (Sub-No. 19), filed March 14, 1972. Applicant: JAMES STUFFO, INC., Box 1061, Merchantville, NJ. Applicant's representative: Raymond A. Thistle, Jr., Suite 1012, 4 Penn Center Plaza, Philadelphia, PA 19103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Newsprint and groundwood printing paper*, from the storage facilities utilized by Bowater Sales Co., Inc., at Providence, R.I., to New York, N.Y. NOTE: Applicant states that tacking will be made at New York, N.Y., with presently held authority in its base certificate under MC 123415 to provide a through service. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 123865 (Sub-No. 2), filed March 16, 1972. Applicant: LING TRANSFER, INC., 1220 Chestnut Street, Dixon, IL 61021. Applicant's representative: James Canfield, 1100 Rockford Trust Building, Rockford, Ill. 61101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Advertising circulars and printed advertising matter*, from Dixon, Ill., to points in Michigan, under contract with Dixon Publishing Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 124078 (Sub-No. 517), filed March 20, 1972. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from Kensington, Ga., to points in Alabama, Florida, Louisiana, and Mississippi. NOTE: Applicant states that tacking is possible, but

V 37-77
APR 20 72
XUM

not intended. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Chattanooga, Tenn.

No. MC 124078 (Sub-No. 518), filed March 20, 1972. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: James R. Ziperski (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, between points in Colorado, Illinois, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin, restricted to having a prior or subsequent movement over lines of the Burlington Northern, Inc. NOTE: Applicant states that tacking is possible, but not intended. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Paul, Minn.

No. MC 124211 (Sub-No. 211), filed March 22, 1972. Applicant: HILT TRUCK LINE, INC., Post Office Box 988 D.T.S., Omaha, NE 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing fixtures, equipment, materials, and supplies, and accessories*, from points in Arizona and California, to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Los Angeles, Calif., or Washington, D.C.

No. MC 124211 (Sub-No. 212), filed March 23, 1972. Applicant: HILT TRUCK LINE, INC., Post Office Box 988 DTS, Omaha, NE 68101. Applicant's representative: Thomas L. Hilt (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *iron and steel articles*, between points in Nance County, Nebr., on the one hand, and, on the other, points in California; and (2) *building and construction materials*, between points in Shelby County, Iowa, and Cass, Lancaster, and Nance Counties, Nebr., on the one hand, and, on the other, points in Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr.

No. MC 124212 (Sub-No. 60), filed March 22, 1972. Applicant: MITCHELL TRANSPORT, INC., 21111 Chagrin Boulevard, also Post Office Box 22183, Cleveland, OH 44122. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the plantsites of the Lehigh Portland Cement Co. located at Spokane and Metaline Falls, Wash., to points in Morrow County, Oreg. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 125168 (Sub-No. 22), filed March 22, 1972. Applicant: OIL TANK LINES, INC., Box 190, Hood Road and Darby Creek, Darby, PA 19023. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Falling Rock, W. Va., and Rouseville, Pa., to Minotola, N.J., and Reynolds (Schuylkill County), Pa., under contract with Pennzoil United, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia or Pittsburgh, Pa.

No. MC 125433 (Sub-No. 30) (Amendment), filed October 12, 1971, published in the FEDERAL REGISTER, issue of November 11, 1971, and republished as amended, this issue. Applicant: F-B TRUCK LINE COMPANY, a corporation, 1891 West 2100 South Street, Salt Lake City, UT 84119. Applicant's representative: David J. Lister (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Ex Parte No. MC 45, *Descriptions in Motor Carrier Certificates*, appendix V (61 M.C.C. 276), from the plantsites of Kaiser Steel Corp. at or near Fontana and Napa, Calif., to points in Colorado. NOTE: The purpose of this republication is to amend the territorial scope of the application to read as shown above in lieu of original notice. Applicant states that the requested authority can be tacked with its existing authority but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Denver, Colo.

No. MC 126473 (Sub-No. 21), filed March 21, 1972. Applicant: HAROLD DICKEY TRANSPORT, INC., Packwood, Iowa 52580. Applicant's representative: Kenneth F. Dudley, 611 Church Street, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid fertilizer*, (a) from Walcott, Iowa, to points in Illinois and Wisconsin; (b) from Clinton, Iowa, to points in Illinois and Wisconsin; and (c) from Erie, Ill., to points in Wisconsin; (2) *anhydrous ammonia*, (a) from Bellevue, Clinton, and Muscatine, Iowa, to points in Illinois and Wisconsin; and (b) from East Dubuque and Marseilles, Ill., to points in Wisconsin; and (3) *fertilizer*, dry, in bags and in bulk, (a) from Erie, Ill., to Demotte and Nappanee, Ind., and points in Wisconsin; (b) from Clinton, Iowa, to points in Illinois and Wisconsin; (c) from Demotte and Nappanee, Ind., to points in Illinois and Wisconsin; and (d) from Arlington and Erie, Ill., to points in Wisconsin. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 127777 (Sub-No. 16) (Amendment), filed March 10, 1972, published in the FEDERAL REGISTER, issue of April 6, 1972, and republished in part as amended this issue. Applicant: MOBILE HOME EXPRESS, INC., Post Office Box 547, Wausau, WI 54401. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. NOTE: The purpose of this partial republication is to add Waupaca County, Wis., to the origin territory, which was erroneously omitted in the previous publication. The rest of the application remains as previously published.

No. MC 127777 (Sub-No. 17), filed March 21, 1972. Applicant: MOBILE HOME EXPRESS, INC., Post Office Box 547, Wausau, WI 54401. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Modular units* (except trailers designed to be drawn by passenger vehicles and excluding buildings or buildings in sections, mounted on wheeled undercarriages), on specially designed lowboy equipment, (1) between points in North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Wisconsin, Iowa, Michigan, Illinois, Missouri, Indiana, Ohio, Kentucky, and Tennessee; and (2) between points in the above-named States, on the one hand, and, on the other, points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 127834 (Sub-No. 71), filed March 22, 1972. Applicant: CHEROKEE HAULING & RIGGING, INC., 540-42 Merritt Avenue, Nashville, TN 37203. Applicant's representative: Fred F. Bradley, 213 St. Clair Street, Frankfort, KY 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Storage racks and shelving* from Springfield and Nashville, Tenn., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., Louisville or Frankfort, Ky.

No. MC 128030 (Sub-No. 34), filed March 16, 1972. Applicant: THE STOUT TRUCKING CO., INC., Post Office Box 177, Rural Route No. 1, Urbana, IL 61801. Applicant's representative: James F. Flanagan, 111 West Washington Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dampers, penthouses, screening grilles, and drapery products*, from the plantsite of Brandt Airflex Corp., at Champaign, Ill., to points in the United States, including Alaska (but excluding Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Springfield or Chicago, Ill.

No. MC 129086 (Sub-No. 15), filed March 21, 1972. Applicant: SPENCER TRUCKING CORPORATION, Box 254 A, Route 2, Keyser, WV 26726. Applicant's representative: Charles E. Creager, Suite 523, 816 Easley Street, Silver Spring, MD 20910. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ashes and cinders*, from points in Grant, Hampshire, and Mineral Counties, W. Va.; Allegany, Garrett, and Washington Counties, Md., to Gainesville, Va. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 129615 (Sub-No. 9), filed March 21, 1972. Applicant: AMERICAN INTERNATIONAL DRIVE-AWAY, 2000 West 16th Street, Long Beach, CA 90813. Applicant's representative: E. D. Helmer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor homes and campers* (recreational vehicles), in driveaway service, between points in Ohio, on the one hand, and, on the other, points in the United States, including Alaska and Hawaii. If a hearing is deemed necessary, applicant requests it be held at Plymouth, Ohio.

No. MC 129640 (Sub-No. 3), filed March 13, 1972. Applicant: SPENCER BROKERAGE, INC., Post Office Box 332, Spencer, IA 51301. Applicant's representative: Marshall D. Becker, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Precut and prefabricated farm, commercial, and industrial buildings*, from Spencer, Iowa, to points in Arkansas, Colorado, Illinois, Montana, New Mexico, Oklahoma, Texas, Wisconsin, and Wyoming, and *spare parts, poles, and pallets* on return, limited to a transportation service to be performed under a continuing contract, or contracts, with Morton Buildings, Inc., Morton, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Omaha, Nebr.

No. MC 129984 (Sub-No. 2), filed March 20, 1972. Applicant: GLENN PETERSON, doing business as PETERSON TRANSIT, Route No. 2, Merrill, Wis. 54452. Applicant's representative: Frank M. Coyne, 1 West Main Street, Madison, WI 53703. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Manufactured wire products*, from Merrill, Wis., to points in Illinois; and (2) upon return movement *raw wire, steel tubing, bar steel, bar copper, angle iron, galvanized rods, and used pallets and empty paper containers* in barrels, in mixed loads, from points in Illinois to Merrill, Wis. Restriction: All of the foregoing transportation is proposed to be limited to a transportation service to be performed under a continuing contract or contracts with Wire Products Manufacturing Co. of Merrill, Wis. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 133713 (Sub-No. 5), filed March 17, 1972. Applicant: UELAND TRUCKING, INC., Route 1, Box 25 B, Shakopee, MN 55379. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry bulk fertilizer and fertilizer ingredients*, from Minneapolis-St. Paul, Maplewood, Savage, and Pine Bend, Minn., to points in Iowa, and North Dakota, South Dakota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is sought. If a hearing is deemed necessary applicant requests it be held at Minneapolis, Minn.

No. MC 133968 (Sub-No. 2), filed March 20, 1972. Applicant: WATERFORD EXCAVATING CO., INC., Post Office Box 344, Milwaukee, WI 53201. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, (1) from La Crosse, Wis., to points in Minnesota; and (2) from Minneapolis and St. Paul, Minn., to points in Wisconsin. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 134145 (Sub-No. 19), filed March 22, 1972. Applicant: NORTH STAR TRANSPORT, INC., Post Office Box 51, Thief River Falls, MN 56701. Applicant's representative: Jon Miller (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Parts, materials, supplies, accessories, and equipment* used in the manufacture and sales of snowmobiles, boats, and motorbikes, from points in Alabama, Arizona, Arkansas, Delaware, Florida, Georgia, Iowa, Kentucky, Louisiana, Nevada, New Hampshire, New Mexico, North Carolina, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, and Wyoming, to Clearbrook, Detroit Lakes, Karlstad, Minneapolis, Moorhead, Roseau, and Thief River Falls, Minn., under contract with Arctic Enterprises, Inc., and Polaris Industries, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis-St. Paul, Minn.

No. MC 134163 (Sub-No. 6), filed March 21, 1972. Applicant: JOSEPH RICHARDSON, Post Office Box 146, Bridgeport, PA 19405. Applicant's representative: E. Stephen Heisley, 705 McLaughlin Bank Building, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations, and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp. at or near Fogelsville and Allentown, Pa., to points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Virginia, West Virginia, Maryland, and the District of Columbia, restricted to traffic originating at the named origins and destined to the points in the named territory. NOTE: Applicant holds contract carrier authority under MC 95762, and subs thereto, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., Philadelphia, Pa., or Washington, D.C.

No. MC 134229 (Sub-No. 5), filed February 28, 1972. Applicant: RICHMOND TRANSFER, INC., Post Office Box 295, Richmond, MO 64095. Applicant's representative: Tom B. Kretsinger, 450 Professional Building, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between points in Clay and Platte Counties, Mo., on the one hand, and, on the other, points in Missouri. NOTE: Applicant states that the requested authority can be tacked with its existing authority at Arley, Mo., and points within 10 miles thereof. Persons interested in the tacking possibilities are cautioned that failure to oppose that application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

V 37 77 APR 20 72 XUM

No. MC 134601 (Sub-No. 2), filed March 10, 1972. Applicant: GOOSE CREEK TRANSPORT, INC., Rural Delivery No. 1, Ashville, N.Y. 14710. Applicant's representatives: Kenneth T. Johnson and Ronald W. Malin, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (a) *Meats, meat products and meat byproducts, dairy products, and articles distributed by meat packinghouses* (except hides), as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Harlan, Hartley, and Iowa Falls, Iowa, to points in Chautauqua, Cattaraugus, and Allegany Counties, N.Y., and points in Crawford, Venango, Warren, McKean, and Erie Counties, Pa., under a continuing contract with Fairbank Farms, Inc., and (b) *meats, meat products, and meat byproducts, dairy products, and articles distributed by meat packinghouses* (except hides), as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Cedar Rapids, Dennison, Des Moines, Spencer, Storm Lake, Postville, Harland, Hartley, Ottumwa, Iowa Falls, and Fort Dodge, Iowa; Dakota City, Schuyler, Omaha, and Fremont, Nebr.; Albert Lea and Austin, Minn.; Chicago, Ill.; South Bend, Ind.; Cleveland, Ohio; and Harmony (Chautauqua County), N.Y., to points in McKean County, Pa., under a continuing contract with Whitehawk Beef Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 134734 (Sub-No. 5), filed March 20, 1972. Applicant: NATIONAL TRANSPORTATION, INC., Box 31, Norfolk, NE 68701. Applicant's representative: Lanny N. Fauss, Box 37096, Millard, NE 68137. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Norfolk, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia, under contract with National Foods, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha or Lincoln, Nebr.

No. MC 134776 (Sub-No. 19), filed March 20, 1972. Applicant: MILTON TRUCKING, INC., Post Office Box 207, Milton, PA 17847. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey, City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gym mats, materials, and supplies* (except in bulk), between the facilities of Resilite Sports Products, Inc. (Northumberland County), Northumberland, Pa., on the one hand, and, on the other, points in Connecticut, New York, New Jersey, Maryland, and Delaware, under contract with Resilite Sports Products, Inc., of Northumberland, Pa. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 135283 (Sub-No. 8), filed March 10, 1972. Applicant: GRAND ISLAND MOVING & STORAGE CO., INC., Post Office Box 1665, Grand Island, NE 68801. Applicant's representative: Gailyn L. Larsen, 521 South 14th Street, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dehydrated or dried eggs and products thereof and dehydrated powdered and rendered poultry and beef products*, from David City, Norfolk, Omaha, and Ravenna, Nebr.; Malvern, Iowa, and Springfield, Mo., to points in Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Connecticut, Illinois, Indiana, Ohio, and Michigan. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lincoln or Grand Island, Nebr.

No. MC 135705 (Sub-No. 1) (Correction), filed February 29, 1972, published in the FEDERAL REGISTER of April 6, 1972, and republished in part, as corrected this issue. Applicant: LELAND D. MELROSE, doing business as MELROSE TRUCKING COMPANY, Raderville Route, Box 6360, Casper, WY 82601. NOTE: The sole purpose of this partial republication is to reflect the correct docket number as MC 135705 *Sub-No. 1*, in lieu of MC 135705 (Sub-No. 2), shown erroneously in the previous publication. The rest of the application remains the same.

No. MC 135904 (Sub-No. 2), filed March 20, 1972. Applicant: ALLTRANS EXPRESS, LTD., 4878 Manor Street, North Burnaby, BC, Canada. Applicant's representative: George H. Hart, 1100 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities which because of size or weight require the use of special equipment), between Seattle and Tacoma, Wash., and ports of entry on the international boundary line between the United States and Canada located at or near Blaine and Sumas, Wash., (a) over Interstate Highway 5; and (b) from Tacoma and Seattle over Interstate Highway 5 to Bellingham, Wash., thence over Alternate U.S. Highway 99 to junction Washington Highway 544, thence over Washington Highway 544 to junction Washington Highway 9 to ports of entry on the international boundary line between the United States and Canada located at or near Sumas, Wash., and return over the same route, restricted to traffic having prior or subsequent movement in foreign commerce, and serving no intermediate or off-route points. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135991, filed August 20, 1971. Applicant: COLETTA'S DOWNTOWN AUTO SERVICE, INC., 425 Richmond Street, Providence, RI 02903. Applicant's representative: B. Lucius Zarlenga, 503 Old Colony Bank Building, Providence, R.I. 02903. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles*, including, but not limited to, trucks and tractor trailers by tow away method, (1) between points in Rhode Island, and (2) between points in Rhode Island, on the one hand, and, on the other, points in Massachusetts, Connecticut, New Hampshire, Vermont, Maine, New York, New Jersey, Maryland, Delaware, Pennsylvania, and Virginia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Providence, R.I., or Boston, Mass.

No. MC 136305 (Sub-No. 2), filed March 20, 1972. Applicant: GAIL CISSELL AND ALICE CISSELL, a partnership, doing business as CISSELL TRANSFER AND STORAGE CO., 112 East Railroad Avenue, Portales, NM 88130. Applicant's representative: Edwin E. Piper, Jr., 715 Simms Building, Albuquerque, N. Mex. 87101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods, unaccompanied baggage and personal effects*, between points in Curry, DeBaca, Guadalupe, Quay, and Roosevelt Counties, N. Mex., and Bailey, and Parmer Counties, Tex., restricted to the transportation of traffic having a prior or subsequent movement in containers beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic. NOTE: If a hearing is deemed necessary, applicant requests it be held at Albuquerque, N. Mex.

No. MC 136492 (Sub-No. 2), filed March 20, 1972. Applicant: G.W.G. TRUCKING, INC., 199–20 120th Avenue, St. Albans, NY 11412. Applicant's representative: Arthur J. Pikens, 1 Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Piece goods*, between points in New York, N.Y., and points in Nassau and Suffolk County, N.Y., on the one hand, and, on the other, points in Essex, Union, Hudson, Bergen, Passaic, Morris, and Middlesex Counties, N.Y., and points in the New York, N.Y., commercial zone as defined by the Commission in the *Fifth Supplemental Report in Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted under the exempt provisions provided by section 203(b)(8) of the Act (exempt zone). Restriction: The operations proposed herein are limited to a transportation service to be performed under a continuing contract or contracts with Downen Zier, Inc., Brookton Industries, Inc., and Soptra Fabrics, Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136499 (Sub-No. 1), filed March 20, 1972. Applicant: SAMUEL D. SUMMERS, doing business as S. D. SUMMERS, Rural Delivery No. 2, Box 61, Moundsville, W. Va. 26041. Applicant's representative: J. K. Chase, Jr., 509 Seventh Street, Moundsville, WV 26041. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bulk rock dust*, by tank vehicles, from Benwood Limestone Co., Benwood, W.Va., to Valley Camp Coal Co. Mine No. 3, Laidley's Run Portal, Washington County, Pa., under contract with Valley Camp Coal Co., Mine No. 3. NOTE: If a hearing is deemed necessary applicant does not specify a location.

No. MC 136508, filed March 1, 1972. Applicant: GALE B. ALEXANDER, 120 South Ward Street, Ottumwa, IA 52501. Applicant's representative: Kenneth F. Dudley, 611 Church Street, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beer and malt beverages*, (1) from St. Paul, Minn., and Peoria, Ill., to Kirksville, Mo.; and (2) from Warsaw, Ill., La Crosse and Sheboygan, Wis., Newport, Ky., and South Bend, Ind., to Ottumwa, Iowa. NOTE: Applicant also holds contract carrier authority under MC 114389 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Des Moines, Iowa.

No. MC 136511 (Sub-No. 1), filed April 4, 1972. Applicant: VIRGINIA APPALACHIAN LUMBER CORPORATION, Post Office Box 48, Big Island, VA 24526. Applicant's representative: Frank B. Hand, Jr., Post Office Box 81, Winchester, VA 22501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, crated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in Henry County, Va., and Moore and Davidson Counties, N.C., to points in Washington, Oregon, California, Arizona, Nevada, and Utah. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Winchester, Va.

No. MC 136527, filed March 15, 1972. Applicant: J. O. BATTLES, INC., Center Road, Bradford, N.H. 03221. Applicant's representative: Richard B. Couser, 95 North Main Street, Concord, NH 03301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Saw mill and pulp mill machinery and equipment*, from Contoocook, N.H., to points in the United States (except Hawaii), and return, under contract with HMC Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 136528, filed March 15, 1972. Applicant: GREAT NORTHEASTERN, INC., Blue Ball, Pa. 17506. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pretzels*, from the plantsite and warehouses of Anderson Bakeries, Inc., at East Lampeter Township, Lancaster County, Pa., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming, under contract with Anderson Bakeries, Inc., of Lancaster, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 136535, filed March 13, 1972. Applicant: JAMES L. THOMPSON, doing business as ELLENSBURG TRANSFER CO., 407 West Fourth, Ellensburg, WA 98926. Applicant's representative: Douglas A. Wilson, 303 East D Street, Yakima, WA 98901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities including household goods* (but excluding articles of unusual value, classes A and B explosives, commodities in bulk and those requiring special equipment), between points in Kittitas County, Wash. NOTE: Applicant states it intends to interline with other carriers in the delivery of interstate shipments within said county, with occasional storage in transit. If a hearing is deemed necessary, applicant requests it be held at Portland or Seattle, Wash.

No. MC 136537, filed March 27, 1972. Applicant: D.M.T. TRUCKING, INC., 225 East Redwood Street, Baltimore, MD 21202. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Imported motor vehicles*, from Norfolk, Va., to points in Maryland, Virginia, West Virginia, North Carolina, Tennessee, and the District of Columbia, under a continuing contract or contracts with Volkswagen South Atlantic Distributor, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 136539, filed March 27, 1972. Applicant: PETERSON TRUCKING CO., a corporation, 6904 Tujunga Avenue, North Hollywood, CA 91605. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Baby products, including chairs, strollers, toys and related items, and materials and supplies* used in the manufacture of baby products (except in bulk), between the plantsite of Peterson Baby Products Co., at Los Angeles, Calif., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 136540, filed March 20, 1972. Applicant: REFINERS TRANSPORT SERVICE, INC., 4850 Bloomfield, New Orleans, LA 70121. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, La. 70130. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, closures, corrugated boxes and pallets*, (1) from the plantsite of Owens-Illinois, Inc., and warehouse facilities at New Orleans, La., to points in Texas; and (2) from the plantsite of Owens-Illinois, Inc., and warehouse facilities at Waco, Tex., to points in Louisiana. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 136536, filed March 27, 1972. Applicant: ALCO TRANSPORTATION, INC., Post Office Box 1651, 1127 Albert Street, Lima, OH 45802. Applicant's representative: James Muldoon, 50 West Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Furniture and new furniture parts*, between Dayton, Ohio, on the one hand, and, on the other, points in Pennsylvania, Michigan, Kentucky, Indiana, Illinois, Missouri, Wisconsin, Minnesota, and Iowa, under contract with The Mead Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

MOTOR CARRIER OF PASSENGERS

No. MC 136752 (Sub-No. 5), filed March 16, 1972. Applicant: LINCOLN COACH CO., INC., 22 Midland Avenue, Port Chester, NY. Applicant's representative: Sidney J. Leshin, 501 Madison Avenue, New York, NY 10022. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, between White Plains, N.Y., and Stamford, Conn., as follows, serving the intermediate point of Rye, N.Y. *Westbound route:* Commencing in the city of Stamford, State of Connecticut, on Atlantic Street at the intersection of Main Street, right on Main Street to South Street left on South Street to North State Street right on North State Street to entrance of Interstate Highway 95

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

SOCIAL SECURITY BENEFITS—HEW regulation allows designation of representative payee for U.S. Savings Bonds; effective 4–21–72 7881

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

U.S. Information Agency

Section 213.3328 is amended to show that the position of Special Assistant to the Deputy Director is no longer excepted under Schedule C. Effective on publication in the FEDERAL REGISTER (4–21–72), paragraph (e) of § 213.3328 is revoked.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.72–6117 Filed 4–20–72;8:51 am]

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service [1] (Standards Inspection, Marketing Practices), Department of Agriculture

PART 46—REGULATIONS (OTHER THAN RULES OF PRACTICE) UNDER THE PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930

License Fees

On March 9, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5046) regarding a proposed revision of regulations (other than rules of practice) (7 CFR 46.1–46.44), effective under the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531, et seq., as amended; 7 U.S.C. 499a et seq.).

Interested persons were given until April 9, 1972, in which to submit written data, views, or comments regarding the proposed revision of the regulations calling for an increase from $60 to $75 in the annual license fee under the Act. There were only two comments received concerning the proposed increase in license fee from a total of more than 17,700 licensed firms affected by the proposal. Both of the comments were opposed to the increase.

After due consideration of the comments presented concerning the proposed revision of the regulations, and pursuant to the authority contained in section 15, 46 Stat. 537, as amended; 7 U.S.C. 499o, the regulations, other than rules of practice (7 CFR Part 46) under the Perishable Agricultural Commodities Act, 1930, are hereby amended as follows:

Amend § 46.6 to read as follows:

§ 46.6 License fee.

The annual license fee is seventy-five dollars ($75). The Director may require the fee be submitted in the form of a money order, bank draft, cashier's check, or certified check made payable to Agricultural Marketing Service. Authorized representatives of the Division may accept fees and issue receipts therefor.

This amendment shall become effective July 1, 1972.

Done at Washington, D.C., this 18th day of April 1972.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

[FR Doc.72–6095 Filed 4–20–72;8:49 am]

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Termination of Existing Authorization for Export of Field-Run Dates to Certain Countries

Notice was published in the April 1, 1972, issue of the FEDERAL REGISTER (37 F.R. 6693) regarding a proposal to terminate the existing authorization for exports of filed-run Deglet Noor dates to France and Belgium. The authorization is effective pursuant to § 987.56 of the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987; 36 F.R. 15053), regulating the handling of domestic dates produced or packed in Riverside County, Calif. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the California Date Administrative Committee.

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were received within the prescribed time.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

Section 987.56 provides, in part, that whenever the Committee concludes and the Secretary finds that the disposition of utility dates of any variety through any export outlet would tend to effectuate the declared policy of the act, the Secretary shall specify such export outlet, and dates of such variety that are inspected and certified as meeting such grade, size, container, and identification requirements as may be prescribed by the Committee with the approval of the Secretary for such outlet may be so exported. Pursuant to this authority, high quality field-run dates (utility dates) of the Deglet Noor variety were approved for export to France and Belgium in 1970 (35 F.R. 5396, 6700, 14764). Both countries have date processing and packaging plants and desired the dates to be in a form which would enable them to use these facilities. However, after some shipments of field-run dates to these countries, no further requests were received. Apparently, these two countries began receiving supplies of field-run Deglet Noor dates from other sources.

It appears that the needs of these two countries for California dates can now be better met with bulk shipments of processed dates for repacking and/or dates for further processing where almost all of the processing (except for the addition of moisture) is done in the United States. Therefore, the provisions of § 987.156(b) are no longer applicable and should be revoked.

After consideration of all relevant matter presented, including that in the notice, the unanimous recommendation of the California Date Administrative Committee, and other available information, it is hereby found and determined that the authorization in § 987.156 (b) providing for exportation of field-run Deglet Noor dates to France and Belgium no longer tends to effectuate the declared policy of the act and should therefore be terminated.

It is, therefore, ordered, That § 987.156 of Subpart—Administrative Rules and Regulations (7 CFR 987.100–987.174; 36 F.R. 23137; 37 F.R. 1159; 37 F.R. 5282; 37 F.R. 6566; 37 F.R. 6729) is amended by revoking paragraph (b).

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) After some initial exports of field-run dates to France and Belgium, no further exports of such dates to these countries have been made and none are expected in the future; (2) this action imposes no restrictions on handlers, and hence they do not need additional notice or time to prepare or to comply therewith; and (3) no useful purpose would be served by postponing the effective time of this action.

V 37-78
APR 21 72
XUM

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 18, 1972, to become effective upon publication in the FEDERAL REGISTER (4–21–72).

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72–6139 Filed 4–20–72;8:53 am]

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Modification of Additional Grade Requirements

Notice was published in the April 1, 1972, issue of the FEDERAL REGISTER (37 F.R. 6693) of a proposed modification of the grade requirements in § 987.203(b)(2) of Subpart—Grade and Size Regulations (7 CFR 987.202–987.218; 36 F.R. 23894; 37 F.R. 4900; 37 F.R. 5282; and 37 F.R. 6729) for restricted dates to be disposed of in product outlets. The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987; 36 F.R. 15053), regulating the handling of domestic dates produced or packed in Riverside County, Calif. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was recommended by the California Date Administrative Committee.

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal, and one submission was received from the Committee. However, the submission was not relevant to the subject of the notice.

The submission pertained to a unanimous recommendation of the Committee to reduce the grade requirements for dates exported to Mexico to those set forth in § 987.202. The Committee indicated that the difference between the presently effective Mexico grade and the requirements set forth in § 987.202 was too insignificant to maintain and that the differences were not such as would affect the demand for dates in Mexico. However, the notice did not include a proposal to reduce the presently effective Mexico grade requirements. The matter contained in the Committee's submission is a new proposal and should be published in a notice of proposed rule making.

Section 987.203(b)(2) prescribes, among other things, grade requirements for dates withheld from handling (restricted dates) to be disposed of in product outlets. These requirements are that such restricted dates shall grade not less than U.S. Grade C or U.S. Grade C (Dry), as applicable. In addition to these requirements, Deglet Noor dates must also meet additional requirements for the factor of absence of defects (except that dates damaged by broken skin, by mashing, and by mechanical injury not affecting eating quality are not considered in determining the defect factor), and for the factor of character.

The grade requirements prescribed for dates to be disposed in product outlets should be the minimum quality standards set forth in § 987.202. This reduction will subject an additional quantity of dates to marketing program assessments and also make this quantity available for use in satisfaction of withholding obligations. Moreover, it will simplify program operations in that one grade requirement, instead of two, will be prescribed for restricted dates disposed of in product outlets.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Committee, and other available information, it is hereby found and determined that the modification of the grade requirements for restricted dates to be disposed of in product outlets as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, § 987.203(b) of Subpart—Grade and Size Regulations (7 CFR 987.202–987.218; 36 F.R. 23894; 37 F.R. 4900; 37 F.R. 5282; and 37 F.R. 6729) is amended by revising subparagraph (2) to read as follows:

§ 987.203 Additional grade regulations.

* * * * * *

(b) * * *

(2) *Restricted dates to be disposed of in other approved outlets.* Dates withheld from handling pursuant to § 987.45 to be disposed of pursuant to § 987.55 as products shall meet the minimum standard of quality set forth in § 987.202. Dates withheld from handling pursuant to § 987.45 to be disposed of pursuant to § 987.55 by export to Mexico shall meet the requirements of U.S. Grade C or, if for further processing, U.S. Grade C (Dry) of the U.S. Standards for Grades of Dates, as aforesaid: *Provided*, That Deglet Noor dates shall score (i) not less than 24 points for the factor of absence of defects, except that dates damaged by broken skin, by mashing, and by mechanical injury (not affecting eating quality) shall not be considered when determining the defect factor, and (ii) not less than 29 points for the factor of character.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) This action relieves restrictions on the handling of dates; (2) handlers are aware of the California Date Administrative Committee's recommendation and need no additional notice or time to comply with the change in grade requirements; and (3) no useful purpose would be served by delaying the effective time of this action.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 18, 1972, to become effective upon publication in the FEDERAL REGISTER (4–21–72).

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agriculture Marketing Service.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Loan and Purchase Regs., 1972-Crop Dry Edible Bean Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1972-Crop Dry Edible Bean Loan and Purchase Program

On January 21, 1972, notice of proposed rule making regarding loan and purchase rates for 1972-crop dry edible beans and detailed operating provisions to carry out the 1972 dry edible bean program was published in the FEDERAL REGISTER (37 F.R. 936 and 937). Fourteen responses were received from interested individual farmers, farm organizations, and other interested parties. While there was variation in views, most responses recommended an increase in support rates. After considerations of all responses, it has been determined that loan and purchase rates for the individual classes remain the same as in 1971 program with certain exceptions that are necessary to bring the rates for all classes more nearly in line with historical prices. Other operating provisions for the 1972 crop remain the same as those for the 1971 crop.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops (35 F.R. 7363 and 7781) and the 1970 and Subsequent Crops Dry Edible Bean Loan and Purchase Program Regulations, 35 F.R. 8537, 36 F.R. 8362 and 9001) which contain regulations of a general nature with respect to price support operations, are further supplemented for 1972-crop dry edible beans. The material previously appearing in this subpart in §§ 1421.140 through 1421.143 remains in full force and effect as to the crop to which it was applicable.

Sec.
1421.140 Purpose.
1421.141 Availability.
1421.142 Maturity of loans.
1421.143 Loan and purchase rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.140 Purpose.

This supplement contains additional program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops and any amendments thereto or revisons thereof, and the 1970 and Subsequent Crop Dry Edible Bean Loan and Purchase Program Regulations, and any amendments thereto, apply to loans and purchases for 1972-crop dry edible beans.

§ 1421.141 Availability.

(a) *Loans.* A producer desiring a CCC loan must request a loan on his eligible beans on or before March 31, 1973.

(b) *Purchases.* To sell dry edible beans to CCC through the purchase program, a producer must execute and deliver to the appropriate county ASCS office on or before April 30, 1973, a purchase agreement (Form CCC–614), indicating the approximate quantity of 1972-crop dry edible beans he will sell to CCC.

§ 1421.142 Maturity of loans.

Unless demand is made earlier, loans on dry edible beans will mature on April 30, 1973.

§ 1421.143 Loan and purchase rates.

The rate for beans placed under a loan other than a loan on beans stored commingled in an approved warehouse shall be the applicable basic rate specified in paragraph (a) of this section for the county in which the beans were produced, adjusted as provided in paragraph (d) of this section. The rate for loans on beans stored commingled in approved warehouse storage and for settlement of all loans and purchases shall be the applicable basic rate specified in paragraph (a) of this section for the county in which the beans were produced, adjusted in accordance with paragraphs (b), (c), and (d) of this section, and adjusted also, in the case of settlements, by such discounts as CCC may establish for class, grade, and quality factors not specified in this section which affect the value of the beans, such as (but not limited to) splits, damage, contrasting classes, and foreign material. The discounts established for the purposes of settlement will be based upon the market discounts for such factors at the time the beans are delivered to CCC, as determined by CCC. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately 1 month prior to the loan maturity date. Except in the case of large lima beans, if the beans have been moved by truck to approved warehouse storage in a higher loan and purchase rate county, or if the warehouse guarantees delivery by truck to approved storage or on track in a higher loan and purchase rate county, the loan and purchase rate shall be determined on the basis of the basic loan and purchase rate specified in paragraph (a) of this section for the county in which the beans are stored or to which delivery is guaranteed, rather than the county in which the beans were produced. Settlement shall be made in accordance with the provisions of § 1421.23.

(a) *Basic county loan and purchase rates.* The basic county loan and purchase rates per 100 pounds net weight for beans of all classes grading Prime Handpicked or U.S. No. 1 are as follows:

Class and area	Rate per 100 lb. prime handpicked or U.S. No. 1 in jute or polypropylene bags
Pinto:	
Area I—In New Mexico all counties, except San Juan, Rio Arriba, Taos, McKinley, and Valencia	$6.57
Area II—Idaho, Kansas, Nebraska, Oklahoma, Texas, and Washington. In Colorado, the counties of Larimer, Boulder, Gilpin, Clear Creek, Jefferson, Teller, Fremont, Pueblo, Huerfano, and Las Animas and all counties east thereof in Colorado. In Wyoming, the counties of Goshen, Laramie, and Platte	6.47
Area III—In New Mexico the counties of San Juan, Rio Arriba, Taos, McKinley, and Valencia	6.37
Area IV—Arizona, California, Montana, South Dakota, and Utah. In Wyoming, all counties not in Area II. In Colorado, all counties not in Area II	6.27
Area V—Other States	6.07
Great northern:	
Area I—Nebraska, Minnesota, and North Dakota. In Colorado, all counties east of 106° longitude. In Wyoming, the counties of Goshen, Laramie, and Platte	7.21
Area II—South Dakota, Montana, and Idaho. In Wyoming, all counties not in Area I and in Oregon, Malheur County	7.01
Area III—Other States and counties	6.71
Pea (Navy), U.S. No. 1 and U.S. prime handpicked pea beans:	
Area I—Michigan, New York, Maine, Minnesota, and Wisconsin	6.70
Area II—Other States	6.20
Small White and Flat Small White	7.80
Dark Red Kidney	8.51
Light Red Kidney	8.70
Pink	7.32
Small Red:	
Area I—Idaho, Colorado, and Washington	7.47
Area II—Other States	7.42
Large lima	10.39
Baby lima	6.39

(b) *Premium.*

	Cents per 100 lb.
Grade U.S. CHP (Pea beans)	25
Grade U.S. CHP (all other beans)	10
Grade U.S. Extra No. 1	10

(c) *Discount.*

	Cents per 100 lb.
Grade U.S. No. 2	25
Paper package	00

(d) *Deduction for processing charges.* In the case of beans which have not been processed (i.e., commercially cleaned), the rate shall be reduced by the following amounts (except for beans stored commingled in an approved warehouse):

	Dollars per 100 lb. from U.S. No. 1 rate
All States except Michigan and New York	$1.00
Michigan, Pea beans only	1.00
Michigan, other classes	1.50
New York	2.00

Effective date: Upon publication in the FEDERAL REGISTER (4–21–72).

Signed at Washington, D.C., on April 13, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[CCC Grain Loan and Purchase Regs., 1972-Crop Rice Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1972-Crop Rice Loan and Purchase Program

On July 23, 1971, notice of proposed rule making regarding determinations to be made in carrying out the 1972-crop rice program was published in the FEDERAL REGISTER (36 F.R. 13322). No data, views, or recommendations were filed by interested persons. The General Regulations Governing Price Support for the 1970 and Subsequent Crops, published at 35 F.R. 7363 and 7781 and any amendments thereto, and the 1970 and Subsequent Crops Rice Loan and Purchase Program Regulations, published at 35 F.R. 8443 and 8873, and any amendments to such regulations, are further supplemented for the 1972 crop of rice. The material previously appearing in this subpart in §§ 1421.325 through 1421.328 remains in full force and effect as to the crop to which it was applicable.

Sec.
1421.325 Purpose.
1421.326 Availability.
1421.327 Maturity of loans.
1421.328 Loan and purchase rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, as amended, 1054, sec. 302, 72 Stat. 988; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.325 Purpose.

This subpart contains additional program provisions which, together with the applicable provisions of the regulations specified in § 1421.300 of the 1970 and Subsequent Crop Rice Loan and Purchase Program Regulations and any amendments thereto, apply to loans and purchases for the 1972-crop rice.

§ 1421.326 Availability.

(a) *Loans.* Producers must request a loan on 1972-crop eligible rice on or before March 31, 1973.

(b) *Purchases.* Producers desiring to offer eligible rice not under loan for purchase must execute and deliver to the county office prior to April 30, 1973, a Purchase Agreement (Form CCC–614) indicating the approximate quantity of rice they will sell to CCC.

§ 1421.327 Maturity of loans.

Unless demand is made earlier, loans on rice will mature on April 30, 1973.

§ 1421.328 Loan and purchase rates.

The loan rate for rice placed under a loan other than a loan on rice stored commingled in an approved warehouse

V 37-78 APR 21 72 XUM

shall be the applicable basic rate specified in paragraph (a) of this section adjusted as provided in paragraphs (c) and (d) of this section. The rate for loans on rice stored commingled in an approved warehouse and for settlement of all loans and purchases shall be the applicable basic rate specified in paragraph (a) of this section, adjusted in accordance with the provisions of this section and §§ 1421.310 and 1421.23.

(a) *Basic rates.* The basic rate per 100 pounds of rice shall be computed as follows: Multiply the yield (in pounds per hundredweight) of head rice by the applicable value factor for head rice (as shown in the table below according to class) and round the result to the nearest hundredth. Similarly, multiply the difference between the total yield and the head rice yield (in pounds per hundredweight) by the applicable value factor for broken rice and round the result to the nearest hundredth. Add the results (as rounded) of these two computations to obtain the basic loan or purchase rate per 100 pounds of rice and express such rate in dollars and cents.

VALUE FACTORS FOR HEAD AND BROKEN RICE [1]

Rough rice class	Head rice	Broken rice
	Cents per pound	
Long grains	8.42	4.33
Medium grains	7.92	4.33
Short grains	7.92	4.33

[1] These value factors may be changed. Such changes, if any, will be made by an amendment to this section issued shortly after Aug. 1, 1972.

(b) *Premium.* The basic rate determined under paragraph (a) of this section shall be adjusted by the following premium:

	Cents per 100 lb.
Grade U.S. No. 1	10

(c) *Discounts*—(1) *Grade.* The basic rate determined under paragraph (a) of this section shall be adjusted for grades below U.S. No. 2 by the following discounts:

	Cents per 100 lb.
Grade U.S. No. 3	15
Grade U.S. No. 4	30
Grade U.S. No. 5	50

(2) *Smut damage.* The rate for rice evidencing smut damage shall be further adjusted by the following discounts:

Percent smut damage:	*Cents per 100 lb.*
Trace	0
0.1–1.0	5
1.1–2.0	10
2.1–3.0	15
3.1 and over	26

(d) *Location differentials.* For rice produced in the areas specified below discounts for location (to adjust for transportation costs of moving the rice to an area where competitive milling facilities are available) shall be applied to the basic rate determined under paragraph (a) of this section and shall be in addition to any adjustment under paragraphs (b) and (c) of this section: *Provided, however,* That if such rice is transported and stored in a rice producing area where no location differential is applicable, no discount for location shall be applied.

DIFFERENTIAL TABLE

Area:	*Discount per 100 lb.*
Imperial County, Calif., and adjacent counties in Arizona and California	$1.31
State of Florida	1.26
States of North Carolina and South Carolina	1.19
Counties of Marion, Pike, and St. Charles, Mo.	0.85
Counties of Lafayette, Little River, and Miller, Ark.; Bowie, Tex.; McCurtain, Okla.; and Bosier Parish, La	0.12

Effective date: Upon publication in the FEDERAL REGISTER (4–21–72).

Signed at Washington, D.C., on April 13, 1972.

[CCC Grain Price Support Regs. 1972-Crop Barley Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1972-Crop Barley Loan and Purchase Program

On September 11, 1971, notice of proposed rule making regarding loan and purchase rates for 1972-crop barley and detailed operating provisions to carry out the 1972-crop barley loan and purchase program was published in the FEDERAL REGISTER (36 F.R. 18322). No data, views, or recommendations were filed by interested persons.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops, published at 35 F.R. 7363, and any amendments thereto, and the 1970 and Subsequent Crops Barley Loan and Purchase Program Regulations, published at 35 F.R. 11166 and any amendments to such regulations are further supplemented for the 1972 crop of barley. The material previously appearing in these §§ 1421.72 through 1421.77 shall remain in full force and effect as to the crops to which it is applicable.

Sec.
1421.72 Purpose.
1421.73 Compliance requirements.
1421.74 Availability.
1421.75 Maturity of loans.
1421.76 Warehouse charges.
1421.77 Loan and purchase rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended, 15 U.S.C. 714. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.72 Purpose.

This supplement contains additional program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops, the 1970 and Subsequent Crop Barley Loan and Purchase Program Regulations, and any amendments thereto, apply to loans on and purchases of the 1972 crop of barley.

§ 1421.73 Compliance requirements.

A producer shall be eligible for a loan or purchase with respect to the barley being tendered if the producer complies with the 1972 set-aside program, appearing in the regulations published in Part 775 of this title pertaining to the Feed Grain Set-Aside Program for crop years 1971–73 (36 F.R. 12835), and any amendments thereto, on the farm on which such barley was produced if such farm is in an area in which the Feed Grain Set-Aside Program is in effect.

§ 1421.74 Availability.

A producer desiring to participate in the program through loans must request a loan on his 1972 crop of eligible barley on or before April 30, 1973, in Alaska, Idaho, Minnesota, Montana, North Dakota, Oregon, South Dakota, Washington, Wisconsin, and Wyoming and by March 31, 1973, in all other States. To sell eligible barley to CCC a producer must execute and deliver to the appropriate county ASCS office, on or before May 31, 1973, in the States named in this section and on or before April 30, 1973, in all other States, a Purchase Agreement (Form CCC–614) indicating the approximate quantity of 1972 crop barley he will sell to CCC.

§ 1421.75 Maturity of loan.

Loans mature on demand but not later than: May 31, 1973, on barley stored in the States of Alaska, Idaho, Minnesota, Montana, North Dakota, South Dakota, Oregon, Washington, Wisconsin, and Wyoming, and on April 30, 1973, in all other States.

§ 1421.76 Warehouse charges.

Subject to the provisions of § 1421.56 the schedule of deductions set forth in this section shall apply to barley stored in an approved warehouse operating under Uniform Grain Storage Agreement.

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES BY MATURITY DATES

Maturity date of April 30, 1973	Deduction (cents per bushel)	Maturity Date of May 31, 1973
(1)		(1)
Prior to May 28, 1972	14	Prior to June 28, 1972.
May 28–June 21	13	June 28–July 22.
June 22–July 16	12	July 23–Aug. 16.
July 17–Aug. 10	11	Aug. 17–Sept. 10.
Aug. 11–Sept. 4	10	Sept. 11–Oct. 5.

Jan. 8–Feb. 1	4	Feb. 8–Mar. 4.
Feb. 2–Feb. 26	3	Mar. 5–Mar. 29.
Feb. 27–Mar. 23	2	Mar. 30–Apr. 23.
Mar. 24–Apr. 30, 1973	1	Apr. 24–May 31, 1973

[1] Date storage charges start, all dates inclusive.

§ 1421.77 Loan rates and discounts.

(a) *Basic loan rates (counties).* Basic county rates (marketing area for Alaska) for loan and settlement purposes for barley (except mixed barley) grading U.S. No. 2 or better are established as follows:

County	*Rate per bushel*
ALABAMA	
All counties	$0.87
ALASKA	
Delta	$0.96
Fairbanks	.93
Glenallen	1.04
Homer	1.00
Kenai-Sold	$1.08
Palmer	1.14
Talkeetna	1.14
ARIZONA	
Apache	$0.79
Cochise	.92
Coconino	.79
Gila	.79
Graham	.84
Greenlee	.79
Maricopa	.97

Reason:	Discount (cents per bushel)
Class—Mixed Barley	2
Grade:	
U.S. No. 3	3
U.S. No. 4	6
U.S. No. 5	15
Total damage (percent): [1]	
10.1–11	1
11.1–12	2
12.1–13	3
13.1–14	4
14.1–15	5
15.1–16	6
16.1–17	7
17.1–18	8
18.1–19	9
19.1 and above	10
Garlicky	10
Weed Control Law (where required by § 1421.25)	10

[1] Not applicable to barley of the class Western Barley.

Other factors: Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of the barley, such as (but not limited to) thin barley, moisture, foreign material, test weight, heat damage, musty, sour, smutty, stained, weevily, ergoty, and bleached. Such discounts will be established not later than the time delivery of barley to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS office approximately 1 month prior to the loan maturity date.

NOTE: Discounts are cumulative except only one grade discount shall be applied. The discounts for total damage in excess of 10 percent are in addition to the discount of 15 cents for barley grading U.S. No. 5. For the purpose of applying discounts, factors which cause barley of the subclass Malting Barley or Blue Malting Barley to have a lower numerical grade than if the barley were graded under a different subclass shall be disregarded.

Effective date: Upon publication in the FEDERAL REGISTER (4–21–72).

Signed at Washington, D.C., on April 13, 1972.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

SUBCHAPTER C—EXPORT PROGRAMS

[GSM–4, Rev. II]

PART 1488—FINANCING OF SALES OF AGRICULTURAL COMMODITIES

Financing of Export Sales From Private Stocks Under Export Credit Sales Program

The following is a clarifying amendment of § 1488.2(s) of the regulations governing the CCC Export Credit Sales Program, as revised and published in the FEDERAL REGISTER on April 22, 1971 (36 F.R. 7597–7602), and corrected April 29, 1971 (36 F.R. 8048), amended May 20, 1971 (36 F.R. 9437–9442), corrected June 9, 1971 (36 F.R. 11081), and amended July 2, 1971 (36 F.R. 12595–12596), to reflect the intention to regard a default by a Government-owned bank as a "political risk" within the meaning of the definition currently contained in that section. Accordingly, it is found and determined that compliance with the public participation requirements prescribed by 5 U.S.C. 553 (b) and (c) is unnecessary.

Section 1488.2(s) is amended by substituting a comma for the period at the end thereof and adding the following: or (4) failure of the foreign bank to make payment for any reason if it is an instrumentality of or is wholly owned by the foreign government.

Effective date. Shall be effective upon filing with the FEDERAL REGISTER.

CLIFFORD G. PULVERMACHER,
Vice President, Commodity Credit Corporation and General Sales Manager, Export Marketing Service.

APRIL 17, 1972.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-CE-2-AD, Amdt. 39-1385]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Models A150, 150, 172, 177, 182, 205, 206, 207 and 210 Airplanes; Correction

In F.R. Doc. 72-1255, appearing on pages 1357 and 1358 in the issue of Friday, January 28, 1972, in paragraph A of Amendment 39-1385, AD 72-3-3, add the phrase "and thereafter intervals not to exceed 100 hours' time in service," following the words "On all aircraft with more than 100 hours' time in service, within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the previous 75 hours' time in service,".

Issued in Kansas City, Mo., on April 12, 1972.

CHESTER W. WELLS,
Acting Director, Central Region.

[FR Doc.72-6081 Filed 4-20-72;8:47 am]

[Airworthiness Docket No. 69-WE-31-AD, Amdt. 39-1486]

PART 39—AIRWORTHINESS DIRECTIVES

Hughes Model 369HS and 369HE Helicopters

Amendment 39-908 (35 F.R. 207), AD 70-1-3, imposes a reduced service life of 1,585 hours on the horizontal stabilizer assembly P/N 369A3600, P/N 369A3600-501, 601, 602, or 605 on Hughes Model 369HS and 369HE helicopters. After issuing Amendment 39-908, in consideration of additional fatigue testing, the agency has determined that the longer service lives listed in the Model 369 series Type Certificate Data Sheet No. H3WE, Revision 2, or subsequent, were applicable. Therefore, the need for AD 70-1-3 is obviated.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by rescinding Amendment 39-908 (35 F.R. 207), AD 70-1-3.

This amendment becomes effective April 25, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on April 12, 1972.

ROBERT O. BLANCHARD,
Acting Director, FAA Western Region.

[Airspace Docket No. 72-NW-05]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On February 11, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 3059) stating that the Federal Aviation Administration (FAA) was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the descriptions of the Pasco, Wash., control zone and transition area.

Interested persons were given 30 days in which to submit written data, views, or arguments. No objections have been received, and the proposed amendments are hereby adopted subject to the following editorial change:

Change the longitude of the geographical coordinates of the Pasco ILS OM to read, "• • • 119°03'30" West Longitude) • • •"

Effective date. This amendment shall be effective 0901 G.m.t. June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on April 12, 1972.

C. B. WALK, Jr.,
Director.

In § 71.171 (37 F.R. 2056) the description of the Pasco, Wash., control zone is amended in part as follows: Delete: "• • • within 5 miles each side of the Pasco VOR 036° radial extending from the 5-mile-radius zone to 8 miles northeast of the VOR • • •" and substitute therefor, "• • • within 4 miles each side of the Pasco ILS localizer northeast course extending from the 5-mile-radius zone to 10 miles northeast of the OM (46°18'41" North Latitude, 119°03'00" West Longitude) • • •"

In § 71.181 (37 F.R. 2143) the description of the Pasco, Wash., transition area is amended to read as follows: "That airspace extending upward from 700 feet above the surface within 10.5 miles northwest and 6 miles southeast of the Pasco VOR 046° and 226° radials extending from 23 miles northeast to 12 miles southwest of the VOR within 9.5 miles northeast and 5 miles southwest of the Pasco VOR 131° radial extending from the VOR to 18.5 miles southeast of the VOR."

[FR Doc.72-6083 Filed 4-20-72;8:47 am]

[Docket No. 11675, Amdt. 806]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets for the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

Section 97.21 is amended by establishing, revising, or canceling the following L/MF SIAP's, effective May 18, 1972.

Homer, Alaska—Homer Municipal Airport; LFR-A, Amdt. 17; Revised.

Section 97.23 is amended by establishing, revising, or canceling the following VOR-VOR/DME SIAP's, effective May 18, 1972.

Atlanta, Ga.—Fulton County Airport; VOR-A, Amdt. 1; Canceled.
Eureka, Calif.—Murray Field; VOR-A, Amdt. 1; Revised.
Georgetown, Del.—Sussex County Airport; VOR Rwy 22, Original; Established.

Section 97.27 is amended by establishing, revising, or canceling the following NDB/ADF SIAP's, effective May 18, 1972.

Oxford, Ohio—Miami University Airport; NDB Runway 4, Amdt. 3; Revised.
Sacramento, Calif.—Sacramento Metropolitan Airport; NDB Runway 16, Amdt. 4; Revised.

Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective May 18, 1972.

Sacramento, Calif.—Sacramento Metropolitan Airport; ILS Runway 16, Amdt. 5; Revised.

Section 97.33 is amended by establishing, revising, or canceling the following RNAV SIAP's, effective May 18, 1972.

Eureka, Calif.—Murray Field; RNAV Runway 11, Amdt. 2; Revised.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c); 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on April 12, 1972.

J. A. FERRARESE,
Acting Director, Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 F.R. 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc.72-6085 Filed 4-20-72;8:45 am]

Title 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration, Department of Health, Education, and Welfare

[Regs. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950—____)

Designation of Representative Payee for U.S. Savings Bonds

The amendment to Regulations No. 4 of the Social Security Administration set forth below provides a simplified form of designation of payee for U.S. Savings Bonds purchased by a representative payee to conserve or invest social security benefits on behalf of the beneficiary.

Inasmuch as this revision is merely technical in nature and will facilitate the purchase and redemption of bonds by representative payees, it should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause that publication with notice of proposed rule making, as well as the designation of an effective date not less than 30 days after final publication, are unnecessary. However, consideration will be given to any comments pertaining to this amendment which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth Street and Independence Avenue SW., Washington, DC 20201.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

(Secs. 205 and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; section 5 of Reorganization Plan No. 1 of 1953, 67 Stat. 18, 631; 42 U.S.C. 405 and 1302)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER (4-21-72).

Dated: March 22, 1972.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: April 15, 1972.

ELLIOTT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

Regulations No. 4 of the Social Security Administration (20 CFR Part 404) are further amended as follows:

Section 404.1605 is revised to read as follows:

§ 404.1605 Conservation and investment of payments.

Payments certified to a relative or other person on behalf of a beneficiary which are not needed for the current maintenance of the beneficiary except as they may be used pursuant to § 404.1607, shall be conserved or invested on the beneficiary's behalf. Preferred investments are U.S. Savings Bonds, but such funds may also be invested in accordance with the rules applicable to investment of trust estates by trustees. For example, surplus funds may be deposited in an interest or dividend bearing account in a bank or trust company or in a savings and loan association if the account is either federally insured or is otherwise insured in accordance with State law requirements. Surplus funds deposited in an interest or dividend bearing account in a bank or trust company or in a savings and loan association must be in a form of account which clearly shows that the representative payee has only a fiduciary, and not a personal, interest in the funds. The preferred forms of such accounts are as follows:

_____
(Name of beneficiary)
by
_____,
(Name of representative payee)
representative payee; or

_____
(Name of beneficiary)
by
_____
(Name of representative payee)
trustee. U.S. Savings Bonds purchased with surplus funds by a representative payee for a minor should be registered as follows:

_____
(Name of beneficiary)
_____, a minor, for whom
(Social Security No.)
_____ is representative
(Name of payee)
payee for social security benefits.

U.S. Savings Bonds purchased with surplus funds by a representative payee for an incapacitated adult beneficiary should be registered as follows:

_____,
(Name of beneficiary)
_____, for whom
(Social Security No.)
_____ is representative payee for social security benefits.
(Name of payee)

A representative payee who is the legally appointed guardian or fiduciary of the beneficiary may also register U.S. Savings Bonds purchased with funds from title II payments in accordance with applicable regulations of the U.S. Treasury Department (31 CFR 315.5 through 315.8). Any other approved investment of the beneficiary's funds made by the representative payee must clearly show that the payee holds the property in trust for the beneficiary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Sulfadimethoxine, Ormetoprim, and Ipronidazole

The Commissioner of Food and Drugs has evaluated a new animal drug application (47-089V), filed by Hoffmann-La-Roche, Inc., Nutley, N.J. 07110, proposing an amendment to the regulations to provide for combined safe and effective use of sulfadimethoxine, ormetoprim, and ipronidazole in turkey feed. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135e is amended as follows:

1. Section 135e.55 is amended by adding a new item 4 to the table in paragraph (e) as follows:

§ 135e.55 Sulfadimethoxine, ormetoprim.

• • • • • •

(e) *Conditions of use.* It is used as follows:

V 37-78 APR 21 72 XUM

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
• • •	• • •	• • •	• • •	• • •	• • •
4. Sulfadimethoxine and Ormetoprim.	56.75 (0.00625%) 34.05 (0.00375%)	Iprondazole	56.75 (0.00625%)	For growing turkeys only; withdraw 4 days before slaughter.	As an aid in the prevention of coccidiosis caused by all Eimeria species known to be pathogenic to turkeys, namely, *E. adenoeides*, *E. gallopavonis*, and *E. meleagrimitis*; bacterial infections due to *P. multocida* (fowl cholera); and blackhead (histomoniasis).

2. Section 135e.56 is amended in paragraph (*f*) by revising the existing item and by designating it as No. 1, and by adding a new item No. 2 as follows:

§ 135e.56 **Iprondazole.**

• • • • • • •

(e) *Conditions of use.* It is used as follows:

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Iprondazole.	56.75 (0.00625%)			For growing turkeys only; withdraw 4 days before slaughter.	As an aid in the prevention of blackhead (histomoniasis) in turkeys.
2. Iprondazole.	56.75 (0.00625%)	Sulfadimethoxine and Ormetoprim.	56.75 (0.00625%) 34.05 (0.00375%)	For growing turkeys only; withdraw 4 days before slaughter.	As an aid in the prevention of blackhead (histomoniasis) and coccidiosis caused by all Eimeria species known to be pathogenic to turkeys, namely, *E. adenoeides*, *E. gallopavonis*, and *E. meleagrimitis* bacterial infections due to *P. multocida* (fowl cholera).

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–21–72).

(Sec. 512(1), 82 Stat. 347; 21 U.S.C. 360b(1))

Dated: April 12, 1972.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc. 72–6000 Filed 4–20–72;8:45 am]

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER F—ENROLLMENT

PART 43i—PREPARATION OF A ROLL TO SERVE AS THE BASIS FOR THE DISTRIBUTION OF JUDGMENT FUNDS AWARDED TO THE NORTHWESTERN BAND OF SHOSHONE INDIANS

APRIL 19, 1972.

This notice is published in the exercise of rule making authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938). The authority to issue regulations on Indian affairs is vested in the Secretary of the Interior by 5 U.S.C. section 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. secs. 2 and 9).

Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations is amended by the addition of a new Part 43i. The regulations contained in the new Part 43i govern the preparation of a roll to serve as the basis for distributing judgment funds awarded the Northwestern Band of Shoshone Indians as authorized by the Act of December 18, 1971 (85 Stat. 737).

The Act of December 18, 1971 (85 Stat. 737), under which these regulations are issued requires that the proposed roll of Indians eligible to receive judgment funds be prepared within 6 months following the date of enactment of the Act. The regulations contain necessary procedures on the preparation of the roll and so should be issued before the roll is prepared. Advance notice and public procedure on the regulations would delay their issuance and considerably lessen the amount of time the tribe has to prepare the roll, possibly resulting in the roll not being prepared before the end of the 6-month period. Therefore, advance notice and public procedure thereon has been deemed contrary to the public interest and is dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (1970).

Since the 30-day deferred effective date would also delay issuance of the regulations, possibly resulting in the roll not being prepared before the 6-month period ends, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective upon the date of publication in the FEDERAL REGISTER (4–21–72).

Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations is amended by adding a new Part 43i reading as follows:

Sec.

43i.1 Definitions.
43i.2 Purpose.
43i.3 Qualifications for enrollment.
43i.4 Eligibility of adopted children.
43i.5 Preparation, publication and display of proposed roll.
43i.6 Appeals.
43i.7 Filing appeals.
43i.8 Supporting evidence.
43i.9 Advising tribe.
43i.10 Action by the Director.
43i.11 Decision of the Secretary on appeals.
43i.12 Preparation and approval of roll.
43i.13 Special instructions.

AUTHORITY: The provisions of this Part 43i issued under 5 U.S.C. sec. 301, R. S. secs. 463 and 465; 25 U.S.C. secs. 2 and 9, and sec. 5(b), 25 Stat. 737.

§ 43i.1 Definitions.

(a) "Secretary" means the Secretary of the Interior or his authorized representative.

(b) "Commissioner" means the Commissioner of Indian Affairs or his authorized representative.

(c) "Director" means the Area Director, Portland Area Office, Bureau of Indian Affairs, or his authorized representative.

(d) "Tribe" means the Northwestern Band of Shoshone Indians.

(e) "Governing Officers" means the duly elected officers of the Northwestern Band of Shoshone Indians.

(f) "Living" means born prior to and alive on December 18, 1971.

(g) "Act" means the Act of Congress approved December 18, 1971 (85 Stat. 737).

(h) "Census rolls" means the census rolls of the Washakie Sub-Agency of the Fort Hall jurisdiction as specified in the Act.

(i) "Descendants" means those persons who are direct descendants of the individuals included in the census rolls enumerated in the Act, such as children, grandchildren, etc.

§ 43i.2 Purpose.

The regulations in this part are to govern the compilation of a roll of the Northwestern Band of Shoshone Indians living on December 18, 1971, which roll shall be used for the distribution of the judgment awarded the Northwestern Band of Shoshone Indians by the Indian Claims Commission.

§ 43i.3 Qualifications for enrollment.

All persons who meet the following requirements for eligibility shall be entitled to be enrolled to share in the distribution of the judgment funds awarded the Northwestern Band of Shoshone Indians in Indian Claims Commission Dockets Nos. 326–D, 326–E, 326–F, 326–G, 326–H, 366, and 367:

(a) They were born prior to and living on December 18, 1971;

(b) Either their names appear on one of the following Indian census rolls of the Washakie Sub-Agency of the Fort Hall jurisdiction:

(1) Roll dated January 1, 1937, by F. A. Gross, Superintendent of the Fort Hall Reservation.

(2) Roll dated January 1, 1940, by F. A. Gross, Superintendent of the Fort Hall Reservation.

(3) Roll dated March 10, 1954.

(4) Roll dated April 21, 1964.

or they possess one-quarter Shoshone Indian blood and they are descendants of those appearing on at least one of said rolls;

(c) They are not recognized as members of the Shoshone-Bannock Tribes of the Fort Hall Reservation, the Shoshone Tribe of the Wind River Reservation, or any other Indian Tribe; and

(d) They shall elect not to participate in any settlement of claims pending before the Indian Claims Commission in docket 326–J, Shoshone-Goshute, and docket 326–K, Western Shoshone.

§ 43i.4 Eligibility of adopted children.

Children of Indian blood of tribes other than Shoshone and non-Indian children who have been adopted either by persons appearing on the rolls cited herein, or by descendants thereof, shall not be eligible for enrollment. Children of Shoshone blood adopted by non-Indians or Indians of other tribes shall be eligible if they otherwise meet the requirements for enrollment.

§ 43i.5 Preparation, publication and display of proposed roll.

The Governing Officers shall, with the assistance of the Director, prepare a proposed roll of members of the tribe who meet the requirements specified in § 43i.3. Such roll shall contain for each person a roll number, name, sex, date of birth, and degree of Shoshone Indian blood. For administrative purposes, but not for publication, the proposed roll shall also contain the addresses of those determined by the Governing Officers to be eligible for enrollment. The proposed roll shall be published in the FEDERAL REGISTER and in a newspaper of general circulation in the State of Utah. The Director shall forward a copy of the proposed roll to the Commissioner, Area Directors, Agency Superintendents, and Bureau Field Offices for public display for a period of 60 days from the date of publication as hereinafter specified.

§ 43i.6 Appeals.

Any person claiming membership rights in the Northwestern Band of Shoshone Indians, or any interest in said judgment funds, or a representative of the Secretary on behalf of any such person, within 60 days from the date of publication in the FEDERAL REGISTER, or in the newspaper of general circulation, as hereinbefore provided, which ever publication date is last, may file an appeal with the Secretary contesting the inclusion or omission of the name of any person on or from such proposed roll in accordance with the following procedures.

§ 43i.7 Filing appeals.

The appeal shall be in writing addressed to the Secretary and must be received by the Director before the close of business on the sixtieth (60th) day after publication. In computing the 60-day period, the count begins with the day following the last date of publication and continues for 60 consecutive days. If, however, the 60th day falls on a Saturday, Sunday, or legal holiday, the period will end on the first working day thereafter.

§ 43i.8 Supporting evidence.

The appeal may be accompanied by any supporting evidence, relied upon as a basis for the appeal including copies of Bureau or tribal records having a direct bearing on the appellant's contentions. The appellant may furnish affidavits from persons having personal knowledge of the facts at issue.[1] The appellant may request additional time to submit supporting evidence. A period considered reasonable for such submissions may be granted by the official receiving the appeal. The burden of proof of establishing the improper inclusion and omission of any name is on the appellant.

§ 43i.9 Advising tribe.

The Director shall notify the Governing Officers of the receipt of the appeal and shall give the Governing Officers the opportunity to examine the appeal and to present such evidence as they may consider pertinent to the action being appealed. The Governing Officers shall have not to exceed 30 days from receipt of notification of the appeal in which to present in writing such statements as they may deem pertinent, supported by any tribal records which have a bearing on the case.

§ 43i.10 Action by the Director.

If after review of the evidence of appeal, the Director is satisfied that the omission of any name is improper and eligibility has been established, the appellant shall be so notified in writing and his name entered on the roll. If the Director determines the appellant is ineligible or inclusion of the name is improper, he shall so notify the appellant and shall forward the appeal, together with the complete record and his recommendation thereon to the Commissioner for transmittal to the Secretary.

§ 43i.11 Decision of the Secretary on appeals.

The Secretary will consider the record as presented, together with such additional information as he may consider pertinent. Any such additional information shall be specifically identified in his decision. The decision of the Secretary on an appeal shall be final and conclusive and written notice of the decision shall be given the appellant.

§ 43i.12 Preparation and approval of roll.

The final roll shall be identical with the proposed roll except for such changes as may be required by the decisions on all appeals taken from the proposed roll. The Director shall approve the roll. The final roll shall be published in the FEDERAL REGISTER.

[1] Criminal penalties are provided by statute for knowingly filing false information in such statement. 18 U.S.C. 1001.

§ 43i.13 Special instructions.

To facilitate the work of the Governing Officers and the Director, the Commissioner may issue special instructions not inconsistent with the regulations in this Part 43i.

JOHN O. CROW,
Commissioner.

Title 22—FOREIGN RELATIONS

Chapter X—Inter-American Foundation

PART 1001—EMPLOYEE RESPONSIBILITIES AND CONDUCT

In the FEDERAL REGISTER of April 13, 1972, at page 7312, the chapter and part numbers for Title 22 appeared incorrectly as Chapter VII, Part 801. They should appear as set forth above. Within the text of the regulations, the incorrect designations should be changed to reflect the above chapter and part numbers.

KENT N. KNOWLES,
Secretary to the Board of Directors, Inter-American Foundation.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7188]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

PART 301—PROCEDURE AND ADMINISTRATION

Taxation of Unrelated Business Income of Certain Exempt Organizations

On March 18, 1971, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under sections 511, 512(a)(1), (2), (b) (12), (16), (17), 1504(e), and 6050 of the Internal Revenue Code of 1954 to reflect the changes made by section 121 (a), (b) (1), (2) (B), (C), (D), and (e) of the Tax Reform Act of 1969 (83 Stat. 487), and with respect to the amendment of the Regulations on Procedure and Administration (26 CFR Part 301) under section 6050 of the Internal Revenue Code of 1954 to reflect the changes made by section 121(e) of the Tax Reform Act of 1969 (83 Stat. 487),

V 37 ■ 78 APR 21 72 XUM

was published in the FEDERAL REGISTER (36 F.R. 5236). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 14, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 1.511 is amended by revising section 511(a)(2)(A), by revising section 511(b)(2), by striking out section 511(c) and inserting in lieu thereof a new section 511(c), and by revising the historical note. These amended and added provisions read as follows:

§ 1.511 Statutory provisions; imposition of tax on unrelated business income of charitable, etc., organizations.

SEC. 511. *Imposition of tax on unrelated business income of charitable, etc., organizations*—(a) *Charitable, etc., corporations taxable at corporate rates.*

. . . . . .

(2) *Organizations subject to tax.* (A) *Organizations described in sections 401(a) and 501(c).* The taxes imposed by paragraph (1) shall apply in the case of any organization (other than a trust described in subsection (b) or an organization described in section 501(c)(1)) which is exempt, except as provided in this part or part II (relating to private foundations), from taxation under this subtitle by reason of section 501(a).

. . . . . .

(b) *Tax on charitable, etc., trusts.*

. . . . . .

(2) *Charitable, etc., trusts subject to tax.* The tax imposed by paragraph (1) shall apply in the case of any trust which is exempt, except as provided in this part or part II (relating to private foundations), from taxation under this subtitle by reason of section 501(a) and which, if it were not for such exemption, would be subject to subchapter J (sec. 641 and following, relating to estates, trusts, beneficiaries, and decedents).

(c) *Special rule for section 501(c)(2) corporations.* If a corporation described in section 501(c)(2)—

(1) Pays any amount of its net income for a taxable year to an organization exempt from taxation under section 501(a) (or which would pay such an amount but for the fact that the expenses of collecting its income exceed its income), and

(2) Such corporation and such organization file a consolidated return for the taxable year,

such corporation shall be treated, for purposes of the tax imposed by subsection (a), as being organized and operated for the same purposes as such organization, in addition to the purposes described in section 501(c)(2).

[Sec. 511 as amended by sec. 3, Act of July 14, 1960 (Public Law 86-667, 74 Stat. 535); as amended by sec. 121(a), Tax Reform Act 1969 (83 Stat. 536)]

PAR. 2. Section 1.511-2 is amended by revising subparagraph (1) of paragraph (a), by revising subdivision (i) of subparagraph (3) of paragraph (a), by adding a new subdivision (iii) to subparagraph (3) of paragraph (a), by revising paragraph (b), and by adding new paragraphs (c) and (d). These amended and added provisions read as follows:

§ 1.511-2 Organizations subject to tax.

(a) *Organizations other than trusts and title holding companies.* (1)(i) The taxes imposed by section 511(a)(1) apply in the case of any organization (other than a trust described in section 511(b)(2) or an organization described in section 501(c)(1)) which is exempt from taxation under section 501(a) (except as provided in sections 507 through 515). For special rules concerning corporations described in section 501(c)(2), see paragraph (c) of this section.

(ii) In the case of an organization described in section 501(c) (4), (7), (8), (9), (10), (11), (12), (13), (14)(A), (15), (16), or (18), the taxes imposed by section 511(a)(1) apply only for taxable years beginning after December 31, 1969. In the case of an organization described in section 501(c)(14) (B) or (C), the taxes imposed by section 511(a)(1) apply only for taxable years beginning after February 2, 1966.

. . . . . .

(3)(i) For taxable years beginning before January 1, 1970, churches and associations or conventions of churches are exempt from the taxes imposed by section 511. The exemption is applicable only to an organization which itself is a church or an association or convention of churches. Subject to the provisions of subdivision (ii) of this subparagraph, religious organizations, including religious orders, if not themselves churches or associations or conventions of churches, and all other organizations which are organized or operated under church auspices, are subject to the tax imposed by section 511, whether or not they engage in religious, educational, or charitable activities approved by a church.

. . . . . .

(iii) For taxable years beginning after December 31, 1969, churches and conventions or associations of churches are subject to the taxes imposed by section 511, unless otherwise entitled to the benefit of the transitional rules of section 512(b)(16) and § 1.512(b)-1(i).

(b) *Trusts*—(1) *In general.* The taxes imposed by section 511(b) apply in the case of any trust which is exempt from taxation under section 501(a) (except as provided in sections 507 through 515), and which, if it were not for such exemption, would be subject to the provisions of subchapter J, Chapter 1, of the Code. An organization which is considered as "trustee" of a stock bonus, pension, or profit-sharing plan described in section 401(a), a supplemental unemployment benefit trust described in section 501(c)(17), or a pension plan described in section 501(c)(18) (regardless of the form of such organization) is subject to the taxes imposed by section 511(b)(1) on its unrelated business income. However, if such an organization conducts a business which is a separate taxable entity on the basis of all the facts and circumstances, for example, an association taxable as a corporation, the business will be taxable as a feeder organization described in section 502.

(2) *Effective dates.* In the case of a trust described in section 501(c)(3), the taxes imposed by section 511(b) apply for taxable years beginning after December 31, 1953. In the case of a trust described in section 401(a), the taxes imposed by section 511(b) apply for taxable years beginning after June 30, 1954. In the case of a trust described in section 501(c)(17), the taxes imposed by section 511(b) apply for taxable years beginning after December 31, 1959. In the case of any other trust described in subparagraph (1) of this paragraph, the taxes imposed by section 511(b) apply for taxable years beginning after December 31, 1969.

(c) *Title Holding Companies*—(1) *In general.* If a corporation described in section 501(c)(2) pays any amount of its net income for a taxable year to an organization exempt from taxation under section 501(a) (or would pay such an amount but for the fact that the expenses of collecting its income exceed its income), and if such corporation and such organization file a consolidated income tax return for such taxable year, then such corporation shall be treated, for purposes of the tax imposed by section 511(a), as being organized and operated for the same purposes as such organization, as well as for its title-holding purpose. Therefore, if an item of income of the section 501(c)(2) corporation is derived from a source which is related to the exempt function of the exempt organization to which such income is payable and with which such corporation files a consolidated return, such item is, together with all deductions directly connected therewith, excluded from the determination of unrelated business taxable income under section 512 and shall not be subject to the tax imposed by section 511(a). If, however, such item of income is derived from a source which is not so related, then such item, less all deductions directly connected therewith, is, subject to the modifications provided in section 512(b), unrelated business taxable income subject to the tax imposed by section 511(a).

(2) The provisions of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. The income of X, a section 501(c)(2) corporation, is required to be distributed to exempt organization A. During the taxable year X realizes net income of $900,000 from source M and $100,000 from source N. Source M is related to A's exempt function, while source N is not so related. X and A file a consolidated return for such taxable year. X has net unrelated business income of $100,000, subject to the modifications in section 512(b).

(3) *Cross reference.* For rules relating generally to the filing of consolidated returns by certain organizations exempt from taxation under section 501(a), see section 1504(e) of the Code and § 1.1502-100.

(4) *Effective dates.* Subparagraphs (1) through (3) of this paragraph apply with respect to taxable years beginning after December 31, 1969. For taxable years beginning before January 1, 1970, a corporation described in section 501(c)(2) and otherwise exempt from taxation under section 501(a) is taxable upon its unrelated business taxable income only if such income is payable either—

(i) To a church or convention or association of churches, or

(ii) To any organization subject, for taxable years beginning before January 1, 1970, to the tax imposed by section 511(a)(1).

(d) The fact that any class of organizations exempt from taxation under section 501(a) is subject to the unrelated business income tax under section 511 and this section does not in any way enlarge the permissible scope of business activities of such class for purposes of the continued qualification of such class under section 501(a).

PAR. 3. Section 1.512(a) is amended by revising section 512(a) and by adding at the end thereof a historical note. These amended and added provisions read as follows:

§ 1.512(a) Statutory provisions; unrelated business taxable income; definition.

SEC. 512. *Unrelated business taxable income*—(a) *Definition.* For purposes of this title—

(1) *General rule.* Except as otherwise provided in this subsection, the term "unrelated business taxable income" means the gross income derived by any organization from any unrelated trade or business (as defined in section 513) regularly carried on by it, less the deductions allowed by this chapter which are directly connected with the carrying on of such trade or business, both computed with the modifications provided in subsection (b).

(2) *Special rule for foreign organizations.* In the case of an organization described in section 511 which is a foreign organization, the unrelated business taxable income shall be—

(A) Its unrelated business taxable income which is derived from sources within the United States and which is not effectively connected with the conduct of a trade or business within the United States, plus

(B) Its unrelated business taxable income which is effectively connected with the conduct of a trade or business within the United States.

. . . . . .

[Sec. 512(a) as amended by sec. 121(b)(2), Tax Reform Act 1969 (83 Stat. 537)]

PAR. 4. Section 1.512(a)-1 is amended by revising paragraph (a), by redesignating paragraph (f) as paragraph (g), and by adding a new paragraph (f). These amended and added provisions read as follows:

§ 1.512(a)-1 Definitions.

(a) *In general.* Except as otherwise provided in § 1.512(a)-3 or paragraph (f) of this section, section 512(a)(1) defines "unrelated business taxable income" as the gross income derived from any unrelated trade or business regularly carried on, less those deductions allowed by chapter 1 of the Code which are directly connected with the carrying on of such trade or business, subject to certain modifications referred to in § 1.512(b)-1. To be deductible in computing unrelated business taxable income, therefore, expenses, depreciation, and similar items not only must qualify as deductions allowed by chapter 1 of the Code, but also must be directly connected with the carrying on of unrelated trade or business. Except as provided in paragraph (d)(2) of this section, to be "directly connected with" the conduct of unrelated business, for purposes of section 512, an item of deduction must have proximate and primary relationship to the carrying on of that business. In the case of an organization which derives gross income from the regular conduct of two or more unrelated business activities, unrelated business taxable income is the aggregate of gross income from all such unrelated business activities less the aggregate of the deductions allowed with respect to all such unrelated business activities.

. . . . . .

(f) *Foreign organizations*—(1) *In general.* The unrelated business taxable income of a foreign organization exempt from taxation under section 501(a) consists of:

(i) The organization's unrelated business taxable income which is derived from sources within the United States but which is not effectively connected with the conduct of a trade or business within the United States, plus

(ii) The organization's unrelated business taxable income effectively connected with the conduct of a trade or business within the United States (whether or not such income is derived from sources within the United States).

To determine whether income realized by a foreign organization is derived from sources within the United States or is effectively connected with the conduct of a trade or business within the United States, see part 1 of subchapter N (section 861 and following) and the regulations thereunder.

(2) *Effective dates.* Subparagraph (1) of this paragraph applies to taxable years beginning after December 31, 1969. For taxable years beginning on or before December 31, 1969, the unrelated business taxable income of a foreign organization exempt from taxation under section 501(a) consists of the organization's unrelated business taxable income which—

(i) For taxable years beginning after December 31, 1966, is effectively connected with the conduct of a trade or business within the United States, whether or not such income is derived from sources within the United States;

(ii) For taxable years beginning on or before December 31, 1966, is derived from sources within the United States.

(g) *Effective date.* Paragraphs (a) through (e) of this section are applicable with respect to taxable years beginning after December 12, 1967. However, if a taxpayer wishes to rely on the rules stated therein for taxable years beginning before December 13, 1967, it may do so.

PAR. 5. Section 1.512(b) is amended by revising so much thereof that precedes paragraph (1), by revising section 512(b)(12), by adding at the end thereof new paragraphs (16) and (17), and by revising the historical note. These amended and added provisions read as follows:

§ 1.512(b) Statutory provisions; unrelated business taxable income; modifications.

SEC. 512. *Unrelated business taxable income.*

. . . . . .

(b) *Modifications.* The modifications referred to in subsection (a) are the following:

. . . . . .

(12) Except for purposes of computing the net operating loss under section 172 and paragraph (6), there shall be allowed a specific deduction of $1,000. In the case of a diocese, province of a religious order, or a convention or association of churches, there shall also be allowed, with respect to each parish, individual church, district, or other local unit, a specific deduction equal to the lower of—

(A) $1,000, or

(B) The gross income derived from any unrelated trade or business regularly carried on by such local unit.

. . . . . .

(16) Except as provided in paragraph (4), in the case of a church, or convention or association of churches, for taxable years beginning before January 1, 1970, there shall be excluded all gross income derived from a trade or business and all deductions directly connected with the carrying on of such trade or business if such trade or business was carried on by such organization or its predecessor before May 27, 1950.

(17) Except as provided in paragraph (4), in the case of a trade or business—

(A) Which consists of providing services under license issued by a Federal regulatory agency,

(B) Which is carried on by a religious order or by an educational institution (as defined in section 151(e)(4)) maintained by such religious order, and which was so carried on before May 27, 1950, and

(C) Less than 10 percent of the net income of which for each taxable year is used for activities which are not related to the purpose constituting the basis for the religious order's exemption,

there shall be excluded all gross income derived from such trade or business and all deductions directly connected with the carrying on of such trade or business, so long as it is established to the satisfaction of the Secretary or his delegate that the rates or other charges for such services are competitive with rates or other charges charged for similar services by persons not exempt from taxation.

[Sec. 512(b) as amended by Act of April 7, 1958 (Public Law 85-397, 72 Stat. 89); Act of July 17, 1964 (Public Law 88-360, 78 Stat. 333); sec. 121(b)(2), Tax Reform Act 1969 (83 Stat. 538)]

PAR. 6. Section 1.512(b)-1 is amended by revising so much thereof that precedes paragraph (a), by revising paragraph (h), and by adding at the end thereof new paragraphs (i) and (j). These amended and added provisions read as follows:

§ 1.512(b)-1 Modifications.

Whether a particular item of income falls within any of the modifications provided in section 512(b) shall be determined by all the facts and circumstances of each case. For example, if a payment

V 37 • 78 APR 21 72 XUM

termed "rent" by the parties is in fact a return of profits by a person operating the property for the benefit of the tax-exempt organization or is a share of the profits retained by such organization as a partner or joint venturer, such payment is not within the modification for rents. The modifications provided in section 512(b) are as follows:

. . . . . .

(h) *Specific deduction*—(1) *In general.* In computing unrelated business taxable income a specific deduction from gross income of $1,000 is allowed. However, for taxable years beginning after December 31, 1969, such specific deduction is not allowed in computing the net operating loss under section 172 and paragraph (6) of section 512(b).

(2) *Special rule for a diocese, province of a religious order, or a convention or association of churches.* (i) In the case of a diocese, province of a religious order, or a convention or association of churches, there shall be allowed with respect to each parish, individual church, district, or other local unit a specific deduction equal to the lower of $1,000 or the gross income derived from an unrelated trade or business regularly conducted by such local unit. However, a diocese, province of a religious order, or a convention or association of churches shall not be entitled to a specific deduction for a local unit which, for a taxable year, files a separate return. In the case of a local unit which, for a taxable year, files a separate return, such local unit may claim a specific deduction equal to the lower of $1,000 or the gross income derived from any unrelated trade or business which it regularly conducts.

(ii) The provisions of this subparagraph may be illustrated by the following example:

Example. X is an association of churches on the calendar year basis. X is divided into local units A, B, C, and D. During 1973, A, B, C, and D derive gross income of, respectively, $1,200, $800, $1,500, and $700 from unrelated businesses which they regularly conduct. Furthermore, for such taxable year, D files a separate return. X may claim a specific deduction of $1,000 with respect to A, $800 with respect to B, and $1,000 with respect to C. X may not claim a specific deduction with respect to D. D, however, may claim a specific deduction of $700 on its return.

(i) *Transitional period for churches.* (1) (i) In the case of an unrelated trade or business (as defined in section 513) carried on before May 27, 1969, by a church or convention or association of churches (as defined in § 1.511–2(a)(3)(ii)), or by the predecessor of a church or convention or association of churches which predecessor was itself a church or convention or association of churches, all gross income derived from such unrelated trade or business and all deductions directly connected with the carrying on of such unrelated trade or business shall be excluded from the determination of unrelated business taxable income under section 512(a) for all taxable years beginning before January 1, 1976. Notwithstanding the preceding sentence, in the case of income from debt-financed property (and the deductions attributable thereto), as defined in section 514, of a church or convention or association of churches or by the predecessor of a church or convention or association of churches, the provisions of paragraphs (a) through (e) of section 514 and paragraph (4) of section 512(b) shall apply for taxable years beginning after December 31, 1969.

(ii) The provisions of subdivision (i) may be illustrated by the following example:

Example. X, a church as defined in §1.511–2(a)(3)(ii), realizes gross income from an unrelated business (as defined in section 513) of $100,000 for calendar year 1972. X's predecessor church, Y, began conducting such unrelated business in January 1, 1968. Of the $100,000 realized for calendar year 1972, $40,000 is attributable to debt-financed property (as defined in section 514). Since the unrelated business was conducted by Y prior to May 27, 1969, and since X's taxable year begins before January 1, 1976, that amount of the income realized from such business (and all deductions directly connected therewith) which is not attributable to debt-financed property shall be excluded from the determination of unrelated business taxable income under section 512(a). Therefore, of the $100,000 realized, $60,000 ($100,000 less $40,000 attributable to debt-financed property), and all deductions directly connected therewith shall be excluded from the determination of such unrelated business taxable income for purposes of imposition of the tax under section 511(a). The remaining $40,000 and the deductions attributable thereto shall be subject to the provisions of paragraphs (a) through (e) of section 514 and paragraph (4) of section 512(b).

(2) This paragraph shall not apply in the case of income from property, or deductions directly connected with such income, if title to the property is held by a corporation described in section 501(c)(2) for a church or convention or association of churches. Thus, if such income is derived from an unrelated trade or business, the corporation shall be liable for tax imposed by section 511(a) on such income.

(j) *Special rule for certain unrelated trades or businesses carried on by a religious order or by an educational institution maintained by such order.* (1) Except as provided in subparagraph (2) of this paragraph, gross income realized by a religious order (or an educational institution (as defined in section 151(e)(4)) maintained by such order) from an unrelated trade or business, together with all deductions directly connected therewith, shall be excluded from the determination of unrelated business taxable income under section 512(a), if—

(i) The trade or business has been operated by such order or by such institution since before May 27, 1959,

(ii) The trade or business consists of providing services under a license issued by a Federal regulatory agency,

(iii) More than 90 percent of the net income from the business is, for each taxable year for which gross income from such business is so excluded by reason of section 512(b)(17) and this paragraph, devoted to religious, charitable, or educational purposes, and

(iv) It is established to the satisfaction of an officer no lower than the Regional Commissioner that the rates or other charges for such services are fully competitive with rates or other charges charged for such services by persons not exempt from taxation. Rates or other charges for such services shall be considered as fully competitive with rates or other charges charged for such services by persons not exempt from taxation if the rates charged by such unrelated trade or business are neither materially higher nor materially lower than the rates charged by similar businesses operating in the same general area.

(2) The provisions of this paragraph shall not apply with respect to income from debt-financed property (as defined in section 514) and the deductions attributable thereto. For taxable years beginning after December 31, 1969, such income and deductions are subject to the provisions of paragraphs (a) through (e) of section 514 and paragraph (4) of section 512(b).

PAR. 7. Section 1.1504 is amended by adding at the end thereof a new subsection (e) and by revising the historical note. These amended and added provisions read as follows:

§ 1.1504 Statutory provisions; definitions.

SEC. 1504. *Definitions.*

. . . . . .

(e) *Includible tax-exempt organizations.* Despite the provisions of paragraph (1) of subsection (b), two or more organizations exempt from taxation under section 501, one or more of which is described in section 501(c)(2) and the others of which derive income from such 501(c)(2) organizations, shall be considered as includible corporations for the purpose of the application of subsection (a) to such organizations alone.

[Sec. 1504 as amended by sec. 5, Act of Mar. 13, 1956 (Public Law 429, 84th Cong., 70 Stat. 49); sec. 64(d)(3), Technical Amendments Act 1958 (72 Stat. 1657); sec. 3(f)(1), Life Insurance Company Income Tax Act 1959 (73 Stat. 140); sec. 2(c), Act of Sept. 23, 1959 (Public Law 86–376, 73 Stat. 699); sec. 10(j), Act of Sept. 14, 1960 (Public Law 86–779, 74 Stat. 1009); sec. 121(a)(4), Tax Reform Act 1969 (83 Stat. 537)]

PAR. 8. There is inserted immediately after section 1.1502–80 the following new section:

§ 1.1502–100 Includible tax exempt organizations.

For taxable years beginning after December 31, 1969, two organizations exempt from taxation under section 501(a), one of which is described in section 501(c)(2) and the other of which derives income from such section 501(c)(2) organization, shall be considered as "includible corporations" for purposes of the application of subsection (a) of section 1504 to such organizations alone, despite the provisions of paragraph (1) of subsection (b) of section 1504. If such organizations satisfy the requirements of section 1504(a) (relating to the definition of an "affiliated group") and the other relevant provisions of chapter 6 of the Code, then such organizations may file a consolidated return.

PAR. 9. There are inserted immediately after § 1.6049–3 the following new sections:

§ 1.6050 Statutory provisions; returns relating to certain transfers to exempt organizations.

SEC. 6050. *Returns relating to certain transfers to exempt organizations*—(a) *General rule.* On or before the 90th day after the transfer of income producing property, the transferor shall make a return in compliance with the provisions of subsection (b) if the transferee is known by the transferor to be an organization referred to in section 511 (a) or (b) and the property (without regard to any lien) has a fair market value in excess of $50,000.

(b) *Form and contents of returns.* The return required by subsection (a) shall be in such form and shall set forth, in respect of the transfer, such information as the Secretary or his delegate prescribes by regulations as necessary for carrying out the provisions of the income tax laws.

[Sec. 6050 as added by sec. 121(e), Tax Reform Act 1969 (83 Stat. 548)]

§ 1.6050–1 Returns relating to certain transfers to exempt organizations.

(a) *Requirement of reporting.* Any person (individual, corporation, partnership, etc.) who, after December 31, 1969, sells, exchanges, gives, bequeaths, or otherwise transfers income producing property with a fair market value in excess of $50,000 (without regard to any lien thereon) to any organization or trust which is known by such person to be an organization or trust exempt from taxation by reason of section 501(a) (excluding organizations described in section 501(c)(1)), or to be an organization referred to in section 511(a)(2)(B), shall make a separate return on Form 4629 with respect to each such organization or trust. The return shall include the following information:

(1) Name, address, and identifying number (as defined in § 1.6109–1) of the transferor.

(2) Name and address of the transferee.

(3) Description of property transferred.

(4) Date of transfer of the property.

(5) Fair market value of the property (without regard to any lien thereon) on the date of transfer.

(6) Whether the property was transferred subject to a mortgage or other similar lien.

(7) Amount of a mortgage or other similar lien (if any) on the property immediately after the transfer.

(b) *Time and place for filing.* The return required by this section shall be filed on or before the later of [the 90th day after publication of final regulations under this section in the FEDERAL REGISTER] or the 90th day after the date of transfer of the property with the Mid-Atlantic Service Center, Philadelphia, Pa. For extensions of time for filing returns under this section, see § 1.6081–1.

(c) *Last day for filing return.* For provisions relating to the time for performance of an act when the last day prescribed for performance falls on Saturday, Sunday, or a legal holiday, see § 301.7503–1 of this chapter (Regulations on Procedure and Administration).

PAR. 10. There are inserted immediately after § 301.6049–1 the following new sections:

§ 301.6050 Statutory provisions; returns relating to certain transfers to exempt organizations.

SEC. 6050. *Returns relating to certain transfers to exempt organizations*—(a) *General rule.* On or before the 90th day after the transfer of income producing property, the transferor shall make a return in compliance with the provisions of subsection (b) if the transferee is known by the transferor to be an organization referred to in section 511 (a) or (b) and the property (without regard to any lien) has a fair market value in excess of $50,000.

(b) *Form and contents of returns.* The return required by subsection (a) shall be in such form and shall set forth, in respect of the transfer, such information as the Secretary or his delegate prescribes by regulations as necessary for carrying out the provisions of the income tax laws.

[Sec. 6050 as added by sec. 121(e), Tax Reform Act 1969 (83 Stat. 548)]

§ 301.6050–1 Returns relating to certain transfers to exempt organizations.

For provisions regarding the requirement of returns relating to certain transfers to exempt organizations, see § 1.6050–1 of this chapter (Income Tax Regulations).

[T.D. 7182]

PART 301—PROCEDURE AND ADMINISTRATION

Property Exempt From Levy

On September 25, 1971, notice of proposed rule making to conform the regulations on procedure and administration (26 CFR Part 301) under section 6334(a) of the Internal Revenue Code of 1954 (relating to property exempt from levy) to section 945 of the Tax Reform Act of 1969 (83 Stat. 729) was published in the FEDERAL REGISTER (36 F.R. 19035). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 14, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

In order to conform the regulations on Procedure and Administration (26 CFR Part 301) under section 6334(a) of the Internal Revenue Code of 1954 to section 945 of the Tax Reform Act of 1969 (83 Stat. 729), such regulations are amended as follows:

PARAGRAPH 1. Section 301.6334 is amended by adding new paragraph (8) to section 6334(a) and by revising the historical note to read as follows:

§ 301.6334 Statutory provisions; property exempt from levy.

SEC. 6334. *Property exempt from levy*—(a) *Enumeration.* . . .

(8) *Salary, wages, or other income.* If the taxpayer is required by judgment of a court of competent jurisdiction, entered prior to the date of levy, to contribute to the support of his minor children, so much of his salary, wages, or other income as is necessary to comply with such judgment.

. . . . . .

[Sec. 6334 as amended by section 406, Social Security Amendments 1958 (72 Stat. 1047); sec. 512, Excise Tax Reduction Act of 1965 (79 Stat. 170); sec. 104(c), Federal Tax Lien Act 1966 (80 Stat. 1137); sec. 945, Tax Reform Act 1969 (83 Stat. 729)]

PAR. 2. Section 301.6334–1(a) is amended by adding new subparagraph (8) which reads as follows:

§ 301.6334–1 Property exempt from levy.

(a) *Enumeration.* There shall be exempt from levy—

. . . . . .

(8) *Salary, wages, or other income.* If the taxpayer is required under any type of order or decree (including an interlocutory decree or a decree of support pendente lite) of a court of competent jurisdiction, entered prior to the date of levy, to contribute to the support of his minor children, so much of his salary, wages, or other income as is necessary to comply with such order or decree. The taxpayer must establish the amount necessary to comply with the order or decree. The district director is not required to release a levy until such time as he is satisfied that the amount to be released from levy will actually be applied in satisfaction of the support obligation. The district director may make arrangements with a delinquent taxpayer to establish a specific amount of such taxpayer's salary, wage, or other income for each pay period which shall be exempt from levy. Any request for such an arrangement shall be directed to the Chief, Special Procedures Staff, for the internal revenue district in which the taxpayer resides. Where the taxpayer has more than one source of income sufficient to satisfy the support obligation imposed by the order or decree, the amount exempt from levy may at the discretion of the district director be allocated entirely to one salary, wage, or source of other income or be apportioned between the several salaries, wages, or other sources of income. This subparagraph applies with respect to levies made on or after January 30, 1970.

. . . . . .

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 4—Department of Agriculture

PART 4–1—GENERAL

Procurement

This is to correct nomenclature as published at 37 F.R. 5384 March 15, 1972,

V 37 ■ 78
APR 21 72
XUM

to delete reference to Director of Management Improvement in the introductory language of § 4–1.453 and to reference source of Form AD–566 (2/72). Language changes are made for consistency with corrected nomenclature where necessary.

These amendments and corrections involve matters relating to agency management which are not subject to the notice and public procedure requirements for rule making under 5 U.S.C. 553. It is in the public interest that these provisions be made effective immediately; accordingly, they shall be effective upon publication in the FEDERAL REGISTER (4–21–72).

1. Section 4–1.453 is revised to read as follows:

§ 4–1.453 Delegation of authority for automatic data processing equipment, services, and related supplies.

(a) Those agencies delegated procurement contracting authority by the Office of Plant and Operations under § 4–1.404–1 are hereby delegated procurement contracting authority for procurement of automatic data processing equipment, services, and related supplies in the following circumstances:

(1) ADP equipment (for definition see FPMR 101–32.402–1).

(i) Such card punching, verifying, and manipulating equipment as is described as electronic accounting machines (EAM) or punch card accounting machines (PCAM) where the total dollar cost does not exceed $50,000 for purchase or annual rental.

(ii) Any other items of ADP equipment where the total dollar cost does not exceed $25,000 for purchase or annual rental: *Provided*, That no existing computer system is augmented under this delegation such that the purchase cost (cost to purchase if leased) of all the components of that system are made to exceed $200,000.

(iii) If for renewal of equipment previously authorized or procured by OMI and the terms of the original procurement have not significantly changed and the changes in costs do not exceed 10 percent of those originally approved.

(iv) None of the above-stated circumstances apply to the intergovernmental transfer (IGT) of owned or leased equipment. All IGT of equipment must be approved by OMI prior to acquisition.

(2) ADP equipment maintenance (for definition see FPMR 101–32.402–3).

(i) The services are available from a Federal Supply Schedule contract under the terms of the contract; or

(ii) The procurement does not exceed $25,000 annually.

(3) ADP Software (for definition see FPMR 101–32.402–2).

(i) The procurement will occur by placing a purchase/delivery order against an applicable Federal Supply contract under the terms of the contract; or

(ii) The total procurement for the specific software package does not exceed $7,500 annual lease cost, excluding maintenance, or $10,000 purchase cost.

(4) ADP services obtained from other than Federal agencies (for definition of service see 5 AR 865).

(i) The cost of the ADP services involved does not exceed $25,000.

(5) ADP supplies (for definition see FPMR 101–32.402–4).

(i) The cost of the supplies does not exceed $2,500; or

(ii) The procurement will be made under a specific purchase program established by GSA. These programs include electronic data processing (EDP) tapes, tabulating machine cards, and marginally punched continuous forms. Instructions for acquisition of these supplies are set forth in FPMR 101–26.508, 101–26.509, and 101–26.604, respectively.

(b) All procurements which are not within the authorities set forth in paragraph (a) of this section must be submitted to the Director of Management Improvement. The Office of Management Improvement will either conduct the procurement or delegate the agency authority to conduct the procurement.

(c) Agencies shall report all ADP services or products acquired within the authorities delegated under paragraphs (a) and (b) of this section. Form AD–566 (2/72), Contracts for ADP Services or Products, shall be completed and submitted to the Office of Management Improvement upon the execution of an applicable contract or purchase order. Form AD–566 is available from Central Supply Section, Service Operations Division, Office of Plant and Operations.

Done at Washington, D.C., this 17th day of April 1972.

FRANK B. ELLIOTT,
Assistant Secretary for Administration.

[FR Doc.72–6094 Filed 4–20–72;8:49 am]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 0—COMMISSION ORGANIZATION

Authority Delegation to Chief, Safety and Special Services Radio

Order. In the matter of amendment of § 0.331 of the Commission's rules relating to authority delegated to the Chief, Safety and Special Radio Services Bureau.

1. On May 12, 1971, the Commission adopted a report and order in Docket No. 18924 (62919, 36 F.R. 9514, FCC–71–510) to amend Parts 2, 87, and 91 of the Commission's rules to provide, among other things, that frequencies in the 216–220 MHz band, which are allocated to the Government Radiolocation Service, may also be assigned on a regular and secondary basis in the Industrial Radio Services (Part 91) for certain nonvoice land mobile radio operations. One effect of these amendments was to render unnecessary and inconsistent the provision in § 0.331(b)(20) of the Commission's rules under which the Chief, Safety and Special Radio Services Bureau, is delegated authority to act upon requests for waiver for grant of applications for the use of frequencies in the 216–220 MHz band. However, by inadvertence, this delegation of authority was not deleted in the Docket 18924 proceeding.

2. To avoid any confusion in this regard, an editorial amendment is required to delete subparagraph (20) of § 0.331(b) of the Commission's rules. Such rule amendment, being editorial and nonsubstantive in nature, may be adopted without regard to the prior notice and effective date provisions of 5 U.S.C. 533.

3. *Accordingly, it is ordered,* That, pursuant to authority contained in sections 4(i), 5(d) and 303(r) of the Communications Act of 1934, as amended, and § 0.231(d) of the Commission's rules, subparagraph (20) of § 0.331(b) is deleted effective April 21, 1972.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: April 12, 1972.

Released: April 13, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOHN M. TORBET,
Executive Director.

[FR Doc.72–6112 Filed 4–20–72;8:50 am]

PART 89—PUBLIC SAFETY RADIO SERVICES

PART 91—INDUSTRIAL RADIO SERVICES

Frequency Coordination Requirements

Order. In the matter of amendment of §§ 89.15 and 91.8 of the Commission's rules to effect certain editorial changes with respect to frequency coordination requirements.

1. In the Commission's rules, § 89.15 (b), for the Public Safety Radio Services, and § 91.8(a)(2), for the Industrial Radio Services, set forth procedures and requirements for coordination of frequencies below 470 MHz in connection with applications for licensing.

2. It is the intent of these rule provisions, among other things, that, in lieu of conducting field studies, applicants are permitted to achieve required frequency coordination through recommendations secured from frequency advisory committees. Thus, it is intended that committee clearances for frequencies may be obtained with respect to both cochannel and adjacent channel licensees. However, as a result of inadvertence in the numbering or lettering of certain of these rule provisions, this intent is not clear or is, at least, subject to misinterpretation.

3. To eliminate any confusion in this respect, it is necessary that an editorial amendment of the rules be adopted. The amendment being editorial and nonsubstantive in nature, may be adopted without regard to the prior notice and effective date provisions of 5 U.S.C. 533.

4. *Accordingly, it is ordered,* That, pursuant to authority contained in sections 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended, and § 0.231(d) of the Commission's rules, Parts 89 and 91 are amended effective April 21, 1972, as shown below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: April 12, 1972.

Released: April 13, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOHN M. TORBET,
Executive Director.

A. Part 89 of the Commission's rules is amended as follows:

Section 89.15(b) is amended to read as follows:

§ 89.15 Frequency coordination procedures.

* * * * *

(b) For frequencies below 470 MHz:

(1) A report based on a field study indicating the degree of probable interference to existing stations operating on the same channel within 75 miles of the proposed station and a signed statement that all existing cochannel licensees within 75 miles of the proposed station have been notified of applicant's intention to file his application, and a report based on a field study indicating the degree of probable interference to existing stations located 10 to 35 miles from the proposed station operating on a frequency within 15 kHz and a signed statement that the licensees of all such stations have been notified of applicant's intention to file his application. In no instance will an application be granted where the proposed station is located less than 10 miles from an adjacent-channel station 15 kHz removed, or

(2) A statement from a frequency advisory committee recommending the specified frequency which in the opinion of the committee will result in the least amount of interference to existing stations operating in the particular area. The committee's recommendations may appropriately include comments on technical factors such as power, antenna height and gain, terrain, and other factors which may serve to mitigate any contemplated interference. The committee shall not recommend any adjacent-channel frequency (15 kHz removed) to existing stations which would result in a separation of less than 10 miles. The frequency advisory committee must be so organized that it is representative of all persons who are eligible for radio facilities in the service concerned in the area the committee purports to serve. The functions of such committees are purely advisory in character, and their recommendations cannot be considered as binding upon either the applicant or the Commission, and must not contain statements which would imply that frequency advisory committees have any authority to grant or deny applications. Where the frequency or frequencies requested or assigned are within 15 kHz of a frequency which is available to another radio service and is assignable only after coordination, the committee's statement shall affirmatively show that coordination with a similar committee for the other service has been accomplished.

* * * * *

B. Part 91 of the Commission's rules is amended as follows:

Section 91.8(a)(2) is amended to read as follows:

§ 91.8 Policy governing the assignment of frequencies.

(a) * * *

(2) For frequencies below 470 MHz:

(i) A report based on a field study indicating the degree of probable interference to existing stations operating on the same channel within 75 miles of the proposed station and a signed statement that all existing co-channel licensees within 75 miles of the proposed station have been notified of applicant's intention to file his application, and a report based on a field study indicating the degree of probable interference to existing stations located 10 to 35 miles from the proposed station operating on a frequency within 15 kHz and a signed statement that the licensees of all such stations have been notified of applicant's intention to file his application. In no instance will an application be granted where the proposed station is located less than 10 miles from an adjacent-channel station 15 kHz removed, or

(ii) A statement from a frequency advisory committee recommending the specified frequency which in the opinion of the committee will result in the least amount of interference to existing stations operating in the particular area. The committee's recommendations may appropriately include comments on technical factors such as power, antenna height and gain, terrain, and other factors which may serve to mitigate any contemplated interference. The committee shall not recommend any adjacent-channel frequency (15 kHz removed) to existing stations which would result in a separation of less than 10 miles. The frequency advisory committee must be so organized that it is representative of all persons who are eligible for radio facilities in the service concerned in the area the committee purports to serve. The functions of such committees are purely advisory in character, and their recommendations cannot be considered as binding upon either the applicant or the Commission, and must not contain statements which would imply that frequency advisory committees have any authority to grant or deny applications. Where the frequency or frequencies requested or assigned are within 15 kHz of a frequency which is available to another radio service and is assignable only after coordination, the Commission's statement shall affirmatively show that coordination with a similar committee for the other service has been accomplished.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Services

[26 CFR Part 1]

INCOME TAX

Charitable Contributions Deduction for Annuity Trust Interests and Unitrust Interests

On April 2, 1971, notice of proposed rule making was published in the FEDERAL REGISTER to conform the Income Tax Regulations to section 201(a), relating to charitable contributions, and section 201(f), relating to bargain sales to a charitable organization, of the Tax Reform Act of 1969 (83 Stat. 549, 564). Notice is hereby given that so much of the proposed regulations as is contained in paragraph (c)(2) of § 1.170A-6, as set forth in paragraph 6 of the appendix to the notice of proposed rule making, is hereby withdrawn.

Further notice is hereby given that, in lieu of the proposed rules which are so withdrawn, the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 22, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 22, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

On April 2, 1971, notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 6082) regarding the amendment of the Income Tax Regulations (26 CFR Part 1) to conform such regulations to section 201(a), relating to charitable contributions, and section 201(f), relating to bargain sales to a charitable organization, of the Tax Reform Act of 1969 (83 Stat. 549, 564). So much of such proposed regulations as is contained in paragraph (c)(2) of § 1.170 A-6, relating to the definition of annuity trust interest and unitrust interest, as set forth in paragraph 6 of the appendix to the notice of proposed rule making, is hereby withdrawn. The following rules are hereby prescribed in lieu of the rules which are so withdrawn:

§ 1.170A-6 Charitable contributions in trust.

* * * * *

(c) *Charitable contribution of an income interest in trust.* * * *

(2) *Definitions.* For purposes of this paragraph—

(i) *Annuity trust interest.* (*a*) An income interest is an "annuity trust interest" only if it is an irrevocable right pursuant to the governing instrument to receive a guaranteed annuity. An annuity is an arrangement under which a determinable amount is paid periodically, but not less often than annually, for the life or lives of a named individual or individuals or for a specified term of years. An amount is determinable if the exact amount which must be paid under the conditions specified in the governing instrument can be ascertained on the date of contribution. For example, the amount to be paid may be a stated sum for a term, or for the life of an individual, at the expiration of which it may be changed by a specified amount, but it may not be redetermined by reference to a fluctuating index such as the cost of living index. In further illustration, the amount to be paid may be expressed as a fraction or percentage of the cost of living index on the date of contribution.

(*b*) An income interest is an annuity trust interest only if it is an annuity trust interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not an annuity trust interest.

(c) If the present value of the annuity on the date of contribution exceeds 60 percent of the aggregate fair market value of all amounts in the trust (after the payment of liabilities), the interest will not be considered an annuity trust interest unless the governing instrument of the trust prohibits both the acquisition and the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired such assets. The requirement in this (c) for a prohibition in the governing instrument against the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired the assets shall not apply to a trust executed on or before May 21, 1972.

(*d*) An annuity payable by a trust executed after May 21, 1972, will not be considered an annuity trust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (*d*), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the governing instrument of the trust may not provide that income of the trust in excess of the annuity shall be paid to a private party. See § 53.4947-1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*e*) The governing instrument of a trust paying an annuity trust interest may provide that income of the trust which is in excess of the amount required to pay the annuity trust interest shall be paid to or for the use of a charitable organization.

(ii) *Unitrust interest.* (*a*) An income interest is a "unitrust interest" only if it is an irrevocable right pursuant to the governing instrument to receive payment, not less often than annually, of a fixed percentage of the net fair market value of the trust assets, determined annually. In computing the fair market value of the trust assets, all assets and liabilities shall be taken into account without regard to whether particular items are taken into account in determining the income of the trust. The net fair market value of the trust assets may be determined on any one date during the year or by taking the average of valuations made on more than one date during the year: *Provided*, That the same valuation date or dates and valuation methods are used each year. Payments under a unitrust interest may be paid for a specified term of years or for the life or lives of a named individual or individuals.

(*b*) An income interest is a unitrust interest only if it is a unitrust interest in every respect. For example, if the income interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a unitrust interest.

(c) An income interest consisting of a fixed percentage of the net fair market value of trust assets, determined annually, will not be considered a unitrust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (c), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the governing instrument of the trust may not provide that income of the trust in excess of the fixed percentage of the net fair market value of the trust assets, determined annually, shall be paid to a private party. See § 53.4947-1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*d*) The governing instrument of a trust paying a unitrust interest may provide that income of the trust which is in excess of the amount required to pay the unitrust interest shall be paid to or for the use of a charitable organization.

* * * * *

INCOME TAX

[26 CFR Part 1]

Losses from Demolition of Buildings

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 22, 1972. Any written comments or suggestion not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 22, 1972. In such case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to clarify the income tax treatment of the demolition of buildings situated on leased property, paragraph (b)(2) of § 1.165-3 of the Income Tax Regulations (26 CFR Part 1) is amended to read as follows:

§ 1.165-3 Demolition of buildings.

* * * * *

(b) *Intent to demolish formed subsequent to the time of acquisition.* * * *

(2) If a lessor or lessee of real property demolishes the buildings situated thereon, as required or permitted by a lease or by an agreement which resulted in a lease, no deduction shall be allowed to the lessor under section 165(a) on account of the demolition of the old buildings. However, the adjusted basis of the demolished buildings, increased by the net cost of demolition or decreased by the net proceeds from demolition, shall be considered as a part of the cost of the lease to be amortized over the remaining term thereof.

ESTATE AND GIFT TAXES

Proposed Deduction for Transfers for Public, Charitable, and Religious Uses

Notice is hereby given that the regulations set forth in tentative form in the attached below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 22, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 22, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Estate Tax Regulations (26 CFR Part 20) and the Gift Tax Regulations (26 CFR Part 25) to the amendments of the Internal Revenue Code of 1954 made by section 201(d) of the Tax Reform Act of 1969 (83 Stat. 560), such regulations are amended as follows:

PART 20—ESTATE TAX; ESTATES OF DECEDENTS DYING AFTER AUGUST 16, 1954

PARAGRAPH 1. Section 20.2055 is amended by revising subsections (a)(2) and (3), (b)(2)(C), and (e) of section 2055, and by revising the historical note, as follows:

§ 20.2055 Statutory provisions; transfers for public, charitable, and religious uses.

Sec. 2055. *Transfers for public, charitable, and religious uses*—(a) *In general.* * * *

(2) To or for the use of any corporation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private stockholder or individual, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, and which does not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office;

(3) To a trustee or trustees, or a fraternal society, order, or association operating under the lodge system, but only if such contributions or gifts are to be used by such trustee or trustees, or by such fraternal society, order, or association, exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no substantial part of the activities of such trustee or trustees, or of such fraternal society, order, or association, is carrying on propaganda, or otherwise attempting, to influence legislation, and such trustee or trustees, or such fraternal society, order, or association, does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office; or

* * * * *

(b) *Powers of appointment.* * * *

(2) *Special rule for certain bequests subject to power of appointment.* * * *

(C) Such surviving spouse by affidavit executed within 6 months after the death of the decedent specifies the organizations described in subsection (a)(2) in favor of which he intends to exercise the power of appointment and indicates the amount or proportion each such organization is to receive; and

* * * * *

(e) *Disallowance of deductions in certain cases.* (1) No deduction shall be allowed under this section for a transfer to or for the use of an organization or trust described in section 508(d) or 4948(c)(4) subject to the conditions specified in such sections.

(2) Where an interest in property (other than a remainder interest in a personal residence or farm or an undivided portion of the decedent's entire interest in property) passes or has passed from the decedent to a person, or for a use, described in subsection (a), and an interest (other than an interest which is extinguished upon the decedent's death) in the same property passes or has passed (for less than an adequate and full consideration in money or money's worth) from the decedent to a person, or for a use,

V 37-78 APR 21 72 XUM

not described in subsection (a), no deduction shall be allowed under this section for the interest which passes or has passed to the person, or for the use, described in subsection (a) unless—

(A) In the case of a remainder interest, such interest is in a trust which is a charitable remainder annuity trust or a charitable remainder unitrust (described in section 664) or a pooled income fund (described in section 642 (c)(5)), or

(B) In the case of any other interest, such interest is in the form of a guaranteed annuity or is a fixed percentage distributed yearly of the fair market value of the property (to be determined yearly).

* * * * *

[Sec. 2055 as amended by sec. 1, Act of Aug. 6, 1956 (Public Law 1011, 84th Cong., 70 Stat. 1075); sec. 30(d), Technical Amendments Act 1958 (72 Stat. 1631); sec. 201(d) (1) and (4), Tax Reform Act 1969 (83 Stat. 560, 561); sec. 101(c), Excise, Estate, and Gift Tax Adjustment Act 1970 (84 Stat. 1836)]

PAR. 2. Section 20.2055–1 is amended by revising that part of paragraph (a) that follows subparagraph (1) and by adding a new paragraph (d), as follows:

§ 20.2055–1 Deduction for transfers for public, charitable, and religious uses; in general.

(a) *General rule.* * * *

(2) To or for the use of any corporation or association organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), if no part of the net earnings of the corporation or association inures to the benefit of any private stockholder or individual (other than as a legitimate object of such purposes), if no substantial part of its activities is carrying on propaganda, or otherwise attempting, to influence legislation, and if, in the case of transfers made after December 31, 1969, it does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office;

(3) To a trustee or trustees, or a fraternal society, order, or association operating under the lodge system, if the transferred property is to be used exclusively for religious, charitable, scientific, literary, or educational purposes (or for the prevention of cruelty to children or animals), if no substantial part of the activities of such transferee is carrying on propaganda, or otherwise attempting, to influence legislation, and if, in the case of transfers made after December 31, 1969, such transferee does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office; or

(4) To or for the use of any veterans' organization incorporated by act of Congress, or of any of its departments, local chapters, or posts, no part of the net earnings of which inures to the benefit of any private shareholder or individual.

The deduction is not limited, in the case of estates of citizens or residents of the United States, to transfers to domestic corporations or associations, or to trustees for use within the United States. Nor is the deduction subject to percentage limitations such as are applicable to the charitable deduction under the income tax. An organization will not be considered to meet the requirements of subparagraph (2) or (3) of this paragraph if such organization engages in any activity which would cause it to be classified as an "action" organization under paragraph (c)(3) of § 1.501(c)(3)–1 of this chapter (Income Tax Regulations). See §§ 20.2055–4 and 20.2055–5 for rules relating to the disallowance of deductions to trusts and organizations which engage in certain prohibited transactions or whose governing instruments do not contain certain specified requirements.

* * * * *

(d) *Cross references.* (1) See section 2055(f) for certain cross references relating to section 2055.

(2) For treatment of bequests accepted by the Secretary of State or the Secretary of Commerce, for the purpose of organizing and holding an international conference to negotiate a Patent Corporation Treaty, as bequests to or for the use of the United States, see section 3 of Joint Resolution of December 24, 1969 (Public Law 91–160, 83 Stat. 443).

(3) For treatment of bequests accepted by the Secretary of the Department of Housing and Urban Development, for the purpose of aiding or facilitating the work of the Department, as bequests to or for the use of the United States, see section 7(k) of the Department of Housing and Urban Development Act (42 U.S.C. 3535), as added by section 905 of Public Law 91–609 (84 Stat. 1809).

PAR. 3. Section 20.2055–2 is amended by revising paragraphs (a) and (b), and by adding new paragraphs (e) and (f), as follows:

§ 20.2055–2 Transfers not exclusively for charitable purposes.

(a) *Remainders and similar interests.* If a trust is created or property is transferred for both a charitable and a private purpose, deduction may be taken of the value of the charitable beneficial interest only insofar as that interest is presently ascertainable, and hence severable from the noncharitable interests. Thus, in the case of decedents dying before January 1, 1970, if money or property is placed in trust to pay the income to an individual during his life, or for a term of years, and then to pay the principal to a charitable organization, the present value of the remainder is deductible. See paragraph (e) of this section for limitations applicable to decedents dying after December 31, 1969. See paragraph (f) of this section for rules relating to valuation of partial interests in property passing for charitable purposes.

(b) *Transfers subject to a condition or a power.* (1) If, as of the date of a decedent's death, a transfer for charitable purposes is dependent upon the performance of some act or the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an estate or interest has passed to, or is vested in, charity at the time of a decedent's death and the estate or interest would be defeated by the subsequent performance of some act or the happening of some event, the possibility of occurrence of which appeared at the time of the decedent's death to be so remote as to be negligible, the deduction is allowable. If the legatee, devisee, donee, or trustee is empowered to divert the property or fund, in whole or in part, to a use or purpose which would have rendered it, to the extent that it is subject to such power, not deductible had it been directly so bequeathed, devised, or given by the decedent, the deduction will be limited to that portion, if any, of the property or fund which is exempt from an exercise of the power. If by reason of all the conditions and circumstances surrounding a transfer of an income interest in property in trust it appears that the charity may not receive the beneficial enjoyment of the interest, a deduction will be allowed under section 2055 only for the minimum amount it is evident the charity will receive.

(2) The application of this paragraph may be illustrated by the following examples:

Example (1). In 1965, A dies leaving certain property in trust in which charity is to receive the income for the life of his widow with remainder to his children. The assets placed in trust by the decedent consist of stock in a corporation the fiscal policies of which are controlled by the decedent and his family. The trustees of the trust and the remaindermen are members of the decedent's family, and the governing instrument contains no adequate guarantee of the requisite income to the charitable organization. Under such circumstances, no deduction will be allowed. Similarly, if the trustees are not members of the decedent's family but have no power to sell or otherwise dispose of the closely held stock, or otherwise insure the requisite enjoyment of income to the charitable organization, no deduction will be allowed.

Example (2). In 1975, B dies leaving $20,000 in trust with the requirement that a designated charity be paid an annuity trust interest (as defined in paragraph (e)(2)(v) of this section) of $4,100 a year, payable annually at the end of each year for a period of 5 years and that the remainder be paid to his children. The fair market value of an annuity of $4,100 a year for a period of 6 years is $20,160.93 ($4,100×4.9173), as determined under paragraph (f)(2)(iv) of this section and Table B in paragraph (f) of § 20.2031–10. The deduction with respect to the annuity trust interest will be limited to $20,000, which is the minimum amount it is evident the charity will receive.

Example (3). C dies leaving a tract of land to a city government for as long as the land is used by the city for a public park. If on the date of C's death the city does plan to use the land for a park and the possibility that the city will not use the land for a public park is so remote as to be negligible, a deduction will be allowed.

* * * * *

(e) *Limitation applicable to decedents dying after December 31, 1969*—(1) *In general*—(i) *Disallowance of deduction.* In general, in the case of decedents dying after December 31, 1969, where an interest in property passes or has passed from the decedent for charitable purposes and an interest (other than an interest which is extinguished upon the decedent's death) in the same property passes or has passed from the decedent for private purposes (for less than full and adequate consideration in money or money's worth), no deduction is allowed under section 2055 for the value of the interest which passes or has passed for charitable purposes unless the interest in property is a deductible interest described in subparagraph (2) of this paragraph. Where an interest in property passes from the decedent for a charitable purpose and an interest in the same property passes for a private purpose, it is immaterial whether the interests pass at the same time or under the same instrument. If, as of the date of a decedent's death, a transfer for a private purpose is dependent upon the performance of some act or the happening of an event in order that it might become effective, an interest in property will be considered to pass for a private purpose unless the possibility of occurrence of such act or event is so remote as to be negligible. An interest in property will not be considered as passing for private purposes or in trust merely by reason of the fact that an interest in that property does not pass to charity until the end of a reasonable period of administration or settlement within the meaning of § 1.641(b)–3 of this chapter (Income Tax Regulations) or by reason of the fact that an interest in that property is enjoyed by a private person during such period of administration or settlement. The application of this subdivision may be illustrated by the following examples, in each of which it is assumed that the property interest which passes for private purposes does not pass for an adequate and full consideration in money or money's worth:

Example (1). In 1968, H creates a trust which is to pay the income of the trust to W for her life, the reversionary interest in the trust being retained by H. H predeceases W in 1975. H's will provides that the residue of his estate (including the reversionary interest in the trust) is to be transferred to charity. For purposes of this subdivision, interests in the same property have passed from H for charitable purposes and for private purposes.

Example (2). In 1973, H creates a trust which is to pay the income of the trust to W for her life and upon termination of the life estate to transfer the remainder to S. S predeceases W in 1975. S's will provides that the residue of his estate (including the remainder interest in the trust) is to be transferred to charity. For purposes of this subdivision, interests in the same property have not passed from H or S for charitable purposes and for private purposes.

Example (3). In 1973, A dies leaving a $10,000 bequest to charity. His will provides that all income earned during the period of administration of his estate by property constituting a part of his estate shall be paid to his widow. The administration of A's estate requires 3 years, but under the circumstances this period is not considered unduly prolonged for purposes of the income tax. Upon termination of this period, A's executor transfers $10,000 in cash to the charity. For purposes of this section, no interest in the $10,000 bequest will be deemed to pass for a private purpose, or will be deemed to pass in trust, merely because of the extended period of administration or because A's widow enjoyed an interest in the property during the period of administration.

(ii) *Interest in property.* In determining whether interests in the same property pass or have passed for charitable and private purposes, a distinction is to be drawn between "property," as such term is used in this paragraph, and an "interest in property." The term "property" refers to the underlying property in which various interests exist; each such interest is not for this purpose to be considered as "property." The term "interest in property" means any beneficial interest, whether vested or contingent, in property, whether tangible or intangible. For such purpose, an interest in property may consist of a life estate, a term of years, a right to use, a remainder, a reversion, a general power of appointment, a power of invasion or consumption, or a dower or curtesy interest. The term does not include a security interest or bare legal title, such as that of a trustee, or a power of appointment which is not a general power of appointment. The term includes the interest of any possible appointees under, and possible takers in default of, a power of appointment which is not a general power of appointment. Where the possible appointees under, and possible takers in default of, a power of appointment which is not a general power of appointment consist of both a charity or charities and a private person or persons, the interest will be deemed to pass solely for private purposes. See section 2041(b) and the regulations thereunder for definition of the term "general power of appointment." The application of this subdivision may be illustrated by the following examples, in each of which it is assumed that the interest in property which passes for private purposes does not pass for an adequate and full consideration in money or money's worth:

Example (1). H transfers Blackacre to A by gift, reserving the right to the rentals of Blackacre for a term of 20 years. H dies within the 20-year term, bequeathing the right to the remaining rentals to charity. For purposes of this paragraph the term "property" refers to Blackacre and the right to rentals from Blackacre consist of an interest in Blackacre. An interest in Blackacre has passed from H for charitable purposes and for private purposes.

Example (2). H bequeaths the residue of his estate to T in trust for the benefit of W and a charity. The trust income is to be paid to W for life and upon her death the corpus is to be distributed to charity. Since no beneficial interest in the property passes to T, no interest in property passes or has passed to T for purposes of this paragraph. However, an interest in the residue of the estate has passed from H for charitable purposes and for private purposes.

Example (3). H bequeaths the residue of his estate in trust for the benefit of A and a charity. An annuity trust interest (as defined in subparagraph (2)(v) of this paragraph) of $5,000 a year is to be paid to charity for 20 years. Upon termination of the 20-year term the corpus is to be distributed to A if living. However, if A should die during the 20-year term, the corpus is to be distributed to charity upon termination of the term. An interest in the residue of the estate has passed from H for charitable purposes. In addition, an interest in the residue of the State has passed from H for private purposes, unless the possibility that A will survive the 20-year term is so remote as to be negligible.

Example (4). H bequeaths the residue of his estate in trust. Under the terms of the trust an annuity trust interest (as defined in subparagraph (2)(v) of this paragraph) of $5,000 a year is to be paid to charity for 20 years. Upon termination of the term, the corpus is to pass to such of A's children and their issue as A may appoint. However, if A should die during the 20-year term without exercising the power of appointment, the corpus is to be distributed to charity upon termination of the term. Since A does not have a general power of appointment, no interest in property has passed from H to A. However, since the possible appointees include private persons, an interest in the residue of the estate is considered to have passed from H for private purposes.

(iii) *Passes or has passed from the decedent.* Notwithstanding the designation by local law of the capacity in which a person takes, the phrase "passes or has passed from the decedent" includes any transfer, or any passing directly or indirectly, of property or any interest in property from the decedent. Thus, an interest in property passes or has passed from the decedent for purposes of this subdivision in any case in which property would be held to have been transferred from the decedent for purposes of the estate tax or to be a gift by the decedent for purposes of the gift tax. The phrase "passes or has passed" also includes a transfer or passing of property, or any interest in property which is not considered a gift by a decedent for purposes of the gift tax or a transfer from a decedent for purposes of the estate tax. For example, an interest in property passes or has passed for purposes of this paragraph if such interest passes by reason of the decedent's nonexercise of a general power of appointment (as defined in section 2041(b) and the regulations thereunder) created on or before October 21, 1942. If property or an interest in property passes or has passed from the decedent to any person subject to an obligation that any interest, vested or contingent, be transferred to another person, an interest in property will be considered to pass from the decedent to such other person.

(2) *Deductible interests.* A deductible interest for purposes of subparagraph (1) of this paragraph is a charitable interest in property where—

(i) *Undivided portion of decedent's entire interest.* The charitable interest is an undivided portion, not in trust, of the decedent's entire interest in property. An undivided portion of a decedent's entire interest in property may consist of a fraction or percentage of each interest or right owned by the decedent in such property or may consist of all or a fraction or a percentage of a specific right or interest in such property. An interest in property will not, however, be considered

V 37-78
APR 21 72
XUM

a decedent's entire interest in property for this purpose unless it extends over the entire term of the decedent's interest in such property and in other property into which such property is converted. For example, if the decedent transferred a life estate in an office building to his wife for her life and retained a reversionary interest in the office building, the devise by the decedent of one-half of that reversionary interest to charity while his wife is still alive will not be considered the transfer of a deductible interest; because an interest in the same property has already passed from the decedent for private purposes, the reversionary interest will not be considered the decedent's entire interest in the property. If, on the other hand, the decedent has given a life estate in Blackacre for the life of his wife and the decedent had no other interest in Blackacre at any time during his life, the devise by the decedent of one-half of that life estate to charity would be considered the transfer of a deductible interest; because the life estate would be considered the decedent's entire interest in the property, the devise would be of an undivided interest in such entire interest. An undivided portion of a decedent's entire interest in the property includes an interest in property whereby the charity is given the right, as a tenant in common with the decedent's devisee or legatee, to possession, dominion, and control of the property for a portion of each year appropriate to its interest in such property; it also includes an open space easement in gross in perpetuity, as defined in § 1.170A-7(b)(1)(ii) of this chapter (Income Tax Regulations).

(ii) *Remainder interest in personal residence.* The charitable interest is an irrevocable remainder interest, not in trust, in a personal residence. For purposes of this subdivision, the term "personal residence" means property used by the decedent as his personal residence even though it was not used as his principal residence. For example, a decedent's vacation home at a resort which he occupied for 2 months each year may be a personal residence for purposes of this subdivision. The term "personal residence" also includes stock owned by the decedent as a tenant-stockholder in a cooperative housing corporation (as those terms are defined in section 216(b)(1) and (2) if the dwelling which the decedent was entitled to occupy as such stockholder was used by him as his personal residence.

(iii) *Remainder interest in a farm.* The charitable interest is an irrevocable remainder interest, not in trust, in a farm. For purposes of this subdivision, the term "farm" means any land used by the decedent or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. The term "livestock" includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. A farm includes the improvements thereon.

(iv) *Charitable remainder trusts and pooled income funds.* The charitable interest is a remainder interest in a trust which is a charitable remainder annuity trust, as defined in section 664(d)(1) and § 1.664-2 of this chapter; a charitable remainder unitrust, as defined in section 664(d)(2) and § 1.664-3 of this chapter; or a pooled income fund, as defined in section 642(c)(5) and § 1.642(c)-5 of this chapter. The charitable organization to or for the use of which the remainder interest passes must meet the requirements of both section 2055(a) and section 642(c)(5)(A), section 664(d)(1)(C), or section 664(d)(2)(C), whichever applies. For example, the charitable organization to which the remainder interest in a charitable remainder annuity trust passes may not be a foreign corporation.

(v) *Annuity trust interest.* (*a*) The charitable interest is an annuity trust interest, whether or not such interest is in trust. For purposes of this subdivision, the term "annuity trust interest" means an irrevocable right pursuant to the instrument of transfer to receive a guaranteed annuity. An annuity is an arrangement under which a determinable amount is paid periodically, but not less often than annually, for the life or lives of a named individual or individuals or for a specified term of years. An amount is determinable if the exact amount which must be paid under the conditions specified in the instrument of transfer can be ascertained on the date of death of the decedent. For example, the amount to be paid may be a stated sum for a term, or for the life of an individual, at the expiration of which it may be changed by a specified amount, but it may not be redetermined by reference to a fluctuating index such as the cost of living index. In further illustration, the amount to be paid may be expressed as a fraction or a percentage of the net fair market value, as finally determined for Federal estate tax purposes, of the residue of the estate on the date of death, or it may be expressed as a fraction or percentage of the cost of living index on the date of death of the decedent.

(*b*) A charitable interest is an annuity trust interest only if it is an annuity trust interest in every respect. For example, if the charitable interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not an annuity trust interest.

(*c*) Where a charitable interest in the form of an annuity is not in trust, the interest will be considered an annuity trust interest only if it is to be paid by an insurance company or by an organization regularly engaged in issuing annuity contracts.

(*d*) Where a charitable interest in the form of an annuity is in trust, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay an annuity trust interest shall be paid to or for the use of a charity. Nevertheless, the amount of the deduction under section 2055 shall be limited to the fair market value of the annuity trust interest.

(*e*) Where a charitable interest in the form of an annuity is in trust and the present value on the appropriate valuation date of such annuity interest exceeds 60 percent of the aggregate fair market value of all amounts in such trust (after the payment of estate taxes and all other liabilities), the interest will not be considered an annuity trust interest unless the governing instrument of the trust prohibits both the acquisition and the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired such assets.

(*f*) Where a charitable interest in the form of an annuity is in trust, the interest will not be considered an annuity trust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (*f*), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the trust instrument may not provide that income of the trust in excess of the annuity shall be paid to a private party. See § 53.4947-1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*g*) Neither the requirement in item (*e*) of this subdivision for a prohibition in the governing instrument against the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired the assets nor the provisions of item (*f*) of this subdivision shall apply to—

(*1*) A trust executed on or before May 21, 1972, if—

(*i*) The trust is irrevocable on such date,

(*ii*) The trust is revocable on such date and the decedent dies within 3 years after such date without having amended any dispositive provision of the trust after such date, or

(*iii*) The trust is revocable on such date and no dispositive provision of the trust is amended within a period ending 3 years after such date and the decedent is, at the end of such 3-year period and at all times thereafter, under a mental disability (as defined in § 1.642(c)-2(b)(2)(ii) of this chapter) to amend the trust, or

(*2*) A will executed on or before May 21, 1972, if—

(*i*) The testator dies within 3 years after such date without having amended any dispositive provision of the will after such date, by codicil or otherwise,

(*ii*) The testator at no time after such date has the right to change the provisions of the will which pertain to the trust, or

(*iii*) No dispositive provision of the will is amended by the decedent, by codicil or otherwise, within a period ending 3 years after such date and the decedent is, at the end of such 3-year period and at all times thereafter, under a mental disability (as defined in § 1.642(c)-2(b)(2)(ii) of this chapter) to amend the will by codicil or otherwise.

(*h*) For purposes of this subdivision and paragraph (*f*) of this section, the term "appropriate valuation date" means the date of death or the alternate valuation date determined pursuant to an election under section 2032.

(*i*) See section 4947(a)(2) and (b)(3)(A) for rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the annuity trust interest is in trust.

(vi) *Unitrust interest.* (*a*) The charitable interest is a unitrust interest, whether or not such interest is in trust. For purposes of this subdivision, the term "unitrust interest" means an irrevocable right pursuant to the instrument of transfer to receive payment, not less often than annually, of a fixed percentage of the net fair market value, determined annually, of the property which funds the unitrust interest. In computing the fair market value of the property which funds the unitrust interest, all assets and liabilities shall be taken into account without regard to whether particular items are taken into account in determining the income from the property. The net fair market value of the property which funds the unitrust interest may be determined on any one date during the year or by taking the average of valuations made on more than one date during the year: *Provided*, That the same valuation date or dates and valuation methods are used each year. Payments under a unitrust interest may be paid for a specified term of years or for the life or lives of a named individual or individuals.

(*b*) A charitable interest is a unitrust interest only if it is a unitrust interest in every respect. For example, if the charitable interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a unitrust interest.

(*c*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is not in trust, the interest will be considered a unitrust interest only if it is to be paid by an insurance company or by an organization regularly engaged in issuing interests otherwise meeting the requirements of a unitrust interest.

(*d*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is in trust, the interest will not be considered a unitrust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (*d*), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the trust instrument may not provide that income of the trust in excess of the fixed percentage of the net fair market value of the trust assets, determined annually, shall be paid to a private party. See § 53.4947-1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*e*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is in trust, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the unitrust interest shall be paid to or for the use of a charity. Nevertheless, the amount of the deduction under section 2055 shall be limited to the fair market value of the unitrust interest.

(*f*) See section 4947(a)(2) and (b)(3)(A) for rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the unitrust interest is in trust.

(3) *Effective date.* The provisions of this paragraph apply only in the case of decedents dying after December 31, 1969, except that they do not apply—

(i) In the case of property passing under the terms of a will executed on or before October 9, 1969—

(*a*) If the decedent dies after October 9, 1969, but before October 9, 1972, without having amended any dispositive provision of the will after October 9, 1969, by codicil or otherwise,

(*b*) If the decedent dies after October 9, 1969, and at no time after that date had the right to change the portions of the will which pertain to the passing of the property to, or for the use of, an organization described in section 2055(a), or

(*c*) If no dispositive provision of the will is amended by the decedent, by codicil or otherwise, before October 9, 1972, and the decedent is on October 9, 1972, and at all times thereafter under a mental disability (as defined in § 1.642(c)-2(b)(2)(ii) of this chapter (Income Tax Regulations)) to amend the will by codicil or otherwise, or

(ii) In the case of property transferred in trust on or before October 9, 1969—

(*a*) If the decedent dies after October 9, 1969, but before October 9, 1972, without having amended, after October 9, 1969, any dispositive provision of the instrument governing the disposition of the property,

(*b*) If the property transferred was an irrevocable interest to, or for the use of, an organization described in section 2055(a), or

(*c*) If no dispositive provision of the instrument governing the disposition of the property is amended by the decedent before October 9, 1972, and the decedent is on October 9, 1972, and at all times thereafter under a mental disability (as defined in § 1.642(c)-2(b)(2)(ii) of this chapter) to change the disposition of the property.

(4) *Amendment of dispositive provisions.* For purposes of subparagraphs (2) and (3) of this paragraph, an amendment shall generally be considered as one which amends the dispositive provisions of a will or trust if it results in a change in the persons to whom the funds are to be given or makes changes in the conditions under which the funds are given. Examples of amendments which do not amend the dispositive provisions of a will or trust include the substitution of one fiduciary for another to act in the capacity of executor or trustee and the change in the name of a legatee or beneficiary by reason of the legatee's or beneficiary's marriage. On the other hand, examples of amendments which do amend the dispositive provisions of a will or trust include an increase in the share of other legatees or beneficiaries by reason of the lapse of a legacy or interest, a change in the power of a trustee to determine the allocation of income or corpus among the beneficiaries which has the effect of changing a recipient's share of the funds, or a change in the allocation of (or right to allocate) receipts or expenditures between income and principal which has the effect of changing a recipient's share of the funds.

(f) *Valuation of charitable interest*—(1) *In general.* The amount of the deduction in the case of a contribution of a partial interest in property to which this section applies is the fair market value of the partial interest at the appropriate valuation date, as defined in paragraph (e)(2)(v)(*h*) of this section. The fair market value of an annuity, life estate, term for years, remainder, reversion, and unitrust interest is its present value.

(2) *Certain decedents dying after July 31, 1969.* In the case of a transfer of an interest described in subdivision (iv), (v), or (vi) of paragraph (e)(2) of this section by decedents dying after July 31, 1969, the present value of such interest is to be determined under the following rules:

(i) The present value of a remainder interest in a charitable remainder annuity trust is to be determined under § 1.664-2(c) of this chapter (Income Tax Regulations).

(ii) The present value of a remainder interest in a charitable remainder unitrust is to be determined under § 1.664-4 of this chapter.

(iii) The present value of a remainder interest in a pooled income fund is to be determined under § 1.642(c)-6 of this chapter.

(iv) The present value of an annuity trust interest described in paragraph (e)(2)(v) of this section is to be determined under § 20.2031-10 except that, if the annuity is issued by a company regularly engaged in the sale of annuities, the present value is to be determined under § 20.2031-8.

(v) The present value of a unitrust interest described in paragraph (e)(2)(vi)

V 37 178 APR 21 72 XUM

of this section is to be determined by subtracting the present value of all interests in the transferred property that follow the unitrust interest from the fair market value of the transferred property. For such purposes the present value of all interests that follow the unitrust interest shall be determined under § 1.664–4 by treating such interests as a remainder interest in a charitable remainder unitrust.

(3) *Certain decedents dying before August 1, 1969.* In the case of decedents dying before August 1, 1969, the present value of an interest described in subparagraph (2) of this paragraph is to be determined under § 20.2031–7 except that, if the interest is an annuity issued by a company regularly engaged in the sale of annuities, the present value is to be determined under § 20.2031–8.

(4) *Other decedents.* The present value of an interest not described in subparagraph (2) of this paragraph is to be determined under § 20.2031–7 in the case of decedents dying before January 1, 1971, or under § 20.2031–10 in the case of decedents dying after December 31, 1970.

(5) *Special computations.* If the interest transferred is such that its present value is to be determined by a special computation, a request for a special factor, accompanied by a statement of the date of birth and sex of each individual the duration of whose life may affect the value of the interest, and by copies of the relevant instruments, may be submitted by the executor to the Commissioner who may, if conditions permit, supply the factor requested. If the Commissioner furnishes the factor, a copy of the letter supplying the factor must be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the claim for deduction must be supported by a full statement of the computation of the present value made in accordance with the principles set forth in this paragraph.

PAR. 4. Section 20.2055–4 is amended by revising the heading thereof and by adding a new paragraph (d), as follows:

§ 20.2055–4 Disallowance of charitable, etc., deductions because of "prohibited transactions" in the case of decedents dying before January 1, 1970.

• • • • •

(d) This section applies only in the case of decedents dying before January 1, 1970. In the case of decedents dying after December 31, 1969, see § 20.2055–5.

PAR. 5. The following new section is added immediately after § 20.2055–4:

§ 20.2055–5 Disallowance of charitable, etc., deductions in the case of decedents dying after December 31, 1969.

(a) *Organizations subject to section 507(c) tax.* Section 508(d)(1) provides that, in the case of decedents dying after December 31, 1969, a deduction which would otherwise be allowable under section 2055 for the value of property transferred by the decedent to or for the use of an organization upon which the tax provided by section 507(c) has been imposed shall not be allowed if the transfer is made by the decedent after notification is made under section 507(a) or if the decedent is a substantial contributor (as defined in section 507(d)(2)) who dies on or after the first day on which action is taken by such organization that culminates in the imposition of the tax under section 507(c). This paragraph does not apply if the entire amount of the unpaid portion of the tax imposed by section 507(c) is abated under section 507(g) by the Commissioner or his delegate.

(b) *Taxable private foundations, section 4947 trusts, etc.*—(1) *In general.* Section 508(d)(2) provides that, in the case of decedents dying after December 31, 1969, a deduction which would otherwise be allowable under section 2055 for the value of property transferred by the decedent shall not be allowed if the transfer is made—

(i) To or for the use of a private foundation or a trust described in section 4947 if such organization fails to meet the governing instrument requirements of section 508(e) (determined without regard to section 508(e)(2)(B) and (C)) in accordance with § 1.508–2(b)(1) of this chapter (Income Tax Regulations), or

(ii) To or for the use of any organization (other than a charitable trust described in section 4947(a)(1)) which is not treated as an organization described in section 501(c)(3) on the date of the decedent's death by reason of its failure to give notification under section 508(a) of its status to the Commissioner.

(2) *Transfers not covered by section 508(d)(2)(A)*—(i) *In general.* Any deduction which would otherwise be allowable under section 2055 for the value of property transferred by a decedent dying after December 31, 1969, will not be disallowed under section 508(d)(2)(A) and subparagraph (1)(i) of this paragraph—

(*a*) In the case of property passing under the terms of a will executed on or before October 9, 1969—

(*1*) If the decedent dies after October 9, 1969, but before October 9, 1972, without having amended any dispositive provision of the will after October 9, 1969, by codicil or otherwise,

(*2*) If the decedent dies after October 9, 1969, and at no time after that date had the right to change the portions of the will which pertain to the passing of the property to, or for the use of, an organization described in section 2055(a), or

(*3*) If no dispositive provision of the will is amended by the decedent, by codicil or otherwise, before October 9, 1972, and the decedent is on October 9, 1972, and at all times thereafter under a mental disability (as defined in § 1.642(c)–2(b)(2)(ii) of this chapter (Income Tax Regulations)) to amend the will by codicil or otherwise, or

(*b*) In the case of property transferred in trust on or before October 9, 1969—

(*1*) If the decedent dies after October 9, 1969, but before October 9, 1972, without having amended, after October 9, 1969, any dispositive provision of the instrument governing the disposition of the property.

(*2*) If the property transferred was an irrevocable interest to, or for the use of, an organization described in section 2055(a), or

(*3*) If no dispositive provision of the instrument governing the disposition of the property is amended by the decedent before October 9, 1972, and the decedent is on October 9, 1972, and at all times thereafter under a mental disability (as defined in § 1.642(c)–2(b)(2)(ii) of this chapter) to change the disposition of the property.

(ii) *Amendment of dispositive provisions.* For purposes of subdivision (i) of this subparagraph, the provisions of paragraph (e)(4) of § 20.2055–2 shall apply in determining whether an amendment will be considered as one which amends the dispositive provisions of a will or trust.

(c) *Foreign organization with substantial support from foreign sources.* Section 4948(c)(4) provides that, in the case of decedents dying after December 31, 1969, a deduction which would otherwise be allowable under section 2055 for the value of property transferred by the decedent to or for the use of a foreign organization which has received substantially all of its support (other than gross investment income) from sources without the United States shall not be allowed if the transfer is made (1) after the date on which the Commissioner has published notice that he has notified such organization that it has engaged in a prohibited transaction, or (2) in a taxable year of such organization for which it is not exempt from taxation under section 501(a) because it has engaged in a prohibited transaction after December 31, 1969.

PAR. 6. Section 20.2106 is amended by revising section 2106(a)(2)(A) (ii) and (iii), (E), (3), and the historical note, as follows:

§ 20.2106 Statutory provisions; taxable estate.

SEC. 2106. *Taxable estates*—(a) *Definition of taxable estate.* • • •

(2) *Transfers for public, charitable, and religious uses*—(A) *In general.* • • •

(ii) To or for the use of any domestic corporation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private stockholder or individual, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, and which does not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of any candidate for public office; or

(iii) To a trustee or trustees, or a fraternal society, order, or association operating under the lodge system, but only if such contributions or gifts are to be used within the United States by such trustee or trustees, or by such fraternal society, order, or association, exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no substantial part of the activities of such trustee or trustees, or of such fraternal society, order, or association, is carrying on propaganda, or otherwise attempting, to influence legislation, and such trustee or trustees, or such fraternal society, order, or association, does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

• • • • •

(E) *Disallowance of deductions in certain cases.* The provisions of section 2055(e) shall be applied in the determination of the amount allowable as a deduction under this paragraph.

• • • • •

(3) *Exemption*—(A) *General rule.* An exemption of $30,000.

(B) *Residents of possessions of the United States.* In the case of a decedent who is considered to be a "nonresident not a citizen of the United States" under the provisions of section 2209, the exemption shall be the greater of (i) $30,000, or (ii) that proportion of the exemption authorized by section 2052 which the value of that part of the decedent's gross estate which at the time of his death is situated in the United States bears to the value of his entire gross estate wherever situated.

• • • • •

[Sec. 2106 as amended by sec. 30(d), Technical Amendments Act 1958 (72 Stat. 1631); sec. 4(c), Act of Sept. 14, 1960 (Public Law 86–779, 74 Stat. 1000); sec. 108(e), Foreign Investors Tax Act 1966 (80 Stat. 1572); sec. 201(d)(2) and (4), Tax Reform Act 1969 (83 Stat. 561)]

PAR. 7. Section 20.2106–1 is amended by revising paragraph (a)(2) to read as follows:

§ 20.2106–1 Estate of nonresidents not citizens; taxable estate; deductions in general.

(a) • • •

(2) A deduction computed in the same manner as the one allowed under section 2055 (see §§ 20.2055–1 through 20.2055–5) for charitable, etc., transfers, except—

(i) That the deduction is allowed only for transfers to corporations and associations created or organized in the United States, and to trustees for use within the United States, and

(ii) That the provisions contained in paragraph (c)(2) of § 20.2055–2 relating to termination of a power to consume are not applicable.

• • • • •

PART 25—GIFT TAX; GIFTS MADE AFTER DECEMBER 31, 1954

PAR. 8. Section 25.2522(a) is amended by revising that part of section 2522(a) that precedes paragraph (1) thereof, by revising section 2522(a)(2), and by adding an historical note, as follows:

§ 25.2522(a) Statutory provisions; charitable and similar gifts; citizens or residents.

SEC. 2522. *Charitable and similar gifts*—(a) *Citizens or residents.* In computing taxable gifts for the calendar quarter, there shall be allowed as a deduction in the case of a citizen or resident the amount of all gifts made during such quarter to or for the use of—

• • • • •

(2) A corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, and which does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office;

• • • • •

[Sec. 2522(a) as amended by sec. 201(d)(4), Tax Reform Act 1969 (83 Stat. 562); sec. 102(c)(2), Excise, Estate, and Gift Tax Adjustment Act 1970 (84 Stat. 1841)]

PAR. 9. Section 25.2522(a)–1 is amended by revising paragraph (a)(2), by revising that part of paragraph (a) that follows subparagraph (4), and by revising paragraph (b), as follows:

§ 25.2522(a)–1 Charitable and similar gifts; citizens or residents.

(a) • • •

(2) Any corporation, trust, community chest, fund, or foundation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, if no part of the net earnings of the organization inures to the benefit of any private shareholder or individual, if no substantial part of its activities is carrying on propaganda, or otherwise attempting, to influence legislation, and if, in the case of gifts made after December 31, 1969, it does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

• • • • •

The deduction is not limited to gifts for use within the United States, or to gifts to or for the use of domestic corporations, trusts, community chests, funds, or foundations, or fraternal societies, orders, or associations operating under the lodge system. An organization will not be considered to meet the requirements of subparagraph (2) of this paragraph, or of paragraph (b)(2) or (3) of this section, if such organization engages in any activity which would cause it to be classified as an "action" organization under paragraph (c)(3) of § 1.501(c)(3)–1 of this chapter (Income Tax Regulations). For the deductions for charitable and similar gifts made by a nonresident who was not a citizen of the United States at the time the gifts were made, see § 25.2522(b)–1. See §§ 25.2522(c)–1 and 25.2522(c)–2 for rules relating to the disallowance of deductions to trusts and organizations which engage in certain prohibited transactions or whose governing instruments do not contain certain specified requirements.

(b) The deduction under section 2522 is not allowed for a transfer to a corporation, trust, community chest, fund, or foundation unless the organization or trust meets the following four tests:

(1) It must be organized and operated exclusively for one or more of the specified purposes.

(2) It must not, by a substantial part of its activities, attempt to influence legislation by propaganda or otherwise.

(3) In the case of gifts made after December 31, 1969, it must not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

(4) Its net earnings must not inure in whole or in part to the benefit of private shareholders or individuals other than as legitimate objects of the exempt purposes.

• • • • • •

PAR. 10. Section 25.2522(a)–2 is amended by revising the heading thereof and by adding a new paragraph (c), as follows:

§ 25.2522(a)–2 Transfers not exclusively for charitable, etc., purposes in the case of gifts made before August 1, 1969.

• • • • •

(c) *Effective date.* This section applies only to gifts made before August 1, 1969. In the case of gifts made after July 31, 1969, see § 25.2522(c)–2.

PAR. 11. Section 25.2522(b) is amended by revising that part of section 2522 that precedes paragraph (1) thereof, by revising section 2522(b)(2) and (3), and by adding an historical note, as follows:

§ 25.2522(b) Statutory provisions; charitable and similar gifts; nonresidents.

SEC. 2522. *Charitable and similar gifts* • • •

(b) *Nonresidents.* In the case of a nonresident not a citizen of the United States, there shall be allowed as a deduction the amount of gifts made during such quarter to or for the use of—

• • • • •

(2) A domestic corporation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation, and which does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office;

(3) A trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation, and which does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office; but only if such gifts are to be used within the United States exclusively for such purposes;

• • • • • •

[Sec. 2522(b) as amended by sec. 201(d)(4), Tax Reform Act 1969 (83 Stat. 562); sec.

VOL 37-78 APR 21 72 XUM

102(c)(2), Excise, Estate, and Gift Tax Adjustment Act 1970 (84 Stat. 1841)]

PAR. 12. Section 25.2522(c) is amended by revising section 2522(c) and the historical note, as follows:

§ 25.2522(c) Statutory provisions; charitable and similar gifts; disallowance of deductions in certain cases.

SEC. 2522. *Charitable and similar gifts.* • • •

(c) *Disallowance of deductions in certain cases.* (1) No deduction shall be allowed under this section for a gift to or for the use of an organization or trust described in section 508(d) or 4948(c)(4) subject to the conditions specified in such sections.

(2) Where a donor transfers an interest in property (other than a remainder interest in a personal residence or farm or an undivided portion of the donor's entire interest in property) to a person, or for a use, described in subsection (a) or (b) and an interest in the same property is retained by the donor, or is transferred or has been transferred (for less than an adequate and full consideration in money or money's worth) from the donor to a person, or for a use, not described in subsection (a) or (b), no deduction shall be allowed under this section for the interest which is, or has been transferred to the person, or for the use, described in subsection (a) or (b), unless—

(A) In the case of a remainder interest, such interest is in a trust which is a charitable remainder annuity trust or a charitable remainder unitrust (described in section 664) or a pooled income fund (described in section 642(c)(5)), or

(B) In the case of any other interest, such interest is in the form of a guaranteed annuity or is a fixed percentage distributed yearly of the fair market value of the property (to be determined yearly).

(Sec. 2522(c) as amended by sec. 30(d), Technical Amendments Act 1958 (72 Stat. 1631); sec. 201(d)(3), Tax Reform Act 1969 (83 Stat. 561))

PAR. 13. Section 25.2522(c)-1 is amended by revising the heading thereof and by adding a new paragraph (e), as follows:

§ 25.2522(c)-1 Disallowance of charitable, etc., deductions because of "prohibited transactions" in the case of gifts made before January 1, 1970.

• • • • •

(e) This section applies only to gifts made before January 1, 1970. In the case of gifts made after December 31, 1969, see § 25.2522(c)-2.

PAR. 14. The following new sections are added immediately after § 25.2522(c)-1:

§ 25.2522(c)-2 Disallowance of charitable, etc., deductions in the case of gifts made after December 31, 1969.

(a) *Organizations subject to section 507(c) tax.* Section 508(d)(1) provides that, in the case of gifts made after December 31, 1969, a deduction which would otherwise be allowable under section 2522 for a gift to or for the use of an organization upon which the tax provided by section 507(c) has been imposed shall not be allowed if the gift is made by the donor after notification is made under section 507(a) or if the donor is a substantial contributor (as defined in section 507(d)(2)) who makes such gift in his taxable year (as defined in section 441) which includes the first day on which action is taken by such organization that culminates in the imposition of the tax under section 507(c) and any subsequent taxable year. This paragraph does not apply if the entire amount of the unpaid portion of the tax imposed by section 507(c) is abated under section 507(g) by the Commissioner or his delegate.

(b) *Taxable private foundations, section 4947 trusts, etc.* Section 508(d)(2) provides that, in the case of gifts made after December 31, 1969, a deduction which would otherwise be allowable under section 2522 shall not be allowed if the gift is made to or for the use of—

(1) A private foundation or a trust described in section 4947 in a taxable year of such organization for which it fails to meet the governing instrument requirements of section 508(e) (determined without regard to section 508(e)(2)(B) and (C)), or

(2) Any organization (other than a charitable trust described in section 4947(a)(1)) in a period for which it is not treated as an organization described in section 501(c)(3) by reason of its failure to give notification under section 508(a) of its status to the Commissioner.

For additional rules, see § 1.508-2(b)(1) of this chapter (Income Tax Regulations).

(c) *Foreign organizations with substantial support from foreign sources.* Section 4948(c)(4) provides that, in the case of gifts made after December 31, 1969, a deduction which would otherwise be allowable under section 2522 for a gift to or for the use of a foreign organization which has received substantially all of its support (other than gross investment income) from sources without the United States shall not be allowed if the gift is made (1) after the date on which the Commissioner has published notice that he has notified such organization that it has engaged in a prohibited transaction, or (2) in a taxable year of such organization for which it is not exempt from taxation under section 501(a) because it has engaged in a prohibited transaction after December 31, 1969.

§ 25.2522(c)-3 Transfers not exclusively for charitable, etc., purposes in the case of gifts made after July 31, 1969.

(a) *Remainders and similar interests.* If a trust is created or property is transferred for both a charitable and a private purpose, deduction may be taken of the value of the charitable beneficial interest only insofar as that interest is presently ascertainable, and hence severable from the noncharitable interest.

(b) *Transfers subject to a condition or a power.* (1) If, as of the date of the gift, a transfer for charitable purposes is dependent upon the performance of some act or the happening of a precedent event in order that it might become effective, no deduction is allowable unless the possibility that the charitable transfer will not become effective is so remote as to be negligible. If an estate or interest has passed to, or is vested in, charity on the date of the gift and the estate or interest would be defeated by the performance of some act or the happening of some event, the possibility of occurrence of which appeared on such date to be so remote as to be negligible, the deduction is allowable. If the donee or trustee is empowered to divert the property or fund, in whole or in part, to a use or purpose which would have rendered it, to the extent that it is subject to such power, not deductible had it been directly so given by the donor, the deduction will be limited to that portion, if any, of the property or fund which is exempt from an exercise of the power. If by reason of all the conditions and circumstances surrounding a transfer of an income interest in property in trust it appears that the charity may not receive the beneficial enjoyment of the interest, a deduction will be allowed under section 2522 only for the minimum amount it is evident the charity will receive.

(2) The application of this paragraph may be illustrated by the following examples:

Example (1). In 1965, A transfers certain property in trust in which charity is to receive the income for his life with remainder to his descendants. The assets placed in trust by the donor consist of stock in a corporation the fiscal policies of which are controlled by the donor and his family. The trustees of the trust and the remainderman are members of the donor's family and the governing instrument contains no adequate guarantee of the requisite income to the charitable organization. Under such circumstances, no deduction will be allowed. Similarly, if the trustees are not members of the donor's family but have no power to sell or otherwise dispose of the closely held stock, or otherwise insure the requisite enjoyment of income to the charitable organization, no deduction will be allowed.

Example (2). In 1975, B transfers $30,000 in trust with the requirement that a designated charity be paid an annuity trust interest (as defined in paragraph (c)(2)(v) of this section) of $4,100 a year, payable annually at the end of each year for a period of 6 years and that the remainder be paid to his children. The fair market value of an annuity of $4,100 a year for a period of 6 years is $20,160.93 ($4,100×4.9173), as determined under paragraph (d)(2)(iv) of this section and Table B in paragraph (f) of § 25.2512-9. The deduction with respect to the annuity trust interest will be limited to $20,000, which is the minimum amount it is evident the charity will receive.

Example (3). C transfers a tract of land to a city government for as long as the land is used by the city for a public park. If on the date of gift the city does plan to use the land for a park and the possibility that the city will not use the land for a public park is so remote as to be negligible, a deduction will be allowed.

(c) *Transfers of partial interests in property—(1) In general—(i) Disallowance of deduction.* In the case of gifts made after July 31, 1969, where a donor transfers an interest in property for charitable purposes and an interest in the same property is retained by the donor, or is transferred or has been transferred for private purposes (for less than full and adequate consideration in money or money's worth), no deduction is allowed under section 2522 for the value of the interest which is transferred or has been transferred for charitable purposes unless the interest in property is a deductible interest described in subparagraph (2) of this paragraph. Where an interest in property is transferred by the donor for a charitable purpose and an interest in the same property is transferred for a private purpose, it is immaterial whether the interests are transferred at the same time or under the same instrument. If, as of the date of the gift, a retention of an interest by a donor, or a transfer for a private purpose, is dependent upon the performance of some act or the happening of an event in order that it may become effective, an interest in property will be considered retained by the donor, or transferred for a private purpose, unless the possibility of occurrence of such act or event is so remote as to be negligible. The application of this subdivision may be illustrated by the following examples, in each of which it is assumed that the property interest which is transferred for private purposes is not transferred for an adequate and full consideration in money or money's worth:

Example (1). In 1968, H creates a trust which is to pay the income of the trust to W for her life, the reversionary interest in the trust being retained by H. In 1975, H gives the reversionary interest to charity, while W is still living. For purposes of this subdivision interests in the same property have been transferred by H for charitable purposes and for private purposes.

Example (2). In 1973, H creates a trust which is to pay the income of the trust to W for her life and upon termination of the life estate to transfer the remainder to S. In 1975, S gives his remainder interest to charity, while W is still living. For purposes of this subdivision, interests in the same property have not been transferred by H or S for charitable purposes and for private purposes.

(ii) *Interest in property.* In determining whether interests in the same property are transferred or have been transferred for charitable and private purposes, a distinction is to be drawn between "property", as such term is used in this paragraph, and an "interest in property". The term "property" refers to the underlying property in which various interests exist; each such interest is not for this purpose to be considered as "property". The term "interest in property" means any beneficial interest, whether vested or contingent, in property, whether tangible or intangible. For such purpose, an interest in property may consist of a life estate, a term of years, a right of use, a remainder, a reversion, a general power of appointment, a power of invasion or consumption, a dower or curtesy interest. The term does not include a security interest or bare legal title, such as that of a trustee, or a power of appointment which is not a general power of appointment. The term includes the interest of any possible appointees under, and possible takers in default of, a power of appointment which is not a general power of appointment consist of both a charity or charities and a private person or persons, the interest will be deemed to be transferred solely for private purposes. See section 2514(c) and the regulations thereunder for definition of the term "general power of appointment". The application of this subdivision may be illustrated by the following examples, in each of which it is assumed that the property interest which is transferred for private purposes is not transferred for an adequate and full consideration in money or money's worth:

Example (1). H transfers Blackacre to A by gift, reserving the right to the rentals of Blackacre for a term of 20 years. After 4 years H transfers the right to the remaining rentals to charity. For purposes of this paragraph the term "property" refers to Blackacre, and the right to rentals from Blackacre consist of an interest in Blackacre. An interest in Blackacre has been transferred by H for charitable purposes and for private purposes.

Example (2). H transfers property to T in trust for the benefit of W and a charity. The trust income is to be paid to W for life, and upon her death the corpus is to be distributed to charity. Since no beneficial interest in the property is transferred to T, no interest in property is transferred or has been transferred to T for puposes of this paragraph. However, an interest in property has been transferred by H for charitable purposes and for private purposes.

Example (3). H transfers property in trust for the benefit of A and a charity. An annuity trust interest (as defined in subparagraph (2)(v) of this paragraph) of $5,000 a year is to be paid to charity for 20 years. Upon termination of the 20-year term the corpus is to be distributed to A if living. However, if A should die during the 20-year term, the corpus is to be distributed to charity upon termination of the term. An interest in property has been transferred by H for charitable purposes. In addition, an interest in the same property has been transferred by H for private purposes unless the possibility that A will survive the 20-year term is so remote as to be negligible.

Example (4). H transfers property in trust, under the terms of which an annuity trust interest (as defined in subparagraph (2)(v) of this paragraph) of $5,000 a year is to be paid to charity for 20 years. Upon termination of the term, the corpus is to pass to such of A's children and their issue as A may appoint. However, if A should die during the 20-year term without exercising the power of appointment, the corpus is to be distributed to charity upon termination of the term. Since A does not have a general power of appointment, no interest in property has been transferred by H to A. However, since the possible appointees include private persons, an interest in the corpus of the trust is considered to have been transferred by H for private purposes.

(iii) *Transferred or has been transferred by the donor.* Notwithstanding the designation by local law of the capacity in which a person takes, the phrase "transferred or has been transferred by the donor" includes any transfer, directly or indirectly, of property or any interest in property by the donor. Thus, an interest in property is transferred or has been transferred by the donor for purposes of this subdivision in any case in which property would be held to be a gift by the donor for purposes of the gift tax. The phrase "transferred or has been transferred" also includes a transfer of property, or any interest in property, which is not considered a gift by a donor for purposes of the gift tax. For example, an interest in property is transferred or has been transferred for purposes of this paragraph if such interest is transferred by reason of the donor's nonexercise of a general power of appointment (as defined in section 2514(c) and the regulations thereunder) created on or before October 21, 1942. If property or a property interest is transferred or has been transferred from the donor to any person subject to an obligation that any interest, vested or contingent, be transferred to another person, an interest in property will be considered to have been transferred by the donor to such other person.

(2) *Deductible interests.* A deductible interest for purposes of subparagraph (1) of this paragraph is a charitable interest in property where—

(i) *Undivided portion of donor's entire interest.* The charitable interest is an undivided portion, not in trust, of the donor's entire interest in property. An undivided portion of a donor's entire interest in property may consist of a fraction or percentage of each interest or right owned by the donor in such property or may consist of all or a fraction or percentage of a specific right or interest in such property. An interest in property will not, however, be considered a donor's entire interest in property for this purpose unless it extends over the entire term of the donor's interest in such property and in other property into which such property is converted. For example, if the donor gave a life estate in an office building to his wife for her life and retained a reversionary interest in the office building, the gift by the donor of one-half of that reversionary interest to charity while his wife is still alive will not be considered the transfer of a deductible interest; because an interest in the same property has already passed from the donor for private purposes, the reversionary interest will not be considered the donor's entire interest in the property. If, on the other hand, the donor was given a life estate in Blackacre for the life of his wife and the donor had no other interest in Blackacre on or before the time of gift, the gift by the donor of one-half of that life estate to charity would be considered the transfer of a deductible interest; because the life estate would be considered the donor's entire interest in the property, the gift would be of an undivided interest in such interest. An undivided portion of a donor's entire interest in property includes an interest in property whereby the charity is given the right, as a tenant in common with the donor, to possession, dominion, and control of the property for a portion of each year appropriate to its interest in such property; it also includes an open space easement in gross in perpetuity, as defined in § 1.170A-7(b)(1)(ii) of this chapter (Income Tax Regulations).

V 37-78 APR 21 72 XUM

(ii) *Remainder interest in personal residence.* The charitable interest is an irrevocable remainder interest, not in trust, in a personal residence. For purposes of this subdivision, the term "personal residence" means property which is used by the donor as his personal residence even though it is not used as his principal residence. For example, a donor's vacation home at a resort which he occupies for 2 months each year may be a personal residence for purposes of this subdivision. The term "personal residence" also includes stock owned by the donor on the date of gift as a tenant-stockholder in a cooperative housing corporation (as those terms are defined in section 216(b) (1) and (2)) if the dwelling which the donor is entitled to occupy as such stockholder is used by him as his personal residence.

(iii) *Remainder interest in a farm.* The charitable interest is an irrevocable remainder interest, not in trust, in a farm. For purposes of this subdivision, the term "farm" means any land used by the donor or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock. The term "livestock" includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. A farm includes the improvements thereon.

(iv) *Charitable remainder trust and pooled income funds.* The charitable interest is a remainder interest in a trust which is a charitable remainder annuity trust, as defined in section 664(d)(1) and § 1.664–2 of this chapter; a charitable remainder unitrust, as defined in section 664(d)(2) and § 1.664–3 of this chapter; or a pooled income funds, as defined in section 642(c)(5) and § 1.642(c)–5 of this chapter. The charitable organization to or for the use of which the remainder interest is transferred must meet the requirements of both section 2522 (a) or (b) and section 642(c)(5)(A), section 664(d)(1)(C), or section 664(d)(2)(C), whichever applies. For example, the charitable organization to which the remainder interest in a charitable remainder annuity trust is transferred may not be a foreign corporation.

(v) *Annuity trust interest.* (*a*) The charitable interest is an annuity trust interest, whether or not such interest is in trust. For purposes of this subdivision, the term "annuity trust interest" means an irrevocable right pursuant to the instrument of transfer to receive a guaranteed annuity. An annuity is an arrangement under which a determinable amount is paid periodically, but not less often than annually, for the life or lives of a named individual or individuals or for a specified term of years. An amount is determinable if the exact amount which must be paid under the conditions specified in the instrument of transfer can be ascertained on the date of gift. For example, the amount to be paid may be a stated sum for a term, or for the life of an individual, at the expiration of which it may be changed by a specified amount, but it may not be redetermined by reference to a fluctuating index such as the cost of living index. In further illustration, the amount to be paid may be expressed as a fraction or percentage of the cost of living index on the date of gift.

(*b*) A charitable interest is an annuity trust interest only if it is an annuity trust interest in every respect. For example, if the charitable interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not an annuity trust interest.

(*c*) Where a charitable interest in the form of an annuity is not in trust, the interest will be considered an annuity trust interest only if it is to be paid by an insurance company or by an organization regularly engaged in issuing annuity contracts.

(*d*) Where a charitable interest in the form of an annuity is in trust and the present value on the date of gift of such annuity interest exceeds 60 percent of the aggregate fair market value of all amounts in such trust (after the payment of liabilities), the interest will not be considered an annuity trust interest unless the governing instrument of the trust prohibits both the acquisition and the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired such assets. The requirement in this (d) for a prohibition in the governing instrument against the retention of assets which would give rise to a tax under section 4944 if the trustee had acquired the assets shall not apply to a trust executed on or before May 21, 1972.

(*e*) Where a charitable interest in the form of an annuity is in trust, and the trust is executed after May 21, 1972, the interest will not be considered an annuity trust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (*e*), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the trust instrument may not provide that income of the trust in excess of the annuity shall be paid to a private party. See § 53.4947–1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*f*) Where a charitable interest in the form of an annuity is in trust, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay an annuity trust interest shall be paid to or for the use of a charity. Nevertheless, the amount of the deduction under section 2522 shall be limited to the fair market value of the annuity trust interest.

(*g*) See section 4947 (a)(2) and (b)(3)(A) for rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the annuity trust interest is in trust.

(vi) *Unitrust interest.* (*a*) The charitable interest is a unitrust interest, whether or not such interest is in trust. For purposes of this subdivision, the term "unitrust interest" means an irrevocable right pursuant to the instrument of transfer to receive payment, not less often than annually, of a fixed percentage of the net fair market value, determined annually, of the property which funds the unitrust interest. In computing the fair market value of the property which funds the unitrust interest, all assets and liabilites shall be taken into account without regard to whether particular items are taken into acount in determining the income from the property. The net fair market value of the property which funds the unitrust interest may be determined on any one date during the year or by taking the average of valuations made on more than one date during the year, provided that the same valuation date or dates and valuation methods are used each year. Payments under a unitrust interest may be paid for a specified term of years or for the life or lives of a named individual or individuals.

(*b*) A charitable interest is a unitrust interest only if it is a unitrust interest in every respect. For example, if the charitable interest is the right to receive from a trust each year a payment equal to the lesser of a sum certain or a fixed percentage of the net fair market value of the trust assets, determined annually, such interest is not a unitrust interest.

(*c*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is not in trust, the interest will be considered a unitrust interest only if it is to be paid by an insurance company or by an organization regularly engaged in issuing interests otherwise meeting the requirements of a unitrust interest.

(*d*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is in trust, the interest will not be considered a unitrust interest if any amount may be paid by the trust for a private purpose before the expiration of all the income interest for a charitable purpose, unless such amount is paid from a group of assets which, pursuant to the governing instrument of the trust, are devoted exclusively to private purposes and to which section 4947(a)(2) is inapplicable by reason of section 4947(a)(2)(B). For purposes of this (*d*), an amount is not paid for a private purpose if it is paid for full and adequate consideration. For example, the trust instrument may not provide that income of the trust in excess of the fixed percentage of the net fair market value of the trust assets, determined annually, shall be paid to a private party. See § 53.4947–1(c) of this chapter (Foundation Excise Tax Regulations) for rules relating to the inapplicability of section 4947(a)(2) to segregated amounts in a split-interest trust.

(*e*) Where a charitable interest in the form of a fixed percentage of the net fair market value of property, determined annually, is in trust, the governing instrument of the trust may provide that income of the trust which is in excess of the amount required to pay the unitrust interest shall be paid to or for the use of a charity. Nevertheless, the amount of the deduction under section 2522 shall be limited to the net fair market value of the unitrust interest.

(*f*) See section 4947 (a)(2) and (b)(3)(A) for rules relating to certain governing instrument requirements and to the imposition of certain excise taxes where the unitrust interest is in trust.

(d) *Valuation of charitable interest*—(1) *In general.* The amount of the deduction in the case of a contribution of a partial interest in property to which this section applies is the fair market value of the partial interest on the date of gift. The fair market value of an annuity, life estate, term for years, remainder, reversion, and unitrust interest is its present value.

(2) *Certain transfers after July 31, 1969.* In the case of a transfer after July 31, 1969, of an interest described in subdivision (iv), (v), or (vi) of paragraph (c)(2) of this section, the present value of such interest is to be determined under the following rules:

(i) The present value of a remainder interest in a charitable remainder annuity trust is to be determined under § 1.664–2(c) of this chapter (Income Tax Regulations).

(ii) The present value of a remainder interest in a charitable remainder unitrust is to be determined under § 1.664–4 of this chapter.

(iii) The present value of a remainder interest in a pooled income fund is to be determined under § 1.642(c)–6 of this chapter.

(iv) The present value of an annuity trust interest described in paragraph (c)(2)(v) of this section is to be determined under § 25.2512–9 except that, if the annuity is issued by a company regularly engaged in the sale of annuities, the present value is to be determined under § 25.2512–6.

(v) The present value of a unitrust interest described in paragraph (c)(2)(vi) of this section is to be determined by subtracting the present value of all interests in the transferred property that follow the unitrust interest from the fair market value of the transferred property. For such purposes the present value of all interests that follow the unitrust interest shall be determined under § 1.664–4 of this chapter by treating such interests as a remainder interest in a charitable remainder unitrust.

(3) *Other transfers.* The present value of an interest not described in subparagraph (2) of this paragraph is to be determined under § 25.2512–5 in the case of transfers before January 1, 1971, or under § 25.2512–9 in the case of transfers after December 31, 1970.

(4) *Special computations.* If the interest transferred is such that its present value is to be determined by a special computation, a request for a special factor, accompanied by a statement of the date of birth and sex of each individual the duration of whose life may affect the value of the interest, and by copies of the relevant instruments, may be submitted by the executor to the Commissioner who may, if conditions permit, supply the factor requested. If the Commissioner furnishes the factor, a copy of the letter supplying the factor must be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the claim for deduction must be supported by a full statement of the computation of the present value made in accordance with the principles set forth in this paragraph.

(e) *Effective date.* This section applies only to gifts made after July 31, 1969.

PAR. 15. The following new section is inserted immediately after § 25.2522(d):

§ 25.2522(d)–1 Additional cross references.

(a) See section 14 of the Wild and Scenic Rivers Act (Public Law 90–542, 82 Stat. 918) for provisions relating to the claim and allowance of the value of certain easements as a gift under section 2522.

(b) For treatment of gifts accepted by the Secretary of State or the Secretary of Commerce, for the purpose of organizing and holding an international conference to negotiate a Patent Corporation Treaty, as gifts to or for the use of the United States, see section 3 of Joint Resolution of December 24, 1969 (Public Law 91–160, 83 Stat. 443).

(c) For treatment of gifts accepted by the Secretary of the Department of Housing and Urban Development, for the purpose of aiding or facilitating the work of the Department, as gifts to or for the use of the United States, see section 7(k) of the Department of Housing and Urban Development Act (42 U.S.C. 3535), as added by section 905 of Public Law 91–609 (84 Stat. 1609).

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 17]

CONSERVATION OF ENDANGERED SPECIES AND OTHER FISH OR WILDLIFE

Proposed Part Designations; Opportunity for Public Hearing

Title 50, Part 17, Appendix B, Designated Ports and Exceptions Thereto, is proposed to be amended by designating Honolulu, Hawaii, as a port of entry for fish and wildlife.

As amended, 50 CFR Part 17, Appendix B, paragraph 1 will read as follows:

APPENDIX B

DESIGNATED PORTS AND EXCEPTIONS THERETO

1. *Designated ports.* The following ports are designated as ports of entry for all fish and wildlife, except shellfish and fishery products imported for commercial purposes which may enter through any Customs district or port:

New York, N.Y.	Los Angeles, Calif.
Miami, Fla.	New Orleans, La.
Chicago, Ill.	Seattle, Wash.
San Francisco, Calif.	Honolulu, Hawaii.

• • • • • •

A hearing will be held in Honolulu, Hawaii, on April 25, 1972, beginning at 2 p.m., in Room 404 of the Federal Building, 335 Merchant Street. Members of the interested public are invited to submit comments, suggestions, or objections orally or in writing at the hearing. Interested persons may also submit written comments, suggestions, or objections, with respect to this proposed amendment, to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240, within 30 days of the date of publication of the notice in the FEDERAL REGISTER.

APRIL 4, 1972.

SPENCER SCHMIDT,
Director, Bureau of Sport Fisheries and Wildlife.

MILK IN THE CENTRAL ARKANSAS MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order; Correction

In the notice of hearing issued April 10, 1972, for the Central Arkansas order certain language was inadvertently omitted from the first sentence appearing in the notice. Accordingly, the first sentence in that notice, which appeared in the FEDERAL REGISTER April 13, 1972 (37 F.R. 7341), is corrected to read as follows:

"Notice is hereby given of a public hearing to be held at the Sheraton-Little Rock, 601 East Seventh, Little Rock, AR, beginning at 9:30 a.m., May 2, 1972, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Central Arkansas marketing area."

Signed at Washington, D.C., on April 18, 1972.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

[9 CFR Part 317]

SLICED BACON

Proposed Package Design

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Department of Agriculture pursuant to the authority conferred by the Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.), proposes to amend § 317.8 (b)(5) of the Federal meat inspection regulations (9 CFR 317.8(b)(5)) to require that partially transparent packages containing sliced bacon be designed to expose a substantial portion of a representative slice so that a consumer can see the fat-to-lean ratio prior to purchasing and opening the package. A substantial portion would be the full width and not less than 70 percent of the length of the slice.

Statement of considerations. The Federal Meat Inspection Act in section 1(n)(4) (21 U.S.C. 601(n)(4)), defines a product as "misbranded" if its container is so made, formed or filled as to be misleading; and section 7(e) of the Act (21 U.S.C. 607(e)), authorizes the Secretary to require modification of packaging in use which he has reason to believe are misleading in any particular.

Numerous consumer complaints have been received over the past 5 years concerning the packaging of sliced bacon. Consumers have stated that when a package includes a window that reveals only the lean portion of the product, it is impossible for the consumer to judge the quality of the product and the consumer may be misled.

The Department proposes the following amendment that would provide for sufficient visibility of the sliced bacon in the package to allow the consumer to make a meaningful evaluation of the product. A study of packaging methods and package construction indicates attention should be given to modifying present packages rather than requiring a complete change of package design. Otherwise, complying with a regulatory change might cause unnecessary expense to the packers which would be passed on to the consumer.

The proposed amendment would provide for the display through the package of the full width and 70 percent of the length of a representative slice of the bacon.

The proposed amendment is as follows:

Section 317.8(b)(5) would be amended by designating the present text as subdivision (i) and adding a new subdivision (ii) to read:

§ 317.8 **False or misleading labeling or practices generally; specific prohibitions and requirements for labels and containers.**

* * * * * * *

(b) * * *

(5) * * *

(ii) Packages for sliced bacon that have a transparent opening shall be designated to expose, for viewing, the full width and at least 70 percent of the length of a slice of bacon taken from the same portion of the carcass and representing approximately the same fat-to-lean ratio as the remainder of the contents of the package. Packages for sliced bacon which meet the following specifications will be accepted as meeting the requirements of the preceding paragraph provided the enclosed bacon is positioned so that the full width and 70 percent of the length of the representative slice can be visually examined:

(*a*) For shingle-packed sliced bacon, the length of the transparent window for display of the representative slice must be at least 70 percent of the length (longest dimension) of the package and 1½ inches wide. The 1-pound package may not have more than a ⅝-inch package lip (margin), and the 2-pound package may not have more than a ¾-inch package lip (margin) at the top or bottom of the package to maintain structural integrity.

(*b*) For stack-packed sliced bacon, the transparent window shall reveal the cut surface of the bacon and its length must be at least 70 percent of the length (longest dimension) of the package and at least 1½ inches wide.

* * * * * *

It is recognized that those affected by the proposed amendment would need time to exhaust existing inventories of packages, to obtain acceptable replacement packages, and to make equipment adjustments where necessary. Therefore, a period of 6 months following the issuance date of the amendment would be provided to permit the necessary adjustments if the amendment is adopted.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days after the date of publication of this notice in the FEDERAL REGISTER.

Persons desiring opportunity for oral presentation of views should address such requests to the Standards and Services Division, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for presentation of such views within the 60-day period. A transcript will be made of all views orally presented.

All written submissions and transcripts of oral views made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours in a manner convenient to the public business (7 CFR 1.27(b)), unless the person making the submission requests that it be held confidential and a determination is made that a proper showing in support of the request has been made on the grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such a request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on April 10, 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Commodity Credit Corporation

[7 CFR Part 1464]

FLUE-CURED TOBACCO, TYPES 11–14

Notice of Advance Schedule and Grade Rates for Price Support on 1972 Crop

Consideration will be given to data, views, and recommendations pertaining to the advance rates set out in this notice which are submitted in writing to the Director, Tobacco Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. All submissions, in order to be sure of consideration, must be received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

These proposed rates calculated to provide the level of support 72.7 cents per pound as determined under section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445) are as follows:

§ 1464.16 1972 Crop—Flue-cured tobacco, types 11–14, advance schedule.[1]

[Dollars per hundred pounds, farm sales weight]

Grade	Advance Rate	Grade	Advance Rate
A1F	98.25	B2L	86.25
A2F	96.25	B3L	83.25
B1L	91.25	B4L	81.25

[1] The advance rates listed are applicable to tied, and untied Flue-cured tobacco which is (1) eligible tobacco as defined in the regulations, and (2) identified by a marketing card which does not bear the notation "Discount Variety-Limited Support." Rates for eligible tobacco identified by a marketing card which bears the notation "Discount Variety-Limited Support" are 50 percent of the advance rates listed plus twelve and one-half cents ($0.125) per hundred pounds. Tobacco is eligible for advance only if consigned by the original producer and only if produced by a cooperator.

Tobacco graded "W" (doubtful keeping order), "U" (unsound), "N2," "No-G," or "scrap" will not be accepted. The cooperative association through which advances are made available is authorized to deduct 25 cents per hundred pounds to apply against overhead costs.

UNIFORM TIRE QUALITY GRADING

Consumer Information

A notice proposing a Consumer Information Regulation on "Uniform Tire Quality Grading" was published September 21, 1971 (36 F.R. 18751). As a result of comments received in response to the notice, and a public meeting held November 12, 1971, the NHTSA has decided to issue a modified notice of proposed rule making with opportunity to comment thereon. This decision is hereby made public before the actual issuance of the modified proposal in order that any interested parties who may have planned action based on the existing notice will have knowledge of this agency's intentions.

This notice is issued under the authority of sections 103, 112, 119, and 203 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1407, 1423) and the delegation of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on April 14, 1972.

ROBERT L. CARTER,
Acting Associate Administrator, Motor Vehicle Programs.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 207, 208, 212, 214, 249]

[Docket No. 24329; EDR-223A]

CHARTER AIR TRAVEL

Extension of Time for Filing Comments

APRIL 18, 1972.

The Board, by circulation of notice of proposed rule making EDR-223, dated March 17, 1972, and published at 37 F.R. 5826, gave notice that it had under consideration proposed amendments to Parts 207, 208, 212, 214, and 249 of its Economic Regulations (14 CFR Parts 207, 208, 212, 214, and 249). The proposed amendments would: (1) Require that an air carrier or foreign air carrier which has been engaged to provide only one-way transportation from the United States in connection with a pro rata charter trip originating in the United States shall, before providing such transportation, ascertain that the carrier which is to perform the return flight has received full payment of its charges therefor; (2) facilitate enforcement of the Board's existing pro rata charter regulations; and (3) clarify certain of the Board's charter regulations. Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before April 21, 1972.

By letter dated April 13, 1972, counsel for World Airways, Inc. (World), requested an extension of time for filing comments, to May 5, 1972, on the ground that their attorneys who handle these matters are presently out of the country participating in a transportation conference. They contend that the requested extension of time would not seriously inconvenience the parties.

The undersigned finds that good cause has been shown for an extension of time for filing comments, particularly since it seems that counsel for other interested persons are also out of the country now, attending the same transportation conference. However, since the Board, in EDR-223, expressed its tentative view that a final rule aimed at preventing strandings of passengers abroad should be promulgated in time to accomplish its purpose in this year's summer charter season, the undersigned finds that an extension beyond April 28, 1972, would not comport with the Board's view of the urgency of this rule making proceeding.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's

V 37-78
APR 21 72
XUM

Organization Regulations, the undersigned hereby extends the time for submitting comments to April 28, 1972.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

[SEAL] ARTHUR H. SIMMS,
Associate General Counsel,
Rules and Rates Division.

[FR Doc.72-6129 Filed 4-20-72;8:52 am]

[14 CFR Parts 221, 231]

[Docket No. 22415; EDR-224]

PUBLICATION OF TARIFFS FOR CLASSES OF SERVICE SUBJECT TO SCHEDULE DESIGNATION AND CLASSES OF SERVICE NOT ACTUALLY PROVIDED TO THE PUBLIC

Notice of Proposed Rule Making

APRIL 14, 1972.

Notice is hereby given that the Civil Aeronautics Board has under consideration rule making action to amend Parts 221 and 231 of the economic regulations of the Board (14 CFR Parts 221 and 231) so as to provide for terms and conditions governing the publication of tariffs for classes of service subject to schedule designation and for classes of service not actually being provided to the public.

This advance notice of proposed rule making is being issued to invite participation by the industry, interested governmental agencies, affected localities, as well as interested members of the general public, in the Board's efforts to determine the scope of the problem, to decide whether the promulgation of rules is appropriate and feasible, and, if so, the content of such rules. If, in the Board's view, comments received indicate that further action is warranted, the Board may then issue a supplemental notice of rule making with proposed rules or request further comments from interested persons.

This notice is issued pursuant to the authority of sections 204(a), 403, 404(a), and 405(b) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 758 (as amended by 74 Stat. 445), 760; 49 U.S.C. 1324, 1373, 1374, 1375.

Interested parties may participate in this rule making proceeding by submitting twelve (12) copies of written data, views, or arguments pertaining thereto addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before June 1, 1972, will be reviewed and considered by the Board. Copies of such communications will be available for examination by interested persons in the Docket Section, Room 712, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

EXPLANATORY STATEMENT

It has come to the Board's attention that Part 221 of its economic regulations, governing the construction, publication, filing and posting of tariffs of air carriers and foreign air carriers, may be deficient in that it in effect permits substantial and significant changes in services and fares, or both, to be effectuated simply through the filing by a carrier of amendments to its general schedules filed with the Board pursuant to Part 231 of the economic regulations. Since such changes may take effect upon 10 days' notice and are not subject to suspension by the Board as would be a tariff filing, they are effectively insulated from prior Board investigation and review, as well as from public complaint.

The problem arises out of carrier tariffs which provide that the services and fares described therein are applicable only on such flights as are appropriately designated by the carrier in its official general schedules.[1] The Board's regulations do not place any limitation upon the carriers' discretion in this regard. Accordingly, it is possible for a carrier to "designate" a class of service and/or fare totally out of existence, while keeping the applicable tariff in effect, albeit in a dormant state. It further becomes possible for that carrier to reactivate that dormant tariff at some future time, simply by filing a schedule amendment showing certain flights "designated" to provide that service.

Under certain circumstances the carrier's unlimited discretion to add or drop services as described may effectively circumvent the tariff provisions of the Act, as was called to our attention by a complaint filed by the Commonwealth of Puerto Rico against Eastern Air Lines, Inc., and Pan American World Airways, Inc., Docket 22398, which we have dismissed this date by Board Order 72-4-77. In that case, the two named carriers discontinued "thrift" third-class service in the Miami-San Juan market and reinstituted "economy" second-class service in lieu thereof, with a resultant $7 increase one-way in the lowest generally-available fare in that market. The second-class tariff, while on file with the Board and in effect, had lain dormant in that market for almost 6 years prior to its resurrection.

The Board is of the belief that the maintenance of tariffs in specific markets pursuant to which no services are provided to the public is essentially inconsistent with section 404(a) of the Act, which provides that it "shall be the duty of every air carrier to provide and furnish interstate and overseas air transportation, as authorized by its certificate, upon reasonable request therefor • • •." A carrier's tariffs constitute its principal legal means of giving notice of services offered to the public, and fix its duties to the public from which it may not deviate. The public is charged by law with full knowledge of a carrier's tariffs. Accordingly, "[i]t seems obvious that, in the absence of restricting tariff provisions, the publication of a charge for a given service carries with it an obligation to perform the service for which the charge is named," C. S. Wells & Son v. Chicago, B. & Q.R. Co., 161 ICC 145, 148 (1930).[2]

More importantly, we feel that the fundamental thrust of the rate and tariff provisions of the Act is to bring carrier-initiated changes in services and charges to the public within the purview of the Board's powers of suspension and investigation and to provide adequate notice to the public of such changes. To the extent that the Board's rules permit a carrier to keep dormant tariffs "in reserve," to be implemented at will merely upon 10 days' notice, and insofar as these rules allow the termination or institution of specific classes of service in a market insulated from prior Board review, we believe them to be incompatible with the intent and purposes of the Act and the Board's responsibilities.

Our purpose herein shall be to determine appropriate and workable means to bring the carriers' elimination or activation of classes of service or of rates and fares in a market within the purview of the Board's power of suspension and investigation, and to provide adequate notice to the public of such changes. Rather than proposing specific rules at this time, the Board hereby requests comments from interested persons with regard to ways our objectives outlined herein may be accomplished.

For example, it may be that an amendment to the Board's economic regulations absolutely prohibiting the elimination of a class of service in a market, or the institution of such service, except upon the cancellation or amendment of the appropriate tariff, or the filing of a tariff, would be in order. On the other hand, it may be possible to subject a carrier's general schedule filings effectuating such changes to suspension and/or investigation by the Board, and provide for notice to the public similar to the statutory 30-day notice requirement pertaining to tariff filings. Moreover, it may be that, whatever restrictions are placed upon the carriers' discretion to make changes in classes of services offered in a market by general schedule filings, such restrictions should apply only in cases where the changes have substantial impact upon the public or upon air transportation in the affected market.[3] To this end, the degree of significance of such changes should be assessed, in terms, for example, of the number of the traveling public potentially affected, the nature and extent of the impact financially and otherwise, and the effect of the changes in terms of the characteristics and extent of the market involved.

It is not our intent to put in issue the impact of each carrier's "designation" tariff rules for each class of service in each and every market where such a "designation" rule applies. Rather, we intend this proceeding to develop general standards or principles which will thereafter govern the applicability of classes of service or of rates or fares to specific flights as designated by the carriers' official general schedules.

[FR Doc.72-6130 Filed 4-20-72;8:52 am]

[1] Descriptions of such tariffs are set forth in the Appendix, filed as part of the original document.

[2] *Cf.* Order 71-2-120 (Feb. 26, 1971), where the Board expressed the position that "a carrier's tariff should normally be confined to the publication of fares applicable to services actually performed."

[3] For example, the carriers' option of designating or not designating "night-coach" service may not be a change of such substance as to require prior Board review, inasmuch as few travelers are, as a rule, affected thereby. On the other hand, a change from "thrift" to "economy" fares in a major market, affecting many travelers and resulting in a significant increase in the lowest generally-available fare, as evidenced in the referenced case, may require Board suspension and/or investigation, as well as more public notice than is provided for changes in official general schedules.

GENERAL SERVICES ADMINISTRATION

[41 CFR Part 101–18]

UNIFORM ACQUISITION AND RELOCATION ASSISTANCE PRACTICES

Proposed Amendment to Federal Property Management Regulations

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553 that pursuant to the Federal Property and Administrative Services Act of 1949, as amended, the General Services Administration is considering an amendment to 41 CFR 101–18—Acquisition of Real Property. The amendment will establish agency policy for acquiring real property and for providing services and payments to persons displaced from real property in accordance with the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91–646.

Any person who wishes to submit written data, views, or objections pertaining to the proposed amendment may do so by forwarding them in duplicate to the General Services Administration, Washington, D.C. 20405, within 30 calendar days following publication of this notice in the FEDERAL REGISTER.

Dated: April 17, 1972.

ARTHUR F. SAMPSON,
Commissioner,
Public Buildings Service.

As proposed, the amendment to the regulations would read as follows:

PART 101–18—ACQUISITION OF REAL PROPERTY

The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91–646, establishes uniform policies for acquiring real property for Federal and federally assisted programs and provides for the fair and equitable treatment of persons displaced from real property by such programs. This amendment to Part 101–18 of the Federal Property Management Regulations sets forth the interim regulations to be followed by the General Services Administration in administering the provisions of Public Law 91–646.

The table of contents for Part 101–18 is amended by adding new Subparts 101–18.2 and 101–18.3 and by reserving Subparts 101–18.4—101–18.49, as follows:

Subpart 101–18.2—Acquisition by Purchase or Condemnation

Sec.	
101–18.200	Scope of subpart.
101–18.201	Purpose.
101–18.202	Authority.
101–18.203	Definitions.
101–18.203–1	Act.
101–18.203–2	Uneconomic remnant.
101–18.204	Basic acquisition policy.
101–18.205	Expenses incidental to transfer.
101–18.206	Litigation expenses.

Subpart 101–18.3—Relocation Assistance and Payments

101–18.300	Scope of subpart.
101–18.301	Purpose.
101–18.302	Authority.
101–18.303	Definitions.
101–18.303–1	Act.
101–18.303–2	Federal agency.
101–18.303–3	Person.
101–18.303–4	Displaced person.
101–18.303–5	Business.
101–18.303–6	Farm operation.
101–18.303–7	Mortgage.
101–18.303–8	Comparable replacement dwelling.
101–18.303–9	Initiation of negotiations.
101–18.303–10	Owner.
101–18.303–11	Dwelling.
101–18.303–12	Nonprofit organization.
101–18.303–13	Existing patronage.
101–18.303–14	Family.
101–18.303–15	Moving and related expense payments.
101–18.303–16	Replacement housing payments.
101–18.303–17	Replacement rental payments.
101–18.303–18	Notice of displacement.
101–18.303–19	Economic rent.
101–18.304	Basic policy.
101–18.305	Right of appeal.
101–18.306	General criteria for decent, safe, and sanitary housing.
101–18.306–1	Sleeping rooms.
101–18.306–2	Application of local code standards.
101–18.306–3	Exceptions.
101–18.307	Multiple occupancy.
101–18.308	Moving and related expenses.
101–18.308–1	Limitations.
101–18.308–2	Exclusions.
101–18.308–3	Direct losses.
101–18.308–4	Expenses in searching for a replacement business or farm.
101–18.308–5	Scheduled payments.
101–18.308–6	Fixed payments for displaced businesses or farms.
101–18.309	Replacement housing payments.
101–18.309–1	Eligibility.
101–18.309–2	Computation of replacement housing payment.
101–18.309–3	Upper limit of replacement housing payments.
101–18.310	Replacement rental payments.
101–18.310–1	Eligibility.
101–18.310–2	Owner-occupant who elects to rent.
101–18.310–3	Computation of renter's replacement rental payment.
101–18.310–4	Computation of purchaser's replacement rental payment.
101–18.311	Relocation assistance advisory services.
101–18.312	Availability determination.
101–18.313	Housing replacement as a last resort.
101–18.314	Planning and other preliminary expenses for additional housing.
101–18.315	Applicability to the acquisition of leasehold interest.

Subparts 101–18.4—101–18.49 [Reserved]

AUTHORITY: The provisions of Subparts 101–18.2 and 101–18.3 are issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

Subpart 101–18.2—Acquisition by Purchase or Condemnation

§ 101–18.200 Scope of subpart.

This subpart sets forth the policies and procedures governing the acquisition of real property by the General Services Administration (GSA) for its programs and projects in the United States, the Commonwealth of Puerto Rico, any territory or possession of the United States, and the Trust territory of the Pacific Islands.

§ 101–18.201 Purpose.

These regulations implement title III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and will serve to:

(a) Encourage and expedite the acquisition of real property by agreements with owners;

(b) Avoid litigation where possible and relieve congestion in the courts;

(c) Insure consistent treatment of owners in the many Federal programs; and

(d) Promote public confidence in Federal land acquisition practices.

§ 101–18.202 Authority.

The provisions of this subpart are issued under provisions of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377, 40 U.S.C. 471; the Public Buildings Act of 1959, as amended, 40 U.S.C. 601–615; and sections 213, 301 et seq., Public Law 91–646, approved January 2, 1971, 84 Stat. 1894.

§ 101–18.203 Definitions.

For the purposes of this subpart, the following terms shall have the meanings set forth in this section.

§ 101–18.203–1 Act.

"Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91–646), approved January 2, 1971.

§ 101–18.203–2 Uneconomic remnant.

"Uneconomic remnant" means that portion of an ownership remaining after acquisition, the retention of which provides no benefit to the owner because of

[4] Comment is invited as to the appropriate criteria which might be adopted for determining the types of schedule designation changes which should be exempted from any new rules.

V 37-78
APR 21 72
XUM

loss or difficulty of access, a changed highest and best use, remoteness, or any other reason resulting in burdening the owner thereof with expenses or responsibilities not commensurate with retention of such ownership.

§ 101–18.204 Basic acquisition policy.

GSA, to the greatest extent practicable, will:

(a) Make every reasonable effort to acquire expeditiously real property by negotiation.

(b) Appraise real property before the initiation of negotiations and give the owner or his designated representative an opportunity to accompany the appraiser during his inspection of the property.

(c) Establish, prior to the initiation of negotiations for real property, an amount estimated to be the just compensation therefor and make a prompt offer to acquire the property for the full amount so established. GSA will provide the owner of the real property to be acquired with a written statement of, and a summary of the basis for, the amount established as just compensation. Where appropriate, the just compensation for the real property acquired and for damages to remaining real property will be separately stated. The summary statement to be furnished the owner will include the following:

(1) Identification of the real property and the estate or interest therein to be acquired;

(2) Identification of the buildings, structures, and other improvements considered to be part of the real property for which the offer of just compensation is made;

(3) A statement that GSA's determination of just compensation is based on the estimated fair market value of the property to be acquired. If only part of the property is to be acquired or the interest to be acquired is less than the full interest of the owner, the statement will explain the basis for the determination of the just compensation;

(4) A statement that GSA's determination of just compensation is not less than its approved appraisal of the property; and

(5) A statement that any increase or decrease in the fair market value of the real property, prior to the date of valuation, caused by the public improvement or project for which the real property is to be acquired, or by the likelihood that the real property would be acquired for such improvement or project, other than that due to physical deterioration within the reasonable control of the owner, has been disregarded in making the determination of just compensation for the property.

(d) Acquire at least an equal interest in all buildings, structures, or other improvements located upon the real property. This includes buildings, structures, or other improvements that GSA requires removed from the real property or that GSA determines will affect adversely the proposed use of the real property. If any buildings, structures, or other improvements comprising part of the real property are the property of a tenant who has the right or obligation to remove them at the expiration of his term, the total just compensation for the real property, including the property of the tenant, will be apportioned to the landowner and the tenant so that the amount attributable to the tenant's improvements will be the greater of the:

(1) Fair market value of the buildings, structures, or other improvements to be removed from the property, or

(2) Contributive fair market value of the tenant's improvements to the fair market value of the entirety, which value should not be less than the value of his improvements for removal from the real property. Payment under paragraph (d) of this section will not be a duplication of any payment otherwise authorized by law. No payment will be made unless the landowner disclaims all interests in the tenant's improvements and the tenant in consideration for such payment shall assign, transfer, and release to the Government all his right, title, and interest in and to such improvements. The tenant may reject payment under paragraph (d) of this section and obtain payment for his property interests in accordance with other applicable laws.

(e) Obtain only one appraisal on each parcel, tract, etc., of real property to be acquired unless GSA determines that circumstances require an additional appraisal or appraisals.

(f) Maintain records to verify that the landowner or his designated representative(s) was given an opportunity to accompany the appraiser during the inspection of the real property.

(g) Pay an owner or tenant or deposit such payment in the registry of the court before requiring him to surrender his property. To the maximum extent practicable, owners and tenants will be given at least 90 days notice of displacement before being required to move from real property acquired by GSA. If permitted by GSA to remain in possession for a short period of time after Government acquisition, the rental charged for this occupancy will not be more than the fair rental value of the property to a short-term occupier.

(h) Not intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his property. Offer to acquire the entire property where the acquisition of a part of a property will leave the owner with an uneconomic remnant.

§ 101–18.205 Expenses incidential to transfer.

GSA will amend its real property purchase contract forms to provide for reimbursement to vendors in amounts deemed by GSA to be fair and reasonable for the following expenses:

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property;

(b) Penalty cost for prepayment of any preexisting recorded mortgage entered into in good faith encumbering said real property; and

(c) The pro rata portion of real property taxes paid by the vendor for periods subsequent to the date title vests in the United States.

§ 101–18.206 Litigation expenses.

GSA will plan for and take into consideration the possible liability for the payment of litigation expenses of a condemnee as provided for in section 304 of the Act.

Subpart 101–18.3—Relocation Assistance and Payments (Interim Regulations)

§ 101–18.300 Scope of subpart.

This subpart contains the regulations governing relocation assistance practices, procedures, and payments by GSA in the acquisition of real property for its programs and projects pursuant to Subpart 101–18.2.

§ 101–18.301 Purpose.

These regulations implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and will serve to insure uniform, fair, and equitable treatment of persons displaced from their homes, businesses, or farms by Federal or federally assisted programs designed for the benefit of the public as a whole and to safeguard against abuse of any of the underlying purposes, provisions, and policies of the Act.

§ 101–18.302 Authority.

The provisions of this subpart are issued under provisions of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377, 40 U.S.C. 471; the Public Buildings Act of 1959, as amended, 73 Stat. 479, 40 U.S.C. 601–615; and Public Law 91–646, 84 Stat. 1894, approved January 2, 1971.

§ 101–18.303 Definitions.

For the purpose of this subpart, the following terms shall have the meanings set forth in this section.

§ 101–18.303–1 Act.

"Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91–646), approved January 2, 1971.

§ 101–18.303–2 Federal agency.

"Federal agency" means any department, agency, or instrumentality in the executive branch of the Government (except the National Capital Housing Authority); any wholly owned Government corporation (except the District of Columbia Redevelopment Land Agency); the Architect of the Capitol; and the Federal Reserve banks and branches thereof.

§ 101–18.303–3 Person.

"Person" means any individual, partnership, corporation, or association.

§ 101–18.303–4 Displaced person.

(a) "Displaced person" means any person who on or after January 2, 1971, moves from real property or moves his personal property from real property as a result of:

(1) The acquisition of such real property by GSA in whole or in part; or

(2) Receipt from GSA of a written notice of displacement under a program or project undertaken by a Federal agency or with Federal financial assistance.

(b) For purposes of receiving moving and related expense payments and receiving relocation advisory assistance, a displaced person also is a person meeting the provisions of this section who conducts a business or farm operation on such real property.

(c) For purposes of qualifying for relocation benefits as provided in this Subpart 18.3 a displaced person is a person who moves as the result of the notice referenced in § 101–18.303–4(a)(2), regardless of whether his real property is actually acquired.

§ 101–18.303–5 Business.

"Business" means any lawful activity except a farm operation conducted primarily:

(a) For the purchase, sale, lease, or rental of personal and real property and for the manufacture, processing, or marketing of products, commodities, or any other personal property;

(b) For the sale of services to the public;

(c) By a nonprofit organization, or

(d) For (in accordance with section 202(a) of the Act) assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted.

§ 101–18.303–6 Farm operation.

"Farm operation" means any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

§ 101–18.303–7 Mortgage.

"Mortgage" means such classes of liens as are commonly given to secure advances on or the unpaid purchase price of real property under the laws of the State in which the real property is located, with any credit instruments secured thereby.

§ 101–18.303–8 Comparable replacement dwelling.

"Comparable replacement dwelling" means a dwelling which, when compared with the dwelling being taken, is:

(a) Decent, safe, and sanitary (sound, clean, weathertight), and meets local housing codes and criteria specified in § 101–18.306.

(b) Functionally equivalent and substantially the same with respect to age, construction, state of repair, number of rooms, and square feet of living area.

(c) Open to all persons and meets the provisions of title VIII of the Civil Rights Act of 1968 (Public Law 90–284).

(d) Located in an area not generally less desirable than the dwelling to be acquired as to the neighborhood, public utilities, and commercial facilities and is reasonably accessible to the displaced person's place of employment.

(e) Available on the market and within the financial means of the displaced person or family.

(f) Adequate to accommodate the displaced person.

§ 101–18.303–9 Initiation of negotiations.

"Initiation of negotiation" means the date on which an official representative of GSA first contacts an owner (or his duly authorized representative) of real property to be acquired by GSA and discusses price.

§ 101–18.303–10 Owner.

"Owner" means an individual (or individuals) who:

(a) Holds the fee title, a life estate, a 99-year lease or a lease with not less than 50 years to run from the date of the acquisition of property; or

(b) Has an interest in a cooperative housing project which includes the right of occupancy of a dwelling unit; or

(c) Is the contract purchaser of any such estates or interests listed in (a) above; or

(d) Has succeeded to any of the interests in paragraphs (a) or (b) of this section, by devise, bequest, inheritance, or operation of law. For the purposes of this subpart, if a person acquires ownership by any of the methods listed in this paragraph, the tenure of the succeeding owner shall be the same as the tenure of the preceding owner.

§ 101–18.303–11 Dwelling.

"Dwelling" means a single-family building, a one-family unit in a multifamily building, a unit of a condominium or cooperative housing project, or any other residential unit, including a mobile home which either is considered to be real property under State law, cannot be moved without substantial damage or unreasonable cost, or is not a decent, safe, and sanitary dwelling.

§ 101–18.303–12 Nonprofit organization.

"Nonprofit organization" means a corporation, partnership, individual, or other public or private entity engaged in a business, professional, or instructional activity on a nonprofit basis, necessitating fixtures, equipment, stock-in-trade, or other tangible property for the carrying on of the business, professional, or institutional activity on the premises.

§ 101–18.303–13 Existing patronage.

"Existing patronage" is the annual average dollar volume of business transacted during the 2 taxable years immediately preceding the taxable year in which the business is relocated.

§ 101–18.303–14 Family.

"Family" means two or more individuals living together in the same dwelling who are related to each other by blood, marriage, adoption, legal guardianship, or operation of law.

§ 101–18.303–15 Moving and related expense payments.

"Moving and related expense payments" means those payments authorized by section 202 of the Act.

§ 101–18.303–16 Replacement housing payments.

"Replacement housing payments" means those payments authorized by section 203 of the Act.

§ 101–18.303–17 Replacement rental payments.

"Replacement rental payments" means those payments authorized by section 204 of the Act.

§ 101–18.303–18 Notice of displacement.

"Notice of displacement" means a written notice to vacate real property given by GSA generally 90 days prior to the date of vacation.

§ 101–18.303–19 Economic rent.

"Economic rent" means the amount of rent a displaced tenant would have to pay for a similar dwelling unit in areas not generally less desirable than the dwelling unit to be acquired by the Government.

§ 101–18.304 Basic policy.

GSA, to the greatest extent practicable, will:

(a) Administer its real property acquisition programs and projects so that every person displaced because of such programs or projects will have been offered a comparable replacement dwelling which is decent, safe, and sanitary before being required to vacate the dwelling acquired by the Government.

(b) Make prompt and equitable payments to those eligible displaced persons to cover:

(1) Reasonable costs incurred for moving and related expenses;

(2) Amounts determined to be the replacement housing payments; and/or

(3) Amounts determined to be the replacement rental payments.

(c) Provide, or cause to be provided, relocation assistance advisory services in a manner to insure that the displaced person will receive assistance in relocation.

(d) Provide procedures for reviewing the application of an aggrieved applicant to encourage the prompt and proper resolution of the causes of such aggravation.

(e) Adhere to all existing GSA regulations, procedures, policies, and forms relating to the acquisition of real property and interests therein as well as project requirements except as modified by the requirements of the Act and these regulations.

§ 101–18.305 Right of appeal.

Any applicant aggrieved by a determination as to eligibility for a payment under the Act, or the amount of such payment, may submit through the Commissioner, Public Buildings Service, a request to have his application reviewed by the Administrator of General Services.

V 37-78 APR 21 72 XUM

§ 101–18.306 General criteria for decent, safe, and sanitary housing.

A decent, safe, and sanitary dwelling is one which meets all of the following minimum requirements:

(a) Conforms with all applicable provisions for existing structures that have been established under State or local building, plumbing, electrical, housing, and occupancy codes and similar ordinances or regulations.

(b) Has a continuing and adequate supply of potable safe water.

(c) Has a kitchen or an area set aside for kitchen use which contains a sink in good working condition and is connected to hot and cold water and an adequate sewage system.

(d) Has an adequate heating system in good working order capable of maintaining a minimum temperature of 70° F. in the living area under local outdoor design temperature conditions. A heating system will not be required in those geographical areas where not normally included in new housing.

(e) Has a bathroom, well lighted and ventilated and affording privacy to a person within it, containing a lavatory basin and a bathtub or stall shower, properly connected to an adequate supply of hot and cold running water, and a flush closet, all in good working order and properly connected to a sewage disposal system.

(f) Has an adequate and safe wiring system for lighting and other electrical services.

(g) Is structurally sound, weathertight, in good repair, and adequately maintained.

(h) Has a safe unobstructed means of egress leading to safe open space at ground level. Each dwelling unit in a multidwelling building must have access either directly or through a common corridor to a means of egress to open space at ground level. In buildings of three stories or more, the common corridor on each story must have at least two means of egress.

(i) Has 150 square feet of habitable floor space for the first occupant in a standard living unit and at least 100 square feet (70 square feet for mobile home) of habitable floor space for each additional occupant. The floor space is to be subdivided into sufficient rooms to be adequate for the family. All rooms must be adequately ventilated. Habitable floor space is defined as that space used for sleeping, living, cooking, or dining purposes and excludes such enclosed places as closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, and unfurnished attics, foyers, storage spaces, cellars, utility rooms, and similar spaces.

§ 101–18.306–1 Sleeping rooms.

The standards for decent, safe, and sanitary housing as applied to rental of sleeping rooms shall include the minimum requirements contained in § 101–18.306 (a), (d), (f) through (h), and the following:

(a) At least 100 square feet of habitable floor space for the first occupant and 50 square feet of habitable floor space for each additional occupant.

(b) Lavatory, bath, and toilet facilities that provide privacy, including a door that can be locked if such facilities are separate from the room.

§ 101–18.306–2 Application of local code standards.

In those instances where there is no local housing code or where a local housing code does not meet all the standards listed in this section, the Administrator of General Services will determine the standards acceptable for decent, safe, and sanitary housing.

§ 101–18.306–3 Exceptions.

Exceptions may be granted to decent, safe, and sanitary standards and will be limited to items and circumstances that are beyond the reasonable control of the displaced person to adhere to the standards. Approved exceptions will not affect the computation of a replacement housing payment.

§ 101–18.307 Multiple occupancy.

Multiple occupancy will be treated as single occupancy in the case of individuals, not families, in dealing with benefits for replacement housing. However, each displaced individual may receive benefits for actual, reasonable moving expenses and for other related expenses and in the case of families, each family will be considered separately.

§ 101–18.308 Moving and related expenses.

Whenever the acquisition of real property by GSA will result in the displacement of any person on or after January 2, 1971, and such person occupied the real property acquired by GSA prior to its acquisition, GSA will make a payment to the person, upon application as approved by GSA, for the person's reasonable and actual moving expenses as follows:

(a) Transporting individuals, families, and property from acquired site, including storage, to the replacement site, not to exceed a distance of 50 miles, except where GSA determines that relocation beyond the 50-mile area is justified.

(b) Packing and crating of personal property.

(c) Advertising for packing, crating, and transportation when GSA determines that it is necessary.

(d) Storing personal property for a period generally not to exceed 12 months when GSA determines that storage is necessary in connection with relocation.

(e) Insuring loss and damage of personal property while in storage or transit.

(f) Removing, reinstalling, and reestablishing machinery, equipment, appliances, and other items, not acquired as real property, including reconnection of utilities, which do not constitute an improvement (except when required by law) to the replacement site, and which were not acquired by GSA. (Prior to payment of any expenses for removal and reinstallation of such property, the displaced person shall be required to agree in writing that the property is personalty and that GSA is released from any payment for the property.)

(g) Replacing property lost, stolen, or damaged (not caused by the fault or negligence of the displaced person, his agent or employees), in the process of moving, where insurance to cover such loss or damage is not available.

(h) Paying other reasonable expenses determined proper by GSA.

§ 101–18.308–1 Limitations.

In the implementation of section 202 of the Act, GSA will apply the following limitations:

(a) When the displaced person accomplishes the move himself, the amount of payment will not exceed the estimated cost of moving commercially.

(b) When an item of personal property which is used in connection with any business or farm operation is not moved but sold and promptly replaced with a comparable item, reimbursement will not exceed the replacement cost, minus the proceeds received from the sale, or the cost of moving, whichever is less.

(c) When personal property which is used in connection with any business or farm operation to be moved is of low value and high bulk, and the cost of moving would be disproportionate in relation to the value, as determined by GSA, the allowable reimbursement for the expense of moving the personal property will not exceed the difference between the amount which would have been received for such item on liquidation and the cost of replacing the same with a comparable item available on the market. This provision will be applicable in the case of moving of junkyards, stockpiled sand, gravel, minerals, metals, and similar type items of personal property.

§ 101–18.308–2 Exclusions.

In the implementation of section 202 of the Act, GSA will exclude the following moving expenses and losses from payment:

(a) Additional expenses incurred because of living in a new location.

(b) Cost of moving structures, improvements, or other real property in which the displaced person reserved ownership.

(c) Improvements to the replacement site, except when required by law.

(d) Interest on loans to cover moving expenses.

(e) Loss of goodwill.

(f) Loss of profits.

(g) Loss of trained employees.

(h) Personal injury.

(i) Cost of preparing the application for moving and related expenses.

(j) Modification of personal property to adapt it to the replacement site, except when required by law.

(k) Such other items as GSA determines should be excluded on the basis that they are not reasonable, prudent, or proper.

§ 101–18.308–3 Direct losses.

GSA will reimburse a displaced person as the result of the person's moving or discontinuing a business or a farm operation for direct losses to personal property in accordance with the following:

(a) When the displaced person does not move personal property, he will be required to make a bona fide effort to sell it.

(b) When personal property is sold and the business or farm operation reestablished, the displaced person is entitled to the difference between the replacement cost minus the sale proceeds, or the cost of moving, whichever is less.

(c) When the business or farm operation is discontinued, the displaced person is entitled to the difference between the inplace value of the personal property and the sale proceeds, or the cost of moving, whichever is less.

(d) When the personal property is abandoned, the displaced person is entitled to payment for the difference between the inplace value and the amount which would have been received from the sale of the item, or the cost of moving, whichever is less.

§ 101–18.308–4 Expenses in searching for a replacement business or farm.

In the implementation of section 202 (a)(3) of the Act, GSA will allow the following expenses, except that the total amount which a displaced person may be paid for searching expenses will not exceed $500, unless GSA determines that a greater amount is justified based on the circumstances involved:

(a) Travel costs up to a maximum distance of 100 miles.

(b) Reasonable costs for meals and lodging.

(c) Time spent in searching at the rate of the displaced person's salary or earnings, but not exceeding $10 per hour.

(d) Broker or realtor fee to locate a replacement business or farm operation if GSA determines such service is necessary to effect a satisfactory relocation.

§ 101–18.308–5 Scheduled payments.

Any displaced person eligible for moving and related expense benefits heretofore enumerated may elect to receive a moving expense allowance determined in accordance with a schedule established by GSA but not to exceed $300 and a dislocation allowance of $200. These payments will be made upon application by the displaced person and need not be supported by any evidence of incurred expenses. The schedule established by GSA will be the room moving allowance schedules maintained by the respective State highway departments.

§ 101–18.308–6 Fixed payments for displaced businesses or farms.

Any eligible displaced business or farm operator who elects to accept a payment authorized by this section in lieu of the moving and related expense payments heretofore enumerated may receive a fixed payment in an amount equal to the average annual net earnings of the business or farm operation, except that such payment will not be less than $2,500 nor more than $10,000. However, where an entire farm operation is not acquired, the payment will be made only if GSA determines that the farm met the definition of a farm operation prior to the acquisition and the property remaining after the acquisition is no longer an economic unit. In the case of a business, no payment will be made unless GSA is satisfied that the business: Cannot be relocated without a substantial loss of its existing patronage and is not part of a commercial enterprise having at least one other establishment not being acquired by the Government, which is engaged in the same or similar business. The term "average annual net earnings" means one-half of the sum of the net earnings of the business or farm operation before Federal, State, and local income taxes during the 2 taxable years immediately preceding the taxable year in which the business or farm operation moves from the real property acquired by GSA or during any other period that GSA determines to be more equitable for establishing such earnings. The "average annual net earnings" includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during that period.

(a) To be eligible for the payment authorized in this section, the business or farm operation must contribute materially to the income of the displaced owner. This standard is designed to eliminate those part-time family occupations which do not contribute materially to a displaced person's income.

(b) The loss of existing patronage of a business will be determined by GSA only after consideration of all pertinent circumstances, including the following:

(1) The type of business conducted by the displaced concern.

(2) The nature of the clientele of the displaced concern.

(3) The relative importance of the present and proposed locations to the patronage of the displaced business.

(c) A person who is displaced from his place of business or farm may elect to receive a fixed relocation payment whether or not he discontinues or reestablishes operations. Any displaced owner-occupant of a multifamily dwelling who earns income from such dwelling will be regarded as displaced from his place of business, in addition to having been displaced from his dwelling, and is eligible in accordance with the foregoing requirements for a fixed payment based on the average annual net earnings.

§ 101–18.309 Replacement housing payments.

In addition to payments otherwise authorized, GSA will make a payment not in excess of $15,000 to any eligible displaced person who is displaced from a dwelling actually owned and occupied by the displaced person for not less than 180 days prior to initiation of negotiations for the acquisition of the dwelling. Such additional payments will include the following elements:

(a) The amount, if any, which when added to the acquisition cost of the dwelling acquired by the Government is determined to be the reasonable cost of a comparable replacement dwelling.

(b) The amount, if any, which will compensate the displaced person for any increased interest costs which the person is required to pay for financing of the comparable replacement dwelling. This amount will be paid only if the dwelling acquired by the Government was encumbered by a bona fide mortgage which was a valid lien on the dwelling for not less than 180 days prior to the initiation of negotiations for the acquisition of the dwelling. Such amount will be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the mortgage on the acquired dwelling over the remainder of the term of the mortgage on the acquired dwelling, reduced to discounted present value. The discount rate will be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located.

(c) Reasonable expenses incurred by the displaced person for evidence of title, recording fees, legal, closing, and related costs, preparing conveyance contracts, credit reports, FHA and VA appraisal fees, and other costs incident to the purchase of the comparable replacement dwelling, but not including prepaid expenses.

§ 101–18.309–1 Eligibility.

(a) A displaced owner-occupant is eligible for a replacement housing payment if he:

(1) Owned and occupied the acquired dwelling for not less than 180 days immediately prior to the initiation of negotiations for the real property; and

(2) Purchases and occupies a comparable replacement dwelling not later than the end of the 1-year period beginning on the date on which the displaced person receives from the Government final payment of all costs of the acquired dwelling or on the date on which he moves from the acquired dwelling, whichever is later.

§ 101–18.309–2 Computation of replacement housing payment.

GSA will compute the amount of the replacement housing payment by:

(a) Determining the amount necessary to purchase a comparable replacement dwelling using a schedule, or by devising a suitable alternate method to better meet local conditions. The schedule will be based on a continuing and current analysis of the market to determine a representative amount for each type of dwelling required.

(b) Selecting a comparable dwelling or dwellings which are actually available on the real estate market and which meet the definition of a comparable replacement dwelling. Asking prices will be adjusted to reflect market sales experience. A single comparable dwelling will be used only when additional comparable dwellings are not available.

(c) Cooperating with other Federal agencies causing displacement in a community to establish a uniform method of

V 37-78 APR 21 72 XUM

calculating replacement housing payments.

(d) Basing the interest payment portion of the replacement housing payment on the present value of the reasonable cost of the interest differential including points paid by the purchaser on the amount refinanced not to exceed the amount of the unpaid debt for its remaining term at the time of Government acquisition of the real property.

(e) Reimbursing the displaced person, in the amount found in the incidental expenses portion of the replacement housing payment, for costs incident to the purchase of a comparable replacement dwelling. This amount may include: Legal, closing, and related costs including costs of title search, preparing conveyance contracts, notary fees, surveys, preparing drawings of plats, and charges incident to recordation; lenders', FHA, or VA appraisal fees; FHA application fees; certifying structural soundness when required by lender, FHA, or VA; credit report; title policies or abstracts of title; escrow agent's fee; and State revenue stamps, or sale or transfer taxes. However, no fee, cost, charge, or expense is reimbursable which is determined to be part of the finance charge under the Truth in Lending Act, title I, Public Law 90–321, and Regulation Z issued pursuant thereby the Board of Governors of the Federal Reserve System.

§ 101–18.309–3 Upper limit of replacement housing payments.

The amount established as the replacement housing payment for a comparable replacement dwelling sets the upper limit of this payment.

(a) If a displaced person, of his own volition, purchases and occupies a decent, safe, and sanitary dwelling at a price less than the upper limit of the replacement housing payment plus the purchase price paid for the Government acquired dwelling, the replacement housing payment will be reduced to the amount necessary to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling plus reasonable incidental expenses. A displaced person will be considered as having "purchased" such a dwelling if he acquires an existing dwelling, purchases and rehabilitates a substandard dwelling, relocates, or relocates and rehabilitates an existing dwelling, constructs a new dwelling, contracts to purchase a dwelling to be constructed on a site provided by a builder or developer, or enters into a contract for the construction of a dwelling on a site which he owns or acquired for the purpose.

(b) If a displaced person, of his own volition, purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling no differential payment will be made.

§ 101–18.310 Replacement rental payments.

In addition to payments otherwise authorized, GSA will make a payment not in excess of $4,000 to any eligible displaced person not eligible to receive a replacement housing payment under § 101–18.309 who actually and lawfully occupied the dwelling acquired by the Government for not less than 90 days immediately prior to the initiation of negotiations for acquisition of the dwelling. GSA will notify the tenant or other occupant of the property in writing of the actual date of initiation of negotiations. Such payment will be the amount, not to exceed $4,000, determined by GSA to be necessary to enable the displaced person to:

(a) Lease or rent for a period not to exceed 4 years a comparable replacement dwelling, or

(b) Make a downpayment, including incidental expenses described in § 101–18.309–2(e), on a comparable replacement dwelling, if such amount exceeds $2,000, the displaced person must match any amount in excess of $2,000 in making the downpayment.

§ 101–18.310–1 Eligibility.

A displaced person who is a tenant or an owner-occupant of less than 180 days prior to initiation of negotiations is eligible for a replacement housing payment if he meets both of the following requirements:

(a) Occupies, actually and lawfully, the dwelling for not less than 90 days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

(b) Meets the other eligibilty requirements of § 101–18.310.

§ 101–18.310–2 Owner-occupant who elects to rent.

An owner-occupant eligible for a replacement housing payment under the provisions of § 101–18.309 but who elects to rent a comparable replacement dwelling rather than purchase such a replacement dwelling is eligible for a replacement rental payment under these provisions. However, in no event will the replacement rental payment exceed the amount of his entitlement under the replacement housing payment provisions or the replacement rental payment provisions, whichever is less.

§ 101–18.310–3 Computation of renter's replacement rental payment.

Computation of the replacement rental payment for eligible displaced persons who elect to rent a comparable replacement dwelling will be determined by GSA by the establishment of a schedule, by using a comparative method, or by devising a suitable alternate method to better meet local conditions.

(a) GSA may establish a rental schedule for comparable replacement dwellings. The replacement rental payment will be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years (using the average monthly cost from the schedule) and subtracting from such amount 48 times the average month's rent paid by the displaced person in the last 3 months prior to initiation of negotiations if such rent was reasonable, or if not reasonable, 48 times the monthly economic rent for the dwelling as established by GSA. Economic rent is the amount of rent the displaced tenant would have had to pay for a similar dwelling unit in areas not generally less desirable than the dwelling unit to be acquired. The schedule should be based on a current analysis of the market to determine an amount for each type of dwelling required.

(b) GSA may determine the average month's rent by selecting one or more dwellings representative of the dwelling unit acquired by the Government which is available on the market and is a comparable replacement dwelling. The payment will be computed by determining the amount necessary to rent for 4 years the comparable replacement dwelling and subtracting the amount of 48 times the average month's rent paid by the displaced person in the last 3 months prior to initiation of negotiations, or if not reasonable, 48 times the monthly economic rent.

(c) GSA may establish the average month's rent paid by a displaced person by using more than 3 months prior to negotiations if it is deemed advisable.

(d) All replacement rental payments for displaced persons who elect to rent instead of purchase, that exceed $500, will be made in four equal installments on an annual basis. Before making each annual payment, GSA will verify that the displaced person continues to occupy a decent, safe, and sanitary dwelling.

(e) When more than one Federal agency is causing displacement in a community or area, GSA will cooperate with those agencies in determining uniform replacement rental payments.

§ 101–18.310–4 Computation of purchaser's replacement rental payment.

Computation of the replacement rental payment for eligible displayed persons who elect to purchase instead of rent a comparable replacement dwelling will be the amount determined to be necessary to make a downpayment and to cover incidental expenses in the purchase of a replacement dwelling.

(a) Incidental expenses of closing the transaction are those heretofore described in § 101–18.309–2(e).

(b) The full amount of the downpayment must be applied to the purchase price and such downpayment and incidental costs shown on the closing statement.

(c) To receive payment to apply on the purchase of a replacement dwelling, a tenant or owner-occupant eligible under this section to receive a replacement housing payment, must purchase and occupy a decent, safe, and sanitary dwelling not later than 1 year subsequent to the date he vacated the dwelling acquired by GSA.

§ 101–18.311 Relocation assistance advisory services.

Whenever GSA causes displacement of persons residing on a public building site, after January 2, 1971, GSA will provide to all eligible displaced persons a relocation assistance advisory service. This service will be provided by GSA personnel or by the personnel of a contractor employed by GSA. If GSA determines that any person occupying property immediately adjacent to the real property acquired by the Government is caused substantial economic injury because of that acquisition, such person may be offered relocation assistance advisory services.

(a) GSA will cooperate to the maximum extent feasible with other Federal or State agencies to insure that displaced persons receive the maximum relocation assistance available to them.

(b) GSA relocation assistance advisory services will include such measures, facilities, or services as may be necessary or appropriate in order to:

(1) Determine the need, if any, of eligible displaced persons, for relocation assistance.

(2) Provide current and continuing information on the availability, prices, and rentals of comparable replacement dwellings which are decent, safe, and sanitary and of comparable commercial properties and locations for displaced businesses.

(3) Insure that, within a reasonable time, prior to displacement, comparable replacement dwellings which are decent, safe, and sanitary will be available to replace the dwellings acquired by the Government.

(4) Assist a person displaced from his business or farm operation in obtaining and becoming established in a replacement location.

(5) Supply information concerning Federal and State housing programs, disaster loan programs, and other Federal or State programs offering assistance to displaced persons.

(6) Provide other advisory services to displaced persons to minimize hardship to such persons in adjusting to relocation.

§ 101–18.312 Availability determination.

GSA will not proceed with any phase of a project which will cause the displacement of any person until it has determined that there will be available, within a reasonable time prior to such displacement, on a basis consistent with the requirements of title VIII of the Civil Rights Act of 1968 (Public Law 90–284), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means (including supplements provided by law) of the families displaced, decent, safe, and sanitary dwellings equal in number of, and available to, such displaced persons who require such dwellings and reasonably accessible to their places of employment.

(a) This determination will be based on a current survey and analysis of available replacement housing resources. This survey will take into account the competing demands on the available housing resources.

(b) GSA may waive the requirements of this section in periods of emergency and/or other extraordinary situations where immediate possession of real property is of crucial importance.

§ 101–18.313 Housing replacement as a last resort.

GSA will be guided by the criteria and policies to be developed by the Secretary of Housing and Urban Development in its implementation of section 206 of the Act.

§ 101–18.314 Planning and other preliminary expenses for additional housing.

GSA will be guided by the criteria and policies to be developed by the Secretary of Housing and Urban Development in its implementation of section 215 of the Act.

§ 101–18.315 Applicability of the acquisition of leasehold interest.

The relocation provisions of the Act do not apply to leasing actions except when persons are displaced as a result of the condemnation of a leasehold interest and lease construction of a building which has received congressional approval as a public buildings project pursuant to section 7(a) of the Public Buildings Act of 1959 (40 U.S.C. 606).

PRIVATE, NONPROFIT MEDICAL CARE FACILITIES

Repair, Reconstruction, Replacement

Public Law 92–209 amends the Disaster Relief Act of 1970, Public Law 91–606, by adding § 255 providing for the repair, reconstruction, or replacement of certain private medical care facilities. An amendment to Part 1710 of Title 32 of the Code of Federal Regulations is required to implement Public Law 92–209. The proposed amendment is set forth below.

Interested persons may submit written data, views, or arguments regarding the proposal by mailing them to the Director, Office of Emergency Preparedness, 604 17th Street NW., Washington, DC 20504, within 15 days after this notice is published in the FEDERAL REGISTER. Persons interested in inspecting or copying submissions received pursuant to this Notice should call 202–395–6111.

Dated: April 15, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

PART 1710—FEDERAL DISASTER ASSISTANCE

Section 1710.2 is amended by adding the following paragraphs:

§ 1710.2 Definitions.

• • • • • •

(s) "Medical care facility" includes, without limitation, any hospital, diagnostic or treatment center, or rehabilitation facility as such terms are defined in section 645 of the Public Health Service Act, and any similar facility offering diagnosis or treatment of mental or physical injury or disease, including the administrative and support facilities essential to the operation of such medical care facilities although not contiguous thereto.

(t) "Tax exempt organization" means an organization or entity which has applied for, and currently has in effect from the U.S. Internal Revenue Service, a Ruling Letter granting tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954.

(u) "Disaster Proofing" consists of those minimum alterations or modifications to damaged facilities which could be expected to prevent or substantially reduce future damages to the repair or reconstructed facility; i.e. to make the facility disaster resistant. The cost of disaster proofing measures is limited to a small percentage of otherwise eligible costs.

Section 1710.8 is amended by adding the following paragraph:

§ Project applications.

• • • • • •

(h) The local or State government, as an authorized applicant under the Act, must submit the project application on behalf of the interested private organization or entity for private, nonprofit medical care facilities. In addition to the completed application documents specified by OEP instructions for permanent work, the following additional documents and assurances must be submitted with the application:

(1) A copy of the Internal Revenue Service Ruling Letter which grants the organization or entity tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954.

(2) When appropriate, the comments and recommendations of State or local government clearinghouses pursuant to the guidelines contained in OMB Circular No. A–95.

(3) A copy of the following assurances by the interested private organization or entity:

(i) In addition to owning the facility, that it has or will have a title in fee simple or such other estate or interest in the site, including necessary easements and rights-of-way, sufficient to assure for a period of not less than 50 years undisturbed use and possession for the purpose of the construction and operation of the facility;

(ii) That it will employ the lump sum contract method; employ competitive bidding prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and award the contract to the responsible bidder submitting the lowest acceptable bid;

(iii) That it will maintain adequate and separate accounting and fiscal records and accounts for all funds provided from any source to pay the cost of the project, and permit audit of such records and accounts at any reasonable times;

V 37-78
APR 21 72
XUM

(iv) That it will provide and maintain competent and adequate architectural or engineering supervision and inspection at the construction site to insure that the completed work conforms with the approved plans and specifications; and

(v) That adequate financial support will be available for maintenance and operation when completed.

Section 1710.11 is amended to read as follows:

§ 1710.11 Repair and replacement of facilities.

(a) Repair or replacement of public facilities may be eligible in two phases, as outlined in subparagraphs (1) and (2) of this paragraph, dependent on the extent of damage and the circumstances under which repairs are to be made. Repair or replacement of private nonprofit medical care facilities may be eligible only as outlined in subparagraphs (2) and (3) of this paragraph. Emergency repair or replacement under section 203 of the Act is not authorized for private nonprofit medical care facilities.

(1) Emergency repair or replacement may be made only to the extent of providing a usable facility, where necessary, until a facility can be repaired or replaced to predisaster condition. The first phase will include only the minimum measures to make the facility temporarily operational. Examples are detours, rental of alternate facilities, and other similar measures. If circumstances are such that restoration of the facility can be delayed until permanent repair or replacement can be performed to predisaster conditions or, if no alternative is practical, eligible work will be considered only under subparagraph (2) of this paragraph.

(2) Permanent repair or replacement to predisaster condition, based on the design of the facility as it existed immediately prior to the disaster, and in conformity with applicable codes, specifications or standards, may be approved using the following criteria:

(i) The Federal contribution shall not exceed the net eligible cost of restoring each such facility.

(ii) Such net costs shall be based on the codes, specifications, and standards currently being used by the applicant for similar facilities in the locality, or in the case of medical care facilities, the applicable Federal, State, or local codes, specifications, and standards. The general standards prescribed by the Public Health Service and set forth in the document "General Standards of Construction and Equipment for Hospital and Medical Facilities" shall be applicable for those nonprofit medical care facilities that conformed to such general standards prior to the major disaster. For other nonprofit medical care facilities, any eligible replacement of damaged facilities shall conform generally to such standards as determined by the Regional Director to be consistent with their predisaster condition and utilization.

(iii) Written codes, specifications, and standards shall have been in use prior to the disaster to be applicable except for disaster proofing. If not in writing, the applicant must identify and a Federal inspector shall verify that the codes, specifications, and standards, to be applicable, have been in use prior to the disaster. If no codes, specifications, or standards, as prescribed above, have impact on eligible restorative work, repair, or replacement will be limited to returning the facility to predisaster condition, based on then-existing design.

(iv) If the damaged facility is economically repairable, as determined by the Regional Director, approved restorative work will be limited to the cost of eligible repairs.

(v) An applicant may, at its discretion, request a grant-in-lieu of authorized repair or replacement toward the repair or replacement of the facility to higher standards than provided for herein. Such grant-in-lieu shall not exceed the approved cost estimate of eligible work.

(vi) In every major Federal action or project involving Federal disaster assistance under the Act, the Regional Director shall determine whether or not the quality of human environment may be significantly affected thereby. In any case where affirmative determination may result, the Regional Director shall consult with the Director or his staff to arrange for compliance with section 102, National Environmental Policy Act, Public Law 91-190.

(vii) The minimum policy objective in restoring facilities damaged by a major disaster shall be to assure consideration of the advantages or disadvantages of disaster proofing or relocation before any work or Federal expense is authorized. In restoring damaged facilities by use of Federal disaster assistance, the Regional Director may authorize minimum disaster proofing as eligible work under the Act. When the Regional Director determines that a facility may not be economically restored and disaster proofed in a hazard area, he may authorize relocation to a less hazardous site provided that overall Federal project cost is not increased. He may decline to authorize Federal disaster assistance to restore facilities at the original site when such facilities are subject to repetitive heavy damages or destruction.

(3) The repair or replacement of private, nonprofit medical care facilities by Federal disaster assistance must be justified on the basis of need for such facilities as determined by the OEP Regional Director based on recommendations by the State Coordinating Officer, State and/or local health agency, and the appropriate regional health agency of the Department of Health, Education, and Welfare. No payment will be made for any work which is not the responsibility of the interested private organization or entity. The following general criteria apply for determining the eligibility of the medical care facility:

(i) It must have been in active use and providing significant medical services to the general public prior to the disaster.

(ii) It must have been recognized as an essential or integral part of the comprehensive plan for the provision of required medical facilities for the affected area or community.

(iii) It must be operated in a manner to carry out the tax exempt purposes of the owning organization.

(iv) Damages must have occurred as the result of a major disaster and impair the capability of the medical care facility to perform essential medical services for the general public.

(v) The State must furnish assurances that the hospital will be fully licensed following completion of repair or replacement.

(b) For the purposes of this section, functional furnishings and equipment essential to the operation of the facility will be considered as part of a facility: *Provided, however,* That used or surplus equipment shall be utilized to the extent practicable.

(c) Consumable supplies damaged or lost in a disaster will be considered eligible for replacement to the extent that such replacement is made within 90 days of the date of the President's declaration, but limited to a 30-day requirement of each item so replaced. The 90-day deadline may be waived by the Regional Director where appropriate.

Section 1710.17 is amended to read as follows:

§ 1710.17 Federal assistance for projects under construction.

(a) Federal financial assistance may be provided for the repair, restoration, or reconstruction of any public facility or private, nonprofit medical care facility which was damaged or destroyed as a result of a major disaster and for the additional costs resulting from a major disaster for completion of any such facility which was in the process of construction when damaged or destroyed as a result of such major disaster, based on the following criteria:

(1) Federal reimbursement therefore shall not exceed 50 percent of the eligible costs. Eligible costs are defined to mean those costs incurred by the applicant or one of its contractors or, in the case of a medical care facility, by the interested private organization or entity or one of its contractors, and determined to be eligible by the Regional Director in:

(i) Restoring a facility to substantially the same condition as existed prior to the damage resulting from the major disaster, and

(ii) Completing construction not performed prior to the major disaster to the extent the increase of such costs over original construction costs is attributable to changed physical conditions resulting from the major disaster.

(b) Eligible costs shall not include any interest cost on project funding or any cost for which reimbursement is received

pursuant to insurance contracts or otherwise by the party incurring the economic burden of such costs, including reimbursements which might be received from any other Federal agency.

(c) No reimbursement will be made to any applicant for damages caused by its own negligence, or by the negligence of any interested private organization or entity, or by any contractor.

Section 1710.22 is amended by adding the following subparagraph:

§ 1710.22 Nondiscrimination.

• • • • •

(d) As a condition of receiving assistance under section 255, interested private organizations or entities restoring damaged medical care facilities shall be required to comply with this part and agree in writing that no person in the United States shall, on the grounds of race, religion, sex, color, age, economic status, or national origin, be subjected to discrimination under the subsequent operation of these medical care facilities.

(Public Law 92-209, 85 Stat. 742; Executive Order 11662)

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

UTE TRIBE, UINTAH AND OURAY RESERVATION, UTAH

Determination of Eligibility for Reimbursement

APRIL 11, 1972.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

Section 2 of the Act of September 18, 1970 (84 Stat. 843), authorizes the Secretary of the Interior to reimburse Indians and former members of the Ute Indian Tribe of the Uintah and Ouray Reservation terminated by the Act of August 27, 1954 (68 Stat. 868), who sold project lands that were nonirrigable (determined according to the approved designation of 1964) for the construction, operation, and maintenance charges which were collected from the proceeds of such sales. The Secretary delegated his authority under the Act of September 18, 1970, to the Commissioner of Indian Affairs in section 30 (a) (49) of Secretarial Order 2508 which was published on page 229 of the January 7, 1971, FEDERAL REGISTER (36 F.R. 229).

Notice is hereby given that the individuals named in the listing below are determined to be eligible for reimbursement under section 2 of the Act of September 18, 1970 (84 Stat. 843). Any individual who has objections to any part of this listing may submit an appeal to the Regional Solicitor, Federal Building, 125 South State Street, Salt Lake City, UT 84111, no later than 90 days after the date this notice is published in the FEDERAL REGISTER. The Uintah and Ouray Agency, Bureau of Indian Affairs, will make the payments to the persons determined to be eligible or to their estates within 60 days after all appeals have been resloved or after the Agency receives the congressional appropriation, whichever occurs later.

Effective date. This notice shall be effective upon publication in the FEDERAL REGISTER (4-21-72).

JOHN O. CROW,
Deputy Commissioner.

V 37-78
APR 21 72
XUM

calculating replacement housing payments.

(d) Basing the interest payment portion of the replacement housing payment on the present value of the reasonable cost of the interest differential including points paid by the purchaser on the amount refinanced not to exceed the amount of the unpaid debt for its remaining term at the time of Government acquisition of the real property.

(e) Reimbursing the displaced person, in the amount found in the incidental expenses portion of the replacement housing payment, for costs incident to the purchase of a comparable replacement dwelling. This amount may include: Legal, closing, and related costs including costs of title search, preparing conveyance contracts, notary fees, surveys, preparing drawings of plats, and charges incident to recordation; lenders', FHA, or VA appraisal fees; FHA application fees; certifying structural soundness when required by lender, FHA, or VA; credit report; title policies or abstracts of title; escrow agent's fee; and State revenue stamps, or sale or transfer taxes. However, no fee, cost, charge, or expense is reimbursable which is determined to be part of the finance charge under the Truth in Lending Act, title I, Public Law 90-321, and Regulation Z issued pursuant thereby the Board of Governors of the Federal Reserve System.

§ 101-18.309-3 Upper limit of replacement housing payments.

The amount established as the replacement housing payment for a comparable replacement dwelling sets the upper limit of this payment.

(a) If a displaced person, of his own volition, purchases and occupies a decent, safe, and sanitary dwelling at a price less than the upper limit of the replacement housing payment plus the purchase price paid for the Government acquired dwelling, the replacement housing payment will be reduced to the amount necessary to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling plus reasonable incidental expenses. A displaced person will be considered as having "purchased" such a dwelling if he acquires an existing dwelling, purchases and rehabilitates a substandard dwelling, relocates, or relocates and rehabilitates an existing dwelling, constructs a new dwelling, contracts to purchase a dwelling to be constructed on a site provided by a builder or developer, or enters into a contract for the construction of a dwelling on a site which he owns or acquired for the purpose.

(b) If a displaced person, of his own volition, purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling no differential payment will be made.

§ 101-18.310 Replacement rental payments.

In addition to payments otherwise authorized, GSA will make a payment not in excess of $4,000 to any eligible displaced person not eligible to receive a replacement housing payment under § 101-18.309 who actually and lawfully occupied the dwelling acquired by the Government for not less than 90 days immediately prior to the initiation of negotiations for acquisition of the dwelling. GSA will notify the tenant or other occupant of the property in writing of the actual date of initiation of negotiations. Such payment will be the amount, not to exceed $4,000, determined by GSA to be necessary to enable the displaced person to:

(a) Lease or rent for a period not to exceed 4 years a comparable replacement dwelling, or

(b) Make a downpayment, including incidental expenses described in § 101-18.309-2(e), on a comparable replacement dwelling, if such amount exceeds $2,000, the displaced person must match any amount in excess of $2,000 in making the downpayment.

§ 101-18.310-1 Eligibility.

A displaced person who is a tenant or an owner-occupant of less than 180 days prior to initiation of negotiations is eligible for a replacement housing payment if he meets both of the following requirements:

(a) Occupies, actually and lawfully, the dwelling for not less than 90 days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

(b) Meets the other eligibilty requirements of § 101-18.310.

§ 101-18.310-2 Owner-occupant who elects to rent.

An owner-occupant eligible for a replacement housing payment under the provisions of § 101-18.309 but who elects to rent a comparable replacement dwelling rather than purchase such a replacement dwelling is eligible for a replacement rental payment under these provisions. However, in no event will the replacement rental payment exceed the amount of his entitlement under the replacement housing payment provisions or the replacement rental payment provisions, whichever is less.

§ 101-18.310-3 Computation of renter's replacement rental payment.

Computation of the replacement rental payment for eligible displaced persons who elect to rent a comparable replacement dwelling will be determined by GSA by the establishment of a schedule, by using a comparative method, or by devising a suitable alternate method to better meet local conditions.

(a) GSA may establish a rental schedule for comparable replacement dwellings. The replacement rental payment will be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years (using the average monthly cost from the schedule) and subtracting from such amount 48 times the average month's rent paid by the displaced person in the last 3 months prior to initiation of negotiations if such rent was reasonable, or if not reasonable, 48 times the monthly economic rent for the dwelling as established by GSA. Economic rent is the amount of rent the displaced tenant would have had to pay for a similar dwelling unit in areas not generally less desirable than the dwelling unit to be acquired. The schedule should be based on a current analysis of the market to determine an amount for each type of dwelling required.

(b) GSA may determine the average month's rent by selecting one or more dwellings representative of the dwelling unit acquired by the Government which is available on the market and is a comparable replacement dwelling. The payment will be computed by determining the amount necessary to rent for 4 years the comparable replacement dwelling and subtracting the amount of 48 times the average month's rent paid by the displaced person in the last 3 months prior to initiation of negotiations, or if not reasonable, 48 times the monthly economic rent.

(c) GSA may establish the average month's rent paid by a displaced person by using more than 3 months prior to negotiations if it is deemed advisable.

(d) All replacement rental payments for displaced persons who elect to rent instead of purchase, that exceed $500, will be made in four equal installments on an annual basis. Before making each annual payment, GSA will verify that the displaced person continues to occupy a decent, safe, and sanitary dwelling.

(e) When more than one Federal agency is causing displacement in a community or area, GSA will cooperate with those agencies in determining uniform replacement rental payments.

§ 101-18.310-4 Computation of purchaser's replacement rental payment.

Computation of the replacement rental payment for eligible displayed persons who elect to purchase instead of rent a comparable replacement dwelling will be the amount determined to be necessary to make a downpayment and to cover incidental expenses in the purchase of a replacement dwelling.

(a) Incidental expenses of closing the transaction are those heretofore described in § 101-18.309-2(e).

(b) The full amount of the downpayment must be applied to the purchase price and such downpayment and incidental costs shown on the closing statement.

(c) To receive payment to apply on the purchase of a replacement dwelling, a tenant or owner-occupant eligible under this section to receive a replacement housing payment, must purchase and occupy a decent, safe, and sanitary dwelling not later than 1 year subsequent to the date he vacated the dwelling acquired by GSA.

§ 101-18.311 Relocation assistance advisory services.

Whenever GSA causes displacement of persons residing on a public building site, after January 2, 1971, GSA will provide to all eligible displaced persons a relocation assistance advisory service. This service will be provided by GSA personnel or by the personnel of a contractor employed by GSA. If GSA determines that any person occupying property immediately adjacent to the real property acquired by the Government is caused substantial economic injury because of that acquisition, such person may be offered relocation assistance advisory services.

(a) GSA will cooperate to the maximum extent feasible with other Federal or State agencies to insure that displaced persons receive the maximum relocation assistance available to them.

(b) GSA relocation assistance advisory services will include such measures, facilities, or services as may be necessary or appropriate in order to:

(1) Determine the need, if any, of eligible displaced persons, for relocation assistance.

(2) Provide current and continuing information on the availability, prices, and rentals of comparable replacement dwellings which are decent, safe, and sanitary and of comparable commercial properties and locations for displaced businesses.

(3) Insure that, within a reasonable time, prior to displacement, comparable replacement dwellings which are decent, safe, and sanitary will be available to replace the dwellings acquired by the Government.

(4) Assist a person displaced from his business or farm operation in obtaining and becoming established in a replacement location.

(5) Supply information concerning Federal and State housing programs, disaster loan programs, and other Federal or State programs offering assistance to displaced persons.

(6) Provide other advisory services to displaced persons to minimize hardship to such persons in adjusting to relocation.

§ 101-18.312 Availability determination.

GSA will not proceed with any phase of a project which will cause the displacement of any person until it has determined that there will be available, within a reasonable time prior to such displacement, on a basis consistent with the requirements of title VIII of the Civil Rights Act of 1968 (Public Law 90-284), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means (including supplements provided by law) of the families displaced, decent, safe, and sanitary dwellings equal in number of, and available to, such displaced persons who require such dwellings and reasonably accessible to their places of employment.

(a) This determination will be based on a current survey and analysis of available replacement housing resources. This survey will take into account the competing demands on the available housing resources.

(b) GSA may waive the requirements of this section in periods of emergency and/or other extraordinary situations where immediate possession of real property is of crucial importance.

§ 101-18.313 Housing replacement as a last resort.

GSA will be guided by the criteria and policies to be developed by the Secretary of Housing and Urban Development in its implementation of section 206 of the Act.

§ 101-18.314 Planning and other preliminary expenses for additional housing.

GSA will be guided by the criteria and policies to be developed by the Secretary of Housing and Urban Development in its implementation of section 215 of the Act.

§ 101-18.315 Applicability of the acquisition of leasehold interest.

The relocation provisions of the Act do not apply to leasing actions except when persons are displaced as a result of the condemnation of a leasehold interest and lease construction of a building which has received congressional approval as a public buildings project pursuant to section 7(a) of the Public Buildings Act of 1959 (40 U.S.C. 606).

PRIVATE, NONPROFIT MEDICAL CARE FACILITIES

Repair, Reconstruction, Replacement

Public Law 92-209 amends the Disaster Relief Act of 1970, Public Law 91-606, by adding § 255 providing for the repair, reconstruction, or replacement of certain private medical care facilities. An amendment to Part 1710 of Title 32 of the Code of Federal Regulations is required to implement Public Law 92-209. The proposed amendment is set forth below.

Interested persons may submit written data, views, or arguments regarding the proposal by mailing them to the Director, Office of Emergency Preparedness, 604 17th Street NW., Washington, DC 20504, within 15 days after this notice is published in the FEDERAL REGISTER. Persons interested in inspecting or copying submissions received pursuant to this Notice should call 202-395-6111.

Dated: April 15, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

PART 1710—FEDERAL DISASTER ASSISTANCE

Section 1710.2 is amended by adding the following paragraphs:

§ 1710.2 Definitions.

• • • • • •

(s) "Medical care facility" includes, without limitation, any hospital, diagnostic or treatment center, or rehabilitation facility as such terms are defined in section 645 of the Public Health Service Act, and any similar facility offering diagnosis or treatment of mental or physical injury or disease, including the administrative and support facilities essential to the operation of such medical care facilities although not contiguous thereto.

(t) "Tax exempt organization" means an organization or entity which has applied for, and currently has in effect from the U.S. Internal Revenue Service, a Ruling Letter granting tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954.

(u) "Disaster Proofing" consists of those minimum alterations or modifications to damaged facilities which could be expected to prevent or substantially reduce future damages to the repair or reconstructed facility; i.e. to make the facility disaster resistant. The cost of disaster proofing measures is limited to a small percentage of otherwise eligible costs.

Section 1710.8 is amended by adding the following paragraph:

§ Project applications.

• • • • • •

(h) The local or State government, as an authorized applicant under the Act, must submit the project application on behalf of the interested private organization or entity for private, nonprofit medical care facilities. In addition to the completed application documents specified by OEP instructions for permanent work, the following additional documents and assurances must be submitted with the application:

(1) A copy of the Internal Revenue Service Ruling Letter which grants the organization or entity tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954.

(2) When appropriate, the comments and recommendations of State or local government clearinghouses pursuant to the guidelines contained in OMB Circular No. A-95.

(3) A copy of the following assurances by the interested private organization or entity:

(i) In addition to owning the facility, that it has or will have a title in fee simple or such other estate or interest in the site, including necessary easements and rights-of-way, sufficient to assure for a period of not less than 50 years undisturbed use and possession for the purpose of the construction and operation of the facility;

(ii) That it will employ the lump sum contract method; employ competitive bidding prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and award the contract to the responsible bidder submitting the lowest acceptable bid;

(iii) That it will maintain adequate and separate accounting and fiscal records and accounts for all funds provided from any source to pay the cost of the project, and permit audit of such records and accounts at any reasonable times;

(iv) That it will provide and maintain competent and adequate architectural or engineering supervision and inspection at the construction site to insure that the completed work conforms with the approved plans and specifications; and

(v) That adequate financial support will be available for maintenance and operation when completed.

Section 1710.11 is amended to read as follows:

§ 1710.11 Repair and replacement of facilities.

(a) Repair or replacement of public facilities may be eligible in two phases, as outlined in subparagraphs (1) and (2) of this paragraph, dependent on the extent of damage and the circumstances under which repairs are to be made. Repair or replacement of private nonprofit medical care facilities may be eligible only as outlined in subparagraphs (2) and (3) of this paragraph. Emergency repair or replacement under section 203 of the Act is not authorized for private nonprofit medical care facilities.

(1) Emergency repair or replacement may be made only to the extent of providing a usable facility, where necessary, until a facility can be repaired or replaced to predisaster condition. The first phase will include only the minimum measures to make the facility temporarily operational. Examples are detours, rental of alternate facilities, and other similar measures. If circumstances are such that restoration of the facility can be delayed until permanent repair or replacement can be performed to predisaster conditions or, if no alternative is practical, eligible work will be considered only under subparagraph (2) of this paragraph.

(2) Permanent repair or replacement to predisaster condition, based on the design of the facility as it existed immediately prior to the disaster, and in conformity with applicable codes, specifications or standards, may be approved using the following criteria:

(i) The Federal contribution shall not exceed the net eligible cost of restoring each such facility.

(ii) Such net costs shall be based on the codes, specifications, and standards currently being used by the applicant for similar facilities in the locality, or in the case of medical care facilities, the applicable Federal, State, or local codes, specifications, and standards. The general standards prescribed by the Public Health Service and set forth in the document "General Standards of Construction and Equipment for Hospital and Medical Facilities" shall be applicable for those nonprofit medical care facilities that conformed to such general standards prior to the major disaster. For other nonprofit medical care facilities, any eligible replacement of damaged facilities shall conform generally to such standards as determined by the Regional Director to be consistent with their predisaster condition and utilization.

(iii) Written codes, specifications, and standards shall have been in use prior to the disaster to be applicable except for disaster proofing. If not in writing, the applicant must identify and a Federal inspector shall verify that the codes, specifications, and standards, to be applicable, have been in use prior to the disaster. If no codes, specifications, or standards, as prescribed above, have impact on eligible restorative work, repair, or replacement will be limited to returning the facility to predisaster condition, based on then-existing design.

(iv) If the damaged facility is economically repairable, as determined by the Regional Director, approved restorative work will be limited to the cost of eligible repairs.

(v) An applicant may, at its discretion, request a grant-in-lieu of authorized repair or replacement of the facility to higher standards than provided for herein. Such grant-in-lieu shall not exceed the approved cost estimate of eligible work.

(vi) In every major Federal action or project involving Federal disaster assistance under the Act, the Regional Director shall determine whether or not the quality of human environment may be significantly affected thereby. In any case where affirmative determination may result, the Regional Director shall consult with the Director or his staff to arrange for compliance with section 102, National Environmental Policy Act, Public Law 91-190.

(vii) The minimum policy objective in restoring facilities damaged by a major disaster shall be to assure consideration of the advantages or disadvantages of disaster proofing or relocation before any work or Federal expense is authorized. In restoring damaged facilities by use of Federal disaster assistance, the Regional Director may authorize minimum disaster proofing as eligible work under the Act. When the Regional Director determines that a facility may not be economically restored and disaster proofed in a hazard area, he may authorize relocation to a less hazardous site provided that overall Federal project cost is not increased. He may decline to authorize Federal disaster assistance to restore facilities at the original site when such facilities are subject to repetitive heavy damages or destruction.

(3) The repair or replacement of private, nonprofit medical care facilities by Federal disaster assistance must be justified on the basis of need for such facilities as determined by the OEP Regional Director based on recommendations by the State Coordinating Officer, State and/or local health agency, and the appropriate regional health agency of the Department of Health, Education, and Welfare. No payment will be made for any work which is not the responsibility of the interested private organization or entity. The following general criteria apply for determining the eligibility of the medical care facility:

(i) It must have been in active use and providing significant medical services to the general public prior to the disaster.

(ii) It must have been recognized as an essential or integral part of the comprehensive plan for the provision of required medical facilities for the affected area or community.

(iii) It must be operated in a manner to carry out the tax exempt purposes of the owning organization.

(iv) Damages must have occurred as the result of a major disaster and impair the capability of the medical care facility to perform essential medical services for the general public.

(v) The State must furnish assurances that the hospital will be fully licensed following completion of repair or replacement.

(b) For the purposes of this section, functional furnishings and equipment essential to the operation of the facility will be considered as part of a facility: *Provided, however,* That used or surplus equipment shall be utilized to the extent practicable.

(c) Consumable supplies damaged or lost in a disaster will be considered eligible for replacement to the extent that such replacement is made within 90 days of the date of the President's declaration, but limited to a 90-day requirement of each item so replaced. The 90-day deadline may be waived by the Regional Director where appropriate.

Section 1710.17 is amended to read as follows:

§ 1710.17 Federal assistance for projects under construction.

(a) Federal financial assistance may be provided for the repair, restoration, or reconstruction of any public facility or private, nonprofit medical care facility which was damaged or destroyed as a result of a major disaster and for the additional costs resulting from a major disaster for completion of any such facility which was in the process of construction when damaged or destroyed as a result of such major disaster, based on the following criteria:

(1) Federal reimbursement therefore shall not exceed 50 percent of the eligible costs. Eligible costs are defined to mean those costs incurred by the applicant or one of its contractors or, in the case of a medical care facility, by the interested private organization or entity or one of its contractors, and determined to be eligible by the Regional Director in:

(i) Restoring a facility to substantially the same condition as existed prior to the damage resulting from the major disaster, and

(ii) Completing construction not performed prior to the major disaster to the extent the increase of such costs over original construction costs is attributable to changed physical conditions resulting from the major disaster.

(b) Eligible costs shall not include any interest cost on project funding or any cost for which reimbursement is received pursuant to insurance contracts or otherwise by the party incurring the economic burden of such costs, including reimbursements which might be received from any other Federal agency.

(c) No reimbursement will be made to any applicant for damages caused by its own negligence, or by the negligence of any interested private organization or entity, or by any contractor.

Section 1710.22 is amended by adding the following subparagraph:

§ 1710.22 Nondiscrimination.

• • • • • •

(d) As a condition of receiving assistance under section 255, interested private organizations or entities restoring damaged medical care facilities shall be required to comply with this part and agree in writing that no person in the United States shall, on the grounds of race, religion, sex, color, age, economic status, or national origin, be subjected to discrimination under the subsequent operation of these medical care facilities.

(Public Law 92-209, 85 Stat. 742; Executive Order 11662)

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

UTE TRIBE, UINTAH AND OURAY RESERVATION, UTAH

Determination of Eligibility for Reimbursement

APRIL 11, 1972.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

Section 2 of the Act of September 18, 1970 (84 Stat. 843), authorizes the Secretary of the Interior to reimburse Indians and former members of the Ute Indian Tribe of the Uintah and Ouray Reservation terminated by the Act of August 27, 1954 (68 Stat. 868), who sold project lands that were nonirrigable (determined according to the approved designation of 1964) for the construction, operation, and maintenance charges which were collected from the proceeds of such sales. The Secretary delegated his authority under the Act of September 18, 1970, to the Commissioner of Indian Affairs in section 30 (a) (49) of Secretarial Order 2508 which was published on page 229 of the January 7, 1971, FEDERAL REGISTER (36 F.R. 229).

Notice is hereby given that the individuals named in the listing below are determined to be eligible for reimbursement under section 2 of the Act of September 18, 1970 (84 Stat. 843). Any individual who has objections to any part of this listing may submit an appeal to the Regional Solicitor, Federal Building, 125 South State Street, Salt Lake City, UT 84111, no later than 90 days after the date this notice is published in the FEDERAL REGISTER. The Uintah and Ouray Agency, Bureau of Indian Affairs, will make the payments to the persons determined to be eligible or to their estates within 60 days after all appeals have been resloved or after the Agency receives the congressional appropriation, whichever occurs later.

Effective date. This notice shall be effective upon publication in the FEDERAL REGISTER (4-21-72).

JOHN O. CROW,
Deputy Commissioner.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications and Supersedeas Decisions; New Determinations

There is set forth below general Area Wage Determination Decision No. 6723 of the Secretary of Labor. This decision specifies, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the locality specified therein. The decision is applicable to Federal and federally assisted construction in the described locality situated within the State of Colorado.

The determinations in this decision of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 12-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal or federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the locality described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

This wage determination is effective for a period of 120 days from the date of publication in the FEDERAL REGISTER and is to be used in accordance with the provisions of 29 CFR Part 5. Accordingly, the applicable determination together with any modification issued subsequent to this date during this 120-day period, shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

The area wage determination decisions for localities within the above States are set forth below:

MODIFICATION AND SUPERSEDEAS DECISIONS TO AREA WAGE DETERMINATION DECISIONS

Modification and/or supersedeas decisions to area wage determination decisions for specified localities in Alabama, Arizona, Connecticut, Louisiana, Maryland, Mississippi, New Jersey, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Washington, D.C.

Area wage determination decisions published in the FEDERAL REGISTER on the following dates:

Decision No.	Date
AM-1591, AM-1593 (9693)	Aug. 6, 1971
AM-1706, AM-1713	Aug. 11, 1971
AM-445, AM-490, AM-499, AM-502, AM-503, AM-1856, AM-1859, AM-1866	Aug. 20, 1971
AM-2529 (6721), AM-2530 (6722)	Sept. 3, 1971
AM-7717 (11,414), AM-7717 (11,415)	Nov. 19, 1971
AM-9682, AM-9683	Mar. 3, 1972
AM-9690	Mar. 24, 1972
AM-11,410	Mar. 31, 1972

are hereby modified and/or superseded as set forth below. Supersedeas decision numbers are in parentheses following the number of the decision being superseded.

These modification and/or supersedeas decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since these determinations were issued.

The determinations of prevailing rates and fringe benefits made in these modification and/or supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in the foregoing area wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

The modification and/or supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER until the end of the period for which the determinations being modified and/or superseded were issued and are to be used in accordance with the provisions of 29 CFR Part 5. The modification and/or supersedeas decisions to the area wage determination decisions listed above are set forth below.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. section 553 is set forth in the document being modified.

Signed at Washington, D.C., this 14th day of April 1972.

HORACE E. MENASCO,
Administrator, Employment Standards Administration.

State: Colorado; counties: Denver, Elbert, Douglas, Arapahoe, Adams, Clear Creek, Gilpin, Jefferson, and Boulder.
Decision No. AM-6,723; date: Apr. 21, 1972.
Description of work: Residential construction consisting of single-family homes and garden-type apartments up to and including 4 stories.

Group III: Bander; chucktender (except tunnel); creosote tieman; guinea chaser; powderman helper; riprap stone paver; sandblaster (pot tender); spikers and wrenchers	5.45	.30	.45		.06	
Group IV: Cement dumpers (skip-type mixer or handling bulk cement); chain saw machines (on clearing and grubbing); concrete vibrating machines; gribber and shorer (except tunnel); floor sanders—concrete; hydraulic jacks, and similar mechanical tools not separately herein classified; operators and tenders of pneumatic and electric tools; pipe caulker and/or backup man (pipeline); pipe wrapper; pneumatic gopher; rigger/signalman (pipeline)	5.53	.30	.45		.06	
Group V: Air and water washout nozzleman; asphalt rakers and ironers; driller; grade setter (pipeline); hand-guided trencher and similar operated equipment; jackhammer and/or pavement breakers; pipelayer (including but not limited to nonmetallic, transite and plastic pipe, water pipe, sewer pipe, drain pipe, underground tile and conduit); rock slinger; scaler (using bos'ns chair or safety belt); tampers (mechanical—all types)	5.67	.30	.45		.06	
Group VI: Concrete cutting torch; concrete saw (hand guided); driller (core, diamond, wagon or air track); drill doctor and/or air tool repairman; gunman and mixerman (Gunite); sandblaster (nozzleman)	5.975	.30	.45		.06	
Group VII:						
Concrete road form setter; Gunite nozzleman or rodman; drillers, Joy Mustang, PR 143, 2200 Gardner-Denver, Hydrasonic; powderman; scaler (drillers); welders and/or pipelayers installing process piping	6.485	.30	.45		.06	
Mason tenders	5.835	.30	.45		.06	
Plasterers' tenders	6.15	.30	.45		.06	.1
Employees working underground shall receive 20 cents per hour additional above the regular rate, except where herein specifically covered.						
Laborers employed where they may have a free fall over 30 feet or on construction scaffolds above 30 feet or boat'n chair above 30 feet, or where gas masks are necessary, shall receive 50 cents per hour in addition to their regular rate, except where inherent in classifications.						
Tunnel and shaft workers:						
Group I: Bull gang, muckers, trackman; dumpmen; concrete crew (includes rodders and spreaders); grout crew; swamper (brakeman and switchmen on tunnel work)	5.425	.30	.45		.06	
Group II: Nipper, chucktender, cabletender; vibratorman, jackhammer, pneumatic tools (except driller)	5.56	.30	.45		.06	
Group III: Grout gunman	5.66	.30	.45		.06	
Group IV: Timberman, retimberman—wood or steel blaster, driller powderman; cherry pickerman; powderman—primer house; steel form raiser and setter; Kemper and other pneumatic concrete placer operator miner-finisher	5.76	.30	.45		.06	
Group IV-A: Miners—tunnel (hand or machine)	5.96	.30	.45		.06	
Group V: Diamond drill	6.095	.30	.45		.06	
Group V-A: Shaft and raise miner welder	6.295	.30	.45		.06	
Power equipment operators:						
Group I: Air compressor operator; field equipment-servicemen helper; heavy duty repair helper; heavy duty welder helper; oiler; pump operator	5.98	.40	.50		.02	
Group II: Conveyor operator; generator operator—portable; power grizzly operator; self-propelled; chip spreading machine-conveyor operator; watch fireman; welding machine operator—gasoline and diesel power	6.28	.40	.50		.02	
Group III: Concrete mixer operator—skip type; dinky operator (under 20 tons); Driver-moto paver, Slurry Seal machine, and similar type equipment; motor crane driver; power sweeper operator—Self-propelled; Roes carrier or forklift operator; skip loader operator—all types with rated capacity 1½ cu. yd. or less; wheel type tractor operator (Ford, Ferguson, or similar type) with attachments such as fresno, push blade, posthole auger, mower, etc., excluding compacting equipment	6.68	.40	.50		.02	
Group IV: A-frame boom truck or winch truck operator; asphalt plant firemen; elevator hoist operator (including Tuskey hoist or similar types); grade checker (excluding civil engineer); multiple power concrete saw operator; pavement breaker, mechanical compactor operator, power propelled; roller operator—all types except as otherwise classified; screed operator; self-propelled chip spreading machine operator (including Slurry Seal machine operator) stationary pipe-wrapping and cleaning machine operator; tugger operator	7.12	.40	.50		.02	
Group V: Aggregate plant operator (including crushing screening and sand plants, etc.); asphalt laydown machine operator; asphalt plant mixer operator; belterete machine; boring machine operator; concrete mechanical tamping, spreading or finishing machine (including Clary, Johnson, or similar types); concrete pump operator; concrete batch plant operator, all types and sizes; conductor, brakeman, or handler; elevating grader operator—all types and sizes (except as otherwise classified); field equipment serviceman; highline cableway signalman; Koluman belt loader operator or similar type, w/belt width 48 in. or over; locomotive engineer (including dinky—20 tons weight and over); Moto-paver and similar type equipment operator; operating engineer rigger; pneumatic-tired scraper operator (Turnapull, Euclid, Cat, D–W, Hancock and similar equipment) up to and including 12 cu. yd.; Power Jumbo form setter operator; pressure grout machine operator (as used in heavy engineering construction); road oil mixing machine operator; roller operator—on all types asphalt pavement; self-propelled compactor, with blade; skip loader operator—all types with rated capacity over 1½ but less than 4 cu. yd.; slip form operator (power driven lifting device for concrete forms); soil cement road mixing machine operator—single pass type; stationary central generating plant operator—rated 300 kw. or more; surface heater and planer operator; traveling pipewrapping machine operator	7.56	.40	.50		.20	
Group V-A: Heavy duty mechanic and/or welder; pneumatic tired scraper, all sizes and types over 12 cu. yd. up to and including 45 cu. yd. MRC (Turnapull, Euclid, Cat D–W Hancock, and similar equipment); tractor operator (pusher, bulldozer, scraper) up to 400 net horsepower rating; trenching machine operator	7.82	.40	.50		.02

Classifications	Basic hourly rates	Fringe benefits payments: H & W	Pensions	Vacation	App. Tr.	Other
Group VI: Auto-Grade machine (CMI and similar equipment); boring machine operator (including Mole, Badger and similar type); concrete mixer operator—paving type, and mobile mixer concrete pump operator with boom attachment (truck mounted); crane operator—crawler and pneumatic type, under 100-ton capacity MRC; crawler type tractor operator—with boom attachment, derrick operator; forklift operator for hoisting personnel; Grade-all operator; helicopter hoist; highline cableway operator (less than 20 tons rated capacity); mass excavator operator (180 Buayrus Erie and similar types); mechanical hoist operator (2 or more drums); motor grade operator—any type power blade; motor grader operator with elevating grader attachment; mucking machine operator; overhead crane operator; piledriver engineer (portable, stationary or skid rig); pneumatic-tired scraper operator—all sizes and types (Turnapull, Euclid, Cat, D–W, Hancock and similar equipment over 45 cu. yd. MRC) power driven ditch lining or ditch trimming machine operator; skip loader operator—all types with rated capacity 4 cu. yd. but less than 8 cu. yd.; slip form paving machine operator (including Gunnert, Zimmerman and similar types); specialized power digger operator—attached to wheel-type tractor; tower crane (or similar type) operator; tractor operator (pusher, bulldozer, scraper) 400 net horsepower and over; tugger operator (2 or more); universal equipment operator—shovel, backhoe, dragline, clamshell, etc., up to 8 cu. yd.	6.10	.40	.50		.02	
Group VII: Crane operator—pneumatic or crawler (100 ton hoisting capacity and over MRC rating); helicopter pilot—FAA qualified when used in construction work; highline cableway operator, over 20-ton rated capacity and using traveling head and tail tower; remote control earth-moving equipment operator; skip loader operator—all types with rated capacity of 8 cu. yd. or more; universal equipment—shovel, backhoe, dragline, clamshell, etc., 8 cu yd. and over	6.60	.40	.50		.02	
Multiple-unit earth-moving equipment:						
Tractor operator—pneumatic-tired or track type, 2 units—40 cents per hour more than the base single-unit rate established in Group V, Group V-A, or Group VI, and $1 per hour for each additional unit.						
All operators, oiler, and motor crane drivers on equipment with booms of 80 and over, including jib shall receive .0075 cent per foot per hour premium pay additional to the regular rate of pay.						
Oiler shall be required on all track or crawler-type cranes, backhoes, shovels, clamshells, draglines, gradalls, etc.						
Oiler drivers shall be required on all truck mounted or self-propelled excavating and/or hoisting equipment having the configuration for 2 men.						
Truckdrivers:						
Group I: Pickup; station wagon; teamsters	5.37	.30	.45		.02	
Group II: Buggymobile, 1 cu. yd. or less; bulk cement spreader (2- or 3-axle); bus driver; dump (2- or 3-axle); flatrack (2- or 3-axle); water (under 2,500 gal.)	5.45	.30	.45		.02	
Group III: Bulk cement spreader (4-axle); dump (4-axle); Dumptor or Dumpster, less than 7 cu. yd.; flatrack (4-axle); water (2,500 gal. but less than 4,000 gal.)	5.64	.30	.45		.02	
Group IV: Bulk cement spreader (5-axle); dump (5-axle); Dumptor or Dumpster, 7 cu. yd. but less than 16 cu. yd.; Flaherty spreader or similar type equipment or leverman; flatrack (5-axle); slurry-type equipment or leverman; transit mix, 8 cu. yd. or less mixer capacity	5.95	.30	.45		.02	
Group V: Bulk cement spreader (6-axle); dump (6-axle); flatrack (6-axle); rock truck (Dart, Euclid, and other similar type end dumps, single-unit) less than 16 cu. yd.	6.08	.30	.45		.02	
Group V-A: Oil tanker or spreader truck driver and/or bootman, retortman or leverman	6.20	.30	.45		.02	
Group VI: Bulk cement spreader (7-axle); concrete pump truckdriver (when integral part of transit mix truck); dump (7-axle); flatrack (7-axle); Hydro lift, Swedish crane, Iowa 200 and similar types; Roes carrier fork lift or lifttruck; transit mix, over 10.5 cu. yd. but less than 14 cu. yd. mixer capacity	6.31 6.45	.30	.45		.02 .02	
Group VII: Bulk cement spreader (8-axle) dump (8-axle) flatrack (8-axle)						
Group VIII: Off-highway equipment driver (2- or 4-wheel power units, i.e. Cat DW series, Euclid, International, and similar type equipment, transporting material when top loaded or by external means, including pulling water tanks, fuel tanks, or other teamsters classifications; bulk cement spreader (9-axle); dump (9-axle); dumpter or dumpster, 16 cu. yd. and over; Eject-all; flatrack (9-axle); rock truck (Dart, Euclid, or other similar end dump types) 16 cu. yd. and over	7.085 7.94	.30 .30	.45 .45		.02 .02	
Heavy duty mechanic/welder	6.10	.30	.45		.02	
Heavy duty mechanic/welder helper	7.08	.30	.45		.02	
Field equipment serviceman or fuel truckdriver						
Combination man—30 cents over the highest rated work.						
Multiple-unit equipment driver—2 units 50 cents per hour more than the base single-unit rate established in Group VIII above and $1 per hour for each additional unit.						

State: Arizona: county: Pima.
Decision No. AM-6,722; date of decision: Apr. 21, 1972. Supersedes Decision No. AM-2,530, dated Sept. 3, 1971, in 36 F.R. 17689.
Description of work: Building construction (excluding single-family homes and garden-type apartments up to and including 4 stories), and heavy construction.

MRC); power driven ditch lining or ditch trimming machine operator; skip loader operator—all types with rated capacity 4 cu. yd. but less than 8 cu. yd.; slip form paving machine operator (including Gunnert, Zimmerman, and similar types); specialized power digger operator—attached to wheel-type tractor; tower crane (or similar type) operator; tractor operator (pusher, bulldozer, scraper) 400 net horsepower and over; tugger operator (2 or more); Universal equipment operator—shovel, backhoe, dragline, clamshell, etc., up to 8 cu. yd.	8.10	.40	.50		.02	
Group VII: Crane operator—pneumatic or crawler (100 ton hoisting capacity and over MRC rating); helicopter pilot—FAA qualified when used in construction work; high-line cableway operator, over 20-ton rated capacity and using traveling head and tail tower; remote control earth moving equipment operator; skip loader operator—all types with rated capacity of 8 cu. yd. or more; Universal equipment—shovel, backhoe, dragline clamshell, etc., 8 cu. yd. and over	8.60	.40	.50		.02	
Multiple-unit earth moving equipment: Tractor operator—pneumatic-tired or track type, 2 units—60 cents per hour more than the base single-unit rate established in Group V, Group V-A, or Group VI, and $1 per hour for each additional unit						
All operators, oiler, and motor crane drivers on equipment with booms of 90 and over, including jib shall receive .0075 cent per foot per hour premium pay additional to the regular rate of pay.						
Oiler shall be required on all track or crawler-type cranes, backhoes, shovels, clamshells, draglines, Gradalls, etc.						
Oiler drivers shall be required on all truck mounted or self-propelled excavating and/or hoisting equipment having the configuration for 2 men.						
Truck drivers:						
Group I: Pickup; station wagon; teamsters	5.37	.30	.45		.02	
Group II: Buggymobile, 1 cu. yd. or less; bulk cement spreader (2- or 3-axle); bus driver; dump (2- or 3-axle); flatrack (2- or 3-axle); water (under 2,500 gal.)	5.48	.30	.45		.02	
Group III: bulk cement spreader (4-axle); dump (4-axle); dumptor or dumpster, less than 7 cu. yd. flatrack (4-axle); water (2,500 gal. but less than 4,000 gal.)	5.64	.30	.45		.02	
Group IV: Bulk cement spreader (5-axle); dump (5-axle); dumptor or dumpster, 7 cu. yd. but less than 16 cu. yd.; Flaherty spreader or similar type equipment or leverman; flatrack (5-axle); slurry-type equipment or leverman; transit mix, 8 cu. yd. or less mixer capacity	5.98	.30	.45		.02	
Group V: Bulk cement spreader (6-axle); dump (6-axle); flatrack (6-axle); rock truck (Dart, Euclid, and other similar type end dumps, single unit) less than 16 cu. yd.	6.05	.30	.45		.02	
Group V-A: Oil tanker or spreader truckdriver and/or bootman, retortman, or leverman	6.20	.30	.45		.02	
Group VI: Bulk cement spreader (7-axle); concrete pump truckdriver (when integral part of transit mix truck); dump (7-axle); flatrack (7-axle); Hydro Lift, Swedish Crane, Iowa 200, and similar types; Ross carrier forklift or lift truck; transit mix, over 10.5 cu. yd. but less than 14 cu. yd. mixer capacity	6.31	.30	.45		.02	
Group VII: Bulk cement spreader (8-axle); dump (8-axle); flatrack (8-axle)	6.65	.30	.45		.02	
Group VIII: Off-highway equipment driver (2- or 4-wheel power unit, i.e. Cat, DW series, Euclid, International, and similar type equipment, transporting material when top loaded or by external means, including pulling water tanks, fuel tanks, or other teamsters classifications; bulk cement spreader (9-axle); dump (9-axle); dumptor or dumpster, 16 cu. yd. and over; eject-alls; flatrack (9-axle); rock truck (Dart, Euclid, or other similar end dump types) 16 cu. yd. and over	7.065	.30	.45		.02	
Heavy-duty mechanic/welder	7.94	.30	.45		.02	
Heavy-duty mechanic/welder helper	6.10	.30	.45		.02	
Field equipment serviceman or fuel truckdriver	7.68	.30	.45		.02	

Combination man—20 cents over the highest rated work.

Multiple-unit equipment driver—2 units 50 cents per hour more than the base single unit rate established in Group VIII above; and $1 per hour for each additional unit.

Welders—Receive rate prescribed for craft performing operation to which welding is incidental.
Paid holidays: A—New Year's Day; B—Memorial Day; C—Independence Day; D—Labor Day; E—Thanksgiving Day; F—Christmas Day.
Footnotes:
a. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as vacation pay credit.
b. Paid holidays: A through F.
c. Paid holidays: A through F, Washington's Birthday, Good Friday, and Christmas Eve, provided the employee has worked 45 full days during the 120 calendar days prior to the Holiday, and the regular scheduled days immediately preceding and following the holiday.
d. Paid holidays: A and D through F and Good Friday, provided the employee is available for work the days preceding and following the holiday.
e. Paid holidays: A through F, and Good Friday, provided the employee has been employed for at least 10 working days prior to the holiday and is available for work the day before and after the holiday.
f. Paid holidays: C and D; providing the employee works the day before and the day after the holiday.
g. Paid holidays: B through D, plus Good Friday, provided the employee has been employed 14 consecutive days immediately prior to the holiday.
h. Paid holidays: B through E.
j. Paid holidays: A through F plus Good Friday.
k. Paid holidays: C, D, and E.

SW-CONN-1-P:

Power equipment operators, building construction:					
Derrick, hoist (2 drums or over), structural steel (hoisting and handling), stone setting, pile-driver, lighter derrick, stiff leg and guy derrick	7.50	.20	.15+a	b	
Tower crane, dragline, gradall, hoist, Koehring scooper loader and/or hoe, shovel, front end loader (7 yd. or over) forklift (over 4 ft. lift)	7.40	.20	.15+a	b

CONSTRUCTION OF CERTAIN TANKERS

Computation of Foreign Cost; Notice of Intent

Notice is hereby given of the intent of the Maritime Subsidy Board to recompute the estimated foreign costs of the construction of tankers of about 225,000 d.w.t. pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended.

Any person, firm or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on May 2, 1972, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235.

Dated: April 19, 1972.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

ATOMIC ENERGY COMMISSION

LIQUID METAL FAST BREEDER REACTOR (LMFBR) DEMONSTRATION PLANT

Notice of Availability of the General Manager's Final Environmental Statement

Notice is hereby given that the final environmental statement on the Liquid Metal Fast Breeder Reactor (LMFBR) Demonstration Plant, issued pursuant to the Atomic Energy Commission's implementation of section 102(2)(C) of the National Environmental Policy Act of 1969, is being placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545.

The statement will also be in the Commission's Idaho Operations Office, Post Office Box 2108, Idaho Falls, ID 83401; Oak Ridge Operations Office, Post Office Box E, Oak Ridge, TN 37830; San Francisco Operations Office, 2111 Bancroft Way, Berkeley, CA 94704; Chicago Operations Office, 9800 South Cass Avenue, Argonne, IL 60439; and the New York Public Document Room, 376 Hudson Street, New York, NY 10014.

The final environmental statement will be furnished upon request addressed to the Assistant General Manager for Environment and Safety, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Germantown, Md., this 17th day of April 1972.

For the Atomic Energy Commission.

W. B. McCOOL,
Secretary of the Commission.

[Docket No. 50-286]

NEBRASKA PUBLIC POWER DISTRICT

Notice of Availability of Applicant's Supplemental Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Applicant's Supplement to the Environmental Report—Operating License Stage—Cooper Nuclear Station" submitted by the Nebraska Public Power District has been placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Auburn Public Library, 1118 15th Street, Auburn, NE 68305. The report is also being made available at the State Office of Planning and Programming, State Capitol, Box 94601, Lincoln, NE 68509, and the Southeastern Nebraska Joint Planning Commission, Humboldt, Nebr. 68370.

This report discusses environmental considerations related to the proposed operation of the Cooper Nuclear Station located near the village of Brownville, Nemaha County, Nebr. Notice of availability of report entitled "Applicants Environmental Report—Operating License Stage," was published in the FEDERAL REGISTER on December 7, 1971 (36 F.R. 23264).

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft environmental statement. The summary notice will request comments from interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that comments thereon by Federal agencies and State and local officials will be available when received.

Dated at Bethesda, Md., this 14th day of April 1972.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Director for Boiling Water Reactors, Division of Reactor Licensing.

STATE OF NEVADA

Proposed Agreement for Assumption of Certain AEC Regulatory Authority.

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of Nevada for the assumption of certain of the Commission's regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A narrative, prepared by the State of Nevada and describing the State's proposed program for control over sources of radiation, is set forth below as an appendix to this notice. A copy of the program narrative, including the referenced appendices, appropriate State legislation and Nevada regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, or may be obtained by writing to the Director, Division of State and Licensee Relations, U.S. Atomic Energy Commission, Washington, D.C. 20545. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them, in triplicate, to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Branch, within

V37-78 APR 21 72 XUM

30 days after initial publication of this notice in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, have been published in the FEDERAL REGISTER and codified as Part 150 of the Commission's regulations in Title 10 of the Code of Federal Regulations.

Dated at Germantown, Md., this 27th day of March 1972.

For the Atomic Energy Commission.

W. B. McCOOL,
Secretary of the Commission.

PROPOSED AGREEMENT BETWEEN THE UNITED STATES ATOMIC ENERGY COMMISSION AND THE STATE OF NEVADA FOR DISCONTINUANCE OF CERTAIN COMMISSION REGULATORY AUTHORITY AND RESPONSIBILITY WITHIN THE STATE PURSUANT TO SECTION 274 OF THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Whereas, the U.S. Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under Section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act), to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas, the Governor of the State of Nevada is authorized under Nevada Revised Statutes 459.080 to enter into this Agreement with the Commission; and

Whereas, the Governor of the State of Nevada certified on March 9, 1972, that the State of Nevada (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas, the Commission found on ---------- that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, the State and the Commission recognize the desirability and importance of cooperation between the Commission and the State in the formulation of standards for protection against hazards of radiation and in assuring that State and Commission programs for protection against hazards of radiation will be coordinated and compatible; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemptions from licensing of those materials subject to this Agreement; and

Whereas, this Agreement is entered into pursuant to the provisions of the Atomic Energy Act of 1954, as amended;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

ARTICLE I

Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

ARTICLE II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ARTICLE III

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ARTICLE IV

This Agreement shall not affect the authority of the Commission under subsection 161 b. or i. of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ARTICLE V

The Commission will use its best efforts to cooperate with the State and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulation of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

ARTICLE VI

The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ARTICLE VII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

ARTICLE VIII

This Agreement shall become effective on July 1, 1972, and shall remain in effect unless and until such time as it is terminated pursuant to Article VII.

Done at ----------, State of Nevada, in triplicate, this ------ day of ----------, 1972.

For the U.S. Atomic Energy Commission.

For the State of Nevada.

MIKE O'CALLAGHAN, *Governor.*

FOREWORD

The State of Nevada, while recognizing that the scientific, medical, and industrial usages of atomic energy can be beneficial to its citizens, is also cognizant of the hazards inherent to ionizing radiation. With these hazards in mind, and considering that the State is ever committed to the protection of public health and safety, the Nevada State Legislature enacted the Nuclear Affairs Act.

This Act, and supplemental legislation, provides the legal structure for a comprehensive radiological health and regulatory program compatible with that of the U.S. Atomic Energy Commission and that of those States who have entered into agreement with the Commission.

The Act authorizes the Governor, on behalf of the State, to enter into an agreement with the Federal Government providing for discontinuance of certain responsibilities of the Federal Government relating to ionizing radiation and the assumption of such responsibilities by the State. The Act also designates the Nevada State Board of Health as the radiation control agency for the State.

The following narrative relates the history, current practices, proposed activities, capabilities, and resources of the State in the field of radiological health.

HISTORY

1931 The State Legislature passed a law prohibiting the use of X-rays for the treatment of the scalp or for the removal of surplus hair by cosmetologists (NRS 644.470).

1959–60 One State employee attended a U.S. Atomic Energy Commission sponsored Health Physics Course at Oak Ridge, Tenn.

A laboratory radiation counter was purchased for the purpose of determining background levels from selected stations within the State.

A course for Radiological Defense Instructors was given to personnel from State, county, and city organizations by State Health Division personnel.

A law was passed in 1960 preventing the operation or maintenance of any shoe-fitting device using fluoroscopic or radiation principles (NRS 202.245).

1961–62 During this period, a medical and dental X-ray survey of diagnostic X-ray machines in the State was conducted. This survey, which was voluntary and performed only in those installations requesting it, was accomplished by teams composed of U.S. Public Health Service and State Health Division personnel. The primary objectives of the survey were to check collimation and filtration of the X-ray units and make recommendations where necessary.

Regulations governing the manufacture, use, storage, handling, transportation and disposal of ionizing radiation producing devices and materials were prepared for and adopted by the Nevada State Board of Health in January 1962. The regulations provided standards to assure minimum exposure to personnel handling or working with ionizing radiation producing devices and materials and to the general public.

Acquisition of Federal land near Beatty, Nev. was authorized for lease to Nuclear Engineering Co. as a low-level, solid radioactive waste burial site.

The first phase of a program to establish a Radiological Defense Organization for the Nevada Civil Defense Agency was also completed during this period. This phase entailed training of Highway Department and Highway Patrol personnel as radiation monitors in the event of nuclear war. All Highway Maintenance Stations, Highway District Headquarters, Highway Patrol Stations, and approximately half of the Highway Patrol vehicles were supplied with radiation monitoring instruments.

1963–64 During this period, training and refresher courses for radiological monitors for the Civil Defense Agency were continued. Most of this training was directed at State employees. Establishment of 167 radiological fallout monitoring stations provided with 1,000 radiation detection instruments was completed. Maintenance of the radiation detection instruments was improved by the acquisition of Federal funds for a maintenance shop and technicians' salaries.

In 1963, the State Radiation Control Act was adopted for the control of ionizing radiation within the State, and enabling the State to enter into an agreement with the Federal Government to assume responsibilities relating to sources of ionizing radiation previously the responsibility of the Federal Government (NRS 459.010 to 459.160, inclusive).

Two employees attended a U.S. Atomic Energy Commission orientation class for agreement States and two employees attended a U.S. Public Health Service course on gamma spectroscopy during this period.

A voluntary resurvey of medical diagnostic X-ray units was made during June and July, 1964 by U.S. Public Health Service teams.

1965–66 State personnel surveyed all new or relocated X-ray machines. In the 2-year period, 128 new or relocated X-ray tubes in medical and dental facilities were inspected.

Participation in U.S. Public Health Service environmental programs included collecting representative portions of meals served at the State Children's Home in Carson City for analysis by the Southwest Radiological Health Laboratory at Las Vegas. Analysis for fission product residue was performed to determine the contribution of diets to radionuclide body burden for the general public. All of the milk stools in the State were sampled monthly for a similar analysis.

1969–70 In 1969, the text of the Western Interstate Nuclear Compact was enacted into law (NRS 459.200 to 459.240, inclusive). The Compact provides for a cooperative effort in nuclear and related fields to enhance the economy of the West and contribute to the individual and community well-being of the region's people.

The State Superintendent of Public Instruction and all county supervisors were apprised of the hazards involved due to the use of cold cathode gas discharge tubes.

State personnel accompanied U.S. Atomic Energy Commission compliance inspectors on inspections of AEC-licensed facilities within the State during this biennium, as they have on many previous occasions.

1971 In 1971, legislation was passed controlling air pollution and water pollution (respectively, NRS 445.401 to 445.601, inclusive; and NRS 445.130 to 445.385, inclusive). The Commission of Environmental Protection was created by this legislation as the controlling agency for air and water pollution.

PRESENT PROGRAM

Two full-time radiation control specialists were hired by the State in September, 1971, to implement the radiation control program. Their major efforts up to this time have been the preparation of radiation control regulations, activities to enable the State to become an agreement State with the U.S. Atomic Energy Commission, participation in several lengthy training courses sponsored by the U.S. Atomic Energy Commission and the Environmental Protection Agency, and on-the-job training.

SCOPE OF ACTIVITIES

The radiation control program encompasses the regulatory program associated with licensing of radioactive materials and registration of radiation producing machines, environmental surveillance, and response to emergency situations involving sources of radiation.

Within the State of Nevada, there are an estimated 368 X-ray machines: 188 dental units; 200 medical units, fluoroscopic and diagnostic; and six reported for industrial radiography. The number of U.S. Atomic Energy Commission Licenses within the State of Nevada in effect January 1, 1972, was 44. The number of radium sources is not known; but the number of facilities reported using radium sources is eight: four medical, three industrial and one institutional. There are an estimated five particle accelerators being used, with two accelerators to begin routine operation in the latter part of 1972.

There are few installations which may necessitate environmental surveillance activities. A research reactor is operable at the University of Nevada, Reno; a commercial burial site for low-level radioactive waste is located at Beatty, Nev.; and the Nevada Test Site.

STATUTORY AUTHORITY

The following Nevada Revised Statutes (NRS) provide for the Governor to enter into an agreement with the U.S. Atomic Energy Commission, administrative procedures, authority to promulgate regulations, enforcement of regulations, administration of public health, special prohibited uses of ionizing radiation, and mutual aid in the event of nuclear incident.

NRS 459.010–459.160, inclusive, "State Radiation Control." This statute provides for Federal-State agreements concerning the responsibility for control of sources of ionizing radiation, designates the State Board of Health as the State radiation control agency, and provides the basis for radiation control.

NRS 459.200, "Western Interstate Nuclear Compact." Article VI of this statute provides for mutual aid between party States in the event of a nuclear incident.

NRS 233B, "Nevada Administrative Procedures Act." This Act establishes minimum procedural requirements for regulation-making and adjudication procedures of all agencies of the executive department of the State government and for judicial review of both functions. The provisions of the law are intended to supplement statutes applicable to specific agencies.

NRS 439, "Administration of Public Health." 439.130 requires the State Health Officer to enforce all laws and regulations pertaining to public health and empowers him to enter upon and inspect any public or private property in the State in the course of his work, and authorizes subordinates to act in his place and stead.

439.150 declares that the State Board of Health be supreme in all health matters except administrative matters and that it shall have supervision over the work of the State Health Officer.

439.200 declares that the State Board of Health shall have the power to adopt, promulgate, amend and enforce reasonable rules and regulations consistent with law and that such rules and regulations shall have the force and effect of law and shall supersede all local ordinances and regulations enacted inconsistent therewith.

NRS 202.245, states that no person may operate or maintain any shoe-fitting device or shoe-fitting machine which uses fluoroscopic, X-ray, or radiation principles.

NRS 644.470, prohibits the use of any X-ray machine by cosmetologists in the treatment of the scalp or in the removal of surplus hair.

NRS 445.130 to 445.385, inclusive, provides for the control of water pollution within the State.

NRS 445.401 to 445.601, inclusive, provides for the control of air pollution within the State.

PROCEDURES AND POLICIES

LICENSING AND REGISTRATION

The Bureau of Environmental Health, Division of Health, is charged with the responsibility of operating the radiation control program for the Nevada State Board of Health. The program shall regulate and control the usage of all sources of ionizing radiation within the State including radium and accelerator produced nuclides, X-ray generating machines, and particle accelerators. Registration is required for the use of X-ray machines and particle accelerators, and licensing is required for the use of radioactive materials.

The licensing program shall be essentially the same as that presently utilized by the U.S. Atomic Energy Commission and shall use criteria established by the U.S. Atomic Energy Commission. The Chief of the Bureau of Environmental Health and key staff members will evaluate each radioactive material license application, and perform preliconsing visits if deemed necessary. The U.S. Atomic Energy Commission shall be consulted concerning the nonroutine medical uses of radioactive material, and for any circumstance which indicates that advice and guidance concerning the application of radiation or radioactive material is required. Upon approval, specific licenses shall be endorsed by the State Health Officer or his duly authorized representatives for the Nevada State Board of Health.

INSPECTION

Qualified staff personnel shall conduct inspections of licensees' and registrants' facilities to assure compliance with the regulations and to evaluate the adequacy of radiation protection programs. Inspection shall be either by pre-arrangement or on an unscheduled basis during working hours.

Licensees' and registrants' facilities shall be inspected on a priority basis determined by the classification of use, degree of hazard, previous violations, training, and experience of the user and other relevant factors. The initial planned inspection frequencies are as follows:

V 37-78 APR 21 72 XUM

Category	Anticipated inspection frequency (months)
Industrial radiography	12
Operations involving waste disposal	6
Broad licenses, industrial, medical, or academic	12
Other specific licenses, industrial, medical or academic	12–24
X-ray, medical, industrial, or academic	12–24

The above inspection frequencies are subject to change due to circumstances and experience. At the start of an inspection, personal contact at management level will be made whenever possible. At the completion of each inspection, the inspector will confer with licensee management to discuss the results of his inspection, presenting oral recommendations or suggestions as required and answering questions concerning the regulatory program.

A comprehensive written report concerning each inspection shall be prepared by the inspector and reviewed by qualified Bureau of Environmental Health personnel.

COMPLIANCE AND ENFORCEMENT

The status of compliance with regulations, registration, or license conditions shall be determined through inspections and evaluations of inspection reports. Licensees and registrants shall be informed of the results of all inspections, orally at the time of inspection and by letter or notice from the Agency.

When items of minor noncompliance are found and the licensee or registrant agrees at the time of inspection to correct them promptly, no further action shall be taken by the inspection Agency, except that the licensee or registrant shall receive a letter from the Agency stating the items of noncompliance, and that these items shall be checked at the next scheduled inspection.

When items of major noncompliance are found, the licensee or registrant shall be informed orally at the time of inspection and subsequently by letter of the items of noncompliance and he shall be required to reply in writing within a stated time as to the corrective action taken and the completion date or anticipated completion date of the corrective action. Assurance that the corrective action has been taken shall be determined by a followup inspection or at the time of the next regularly scheduled inspection, as circumstances warrant.

A license, upon request of a licensee, may be amended to be consistent with the Act or regulations or to meet changing conditions in operations. The Agency may amend, suspend, or revoke a license in the event of continual refusal of the licensee to comply with the terms and conditions of the license, the Act, or regulations, or failure to take adequate action concerning items of noncompliance. Prior to such action, the Agency shall notify the licensee of its intent to amend, suspend, or revoke the license and provide the opportunity for a hearing.

Whenever the Agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, it may without notice or hearing issue a regulation or order noting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. The Agency, in the event of an emergency, is empowered to impound or order the impounding of sources of ionizing radiation upon finding that the possessor is unable to observe or is not willing to observe the provisions of the Act, or regulations issued thereunder. After these actions, the licensee has a right to a hearing.

A court order directing a person to comply, or enjoining such practices in violation of the Act or regulations, may be sought by the Attorney General in the appropriate court upon request of the Agency, after notice to such persons and ample opportunity to comply has been offered.

The Agency shall endeavor to gain compliance by cooperative and educational methods. Only in instances of repeated noncompliance, willful violation, or where serious potential hazards exist, shall the full weight of legal procedure normally be employed.

EFFECTIVE DATE OF LICENSE TRANSFER AND RECIPROCITY

Any person who, on the effective date of the agreement with the U.S. Atomic Energy Commission, possesses a license issued by the U.S. Atomic Energy Commission shall be deemed to possess a like license issued by the Agency which shall expire either 90 days after the receipt from the Agency of a notice of expiration of such a license or on the date of expiration specified in the Federal license, whichever is earlier. The Nuclear Affairs Act enacted by the Nevada Legislature and the Rules and Regulations promulgated by the Nevada State Board of Health pursuant to the above legislation provides for recognition of licenses issued by the U.S. Atomic Energy Commission or agreement States.

RADIOLOGICAL EMERGENCY CAPABILITY

The State of Nevada Emergency Procedures Manual and Nevada Revised Statute 459.120 designates the Department of Health, Welfare, and Rehabilitation and the Nevada State Board of Health, respectively, as the responsible agencies in the event of an accident involving radioactive materials. It will be the responsibility of the Bureau of Environmental Health to respond for these agencies in such an emergency.

Notification of an emergency may be by a State licensee or by the Nevada State Highway Patrol, local enforcement agencies, or local fire departments through the Atomic Energy Commission. Nevada State Highway Patrol, local enforcement agencies, and local fire departments have, during various training courses, received cards and posters listing the telephone numbers of the Atomic Energy Commission.

Bureau of Environmental Health personnel shall respond either as the emergency response team or as the agency responsible for public health and safety. The nature of the response may vary from an office evaluation and advisement of controls to on-the-site evaluation, radiation, and radioactivity measurements, establishment of controls, and coordination of support agencies.

Upon request, the State Civil Defense and Disaster Agency shall coordinate the transportation of Bureau personnel to the site of the incident, the installation of a communication network, and the supply of any power and heavy duty equipment needed. For any transportation or communications not provided, the Bureau will depend on commercial and other State organizations.

The State of Nevada is a member of the Western Interstate Nuclear Compact. Should circumstances warrant during the course of a radiological incident, member States of the Compact shall be requested to provide assistance to the State according to the mutual aid feature of the Compact.

The Bureau of Environmental Health will make a request to the Environmental Protection Agency, Western Environmental Research Laboratory, for any radioanalysis required beyond the capability of the Bureau's laboratory instrumentation.

Future plans for emergency situations include a review and revision of existing radiological emergency procedures reflecting the enlarged staff, the acquisition of any special radiation detection instrumentation which may be required, the formation of a radiological emergency team and the preparation of radiological emergency kits which will be available for immediate use.

ORGANIZATION AND STAFF

The State Board of Health is designated as the radiation control agency for the State by the Radiation Control Act and is authorized to carry out the provisions of the Act. The State Division of Health is responsible for the radiation control program for the Board of Health, with implementation of the program performed by the Bureau of Environmental Health. The State Health Officer functions as the head of the Division of Health, and as Secretary to the Board of Health. The Radiological Control Section is under the Chief, Bureau of Environmental Health, who reports to the State Health Officer. These relationships are illustrated in Chart 1 of the Appendix.

The two radiation control specialists in the Radiological Control Section shall devote full time to the radiation control program for licensing and registration functions, inspection of licensed and registered facilities, response to emergency situations, and to all other radiation control activities within the State over which the State Board of Health has authority. This section shall maintain all records pertinent to the radiation control program including those which will permit the U.S. Atomic Energy Commission to evaluate the status of the program with regard to its compatibility with those of other agreement States, and that of the Commission. The Chief and the Assistant Chief of the Bureau shall participate in licensing and registration functions to provide greater manpower depth to the small Radiological Control Section.

The Commission of Environmental Protection is the agency responsible for the control of air and water pollution within the State. However, the regulations promulgated by the Commission will not conflict with those of the Board of Health for radiation control. The Bureau of Environmental Health is designated as the advisory and implementing agency for the Commission, and the Chief, Bureau of Environmental Health is the Control Officer for the Commission. The relationship between the Board and the Commission is illustrated in Chart 2 of the Appendix.

Position titles, education, and experience of Bureau of Environmental Health personnel directly involved in the activities of the radiological health program are listed below. Replacements for these personnel, if required, shall be recruited as soon as possible. The level of experience, education, and training shall be that required by the position descriptions contained in the Appendix.

ERNEST G. GREGORY—*Chief, Bureau of Environmental Health*

Education

University of Nevada—B.S. Civil Engineering; 1951.

Other Training

USPHS—Basic Radiological Health; 2 weeks.
USPHS—Gamma Spectroscopy; 2 weeks.

Experience

1965–Present Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1956–65 Public Health Engineer, Bureau of Environmental Health, Nevada State Health Division. Principal area of responsibility was in water pollution control. From 1958 to 1968 served as the Civil Defense Radiological Officer for the State, which included the training of Civil Defense radiation monitors and radiation monitor instructors. Held a byproduct material license for Civil Defense Model CDV-784–786 radioactive sources.

1952–56 Right-of-way Agent, Nevada State Highway Department.

1951–52 Hydrologist, U.S. Bureau of Reclamation.

Miscellaneous

Registered Professional Engineer:
Wendell D. McCurry—Assistant Chief, Bureau of Environmental Health.

Education

Murray State Agricultural College—A.S. Engineering; 1959–61.
Oklahoma State University—B.S. Civil Engineering; 1963.
Oklahoma State University—M.S. Public Health and Sanitary Engineering; 1965.
University of Florida—Post Graduate work in Environmental Engineering and Radiological Health; 1964–66.

Other Training

USPHS—Occupational Health Course; 2 weeks.
AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
USPHS—Medical X-ray Protection; 2 weeks.

Experience

1970–Present Assistant Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1966–70 Public Health Engineer II, Nevada State Health Division. Duties very similar to present position.

Miscellaneous

Registered Professional Engineer:
William C. Horton—Radiation Control Specialist III.

Education

University of New Mexico—B.S. Geology; 1958.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
USPHS—Basic Radiological Health; 2 weeks.
Picker X-ray Corp.—Isotopes and X-rays for Industrial Radiography; 1 week.
Defense Atomic Support Agency and Reynolds Electrical and Engineering Company—Emergency Radiation Team Training; 1 week each course.
AEC—Ten-week Health Physics course beginning April 3, 1972.

Experience

1971–Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1967–71 Supervisor of Environmental Monitoring, Battelle Northwest, Richland, Washington. Primarily responsible for implementing the overall environmental surveillance program at Hanford. Supervised radiation monitors taking samples and performing radiation and contamination surveys in the environs. Assisted in program planning, analytical result evaluation, and program coordination. Provided liaison with analytical laboratories.

1966–67 Engineer, ACFI, Inc., Albuquerque, New Mexico. Had primary responsibility for all radiological protection in a manufacturing plant possessing numerous X-ray devices and sealed radioactive sources. Provided shielding design for radiographic facilities and radiological protection requirements for a U 235-loaded graphite testing facility. Prepared formal operating procedures governing non-destructive testing and radiological protection practices.

1959–97 Seismologist and Party Chief, Continental Oil Company, Ponca City, Oklahoma. Primary responsibility was for operation of geophysical field crew exploring for oil, and interpretation of geophysical and geological data.

Richard W. Reynolds—Radiation Control Specialist II.

Education

University of Nevada—B.S. Zoology; 1966.
University of Nevada—M.S. Nuclear Engineering; 1971.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
Reynolds Electrical & Engineering Co.—Basic Radiological Monitoring.

Experience

1971—Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1968–71 Graduate Research Fellow, Department of Nuclear Engineering, University of Nevada, Reno, Nev.

1966–68 Health Physicist, Health Physics Branch, Mare Island Naval Shipyard, Vallejo, Calif. Primary responsibility was the supervision of field surveillance of storage and usage of sources of ionizing radiation in medical, nondestructive test, instrument calibration, supply, and nuclear propulsion programs.

1964 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary duty assignment was gamma spectral analysis of filter systems used for aerosol surveillance during nuclear device testing.

1962–63 Nuclear Powerman, U.S. Army, Walter Reed Army Medical Center, Washington, D.C. Primary duty assignment was radiochemical analysis of coolant, effluent and environmental samples from research reactor areas at this installation.

1960–61 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary assignment was the radiochemical analysis of environmental and bioassay samples, collected as part of the surveillance program for GEROME, PLUTO, NERVA, and other projects.

BUDGET FOR THE RADIOLOGICAL HEALTH SECTION

Fiscal year 1971–72	
Personnel	$36,295.71
Travel (In-State)	2,833.00
Travel (out-of-State)	----------
Operating expenses	2,286.00
Capital equipment	3,000.00
Total	34,943.71
Fiscal year 1972–73	
Personnel	27,381.74
Travel (In-State)	3,500.00
Travel (out-of-State)	----------
Operating expenses	2,464.00
Capital equipment	----------
Total	33,345.74

NOTE: For the capital equipment budget for fiscal year 1971–72, it is anticipated that matching funds for procurement of radiation detection and measurement equipment will be obtained from the Federal Office of Civil Defense, Department of the Army.

INSTRUMENTATION

Listed below is the field and laboratory instrumentation and radioactive sources which the Bureau of Environmental Health will utilize for the detection and measurement of radiation during routine inspections and emergencies for the identification and measurement of radioactive materials during periodic environmental surveillance and for the standardization of instrumentation, respectively.

Field Instrumentation—Survey

	Alpha	Range
1	Eberline Alpha Counter, scintillation type, Model Pac-4.	0–2 x 10^4 c.p.m.
	Neutron	
1	Nuclear Chicago Portable Survey Meter, Model 2571.	0–2.5 x 10^4 n/cm.²/sec.
	Beta, X-rays, and Gamma	
1	Eberline Beta-Gamma Counter, GM Type, Model E-250.	0–2 R/hr. 0–6000 K c.p.m.
2	Victoreen Survey Meters, ion chamber type, Model 470.	0–300 mR/hr. and R/hr.

Calibration and Standard Measurements

2 Victoreen Condensor R-meters, Model 570.
2 Victoreen R-meter chambers, Model 130, 0–250 mR, 30–500 keV.
2 Victoreen R-meter chambers, Model 227, 0–1R, 30–500 keV.
1 Victoreen R-meter chamber, Model 552, 0–2.5R, 400–1200 keV.
2 Victoreen R-meter chambers, Model 70–5, 0–25R, 30–250 keV.
1 Victoreen R-meter chamber, Model 326, 0–10R, 30–250 keV.

Sources

1 set of Tracerlab Gamma Spectrometer Sources, Model R-35.
1 set of Eberline Pu^{239} Calibration Sources, Model SS4-1
1 Tracerlab C^{60} source, Model R210.

LABORATORY INSTRUMENTATION

Gamma Spectroscopy

1 Tracerlab Model SC-76S single channel analyzer interconnected with a Tracerlab Model SC-71 scaler, Model SC-57B Auto-Printer, and SC-57A well scintillation detector, which houses a 3-inch x 1¾-inch NaI well crystal.

Alpha, Beta, and Gamma Measurements

1 Tracerlab Model SC-71 scaler connected with a Model SC-57B Auto-Primer and FD-2 Flow Detector, used both as a geiger and proportional counter, and a SC-57A well scintillation detector.

CIVIL AERONAUTICS BOARD

[Docket No. 24868, etc.; Order 72-4-60]

AIRLIFT INTERNATIONAL, INC.

Order of Suspension Regarding Air Freight Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of April 1972.

By tariff revision[1] bearing the issue date of March 15 and marked to become effective April 18, 1972, Airlift International, Inc. (Airlift), proposes, inter alia, to reduce the rates on shipments of 1,000 pounds or more on office machines, radio

[1] Revisions to Airline Tariff Publishers, Inc., agent, Tariff CAB 141.

V 37-78 APR 21 72 XUM

and television sets, and cameras,[3] from Los Angeles and San Francisco to New York and Newark to the level of rates for shipments of 10,000 pounds and over. Both the current and proposed rates are applicable only on shipments originating at points other than in the continental United States or Canada for which transportation was supplied by an ocean vessel[4] and destined to points in Europe or Africa. The export movements must be (1) on a through air waybill, or (2) by ocean carrier, in which case the air waybill must clearly show the mode of transport beyond New York/Newark. The proposed, as well as the current, rates are scheduled to expire July 1, 1972.

Complaints variously requesting rejection or in the alternative, suspension pending investigation, have been filed by American Airlines, Inc. (American), and the Flying Tiger Line, Inc. (Tiger). The complainants assert, inter alia, that the proposed rates are below competitive truck rates, and are below the carrier's costs including the operation of efficient terminal service. It is asserted that the increased out-of-pocket cost per 100 pounds for 1,000-pound shipments for extra functions will diminish or wipe out any revenue contributions that might be received from 10,000-pound shipments moving at the 10,000-pound rate. In addition, the complaints challenge the contention that such reductions are needed to meet competition from Canadian carriers and allege that the proposed rates would result in significant diversion of traffic from them, or dilution of yield from existing traffic if they are forced to reduce their rates.

In support of its proposal and in answer to the complaints, Airlift asserts that the Canadian rates[5] with which its 10,000 pound import/export rate was originally filed to compete are subject, not to a minimum weight per shipment, but to a yearly minimum of 50,000 pounds, and the traffic consists largely of 1,000- to 5,000-pound shipments. Airlift submits that data on its traffic volume, while not conclusive, show substantial growth and significant traffic volume moving under the 10,000-pound rates.

The rates proposed by Airlift come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and the lawfulness of these rates will be determined in that proceeding. The issue now before us is whether to suspend the proposed rates or to permit them to become effective, during the effective period of the tariff.

Upon consideration of the complaints and other relevant matters, the Board finds that the proposed rates should be suspended.

By order 71-6-81, the Board dismissed a complaint by Tiger and permitted Airlift to place into effect a rate of $7.52 per 100 pounds on 10,000-pound shipments of the same commodities effective July 1, 1971. In that order the Board concluded that the resultant airport-to-airport rates, after deducting the cost of import services, were not out of line with rates on other domestic movements in the same markets, that the issue of traffic generation as compared to revenue dilution could be best determined on the basis of actual experience, and that in these circumstances Airlift should not be precluded from meeting the competition of Canadian carriers.

Airlift's current proposal, $7.52 per 100 pounds, for shipments of 1,000 pounds and over, however, would effect reductions between 29 and 61 percent below currently applicable rates. They would result in significantly lower net returns to the carrier after deducting the costs of the import services to cover the line-haul movements. This is due chiefly to the significantly higher unit pickup charges for smaller shipments. Thus, while the net returns from the rates for 10,000-pound shipments are estimated to range between $5.60 and $6 per 100 pounds, the net returns for 1,000-pound shipments in the San Francisco-New York market would be, according to complainants, from $3.92 to $4.10 per 100 pounds. For 5,000-pound shipments, the net returns would range from $5.26 to $5.44 per 100 pounds. The yields per ton-mile would range between 3 and 4.2 cents per ton-mile. These returns and yields would be lower than for the rates in effect on any other commodities in this market, and a similar situation exists from Los Angeles.

In view of the suspension ordered herein, the Board does not reach the request for rejection filed by Tiger.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the rates from Los Angeles, Calif., to New York, N.Y.-Newark, N.J., for item Nos. 1, 2, and 6, bearing the reference "EC," subject to minimum weights of 1,000 pounds, 2,000 pounds, 3,000 pounds, and 5,000 pounds and the cancellation of the rates from Los Angeles, Calif., to New York, N.Y.-Newark, N.J., for item Nos. 1 and 2 subject to the minimum weight of 500 pounds, appearing on 18th Revised Page 24-A of Airline Tariff Publishers, Inc., agent's CAB No. 141, are suspended and their use deferred to and including July 16, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaints of American Airlines, Inc., in Docket 24358, and of the Flying Tiger Line, Inc., in Docket 24368, are dismissed; and

3. Copies of this order shall be filed with the tariff and served upon Airlift International, Inc., American Airlines, Inc., and the Flying Tiger Line, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[1]

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-6131 Filed 4-20-72;8:52 am]

[3] The commodities included are in the following groups:

No. 1—Calculators, or parts thereof, n.e.s.: (a) Machines, office, namely: Card-punch, sorting, tabulating, or computing machines and parts thereof; (b) Alcohol (when in mixed shipments with articles listed in (a) above); office machines, or parts thereof, n.e.s.; and typewriters.

No. 2—Radios, receiving or transmitting sets, other than console, and radio tubes, transistors, or parts thereof; record players or phonographs; recording machines, tape or wire, or parts thereof; and television receivers or parts thereof.

No. 6—Cameras or camera parts, cinema or photographic.

[4] The rates would also apply to shipments stored at port of entry for a period not exceeding 18 months from the date the vessel was registered at the customs house at the point of entry. The rates proposed cover the following services or expenses in addition to airport-to-airport transportation at no additional charge: Initial custom house entry, wharfage fees, handling, loading, and cartage services within the origin airport city.

[5] Rates apply from Vancouver to Montreal, and are thus available for traffic originating in the Far East and terminating in Europe.

[1] Members Minetti and Murphy included a dissenting statement, filed as part of the original document.

[Docket No. 22398; Order 72-4-77]

COMMONWEALTH OF PUERTO RICO ET AL.

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of April 1972.

This matter is before the Board on a motion by the Commonwealth of Puerto Rico for review of the decision of the Director, Bureau of Enforcement, declining to institute a formal enforcement proceeding with respect to the Commonwealth's complaint charging various violations of the Federal Aviation Act of 1958 (Act) by Eastern Air Lines, Inc. (Eastern), and Pan American World Airways, Inc. (Pan Am).[1]

The Commonwealth's complaint rests upon the following circumstances: Both Eastern and Pan Am have published and maintained in effect at all times relevant hereto tariffs showing three classes of nonstop service in the Miami-San Juan markets, which are first class (F), economy class (Y), and thrift class (K).[2] These services have been provided on dually-configured jet aircraft which can provide either F and Y or F and K services, depending upon which services are "designated" in the carrier's general schedules for each particular flight.[3] All economy class (Y) nonstop service was discontinued by the carriers by June, 1964 in favor of the less expensive and simpler thrift class (K) service, pursuant to the "designation" provisions of their applicable tariffs, and the schedules of both carriers indicate that only F/K nonstop jet services were provided in the Miami-San Juan market from June, 1964 until April 25, 1970. Then, effective April 26, 1970, Eastern and Pan Am discontinued thrift (K) service and reinstituted economy (Y) service in lieu thereof on their flights, by appropriately "designating" their flights in their official General Schedules.

It is the cessation of thrift (K) service and the substitution therefor of economy (Y) service, resulting in an increase of $7 one way in the lowest fare generally available in the Miami-San Juan market, which forms the basis of the Commonwealth's complaint. It views this action as a fare increase for which no tariffs have been filed, and alleges a number of different violations of the Act.[4]

[1] The Commonwealth of Puerto Rico filed a complaint on July 28, 1970. Answers by Eastern and Pan Am were filed on Aug. 19, 1970, and the Director's decision was entered on Apr. 23, 1971. The Commonwealth's Motion for Review of Staff Action, filed May 24, 1971, was answered by Eastern on June 3, 1971, and by Pan Am on June 4, 1971.

[2] The currently-published fares applicable to the Y and K services, exclusive of taxes, are $63 and $56 one way, respectively. F class service is not at issue herein.

[3] The filed tariffs of both carriers provide that Y and K services in the Miami-San Juan market are applicable only on flights appropriately designated in their official General Schedules filed with the Board. See Eastern Air Lines, Inc., CAB No. 326, 4th Rev. p. 10, and IATT Corp., CAB No. 404, 1st Rev. p. 10. Moreover, the "seating configuration" tariffs of both carriers show that K and Y services are provided in identical configurations. See Air Line Tariff Publishers, CAB No. 65, 42d Rev. p. 15 and 34th Rev. p. 15-A, both effective Nov. 28, 1969, and IATT Corp., CAB No. 191, 50th Rev. p. 14, effective Apr. 30, 1970. The difference between Y and K classes appears to consist of the quality of the meal service, as reflected in the carrier's schedules.

[4] The Commonwealth's complaint alleges that:

(1) Eastern and Pan Am violated section 403(c) of the Act by "raising fares" in the Miami-San Juan market without filing tariffs to effectuate that change. (The complaint also alleges that the tariffs admittedly on file in that market by both carriers showing both economy and thrift class fares violate § 221.38(a) (1), (2), (3), and (4) of the Board's economic regulations and section 403(a) of the Act by failing to adequately distinguish the respective services to which the fares are applicable, in that they do not reflect the differences in meal service which are allegedly their sole distinction.);

(2) The named carriers are failing to provide "adequate service" within the meaning of section 404(a) of the Act inasmuch as thrift service has become the legal standard of adequacy in the Miami-San Juan market by virtue of the past custom and practice of the carriers in providing such service and the preference of the traveling public for that service over first- and economy-class service;

(3) Section 404(b) of the Act is being violated since passengers from interior points or to beyond points using the Miami-San Juan route are subjected to unjust discrimination or undue or unreasonable preference or disadvantage with respect to those passengers similarly situated using the New York-San Juan route, over which thrift class service is still being provided;

(4) Eastern and Pan Am are and have been engaging in unfair or deceptive trade practices or unfair methods of competition within the meaning of section 411 of the Act by the "holding out" of economy nonstop service in the carriers' tariffs and schedules prior to April 26, 1970, and thrift nonstop service subsequent to that date, without in fact providing such services before or after that date, respectively; and that section 411 has been additionally violated in that the purported change in the class of service was not in fact accompanied by a change in the incidents of service; and

(5) That the carriers mutually "agreed" to the change in fare level without obtaining Board approval of this "agreement," thereby violating section 412 of the Act.

[5] The Director's conclusion was based on his finding that Eastern and Pan Am had in fact introduced a different service to the market pursuant to tariffs already on file with the Board, which tariffs had been reviewed and approved by the Board in the following orders: Reopened Puerto Rico Passenger-Fare Investigation (First- and Second-Class Fares) 39 CAB 238 (1963); Reopened Puerto Rico Third-Class Passenger-Fare Investigation, 39 CAB 244 (1963); Order 69-2-148 (Feb. 28, 1969); and Order 69-12-112 (Dec. 24, 1969).

Eastern and Pan Am, on the other hand, assert that this is a different service for which lawful tariffs have been and are on file with the Board, rather than a "fare increase," and that they are therefore within the Act and the Board's regulations in instituting the change in service.

The Director, Bureau of Enforcement, dismissed the Commonwealth's complaint "without prejudice to any future proceeding brought under Rules 500 et seq. or 700 et seq. of the Board's rules of practice," on the grounds that the allegations concerning violations of sections 403 and 404(b) were attacks on the tariffs per se and should therefore be resolved in a fare investigation pursuant to Rules 500 et seq. of the Board's rules of practice and section 1002(d) of the Act rather than through an enforcement proceeding under section 1002(a).[6] By the same token, the Director determined that the exclusive remedy for the allegations of failure to provide adequate service within the meaning of section 404(a) of the Act rests in the provisions of Rule 700 et seq. of the Board's rules of practice rather than within the framework of enforcement proceedings.

With respect to the Commonwealth's other allegations, the Director dismissed the section 412 complaint on grounds of insufficient evidence. He also concluded that the Bureau "would have difficulty in questioning" the practice of the carriers, alleged to violate section 411 of the Act, of keeping on file tariffs for classes of service not in fact being offered (as in the case of economy class service before April 26, 1970, and thrift class service thereafter). This conclusion was reached in light of the Board's action in Order 71-2-120 (February 26, 1971) refusing to suspend, pursuant to complaint by the Commonwealth of Puerto Rico raising this issue, unused coach fares proposed by Trans Caribbean Airways, Inc., in other East Coast-San Juan markets on the ground that "* * * other carriers in the market presently publish fares for service which is not now provided."

The Commonwealth characterizes its motion for Board review of the Director's decision as basically an appeal to the Board "to affirm the availability of an enforcement approach on each of the 403, 404, and 411 issues." The Commonwealth asserts that the denial of an enforcement remedy in the face of "unilateral carrier action to increase fares to the public and to deprive the public of a class of service heavily utilized by the public" amounts to an abdication by the Bureau of the Board's jurisdiction "to deal with problems of such importance to the Commonwealth and to the preservation of the integrity of [the Board's] tariff structure * * *[, which] may be the most significant issue before the Board in this complaint."

Upon consideration of the circumstances of this case and the matters presented, the Board agrees with the decision of the Director and is of the opinion that the complaint does not state facts warranting an enforcement investigation, or, at this time, any formal investigation of the carriers' tariffs. The Commonwealth does not allege that Eastern and Pan Am are offering services or collecting fares not provided for by tariffs. Rather, it is clear that the ultimate thrust of the Commonwealth's sections 403 and 404(b) allegations goes to the lawfulness of the tariffs applicable to the services and fares here involved. However, these tariffs have been in effect for a number of years and at no time has the Board "rejected" these tariffs pursuant to section 403(a) of the Act, nor has it otherwise found them to be unlawful, although their lawfulness has been under consideration on a number of occasions.[7] Accordingly, currently effective and legal second-class tariffs exist, and any attack thereon should initially proceed by means other than an enforcement action.[8]

We reach the same conclusion with respect to the Commonwealth's other allegations. As noted previously, the filed tariffs of both carriers provide that economy and thrift-class fares in the Miami-San Juan market are applicable only on flights appropriately designated in their official General Schedules filed with the Board. Thus, the carriers' tariff "holding out" to the public is circumscribed by the schedules required to be filed with the Board, and the Commonwealth's allegations with respect to unfair or deceptive practices within the meaning of section 411 of the Act is in essence an attack upon the carriers' tariff

[6] See cases cited in footnote 5 at 3, supra.

[7] We do not hold that enforcement remedies cannot be applied to violations of sections 403 and 404(b) of the Act; we simply find that, in the circumstances of this case, conduct violative of those sections of the Act and subject to enforcement proceedings cannot be established unless and until tariffs under which the carriers are purporting to act have been rejected or determined to be unlawful.

V37-78 APR 21 72 XUM

rules providing for the "designation" of flights before a class of service becomes available to the public. This is not a matter for an enforcement proceeding. Nor is the Board prepared to apply enforcement remedies on this record to the allegations of section 404(a) and section 412 violations. The Commonwealth has provided no factual support as to the latter.[5] With respect to the former, the Board has never imposed a duty upon these carriers to provide thrift service in the Miami-San Juan market, and until it does so, it cannot be maintained that Eastern and Pan Am are failing to provide "adequate service" within the meaning of section 404(a) by the cessation of thrift-class service.

Notwithstanding our denial of the enforcement relief sought by the Commonwealth, the Board is concerned by what has taken place here. Eastern and Pan Am have totally eliminated the apparently popular thrift service from the Miami-San Juan market and have resurrected the long-dormant economy service, increasing the lowest generally available fare in that market by a substantial amount. It appears that this change, which conforms to the carriers' filed and effective tariffs, has affected a large segment of the passengers traveling between these two points, and, the Commonwealth alleges, may have a significant impact upon the communities involved. Yet, it was effectuated simply by a schedule filing, which is unreviewable, cannot be suspended by the Board, and provides only 10 days' notice to the public. Moreover, a member of the traveling public desiring to avail himself of the thrift fare cannot do so simply because the carriers have "designated" that fare out of existence, at their sole discretion.

The Board believes that the implementation of such major changes should be accomplished through the filing of appropriate tariffs in order that the Board may have an opportunity to investigate such changes prior to the time that they take effect, and that the public may be given notice and an opportunity to request or participate in such investigation. This is, we believe, the intent of section 403(c) of the Act.

The problem would appear to be in the Board's Economic Regulations, Part 221, which contains no express prohibition against the publication of dormant tariffs, permits carriers to file tariffs subject to schedule "designation" without any limitations, and does not otherwise circumscribe the carriers' discretion to add or drop service when such tariffs are on file. Absent this apparent deficiency in the Board's regulations, any carrier action of the scope and potential impact evidenced herein would in the usual case be accomplished through the cancellation of the old tariffs and the filing of new ones, and would thus be subject to prior Board review.

While the existing Board regulations have not caused any great difficulties in this regard up to this time, we feel that they require strengthening. Since the problem of tariffs for classes of services subject to unlimited schedule designation appears to be a general one, the Board believes that prospective action in the nature of rulemaking, applicable equally to all carriers, is in order. To this end, we have this day issued an advance notice of proposed rule making, EDR-224, Docket 24415, April 14, 1972, calling for comments by interested persons.

Accordingly, it is ordered, That:

The motion of the Commonwealth of Puerto Rico, dated May 24, 1971, requesting that the Board overrule a decision of the Director, Bureau of Enforcement, refusing to docket a petition for enforcement pursuant to a complaint filed by the Commonwealth of Puerto Rico on July 28, 1970, be and it hereby is denied, and the Commonwealth's complaint be and it hereby is dismissed.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-6132 Filed 4-20-72;8:52 am]

[Docket No. 24418; Order 72-4-88]

EASTERN AIR LINES, INC.

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of April 1972.

By tariff revisions[1] marked to become effective May 1, 1972, Eastern Air Lines, Inc. (Eastern), proposes to establish local affinity youth group tour basing fares for students under 22 years of age from Atlanta, Boston, and New York to Washington[2] and return. The proposed fares apply to groups of 25 or more class members of a full-time public or private educational institution, accompanied by one adult (tour conductor, teacher, advisor, or parent) for each 25 persons; the maximum stay is restricted to 3 days in addition to the date of departure (no minimum); and the fares must be used in conjunction with a packaged tour including one sightseeing tour and one meal, with a $6.50 minimum add-on. Application for travel, reservations and payment in full must be made at least 2 weeks prior to the date of departure, with a 25-percent cancellation charge applicable thereafter.

Fares in the Atlanta/Boston-Washington markets provide discounts of 65 percent off regular round-trip coach fares for elementary school children (grade 7 and under) and 35 percent for junior/senior high school and college groups. The discount from New York is 50 percent for all groups, regardless of academic level.[3] The proposed fares apply at any time except on air shuttle flights on which travel is blacked out between the hours of 1:05 p.m. and 6:55 p.m. Monday through Friday, and between 12:05 p.m. and midnight Sunday. The fares are marked to expire June 30, 1972. United Air Lines, Inc. (United), has filed to match Eastern in the Atlanta-Washington market.

In justification of its proposal, Eastern alleges that its objective is to provide an impetus for class trips to the Washington area, most of which currently moves via surface transportation. The carrier alleges that the dual pricing structure is necessary inasmuch as the older groups have a greater propensity to travel than their younger counterparts, thereby requiring a greater discount for grade 7 and below passengers. Eastern alleges that the New York-Washington market is treated separately (50 percent discount for all) due to competition from surface modes.

Eastern alleges that diversion should be nonexistent, in that most of the traffic currently moves via surface modes; that the blackout of peak hours on air shuttle flights will greatly reduce the risk of displacing full-fare passengers; and that the advance application process will enable Eastern to place the groups on low-load factor flights, which is particularly important in connection with shuttle operations. Eastern estimates that 1,000 passengers will use the fares during the May/June experimental period, resulting in a net contribution of $16,000.

National Airlines, Inc. (National), and Northeast Airlines, Inc. (Northeast), have filed complaints against Eastern's proposal requesting that it be suspended and investigated.[4] In summary, one or both of the complainants allege that the proposed fares are unjustly discriminatory; that the restrictions proposed by Eastern merely emphasize the unjust discrimination involved; and that the Board has previously found student fares to be unjustly discriminatory (Capitol Group Student Fares, 25 C.A.B. 280 (1957)).

National also alleges that Eastern's contention that there will be no diversion is contrary to its own experience; that blocking space for groups of 25 and more to and from the Nation's capital at least 2 weeks in advance will inevitably lead to loss of higher rated traffic, or, in the case of the shuttle, extra sections; that either way, some percentage of used capacity costs must be assigned to these fares; and that even a marginal contingency allowance will render them uneconomic.

Eastern has answered the complaints stating that the fares are not unjustly discriminatory; and that since Capitol's group student fares did not have any tour basing requirement and predated Board orders permitting certain affinity and group tour basing fares it cannot be determinative of the question presented by the limited experiment proposed. Eastern also alleges that the complainants do not present any data to refute its estimate that 1,000 passengers would utilize the fares; that by steering these group travelers to underutilized flights Eastern can smooth its load factors and garner additional revenues to the benefit of Eastern and all its passengers; and that the discounts are not excessive when compared to existing discounts for youths.

Upon consideration of the tariff filing, the complaints and answer thereto, and other relevant matters, the Board concludes that the proposed fares may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. In view of the serious questions of discrimination inherent in the proposal, we further conclude that it should be suspended pending investigation. Contrary to Eastern's allegation, the fact that the proposed fares contain affinity, group, and tour basing requirements—types of restrictions the Board has permitted in the past—does not in any way override the discriminatory nature of the student restriction applicable to the fares. Groups other than students, even though they may have a strong affinity relationship, could not utilize the proposed fares.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions of Eastern Air Lines, Inc.'s, CAB No. 378 and United Air Lines, Inc.'s, CAB No. 335, and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, Eastern Air Lines, Inc.'s, CAB No. 378 and United Air Lines, Inc.'s CAB No. 335 are suspended and their use deferred to and including July 29, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 24354 and 24360 are hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order shall be filed with the aforesaid tariffs and be served upon Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., and United Air Lines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 23486; Order 72-4-62]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

Issued under delegated authority April 13, 1972.

By Order 72-3-90, dated March 28, 1972, action was deferred, with a view toward eventual approval, on an agreement adopted by Traffic Conference 1 of the International Air Transport Association (IATA). The agreement would amend an existing resolution governing economy-class excursion fares within the Western Hemisphere by the inclusion of a specified fare reflecting new direct service between Mazatlan and Denver.

In deferring action on the agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 72-3-90 will herein be made final.

Accordingly, it is ordered, That:

Agreement CAB 22982 be and hereby is approved.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-6134 Filed 4-20-72;8:52 am]

[Docket No. 24416; Order 72-4-81]

MACKEY INTERNATIONAL, INC.

Order to Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of April 1972.

By Order 72-3-73, dated March 22, 1972, in Docket 24323, Mackey International, Inc. (Mackey), was granted temporary exemption authority for a period of 30 days to expire April 15, 1972, to transport mail between Miami, Fla., and Grand Turk Island, British West Indies. No service mail rate is currently in effect for this service by Mackey.

By petition filed March 16, 1972, in Docket 24323, the Postmaster General has requested the Board to fix as service mail rates for these services during the period until April 1, 1972, the rates established in Order 69-10-149, dated October 30, 1969, as amended, and from and after April 1, 1972, the rates set forth in Order 72-3-7, dated March 3, 1972, or such rates as may finally be determined and fixed in Docket 20415.

The Board has tentatively determined to fix the following rates for the transportation of mail by Mackey between Miami, Fla., and Grand Turk Island, British West Indies, for the period from March 16, through April 15, 1972: For SAM mail, 11.47 cents per nonstop great-circle ton-mile; for MOM mail, 22.11 cents per nonstop great-circle ton-mile; for all other mail, 34.43 cents per nonstop great-circle ton-mile. These are the rates proposed in Order 72-3-7, which the Board has tentatively found to be fair and reasonable for Mackey and the other carriers operating in the U.S.-Caribbean area.[1] The period of time for which Mackey's services have been authorized is of short duration, and the fixing of a single rate for the entire period will obviate the administrative burdens that would result from the establishment of separate rates applicable before and after April 1. The Postmaster General and Mackey have indicated that they are agreeable to the fixing of these proposed rates for Mackey's temporary service.

Based on the foregoing, the Board tentatively finds and concludes that the fair and reasonable rates of compensation to be paid Mackey International, Inc., by the Postmaster General, pursuant to the provisions of section 406 of the Federal Aviation Act of 1958, for the transportation of mail by aircraft between Miami, Fla., and Grand Turk Island, British West Indies, the facilities used and useful therefor, and the services connected therewith are:

1. For space-available mail (SAM), 11.47 cents; for military ordinary mail (MOM), 22.11 cents; and for all other mail, 34.43 cents per mail ton-mile, for the period March 16, 1972, through April 15, 1972. In computing such compensation, the mail ton-miles for each shipment of mail shall be based upon the nonstop great-circle mileage between the points of origin and destination of each shipment. The nonstop great-circle mileages shall be the mileages computed in accordance with the formula set forth in the notice to users of CAB official mileages issued May 21, 1970 (35 F.R. 8249).

2. The rates set forth in paragraph 1, above, shall be applied in accordance with the terms and conditions for each class of mail as set forth in Orders E-25654 as amended by Order E-26713, Order 69-9-8 as amended by Order 69-9-152, and Order 69-10-149 as amended.

3. The service mail rates tentatively fixed herein are to be paid in their entirety by the Postmaster General.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR, Part 302,

It is ordered, That:

1. All interested person, and particularly Mackey International, Inc., and the Postmaster General, are directed to show cause why the Board should not adopt

[1] No objections to Order 72-3-7 have been filed.

[1] Eastern Air Lines, Inc., tariff CAB No. 378.

[2] Baltimore is named as an alternative destination.

[3] In addition, one adult may travel for each 20 members of the group at the same fare provided for students in grade 7 and above.

[4] Delta Air Lines, Inc. (Delta), has filed an answer in support of the complaints.

[5] We are not persuaded that the mere fact of contemporaneous, although not simultaneous, action on the part of both carriers in changing the class of service offered justifies, without more, an inference of prior agreement.

V37-78 APR 21 72 XUM

the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above.

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and, if there is any objection to the rates or to the other findings and conclusions proposed herein, notice thereof shall be filed within 10 days after the date of service of this order, and, if notice is filed, written answer and supporting documents shall be filed within 30 days after date of service of this order.

3. If notice of objection is not filed within 10 days, or, if notice is filed and if answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rates specified herein.

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable rates herein shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR 302.307.

5. This order shall be served upon Mackey International, Inc., and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PORTUGAL

Entry or Withdrawal From Warehouse for Consumption

APRIL 18, 1972.

On November 17, 1970, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a new comprehensive bilateral cotton textile agreement with the Government of Portugal concerning exports of cotton textiles and cotton textile products in all 64 categories from Portugal to the United States over a 4-year period beginning on January 1, 1971, and extending through December 31, 1974.

The Government of Portugal has requested that the U.S. Government prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 41/42/43, 44, 53, 56, and 62, produced or manufactured in Portugal and exported to the United States therefrom during the period beginning January 1, 1972, and extending through December 31, 1972, pending the establishment of a suitable administrative mechanism that would preclude circumvention of the export licensing system of the Government of Portugal. The U.S. Government has acceded to this request.

Accordingly, there is published below a letter of April 18, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that upon publication of that letter in the FEDERAL REGISTER, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 41/42/43, 44, 53, 56, and 62, produced or manufactured in Portugal and exported therefrom to the United States during the period beginning January 1, 1972, and extending through December 31, 1972, be prohibited.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

ASSISTANT SECRETARY OF COMMERCE
COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of Treasury,
Washington, D.C. 20226.

APRIL 13, 1972.

DEAR MR. COMMISSIONER: This directive amended the directive issued to you on December 21, 1971, by the Chairman of the President's Cabinet Textile Advisory Committee, concerning imports of cotton textiles and cotton textile products in certain categories produced or manufactured in Portugal.

Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of November 17, 1970, between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective upon publication of this letter in the FEDERAL REGISTER, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 41/42/43, 44, 53, 56, and 62, produced or manufactured in Portugal and which have been exported to the United States during the period beginning January 1, 1972, and extending through December 31, 1972.

Cotton textile products in Categories 41/42/43, 44, 53, 56, and 62, produced or manu-

V 37-78 APR 21 72 XUM

factured in Portugal, which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of the Categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton textiles and cotton textile products from Portugal have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule making provisions of U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 72-325]

LICENSEES OF STANDARD BROADCAST STATIONS

Additional Technical Information To Be Supplied in Connection with Applications for Renewal of License, or Modification of License To Remove or Modify Dissipative Networks

APRIL 7, 1972.

On April 5, 1972, the Commission amended Part 73 of its rules and regulations to make specific and direct provision for situations where standard broadcast stations are required to deliver to their antennas power at a level which differs from the rated station power. The amended rules provide that each station license will specify two values of power for each mode of operation, the rated station power, which will henceforth be called its "nominal power," and the power delivered to its antenna (antenna input power).

To implement this system, it is necessary that applications for renewal of license include certain items of information other than those presently required by FCC Form 303. This information should be provided on a separate sheet attached to Form 303, with renewal applications filed after October 1, 1972. One each licensee has supplied this information in a renewal application, subsequent renewal applications need not include it.

The information required in each case is:

The "nominal power" of the station for each mode[1] of operation. (This is the present licensed power of the station.)

The actual measured antenna or common point resistance for each mode of operation (R).

The antenna or common point current for each mode of operation (I).

The antenna input power for each mode of operation (I²R).

For stations with nondirectional antennas, which have not been required to adjust antenna input power to a value lower than the rated transmitter power (the great majority of cases), the required information can be obtained directly from the current license (antenna input power and nominal power are of the same value).

Under both the previous and the amended rules, stations using directional antennas are permitted to deliver to their antenna systems power somewhat in excess of rated transmitter power to provide for losses in coupling elements. Heretofore, this added increment of power has been provided for in the station license by specifying a common point resistance which is 92.5 percent of the measured value for stations with rated (nominal) power of 5 kw., or less, and 95 percent of the measured value for stations with rated (nominal) power greater than 5 kw.

In the modified licensing system the rated power of the station will be called its nominal power. The common point resistance specified in the license will be the measured (and unadjusted) common point resistance, and the antenna input power will be specified, for stations with nominal power of 5 kw. or less, at a value 8 percent above nominal power, and for stations with nominal power in excess of 5 kw., at a value 5.3 percent above nominal power.

Certain stations are required to operate with antenna input power which is lower than the rated or nominal station power. The reduction in power, under the amended rules, may be accomplished by the insertion of a dissipative network in the antenna feed system, by a reduction in the output power of the transmitter below its rated level, or by a combination of both expedients.

Where a station has been authorized to operate with reduced transmitter output power, the antenna input power specified

[1] A "mode" of operation is a particular combination of power and antenna radiation pattern.

V37-78 APR 21 72 XUM

in its license, of course, will be at a lower value than its nominal power.

For stations employing dissipative networks the antenna resistance specified in the license will be the effective resistance at the input terminals of the network.

Licensees are not required to remeasure antenna or common point resistance to obtain the information required to be submitted with Form 303, but may utilize measurements on which the values specified in their current licenses are based. However, if in a particular case the Commission finds reason to question the accuracy of the information submitted, it may request supporting data, including up-to-date measurements, if this appears desirable.

Any station presently employing a dissipative network in its antenna system, and desiring to modify or eliminate this network in conjunction with a reduction of transmitter output power may request authority to do so on FCC Form 302, furnishing in section II–A of the form the technical information pertinent to the proposed conditions of operation, and, in addition, supplying the other information required by paragraph (c) of § 73.51, as amended. If the contemplated changes would affect the method of power reduction for presunrise operation authorized pursuant to § 73.99 of the rules, appropriate modification of Presunrise Service Authority should be requested separately by letter, signed in the manner specified in § 1.513 of the rules. Neither kind of application requires the payment of a filing fee.

Action by the Commission April 5, 1972. Commissioners Burch (Chairman), Bartley, Johnson, H. Rex Lee and Reid, with Commissioner Wiley concurring.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-6114 Filed 4-20-72;8:50 am]

BROADCAST REGULATION STUDY

APRIL 6, 1972.

The Commission is instituting a study, under the supervision of Commissioner Wiley, of its rules and regulations pertaining to broadcast stations, particularly radio, to determine if its regulatory authority is being exercised in a meaningful and pragmatic manner consistent with the public interest. To this end, each rule contained in Part 73 of the rules and regulations, which contains all of the rules pertaining to Radio and Television Broadcast Services will be analyzed to determine its current validity and whether it should be continued, modified or deleted. Additionally, new rules may be proposed which more accurately reflect the present state of the broadcast art. The resultant rules may be organized in a manner which will more clearly identify those which are applicable to the various types and classes of broadcast stations. Additionally, pertinent policy statements and requirements presently associated with Commission forms may also be incorporated into the proposed new rules.

As a result of this comprehensive study, it is hoped that a simpler, more readily understandable set of rules may be developed which will better identify the Commission's current regulatory requirements with respect to broadcasting stations, particularly radio, and will also assure that the operation of these stations continues to serve the public interest, convenience, and necessity.

The study will give due consideration to Commission proceedings relating to license renewals, substantial service, and the fairness doctrine which are now the subject of rule making proceedings in Dockets Nos. 19153, 19154, and 19260. The status of other rule making proceedings pertinent to Part 73 of the rules will also be considered. In addition, the Commission will also review recommendations of the Office of Telecommunications Policy in regard to the so-called "de-regulation" of radio broadcasting.

It is contemplated that the Commission's study will simultaneously progress in several areas, limited only by the availability of manpower and other resources. It should be emphasized that the end product of this study will be a formal rule making proceeding in which all interested parties may participate. However, in the interim, any individual or representative of any organization who wishes to express views or provide the Commission with suggestions in connection with the study may do so at any time. Submissions should be addressed to:

Part 73 Task Force, Room 314, Federal Communications Commission, Washington, D.C. 20554.

FEDERAL MARITIME COMMISSION

AMERICAN MAIL LINE, LTD., AND AMERICAN PRESIDENT LINES, LTD.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. W. R. Purnell, Assistant Vice President, American Mail Line, Ltd., 601 California Street, San Francisco, CA 94108.

Agreement No. 9971–1 modifies the basic transshipment agreement between American Mail Line, Ltd. (AML), and American President Lines, Ltd. (APL), covering the movement of cargo under through bills of lading between ports of call of AML in Washington, Oregon, and British Columbia and ports of call of APL in the Philippines with transshipment at a port in Japan by adding ports in Taiwan and Hong Kong.

Dated: April 18, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

Notice of agreement filed by:

Edward D. Ransom, Esq., Lillick, McHose, Wheat, Adams & Charles, 311 California Street, San Francisco, CA 94104.

Agreement No. 57–96 modifies the basic agreement of the Pacific Westbound Conference by (1) expanding the scope of the Conference's authority to permit point-to-point through or joint rates with carriers of other modes of transportation; and (2) permit the Conference's member lines individually to establish their own through or joint routes and rates with carriers of other modes from Atlantic and Gulf ports until such time as such through or joint routes and rates are adopted by the Conference and appear in the Conference's intermodal tariff.

Dated: April 18, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[Independent Ocean Freight Forwarder License 1218]

TRAFFIC-TRANSPORTATION SERVICES

Order of Revocation

By letter dated March 28, 1972, Traffic-Transportation Services, 2148 Shawano Avenue, Green Bay, WI 54303, was advised by the Federal Maritime Commission that independent ocean freight forwarder License No. 1218 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before April 26, 1972.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Traffic-Transportation Services has failed to furnish a surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 9–29–70);

It is ordered, That the Independent Ocean Freight Forwarder License of Traffic-Transportation Services be returned to the Commission for cancellation.

It is further ordered, That the Independent Ocean Freight Forwarder License of Traffic-Transportation Services be and is hereby revoked effective April 26, 1972.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served upon Traffic-Transportation Services.

AARON W. REESE,
Managing Director.

FEDERAL POWER COMMISSION

[Docket No. E-7564]

CAROLINA POWER & LIGHT CO.

Notice of Filing of Settlement Agreement

APRIL 18, 1972.

Take notice that on April 3, 1972, Carolina Power and Light Co. (Carolina) tendered for filing in Docket No. E-7564 two proposed settlement agreements together with related revised tariff sheets. The proposed agreements would resolve all issues in Docket No. E-7564.

The settlement agreement between Carolina and the North Carolina Electric Membership Corp., representing the electric cooperative intervenors herein, provides for new rate schedule entitled "Resale Service Schedule RS–8". The settlement agreement between Carolina and Electricities of North Carolina, representing the municipal intervenors herein, provides for several modifications of terms and conditions as well as a new rate schedule entitled "Resale Service Schedule RS–9". Amounts collected by Carolina from the Municipalities and Cooperatives since May 28, 1971, in excess of those prescribed in Resale Service Schedules RS–9 and RS–8, respectively, shall be refunded by Carolina, with interest at the rate of 5½ per annum, within 60 days from the date of approval by the Commission of these settlement agreements.

Carolina requests that the Commission accept and approve the settlement agreements and concurrently accept the revised tariff sheets to be effective retroactively as of May 28, 1971.

Comments or objections to the proposed settlement agreement may be filed with the Federal Power Commission, Washington, D.C. 20426 on or before April 28, 1972.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7723]

POTOMAC EDISON CO.

Notice of Proposed Rate Increase

APRIL 18, 1972.

Take notice that on March 29, 1972, The Potomac Edison Co. tendered for filing proposed amendments to its rate schedules WS–LV, WS–DV, and WS–HV in its Electric Tariff Volume No. 2, Potomac Edison states that approximately $202,000 of additional revenues based on the 12 months ended April 30, 1972, will result from the increased rates, exclusive of revenues from the operation of the fuel adjustment clause included as a proposed amendment. Potomac Edison proposes that the increased rates become effective May 1, 1972, and requests the Commission to waive any requirements not already complied with to permit the rates to become effective.

V 37-78 APR 21 72 XUM

All of the customers who take service under the rate schedules to be amended and interested state commissions were mailed copies of the proposed rate schedules.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 26, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7725]

PUBLIC SERVICE COMPANY OF INDIANA, INC.

Notice of Application

APRIL 18, 1972.

Take notice that on April 10, 1972, Public Service Company of Indiana, Inc. (applicant) of Plainfield, Ind., filed an application pursuant to section 204 of the Federal Power Act seeking an order authorizing the issuance of $60 million in unsecured promissory notes to commercial banks and to commercial paper dealers.

The promissory notes to be issued by the applicant to commercial banks will be issued on various days prior to June 30, 1973, but no note will mature more than 12 months after date of issue or renewal. The interest rate of such notes will be at the prime loan interest rate of the banks in effect from time to time.

The promissory notes issued to commercial paper dealers will be issued on various days prior to June 30, 1973, but no note will mature more than 9 months after date of issue nor will any note be extended or renewed. The interest rate on such notes will be dependent upon the term of the notes and the money market conditions at the time of issuance. According to the application, the aggregate amount of commercial paper to be outstanding at any one time will not exceed $45 million, an amount which is less than 25 percent of applicant's gross revenues during the 12 months of applicant's operations ending January 31, 1972.

The proceeds from the issuance of the Notes will be used, among other things, to finance in part the applicant's construction program through 1974. Applicant estimates that construction expenditures through 1974 will total about $346,005,000.

Any person desiring to be heard or to make any protest with reference to said application should, on or before May 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedures (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI72-657]

DOW CHEMICAL CO.

Notice of Application

APRIL 18, 1972.

Take notice that on April 13, 1972, the Dow Chemical Co. (applicant), 3636 Richmond Avenue, Houston, TX 77027, filed in Docket No. CI72-657 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) in Ward and Winkler Counties, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell gas for 6 months commencing May 15, 1972, or until 6 million Mcf have been delivered, whichever occurs first, at the rate of 35 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The average daily quantity to be delivered is 33,000 Mcf of gas. Applicant states that it is advised that the instant sale is necessary for the purposes of aiding Natural to assure maintenance of adequate natural gas service in its pipeline system and of furnishing gas to Natural for injection into storage facilities for use during the winter months of 1972-73 or during any earlier emergency, each of which purposes will minimize curtailment of service to Natural's customers.

Applicant, a small producer certificate holder in Docket No. CS71-318 under § 157.40 of the regulations under the Natural Gas Act (18 CFR 157.40), states that it will accept a certificate in the instant proceeding providing the Commission recognizes applicant's small producer status and provides that such status shall not be affected by the issuance of a certificate herein and that the sales under a certificate issued herein shall not be credited as part of the 10 million Mcf of gas which may be sold annually by a small producer before loss of its status as a small producer.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-246]

INTRATEX GAS CO.

Notice of Application

APRIL 18, 1972.

Take notice that on April 13, 1972, Intratex Gas Co. (applicant), Post Office Box 1188, Houston, TX 77001, filed in Docket No. CP72-246 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) in Ward and Winkler Counties, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell gas for 6 months commencing May 15, 1972, or until 10 million Mcf have been delivered, whichever occurs first, at the rate of 35 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The average daily

quantity to be delivered is 55,000 Mcf of gas. Applicant states that it is advised that the instant sale is necessary for the purposes of aiding Natural to assure maintenance of adequate natural gas service in its pipeline system and of furnishing gas to Natural for injection into storage facilities for use during the winter months of 1972-73 or during any earlier emergency, each of which purposes will minimize curtailment of service to Natural's customers.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-245]

OKLAHOMA NATURAL GAS CO.

Notice of Application

APRIL 18, 1972.

Take notice that on April 12, 1972, Oklahoma Natural Gas Co. (applicant), 624 South Boston Avenue, Tulsa, OK 74119, filed in Docket No. CP72-245 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Co. (Panhandle) in Kingfisher County, Okla., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell and deliver up to 40,000 Mcf of natural gas per day to Panhandle for 1 year from the date of initial delivery at the rate of 35 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant states that it has been advised by Panhandle that additional volumes of flowing gas on Panhandle's system are needed to assist in maintaining injection schedules into Panhandle's underground storage reservoirs and to maintain adequate service to Panhandle's existing customers.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

[Docket No. CP72-247]

TENNGASCO INC.

Notice of Application

APRIL 18, 1972.

Take notice that on April 13, 1972, Tenngasco Inc. (applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP72-247 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) in Ward and Winkler Counties, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell gas for 6 months commencing May 15, 1972, or until 4 million Mcf have been delivered whichever occurs first, at the rate of 35 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The average daily quantity to be delivered is 22,000 Mcf of gas. Applicant states that it is advised that the instant sale is necessary for the purposes of aiding Natural to assure maintenance of adequate natural gas service in its pipeline system and of furnishing gas to Natural for injection into storage facilites for use during the winter months of 1972-73 or during any earlier emergency, each of which purposes will minimize curtailment of service to Natural's customers.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of

V 37 N 78 APR 21 72 XUM

the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

FEDERAL RESERVE SYSTEM

BEZANSON INVESTMENTS, INC., AND MORAMERICA FINANCIAL CORP.

Acquisition of Bank

Bezanson Investments, Inc., Cedar Rapids, Iowa, and its subsidiary, MorAmerica Financial Corp., Cedar Rapids, Iowa, have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) for MorAmerica Financial Corp. to acquire directly, and for Bezanson Investments, Inc., to acquire indirectly, 76 percent of the voting shares of First Trust and Savings Bank, Wheatland, Iowa. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 8, 1972.

Board of Governors of the Federal Reserve System, April 17, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

[FR Doc. 72-6063 Filed 4-20-72;8:46 am]

CARLTON AGENCY, INC.

Formation of Bank Holding Company and Proposed Acquisition of First National Bank Insurance Agency

Carlton Agency, Inc., Carlton, Minn., has submitted an amended proposal for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of Carlton National Bank, Carlton, Minn. Applicant's original application was denied by Board Order dated January 27, 1972 (37 F.R. 2698).

Carlton Agency, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of First National Bank Insurance Agency, Carlton, Minn. Notice of the application was published on March 30, 1972, in the Pine Knot-News Graphic, a newspaper circulated in Carlton, Minn. (An earlier identical application was rendered moot by virtue of the Board's denial of the application to form the holding company. This application has been resubmitted as part of an amended proposal to form the holding company.)

The proposed subsidiary would perform the activity of a general insurance agency in a community that has a population of less than 5,000. Such activity has been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 12, 1972.

Board of Governors of the Federal Reserve System, April 14, 1972.

MICHAEL A. GREENSPAN,
Assistant Secretary.

[FR Doc.72-6064 Filed 4-20-72;8:46 am]

HUME BANCSHARES, INC.

Order Approving Formation of Bank Holding Company

Hume Bancshares, Inc., Hume, Mo., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80.3 percent or more of the voting shares of Hume Banking Company, Hume, Mo. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant is a nonoperating corporation formed for the express purpose of acquiring Bank which has aggregate deposits of approximately $0.8 million. (All banking data are as of June 30, 1971.) Applicant has no present operations or subsidiaries, and consummation of the proposal would not adversely affect existing or potential competition, nor have an adverse effect on any bank in the area.

Applicant proposes to make an equal offer to all shareholders. Applicant's financial resources and future prospects are dependent upon those of Bank. However, its projected earnings appear to be sufficient to service the debt which it will incur upon consummation of the proposed transaction without adversely affecting Bank's capital structure. These considerations are consistent with approval of the application. Consummation of the proposed transaction would stabilize ownership and management of Bank, and considerations relating to the financial and managerial resources and future prospects of Bank thus weigh toward approval of the application. Considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] April 17, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

VIRGINIA COMMONWEALTH BANKSHARES, INC.

Proposed Retention of Rusch Factors, Inc.

Virginia Commonwealth Bankshares, Inc., Richmond, Va., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of Rusch Factors, Inc., Richmond, Va. Notice of the application was published respectively on March 1, 2, and 3 in the following newspapers: The Richmond Times-Dispatch, a newspaper circulated in Richmond, Va.; the New York Times, a newspaper circulated in New York City, N.Y.; the Providence Journal, a newspaper circulated in Providence, R.I.

Applicant states that the subsidiary would continue to engage in the activities of factoring and commercial financing. Such activities have been specified by the Board in § 225.4(a)(1) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 12, 1972.

Board of Governors of the Federal Reserve System, April 14, 1972.

VOYAGEUR BANCSHARES, INC.

Formation of Bank Holding Company and Proposed Acquisition of Citizens State Insurance Agency

Voyageur Bancshares, Inc., Montgomery, Minn., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the Citizens State Bank, Montgomery, Minn. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Voyageur Bancshares, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the assets of the Citizens State Insurance Agency, Montgomery, Minn. Notice of the application was published on February 17, 1972, in the Montgomery Messenger, a newspaper circulated in Montgomery, Minn.

Applicant states that the proposed subsidiary would engage in the activities of a general insurance agency in a community of less than 5,000 people. Such activities have been specified by the Board in § 225.4(a)(9) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 12, 1972.

Board of Governors of the Federal Reserve System, April 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

FEDERAL TRADE COMMISSION

SPECIAL REPORTS RELATING TO LARGE CORPORATE MERGERS

Requirements Concerning Notification and Submission

Notice is hereby given that the Federal Trade Commission will require firms undertaking large corporate mergers or acquisitions to notify the Commission and supply special reports pursuant to section 6 (a) and (b) of the Federal Trade Commission Act (15 U.S.C. 46 (a) and (b)).

The Commission's requirements apply to any merger or acquisition involving firms which (1) are subject to the Commission's jurisdiction, (2) have assets or sales of $10 million or more, and (3) have combined assets or sales of $250 million or more. For mergers and acquisitions meeting these criteria, the notification and reporting requirements are as follows:

(1) Within 10 days after any agreement or understanding in principle is reached to merge or to acquire assets of $10 million or more, and no less than 60 days prior to the consummation of the merger or acquisition, if the combined assets or sales of the acquiring and acquired corporations are $250 million or more, the parties to the agreement shall notify the Commission of the proposed merger or acquisition; and any such party with assets or sales of $250 million or more shall also be required to file a special report in response to an order of the Commission;

(2) Upon becoming a party to an agreement or understanding as defined in Item (1), above, any corporation with assets or sales of less than $250 million may also be required to file a Special Report in response to an order of the Commission;

V 37-78 APR 21 72 XUM

(3) Within 10 days after amassing 10 percent or more of the voting stock of another corporation with assets or sales of $10 million or more, any acquiring corporation with assets or sales of $250 million or more shall notify the Commission of such stock holdings and shall also be required to file a special report in response to an order of the Commission; and any acquiring corporation with assets or sales of less than $250 million, if the combined assets or sales of the acquiring and acquired corporations are $250 million or more, shall notify the Commission and may also be required to file a special report;

(4) At least 60 days prior to effecting a stock acquisition which will result in the acquiring corporation holding 50 percent or more of the voting stock of another corporation with assets or sales of $10 million or more, any acquiring corporation with assets or sales of $250 million or more shall notify the Commission of the proposed acquisition and shall also be required to file a special report in response to an order of the Commission; and any acquiring corporation with assets or sales of less than $250 million, if the combined assets or sales of the acquiring and acquired corporations are $250 million or more, shall notify the Commission and may also be required to file a special report;

(5) Any corporation whose voting stock has been acquired in the amount set forth in Item (3), above, or whose voting stock is the subject of a proposed acquisition as set forth in Item (4), above, may be required to file a special report in response to an order of the Commission.

Notifications filed pursuant to these requirements will constitute a part of the public records of the Commission, but the special reports filed pursuant to order of the Commission will constitute a part of the Commission's confidential records. Special reports will be made available to the Commission's staff and, upon a request complying with § 4.11(c) of the Commission's rules of practice and procedure, may be made available to the Department of Justice and other governmental agencies.

The foregoing requirements pertaining to notification will become effective for all corporations within the coverage of such requirements on the date of publication of this notice in the FEDERAL REGISTER, and this publication constitutes notice to all such corporations that they are required to comply therewith. Proper notification will consist of a letter indicating the names and mailing addresses of the corporations involved, the type of (proposed) transaction, the date of the agreement (if any), and the consummation date of the (proposed) merger or acquisition.

The effective date of the requirements pertaining to filing of special reports will be, for each corporation, the date upon which that corporation receives an order requiring filing of special report from the Commission. The date upon which the special report must be filed will be the date designated as "Reporting Date" in the special report form.

The Commission's initiation of this procedure should not be interpreted to mean that corporations must request Commission approval prior to the consummation of any mergers or acquisitions, nor should the fact that the Commission has not challenged a merger or acquisition prior to its consummation be interpreted as Commission approval of the legality of the transaction. However, the Commission will continue to provide advisory opinions, as provided by its rules of practice and procedure, regarding the legality of particular mergers and acquisitions and invites those contemplating merger to avail themselves of this program in any situation in which they are uncertain as to the legality of the proposed transaction.

Issued: April 17, 1972.

By direction of the Commission.

VERMONT YANKEE NUCLEAR POWER CORP.

Notice of Proposed Issue and Sale of Promissory Notes to Banks

APRIL 14, 1972.

Notice is hereby given that Vermont Yankee Nuclear Power Corp. (Vermont Yankee), 77 Grove Street, Rutland, VT 05701, an electric utility company and an indirect subsidiary company of both Northeast Utilities and New England Electric System, registered holding companies, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6 and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Vermont Yankee is constructing a nuclear-powered electric generating plant with a net expected capacity of approximately 540 megawatts which is expected to be in operation in 1972. The total capital cost of the plant, excluding the cost of the initial inventory of nuclear fuel of about $21 million, is estimated at $186,850,000. Its 10 sponsor companies are committed by capital fund requirements and power contracts to provide Vermont Yankee, in accordance with their stock percentages, the capital required by Vermont Yankee, and to purchase a like percentage of the capacity and power output of the Vermont Yankee plant on a cost-of-service basis, which includes an appropriate return on their investment.

Vermont Yankee proposes to finance the completion of its plant by short-term borrowings from banks. Bankers Trust Co. and the First National Bank of Boston have agreed to make short-term loans to Vermont Yankee up to an aggregate at any time outstanding of $36 million, the proceeds of which will be used (i) to pay the loans under a 1971 Revolving Credit Agreement, which amounted to $14,700,000 at February 29, 1972, and (ii) to pay construction costs of the Vermont Yankee plant.

The proposed loans will be made from time to time prior to the maturity date of December 1, 1972, will be allocated between the two banks, will be evidenced by notes which will mature the earlier of (i) 90 days after the date of issuance, or (ii) the maturity date, and will bear interest at 1 percent above the best rate of Bankers Trust Co. on 90-day unsecured loans in effect at the time of each loan. Such best rate was 4¾ percent per annum on March 29, 1972. The maturity date is December 1, 1972, or if certain conditions are met, it will be extended to December 29, 1972. It is stated that no compensating balances are required to be maintained at the banks by Vermont Yankee. A commitment fee of one-half of 1 percent per annum is required on the average daily unused portion of the total commitment for the period commencing on the earlier of (i) May 31, 1972, or (ii) the date the loans exceed $21 million, through the day before the maturity date. It is stated that the proposed borrowings made will be paid out of the proceeds of long-term financing when the plant goes into commercial operation.

It is further stated that the Vermont Public Service Board has jurisdiction over the issue and sale of the notes and that no other State commission or any Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment.

Notice is further given that any interested person may, not later than May 4, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) anl 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-6079 Filed 4-20-72;8:47 am]

TARIFF COMMISSION

IMPORTATION OF CERTAIN LIGHTWEIGHT LUGGAGE AND RECOMMENDS EXCLUSION FROM ENTRY

Reports to the President

APRIL 18, 1972.

The Tariff Commission today transmitted to the President its report of an investigation (No. 337-28) involving certain lightweight luggage. The report contains the Commission's final findings of a violation of section 337 of the Tariff Act of 1930 and its recommendation for permanent exclusion from entry of the luggage in question.

The investigation was instituted in response to a complaint filed by Atlantic Products Corp., Trenton, N.J. The Commission found (Chairman Bedell and Vice Chairman Parker not participating) unfair methods of competition and unfair acts in the importation and sale of certain lightweight luggage manufactured in accordance with the claims of U.S. Patents Nos. 3,298,480 and Re. 26,443, owned by the complainant, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States. The Commission is recommending to the President that he order the permanent exclusion from entry into the United States of the articles manufactured in accordance with the claims of said patents, until the expiration of such patents, except where the importation is made under license of the registered owner of the patents.

In response to the Commission's preliminary investigation (TC Publication 391), the President, on December 13, 1971, directed the Secretary of the Treasury to enforce a temporary exclusion order against imports of the luggage in question. The Commission's report on its full investigation (TC Publication 463) was published on February 11, 1972. Section 337 of the Tariff Act of 1930 provides that, subsequent to the publication of the Commission's findings, a rehearing before the Commission may be requested, and, in addition, the importers concerned may within 60 days appeal from the Commission's findings to the Court of Customs and Patent Appeals. No request for a rehearing before the Commission and no appeal to the Court of Customs and Patent Appeals were made. Consequently, the Commission's findings have become final, and, in accordance with section 337 of the Tariff Act of 1930, the President may act on its recommendation of permanent exclusion.

Copies of the Commission's report (TC Publication 463) are available upon request as long as the limited supply lasts. Requests should be addressed to the Secretary, U.S. Tariff Commission, Eighth and E Streets, NW., Washington, D.C. 20436.

By order of the Commission.

KENNETH R. MASON, *Secretary.*

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

APRIL 18, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates.

The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

FFC-46, Honolulu Freight Service-Vs-Hawaiian Express Service, Inc., now being assigned hearing June 22, 1972 (2 days), at Los Angeles, Calif., in a hearing room to be later designated.

MC 73688 Sub 51, Southern Trucking Corp., now being held May 2, 1972, at Dallas, Tex., hearing is canceled and application, dismissed.

MC 55581 Sub 24, Utah Pacific Transport Co., now being assigned hearing June 19, 1972, (3 days), at Los Angeles, Calif., in a hearing room to be later designated.

FD 26924, Great Western Railway Co. abandonment between Officer and Eaton, In Weld and Larimer Counties, Colo., now assigned April 24, 1972, at Greeley, Colo., postponed indefinitely.

MC 135772, Barrett Transfer & Storage, Co., now assigned April 24, 1972, at Seattle, Wash., postponed to May 15, 1972, at the Edgewater Inn, 2411 Alaskan Way, Pier 67, Seattle, Wash.

MC-F-10788, Eastern Freight Ways, Inc.—Control—E. J. Scanell, Inc., & Central States Transportation Co., Inc., and FD 26128 Eastern Freight Ways, Inc., assumption of obligation and liability, now assigned April 25, 1972, at Washington, D.C., postponed to June 26, 1972, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 135602, Road Hog, Inc., now assigned May 8, 1972, at New York, N.Y., canceled and the application is dismissed.

MC 111812 Sub 464, Midwest Coast Transport, Inc., now assigned May 12, 1972, at Washington, D.C., postponed to July 11, 1972, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 18, 1972.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42400—*Beet or cane sugar from Baltimore, Md., and Philadelphia, Pa.* Filed by Traffic Executive Association-Eastern Railroads, Agent (E.R. No. 3015), for interested rail carriers. Rates on sugar, beet or cane, other than raw, dry, in bulk in covered hopper cars, as described in the application, from Baltimore, Md., and Philadelphia, Pa., and points taking same rates, to Chicago, Ill., and points grouped therewith.

Grounds for relief—Market competition.

Tariff—Supplement 53 to Traffic Executive Association-Eastern Railroads, Agent, tariff ICC C-729. Rates are published to become effective on May 15, 1972.

FSA No. 42401—*Clay, kaolin, or pyrophyllite to points in Southern Freight Association Territory.* Filed by M. B. Hart, Jr., Agent (No. A6303), for interested rail carriers. Rates on clay, kaolin, or pyrophyllite, in carloads, as described in the application, from Aberdeen, Miss., and points taking same rates, to points in Southern Freight Association territory.

Grounds for relief—Rate relationship.

Tariff—Supplement 97 to Southern Freight Association, Agent, tariff ICC S-711. Rates are published to become effective on May 18, 1972.

FSA No. 42402—*General commodities between ports in Hong Kong, Japan, and Korea and rail stations and water carrier terminals on the U.S. Atlantic and Gulf Seaboard.* Filed by Kawasaki Kisen Kaisha, Ltd. (No. 1), by "K" Line—Kerr Corp., General Agents, for itself and interested rail carriers. Rates on general commodities, between ports in Hong Kong, Japan, and Korea, on the one hand, and rail stations and water carrier terminals on the U.S. Atlantic and gulf seaboard, on the other.

Grounds for relief—Water competition.

Tariffs—Rates as to which relief is requested are to be found in "K" Line Intermodal Tariffs Nos. 1, 2, and 3, as soon as tariffs are completed.

By the Commission.

CODE OF FEDERAL REGULATIONS

(Revised as of January 1, 1972)

Title 21—Food and Drug (Parts 147–299) ---------- $1.25
Title 30—Mineral Resources ---------- 2.75
Title 32A—National Defense, Appendix ---------- 1.50

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

WINE—
IRS regulations authorize use of carbon dioxide in bottling sparkling wine ---------- 7973
IRS amendments to "vintage wine" labeling and advertising requirements ---------- 7974

INVESTMENT COMPANIES—
SEC proposes new rule for bonding of officers and employees of registered investment companies; comments by 5–17–72 ---------- 7993
SEC publishes survey of investment company incentive fee arrangements ---------- 8034

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4124

National Check-Your-Vehicle-Emissions-Month, April, 1972

By the President of the United States of America

A Proclamation

The task of cleansing our environment calls for individual effort on the part of all Americans.

Under the Clean Air Act Amendments of 1970, we can look forward to the day when pollutants from new motor vehicles will be substantially diminished. Setting emission standards, however, is not all that we can do. Our citizens can also act now to limit exhaust pollutants entering our atmosphere from motor vehicles currently in use.

Aware of the opportunity and the responsibility of Americans to help purify the air, the Congress, by Joint Resolution, has requested the President to designate April, 1972 as National Check Your Vehicle Emissions Month.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim April, 1972 to be National Check Your Vehicle Emissions Month, and I call upon all Americans to recognize the need for curbing exhaust pollutants from their motor vehicles by maintaining them in good working order.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of April, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Regulation 264, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* This provisions in paragraph (b) (1) (i), and (ii) of § 907.564 (Navel Orange Regulation 264, 37 F.R. 7291) during the period April 14, 1972, through April 20, 1972, are hereby fixed as follows:

§ 907.564 Navel Orange Regulation 264.

* * * * * *

(b) *Order.* (1) * * *

(i) District 1: 995,000 carlots.

(ii) District 2: 205,000 carlots.

* * * * * *

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 19, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6236 Filed 4-21-72;8:52 am]

[Lemon Reg. 530]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.830 Lemon Regulation 530.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the Act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 18, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period April 23 through April 29, 1972, is hereby fixed at 240,000 cartons.

(2) As used in this section, "handled" and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 20, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6270 Filed 4-21-72;8:54 am]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

Nonimmigrant Documentary Waivers

The following amendment to Chapter I of Title 8 of the Code of Federal Regulations is hereby prescribed:

In § 212.1, paragraph (a) is amended in the following respects: The heading is amended and the last sentence is amended to broaden applicability to include British subjects who are residents of the Turks and Caicos Islands.

As amended, § 212.1(a) reads as follows:

§ 212.1 Documentary requirements for nonimmigrants.

* * * * * *

(a) *Canadian nationals, and aliens having a common nationality with nationals of Canada or with British subjects in Bermuda, the Bahamas, Cayman Islands, and Turks and Caicos Islands.* A visa is not required of a Canadian national, and a passport is not required of

V 37-79 APR 22 72 XUM

such a national except after a visit outside of the Western Hemisphere. A visa is not required of an alien having a common nationality with Canadian nationals or with British subjects in Bermuda, who has his residence in Canada or Bermuda, and a passport is not required of such an alien except after a visit outside of the Western Hemisphere. A visa and a passport are required of a British subject who has his residence in the Bahamas except that a visa is not required of such an alien who, prior to or at the time of embarkation for the United States on a vessel or aircraft, satisfies the examining U.S. immigration officer at Nassau, Bahamas, that he is clearly and beyond a doubt entitled to admission in all other respects. A visa is not required of a British subject who has his residence in, and arrives directly from, the Cayman Islands or the Turks and Caicos Islands and who presents a current certificate from the Clerk of Court of the Cayman Islands or the Turks and Caicos Islands indicating no criminal record.

* * * * *

(Sec. 103, 68 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER (4–22–72). Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making and delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendment to § 212.1 (a) confers a benefit on persons affected thereby.

Dated: April 18, 1972.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[FR Doc.72–6226 Filed 4–21–72;8:52 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airworthiness Docket No. 72–WE–7–AD, Amdt. 39–1436]

PART 39—AIRWORTHINESS DIRECTIVES

Certain Douglas Model DC–9 and Military C–9A (DC–9–32F) Airplanes

Amendment 39–1418 (37 F.R. 6380), AD 72–7–6, requires visual and radiographic inspections, and repair or replacement of the engine pylon aft spar upper cap, strap, adjacent pylon and fuselage internal and external structure, on certain Douglas Model DC–9–10, 20, 30, 40 series and C–9A (DC–9–32F) airplanes. After issuance of Amendment 39–1418, some operators have advised the agency that the instructions in paragraph A.1, which require visual inspection of the upper edges of the titanium strap, P/N 9958154–17 and 18, and the steel spar cap, P/N 9958154–5 and 6, at the first, second, and third fasteners outboard of the fuselage shell, would, in their opinion, require removal of a portion of the pylon upper skin, and the radiographic inspections required in paragraph B of AD 72–7–6 would in fact accomplish the inspections of those upper areas of the spar cap and strap. The AD is being superseded to add clarifying language to the accomplishment instructions of the visual inspections so as to not require removal of the skin and provide other relief.

Amendment 39–1418 refers to Douglas All Operators Letter AOL 9–66. This should be AOL 9–666 and the AD reflects the correct AOL number.

Since the issuance of Amendment 39–1418, the agency has determined that the modifications to the rear spar upper cap and strap, described in Douglas Service Bulletin 54–27, dated March 3, 1972, are considered approved modifications and constitute an appropriate terminating action when accomplished. The new AD incorporates this terminating action.

The manufacturer has made production modifications to the pylon rear spar upper cap and strap on certain Model DC–9 airplanes, which the agency has determined are equivalent to those modifications described in Douglas Service Bulletin 54–27. The applicability statement in the new AD reflects this work.

Since this amendment provides clarification, relief, alternative means of compliance and terminating action, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, is amended by adding the following new airworthiness directive:

McDONNELL-DOUGLAS. Applies to all Model DC–9 series airplanes prior to serial number 47541, certificated in all categories. Compliance required as indicated.

To prevent failures of the engine mount pylon as the result of cracks in the engine pylon upper aft spar caps (P/N 9958154–5, and 6) and/or the titanium straps (P/N 9958154–17 and 18) and supporting structure, accomplish the following:

A. For aircraft with more than 8,000 hours' time in service: Within the next 150 hours' time in service after the effective date of this AD, unless already accomplished, conduct visual inspections for evidence of cracking, in accordance with the following procedure.

1. Visually inspect the upper and lower surfaces of the titanium straps, P/N 9958154–17 and 18, and the upper and lower surfaces of the steel spar caps, P/N 9958154–5 and 6, at the first, second, and third fasteners inboard of the fuselage shell; and,

2. Visually inspect the aft face and lower surface of the titanium straps, P/N 9958154–17 and 18, and the lower surface of the steel spar caps, P/N 9958154–5 and 6, at the first, second, and third fasteners outboard of the fuselage shell; and,

3. Visually inspect the bend radius and areas around the vertical line of rivets in the pylon rear spar supporting bulkhead shear clips, P/N 9912246–43 and 44, inside the fuselage shell between longerons 14 and 16; and,

4. Visually inspect the bend radius and areas around the horizontal line of rivets in the outboard leg of the intercostals, P/N 9915596–3 and 4, which attach to the fuselage skin between the pylon rear spar supporting bulkhead and next aft fuselage frame (P/N 5913596) inside the fuselage shell; and,

5. Visually inspect the bend radius and areas around the vertical line of rivets in the outboard leg of the fuselage frame shear clips (P/N 5913596–11 and 12, P/N 5913595–11 and 12), inside the fuselage shell, at the first and second fuselage frames (P/N's 5913596 and 5913595) aft of the rear spar support bulkhead.

6. If a crack is found:

a. In the pylon structure (other than the rear spar upper cap and/or strap) or adjacent fuselage structure, before further flight, replace the cracked parts with new parts of the same design, or repair in accordance with instructions prescribed in the Douglas DC–9 Structural Repair Manual, or repair in a manner approved by the Chief, Aircraft Engineering Division, FAA Western Region. After accomplishment of the above, perform the radiographic inspections specified in paragraph B.

b. In the spar cap(s), P/N 9958154–5 and/or 6, and/or strap(s), P/N 9958154–17 and/or 18, before further flight, replace the cracked parts with new parts of the same design; or, replace the cracked steel spar cap(s), P/N 9958154–5 and/or 6, with a new cap(s) of the same design, and replace the titanium strap(s), P/N 9958154–17 and/or 18, with a new design steel strap(s), P/N 5917717–3 and/or 4, using new larger diameter interference fit fasteners, in accordance with Douglas Service Bulletin S/B 54–27, dated March 3, 1972, or later FAA-approved revisions.

7. a. When a new spar cap or strap of the same (i.e. original) design is installed in accordance with the requirements in 6.b, accomplish the inspections specified in paragraph B until the existing (retained) part (cap or strap) is replaced with a new part in accordance with the requirements in 6.b, at which time the inspection requirements in paragraph 7.b apply. (NOTE: accumulation of 8,000 hours time in service is based on earliest replaced part (cap or strap)); or

b. Upon installation of both a new spar cap and a new strap of the same (i.e. original) design, the inspections required in paragraphs A and B may be discontinued until these parts accumulate 8,000 hours' time in service, at which time reinstate the program of inspections and any necessary replacement or repairs per this AD; or,

c. Upon installation of new improved design steel strap(s), P/N 5917717–3 and/or 4, in conjunction with an existing (retained) uncracked steel spar cap(s) P/N 9958154–5 and/or 6, using new larger diameter interference fit fasteners, in accordance with Douglas S/B 54–27, or later FAA-approved revisions, the inspections required in paragraphs A and B of this AD are no longer applicable.

B. If no cracks are found after accomplishment of the inspections required by paragraph A–1 through A–5, or, after repair or replacement of parts as specified in 6(a), within the next 1,500 hours' time in service after the effective date of this AD and thereafter, at intervals not to exceed 1,500 hours' time in service from the last inspection, inspect the upper aft steel spar caps, P/N 9958154–5 and 6 and titanium cap straps, P/N 9958154–17 and 18, using radiographic inspection methods in accordance with the instructions outlined in Douglas All Operators Letter, AOL 9–666 dated November 22, 1971, or equivalent inspection means approved by the Chief, Aircraft Engineering Division, FAA Western Region; or, replace the titanium strap(s), P/N 9958154–17 and/or 18, with a new steel strap(s), P/N 5917717–3 and/or 4, using new larger diameter interference fit fasteners in accordance with the instructions specified in Douglas Service Bulletin 54–27, dated March 3, 1972, or later FAA-approved revisions. Upon accomplishment of the above rear spar upper cap and strap modification specified in S/B 54–27, the inspections required in paragraph A and B may be discontinued.

NOTE: Prior to installation of the new steel strap(s) P/N 5917717–3 and/or 4 per Service Bulletin, 54–27, determine by radiographic inspection methods specified in Douglas AOL 9–666 or other FAA-approved equivalent inspection means (visual inspection is not considered satisfactory) that the existing (retained) steel cap is not cracked and shows no other signs of damage.

If cracks are found as a result of the radiographic inspections, before further flight, replace the cracked parts as specified in paragraph 6(b) and accomplish the inspections in accordance with the instructions in 7.a, 7.b, and 7.c, as applicable.

This supersedes Amendment 39–1418 (37 F.R. 6380), AD 72–7–6.

This amendment becomes effective April 25, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on April 12, 1972.

ROBERT O. BLANCHARD,
Acting Director, FAA Western Region.

[FR Doc.72–6156 Filed 4–21–72;8:46 am]

[Airspace Docket No. 71–SO–170]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On February 16, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 3441) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Miami, Fla., transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

Section 71.181 (37 F.R. 2143) is amended as follows: In the Miami, Fla., transition area the phrase "(latitude 26°11'41" N., longitude 80°10'15" W.)" is deleted and the phrase "(latitude 26°11'41" N., longitude 80°10'15" W.); within a 6.5-mile radius of Pompano Beach Airpark (latitude 26°15'00" N., longitude 80°06'30" W.), and within 3 miles each side of the Pompano Beach VOR (latitude 26°14'52" N., longitude 80°06'32" W.) 319° radial, extending from the 6.5-mile radius area to 8.5 miles northwest of the VOR." is substituted therefor.

(Sec. 307(a), 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a), 1510, Executive Order 10854, 24 F.R. 9565; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 18, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72–6157 Filed 4–21–72;8:46 am]

[Airspace Docket No. 72–RM–4]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to alter the "time of designation" of R–6413, Green River, Utah.

Due to an extension of the firing period for the Pershing Missile from R–6413, Green River, Utah, the Department of the Air Force has requested the effective period be extended to July 31, 1972.

In the notice of proposed rule making published in the FEDERAL REGISTER (36 F.R. 1911) of February 3, 1971, Airspace Docket No. 70–WE–93, it was stated that: "Each successive period would be designated by rule published in the FEDERAL REGISTER," therefore, further notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication (4–22–72), as hereinafter set forth.

In § 73.64 (37 F.R. 2373, 437) the Green River, Utah, Restricted Area R–6413, is amended as follows: In the time of designation, "June 30, 1972," is deleted and "July 31, 1972," is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a), sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 18, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.659]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Nonimmigrant Documentary Waivers

Part 41, Chapter I, Title 22 of the Code of Federal Regulations is amended to enable British subjects who are residents of the Turks and Caicos Islands to enter the United States without visas under certain circumstances.

The heading and the last sentence of paragraph (a) of § 41.6 are amended to read as follows:

§ 41.6 Nonimmigrants not required to present passports, visas, or border crossing identification cards.

* * * * *

(a) *"Canadian nationals, and aliens having a common nationality with nationals of Canada or with British subjects in Bermuda, the Bahamas, Cayman Islands, and Turks and Caicos Islands.* * * * A visa shall not be required of a British subject who has his residence in, and arrives directly from, the Cayman Islands or the Turks and Caicos Islands and who presents a current certificate from the Clerk of Court of the Cayman Islands or the Turks and Caicos Islands indicating no criminal record.

* * * * *

Effective date. The amendments to the regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER (4–22–72).

The provisions of the Administrative Procedure Act (80 Stat. 383; 5 U.S.C. 553) relative to notice of proposed rule making are inapplicable to this order because the regulations contained herein involve foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U.S.C. 1104)

For the Secretary of State.

BARBARA M. WATSON,
Administrator, Bureau of Security and Consular Affairs, Department of State.

MARCH 31, 1972.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization, Immigration and Naturalization Service, Department of Justice.

APRIL 13, 1972.

[FR Doc. 72–6225 Filed 4–21–72;8:51 am]

Title 23—HIGHWAYS

Chapter I—Federal Highway Administration, Department of Transportation

PART 1—ADMINISTRATION OF FEDERAL-AID FOR HIGHWAYS

Highway Beautification: Outdoor Advertising

On April 4, 1972, the Federal Highway Administration (FHWA) published Policy and Procedure Memorandum (PPM) 80–5.2, Highway Beautification: Outdoor Advertising.

PPM 80–5.2 prescribes the policies and procedures adopted by the FHWA for administering certain of the outdoor advertising control provisions of the Highway Beautification Act of 1965, 23 U.S.C. section 131. It is being issued after coordination by the FHWA with the several State highway departments, the American Association of State Highway Officials and representatives of segments of the outdoor advertising industry.

The PPM defines control areas and zoning, acceptable conforming signs, and

V 37-79 APR 22 72 XUM

sets forth the requirements for Federal participation in the cost of acquiring the property interests necessary for removing nonconforming advertising signs, displays, and devices from the controlled areas of the interstate and primary systems. Its purpose is to provide a framework of simplified requirements which will permit a State to develop its own procedures to remove outdoor advertising signs in an efficient and expeditious manner. The PPM suggests the use of various simplified methods for valuing signs, sign sites, and interests therein which will be acceptable as bases for Federal participation under 23 U.S.C. 131(g), and it sets forth the procedures to be followed by the States for effecting the removal of the nonconforming signs, displays and devices.

The PPM supersedes paragraph 4b(2), 5, 8b(1), 8c(1), and Appendix E, of PPM 80–9, and other references and provisions relating to outdoor advertising signs in PPM 80–9.

The PPM as published herein is identical with the issuance of April 4, 1972.

This amendment is issued under the authority of 23 U.S.C. 101 et seq., 116, 123, 315, and the delegation of authority in § 1.48(b) of the regulations of the Office of Secretary, 35 F.R. 3949 (1970).

In view of the foregoing, Part 1 of Title 23 of the Code of Federal Regulations is amended by adding PPM 80–5.2 at the end of Appendix A, "Policy and Procedure Memoranda."

Issued: In Washington on April 19, 1972.

F. C. TURNER,
Federal Highway Administrator.

POLICY AND PROCEDURE MEMORANDUM 80–5.2

1. *Material transmitted.* PPM 80–5.2 Highway Beautification Outdoor Advertising.

2. *Existing issuances affected.* a. In a planned revision of the right-of-way PPM's, the entire 80-Series is being renumbered, and will be reissued in chapter form. New PPM 80–5 will cover the Highway Beautification Act of 1965. The attached PPM 80–5.2, Outdoor Advertising, is the first material to be issued under the new series.

b. In the meantime, paragraph 1, property management; paragraph 2, Disposition (and relinquishment); the portion of paragraph 4, Air Rights, relating to acquisition in limited vertical dimension; and Attachment No. 1 of PPM 80–5 issued under Transmittal 91, dated April 20, 1967, and Transmittal 112, dated December 27, 1967, remain in effect and should not be discarded until further notice. Paragraph 3 and portions of paragraph 4 have previously been superseded.

c. The attached issuance supersedes paragraphs 4b(2), 5, 8b(1), 8c(1), and Appendix E, of PPM 80–9, and other references and provisions relating to outdoor advertising signs in PPM 80–9.

3. *Effective date.* The provisions of PPM 80–5.2 are effective immediately.

F. C. TURNER,
Federal Highway Administrator.

10. Program and authorization.
11. Valuation methods.
12. Valuation of sites.
13. Valuation of signs.
14. Review of estimates.
15. Negotiations.
16. Documentation for Federal participation.
17. Reports.

ATTACHMENT 1—SIGN AND SITE VALUATION FORMULA AND SCHEDULE GUIDE

1. *Purpose.* To prescribe the Federal Highway Administration policies and procedures relating to Federal participation in the costs of acquiring the property interests necessary for removal of nonconforming advertising signs, displays and devices under section 131 of title 23, United States Code, as amended by title I of the Highway Beautification Act of 1965.

The purpose of these policies and procedures is to provide a framework of simplified requirements within which a State may develop its procedures to remove outdoor advertising signs in an efficient and expeditious manner.

This policy and procedure memorandum should not be construed to authorize any additional rights in eminent domain not already existing under State law or under 23 U.S.C. 131(g).

2. *Effective date and applicability.* a. The provisions of this memorandum are effective immediately.

b. The provisions of this memorandum are applicable to all highway outdoor advertising projects on the Federal-aid Primary and Interstate Systems regardless of whether Federal funds participated in the construction thereof.

c. The provisions of title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 do not apply to the Highway Beautification Act of 1965 as related to the sign removal program. Title III of said Act applies. However, where complete conformity would defeat the purposes of the Uniform Act and the sign removal program, the particular requirements of title III need not be followed. For example, in the acquisition of an interest of minimal value, the observance of elaborate procedures for preparing appraisals and for giving notice to sign and site owners of their right to accompany appraisers may be modified or dispensed with when their observance would impede the expeditious implementation of the program and increase administrative costs out of proportion to the cost of the minimal interest being acquired or extinguished.

d. Funds provided by title 23 U.S.C. 131(m) may participate in the costs of acquisition of those property interests or rights necessary to permit removal of outdoor advertising signs under the highway Beautification Act of 1965.

e. When funds are provided by title 23 U.S.C. 131(m) for the acquisition of signs, the site owner shall also be compensated for the acquisition of his right to erect and maintain existing signs on qualifying sites. It is expected the site owner shall be compensated at the time or shortly after compensation is paid to the sign owner.

3. *Definitions.* The following terms are defined as to their meaning and use in the sign removal program.

a. *Sign.* An outdoor sign, light, display, device, figure, painting, drawing, message, placard, poster, billboard, or other thing which is designed, intended or used to advertise or inform, any part of the advertising or informative contents of which is visible from any place on the main traveled way of the Interstate or Primary Systems.

b. *Lease* (also called a license, an agreement, contract, or easement). An agreement, oral or in writing, by which possession or use of land or interests therein is given by the owner to another person for a specified period of time.

c. *Leasehold value.* The lessee value is the present worth of the rent saving when the contractual rent at the time of the appraisal is less than the current market rent for a comparable site. The lessor has leasehold value if the contractual rent is greater than the currently established market rent.

d. Illegal sign—One which was erected and/or maintained in violation of the State law.

e. Nonconforming sign—One which was lawfully erected, but which does not comply with the provisions of a State law passed at a later date or which later fails to comply with State law due to changed conditions.

f. 1966 Inventory—The record of the survey of advertising signs and junkyards compiled by the State highway department as requested in Instructional Memorandum 50–1–66 dated January 7, 1966.

g. Abandoned sign—One which has ceased to be maintained, and in which the owner no longer claims an interest.

4. *State policies and procedures requirements.* a. *Policy statement.* Each State shall develop for FHWA approval a policy statement regarding the procedures it proposes to follow to implement a sign removal program under a State law complying with the Highway Beautification Act of 1965, no later than 60 days after issuance of this PPM. States now implementing the Act should not delay sign removal while developing a policy statement.

b. *Operating procedures.* Operating procedures should reflect in detail the procedures and controls adopted by the State to accomplish the sign removal program.

5. *Control area and zoning.* a. The applicable control distance, 660 feet for advertising signs, shall be measured horizontally from the edges of the right-of-way along lines perpendicular to the centerline of the highway.

b. Any revision in right-of-way limits after initial control is obtained will require similar revisions in the control area. The additional expenditures are eligible for Federal participation in the same manner as the original expenditures for creation of the controlled area.

c. Placing the label "Zoned Commercial or Industrial" along areas adjacent to the highway solely for the purpose of allowing outdoor advertising to be erected or maintained is not acceptable under title 23 U.S.C. 131(d).

d. Except as stated in c above, the zoning of an area will determine applicability of the standards for control of outdoor advertising signs. Similarly, actual industrial or commercial use at any given time will determine the classification of unzoned commercial or industrial areas.

e. Where State standards are more stringent than Federal control requirements along Interstate and Primary Systems, the Administrator may approve Federal participation in costs of applying the State standards to those systems on a Statewide basis.

6. *Bonus states.* Any State which is carrying out an agreement to control outdoor advertising along the Interstate System under the 1958 bonus program may continue to receive bonus payments. Where such a State is also in compliance with the 1965 Act requirements, it must continue to carry out the bonus agreement except where the 1965 Act calls for more restrictive controls.

7. *Acceptable conforming signs.* Each State shall make provision for effective control of the erection and maintenance, along the Interstate System and the Federal-aid Primary System, of outdoor advertising signs which are within 660 feet of the nearest edge of the right-of-way and visible from the main traveled way of the System.

Under the provisions of the 1965 Act, the following signs are permitted:

a. Directional and other official signs, including signs and notices pertaining to natural wonders and scenic and historical attractions. These signs shall conform to national standards set forth in 23 CFR 21.

b. Signs advertising only the sale or lease of property upon which they are located.

c. Signs advertising only activities conducted on the property on which they are located.

d. Signs erected and maintained in areas which are zoned industrial or commercial under State law, or in unzoned industrial or commercial areas, as determined and in accordance with the provisions of the agreement between the Secretary and the State. This subsection is not applicable to on-premise signs referred to in b and c above.

8. *Federal participation.* a. Federal reimbursement will be made on the basis of 75 percent of the costs of removal paid by the State as just compensation for:

(1) Signs which were lawfully in existence on October 22, 1965;

(2) Signs lawfully on any highway made a part of the Interstate or Primary System on or after October 22, 1965, and before January 1, 1968; and

(3) Signs lawfully erected after January 1, 1968, in accordance with the criteria in the Highway Beautification Act.

b. In the event a sign was omitted in the original inventory, the State should submit adequate evidence to establish that the sign was in existence prior to October 22, 1965. Based on the evidence submitted, the division engineer may determine whether the sign removal cost is eligible for Federal participation under the provisions of the Act.

c. Federal funds may participate in the cost of removal of abandoned signs and those which are illegal under State law within the controlled areas regardless of when these signs were erected, provided such costs for removal are incurred in accordance with State law. Removal may be by State personnel on a force account basis or by contract. Federal funds may not participate in payments for rights in sites on which signs have been abandoned or illegally erected by the sign owner or in the costs of removal in cases where a new sign is erected or there has been a relocation of a sign after October 22, 1965, either as a result of a regular right-of-way taking or by the sign owner as a part of his operation and the sign in its new location is within the 660 feet controlled area.

d. Signs lawfully erected for which just compensation is provided under paragraph 8a above, and which must be removed by requirement of the Act, are not required to be removed if Federal funds are not available.

e. Federal funds may participate in payments made to a sign owner for his right, title and interest in a sign, and where applicable, his leasehold value in a sign site. Federal funds may participate in relocation of a sign only to the extent of the cost to acquire the sign, less salvage value if any. Each sign shall be treated as a separate entity without regard to the effect its removal will have on the business operation of the sign owner, except as provided in paragraph 11d.

f. Reimbursement for the Federal pro rata share of the just compensation paid for the removal of outdoor advertising signs shall not be made until the removal shall have been accomplished.

g. Except where required by State law, Federal funds will not participate in the costs of a title certificate, title insurance, title opinion or similar evidence or proof of title in connection with the acquisition of a landowner's right to erect and maintain a sign or signs when the amount of such payment to the landowner for his interest is $2,500 or less. Federal funds, however, may participate in the costs of securing some lesser evidence or proof of title such as searches and investigations by State highway department personnel to the extent necessary to determine ownership, affidavit of ownership by the owner, bill of sale, etc. The State's procedure for determining such evidence of proof of title would be set forth in the State's policy and procedure submission.

h. When a duplicate payment for a landowner's interest of $2,500 or less is necessary because of a bona fide error in ownership, Federal funds will also participate in the duplicate payment provided the State has followed its title procedures as set forth in its policy and procedure submission. Any duplicate payment shall be submitted to the division engineer for his approval before it is included in any reimbursement voucher. The State shall take all reasonable steps to recover any wrongful payment made and appropriate credit shall be made to Federal funds from the proceeds of the recovery.

i. Except as may be provided in paragraphs 11, 12, and 13, Federal funds will not participate in items generally not compensable under eminent domain.

9. *Payments to sign and site owners.* a. Payments made to the landowner and the sign owner are to be supported by schedules, formulas, value estimates, or appraisals.

b. Signs, erected without permission of the property owner, should be removed without payment to the sign owner unless the sign owner can otherwise establish his legal right to erect and maintain the sign. Signs of this nature may be removed by State personnel on a force account basis, by contract, or by compensating the landowner an amount to remove the sign if the payment involves only a minimal amount. Federal funds may participate in such costs.

c. Where compensation to landowners and sign owners is established by a schedule, formula, or other such method approved by the Federal Highway Administration, the valuation and negotiation may both be done by the same member of the staff of the State highway department: *Provided*, That any negotiated agreement does not become effective until it has been reviewed (checked) and approved by another member of the staff. Where compensation to landowners and sign owners is established by value findings, abbreviated appraisal reports, or standard appraisal reports, all such estimates shall be reviewed and approved by a State reviewing appraiser.

10. *Program and authorization.* a. *Type of project.* A sign removal project may consist of any group of proposed sign removals selected in a reasonable fashion. The signs may be those belonging to one company or those located along a single route, all of the signs in a single county or other locality, or any other similar grouping. Generally speaking, a single project should not include signs along both interstate and primary highways unless the number of signs along one system is so small that it would be more logical to include these in the project than on the other system.

A project for sign removal on other than a Federal-aid primary route basis should be identified as CAF–000B( ), continuing the numbering sequence which began with the sign inventory project in 1968.

Sign removal projects set up by interstate routes should be by route sections unless one section contains only a very limited number of signs.

Projects for the removal of outdoor advertising signs shall be programed and authorized in accordance with normal procedures and in the same manner as set forth for right-of-way projects.

b. *Division engineer approval.* Authorization to proceed with acquisitions on a sign removal project shall not be issued until such time as the State has submitted to the division engineer the following:

(1) A general statement or description of the project.

(2) A list of the signs to be removed, including the approximate location of each sign and its 1966 inventory number, if available.

(3) The total estimated cost of all sign removals within the project, including payments to sign owners, landowners and incidental costs.

c. *Project priorities.* The selection and programing of sign removal projects will be the responsibility of the State. At the 1973 fiscal year funding level contained in the 1970 Highway Act, the sign removal program, nationwide, will take 5 to 6 years. The following is the recommended order of priority in sign removal.

(1) Illegal and abandoned signs.

(2) Hardship situations.

(3) Minimum value signs.

(4) Signs in areas which have been designated as scenic under authority of State law.

(5) Product advertising on: (a) Rural interstate highway, (b) on rural primary highway, and (c) urban areas.

(6) Nontourist oriented directional advertising.

(7) Tourist-oriented directional advertising.

11. *Valuation methods.* a. *Schedules-formulas.* Schedules, formulas, or other methods to simplify valuation may be used. Attachment 1 provides guides for the development of such methods. These methods may be based on income, cost of reproduction less depreciation, or other factors. Such methods of simplified valuation do not purport to be a basis for the determination of just compensation under eminent domain principles, but are developed for the purpose of minimizing administrative and legal expenses necessarily involved in determining just compensation by individual appraisals and litigation.

Any such method shall be approved by FHWA prior to its use. Where a sign or site owner does not accept the amount computed under an approved schedule, formula, or other simplified method, an appraisal under principles of eminent domain will be required.

b. *Value finding—Appraisals.* Where appropriate the State may use its approved value finding, abbreviated appraisal, or standard appraisal report forms. When used they shall be completed in accordance with applicable Federal Highway Administration appraisal requirements.

c. *Leaseholds.* When outdoor advertising signs and sign sites involve a leasehold value, such value should be determined in the same manner as any other real estate leasehold that has value to the lessor or lessee.

d. *Special cases—Severance damages.* Generally, Federal participation will not be allowed in the payment of damages to remaining signs, or other property of a sign company alleged to be due to the taking of some of the company's signs. Unity of use of the separate properties, as required by applicable principles of eminent domain law, must be shown to exist before participation in severance damages will be allowed. Moreover, the value of the remaining signs or

V 37-79
APR 22 72
XUM

other real property must be diminished by virtue of the taking of such signs. Payments for damages to economic plants or loss of business profits are not compensable. The State shall have the burden of justifying the recognition of severance damages pursuant to PPM 80-1 and the law of the State before Federal participation will be allowed. Such cases must be submitted to the Federal Highway Administration for prior concurrence, together with complete legal and appraisal justification for payment of these damages.

To assist the Federal Highway Administration in its evaluation, the following data will accompany any submission regarding severance:

(1) One copy of each appraisal in which this was analyzed. One copy of the State's review appraiser analysis and determination of market value.

(2) A plan or map showing the location of each sign.

(3) An opinion by the State highway department's chief legal officer that severance is appropriate in accordance with State law together with a legal opinion that, in the instant case, the damages constitute severance as opposed to consequential damages as a matter of law. The opinion shall include a determination, and the basis therefor, that the specific taking of some of an outdoor advertiser's signs constitutes a distinct economic unit, and that unity of use of the separate properties in conformity with applicable principles of eminent domain law had been satisfactorily established. A legal memorandum must be furnished citing and discussing cases and other authorities supporting the State's position.

12. *Valuation of sites.* a. Normally sites will be valued by the use of schedules or formulas without requiring before and after appraisals. The additional income produced by the sign may be considered the primary indicator of value of the landowner's interest, subject to limitations of State law. Any formula or schedule developed should be based on accepted appraisal principles such as estimating the present worth of a future income stream. If the income approach is used, consideration should be given to:

(1) The terms of the lease or agreement.

(2) Annual rent received for the site.

(3) An interest rate which reflects the durability and quality of the income stream.

(4) Factors effecting the remaining life of the sign on the site.

b. The State may establish a minimum payment for sites acquired not to exceed $100 per site interest. A landowner's right to erect and maintain signs on a contiguous ownership will be considered as one site interest, regardless of the number of signs. Federal funds will not participate in the acquisition of potential sign sites or sites where signs were built during a period of time which makes them ineligible for compensation under the law. The existing sign must be removed in order to compensate the landowner.

13. *Valuation of signs.* a. The valuation of signs can be accomplished by developing formulas, cost schedules which reflect typical construction costs of signs or, by using other appropriate estimating methods. The State should obtain information from sign companies and others to support its formula or schedule methods.

b. *Minimum payment.* The State may establish a minimum payment for signs acquired not to exceed $100 per interest. A sign owner's right to erect and maintain signs located on a contiguous ownership will be considered as one interest, regardless of the number of signs.

c. *Sign removal.* Sign removal will be accomplished in accord with the State's procedural statement. The statement should include provision for:

(1) *Owner retention.* Owner may retain removed signs with no deduction from the estimated value where it has been determined the sign has only a nominal salvage value. Signs which have an apparent salvage value shall be removed in accord with the State's procedures.

(2) *State removal.* Where owners do not remove signs, the State shall remove the signs on a contract basis, or when appropriate by State force account.

14. *Review of estimates.* All estimates whether based on an approved schedule, formula, or other such method or, on a value finding, abbreviated appraisal, or standard appraisal, shall be reviewed and approved by a person other than one who prepared the estimate. Review and approval of estimates based on approved schedules shall occur before any negotiated agreement becomes effective. In the case of estimates based on value findings or appraisals, the review and approval must occur prior to the initiation of negotiations.

15. *Negotiations.* a. Negotiations with sign owners and landowners will be conducted in accordance with the State's procedural statement. Federal Highway Administration approval of fee negotiators on a project basis is required. No part of the acquisition cost of a sign or site will be eligible for Federal participation if the negotiator is paid on a percentage basis.

b. Administrative settlements shall be in accordance with the State's procedural statement.

c. Where condemnation action is necessary, the State's eminent domain procedures pertaining to condemnation of property for public purposes, or the procedures spelled out in State law on this subject, shall apply and be in accord with the State's procedural statement.

16. *Documentation for Federal participation.* The following information concerning each sign must be available in the State files prior to Federal participation in the cost of sign removals.

a. Payment to sign owner:

(1) Value documentation including proof of payment.

(2) A statement of facts showing the sign was nonconforming as of the date of taking. The statement will indicate the zoning of the land on which the sign was located and if unzoned that the sign was not located in an unzoned commercial or industrial area.

(3) A statement that the sign falls within one of the three categories shown in paragraph 8a of this memorandum.

(4) A photograph of the sign in place.

(5) Satisfactory indication of ownership of the sign and compensable interest (e.g., lease or other agreement, if any, with the property owner).

(6) Evidence that sign has been removed.

b. Payment to the landowner:

(1) Value documentation, including proof of payment.

(2) Satisfactory indication of ownership and compensable interest.

(3) Evidence that sign has been removed.

17. *Reports.* Division engineers will submit monthly reports on actual sign removals on a form to be prescribed.

F. C. TURNER,
Federal Highway Administrator.

PPM 80-5.2—ATTACHMENT 1—SIGN AND SITE VALUATION FORMULA AND SCHEDULE GUIDE

INTRODUCTION

Standardized sign industry construction methods and the simple structural nature of nonstandardized signs support the development of easily administered payment schedules and other equitable valuation techniques. These are intended to facilitate sign and site valuations, speed acquisition and substantially increase program progress.

In brief, the guide suggests procedures for the development of schedules and valuation techniques for the following parts:

I Standard Poster Panels.
II Painted Bulletins.
III Miscellaneous Signs.
IV Depreciation Techniques.
V Leasehold Value.
VI Gross Rent Multiplier.
VII Site Valuation.

The suggested methods are not mandatory. These methods were developed by State and Federal representatives with the assistance of the outdoor advertising industry. This guide will be subject to modification as improved procedures develop and additional valuation information becomes available. Industry, State, and division information and suggestions should be submitted promptly for consideration and inclusion in any revision of this guide.

METHOD OF DEVELOPING SIGN PAYMENT SCHEDULES

1. By contact with the industry and observation in the field, locate a suitable number of newly constructed signs.

2. Contact the companies that have built signs recently and obtain from them the direct and indirect costs of the specific sign construction. At the same time, request authority to audit the company's records to determine the validity of the data acquired. Obtain information on the normal useful life of each sign for the development of depreciation rates. This initial study and data is crucial to the development of the valuation techniques set forth herein.

3. Field check each sign to determine whether it was built according to the company's plans, to determine the specific type of construction, including such things as wood or metal construction, illumination one face, two face, and the area of the advertising face or faces.

4. Correlate the data obtained from the field and the audited construction data.

5. When adequate sign cost data has been collected from a sufficient number of signs, analyze the data to determine the cost of variables such as height, lighting, addition of a second face, reflectorization, quality and type of construction, and the appropriate form for schedules.

6. The data acquired should then be broken down into various categories and averaged to determine the appropriate costs and depreciation rates which can be used as a basis for the schedules.

7. In lieu of the above steps, a State may adopt another State's FHWA approved schedules after test auditing local new sign construction costs and making any necessary adjustments.

8. Obtain and evaluate industry's position concerning the payment schedule concept and the resultant formula based on the analysis in 5 above.

PART I—SCHEDULE 1, STANDARD POSTER PANEL

Definition. An outdoor advertising device built on two or more posts imbedded into the ground or attached to the wall or roof of a building which is designed to support a flat surface of 300 square feet upon which printed advertising or other messages are affixed by pasting.

	Cut out ($/S.F.)	*Modular* ($/S.F.)
A. Direct Costs:		
1. Material, labor, etc.:		
a. Construction material		
b. Material handling		
c. Construction labor		
d. Engineering		
e. Permits		
f. Equipment costs		
B. Indirect Costs (overhead or burden) attributable to construction Items to be considered:		
1. Shop overhead		
2. Insurance		
3. Salaries		
4. General office expense		
5. Utilities (not including sign illumination)		
6. Taxes		
7. Business licenses		
8. Site procurement		
9. Management		
C. Adjustments:		
1. Illumination, including power run-in		
2. Steel support		
3. Height		
4. Multiple face		
5. Other appropriate adjustments		

NOTE: Either a lump-sum or square-foot schedule may be developed with the above information.

PART II—SCHEDULE: 2 PAINTED BULLETIN

Definition. An outdoor advertising device built on one or more posts imbedded into the ground or attached to the wall or roof of a building which is designed to support one or more flat surfaces upon which at least one advertisement or other message is painted in whole or substantial part.

	Cut out ($/S.F.)	*Modular* ($/S.F.)
A. Direct Costs:		
1. Material, Labor, etc.		
a. Construction material		
b. Material handling		
c. Construction labor		
d. Engineering		
e. Permits		
f. Equipment costs		
2. Art and Display		
B. Indirect Costs (overhead or burden) attributable to construction. Items to be considered:		
1. Shop overhead		
2. Insurance		
3. Salaries		
4. General office expense		
5. Utilities (not including sign illumination)		
6. Taxes		
7. Business licenses		
8. Site procurement (not including payment to landowner)		
9. Management		
C. Adjustments:		
1. Illumination, including power run-in		
2. Steel support		
3. Height		
4. Reflectorization		
5. Multiple face		
6. Other appropriate adjustments		
7. Special costs (costs involved in special use sign design and erection specifically for the sole use of one advertiser (not to exceed 10 percent of direct and indirect costs)).		

NOTE: A lump-sum schedule may be developed where appropriate.

PART III—SCHEDULE 3: MISCELLANEOUS SIGNS

Definition. Factory-made signs produced for mass distribution, or small inexpensive signs characterized by "do-it-yourself" workmanship, and all other signs that do not fit into the standard 300-square foot poster panel or painted bulletin categories.

	Cut out ($/S.F.)	*Modular* ($/S.F.)
A. Direct Costs:		
1. Material, Labor, etc.		
a. Construction material		
b. Material handling		
c. Construction labor		
d. Engineering		
e. Permits		
f. Equipment costs		
2. Art and Display		
B. Indirect Costs (overhead or burden) attributable to construction. In those instances where these costs are applicable, use the appropriate costs under "Painted Bulletins."		
C. Adjustments:		
1. Illumination		
2. Steel support		
3. Height		
4. Reflectorization		
5. Double face		
6. Other appropriate adjustments		
D. Quantity Survey Method:		

As an alternative to the above, miscellaneous signs may also be estimated through use of a simplified quantity survey. Such methods should be supported with a table of realistic material costs developed through study of suppliers' prices. A standard form should be used to list the basic components as line items and show their quantities, costs, and extended amounts. The list of basic components could include suppliers' prices for typically used sizes of dimensioned lumber, dur-a-ply, or its equal, plywood, pipe, angle iron, I-beams, sheet metal, pressure treated poles and posts, fasteners, and other appropriate items.

Labor and overhead should be added to the material cost. These figures may be obtained from contractors through audit of sign companies' costs.

A list of adjustments should also be provided, such as in C above. They may be computed on an individual basis and include both direct and indirect costs. In addition to the adjustments in C above, this list could include adjustments for transportation, excavation and erection, and light or heavy copy.

NOTE: A lump-sum schedule may be developed when appropriate.

PART IV—DEPRECIATION

Average depreciation rate schedules should be established to reflect the depreciation of signs of similar type, size and physical condition. These schedules should include high, intermediate and low rates of depreciation to reflect the condition of the signs, their maintenance and other appropriate factors.

Generally, the age-life method of estimating depreciation should be used. The estimator should be aware of the typical economic life of the sign. Consideration should be given to past maintenance, quality of construction, type of materials, etc. A remaining economic life should be estimated and applied to each sign.

Depreciation should also reflect functional, economic, legal and other matters, such as zoning, setback easements, deed restrictions, visibility, compatibility with future use, and traffic conditions. It should not, however, reflect any decrease in value attributable to the fact that the Highway Beautification Act prevents relocation of the sign.

PART V—LEASEHOLD VALUE

If it is established that economic site rent exceeds contract site rent, the bonus value may be computed in accordance with applicable State law and accepted appraisal technique. This amount may be added to the sign owner's compensation.

PART VI—GROSS RENT MULTIPLIER

A carefully developed gross rent multiplier may be useful in valuing some signs. Development and acceptance of this technique depends upon the availability of reliable and sufficient current sales of rented signs. Sales of signs or groups of signs are preferred to sales of entire companies, but both types may be considered. The usual conditions of a fair market sale should be present, and all nonsign values (items not normally considered in eminent domain) should be deducted from the sales prices. The signs should have similar expense and revenue producing characteristics. Reasonable details on conditions of the signs and sites will show whether the gross incomes have about the same quality and duration. If sufficient sales become available and this technique proves feasible, multipliers may be prepared for consideration. Any proposed GRM's should be submitted to FHWA for approval prior to use.

PART VII—SITE VALUATION

The valuation process outlined in paragraph 12a, PPM 80-5.2, would lend itself to the adoption of a formula permitting annual income to be multiplied by a present worth factor to determine the amount of payment to the site owner. Selection of the appropriate multiplier would depend upon the judgment of the appraiser and reflect the following considerations:

1. The maximum duration of the income stream may not exceed the remaining economic life of the sign on the site.
2. Existing or proposed local ordinances.
3. Neighborhood quality and trends.
4. The effect of the existing sign(s) on the dominant use of the property.
5. Any potential change in use of the property.
6. Potential development of adjacent property which might block the view of existing sign(s).
7. Present and future traffic flow.
8. Existing zoning and potential rezoning.
9. Deed restrictions.
10. The effect of cancellation clauses and/or renewal options in the lease.
11. The ability of the tenant to pay.

In developing a payment schedule or formula, it should be recognized that the risk rate may increase on those sites having a relatively long remaining economic life.

A schedule will not apply to sites exceeding a 10-year remaining economic life without prior FHWA approval. Sites producing substantial income and having long remaining economic lives should be valued using accepted appraisal procedure.

In applying developed schedule multiples to site income, the average rental for the preceding 2 years shall be utilized.

[FR Doc.72-6227 Filed 4-21-72;8:52 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

[T.D. 7184]

PART 240—WINE

Use of Carbon Dioxide in Sparkling Wine

In order to conform 26 CFR Part 240, Wine, to an amendment being made in 27 CFR Part 4, Labeling and Advertising of Wine, regarding the permissible use of carbon dioxide to maintain counterpressure when transferring finished sparkling wine from bulk processing tanks to bottles or from bottle to bottle the regulations in 26 CFR Part 240 are amended as follows:

PARAGRAPH 1. Section 240.510 is amended to read as follows:

§ 240.510 General.

Sparkling wine and artificially carbonated wine may be made on bonded wine cellar premises. Where the effervescence results from fermentation of the wine within a closed container or bottle, the wine shall be classed and taxed as sparkling wine. The use of carbon dioxide gas is permitted to maintain counterpressure during the transfer of finished sparkling wines from (a) bulk processing tanks to bottles, or (b) bottle to bottle: *Provided*, That the carbon dioxide content of the wine shall not be increased by more than 0.009 gram per

V 37-79 APR 22 72 XUM

100 milliliters during the transfer operation. Where the wine is carbonated artificially (by injection of carbon dioxide into the wine) it shall be classed and taxed as artificially carbonated wine. Neither the effervescent wine nor the wine used as a base in the production thereof shall have an alcohol content in excess of 14 percent by volume; however, small quantities of wine containing more than 14 percent of alcohol may be used in preparing a dosage for finishing effervescent wine.

(72 Stat. 1383; 26 U.S.C. 5382)

PAR. 2. Section 240.511 is amended by: Striking the last sentence in its entirety; and updating the statutory citation. As amended, § 240.511 reads as follows:

§ 240.511 Segregation of operations.

Where more than one process of producing effervescent wine is employed, the portion of the premises used for the production and storage of wine made by each process (bottle fermented, bulk fermented or artificially carbonated) must be physically segregated by partitions of wire netting or other suitable material from the other portions of the premises used for effervescent wine production.

(72 Stat. 1381; 26 U.S.C. 5365)

PAR. 3. Section 240.1051 is amended by: Adding in the "Use" column for "Carbon dioxide, CO_2," the phrase: "To maintain counterpressure during the transfer of finished sparkling wines"; and adding in the "Reference or limitation" column for such material the words: "§ 240.510. The CO_2 content of the finished wine shall not be increased by more than 0.009 gram per 100 milliliters during the transfer operation."; and adding the statutory citation. As amended, § 240.1051 reads as follows:

§ 240.1051 Materials authorized for treatment of wine.

* * * * *

Materials	Use	Reference or limitation
* * *	* * *	* * *
Carbon dioxide, CO_2.	To stabilize and preserve wine.	§§ 240.531 through 240.535, 21 CFR 121.101(d)(8).
	To maintain counterpressure during the transfer of finished sparkling wines.	§ 240.510. The CO_2 content of the finished wine shall not be increased by more than 0.009 gram per 100 milliliters during the transfer operation.
* * *	* * *	* * *

(72 Stat. 1383; 26 U.S.C. 5382)

Because this Treasury decision merely conforms 26 CFR Part 240 to an amendment being made in 27 CFR Part 4, Labeling and Advertising of Wine, pursuant to a public hearing held on July 27, 1971, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under 5 U.S.C. 553(b). Accordingly, this Treasury decision shall become effective the first day of the first month which begins not less than 30 days following the date of publication in the FEDERAL REGISTER.

(Sec. 7805, of Internal Revenue Code, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 3, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

Title 27—INTOXICATING LIQUORS

Chapter I—Internal Revenue Service, Department of the Treasury

[T.D. 7185]

PART 4—LABELING AND ADVERTISING OF WINE

Definitions, Standards of Identity, and Labeling Requirements

Notice of public hearing to be held in Washington, D.C., on July 27, 1971, with respect to certain proposals to amend 27 CFR Part 4, relating to the labeling and advertising of wine was published in the FEDERAL REGISTER on July 16, 1971 (36 F.R. 13221). Upon the conclusion of the said hearing, and after a thorough study of the proposals in the light of relevant testimony and documentary material and comments submitted by interested persons, the following conclusions have been reached:

1. It had been proposed (proposal No. 1 in the notice of hearing) to amend §§ 4.10(h) and 4.39(b)(1): (1) To permit wine to be described as "vintage wine" and labeled with a vintage date, notwithstanding that, during the course of its development, it may have had blended into it not in excess of 5 percent of other wines as a "topping" to replace wine lost through evaporation or leakage; (2) to delete the requirements that a bottler of vintage wine actually crush the grapes from which such vintage wine is derived and that the grapes be crushed within the particular viticultural area in which they were grown; and (3) to provide that the sale of a particular wine of a particular vintage not exceed the winemaker's total production of such wine for that year.

The proposal to amend §§ 4.10(h) and 4.39(b)(1) would permit "vintage wine" to have a maximum of 5 percent of other wines added to it to replace wine lost by evaporation and leakage during the aging period. Replacement of wine lost during aging is a customary practice in most of the foreign wine producing countries. The sole purpose of "topping" is to preserve the quality of the wine in the aging container by adding wine to replace wine lost by evaporation and leakage. Deterioration by exposure to air is held to a minimum by topping.

Topping operations are performed during aging at irregular intervals, perhaps as frequent as twice a month. Quantities of wine required for topping operations are not known in advance of actually opening the storage container and filling it to capacity. Consequently, winemakers cannot predetermine and set aside the quality of wine needed for topping operations because leakage and evaporation are affected by cellar temperatures and humidity, as well as by the physical condition and size of the cooperage in which the wine is stored.

The general method of topping is to replace the outage from another tank of wine of the same vintage and then transfer the remaining wine into smaller containers for future use in topping. This often requires the use of a number of 5-gallon demijohns which are used until depleted and then the process starts over again. All containers must be kept full, including the smaller ones for future use. Topping operations practiced today require all domestic winemakers to use like wine when topping operations are conducted and by so doing the wine is excessively handled as it is transferred from container to container. Excessive handling, pumping, and exposing the wine to air are damaging to the quality of the wine.

The proposal to delete from § 4.10(h) the requirement that vintage wine be "fermented" in the same viticultural area in which the grapes were grown parallels a similar proposal for § 4.25(a) which would also delete the requirement that wine be "fermented" within the viticultural area in which the grapes were grown in order to be eligible for an appellation of origin.

Both proposals would require that the wine be fermented or fully manufactured and finished within the State in which the viticultural area is located. This requirement is not unusual and is consistent with section 5382(b)(2)(B), I.R.C., in which Congress limited the addition of wine spirits to natural wines produced by fermentation in bonded wine cellars located within the same State.

The reasons for this proposal are because vineyards owned by wineries have been relocated in other areas due to the value of real estate; but, the wineries remain in the same place. Wine grapes are purchased by wine producers and with the advent of mechanized grape pickers and good transportation, it is no longer necessary for the winery to be located in the area where the grapes are grown. As a practical matter, there is very little direct connection between grower of the grapes and the producer of wine.

The evidence of record indicated that the present requirement that a vintage wine must be derived wholly from grapes gathered in the same calendar year, and grown and fermented in the same viticultural area is unnecessarily restrictive when viewed in the light of practices in some of the principal wine producing countries of the world. Further, an amendment of the definition of vintage wine to permit a 5 percent "topping" allowance of other wine would not be adverse to the consumer interest. Therefore, it has been decided to amend the regulations as proposed.

2. It had been proposed (proposal No. 2 in the notice of hearing) to amend § 4.36(a)(1) so as to no longer require a bottler of wine to crush the grapes from which the wine was produced as a condition precedent to the use of the phrase "produced and bottled by" on the label.

The proposal to amend § 4.36(a)(1) deletes the requirement that "crushing the grapes or other materials" be a condition to the use of the phrase "produced and bottled by" or "produced and packed by" on labels. The fact that grapes are crushed in the field has no effect on the production of wine from grapes or juice purchased by producers of wine. Improved transportation now permits grapes to be grown and crushed many miles from the winery. The person who ferments the must (juice) is the producer of the wine regardless of who grew or crushed the grapes. Advances in wine technology have shown that field crushed grapes are less susceptible to contamination and that wild fermentation can be controlled.

This proposal is consistent with the related provisions regarding "vintage wine". Therefore, it has been decided that the regulations be amended so that the phrase "produced and bottled by" or "produced and packed by" may appear on labels used by a bottler who did not crush the grapes from which the wine was produced.

3. It had been proposed (proposal No. 3 in the notice of hearing) to amend § 4.25(a) to eliminate the requirement that the wine must be "fermented" and "fully manufactured" in the viticultural area in which the grapes were grown (where the name of such viticultural area is shown on the label as an appellation of origin) provided the wine is "fermented" and "fully manufactured and finished" in the State where such viticultural area is located.

The proposal to amend § 4.25(a) deletes the requirement that the fruit be fermented in the place or region (viticultural area) where grown to make the wine eligible to an appellation of origin of that viticultural area. The character, bouquet, and quality of a wine depends, to a very large extent, on the quality of the fruit used to produce the wine. All fruits derive their basic characteristics from the climatic and soil conditions where they are grown. Accordingly, a winemaker can take grapes grown in one area, ferment them in a different area, and the wine produced will be equal in quality to wine produced in the same area where the grapes were grown.

This proposal is consistent with the related provisions regarding "vintage wine." Therefore, it has been decided to amend the regulations as proposed.

4. It had been proposed (proposal No. 4 in the notice of hearing) to amend § 4.21(b)(4) to modify the present requirement that "crackling wine," "frizzante wine," "cremant," "perlant," "reciotto," and similar sparkling wines derive their effervescence solely from limited fermentation in the bottle by permitting such wines to derive their effervescence from fermentation in the bottle or in bulk.

The proposal to amend § 4.21(b) allows the production of "crackling wine" and other similar wines by fermentation in bulk. Crackling wine is a sparkling light wine and its production is now restricted to fermentation within the bottle. Since champagne may be fermented in a closed tank, there is no reason to impose different restrictions on fermentation processes for crackling wines.

The evidence of record established a universal desire on the part of industry for "crackling wine" to derive its limited effervescence either from fermentation in the bottle or from fermentation in bulk. However, in order to protect the consumer from deception it has been decided that "crackling wine" deriving its effervescence from fermentation in bulk should be labeled: "Crackling Wine—Bulk Process" to clearly identify the method of production. Therefore, it has been decided to so amend the regulations.

5. It had been proposed (proposal No. 5 in the notice of hearing) to amend § 4.27(a) to eliminate the requirement that bottles of ⅘-gallon and ⅔-gallon sizes be of the traditional Bordeaux or Burgundy shapes and that bottles of the ½-pint size be of the traditional chianti or round shape.

The evidence of record established that the requirement for bottles of ⅘-gallon, ⅔-gallon, and ½-pint sizes to be of a specific shape serves no useful purpose to the industry or consumer. Therefore, it has been decided to amend the regulations as proposed.

6. It had been proposed (proposal No. 6 in the notice of hearing) to amend § 4.38(d) to eliminate the restriction on the placement of a label extending over the mouth of a wine bottle.

No evidence was presented in the hearing of a need for such a restriction. Therefore, it has been decided to amend the regulations as proposed.

7. It had been proposed (proposal No. 8 in the notice of hearing) to amend § 4.39(b)(2) to permit the bottling of vintage wine and the use of a vintage date on labels by a person other than the producer thereof, where such wine is shipped to the bottler in tank cars or tank trucks.

The proposal to amend § 4.39(b)(2) deletes the restriction that the year of vintage may be stated only if the container from which such wine is bottled is the original container of the permittee who produced the wine. This restriction has prevented bulk shipments of vintage wine in tank cars and tank trucks to bottlers other than the producer of the wine. Containers used for transporting vintage wine from producer to bottler need not be restricted if the bottler has available information to substantiate the vintage date. This will allow vintage wines to be transported for bottling in a like manner used in transporting other wines for bottling.

The Wine Institute requested this proposal be limited to shipments within the State of production. It has been decided that the limitation requested by the Wine Institute would discriminate against bottlers located in other States. Therefore, it has been decided to amend the regulations as proposed.

8. It had been proposed (proposal No. 9 in the notice of hearing) to amend § 4.22 by adding a new subsection to permit the use of carbon dioxide to maintain counterpressure during bottling operations of sparkling wines.

New § 4.22(c)(7) would allow domestic producers to use carbon dioxide as a counterpressure when transferring finished sparkling wine from bottle to bottle or from bulk processing tanks to bottles. Tests have been conducted and the results have shown absorption of CO_2 to be minute. While most foreign producers use carbon dioxide to maintain pressure during the filtering and bottling of sparkling wines, domestic producers have been prohibited by our regulations from such use of carbon dioxide and have been using nitrogen gas for this purpose. The use of nitrogen gas is less desirable since its presence in sparkling wine may cause "gushing" when the bottle is opened.

The evidence of record indicated unanimous agreement to allow the use of carbon dioxide to maintain counterpressure during the transfer of sparkling wine from bulk processing tanks to bottles or bottle to bottle with the limitation that the carbon dioxide content of the wine shall not be increased by more than 0.009 gm. per 100 ml. during the transfer operation. Therefore, it has been decided to amend the regulations as proposed.

Accordingly, the following amendments to 27 CFR Part 4 are hereby adopted:

PARAGRAPH 1. Section 4.10 is amended to read as follows:

§ 4.10 Meaning of terms.

* * * * *

(h) *Vintage wine.* "Vintage wine" means a wine made in accordance with the standards prescribed in Classes 1, 2, and 3 of § 4.21, deriving not less than 95 percent of its volume from grapes gathered in the same calendar year, grown in the same viticultural area, and fermented in the State in which this viticultural area is located.

* * * * *

PAR. 2. Section 4.21(b)(4) is amended to read as follows:

§ 4.21 The standards of identity.

* * * * *

(b) * * *

(4) "Crackling wine," "petillant wine," "frizzante wine" (including cremant, perlant, reciotto, and other similar wine) is sparkling light wine normally less effervescent than champagne or other similar sparkling wine, but containing sufficient carbon dioxide in solution to produce, upon pouring under normal conditions, after the disappearance of air bubbles, a slow and steady effervescence

V 37-79
APR 22 72
XUM

evidenced by the formation of gas bubbles flowing through the wine. Crackling wine which derives its effervescence from secondary fermentation in containers greater than 1-gallon capacity shall be designated "crackling wine—bulk process," and the words "bulk process" shall appear in lettering of substantially the same size as the words "crackling wine."

• • • • •

PAR. 3. Section 4.22(c) is amended by adding a new subparagraph (7). As amended, § 4.22(c)(7) reads as follows:

§ 4.22 Blends, cellar treatment, alteration of class or type.

• • • • •

(c) • • •

(7) Notwithstanding the provisions of § 4.21(b) (1), (2) and (4), (c), (d)(4), (e)(5), and (f)(6) carbon dioxide may be used to maintain counterpressure during the transfer of finished sparkling wines from (i) bulk processing tanks to bottles, or (ii) bottle to bottle: *Provided*, That the carbon dioxide content of the wine shall not be increased by more than 0.009 gm. per 100 ml. during the transfer operation.

PAR. 4. Section 4.25(a) is amended to read as follows:

§ 4.25 Appellations of origin.

(a) A wine shall be entitled to an appellation of origin if (1) at least 75 percent of its volume is derived from fruit or agricultural products grown in the place or region indicated by such appellation, (2) it has been fully manufactured and finished within the State in which such place or region is located, and (3) it conforms to the requirements of the laws and regulations of such place or region governing the composition, method of manufacture, and designation of wines for home consumption.

• • • • •

PAR. 5. Section 4.35(a)(1) is amended by deleting the phrase "crushing the grapes or other materials." As amended, § 4.35(a)(1) reads as follows:

§ 4.35 Name and address.

(a) • • •

(1) If the bottler or packer is also the person who made not less than 75 percent of such wine by fermenting the must and clarifying the resulting wine, or if such person treated the wine in such manner as to change the class thereof, there may be stated, in lieu of the words "bottled by" or "packed by," the words "produced and bottled by," or "produced and packed by."

• • • • •

PAR. 6. Section 4.38(d) is amended to read as follows:

§ 4.38 General requirements.

• • • • •

(d) *Location of label.* Labels shall not obscure government stamps nor be obscured thereby.

• • • • •

PAR. 7. Section 4.39(b) (1) and (2) is amended to read as follows:

§ 4.39 Prohibited practices.

• • • • •

(b) • • •

(1) In the case of domestic vintage wine bottled or packaged in containers by the permittee who produced and clarified the wine, the year of vintage may be stated if there is also stated on the brand label, in direct conjunction with the designation required by § 4.32(a)(2), and in lettering substantially as conspicuous as such designation, the name of the viticultural area in which the grapes were grown. In no event may the quantity of wine removed from the producing winery, under labels bearing a vintage date, exceed the volume of vintage wine produced in such winery during the year indicated by such date.

(2) In the case of domestic vintage wine repackaged in containers of a capacity of 1 gallon or less by a person other than the producer thereof, the year of vintage may be stated if the wine is accompanied by appropriate records from the producer indicating the year of vintage and the name of the viticultural area where the grapes were grown. If the year of vintage is stated, there shall also be stated on the brand label, in direct conjunction with the designation required by § 4.32(a)(2), and in lettering substantially as conpicuous as such designation, the name of the viticultural area in which the grapes were grown.

• • • • •

PAR. 8. Section 4.72(a) is amended to read as follows:

§ 4.72 Standards of fill.

(a) The standards of fill for wine shall be the following, subject to the tolerances hereinafter allowed:

(1) For all wines:

4.9 gallons.	
3 gallons.	1 pint.
1 gallon.	½ pint.
½ gallon.	¼ pint.
¼ gallon.	⅛ pint.
⅛ gallon.	4 ounces.
1 quart.	3 ounces.
⅕ quart.	2 ounces.

(2) In addition, for aperitif wines only: $1\frac{5}{16}$ quart.

• • • • •

This Treasury decision shall become effective on the first day of the month that begins not less than 30 days after the date of publication in the FEDERAL REGISTER.

(49 Stat. 981, as amended; 27 U.S.C. 205)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 101—Federal Property Management Regulations

SUBCHAPTER H—UTILIZATION AND DISPOSAL

UTILIZATION AND DONATION OF FOREIGN EXCESS PERSONAL PROPERTY

This amendment implements section 2 of Public Law 91-426 (84 Stat. 883; 40 U.S.C. 512). This Act provides, in part, that pursuant to regulations prescribed by the Administrator of General Services foreign excess property may be returned to the United States for handling as excess or surplus property under the provisions of sections 202, 203(j), and 203(*l*) of the Federal Property and Administrative Services Act of 1949, as amended, whenever the head of the executive agency concerned determines that it is in the interest of the United States to do so. This amendment does not affect the authority of the head of any executive agency to return property to the United States for further use by such agency.

PART 101–43—UTILIZATION OF PERSONAL PROPERTY

The table of contents for Part 101–43 is amended by adding new § 101–43.104–7a and new Subpart 101–43.5 and reserving Subparts 101–43.6—101–43.48, as follows:

Sec.
101–43.104–7a Foreign excess personal property.

Subpart 101–43.5—Utilization of Foreign Excess Personal Property

101–43.500 Scope of subpart.
101–43.501 Federal Government policy.
101–43.502 Suspension of procurement.
101–43.503 Holding agency responsibility.
101–43.504 Screening and selection.
101–43.505 Assistance to ordering agencies.
101–43.506 Payment of costs.
101–43.507 Statistics and reports.
101–43.508 Donation availability.

AUTHORITY: The provisions of this Subpart 101–43.5 issued under sec. 402(c), 84 Stat. 884, 40 U.S.C. 512(c).

Subparts 101–43.6—101–43.48 [Reserved]

Section 101–43.000 is revised as follows:

§ 101–43.000 Scope of part.

This part prescribes the policies and methods governing the economic and efficient utilization of personal property located within and outside the United States, the Commonwealth of Puerto Rico, and the Virgin Islands.

Subpart 101–43.1—General Provisions

Section 101–43.104–7a is added as follows:

§ 101–43.104–7a Foreign excess personal property.

Any excess personal property located outside the States of the Union, the District of Columbia, Puerto Rico, and the Virgin Islands.

Subpart 101–43.5 is added as follows:

Subpart 101–43.5—Utilization of Foreign Excess Personal Property

§ 101–43.500 Scope of subpart.

This subpart prescribes the policies and methods for the return of foreign excess personal property to the United States for utilization by any Federal agency, including the Senate, the House of Representatives, the Architect of the Capitol and any activities under his direction, the District of Columbia, and mixed-ownership corporations as defined in the Government Corporation Control Act.

§ 101–43.502 Federal Government policy.

Foreign excess personal property whenever determined available for return to the United States together with domestic excess personal property is a first source of supply and shall be utilized by agencies to the fullest extent practicable. Each executive agency shall, to the maximum extent practicable, fulfill its requirements for personal property, including those of its cost reimbursement type contractors and grantees, by obtaining domestic excess personal property (see Subpart 101–43.37), or foreign excess personal property in accordance with this subpart in lieu of new procurement, or to enhance and further its program objectives.

§ 101–43.502 Suspension of procurement.

The Administrator of General Services may, as circumstances warrant, suspend the procurement of new items of property when the same items or those which can be substituted or adapted for them are available from foreign excess property sources.

§ 101–43.503 Holding agency responsibility.

Prior to disposal by sale, exchange, or lease, or in the case of medical materials or supplies (which, if situated within the United States, would be available for donation pursuant to section 203 of the Federal Property and Administrative Services Act of 1949, as amended), donation to nonprofit medical or health organizations (including those qualified to receive assistance under sections 214(b) and 607 of the Foreign Assistance Act of 1961, as amended), for use in any foreign country, the holding agency will determine the availability of foreign excess personal property in its possession for selection by the General Services Administration (GSA) and return to the United States for further Federal use or for donation as prescribed in Subpart 101–44.7.

(a) It is the responsibility of the head of each executive agency holding foreign excess personal property to make the determination whether or not it is in the interest of the United States to return foreign excess personal property from overseas areas for further Federal use or for donation as prescribed in Subpart 101–44.7. In exercising this authority, full consideration shall be given to the continuing and significant needs for excess and surplus equipment and supplies by Federal agencies and donee institutions and organizations. Federal agencies, therefore, are encouraged to make their foreign excess personal property available to GSA for selection and return to the United States for further Federal use or for donation to the maximum extent possible consistent with the national interest.

(b) Prior to making foreign excess personal property available for return to the United States for further Federal use or for donation as prescribed in Subpart 101–44.7, the holding agency may make such property available for use by recipients in authorized overseas programs. At the request of Federal activities, GSA will assist in locating and acquiring foreign excess personal property for their overseas programs.

§ 101–43.504 Screening and selection.

(a) GSA onsite representatives located in designated overseas locations will screen, on behalf of Federal agencies for return and use in the United States, foreign excess personal property made available for such purposes. The excess property shall be made available by the holding/reporting agency, including the Department of Defense (DOD), Pacific Utilization and Redistribution Agency (PURA), and the Materiel Asset Redistribution Center, Europe (MARCE), for such screening for a period of not less than 10 days unless otherwise agreed to by the holding/reporting agency and GSA.

(b) Property identified by the GSA onsite representatives as required for Federal agency use shall be designated for return to the United States. Through its onsite representatives, GSA will arrange for shipment (including containerized loads). GSA will initially pay the actual costs incurred and billed in the packing, crating, handling, and transporting of foreign excess property to GSA facilities in the United States.

(c) Care will be exercised by the GSA onsite representatives in the selection of property to insure that it is economical to return the property to the United States for Federal use. Full consideration will be given by GSA onsite representatives to transportation and accessorial costs in determining whether or not property will be returned. Each GSA onsite representative is furnished a consolidated want list of personal property items identified by Federal Supply Classification (FSC). This want list is developed from needs registered by Federal agencies with GSA regional offices. The want list shall be used by the GSA onsite representatives as a specific guide in selecting personal property for return to the United States. Available items which are not on the want list will not be selected by GSA onsite representatives for return to the United States without prior coordination with the overseas property officer, Property Management and Disposal Service (PMDS), Washington, D.C. 20406.

(d) GSA will establish procedures with agencies having excess personal property in foreign areas where GSA onsite representatives are not located to report such property to the appropriate GSA office for screening.

§ 101–43.505 Assistance to ordering agencies.

(a) To assist Federal agencies in the selection and transfer of foreign excess personal property returned from overseas, an experienced utilization officer of the Property Management and Disposal Service (PMDS) in each GSA regional office has been designated as the Regional Overseas Property Officer (RO PO) to serve as the contact point with Federal agencies in his regional area. The regional utilization officer receives information on the property needs of Federal agencies and transmits it to the GSA onsite representatives through the appropriate operations control officer. He also disseminates information on property available to Federal agencies. The GSA PMDS Central Office Staff serves as the contact point for the utilization screening of available foreign excess personal property returned to the United States with the headquarters offices of Federal agencies.

(b) The Department of Defense (DOD) has a system already in operation for the screening and utilization of foreign excess property within the Defense establishment. However, only Department of Defense (DOD) activities, the Trust Territories of the Pacific Islands, and the Agency for International Development are authorized to submit requisitions direct to the DOD holding/reporting agency in the overseas area. Federal civil agencies located in the United States shall contact the appropriate GSA Regional Overseas Property Officer (RO PO), as indicated in (a), above, for assistance in requisitioning and acquiring foreign excess property. Federal civil agencies located in overseas areas should contact the appropriate GSA onsite representative for assistance in acquiring foreign excess property.

§ 101–43.506 Payment of costs.

(a) All direct costs involved in returning foreign excess personal property to the United States under this subpart, including packing, handling, crating, and transporting, which are incurred by and billed to GSA from the point of origin to a GSA facility in the United States shall be reimbursed by the transferee agency upon appropriate billing by GSA.

(b) Transportation costs from the GSA location to the transferee agency shall be borne by the transferee agency. Payment of such transportation costs shall be made by the transferee agency to the transportation carrier.

V 37-79
APR 22 72
XUM

§ 101–43.507 Statistics and reports.

The Administrator of General Services will maintain data on the acquisition cost of foreign excess personal property transferred by GSA pursuant to this subpart and will report such data to the Congress annually and at such other times as he may deem desirable.

§ 101–43.508 Donation availability.

Foreign excess personal property made available for return to the United States under this subpart, if not required for further Federal use, as determined by GSA, shall be made available for donation in accordance with Subpart 101–44.7.

Subparts 101–43.6—101–43.48 [Reserved]

PART 101–44—DONATION OF EXCESS PERSONAL PROPERTY

The table of contents for Part 101–44 is amended by the addition of new Subpart 101–44.7, as follows:

Subpart 101–44.7—Donation of Foreign Excess Personal Property

Sec.

101–44.700 Scope of subpart.
101–44.701 Holding agency responsibilities.
101–44.702 Donation screening.
101–44.703 Donation approval.
101–44.704 Shipment.
101–44.705 Costs incurred incident to donation.
101–44.706 Definition of the term "State."
101–44.707 Statistics and reports.

AUTHORITY: The provisions of this Subpart 101–44.7 issued under sec. 402(c), 84 Stat. 884, 40 U.S.C. 512(c).

Section 101–44.000 is revised as follows:

§ 101–44.000 Scope of part.

This part prescribes policies and methods governing the donation of surplus personal property located within the United States, the Commonwealth of Puerto Rico, and the Virgin Islands, and the donation of foreign excess personal property designated for return to the United States.

Subpart 101–44.7 is added as follows:

Subpart 101–44.7—Donation of Foreign Excess Personal Property

§ 101–44.700 Scope of subpart.

This subpart prescribes the policies and methods governing the return of foreign excess personal property to the United States for donation.

§ 101–44.701 Holding agency responsibilities.

Prior to any sale, exchange, or lease, or, in the case of medical materials or supplies (which, if situated within the United States, would be available for donation pursuant to section 203 of the Federal Property and Administrative Services Act of 1949, as amended), donation to nonprofit medical or health organizations (including those qualified to receive assistance under sections 214(b) and 607 of the Foreign Assistance Act of 1961, as amended), for use in any foreign country, foreign excess personal property, if it is not required for further Federal use as determined by GSA, shall be made available by the holding agency for selection and return to the United States for donation. The donated property shall be for the purposes of education, public health, or civil defense, or for research for any such purpose. Any foreign excess personal property which has been identified as having been processed, produced, or donated by the American National Red Cross shall be made available for donation to the American National Red Cross for charitable purposes in accordance with Subpart 101–44.4, unless otherwise directed by the Administrator of General Services.

§ 101–44.702 Donation screening.

(a) To locate and select donable property usable and necessary for purposes of education, public health, or civil defense, or for research for any such purpose, the Secretary of Health, Education, and Welfare and onsite representatives of State agencies for surplus property duly accredited by the Secretary shall be permitted to screen foreign excess personal property available for return to the United States. Such property not required for further Federal use, as determined by GSA, shall be available for donation for a period of time of not less than 10 calendar days unless otherwise agreed to by the holding agency and GSA. To assist donation screening, GSA will provide the Department of Health, Education, and Welfare (HEW) with available advance information concerning foreign excess property to the maximum extent possible.

(b) Property returned to the United States for further Federal use and thereafter determined surplus shall be made available for donation by GSA for the purposes set forth in section 203(j) (3) and (4) and, with respect to such property returned from Department of Defense activities and then determined surplus, for donation by GSA for the purposes of section 203(j)(2) of the Federal Property and Administrative Services Act of 1949, as amended, without priority.

§ 101–44.703 Donation approval.

(a) The Administrator of General Services is authorized to make donations in his discretion for the purposes of this subpart.

(b) Standard Form 123, Application for Donation of Surplus Personal Property (see § 101–44.4901), prepared in accordance with instructions (see § 101–44.4903) and signed by a duly authorized official shall be forwarded to the appropriate GSA office for approval for property covered by this subpart. An information copy shall be forwarded to the holding agency.

(c) Unless otherwise authorized by GSA, no personal property shall be released by the holding agency for donation pursuant to this subpart until it has received SF 123 bearing the signed approval of the appropriate GSA office.

§ 101–44.704 Shipment.

HEW shall arrange for the allocation and shipment of personal property approved for donation pursuant to this subpart to State agencies for surplus property for distribution to eligible educational, public health, and civil defense donee institutions and organizations. Upon request of HEW the holding agency may provide packing, handling, crating, and transportation services on a reimbursable basis.

§ 101–44.705 Costs incurred incident to donation.

All transportation costs and other direct costs incurred incident to donation, including packing, handling, and crating, shall be borne by the State agency or the donee institution or organization receiving the property, including any such costs incurred and billed by GSA or the holding agency. Care shall be exercised by HEW in the selection of property to insure that it is economical to return the items to the United States for donation, giving full consideration to transportation and accessorial costs.

§ 101–44.706 Definition of the term "State."

The term "State," as used in this subpart, includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

§ 101–44.707 Statistics and reports.

The Administrator of General Services will maintain data on the acquisition cost of all personal property approved by GSA for donation pursuant to this subpart and will report such data to the Congress annually and at such other times as he may deem desirable.

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (4–22–72).

Dated: April 17, 1972.

HAROLD S. TRIMMER, JR.,
Acting Administrator of General Services.

[FR Doc.72–6222 Filed 4–21–72;8:51 am]

Chapter 114—Department of the Interior

PART 114–40—TRANSPORTATION AND TRAFFIC MOVEMENT

Subpart 114–40.50—Bills of Lading

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and section 205(c), 63 Stat. 390; 40 U.S.C. 486(c), a new Subpart 114–40.50 is added to Chapter 114, Title 41 of the Code of Federal Regulations, as set forth below.

This new Subpart 114–40.50 shall become effective on the date of its publication in the FEDERAL REGISTER (4–22–72).

CHARLES G. EMLEY, JR.
Acting Deputy Assistant Secretary of the Interior.

APRIL 18, 1972.

Subpart 114–40.50—Bills of Lading

§ 114–40.5001 Exceptions to use of U.S. Government Bill of Lading forms.

(a) *Payment from imprest funds.* Comptroller General Decision B–163758 dated May 6, 1971, and Treasury Department Circular No. 1030, Second Revision, Amendment No. 1, dated July 6, 1971, authorizes settlement of transportation charges on small shipments by the imprest fund method of payment when advantageous to the Government and agreeable to the carrier involved. The use of imprest funds for such shipments shall be in accordance with the provisions of FPR 1–3.604, IPR 14–3.604, and 337 DM 2, Administration of Imprest Funds, subject to the following limitations:

(1) Transportation charges paid pursuant to the imprest fund procedures shall not exceed $25 for any one transaction.

(2) Imprest funds shall not be used to pay for international shipments or for household goods van shipments.

(3) Payment of transportation charges shall not be made prior to performance of the service.

(b) *Use of commercial forms and procedures.* (Applicable only to Government property.) As provided in 5 GAO 3017, the Department has administratively determined that, in many shipping situations throughout the Department, it is cumbersome and impractical to issue Government bills of lading at origin, and relatively expensive to convert commercial bills to Government bills of lading at destination, for small shipments bearing a nominal transportation charge. Subject to the following limitations and instructions, the head of each Bureau and Office may, for specific circumstances, approve the use of commercial forms and procedures to procure freight or express transportation services for designated types of small shipments when he determines that this procedure is more efficient and economical than the use of Government bills of lading or the imprest fund method of payment set forth in paragraph (a) of this section:

(1) The use of this discretionary authority is limited to those shipments for which the total estimated transportation charges do not exceed $25 per shipment.

(2) A letter of agreement must be executed by each participating carrier (or its agent), signifying acceptance of the arrangements for use of commercial forms and procedures in connection with the small shipments in question. The letter of agreement shall be retained in the files of the Bureau or Office participating in the agreement.

(3) The letter of agreement must contain the provision specifically prescribed in 5 GAO 3017.20(3), making the terms and conditions which are applicable to shipments on U.S. Government bills of lading applicable also to shipments moving on commercial bills of lading under the agreement.

(4) The administrative procedures prescribed in 5 GAO 3017.30, for processing bills for shipments made on commercial forms, are to be observed by all offices participating in small shipment carrier agreements.

(c) *Carrier agreements filed with the General Services Administration.* Certain carriers have executed agreements and filed them with the General Services Administration for use on a nationwide basis. Copies of these agreements are distributed by GSA bulletins in the FPMR series. Bureaus and Offices are authorized to make shipments under these agreements provided that the transportation charges for any single shipment do not exceed $25.

(d) *Alternate delivery receipt procedure.* As provided in 5 GAO 3035.20, the use of the alternate delivery receipt procedure is authorized for international airline shipments for delivery at foreign destinations and on international and domestic shipments of unaccompanied baggage via freight. The General Accounting Office has expanded the alternate delivery receipt procedure to apply on inbound international airline shipments (U.S. destinations), regardless of the commodity shipped, when the GBL cannot be accomplished at the destination airport. As prescribed in 5 GAO 3035.30, a certificate of billing carrier in lieu of waiver from delivering carrier should also be furnished when carriers elect to use the delivery receipt procedure on inbound airline shipments.

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

[General Order 115]

PART 279—OPERATING-DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS IN UNITED STATES FOREIGN COMMERCE ON THE GREAT LAKES, CONNECTING RIVERS, ST. LAWRENCE RIVER, AND GULF OF ST. LAWRENCE

The following temporary regulation relates to payment of operating-differential subsidy on an experimental basis for bulk cargo vessels engaged in U.S. foreign commerce between U.S. ports on the Great Lakes, connecting rivers and St. Lawrence River and Canadian ports on the Great Lakes, connecting rivers, St. Lawrence River, and Gulf of St. Lawrence.

The Merchant Marine Act of 1970 (Public Law 91–469, 84 Stat. 1018) amended the Merchant Marine Act, 1936, as amended (Act) (46 U.S.C. 1101–1293) in essential pertinent points hereto: It authorized payment of operating-differential subsidy for bulk cargo carrying services, granted major discretion to the Board and Administration in devising the bases for such payment and removed the explicit bar to such payment for operation in the Great Lakes.

Rule making involving operating differential subsidy is excepted from the formal requirements of section 4, Administrative Procedure Act (5 U.S.C. 553). Notwithstanding this fact, a public rule making proceeding was convened on March 7, 1972. The record thereof has been carefully considered.

The temporary regulation is designed to inform the public of the bases for operating-differential subsidy payments during an experimental period, prior to the issuance of a final regulation or the withdrawal or modification of the temporary regulation.

During the period it is effective, the regulation below will be applied uniformly to all contractors holding an operating-differential subsidy agreement covering bulk cargo operations exclusively in the Great Lakes, connecting rivers, St. Lawrence River, and Gulf of St. Lawrence.

Accordingly, a new Part 279 is hereby added to this title and chapter as follows:

Sec.

279.1 Purpose.
279.2 Definitions.
279.3 Determination of subsidy.

AUTHORITY: The provisions of this Part 279 issued under section 204(b), 49 Stat. 1987, as amended; 46 U.S.C. 1114.

§ 279.1 Purpose.

The purpose of this part is to prescribe regulations concerning the operating-differential subsidy program under title VI of the Merchant Marine Act, 1936, as amended, relating to the operation of U.S.-flag bulk cargo vessels engaged in U.S. foreign commerce between U.S. ports on the Great Lakes, connecting rivers, and St. Lawrence River and Canadian ports on the Great Lakes, connecting rivers, St. Lawrence River, and Gulf of St. Lawrence.

§ 279.2 Definitions.

For purposes of this part:

(a) *Subsidized voyage.* For purposes of eligibility for operating-differential subsidy participation, pursuant to sections 601(a) and 605(a) of the Act, a subsidized voyage (1) shall commence at the time a vessel is free of cargo: *Provided,* That said vessel proceeds to load export or import commerce of the United States at the same port or other United States port or Canadian port, and shall terminate at the time said vessel completes discharging such import or export cargo: *Provided, however,* That in the event said vessel sustains a period of idleness, deviation, or delay for any reason, the operator shall report said circumstances, together with all pertinent facts, to the Maritime Administration, and the Maritime Administration shall determine whether such period of idleness, deviation, or delay could not have been avoided in whole or in part through efficient and economical operation and whether subsidy shall be payable in whole or in part for such period; and (2) is a voyage in which the vessel engages exclusively in the carriage of foreign commerce of the United States; a voyage will not be

V 37-79 APR 22 72 XUM

subsidized if a vessel carries both domestic and foreign commerce of the United States simultaneously.

(b) *Competitive vessels.* The Maritime Administration will make a determination annually of the volume of bulk cargoes carried by foreign-flag vessels in the trades described in this part. Utilizing the data thus developed, foreign-flag competition shall be determined for operating-differential subsidy purposes. The foreign flags deemed competitive shall be limited to those flags carrying 15 percent of more of the total bulk tonnage carried in all foreign-flag vessels in the areas described in this part, provided that the flag(s) so selected must carry an aggregate of not less than 60 percent of the total tonnage moved in the foreign-flag ships.

§ 279.3 Determination of subsidy.

(a) For purposes of this part, operating-differential subsidy shall be paid for the wage costs of the U.S. officers and crews, the fair and reasonable cost of insurance, maintenance and repairs not compensated by insurance, attributable to subsidized voyages and to annual out of service periods, as provided in this section.

(b) Procedures for determining subsidy.

(1) U.S.-foreign wage cost differentials for subsidized vessels shall be determined in accordance with procedures established by the Maritime Administration pursuant to section 603 of the Act. The normal manning of the subsidized vessels and the normal manning of comparable foreign-flag vessels shall form the basis for establishing wage cost differentials;

(2) The annual costs of insurance premiums, maintenance, and repairs not compensated by insurance for subsidized vessels, after application of the appropriate U.S.-foreign cost differential percentages, shall be expressed in per diem amounts of subsidy based upon the actual number of days in the navigating season for that year for the vessel(s) included in the operating-differential subsidy contract: *Provided,* That said vessel(s) operate a substantial part of the navigating season;

(3) In addition to per diem wage subsidies which are earned for subsidized voyage days under subparagraph (1) of this paragraph: (i) Wage subsidy will be paid for crew wage costs incurred for subsidized vessels during annual out-of-service periods; the amount of operating-differential wage subsidy payable for such periods will be determined by first applying the U.S.-foreign wage differential percentage to the wage costs actually incurred for the subsidized vessel(s) during such period, and then multiplying the resultant amount by a fraction, the numerator of which shall be the number of subsidized voyage days during the navigating season and the denominator of which shall be the total actual navigating days for that season; and (ii) contractor's absorptions for crew claims under the protection and indemnity insurance policy for claims arising during subsidized voyages shall be subsidized to the extent that such costs exceed comparable absorptions of the foreign-flag competition.

(4) Subsidized voyages and per diem subsidy amounts accruing thereon shall be determined in whole and fractional days based upon the actual elapsed time of such subsidized voyage(s).

(c) For purposes of determining subsidy under this section, subsidized vessels may be appropriately grouped, or treated separately, at the discretion of the Maritime Administration.

Effective date. This regulation shall be effective as of its date of publication in the FEDERAL REGISTER (4–22–72).

By order of the Acting Assistant Secretary of Commerce for Maritime Affairs and the Maritime Subsidy Board.

Dated: April 20, 1972.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.72-6263 Filed 4-21-72;8:54 am]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Depreciation Based on Class Lives for Property First Placed in Service Before January 1, 1971

Notice is hereby given that the regulations as set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224 by May 22, 1972. Any written comments or suggestion not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 22, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to provide an elective guideline class life system, similar to the class life asset depreciation range system, for assets placed in service before January 1, 1971, for taxable years ending after December 31, 1970, the Income Tax Regulations (26 CFR Part 1) under section 167 of the Internal Revenue Code of 1954 are amended as follows:

The following new section is added immediately after § 1.167(a)–11 to read as follows:

§ 1.167(a)–12 Depreciation based on class lives for property first placed in service before January 1, 1971.

(a) *In general*—(1) *Summary.* This section provides an elective class life system for determining the reasonable allowance for depreciation of certain classes of assets for taxable years ending after December 31, 1970. The system applies only to assets placed in service before January 1, 1971. Depreciation for such assets during periods prior to January 1, 1971, may have been determined in accordance with Revenue Procedure 62–21. Accordingly, rules are provided which permit taxpayers to apply the system in taxable years ending after December 31, 1970, to the remaining basis of such assets without the necessity of changing or regrouping their depreciation accounts other than as previously required by Revenue Procedure 62–21. The system is designed to minimize disputes between taxpayers and the Internal Revenue Service as to the useful life of assets, salvage value, and repairs. See § 1.167(a)–11 for a similar system for property placed in service after December 31, 1970. See paragraph (d)(2) of § 1.167(a)–11 for treatment of expenditures for the repair, maintenance, rehabilitation or improvement of certain property. The system provided by this section is optional with the taxpayer. An election under this section applies only to qualified property in an asset guideline class for which an election is made and only for the taxable year of election. The taxpayer's election is made with the income tax return for the taxable year. This section also revokes the reserve ratio test for taxable years ending after December 31, 1970, and provides transitional rules for taxpayers who after January 11, 1971, adopt Revenue Procedure 62–21 for a taxable year ending prior to January 1, 1971.

(2) *Revocation of reserve ratio test and other matters.* Except as otherwise expressly provided in this section and in paragraph (b)(5)(vi) of § 1.167(a)–11, the provisions of Revenue Procedure 62–21 shall not apply to any property for any taxable year ending after December 31, 1970, whether or not the taxpayer elects to apply this section to any property. See paragraph (f) of this section for rules for the adoption of Revenue Procedure 62–21 for taxable years ending prior to January 1, 1971.

(3) *Definition of qualified property.* The term "qualified property" means tangible property which is subject to the allowance for depreciation provided by section 167(a), but only if—

(i) An asset guideline class and asset guideline period are in effect for such property for the taxable year; and

(ii) The property is first placed in service by the taxpayer before January 1, 1971.

The provisions of paragraph (e)(1) of § 1.167(a)–11 apply in determining whether property is first placed in service before January 1, 1971. See subparagraph (4)(ii) of this paragraph for special rules for the exclusion of property from the definition of qualified property.

(4) *Requirements of election*—(i) *In general.* An election to apply this section to qualified property must be made within the time and in the manner specified in paragraph (e) of this section. The election must specify that the taxpayer consents to and agrees to apply all the provisions of this section. The election may be made separately for each asset guideline class. Thus, a taxpayer may for the taxable year elect to apply this section to one, more than one, or all asset guideline classes in which he has qualified property. An election to apply this section for a taxable year must include all qualified property in the asset guideline class for which the election is made.

(ii) *Special rules for exclusion of property from application of this section.* (*a*) If for the taxable year of election, the taxpayer computes depreciation under section 167(k) or computes amortization under sections 169, 185, 187, 188, or paragraph (b) of § 1.162–11 with respect to property, such property is not qualified property for such taxable year. If for the taxable year of election, the taxpayer computes depreciation under any method of depreciation (other than a method described in the preceding sentence) not permitted by subparagraph (5)(v) of this paragraph for any property in an asset guideline class (other than subsidiary assets excluded from an election under (*b*) of this subdivision), no property in such asset guideline class is qualified property for such taxable year.

(*b*) The taxpayer may exclude from an election to apply this section all (but not less than all) subsidiary assets. Subsidiary assets so excluded are not qualified property for such taxable year. For purposes of this subdivision the term "subsidiary assets" includes jigs, dies, molds, returnable containers, glassware, silverware, textile mill cam assemblies, and other equipment includable in Group One, Class 5, of Revenue Procedure 62–21 which is usually and properly accounted for separately from other property and under a method of depreciation not expressed in terms of years.

(5) *Determination of reasonable allowance for depreciation*—(i) *In general.* The allowance for depreciation of qualified property to which the taxpayer elects to apply this section shall be determined in accordance with this section. The annual allowance for depreciation is determined by using the method of depreciation adopted by the taxpayer and a rate based on a life permitted by this section.

(ii) *Reasonable allowance by reference to class lives.* The amount of depreciation for all qualified property in an asset guideline class to which the taxpayer elects to apply this section will

V 37-79 APR 22 72 XUM

constitute the reasonable allowance provided by section 167(a) and the depreciation for the asset guideline class will not be adjusted if—

(a) The taxpayer's qualified property is accounted for in one or more depreciation accounts which conform to the asset guideline class, and the depreciation for each such account is determined by using a rate based upon a life not less than the class life, or

(b) The taxpayer's qualified property is accounted for in one or more depreciation accounts (whether or not conforming to the asset guideline class) for which depreciation is determined at a rate based upon the taxpayer's estimate of the lives of the assets (instead of the class life) and the total amount of depreciation so determined for the asset guideline class is not more than would be permitted under (a) of this subdivision using the method of depreciation adopted by the taxpayer for the property.

See subdivision (vii) of this subparagraph for determination of reasonable allowance if depreciation exceeds the amount permitted by this subdivision. See paragraph (b) of this section for rules regarding the determination of "class life". For rules for regrouping depreciation accounts to conform to the asset guideline class, see subdivision (iv) of this subparagraph.

(iii) *Consistency when individual lives are used.* If the taxpayer assigns individual depreciable lives to assets in accordance with subdivision (ii)(b) of this subparagraph, even though the total amount of depreciation for the asset guideline class will not be adjusted, the lives assigned to the various assets in the asset guideline class must be reasonably in proportion to their relative expected periods of use in the taxpayer's business. Thus, although the taxpayer who uses individual asset lives normally has latitude in thereby allocating the depreciation for the asset guideline class among the assets, if the lives are grossly disproportionate (as where a short life is assigned to one asset and a long life to another even though the expected periods of use are the same), the taxpayer's allocation of depreciation to particular assets or depreciation accounts may be adjusted. For example, the taxpayer's allocation may be adjusted for purposes of determining adjusted basis under section 1016(a) or in allocating depreciation to the 50-percent limitation on percentage depletion provided by section 613(a). See paragraph (d) of this section for rules regarding the use of individual asset lives for purposes of classifying retirements as normal or abnormal.

(iv) *Regrouping depreciation accounts.* Without the consent of the Commissioner, the taxpayer may for any taxable year for which he elects to apply this section to an asset guideline class regroup his depreciation accounts for that and all succeeding taxable years to conform to the asset guideline class. However, no depreciation accounts for which the straight line or sum of the years-digits method of depreciation is adopted may be combined under this section which would not be permitted to be combined under Part III of Revenue Procedure 65–13, as in effect on January 1, 1971. For purposes of this subparagraph, a taxpayer's depreciation accounts conform to the asset guideline class if each depreciation account for the asset guideline class includes only assets of the same asset guideline class.

(v) *Method of depreciation.* The same method of depreciation must be adopted for all property in a single depreciation account. The method of depreciation which may be adopted is subject to the limitations contained in section 167 (c) and (j). Subject to such limitations, only a method of depreciation permitted by section 167(b) (1), (2), or (3) may be adopted for qualified property to which the taxpayer elects to apply this section.

(vi) *Salvage value.* In applying the method of depreciation adopted by the taxpayer, the annual allowance for depreciation is determined without adjustment for the salvage value of the property, except that no depreciation account may be depreciated below a reasonable salvage value for the account. See paragraph (c) of this section for definition and treatment of salvage value.

(vii) *Reasonable allowance when depreciation exceeds amount based on class life.* In the event that the total amount of depreciation claimed by the taxpayer on his income tax return, in a claim for refund, or otherwise, for an asset guideline class with respect to which an election is made under this section for the taxable year, exceeds the maximum amount permitted under subdivision (ii)(a) of this subparagraph—

(a) If the excess is established to the satisfaction of the Commissioner to be the result of a good faith mistake by the taxpayer in determining the maximum amount permitted under subdivision (ii)(a) of this subparagraph, the taxpayer's election to apply this section will be treated as valid and only such excess will be disallowed, and

(b) In all other cases, the taxpayers' election to apply this section to the asset guideline class for the taxable year is invalid and the reasonable allowance for depreciation will be determined without regard to this section. (See § 1.167(a)–1(b) for rules regarding the estimated useful life of property.)

(b) *Determination of class lives*—(1) *Class lives in general.* The class life determined under this paragraph (without regard to any range or variance permitted with respect to class lives under § 1.167(a)–11) will be applied for purposes of determining whether the allowance for depreciation for qualified property included in an election under this section is subject to adjustment. The taxpayer is not required to use the class life determined under this paragraph for purposes of determining the allowance for depreciation. Except as provided in subparagraph (2) of this paragraph, the class life of qualified property to which the taxpayer elects to apply this section is the shorter of—

(i) The asset guideline period for the asset guideline class as set forth in Revenue Procedure 72–10 as in effect on March 1, 1972 (applied without regard to any special provision therein with respect to property predominantly used outside the United States), or

(ii) The asset guideline period for the asset guideline class as set forth in any supplement or revision of Revenue Procedure 72–10, but only if and to the extent by express reference in such supplement or revision made applicable for the purpose of changing the asset guideline period or classification of qualified property to which this section applies. See paragraph (e)(3)(iii) of this section for requirement that the election for the taxable year specify the class life for each asset guideline class. The applicable asset guideline class and asset guideline period for qualified property to which the taxpayer has elected to apply this section will not be changed for the taxable year of election to reflect any supplement or revision thereof after the taxable year. The principles of this subparagraph may be illustrated by the following example:

Example. (i) Corporation X, a calendar year taxpayer, has assets in asset guideline class 20.4 of Revenue Procedure 72–10 which were placed in service by corporation X in 1967, 1968, and 1970. Corporation X also has assets in asset guideline class 22.1 of Revenue Procedure 72–10 which were placed in service at various times prior to 1971. Corporation X has no other qualified property. Corporation X elects to apply this section for 1971 to both classes. Assume that the class lives are determined under this subparagraph and not under subparagraph (2) of this paragraph.

(ii) The class lives for asset guideline classes 20.4 and 22.1 are their respective asset guideline periods of 12 years and 9 years in Revenue Procedure 72–10.

(iii) Accordingly, in the election for the taxable year, in accordance with paragraph (e)(3)(iii) of this section, corporation X specifies a class life of 12 years for asset guideline class 20.4 and a class life of 9 years for asset guideline class 22.1.

(2) *Class lives in special situations.* Notwithstanding subparagraph (1) of this paragraph, for the purposes of this section the class life for the asset guideline class shall be the shortest class life (within the meaning of section 4, Part II, of Revenue Procedure 62–21) which can be justified by application of section 3.02(a), 3.03(a), or 3.05, Part II, of Revenue Procedure 62–21 (other than the portion of such section 3.05 dealing with justification of a class life by reference to facts and circumstances) for the taxpayer's last taxable year ending prior to January 1, 1971. A class life justified by application of section 3.03(a), Part II, of Revenue Procedure 62–21 shall not be shorter than can be justified under the Adjustment Table for Class Lives in Part III of such Revenue Procedure. For purposes of this subparagraph, the reserve ratio test is met only if the taxpayer's reserve ratio does not exceed the upper limit of the appropriate reserve ratio range or does not exceed the appropriate "transistional upper limit" in section 3, Part II, of Revenue Procedure 65–13, during the transition period there provided. References to Revenue Procedure 62–21 include all modifications, amendments, and supplements thereto as of January 1, 1971. The guideline form of the reserve ratio test, as described in Revenue Procedure 65–13, may be applied for purposes of this subparagraph in a manner consistent with the rules contained in section 7, Part II, of Revenue Procedure 65–13 and sections 3.02, 3.03, and 3.05, Part II, of Revenue Procedure 62–21. The principles of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X, a calendar year taxpayer, has all its assets in asset guideline class 20.4 of Revenue Procedure 72–10 which were placed in service by corporation X prior to 1971. Corporation X elects to apply this section for 1971. For taxable years 1967 through 1969, corporation X had used a class life (within the meaning of section 4, Part II, of Revenue Procedure 62–21) for asset guideline class 20.4 of 12 years. The asset guideline period in Revenue Procedure 72–10 in effect for 1971 is also 12 years. Assume that for 1969 corporation X's reserve ratio was below the appropriate reserve ratio lower limit. However, corporation X could not justify a class life shorter than the asset guideline period of 12 years for 1970 since corporation X had not used the 12-year class life for a period at least equal to one-half of 12 years. (See section 3.03(a), Part II, of Revenue Procedure 62–21.) Accordingly, the class life for asset guideline class 20.4 in 1971 is the asset guideline period of 12 years in accordance with subparagraph (1) of this paragraph.

Example (2). The facts are the same as in example (1) except that corporation X had used a class life of 10 years for guideline class 20.4 since 1967. Corporation X had not used the class life of 10 years for a period at least equal to one-half of 10 years. However, in 1968 corporation X's 10-year class life was accepted on audit by the Internal Revenue Service and corporation X met the reserve ratio test in 1970 for guideline class 20.4 using a test life of 10 years. (See section 3.05, Part II, of Revenue Procedure 62–21.) Accordingly, the class life of 10 years is justified for 1970 and the class life for 1971 is 10 years in accordance with this subparagraph. If the taxpayer's class life had not been audited and accepted for 1968, and in the absence of other circumstances, the taxpayer could not justify a class life shorter than the asset guideline period of 12 years since it had not used the 10-year class life for a period at least equal to one-half of 10 years. (See section 3.02, Part II, of Revenue Procedure 62–21.)

Example (3). Corporation Y, a calendar year taxpayer, has all its assets in asset guideline class 13.3 of Revenue Procedure 72–10 which were placed in service from 1960 through 1970. Corporation Y elects to apply this section for 1971. The asset guideline period in Revenue Procedure 72–10 in effect for 1971 is 16 years. Since 1969 corporation Y had used a class life of 16 years for asset guideline 13.3. At the end of 1969 corporation Y's reserve ratio for guideline class 13.3 was 36 percent. With a growth rate of 8 percent and a test life of 16 years the appropriate reserve ratio lower limit was 37 percent. Corporation Y's reserve ratio of 36 percent was below the lower limit of the appropriate reserve ratio range. Corporation Y had used the 16-year class life for at least eight years. A class life of 13.5 years for 1970 was justified by application of section 3.03(a), Part II, of Revenue Procedure 62–21 and the Adjustment Table for Class Lives in Part III of Revenue Procedure 62–21. The class life for 1971 is 13.5 years in accordance with this subparagraph.

(3) *Classification of property*—(i) *In general.* Property to which this section applies shall be included in the asset guideline class for the activity in which the property is primarily used in the taxable year of election. See paragraph (d)(5) of this section for rule regarding the classification of leased property.

(ii) *Insubstantial activity.* The provisions of Revenue Produce 62–21 with respect to classification of assets used in an activity which is insubstantial may be applied under this section.

(iii) *Special rule for certain public utilities.* An electric or gas utility which in accordance with Revenue Procedure 64–21 used a composite guideline class basis for applying Revenue Procedure 62–21 for its last taxable year prior to January 1, 1971, may apply Revenue Procedure 72–10 and this section on the basis of such composite asset guideline class determined as provided in Revenue Procedure 64–21. For the purposes of this section all property in the composite guideline class shall be treated as included in a single asset guideline class.

(c) *Salvage value*—(1) *In general*—(i) *Definition of gross salvage value.* "Gross salvage" value is the amount which is estimated will be realized upon a sale or other disposition of qualified property when it is no longer useful in the taxpayer's trade or business or in the production of his income and is to be retired from service, without reduction for the cost of removal, dismantling, demolition, or similar operations. "Net salvage" is gross salvage reduced by the cost of removal, dismantling, demolition, or similar operations. If a taxpayer customarily sells or otherwise disposes of property at a time when such property is still in good operating condition, the gross salvage value of such property is the amount expected to be realized upon such sale or disposition, and under certain circumstances, as where such property is customarily sold at a time when it is still relatively new, the gross salvage value may constitute a relatively large proportion of the unadjusted basis of such property.

(ii) *Definition of salvage value.* "Salvage value" for purposes of this section means gross or net salvage value less the amount, if any, by which reduced by application of section 167(f). Generally, as provided in section 167(f), a taxpayer may reduce the gross or net salvage value for an account by an amount which does not exceed 10 percent of the unadjusted basis of the personal property (as defined in section 167(f)(2)) in the account.

(2) *Estimation of salvage value*—(i) *In general.* The taxpayer must establish salvage value for qualified property to which he elects to apply this section. The taxpayer may determine either gross or net salvage, but an election under this section does not constitute permission to change the manner of estimating salvage for a particular depreciation account for which salvage value has previously been estimated. For the first taxable year for which the taxpayer elects to apply this section, salvage value shall be established by estimation on the basis of all the facts and circumstances existing at the close of such taxable year. Salvage value in succeeding taxable years will be established by adjustments as retirements occur of such initial salvage value for the account. The salvage value established by the taxpayer for a taxable year of election will not be redetermined merely as a result of fluctuations in price levels or as a result of other facts and circumstances occurring after the close of such taxable year. See paragraph (e)(3)(iv) of this section for requirements that the taxpayer specify in his election the aggregate amount of salvage value for an asset guideline class and that the taxpayer maintain records reasonably sufficient to identify the salvage value established for each depreciation account in the class.

(ii) *Salvage as limitation on depreciation.* In no case may an account be depreciated under this section below a reasonable salvage value, after taking into account any reduction in gross or net salvage value permitted by section 167(f). For example, if the salvage value of an account for 1971 is $75, the unadjusted basis of the account is $500, and the depreciation reserve is $425, no depreciation is allowable for 1971.

(iii) *Special rule for first taxable year.* If for a taxable year ending prior to January 1, 1971, the taxpayer had adopted Revenue Procedure 62–21 prior to January 12, 1971 (see paragraph (f)(2) of this section), and under such revenue procedure had not taken salvage value into account or had taken into account less salvage value than determined under this paragraph, no adjustment in the amount of depreciation allowable for any taxable year ending prior to January 1, 1971, shall be made solely by reason of establishing salvage value under this paragraph for any taxable year ending after December 31, 1970. The principles of this subdivision may be illustrated by the following example:

Example: Taxpayer A had adopted Revenue Procedure 62–21 prior to January 12, 1971, for taxable years prior to 1971. Taxpayer A had not established any salvage value for account No. 1 which is one of four depreciation accounts A has in the class. The reserve ratio test had been met for all years prior to 1971 and in accordance with Revenue Procedure 62–21 no adjustments in depreciable lives or salvage values were made. At the end of A's taxable year 1970, the unadjusted basis of account No. 1 was $10,000 and the reserve for depreciation was $9,990. For 1971, A elects to apply this section. Pursuant to this paragraph, A establishes a salvage value of $600 for account No. 1 at the end of 1971. This salvage value is determined to be correct. No depreciation is allowable for account No. 1 in 1971. No depreciation is disallowed for any taxable year under to 1971.

(3) *Limitation on adjustment of reasonable salvage value.* The salvage value established by the taxpayer for a depreciation account will not be redetermined if it is reasonable. Since the determination of salvage value is a matter of estimation, minimal adjustments will not be made. The salvage value established by

V 37-79 APR 22 72 XUM

the taxpayer will be deemed to be reasonable unless there is sufficient basis in the facts and circumstances existing at the close of the taxable year of election for a determination of an amount of salvage value for the account which exceeds the salvage value established by the taxpayer for the account by an amount greater than 10 percent of the unadjusted basis of the account at the close of such taxable year. If the salvage value established by the taxpayer for the account is not within the 10-percent range or if the taxpayer follows the practice of understating his estimates of salvage to take advantage of this subdivision, and if there is a determination of an amount of salvage value for the account for the taxable year which exceeds the salvage value established by the taxpayer for the account for such taxable year, an adjustment will be made by increasing the salvage value established by the taxpayer for the account by an amount equal to the difference between the salvage value as determined and the salvage value established by the taxpayer for the account. For the purposes of this subdivision, a determination of salvage value shall include all determinations at all levels of audit and appellate proceedings, and as well as all final determinations within the meaning of section 1313(a)(1). This subparagraph shall apply to each such determination.

(4) *Examples.* The principles of this paragraph may be illustrated by the following examples in which it is assumed that the taxpayer has established salvage value in accordance with this paragraph and has not followed a practice of understating his estimates of salvage value:

Example (1). Taxpayer B elects to apply this section for 1971. Assets Y and Z are in a multiple asset account. The unadjusted basis of asset Y is $50,000 and the unadjusted basis of asset Z is $30,000. B estimates a gross salvage value of $55,000 for 1971. The property qualifies under section 167(f)(2) and B reduces the amount of salvage taken into account by $8,000 (that is, 10 percent of $80,000, under section 167(f)). Thus, B establishes a salvage value of $47,000 for the account for 1971. Assume that there is not sufficient basis for determining a salvage value for the account greater than $52,000 (that is, $60,000 minus the $8,000 reduction under section 167(f)). Since the salvage value of $47,000 established by B for the account is within the 10 percent range, it is reasonable. Salvage value for the account will not be redetermined.

Example (2). The facts are the same as in example (1) except that B estimates a gross salvage value of $50,000 and establishes a salvage value of $42,000 for the account (that is, $50,000 minus the $8,000 reduction under section 167(f)). There is sufficient basis for determining an amount of salvage value greater than $50,000 (that is, $58,000 minus the $8,000 reduction under section 167(f)). The salvage value of $42,000 established by B for the account can be redetermined without regard to the limitation in subparagraph (3) of this paragraph, since it is not within the 10 percent range. Upon audit of B's tax return for 1971 (a year in which the redetermination would affect the amount of depreciation allowable for the account), salvage value is determined to be $52,000 after taking into account the reduction under section 167(f). Salvage value for the account will be adjusted to $52,000.

Example (3). The facts are the same as in example (1) except that upon audit of B's tax return for 1971 the examining officer determines the salvage value to be $58,000 (that is, $66,000 minus the $8,000 reduction under section 167(f)), and proposes to adjust salvage value for the account to $58,000 which will result in disallowing an amount of depreciation for the taxable year. B does not agree with the finding of the examining officer. After receipt of a "30-day letter," B waives a district conference and initiates proceedings before the Appellate Division. In consideration of the case by the Appellate Division it is concluded that there is not sufficient basis for determining an amount of salvage value for the account in excess of $55,000 (that is, $63,000 minus the $8,000 reduction under section 167(f)). Since the salvage value of $47,000 established by B for the account is within the 10 percent range, it is reasonable. Salvage value for the account will not be redetermined.

Example (4). For 1971, taxpayer C elects to apply this section to factory building X which is in an item account. The unadjusted basis of factory building X is $90,000. C estimates a gross salvage value for the account of $10,000. The property does not qualify under section 167(f)(2). C establishes a salvage value of $10,000 for the account. Assume that there is not sufficient basis for determining a salvage value for the account greater than $14,000. Since the salvage value of $10,000 established by C for the account is within the 10 percent range, it is reasonable. Salvage value for the account will not be redetermined.

(d) *Accounting for qualified property*—(1) *In general.* Qualified property for which the taxpayer elects to apply this section may be accounted for in any number of item or multiple asset accounts.

(2) *Retirements of qualified property*—(i) *In general.* The provisions of this subparagraph and § 1.167(a)-8 apply to retirements of qualified property to which the taxpayer elects to apply this section for the taxable year. See subdivision (iii) of this subparagraph for special rule for normal retirements.

(ii) *Adjusted basis of assets retired.* In the case of a taxpayer who depreciates qualified property in a multiple-asset account conforming to the asset guideline class at a rate based on the class life in accordance with paragraph (a)(5)(ii)(*a*) of this section, § 1.167(a)-8(c) (relating to basis of assets retired) shall be applied by assuming that the class life is the average expected useful life of the assets in the account. See § 1.167(a)-8, generally, for the basis of assets retired.

(iii) *Definition of normal retirements.* Notwithstanding § 1.167(a)-8(b), the determination whether a retirement of qualified property is normal or abnormal shall be made in light of all the facts and circumstances, primarily with reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section. A retirement is not abnormal unless the taxpayer can show that the withdrawal of the asset was not due to a cause which would customarily be contemplated (in light of the taxpayer's practice and experience) in setting a depreciation rate for the assets without regard to paragraph (a)(5)(ii) of this section. Thus, for example, a retirement is normal if made within the range of years which would customarily be taken into account in setting such depreciation rate and if the asset has reached a condition at which, in the normal course of events, the taxpayer customarily retires similar assets from use in his business. A retirement may be abnormal if the asset is withdrawn at an earlier time or under other circumstances, as, for example, when the asset has been damaged by casualty or has lost its usefulness suddenly as the result of extraordinary obsolescence.

(3) *Special rules*—(i) *In general.* The provisions of this subparagraph shall apply to qualified property in a taxable year for which an election to apply this section is made.

(ii) *Repairs.* For the purpose of sections 162 and 263 and the regulations thereunder, whether an expenditure prolongs the life of an asset shall be determined by reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section.

(iii) *Sale and lease.* For the purpose of comparison with the term of a lease of such property, the remaining life of qualified property shall be determined by reference to the expected period of use of the asset in the taxpayer's business without regard to paragraph (a)(5)(ii) of this section.

(4) *Expected period of use.* For the purposes of subparagraphs (2) and (3) of this paragraph, the determination of the expected period of use of an asset shall be made in light of all the facts and circumstances. The expected period of use of a particular asset will not necessarily coincide with the class life used for depreciation (or with the individual asset life for depreciation under the alternative method in paragraph (a)(5)(ii)(*b*) of this section for applying the class life). Thus, for example, if the question is whether an asset has been leased for a period less than, equal to or greater than its remaining life, the determination shall be based on the remaining expected period of use of the individual asset without regard to the fact that the asset is depreciated at a rate based on the class life in accordance with paragraph (a)(5)(ii)(*a*) of this section.

(5) *Leased property.* In the case of a lessor of qualified property, unless there is an asset guideline class in effect for such lessors, the asset guideline class for such property shall be determined by reference to the activity in which such property is primarily used by the lessee. See paragraph (b)(3) of this section for general rule for classification of qualified property according to primary use. However, in the case of an asset guideline class based upon the type of property (such as trucks or railroad cars), as distinguished from the activity in which used, the property shall be classified without regard to the activity of the lessee.

(e) *Election under this section*—(1) *Consent to change in method of accounting.* An election to apply this section for a taxable year ending after December 31, 1970, is a method of accounting but the consent of the Commissioner will be deemed granted to make an annual election.

(2) *Time and manner of election.* An election to apply this section to qualified property for a taxable year shall be made with the income tax return for the taxable year. If the taxpayer does not file a timely return (taking into account extensions of time for filing) for the taxable year, the election shall be filed at the time the taxpayer files his first return for the taxable year. The election may be made with an amended return only if such amended return is filed no later than the later of (*a*) the time prescribed by law (including extensions thereof) for filing the return for the taxable year or (*b*) 120 days after publication of the final regulations under this section. See subparagraph (3) of this paragraph for information required.

(3) *Information required.* The election to apply this section for a taxable year must specify:

(i) That the taxpayer makes such election and consents to, and agrees to apply, all the provisions of this section;

(ii) Each asset guideline class for which the taxpayer makes the election;

(iii) The class life for each asset guideline class for which the taxpayer makes an election and whether the class life is determined under paragraph (b)(1) or (2) of this section;

(iv) For each asset guideline class, as of the end of the taxable year of election, (*a*) the total unadjusted basis of all qualified property, (*b*) the aggregate of the reserves for depreciation of all accounts in the asset guideline class, and (*c*) the aggregate of the salvage value established for all accounts in the asset guideline class;

(v) Whether the taxpayer elects to apply Revenue Procedure 72-10 on a composite asset guideline class basis in accordance with paragraph (b)(3)(iii) of this section;

(vi) The adjusted basis, general description and asset guideline class of all property excluded from the election pursuant to paragraph (a)(4)(ii) of this section; and

(vii) Such other information as may reasonably be required, including all or any part of the type of information specified in paragraph (f)(4) of § 1.167(a)-11.

A taxpayer who makes an election to apply this section for an asset guideline class shall maintain books and records reasonably sufficient to identify the unadjusted basis, reserve for depreciation and salvage value established for each depreciation account in the asset guideline class. Forms will be provided for making the election and submission of the information required. An election may be made and the information submitted only in accordance with such forms. An election will not otherwise be rendered invalid under this paragraph so long as there is substantial compliance, in good faith, with the requirements of this paragraph.

(f) *Depreciation for taxable years ending before January 1, 1971*—(1) *Adoption of Revenue Procedure 62-21*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph, a taxpayer may elect to be examined under the provisions of Revenue Procedure 62-21 for a taxable year ending before January 1, 1971, only in accordance with the rules of this paragraph. The election must specify:

(*a*) That the taxpayer makes such election and consents to, and agrees to apply, all the provisions of this paragraph;

(*b*) Each guideline class and taxable year for which the taxpayer elects to be examined under Revenue Procedure 62-21;

(*c*) The class life claimed for each such guideline class;

(*d*) The class life and the total amount of the depreciation for the guideline class claimed on the last income tax return for such taxable year filed prior to January 12, 1971 (or in case no income tax return was filed prior to January 12, 1971, on the first income tax return filed for such taxable year);

(*e*) The class life claimed and the total amount of depreciation for the guideline class under the election to apply Revenue Procedure 62-21, in accordance with this paragraph, for the taxable year; and

(*f*) If the class life or total amount of depreciation for the guideline class is different in (*d*) and (*e*) of this subdivision, a reasonable description of the computation of the class life in (*e*) of this subdivision, the amount of difference in tax liability resulting therefrom, and the amount of any refund or reduction in any deficiency in tax.

If the class life or total amount of depreciation for the guideline class is different in accordance with (*f*) of this subdivision, the election shall be made with an amended income tax return reflecting such difference. Forms will be provided for making the election and submission of the information required. An election may be made and the information submitted only in accordance with such forms. An election will not otherwise be invalid under this paragraph so long as there is substantial compliance, in good faith, with the requirements of this paragraph.

(ii) *Special rule.* The provisions of this subparagraph shall not apply to a guideline class in any taxable year for which the taxpayer has prior to January 12, 1971, adopted Revenue Procedure 62-21 for such class. See subparagraph (2) of this paragraph for determination of adoption of Revenue Procedure 62-21 prior to January 12, 1971.

(iii) *Justification of class life claimed and limitations on refunds.* If the taxpayer elects for a taxable year to be examined under the provisions of Revenue Procedure 62-21 in accordance with subdivision (i) of this subparagraph, any of the provisions of Revenue Procedure 62-21 may be applied to justify a class life claimed on the income tax return filed for such year. However, since the reserve ratio test does not apply to such property for taxable years ending after December 31, 1970, and since adjustments to the remaining depreciable lives in such taxable years are limited in accordance with paragraph (a)(5)(ii) of this section, no class life will be accepted on audit which (after all other adjustments in tax liability for such year) results in a reduction (or further reduction) in the amount of tax liability shown on the income tax return (specified in subdivision (i)(*d*) of this subparagraph) for such taxable year, or which results in the increase of a loss carryback or carryover to any other taxable year. The shortest class life otherwise justified under Revenue Procedure 62-21 (applied without regard to this subdivision) which does not result in such a reduction or increase is the shortest class life which will be accepted on audit under Revenue Procedure 62-21 pursuant to an election in accordance with this paragraph. Thus, for example, if a class life of 8 years could be justified under Revenue Procedure 62-21 for 1969, but 10 years is the class life which does not result in such a reduction or increase, 10 years is the shortest class life for 1969 which will be accepted on audit pursuant to an election under Revenue Procedure 62-21 and this paragraph.

(iv) *Definitions.* For purposes of this paragraph, references to Revenue Procedure 62-21 include all modifications, amendments, and supplements thereto as of January 11, 1971. The terms "class life" and "guideline class" have the same meaning as in Revenue Procedure 62-21.

(2) *Determination whether Revenue Procedure 62-21 adopted prior to January 12, 1971*—(i) *In general.* For the purposes of this paragraph, a taxpayer will be treated as having adopted prior to January 12, 1971, Revenue Procedure 62-21 for a guideline class for a taxable year ending before January 1, 1971, only if—

(*a*) For the guideline class and taxable year, the taxpayer adopted Revenue Procedure 62-21 by expressly so indicating on the income tax return filed for such taxable year prior to January 12, 1971;

(*b*) For the guideline class and taxable year, the taxpayer adopted Revenue Procedure 62-21 prior to January 12, 1971, by expressly so indicating in a proceeding before the Internal Revenue Service (such as upon examination of the income tax return for such taxable year) and there is reasonable evidence to that effect; or

(*c*) There is other reasonable evidence that prior to January 12, 1971, the taxpayer adopted Revenue Procedure 62-21 for the guideline class and taxable year.

If not treated under (*b*) or (*c*) of this subdivision as having done so for the last taxable year ending before January 1, 1971, and if the taxpayer files his first income tax return for such taxable year after January 11, 1971, the taxpayer will be treated as having adopted Revenue Procedure 62-21 prior to January 12, 1971, for a guideline class for such taxable year if he expressly so indicated on

V 37-79 APR 22 72 XUM

that return, or is treated under this subparagraph as having adopted Revenue Procedure 62–21 prior to January 12, 1971, for that guideline class for the immediately preceding taxable year.

(ii) *Examples.* The principles of this subparagraph may be illustrated by the following examples:

Example (1). Taxpayer A, an individual who uses the calendar year as his taxable year, has property in Group Three, Class 16(a), of Revenue Procedure 62–21. On A's income tax return for 1968, filed prior to January 12, 1971, he adopted Revenue Procedure 62–21 for the guideline class by so indicating under "Summary of Depreciation" in the appropriate schedule of Form 1040 for 1968. Under subdivision (i)(a) of this subparagraph, A is treated as having adopted Revenue Procedure 62–21 for the guideline class for 1968 prior to January 12, 1971.

Example (2). Taxpayer B, an individual who uses the calendar year as his taxable year, has property in Group Two, Class 5, of Revenue Procedure 62–21. B filed timely income tax returns for 1966 through 1968 but did not adopt Revenue Procedures 62–21 on any of such returns. In 1969 upon audit of B's taxable years 1966 through 1968, B exercised his option to be examined under the provisions of Revenue Procedure 62–21. The Revenue Agent's report shows that B was examined under Revenue Procedure 62–21 for taxable years 1966 through 1968. B will be treated under subdivision (ii)(b) of this subparagraph as having adopted Revenue Procedure 62–21 for such years prior to January 12, 1971.

Example (3). The facts are the same as in example (2) except that B did not upon examination by the Revenue Agent in 1969 exercise his option to be examined under Revenue Procedure 62–21. B has six accounts in the guideline class, Nos. 1 through 6. The Revenue Agent proposed to lengthen the depreciable lives on accounts Nos. 2 and 3 from 8 years to 12 years. In proceedings before the Appellate Division in 1970, B exercised his option to be examined under the provisions of Revenue Procedure 62–21. This is shown by correspondence between B and the Appellate Conferee as well as by other documents in the case before the Appellate Division. The case was settled on that basis before the Appellate Division without adjustment of the depreciable lives for B's accounts Nos. 2 and 3. B will be treated under subdivision (ii)(b) of this subparagraph as having adopted Revenue Procedure 62–21 for taxable years 1966 through 1968 prior to January 12, 1971.

Example (4). Corporation X uses the calendar year as its taxable year and has assets in Group Two, Class 5, of Revenue Procedure 62–21. Beginning in 1964, corporation X used the guideline life of 10 years as the depreciable life for all assets in the guideline class. In 1967, corporation X's taxable years 1964 through 1966 were examined and corporation X exercised its option to be examined under the provisions of Revenue Procedure 62–21. Corporation X did not adopt Revenue Procedure 62–21 on any of its income tax returns, for the years 1964 through 1970. Corporation X has not been examined since 1967, but has continued to use the guideline life of 10 years for all property in the guideline class including additions since 1966. Corporation X will be treated under subdivision (ii) (c) and (d) of this subparagraph as having adopted Revenue Procedure 62–21 prior to January 12, 1971, for taxable years 1964 through 1970.

Example (5). Corporation Y uses the calendar year as its taxable year and has asset in Group Two, Class 5, of Revenue Procedure 62–21. Since 1964, corporation Y has used various depreciable lives, based on the facts and circumstances, for different accounts in the guideline class. Corporation Y was examined in 1968 for taxable years 1965 through 1967. Corporation Y was also examined in 1970 for taxable years 1968 and 1969. Corporation Y did not exercise its option to be examined under the provisions of Revenue Procedure 62–21. Corporation Y has not adopted Revenue Procedure 62–21 on any income tax return. For taxable years 1964 through 1970, corporation Y's class life (within the meaning of section 4, Part II, of Revenue Procedure 62–21) was between 12 and 14 years. In August of 1971, corporation Y filed amended income tax returns for 1968 and 1969, and an income tax return for 1970, using a depreciable life of 10 years (equal to the guideline life) for all assets in the guideline class. Corporation Y will not be treated as having adopted Revenue Procedure 62–21 prior to January 12, 1971.

[26 CFR Parts 1, 53]

INCOME AND FOUNDATION EXCISE TAXES

Termination of Private Foundation Status and Taxable Expenditures With Respect to Certain Transfers

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in quintuplicate, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 22, 1972. Any written comments or suggestions not specially designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 22, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of Federal Register. The proposed regulations are to be issued under the authority contained in seciton 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

The following regulations are prescribed in order to provide Income Tax Regulations (26 CFR Part 1) under section 507 as added by section 101(a) of the Tax Reform Act of 1969 (83 Stat. 492) and Foundation Excise Tax Regulations (26 CFR Part 53) under section 4945 as added by section 101(b) of the Tax Reform Act of 1969 (83 Stat. 512). Except where otherwise specifically provided, these regulations take effect on January 1, 1970.

PARAGRAPH 1. Immediately after § 1.-504–1 insert the following section:

§ 1.507–1 General rule.

(a) *In general.* Except as provided in § 1.507–2, the status of any organization as a private foundation shall be terminated only if—

(1) Such organization notifies the district director of its intent to accomplish such termination, or

(2) (i) With respect to such organization, there have been either willful repeated acts (or failures to act), or a willful and flagrant act (or failure to act), giving rise to liability for tax under chapter 42, and

(ii) The Commissioner notifies such organization that, by reason of subdivision (i) of this subparagraph, such organization is liable for the tax imposed by section 507(c),

and either such organization pays the tax imposed by section 507(c) (or any portion not abated under section 507(g)) or the entire amount of such tax is abated under section 507(g).

(b) *Termination under section 507 (a)(1).* (1) In order to terminate its private foundation status under paragraph (a)(1) of this section, an organization must submit a statement to the Commissioner of its intent to terminate its private foundation status under section 507(a)(1). Such statement must set forth in detail the computation and amount of tax imposed under section 507(c). Unless the organization requests abatement of such tax pursuant to section 507(g), full payment of such tax must be made at the time the statement is filed under section 507(a)(1). An organization may request the abatement of all of the tax imposed under section 507 (c), or may pay any part thereof and request abatement of the unpaid portion of the amount of tax assessed. If the organization requests abatement of the tax imposed under section 507(c) and such request is denied, the organization must pay such tax in full upon notification by the Internal Revenue Service that such tax will not be abated. For purposes of subtitle F of the Code, the statement described in this subparagraph, once filed, shall be treated as a return.

(2) Termination of private foundation status under section 507(a)(1) does not relieve a private foundation, or any disqualified person with respect thereto, of liability for tax under chapter 42 with respect to acts or failures to act prior to termination or for any additional taxes imposed for failure to correct such acts or failures to act. See subparagraph (8) of this paragraph as to the possible imposition of transferee liability in cases not involving termination of private foundation status.

(3) In the case of an organization which has terminated its private foundation status under section 507(a) and continues in operation thereafter, if such organization wishes to be treated as described in section 501(c)(3), then pursuant to section 509(c) and § 1.50(c)–1 such organization must apply for recognition of exemption as an organization described in section 501(c)(3) in accordance with the provisions of section 508(a).

(4) See § 53.4947–1(c)(7) of this chapter as to the application of section 507(a) to certain split-interest trusts.

(5) For purposes of section 508(d)(1), the Internal Revenue Service shall make notice to the public (such as by publication in the Internal Revenue Bulletin) of any notice received from a private foundation pursuant to section 507(a)(1) or of any notice given to a private foundation pursuant to section 507(a)(2).

(6) If a private foundation transfers all or part of its assets to one or more other private foundations (or one or more private foundations and one or more section 509(a) (1), (2), (3), or (4) organizations) pursuant to a transfer described in section 507(b)(2) and § 1.507–3(c), such transferor foundation will not have terminated its private foundation status under section 507(a)(1). See § 1.507–3, however, for the special rules applicable to private foundations participating in section 507(b)(2) transfers.

(7) If a private foundation transfers all of its assets to one or more persons, but less than all of its net assets to one or more organizations described in section 509(a)(1) which have been in existence and so described for a continuous period of 60 calendar months, for purposes of this paragraph such transferor foundation will not be deemed to have terminated its private foundation status under section 507(a). Such foundation will continue to be treated as a private foundation for all purposes. For example, if a private foundation transfers all of its net assets to a section 509(a)(2) organization in 1971 and receives a bequest in 1973, the bequest will be regarded as having been made to a private foundation and the foundation will be subject to the provisions of chapter 42 with respect to such funds. If a private foundation makes a transfer of all of its net assets to a section 509(a) (2) or (3) organization, for example, it must retain sufficient income or assets to pay the tax imposed under section 4940 for that portion of its taxable year prior to such transfer. For additional rules applicable to a transfer by a private foundation of all of its net assets to a section 509(a)(1) organization which has not been in existence and so described for a continuous period of 60 calendar months, see § 1.507–3(e).

(8) If a private foundation makes a transfer described in subparagraph (7) of this paragraph and prior to, or in connection with, such transfer, liability for any tax under chapter 42 is incurred by the transferor foundation, transferee liability may be applied against the transferee organization for payment of such taxes. For purposes of this subparagraph, liability for any tax imposed under chapter 42 for failure to correct any act or failure to act shall be deemed incurred on the date on which the act or failure to act giving rise to the initial tax liability occurred.

(9) A private foundation which transfers all of its net assets is required to file Form 990, Annual Information Return, and the foundation managers are required to file Form 990–AR, Annual Report of Private Foundation, or the equivalent thereof, for the taxable year in which such transfer occurs. However, neither such foundation nor its foundation managers will be required to file such forms for any taxable year following the taxable year in which the last of any such transfers occurred, if at no time during the subsequent taxable years in question the foundation has either legal or equitable title to any assets or engages in any activity.

(c) *Involuntary termination under section 507(a)(2).* (1) For purposes of section 507(a)(2)(A), the term "willful repeated acts (or failures to act)" means at least two acts or failures to act both of which are voluntary, conscious, and intentional.

(2) For purposes of section 507(a)(2)(A), a "willful and flagrant act (or failure to act)" is one which is voluntarily, consciously, and knowingly committed in violation of any provision of chapter 42 (other than section 4940 or 4948(a)) and which appears to a reasonable man to be a gross violation of any such provision.

(3) An act (or failure to act) may be treated as an act (or failure to act) by the private foundation for purposes of section 507(a)(2) even though tax is imposed upon one or more foundation managers rather than upon the foundation itself.

(4) For purposes of section 507(a)(2), the failure to correct the act or acts (or failure or failures to act) which gave rise to liability for tax under any section of chapter 42 by the close of the correction period for such section may be a willful and flagrant act (or failure to act).

(5) No motive to avoid the restrictions of the law or the incurrence of any tax is necessary to make an act (or failure to act) willful. However, a foundation's act (or failure to act) is not willful if the foundation (or a foundation manager, if applicable) does not know that it is such an act (or failure to act).

PAR. 2. Immediately after § 1.507–2, insert the following sections:

§ 1.507–3 Special rules: transferee foundations.

(a) *General rule.* (1) For purposes of Part II, Subchapter F, Chapter 1 of the Code, in the case of a transfer of assets of any private foundation to another private foundation pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization, or reorganization, the transferee organization shall not be treated as a newly created organization. Thus, in the case of a significant disposition of assets to one or more private foundations within the meaning of paragraph (c) of this section, the transferee organization shall not be treated as a newly created organization. A transferee organization to which this paragraph applies shall be treated as possessing those attributes and characteristics of the transferor organization which are described in subparagraphs (2), (3), and (4) of this paragraph.

(2) (i) A transferee organization to which this paragraph applies shall succeed to the aggregate tax benefit of the transferor organization in an amount determined as follows: Such amount shall be an amount equal to the amount of such aggregate tax benefit multiplied by a fraction the numerator of which is the fair market value of the assets transferred to such transferee and the denominator of which is the fair market value of the assets of the transferor immediately before the transfer. Fair market value shall be determined as of the time of the transfer.

(ii) Notwithstanding subdivision (i) of this subparagraph, a transferee organization which is not effectively controlled (directly or indirectly) by the same person or persons who effectively control the transferor organization shall not succeeed to an aggregate tax benefit in excess of the fair market value at the time of the transfer of the assets transferred.

(iii) This subparagraph may be illustrated by the following examples:

Example (1). Pursuant to a transfer described in section 507(b)(2), F, a private foundation, transfers to G, a private foundation, all of its assets, which have a fair market value of $400,000. Immediately before the transfer F's aggregate tax benefit was $200,000, and G's aggregate tax benefit was $300,000. After the transfer G's aggregate tax benefit is $500,000 ($200,000+$300,000).

Example (2). Pursuant to a transfer described in section 507(b)(2), M, a private foundation, transfers all of its assets, which immediately prior to the transfer have a fair market value of $100,000. The assets were transferred to the following organizations at the following fair market values (determined at the time of transfer) $40,000 to N, a private foundation, $30,000 to O, a private foundation, and $30,000 to P, an organization described in section 170(b)(1)(A)(vi). Immediately before the transfer M's aggregate tax benefit was $50,000. Therefore, N succeeds to M's aggregate tax benefit to the extent of $20,000 ($50,000×$40,000/$100,000) and O succeeds to M's aggregate tax benefit to the extent of $15,000 ($50,000×$30,000/$100,000). The remaining $15,000 of M's aggregate tax benefit is retained by M as M has not terminated under section 507.

Example (3). Assume the same facts as in Example (2) except that the transfers were made as follows: M transferred $30,000 to N on January 1, 1972, $40,000 to P on July 1, 1972, and $30,000 to O on December 31, 1972. Further, assume that the fair market value of the assets and the aggregate tax benefit do not change during 1972 and that O is not effectively controlled (directly or indirectly) by the same person or persons who effectively control M. N succeeds to M's aggregate tax benefit to the extent of $15,000 ($50,000×$30,000/$100,000). However, since $40,000 of the remaining $70,000 ($100,000—$30,000) of assets of M was transferred to P on July 1, 1972, immediately before the transfer to O, the fair market value of the assets held by M is $30,000 ($70,000—$40,000). On the other

V 37 • 79
APR 22 72
XUM

hand, because P is not a private foundation, M's aggregate tax benefit immediately before the transfer to O remains $35,000 ($50,000—$15,000). Therefore, before applying subdivision (ii) of this subparagraph, O would succeed to $35,000 ($35,000×$30,000/$30,000) of M's aggregate tax benefit. However, applying subdivision (ii) of this subparagraph since M transferred only $30,000 to O, O shall succeed to only $30,000 of M's aggregate tax benefit. The remaining $5,000 ($35,000—$30,000) of M's aggregate tax benefit is retained by M as M has not terminated under section 507.

(3) For purposes of section 507(d)(2), in the event of a transfer of assets described in section 507(b)(2), any person who is a "substantial contributor" (within the meaning of section 507(d)(2)) with respect to the transferor foundation shall be treated as a "substantial contributor" with respect to the transferee foundation, regardless of whether such person meets the $5,000-two percent test with respect to the transferee organization at any time. If a private foundation makes a transfer described in section 507(b)(2) to two or more transferee private foundations, any person who is a "substantial contributor" with respect to the transferor foundation prior to such transfer shall be considered a "substantial contributor" with respect to each transferee private foundation.

(4) If a private foundation incurs liability for one or more of the taxes imposed under chapter 42 (or any penalty resulting therefrom) prior to, or as a result of, making a transfer of assets described in section 507(b)(2) to one or more private foundations, in any case where transferee liability applies each transferee foundation shall be treated as receiving the transferred assets subject to such liability to the extent that the transferor foundation does not satisfy such liability.

(5) Except as provided in subparagraph (9) of this paragraph, a private foundation is required to meet the distribution requirements of section 4942 for any taxable year in which it makes a section 507(b)(2) transfer of all or part of its net assets to another private foundation. Such transfer shall itself be counted toward satisfaction of such requirements to the extent the amount transferred meets the requirements of section 4942(g).

(6) For purposes of section 4943(c)(4), (5), and (6), whenever a private foundation makes a section 507(b)(2) transfer of all or part of its net assets to another private foundation, the applicable period of time described in section 4943(c)(4), (5), or (6) shall include both the period during which the transferor foundation held such assets and the period during which the transferee foundation holds such assets.

(7) Except as provided in subparagraph (9) of this paragraph, where the transferor has disposed of all of its assets section 4945(d)(4) and (h) shall not apply during any period in which it has no assets. However, the exception contained in this subparagraph shall not apply with respect to any information reporting requirements imposed by section 4945 and the regulations thereunder for any year in which any such transfer is made.

(8) (i) Except as provided in subdivision (ii) of this subparagraph or subparagraph (9) of this paragraph, whenever a private foundation makes a transfer of assets described in section 507(b)(2) to one or more private foundations, the transferee foundation:

(*a*) Will not be treated as being in existence prior to January 1, 1970, with respect to any transferred assets;

(*b*) Will not be treated as holding the transferred assets prior to January 1, 1970; and

(*c*) Will not be treated as having engaged in, or become subject to, any transaction, lease, contract, or other obligation with respect to the transferred assets prior to January 1, 1970.

(ii) The provisions of subdivision (i) of this paragraph shall not apply to the special rules or savings provisions contained in:

(*a*) Section 4940(c)(4)(B) and the regulations thereunder with respect to basis of property,

(*b*) Section 4942(f)(4) and the regulations thereunder with respect to distributions of income,

(*c*) Section 101(*l*)(2) of the Tax Reform Act of 1969 (83 Stat. 533) with respect to the provisions of section 4941,

(*d*) Section 101(*l*)(3)(A) of the Tax Reform Act of 1969 (83 Stat. 534) with respect to the provisions of section 4942, but only if the transferor qualified for the application of such section immediately before the transfer, and at least 85 percent of the fair market value of the net assets of the transferee immediately after the transfer was received pursuant to the transfer,

(*e*) Section 101(*l*)(3)(B) through (E) of the Tax Reform Act of 1969 (83 Stat. 534) with respect to the provisions of section 4942,

(*f*) Section 101(*l*)(5) of the Tax Reform Act of 1969 (83 Stat. 535) with respect to the provisions of section 4945, and

(*g*) Section 101(*l*)(6) of the Tax Reform Act of 1969 (83 Stat. 535) with respect to the provisions of section 508(e).

(9) (i) If a private foundation transfers all of its net assets to one or more private foundations which are effectively controlled (directly or indirectly) by the same person or persons which effectively controlled the transferor private foundation, for purposes of chapter 42 (section 4940 et seq.) and part II of subchapter F of chapter 1 of the Code (sections 507 through 509) such a transferee private foundation shall be treated as if it were the transferor. However, where proportionality is appropriate, such a transferee private foundation shall be treated as if it were the transferor in the proportion which the fair market value of the assets transferred to such transferee bears to the fair market value of the assets of the transferor immediately before the transfer.

(ii) Subdivision (i) of this subparagraph shall not apply to the requirements under sections 6033, 6056, and 6104 which must be complied with by the transferor private foundation, nor to the requirement under section 6043 that the transferor file a return with respect to its liquidation, dissolution, or termination.

(iii) This subparagraph may be illustrated by the following examples:

Example (1). The trustees of X charitable trust, a private foundation, form the Y charitable corporation, also a private foundation, in order to facilitate the conduct of their activities. The trustees of X are also the directors of Y. Y has the same charitable purposes as X. All of the assets of X are transferred to Y, and Y continues to carry on X's charitable activities. Under such circumstances, Y shall be treated as if it were X for the purposes of subdivision (i) of this subparagraph. Thus, for example, Y will be permitted to take advantage of any special rules or savings provisions with respect to chapter 42 to the same extent as X could have if X had continued in existence.

Example (2). A and B are the trustees of the P charitable trust, a private foundation, and are the only substantial contributors to P. On July 1, 1973, in order to facilitate accomplishment of diverse charitable purposes, A and B create and control the R Foundation, the S Foundation and the T Foundation and transfer the net assets of P to R, S, and T. As of the end of 1973, P has an outstanding grant to Foundation W and has been required to exercise expenditure responsibility with respect to this grant under sections 4945(d)(4) and (h). Under these circumstances, R, S, and T shall each be treated as if they are P in the proportion the fair market value of the assets transferred to each bears to the fair market value of the assets of P immediately before the transfer. Since R, S, and T are treated as P, absent a specific provision for exercising expenditure responsibility with respect to the grant to W, each of them is required to exercise expenditure responsibility with respect to such grant. If, as a part of the transfer to R, P assigned, and R assumed, P's duties with respect to the expenditure responsibility grant to W, only R would be required to exercise expenditure responsibility with respect to the grant to W. Since R, S, and T are treated as P rather than as recipients of "expenditure responsibility" grants, there are no expenditure responsibility requirements which must be exercised under sections 4945(d)(4) and (h) with respect to the transfers of assets to R, S, and T.

(10) For certain rules relating to filing requirements where a private foundation has transferred all its net assets, see § 1.507-1(b)(9).

(b) *Status of transferee organization under section 507(b)(2).* Since a transfer of assets pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization or reorganization to an organization described in section 501(c)(3) or 4947 is a taxable expenditure under section 4945(d)(5), in order for such a transfer of assets not to be a taxable expenditure, it must be to an organization described in section 501(c)(3) or treated as described in section 501(c)(3) under section 4947. See § 53.4945-6(c)(3) of this chapter. Consequently, unless such a transferee is an organization described in section 509(a)(1), (2), or (3), the transferee is a private foundation and the rules of section 507(b)(2) and paragraph (a) of this section apply. On the other hand, if such a transfer of assets is made to a transferee organization which is not described in either section 501(c)(3) or 4947, and in order to correct the making of a taxable expenditure, such assets are transferred to a private foundation, section 507(b)(2) and paragraph (a) of this section shall apply as if the transfer of assets had been made directly to such private foundation.

(c) *Section 507(b)(2) transfers.* (1) A transfer of assets is described in section 507(b)(2) if it is made by a private foundation pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization, or reorganization .This shall include any organization or reorganization described in subchapter C of chapter 1. For purposes of section 507(b)(2), the terms "other adjustment, organization, or reorganization" shall include any partial liquidation or any other significant disposition of assets to one or more private foundations, other than transfers for full and adequate consideration or distributions out of current income.

(2) The term "significant disposition of assets to one or more private foundations" shall include any disposition for a taxable year where the aggregate of:

(i) The dispositions to one or more private foundations for the taxable year, and

(ii) Where any disposition to one or more private foundations for the taxable year is part of a series of related dispositions made during prior taxable years, the total of the related dispositions made during such prior taxable years,

is 25 percent or more of the fair market value of the net assets of the foundation at the beginning of the taxable year (in the case of subdivision (i) of this subparagraph) or at the beginning of the first taxable year in which any of the series of related dispositions was made (in the case of subdivision (ii) of this subparagraph). A "significant disposition of assets" may occur in a single taxable year (as in subdivision (i) of this subparagraph) or over the course of two or more taxable years (as in subdivision (ii) of this subparagraph). The determination whether a significant disposition has occurred through a series of related distributions (within the meaning of subdivision (ii) of this subparagraph) will be made on the basis of all the facts and circumstances of the particular case. However, if one or more persons who are disqualified persons (within the meaning of section 4946) with respect to the transferor private foundation are also disqualified persons with respect to any of the transferee private foundations, such fact shall be evidence that the transfer is part of a series of related dispositions (within the meaning of subdivision (ii) of this subparagraph). In the case of a series of related dispositions described in subdivision (ii) of this subparagraph, each transferee private foundation shall (on any date) be subject to the provisions of section 507(b)(2) (with respect to all such dispositions made to it on or before such date) to the extent described in paragraphs (a) and (b) of this section.

(3) A private foundation which fails to meet the requirements of section 507(b)(1)(A) for a taxable year may be required to file a return under section 6043(b) by reason of a transfer of assets to one or more section 509(a)(1), (2), or (3) organizations. Hence, such filing does not necessarily mean that a section 507(b)(2) transfer has occurred. See § 1.6043-3(f)(1).

(4) This paragraph applies to any section 507(b)(2) transfer made by a private foundation referred to in section 170(b)(1)(E)(i), (ii), or (iii).

(5) The provisions of this paragraph may be illustrated by the following examples:

Example (1). M is a private foundation on the calendar year basis. It has net assets worth $100,000 as of January 1, 1971. In 1971, in addition to distributions out of current income, M transfers $10,000 to N, $10,000 to O, and $10,000 to P. N, O, and P are all private foundations. Under subparagraph (2)(i) of this paragraph, M has made a significant disposition of its assets in 1971 since M has disposed of more than 25 percent of its net assets (with respect to the fair market value of such assets as of January 1, 1971). M has therefore made section 507(b)(2) transfers within the meaning of this paragraph, and section 507(b)(2) applies to the transfers made to N, O, and P.

Example (2). U, a tax-exempt private foundation on the calendar year basis, has net assets worth $100,000 as of January 1, 1971. As part of a series of related dispositions in 1971 and 1972, U transfers in 1971, in addition to distributions out of current income, $10,000 to private foundation X and $10,000 to private foundation Y, and in 1972, in addition to distributions out of current income, U transfers $10,000 to private foundation Z. Under subparagraph (2)(ii) of this paragraph, U is treated as having made a series of related dispositions in 1971 and 1972. The aggregate of the 1972 disposition (under subparagraph (2)(i) of this paragraph) and the series of related dispositions (under subparagraph (2)(ii) of this paragraph) is $30,000, which is more than 25 percent of the fair market value of U's net assets as of the beginning of 1971 ($100,000), the first year in which any such disposition was made. Thus, U has made a significant disposition of its assets and has made transfers described in section 507(b)(2). The provisions of paragraphs (a) and (b) of this section apply to each of the transferees as of the date on which it received assets from U.

(d) *Inapplicability of section 507(a) to section 507(b)(2) transfers.* Unless a private foundation voluntarily gives notice pursuant to section 507(a)(1), a transfer of assets described in section 507(b)(2) will not constitute a termination of the transferor's private foundation status under section 507(a)(1). Such transfer must, nevertheless, satisfy the requirements of any pertinent provisions of chapter 42. See subparagraphs (5) through (7) of paragraph (a) of this section. However, if such transfer constitutes an act or failure to act which is described in section 507(a)(2)(A), then such transfer will be subject to the provisions of section 507(a)(2) rather than section 507(b)(2). For example, X, a private nonoperating foundation, transfers all of its net assets to Y, a private operating foundation, in 1971. X does not file the notice referred to in section 507(a)(1) and the transfer does not constitute either a willful and flagrant act (or failure to act), or one of a series of willful repeated acts (or failures to act), giving rise to liability for tax under chapter 42. Under these circumstances, the transfer is described in section 507(b)(2) and the provisions of paragraph (a) of this section apply with respect to Y. The private foundation status of X has not been terminated under section 507(a).

(e) *Transfers to certain section 509(a)(1), (2), or (3) organizations.* If a private foundation transfers all or part of its assets to one or more organizations described in section 509(a)(1), (2), or (3) and, within a period of 3 years from the date of such transfers, one or more of the transferee organizations lose their section 509(a)(1), (2), or (3) status and become private foundations, then for purposes of this section, a transfer of assets within the meaning of paragraph (c) of this section to such an organization which becomes a private foundation will be treated as a transfer described in section 507(b)(2), and the provisions of paragraph (a) of this section shall be treated as applying to such a transferee organization from the date on which any such transfer was made to it.

(f) *Certain transfers made during section 507(b)(1)(B) terminations.* If—

(1) During the course of the 12-month or 60-month period described in section 507(b)(1)(B), a private foundation makes one or more transfers to one or more private foundations;

(2) Such transfers are described in § 1.507-3(c)(1); and

(3) Even though the transferor foundation thereafter meets the requirements of section 507(b)(1)(B),

then for purposes of this section, the provisions of § 1.507-2(e) shall not apply with respect to such transfers, and such transfers will be treated as transfers described in section 507(b)(2) and § 1.507-3 rather than as transfers from an organization described in section 509(a)(1), (2), or (3).

§ 1.507-4 Imposition of tax.

(a) *General rule.* Section 507(c) imposes on each organization the private foundation status of which is terminated under section 507(a) a tax equal to the lower of:

(1) The amount which such organization substantiates by adequate records (or other corroborating evidence which may be required by the Commissioner) as the aggregate tax benefit (as defined in section 507(d)) resulting from the section 501(c)(3) status of such organization, or

(2) The value of the net assets of such organization.

(b) *Transfers not subject to section 507(c).* Private foundations which make transfers described in section 507(b)(1)(A) or (2) are not subject to the tax imposed under section 507(c) with respect to such transfers unless the provisions

V 37 • 79 APR 22 72 XUM

of section 507(a) become applicable. See §§ 1.507–1(b), 1.507–2(a)(6) and 1.507–3(d).

§ 1.507–5 Aggregate tax benefit; in general.

(a) *General rule.* For purposes of section 507(c)(1), the aggregate tax benefit resulting from the section 501(c)(3) status of any private foundation is the sum of:

(1) The aggregate increases in tax under chapters 1, 11, and 12 (or the corresponding provisions of prior law) which would have been imposed with respect to all substantial contributors to the foundation if deductions for all contributions made by such contributors to the foundation after February 28, 1913, had been disallowed,

(2) The aggregate increases in tax under chapter 1 (or the corresponding provisions of prior law) which would have been imposed with respect to the income of the private foundation for taxable years beginning after December 31, 1912, if (i) it had not been exempt from tax under section 501(a) (or the corresponding provisions of prior law), and (ii) in the case of a trust, deductions under section 642(c) (or the corresponding provisions of prior law) had been limited to 20 percent of the taxable income of the trust (computed without the benefit of section 642(c) but with the benefit of section 170(b)(1)(A)),

(3) The amount succeeded to from transferors under § 1.507–3(a) and section 507(b)(2), and

(4) Interest on the increases in tax determined under subparagraphs (1), (2), and (3) of this paragraph from the first date on which each such increase would have been due and payable to the date on which the organization ceases to be a private foundation.

(b) *Contributions.* In computing the amount of the aggregate increases in tax under subparagraph (1) of this paragraph, all deductions attributable to a particular contribution shall be included. For example, if a substantial contributor has taken deductions under sections 170 and 2522 (or the corresponding provisions of prior law) with respect to the same contribution, the amount of each deduction shall be included in the computations under section 507(d)(1)(A). Accordingly, the aggregate tax benefit may exceed the fair market value of the property transferred.

PAR. 3. Immediately after § 1.507–6, insert the following sections:

§ 1.507–7 Value of assets.

(a) *In general.* For purposes of section 507(c), the value of the net assets shall be determined at whichever time such value is higher:

(1) The first day on which action is taken by the organization which culminates in its ceasing to be a private foundation, or

(2) The date on which it ceases to be a private foundation.

(b) *Valuation dates.* (1) In the case of a termination under section 507(a)(1), the date referred to in paragraph (a)(1) of this section shall be the date on which the terminating foundation gives the notification described in section 507(a)(1).

(2) In the case of a termination under section 507(a)(2), the date referred to in paragraph (a)(1) of this section shall be the date of occurrence of the willful and flagrant act (or failure to act) or the first of the series of willful repeated acts (or failures to act) giving rise to liability for tax under chapter 42 and the imposition of tax under section 507(a)(2).

(c) *Fair market value.* For purposes of this section, fair market value shall be determined pursuant to the provisions of § 53.4942(a)–2(c)(2) of this chapter.

(d) *Net assets.* For purposes of section 507 and the regulations thereunder, the term "net assets" shall mean the gross assets of a private foundation reduced by all liabilities of the foundation, including appropriate estimated and contingent liabilities. Thus, a determination of net assets may reflect reductions for any liability or contingent liability for tax imposed upon the private foundation under chapter 42 with respect to acts or failures to act prior to termination, for any liability or contingent liability for failures to correct such acts or failures to act, or for any liability or estimated or contingent liability with respect to expenses associated with winding up the organization. If a private foundation's determination of net assets reflects any reduction for any estimated or contingent liability, such private foundation must establish, to the satisfaction of the Commissioner, the reasonableness of such reduction. If the amount of net assets reflects a reduction for any estimated or contingent liability, at the earlier of the final determination of the contingency or the termination of a reasonable time, any excess of the amount by which the gross assets was reduced over the amount of the liability shall be treated in the same manner as if such excess had been considered part of the net assets.

§ 1.507–8 Liability in case of transfers.

For purposes of determining liability for the tax imposed under section 507(c) in the case of assets transferred by the private foundation, such tax shall be deemed to have been imposed on the first day on which action is taken by the organization which culminates in its ceasing to be a private foundation. If an organization's private foundation status is terminated under section 507(a)(2), the first day on which action is taken which culminates it is ceasing to be a private foundation (within the meaning of section 507(f)) shall be the date described in § 1.507–7(b)(2). If an organization terminates its private foundation status under section 507(a)(1), the first day on which action is taken which culminates in its ceasing to be a private foundation (within the meaning of section 507(f)) shall be the date described in §1.507–7(b)(1).

§ 1.507–9 Abatement of taxes.

(a) *General rule.* The Commissioner may at his discretion abate the unpaid portion of the assessment of any tax imposed by section 507(c), or any liability in respect thereof, if:

(1) The private foundation distributes all of its net assets to one or more organizations described in section 170(b)(1)(A) (other than in clauses (vii) or (viii)) each of which has been in existence and so described for a continuous period of at least 60 calendar months, or

(2) Effective assurance is given to the Commissioner in accordance with paragraphs (b) and (c) of this section that the assets of the organization which are dedicated to charitable purposes will, in fact, be used for charitable purposes.

The provisions of § 1.507–2(a)(2), (3), and (7) shall apply to distributions under subparagraph (1) of this paragraph. Since section 507(g) provides only for the abatement of tax imposed under section 507(c), no tax imposed under any provision of chapter 42 shall be abated under section 507(g). Where the taxpayer files a petition with the Tax Court with respect to a notice of deficiency regarding any tax under section 507(c), such tax shall be treated as having been assessed for the purposes of abatement of such tax under section 507(g) and the regulations thereunder.

(b) *State proceedings.* (1) The Commissioner may at his discretion abate the unpaid portion of the assessment of any tax imposed by section 507(c), or any liability in respect thereof, under the procedures outlined in subparagraphs (2) and (3) of this paragraph. Such tax may not be abated by the Commissioner unless he determines that corrective action as defined in paragraph (c) of this section has been taken. The Commissioner may not abate by reason of section 507(g) any amount of such tax which has already been collected since only the unpaid portion thereof can be abated.

(2) The appropriate State officer shall have 1 year from the date of notification prescribed in section 6104(c) that a notice of deficiency of tax imposed under section 507(c) has been issued with respect to a foundation, to advise the Commissioner that corrective action has been initiated pursuant to State law as may be ordered or approved by a court of competent jurisdiction. Corrective action may be initiated either by the appropriate State officer or by an organization described in section 509(a)(1), (2), or (3) which is a beneficiary of the private foundation and has enforceable rights against such foundation under State law. Copies of all pleadings and other documents filed with the court at the initial stages of the proceedings shall be attached to the notification made by the State officer to the Commissioner. Prior to notification by the appropriate State officer that corrective action has been initiated, the Commissioner shall follow those procedures which would apply with respect to the assessment and collection of the tax imposed under section 507(c) without regard to section 507(g)(2). Subsequent to notification by the appropriate State officer that corrective action has been initiated, the Commissioner shall suspend action with respect to the assessment or collection of tax imposed under section 507(c) until notified of the final determination of such corrective action, as long as any such resulting delay does not jeopardize the collection of such tax and does not cause collection to be barred by operation of law or any rule of law. In any case where collection of such tax is about to be barred by operation of section 6502 and the Commissioner has not been advised of the final determination of corrective action, the Commissioner should make every effort to obtain appropriate agreements with the foundation subject to such tax to extend the period of limitations under section 6502(a)(2). Where such agreements are obtained, action with respect to the assessment and collection of such tax may be suspended to the extent not inconsistent with this subparagraph.

(3) Upon receipt of certification from the appropriate State officer that action has been ordered or approved by a court of competent jurisdiction, the Commissioner may abate the unpaid portion of the assessment of tax imposed by section 507(c), or any liability in respect thereof, if in his judgment such action is corrective action within the meaning of paragraph (c) of this section. In the event that such action is not corrective action, the Commissioner may in his discretion again suspend action on the assessment and collection of such tax until corrective action is obtained, or if in his judgment corrective action cannot be obtained, he may resume the assessment and collection of such tax.

(c) *Corrective action.* The term "corrective action" referred to in paragraph (b) of this section means vigorous enforcement of State laws sufficient to assure implementation of the provisions of chapter 42 and insure that the assets of such private foundation are preserved for such charitable or other purposes specified in section 501(c)(3). Except where assets of the terminated private foundation are transferred to an organization described in section 509(a)(1) through (4) the State is required to take such action to assure that the provisions of section 508(e)(1)(A) and (B) are applicable to the terminated foundation (or any transferee) with respect to such assets as if such organization were a private foundation. Thus, the governing instrument of such organization must include provisions with respect to such assets—

(1) Requiring its income therefrom for each taxable year to be distributed at such time and in such manner as not to subject such organization to tax under section 4942 (as if the organization were a private foundation),

(2) Prohibiting such organization from engaging in any act of self-dealing (as defined in section 4941(d) as if the organization were a private foundation),

(3) Prohibiting such organization from retaining any excess business holdings (as defined in section 4943(c) as if the organization were a private foundation),

(4) Prohibiting such organization from making any investments in such manner as to subject such organization to tax under section 4944 (as if the organization were a private foundation), and

(5) Prohibiting such organization from making any taxable expenditures (as defined in section 4945(d) as if the organization were a private foundation). Consequently, in cases where the preceding sentence applies, although the private foundation status of an organization is terminated for tax purposes, it is contemplated that its status under State law would remain unchanged, because the tax under section 507(c) has been abated solely because the Commissioner has been given effective assurance that there is vigorous enforcement of State laws sufficient to assure implementation of the provisions of chapter 42. Therefore, in such a case while chapter 42 will not apply to acts occurring subsequent to termination which previously would have resulted in the imposition of tax under chapter 42, it is contemplated that there will be vigorous enforcement of State laws (including laws made applicable by the provisions in the governing instrument) with respect to such acts. Notwithstanding the preceding three sentences, no amendment to the organization's governing instrument is necessary where there are provisions of State law which have the effect of requiring a terminated private foundation to which the rules of subparagraphs (1) through (5) of this paragraph apply to be subject to such rules whether or not there are such provisions in such terminated private foundation's governing instrument.

PAR. 3. Paragraph (b) of § 53.4945–5 is amended by adding the following subparagraphs:

§ 53.4945–5 Grants to organizations.

* * * * *

(b) *Expenditure responsibility.* * * *

(7) *Expenditure responsibility with respect to certain transfers of assets described in section 507*—(i) *Transfers of assets described in section 507(b)(2).* For rules relating to the extent to which the expenditure responsibility rules contained in section 4945(d)(4) and (h) and this section apply to transfers of assets described in section 507(b)(2), see §§ 1.507–3(a)(7), 1.507–3(a)(8)(ii)(f), and 1.507–3(a)(9) of this chapter.

(ii) *Certain other transfers of assets.* For rules relating to the extent to which the expenditure responsibility rules contained in section 4945(d)(4) and (h) and this section apply to certain other transfers of assets described in § 1.507–3(b) of this chapter, see § 1.507–3(b) of this chapter.

(8) *Restrictions on grants (other than program-related investments) to organizations not described in section 501(c)(3).* For other restrictions on certain grants (other than program-related investments) to organizations which are not described in section 501(c)(3), see § 53.4945–6(c).

PAR. 4. Section 53.4945–6 is amended by adding the following paragraphs:

§ 53.4945–6 Expenditures for noncharitable purposes.

* * * * *

(c) *Grants to "noncharitable" organizations*—(1) *In general.* Since a private foundation cannot make an expenditure for a purpose other than a purpose described in section 170(c)(2)(B), a private foundation may not make a grant to an organization other than an organization described in section 501(c)(3) unless

(i) The making of the grant itself constitutes a direct charitable act or the making of a program-related investment, or

(ii) Through compliance with the requirements of subparagraph (2) of this paragraph, the grantor is reasonably assured that the grant will be used exclusively for purposes described in section 170(c)(2)(B).

For purposes of this paragraph, an organization treated as a section 509(a)(1) organization under § 53.4945–5(a)(4) shall be treated as an organization described in section 501(c)(3).

(2) *Grants other than transfers of assets described in § 1.507–3(c)(1).* If a private foundation makes a grant which is not a transfer of assets pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization or reorganization to any person (other than an organization described in section 501(c)(3)), the grantor is reasonably assured (within the meaning of subparagraph (1)(ii) of this paragraph) that the grant will be used exclusively for purposes described in section 170(c)(2)(B) only if the grantee organization agrees to maintain and does continuously maintain the grant funds (or other assets transferred) in a separate fund dedicated to one or more purposes described in section 170(c)(2)(B). The grantor of a grant described in this paragraph must also comply with the expenditure responsibility provisions contained in sections 4945 (d) and (h) and § 53.4945–5.

(3) *Transfers of assets described in § 1.507–3(c)(1).* If a private foundation makes a transfer of assets (other than a transfer described in subparagraph (1)(i) of this paragraph) pursuant to any liquidation, merger, redemption, recapitalization, or other adjustment, organization, or reorganization to any person, the transferred assets will not be considered used exclusively for purposes described in section 170(c)(2)(B) unless the assets are transferred to a fund or organization described in section 501(c)(3) or treated as so described under section 4947(a)(1).

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 953]

IRISH POTATOES GROWN IN THE SOUTHEASTERN STATES

Proposed Limitation of Shipments

Consideration is being given to the issuance of the limitation of shipments regulation, hereinafter set forth, which was unanimously recommended by the

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

V 37-79 APR 22 72 XUM

Southeastern Potato Committee, established pursuant to Marketing Agreement No. 104 and Order No. 953, both as amended (7 CFR Part 953). This marketing order program regulates the handling of Irish potatoes grown in the designated counties of Virginia and North Carolina and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The recommendations by the Southeastern Potato Committee are consistent with the marketing policy it unanimously adopted and reflect its appraisal of the crop and prospective market conditions.

The marketing outlook appears more favorable than last season (when the area's average farm price was only about $2.54 per hundredweight) due to reduced potato plantings in numerous spring and early summer States, fewer overlapping supplies from California and a further advance in consumers' net disposable income with the demand for food expected to continue firm.

However, North Carolina and Virginia potato growers can expect to encounter marketing problems similar to those in other recent seasons. The heavy supply of storage potatoes, particularly in the East, has kept pressure on the farm prices. Also, recent cold storage holdings of frozen potato products have set new record highs.

Shipments of potatoes from the production area are expected to begin about June 5. The proposed regulation contains the same grade, size, and maturity requirements that have been issued for the past five seasons. They are necessary to prevent potatoes of poor quality or undesirable sizes from being distributed to fresh market channels of commerce. They will also provide consumers with good quality potatoes and maximize the returns to producers for preferred grades and sizes.

The specific requirements, hereinafter set forth, will promote orderly marketing by standardizing and improving the quality of the potatoes shipped from the production area, and should thereby tend to maximize the returns to the producers pursuant to the declared policy of the act.

All persons who desire to submit written data, views, or arguments in connection with this proposal may file the same in four copies with the Hearing Clerk, Room 112–A, United States Department of Agriculture, Washington, D.C. 20250, not later than 7 days after publication in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposed regulation is as follows:

§ 953.312 Limitation of shipments.

During the period June 5 through July 31, 1972, no person shall ship any lot of potatoes produced in the production area unless such potatoes meet the requirements of paragraphs (a) and (b) of this section or unless such potatoes are handled in accordance with paragraphs (c) and (d) of this section.

(a) *Minimum grade and size requirements.* All varieties U.S. No. 2, or better grade, 1½ inches minimum diameter.

(b) *Inspection.* Each first handler shall, prior to making each shipment of potatoes cause each shipment to be inspected by an authorized representative of the Federal-State Inspection Service. No handler shall ship any potatoes for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto by the Federal-State Inspection Service and the certificate is valid at the time of shipment.

(c) *Special purpose shipments.* The grade, size, and inspection requirements set forth in paragraphs (a) and (b) of this section shall not be applicable to shipments of potatoes for canning, freezing, "other processing" as hereinafter defined, livestock feed or charity: *Provided,* That the handler thereof complies with the safeguard requirements of paragraph (d) of this section. *Further provided,* That shipments of potatoes for canning, freezing, and "other processing" shall be exempt from inspection requirements specified in § 953.50 and from assessment requirements specified in § 953.34.

(d) *Safeguards.* Each handler making shipments of potatoes for canning, freezing, "other processing," livestock feed, or charity in accordance with paragraph (c) of this section shall:

(1) Notify the committee of his intent to ship potatoes pursuant to paragraph (c) of this section by applying on forms furnished by the committee for a certificate of privilege applicable to such special purpose shipments;

(2) Obtain an approved certificate of privilege;

(3) Prepare on forms furnished by the committee a special purpose shipment report for each such individual shipment; and

(4) Forward copies of such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee's office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for suspension of such handler's certificate of privilege applicable to such special purpose shipments.

(e) *Minimum quantity exception.* Each handler may ship up to, but not to exceed, 5 hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any portion of a shipment that exceeds 5 hundredweight of potatoes.

(f) *Definitions.* The term "U.S. No. 2" shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes (§§ 51.1540–51.1566 of this title), including the tolerances set forth therein. The term "other processing" has the same meaning as the term appeared in the act as temporarily amended February 20, 1970 (said act having been so permanently amended on February 15, 1972, by Public Law 92–233) and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or the application of material to prevent oxidation does not constitute "other processing." All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part, both as amended.

(g) *Applicability to imports.* Pursuant to section 608e–1 of the act and § 980.1 "Import regulations" (7 CFR 980.1), Irish potatoes of the round white type imported during the effective period of this section shall meet the grade, size, quality, and maturity requirements specified in paragraph (a) of this section.

Dated: April 19, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

FARM CREDIT ADMINISTRATION

[12 CFR Part 611]

FEDERAL LAND BANK ASSOCIATIONS

Compensation of District Board Members

The notice of proposed rule making published by the Farm Credit Administration in the FEDERAL REGISTER for April 12, 1972 (37 F.R. 7218), inadvertently had omitted therefrom § 611.1020 which deals with compensation of district board members. This section as proposed by the Federal Farm Credit Board, applies only to members of district boards of directors, and does not affect the public at large. It is considered, therefore, that the public interest would not be served by deferring the final date for submission of written data, views, or arguments on this proposed rule to E. A. Jaenke, Governor, Farm Credit Administration, Washington, D.C. 20578, as provided in the FEDERAL REGISTER for April 12, beyond May 12, 1972.

The proposed Part 611 of Chapter VI of Title 12 of the Code of Federal Regulations (37 F.R. 7218, 7225) is amended by adding a new § 611.1020 as follows:

§ 611.1020 Compensation of district board members.

Directors may be compensated at per diem rates not to exceed $75 for attendance at board meetings and for special assignments, including reasonable travel time from and to their residences.

(Secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624)

E. A. JAENKE,
Governor,
Farm Credit Administration.

[FR Doc.72-6173 Filed 4-21-72;8:47 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

[Release No. IC–7107]

BONDING OF OFFICERS AND EMPLOYEES OF REGISTERED INVESTMENT COMPANIES

Notice of Proposed Rule Making

Notice is hereby given that the Securities and Exchange Commission has under consideration the amendment of Rule 17g–1 [17 CFR 270.17g–1] pursuant to sections 17(g) and 38(a) of the Investment Company Act of 1940 ("Act") [15 U.S.C. 80a–17(g), 80a–37(a)].

As a result of the experience gained by the Commission in its administration and enforcement of the Act, including the experience derived from staff inspections of registered investment companies, it appears to the Commission that its existing rule may require amendment to include provisions as are set forth hereinbelow.

Section 17(g) of the Act authorizes the Commission to require by rules and regulations, for the protection of investors, that any officer and any employee of a registered management investment company be bonded by a reputable fidelity insurance company against larceny and embezzlement if such officer or employee has access, singly or jointly, with others, to securities or funds of any registered investment company, either directly or through authority to draw upon such funds, or to direct generally the disposition of such secu ities.

Rule 17g–1, as now in effect, in general, requires that there shall be fidelity bonds in such reasonable amount as a majority of the board of directors who are not "covered persons" may determine, subject to modification by the Commission as to the amount, type, form, and coverage of such bonds. It also requires, among other things, that a copy of the bond be filed with the Commission, and that the investent company notify the Commission immediately upon cancellation or termination of such bond.

The proposed rule sets forth minimum required amounts of coverage and provides that (1) the bond may be in the form of an individual bond for each covered person or a schedule or blanket bond covering such persons, or (2) may be in the form of a blanket bond which names the registered management investment company as the only insured, or (3) in the form of a bond which names the registered management investment company and one or more other parties as insureds: *Provided,* That such other insured parties shall be limited to (i) persons engaged in the management or distribution of the shares of the registered management investment company, (ii) other registered investment companies which are managed and/or whose shares are distributed by the same persons (or affiliates of such persons), or (iii) persons who are engaged in the management and/or distribution of shares of companies included in (ii) above.

Also, the proposed rule extends the period for notification by an insurer to the registered management investment company and the Commission from 30 days to 60 days prior to the effective date of cancellation or termination of the bond. It further requires that a majority of the board of directors of the registered management investment company who are not "interested persons" shall determine as often as their fiduciary duties require, but at least once every 12 months, the minimum amount of coverage under the bond and the portion of the premium to be paid by the registered management investment company under a joint insured bond, under which the coverage shall be at least equal to an amount computed in accordance with the schedule in the proposed rule, plus the amount of coverage, if any, which may be required of other insureds under the bond.

Each party named as an insured under the proposed rule would be required to enter into an agreement with all of the other named insureds providing that in the event of recovery under the bond as the result of loss sustained by one or more insureds, the registered management investment company would receive a portion of the recovery at least equal to the amount which it would have received had it maintained a single insured bond. Also, each of the other insureds is required to notify the registered management investment company within 10 days of the filing and of the settlement of any claim under the bond by such insureds. The amended rule would provide, as does the existing rule, that registered management investment companies comply with certain filing requirements with respect to the bond, and with respect to claims and settlements thereunder by such registered management investment companies.

Registered management investment companies and other insured parties would be required to conform their bonds to the requirements of the rule within 3 months from its effective date.

The text of Rule 17g–1 as it is proposed to be amended is as follows:

Commission action. The Commission proposes to amend Part 270 of Chapter II of Title 17 of the Code of Federal Regulations by revising § 270.17g–1. As so revised §270.17g–1 would read as follows:

§ 270.17g–1 Bonding of officers and employees of registered management investment companies.

(a) Each registered management investment company shall be named as an insured under a bond which shall be issued by a reputable fidelity insurance company, authorized to do business in the place where the bond is issued, against larceny and embezzlement, covering, among other persons, each officer and employee of the investment company, who may singly, or jointly with others, have access to securities or funds of the investment company, either directly or through authority to draw upon such funds or to direct generally the disposition of such securities (hereinafter referred to as "covered persons").

(b) The bond may be in the form of:

(1) An individual bond for each covered person or a schedule or blanket bond covering such persons,

(2) A blanket bond which names the registered management investment company as the only insured (hereinafter referred to as a "single insured bond") or,

(3) A blanket bond which names the registered management investment company and one or more other parties as insureds (hereinafter referred to as a "joint insured bond"), such other insured parties being limited to (i) persons engaged in the management or distribution of the shares of the registered management investment company, (ii) other registered investment companies which are managed and/or whose shares are distributed by the same persons (or affiliates of such persons) and (iii) persons who are engaged in the management and/or distribution of shares of companies included in subdivision (ii) of this subparagraph.

(c) The bond shall provide that it shall not be canceled or terminated except after written notice shall have been given by the acting party to the affected party and to the Commission not less than 60 days prior to the effective date of cancellation or termination.

(d) An insured bond shall be in such reasonable amount as a majority of the board of directors of the registered management investment company who are not "interested persons" of such investment company as defined by section 2(a)(19) of the Act shall determine as often as their fiduciary duties require, but not less than once every 12 months, with due consideration, among other factors, to the value of the aggregate assets of the registered management investment company to which any covered person may have access, the type and terms of the arrangements made for the custody and safekeeping of such assets, and the nature of securities in the company's portfolio: *Provided, however,*

(1) The amount of a single insured bond shall be at least equal to an amount computed in accordance with the following schedule:

V 37-79 APR 22 72 XUM

Amount of Registered Management Investment Company Gross Assets—at the end of the most recent fiscal quarter prior to date of determination (In dollars)	*Minimum amount of bond (In dollars)*
Up to 500,000	50,000.
500,000–1,000,000	75,000.
1,000,000–2,500,000	100,000.
2,500,000–5,000,000	125,000.
5,000,000–7,500,000	150,000.
7,500,000–10,000,000	175,000.
10,000,000–15,000,000	200,000.
15,000,000–20,000,000	225,000.
20,000,000–25,000,000	250,000.
25,000,000–35,000,000	300,000.
35,000,000–50,000,000	350,000.
50,000,000–75,000,000	400,000.
75,000,000–100,000,000	450,000.
100,000,000–150,000,000	525,000.
150,000,000–250,000,000	600,000.
250,000,000–500,000,000	750,000.
500,000,000–750,000,000	900,000.
750,000,000–1,000,000,000	1,000,000.
1,000,000,000–1,500,000,000	1,250,000.
1,500,000,000–2,000,000,000	1,500,000.
Over 2,000,000,000	1,500,000 plus 200,000 for each 500,000,000 of net assets up to a maximum bond of 2,500,000.

(2) A joint insured bond shall be in an amount at least equal to the sum of (i) the amount of coverage which would have been provided and maintained as required by the schedule hereinabove had the registered management investment company not been named as an insured under a joint insured bond, plus (ii) the amount of each bond which each named insured other than a registered management investment company would have been required to provide and maintain pursuant to Federal statutes or regulations had it not been named as an insured under a joint insured bond. No premium may be paid for any joint insured bond and each amendment thereto, unless (*a*) a majority of the board of directors of each registered management investment company named as an insured therein who are not "interested persons" of such company shall approve the portion of the premium to be paid by such company, taking into consideration the number of the other parties named as insureds, the nature of the business activities of such other parties, the amount of the joint insured bond, the amount of the premium for such bond, and other relevant factors, and (*b*) each registered management investment company named as an insured therein shall enter into an agreement with all of the other named insureds providing that (*1*) in the event recovery is received under the bond as a result of a loss sustained by the registered management investment company and one or more other named insureds, the registered management investment company shall receive a portion of the recovery at least equal to the amount which it would have received had it provided and maintained a single insured bond; and (2) each of the other named insureds shall notify the registered management investment company within 10 days of the filing and the settlement, of any claim under the bond by such other named insured.

(e) Each registered management investment company shall:

(1) File with the Commission within 10 days after the execution of the bond or any amendment thereof (i) a copy of each resolution of the board of directors of the investment company determining the amount, type, form, and coverage of each single insured bond, or a copy of each resolution of the board of directors of the investment company approving the amount, type, form, and coverage of each joint insured bond and determining the amount of each single insured bond which the investment company would have provided and maintained had it not been named as an insured under a joint insured bond, and a copy of each resolution of the board of directors of the investment company for each joint insured bond, (ii) a statement as to the period for which the premiums for each bond have been paid, (iii) a copy of each such bond and each amendment thereto, and (iv) a copy of each agreement and each amendment thereto between the investment company and all of the other named insureds under each joint insured bond entered into pursuant to paragraph (d) of this § 270.17g–1,

(2) File with the Commission, in writing, within 5 days after the making of any claim under the bond, a statement of the nature and amount thereof,

(3) File with the Commission, within 5 days of the receipt thereof, a copy of the terms of the settlement of any claim made under the bond by the investment company, and

(4) Notify by registered mail each member of the board of directors of the investment company at his last known residence address of (i) any cancellation, termination, or modification of the bond, not less than 45 days prior to the effective date of cancellation or termination or modification, (ii) the filing and of the settlement of any claim under the bond by the investment company, at the time the filings required by subparagraphs (2) and (3) of this paragraph (e) are made with the Commission, and (iii) the filing and of the settlement of any claim under the bond by any other named insured, within 5 days of the receipt of a notice from such other named insured.

(f) Each registered management investment company shall designate an officer thereof who shall make the filings and give the notices required by paragraph (e) of this § 270.17g–1.

(g) Where the registered management investment company is an unincorporated company managed by a depositor, trustee or investment adviser, the terms "officer" and "employee" shall include, for the purposes of this § 270.17g–1, the officers and employees of the depositor, trustee, or investment adviser.

(h) Not later than 3 months from the effective date of this § 270.17g–1, arrangements between registered management investment companies and fidelity insurance companies and arrangements between registered management investment companies and other parties named as insureds under joint insured bonds which would not permit compliance with the provisions of this § 270.17g–1 shall be modified by the parties so as to effect such compliance.

All interested persons are invited to file, in triplicate, their views and comments with respect to the proposed amended rule. Such communications should be submitted to the Securities and Exchange Commission, Washington, D.C. 20549 on or before May 17, 1972, and should refer to File No. S7–435. Such communications will be available for public inspection.

(Secs. 17(g), 38(a), 54 Stat. 815, 841; 15 U.S.C. 80a–17(g), 80a–37(a))

By the Commission.

CUSTOMHOUSE BROKER'S LICENSES

Cancellation With Prejudice

APRIL 17, 1972.

Notice is hereby given that the Acting Commissioner of Customs on April 17, 1972, pursuant to section 641, Tariff Act of 1930, as amended, and § 111.51(b), Customs Regulations, as amended, upon the specific request of George Carlo canceled with prejudice customhouse broker's licenses No. 2943 issued to him on April 4, 1956, for Customs Collection District No. 10 (now the Customs Region II, N.Y.), No. 3510 issued to him on June 3, 1963, for Customs Collection District No. 18 (now the Customs District of Miami), and No. 3852 issued to him on October 20, 1966, for the Customs District of Tampa. The Commissioner's decision is effective as of April 17, 1972.

TEMPORARY IMPORTATION UNDER BOND

Sale of Articles to Domestic International Sales Corporation (DISC)

APRIL 18, 1972.

There is set forth below the abstract of a ruling dated March 24, 1972. This ruling clarifies the status of a temporary importation bond covering articles which are subsequently sold to a DISC.

[SEAL] LEONARD LEHMAN, *Assistant Commissioner, Office of Regulations and Rulings.*

Sale of articles imported under a temporary importation bond to a Domestic International Sales Corp. (DISC). The sale of articles imported under a temporary importation bond to a DISC subsequent to importation would not violate the conditions of the bond taken under the authority of headnote 1, subpart 5C, schedule 8, Tariff Schedules of the United States. The actual articles imported must in fact be exported in accordance with the temporary importation law. Department memorandum dated March 24, 1972. (516)

[Cost of Living Council Ruling 1972—45]

DEFINITION OF "SUCH UNITS"

Cost of Living Council Ruling

Facts. Landlord X owns eight one-family dwelling units of which three are under a long-term lease on January 19, 1972, and five are occupied by month-to-month tenants.

Issue. Are the three units which were under a long-term lease on January 19, 1972, considered exempt from the controls by Economic Stabilization Regulation, 6 CFR 101.33(a)(2)(iv), 37 F.R. 2678 (February 4, 1972)?

Ruling. No. Regulation § 101.33(a)(2)(iv) exempts, single-family dwelling units and rental units in owner-occupied multifamily dwellings which were rented for a term of longer than month to month on January 19, 1972, only when, "the owner and members of his family do not own or have an interest, directly or indirectly in more than an aggregate of four such units." "Such units" means the aggregate of single-family dwelling units and rental units in an owner-occupied multifamily dwelling without regard to the rental terms in effect on January 19, 1972. As a result, none of the eight units would be considered exempt.

This ruling has been approved by the General Counsel of the Cost of Living Council.

Dated: April 14, 1972.

LEE H. HENKEL, Jr., *Acting Chief Counsel, Internal Revenue Service.*

Approved: April 14, 1972.

[Pay Board Ruling 1972–26]

NEW ORGANIZATION

Pay Board Ruling

Facts. An inactive, but legally existing, corporate "shell" is being revived by investors. It is anticipated that the employees will participate in the employee compensation benefits which existed before the corporation became inactive.

Issue. Would the revived Corporation constitute a "new organization" under the Economic Stabilization Regulations, so as to be required to file a report with the Pay Board with respect to the establishment of variable and executive compensation plans?

Ruling. Yes. Economic Stabilization Regulations, 6 CFR 201.79(a), 37 F.R. 3357 (February 15, 1972), provides that "Any business • • • organized or established on or after November 14, 1971," must report all executive and variable compensation plans to the Pay Board within the later of 90 days after their establishment or 90 days after February 15, 1972.

Although the corporation had existed at an earlier time, the intervening period of inactivity would make the revival of the corporation analogous to the organization or establishment of a new corporation. All that would remain of the old entity would be the original paperwork through which it was created. The act of raising new capital, making business commitments, and staffing the corporation would be identical to the procedures followed in the organizing of an entirely new business. Therefore, the revived corporation would come within the thrust of Regulations § 201.79(a) and would be required to report all employee compensation benefits to the Pay Board for review.

This ruling has been approved by the General Counsel of the Pay Board.

Dated: April 17, 1972.

LEE H. HENKEL, Jr., *Acting Chief Counsel, Internal Revenue Service.*

[Pay Board Ruling 1972—27]

PAY PRACTICE PREVIOUSLY SET FORTH

Pay Board Ruling

Facts. On November 13, 1971, a company announced that it would grant a prospective pay increase to employees, but did not specify how much or when the increase might be granted.

Issue. Whether the mere announcement on November 13, 1971, of a pay increase to be granted after that date constitutes a "pay practice previously set forth" within the meaning of Economic Stabilization Regulations, 6 CFR 201.14, 36 F.R. 21791 (November 13, 1971)?

Ruling. The mere announcement on November 13, 1971, of a prospective pay increase does not constitute a "pay practice previously set forth" within the meaning of Economic Stabilization Regulations, 6 CFR 201.14, 36 F.R. 21791 (November 13, 1971). The announcement specified neither the amount of the increase, a method or formula for determining such amount, whether the increase would be applicable to certain or all employees of the company, nor any date or dates such an increase would be put into effect after November 13, 1971.

[Pay Board Ruling 1972-28]

BASE SALARY COMPUTATION

Pay Board Ruling

Facts. A is the president of M Corporation. A's compensation is $200,000 per year payable as follows: salary in the amount of $100,000 and a number of shares of stock of M Corporation having a fair market value of $100,000.

Issue. Does the stock award in the amount of $100,000 constitute base salary within the meaning of Economic Stabilization Regulations, 6 CFR 201.72(c), 37 F.R. 3357 (February 15, 1972)?

Ruling. No. Economic Stabilization Regulations, 6 CFR 201.72(c), 37 F.R. 3357 (February 15, 1972) require that an item of base salary be paid in cash. Accordingly, the item paid in stock of M Corporation is an incentive bonus described in Economic Stabilization Regulations, 6 CFR 201.72(e), 37 F.R. 3357 (February 15, 1972).

This ruling has been approved by the General Counsel of the Pay Board.

[Pay Board Ruling 1972-29]

PARTY AT INTEREST FOR PURPOSES OF A PAY CHALLENGE

Pay Board Ruling

Facts. The X County Board of Supervisors is a governing body with authority under State law to determine salaries of county judges. Pursuant to a resolution adopted by the Board of Supervisors, the salaries of county judges were increased on January 2, 1972, by amounts in excess of the 5.5 percent wage guideline. Three of the board members, constituting a minority of the board, voted against the salary increase and desire to initiate a pay challenge with the Internal Revenue Service in accordance with Regulation 6 CFR 401.401, 37 F.R. 1016 (January 21, 1972).

Issue. Whether a minority of the board is a "party at interest" for purposes of initiating a pay challenge.

Ruling. No. A minority of the board would not be an employer who could be required to pay the wages and salaries in question and would not be a "party at interest" as that term is defined in Regulation 6 CFR 201.3, 36 F.R. 21790 (November 13, 1971). Accordingly, the minority would not be authorized to initiate a pay challenge. However, it could submit a complaint to the appropriate district office of the Internal Revenue Service pursuant to Regulation 6 CFR 401.501, 37 F.R. 1010 (January 21, 1972).

This ruling has been approved by the General Counsel of the Pay Board.

[Pay Board Ruling 1972-30]

CONSTRUCTION WORKERS

Pay Board Ruling

Facts. As employees, the members of local union A perform "in shop" maintenance on construction equipment. That is, all repair and servicing of equipment is done in a special repair shop; the only time field repair service is performed is when the field mechanic cannot make the necessary repair because of a manufacturer's warranty. Most of the shops with whom the union has contracts are manufacturer distributors under dealerships for various types of construction products and are not in direct construction or building work.

The employment contracts for shop mechanics are negotiated separately from the construction mechanic's contracts. The rates of pay for shop mechanics are substantially lower than those for members of the union working in the construction field. In addition, because of their year-round employment, as opposed to the seasonal construction employee, their fringe benefits are entirely different.

Issue. Are these employees to be considered as being "construction" workers, so that a wage agreement affecting them would require the prior approval of the Construction Industry Stabilization Committee before taking effect?

Ruling. 29 CFR 9.2(e), 36 F.R. 19577 (October 8, 1971), issued pursuant to authority granted by Executive Order No. 11588, made by the President on March 29, 1971, to implement the power delegated to him by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799), as amended, provides that:

(e) "Construction" means (1) all work relating to the erecting, constructing, altering, remodeling, painting, or decorating of installations such as buildings, bridges, highways * * * but shall not include maintenance work performed by workers employed on a permanent basis in a particular plant or facility for the purpose of keeping such plant or facility in efficient operating condition.

Moreover, 29 CFR 9.2(p), 36 F.R. 19577 (October 8, 1971), defines "construction industry" as including:

Every person, firm, company, or entity * * * and every employee employed by such person, firm, company, or entity for the performance of work relating to a project of construction. Also excluded from the construction industry are * * * suppliers of * * * services or supplies to members of the industry generally, except those operation's * * * or services which are performed in connection with specific projects of consrtuction in such a manner as to make them a part thereof.

Clearly, maintenance work, performed under the above limitations, would not be within these definitions of "construction" or "construction industry." In fact, it would be closely related to the type of work specifically excepted from the definition. These workers perform maintenance on a permanent basis, within a delineated shop area, in order to keep the equipment in efficient operating condition.

Moreover, the compensation system for these workers is totally divorced from that of the construction workers, although they may be a part of the same union. The salary range is lower and the fringe benefits differ: Even the term of employment is different. The only connection with the construction industry which these workers retain is in the fact that they repair construction equipment. However, they do this work in the employ of equipment distributors, not the construction companies.

Therefore, there can be no doubt but that these workers, under the specific conditions set forth herein, are not considered to be "construction" workers, and their employment contracts would not require prior approval by the CISC before taking effect.

This ruling has been approved by the General Counsel of the Pay Board.

[Price Commission Ruling 1972—134]

RENT CHARGEABLE UNDER FORMULA DETERMINED RENTAL

Price Commission Ruling

Facts. Lessor L and lessee A executed a lease on June 1, 1971, with a 2-year term calling for a rent of $400 per month. The lease also provided that L could make an adjustment in June of each year for property taxes and maintenance costs incurred during the prior 12 months which were allocable to the residence. Assume that in June, 1972, L computes these costs and determines that A should pay $31 per month for the prior 12-month period in addition to the $400 monthly rent already charged.

Issue. What are the limitations on the amount of additional rent which L may charge A?

Ruling. The lease in this case is a formula determined rental. A formula determined rental exists where the periodic rental payments under the lease are variable and depend upon the passage of time, costs of the lessor or other external factors such as the Cost of Living Index. It makes no difference whether a formula increase is levied at the same time costs are incurred or retroactively after the costs are incurred. However, where the increase in monthly rent resulting from a cost incurred formula is retroactive to the beginning of a prior period, the costs are considered to have been incurred equally each month during that period. The rent which can be charged under the lease in this case is determined by the regulations in effect at the various times since June 1, 1971.

June 1, 1971 through August 14, 1971. There were no regulations in effect during this period. The monthly rent which can be charged is the full amount called for in the lease. That amount is $400 plus $31 or $431 per month.

August 15, 1971 through November 13, 1971. During this period, formula rental leases entered into before August 15, 1971, could operate according to the terms agreed upon by the parties except that increases in rent for the following reasons were not allowed. Cost of Living Council Economic Stabilization Circular No. 21 (October 18, 1971):

(1) Rent increases contingent upon the passage of time.

(2) Increases keyed to the consumer price index.

(3) Increases based on taxes, except surcharges or sales or excise taxes as specified in section 402(1) of Circular No. 19, which increased during the freeze period.

(4) Increases due to the import surcharges and other permitted increases in costs of imported goods.

NOTE: The landlord may pass on, under such a lease agreement, taxes which were increased and legally effective prior to August 15 (even if exact tax liability for the property is not computed until after August 15, 1971).

The monthly rent which can be charged by L during this period is thus $431 per month less any amount of the $31 formula increase which resulted from any increase in property taxes which became legally effective during the period. For example, assume that taxes on the residence were increased from $120 per year prior to September 1, 1971, to $240 per year legally effective on that date. L's total tax on the residence from June 1, 1971, to June 1, 1972, is thus $210. Prorating this tax over that 12-month period results in $17.50 of the $31 per month additional charge being attributable to taxes. If taxes had not been increased, the tax portion of the additional charge would have been $10 per month. Therefore, $7.50 of the $31 additional rent per month may not be charged during the freeze.

November 14, 1971 through December 28, 1971. During this period, formula rental leases entered into before August 15, 1971, could operate according to the terms agreed upon by the parties except increases in the "period rental price," i.e., monthly rent, for the following reasons were not allowed, Economic Stabilization Regulations, 6 CFR 300.111, 36 F.R. 23874 (December 16, 1971).

(1) Passage of time.

(2) Increases keyed to the consumer price index.

The monthly rent which can be charged during the postfreeze period prior to December 29, 1971, is $431. The formula increase in this case did not depend either on the passage of time or on an increase in the consumer price index.

After December 28, 1971. During the period after December 28, 1971, formula rental leases may operate according to the terms agreed upon by the parties. However, the total dollar amount of the monthly rent determined pursuant to that formula may not exceed the amount which would otherwise be allowable under Subpart B (rent adjustments) of the rent regulations in Part 301, Economic Stabilization Regulations, 6 CFR 301.104, 36 F.R. 25386 (December 30, 1971).

The recomputation of any monthly rent under a formula rental lease is considered a transaction for the purposes of limiting any increase to an amount not greater than the rent adjustments found in Subpart B. Aside from a capital improvement rent increase, the rent adjustments in Subpart B are 2½ percent of the base rent and any increase in allowable costs. Economic Stabilization Regulations, 6 CFR 301.102, 37 F.R. 6565 (March 31, 1972). The base rent of this residence is $400 because the lease was entered into between May 16, 1971 and August 14, 1971. Economic Stabilization Regulations, 6 CFR 301.202(b), 36 F.R. 25386 (December 30, 1971).

Therefore, the maximum rent which can be charged after December 28, 1971, is the rent determined under the formula $431, or the following, whichever is less:

(1) $400 times 2½ percent or $410 plus

(2) That portion of the $31 per month that is attributable to any increase in property taxes occurring after August 15, 1971.

The "increase" in property taxes is not the absolute level of property taxes in effect on June 1, 1972. The increase is the difference between the allowable costs in effect during the 12 months before the first payable date for an increase after August 15, 1972, and the costs which will be charged during the 12 months after that payable date. This increase is divided by 12 to determine the amount allocable to the allowable monthly rent of $410. Section 301.102 (a)(2) of the regulations and Price Commission Ruling 1972-75, 37 F.R. 4099 (February 26, 1972).

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 17, 1972.

[Price Commission Ruling 1972—135]

RENT 10 PERCENT RULE

Price Commission Ruling

Facts. A landlord of a 100-unit apartment building requires a 1-year lease from tenants. All units in the building are substantially identical and prior to July 16, 1971, all were rented for $2,400 per year, payable $200 per month. Five leases expired between July 16 and August 14, 1971, were for the same amount, and all were renewed prior to August 14, 1971, with a 10 percent increase in rent to $2,640 per year. No other rental transactions occurred during this period.

Issue. Could the landlord, after November 13, 1971, increase the rent for leases expiring after this date to $2,640 per year?

Ruling. Yes. The landlord may renew leases expiring after November 13, 1971, at $2,640 per year. The base price for a lease of an interest in real property is the highest price charged by the lessor with respect to the same or substantially identical rental units in a substantial number of transactions during the freeze base period. The highest price in a substantial number of transactions during the freeze base period is the highest price at or above which 10 percent of the units were priced in transactions with a specific class of purchase during the freeze base period. Economic Stabilization Regulations, 6 CFR 300.407, 36 F.R. 23974 (December 16, 1971). All leases that expired during the freeze base period (beginning July 16 and ending August 14, 1971), were renewed at a yearly rental of $2,640, which is the base price for the new leases executed after November 13, 1971, because $2,640 is the highest price at or above which 10 percent of the units involved in transactions during the freeze base period were priced. This ruling is not applicable to transactions occuring after December 28, 1971, or requests for information concerning those transactions. New regulations have been issued covering transactions after December 28, 1971. See Economic Stabilization Regulations, 6 CFR 301.1 et seq., 36 F.R. 25384 (December 30, 1971).

This ruling supersedes Price Commission Ruling 1972-71, 37 F.R. 3997 (February 25, 1972).

[Price Commission Ruling 1972—136]

PRICE—LONG TERM CONTRACTS

Price Commission Ruling

Facts. A wholesaler W, sells a food product X. W entered into a contract with a school district S, on August 1, 1971, for the sale of X to S during the 1971–1972 school year (September 1, 1971–May 31, 1972). The price specified in the contract was $20 per unit of X. W also tered into additional contracts on August 1, 1971, which specified different per unit prices with other school districts. The price at which W had previously sold X was $15. Any price per unit which exceeds $19 will result in an increase in W's profit margin over that which prevailed during the base period.

Situation. (A) Assume that the $20 per unit price meets the substantial transaction test. (B) Assume that the $20 per unit price in the contract with S does not meet the substantial transactions test. Rather, contracts which specify a per unit price of $18 meet the substantial transaction test (i.e. less than 10 percent of W's contracts with school districts specified a per unit price in excess of $18).

Issue. (A) Whether in situation A, W may charge S the price specified in the contract with S after November 13, 1971?

(B) Whether in situation B, W may charge S the price specified in the contract with S after November 13, 1971?

Ruling. (A) Yes. The base price for X in this situation is $20 per unit. 6 CFR 300.405(a), 36 F.R. 23974 (December 16, 1971), amended 37 F.R. 3913 (February 24, 1972). Section 300.11 prohibits a person from charging a price with respect to any sale of an item of property after November 13, 1971, which exceeds the base price of that item unless another price is authorized in Subpart A. 6 CFR 300.11, 36 F.R. 23974 (December 16, 1971) amended 37 F.R. 3828 (February 23, 1972). Since the price specified in the contract does not exceed the base price of X, W may charge $20 after November 13, 1971. In this case, the provisions of § 300.101 do not apply. 6 CFR 300.101, 36 F.R. 23974 (December 16, 1971).

(B) No. The base price for X in this situation is $18 per unit. 6 CFR 300.405 (a), 36 F.R. 23974 (December 16, 1971), amended 37 F.R. 3913 (February 24, 1972). Under the provisions of § 300.11, W is prohibited from charging a price for X in excess of the base price unless another price is authorized under Subpart A. Section 300.101 provides as follows:

> The price specified in any contract for the sale of property • • • entered into before August 15, 1971, with respect to any delivery or performance occurring after November 13, 1971, shall be allowable if that contract price does not exceed that amount which would result in an increase in the person's profit margin over that prevailing during the base period. 6 CFR 300.101, 36 F.R. 23974 (December 16, 1971).

In other words, W can charge the price for X specified in this contract with S after November 13, 1971, but only to the extent that the contract price will not result in an increase in his profit margin. Price Commission Ruling 1972–86, 34 F.R. 4371 (March 2, 1972). Thus in situation B, W may charge $19 per unit of X after November 13, 1971.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–137]

PROFIT MARGIN—LOW-PROFIT FIRMS

Price Commission Ruling

Facts. X is a firm which has a base period profit margin (calculated in accordance with 6 CFR 300.5, 37 F.R. 3913 (February 24, 1972) of 4 percent. During its most recently ended fiscal year, however, its profit margin was 1.2 percent. X wishes to raise its prices under the "low-profit firms" regulation (6 CFR 300.31, 37 F.R. 5044 (March 9, 1972)) and there is no question that it qualifies under this provision. X has a "capital turnover ratio" of 3.9 and is therefore entitled to raise its prices as much as 8 percent over a price otherwise authorized under part 300 to bring its profit margin up to 2.6 percent by the end of the third fiscal quarter following the fiscal quarter in which prices are increased. X believes that its current low-profit situation is temporary and that even with no price adjustments its profit picture will eventually return to normal.

Issue. If X raises its prices in accordance with 6 CFR 300.31 it is "locked-in" to the 1.2 percent profit margin for the duration of the Stabilization program or may it use its "normal" 4 percent profit margin as a limitation on additional price increases at such time as it no longer qualifies as a low-profit firm?

Ruling. X is never "locked-in" to the profit margin calculated under 6 CFR 300.31. This section is a relief provision and is intended to liberalize the regulations as to qualifying firms. Section 300.31 allows firms which are "low-profit firms" to raise prices to a limited extent without cost justification to achieve a prescribed profit margin.

If X increases its prices under § 300.31 it may retain that increase as long as the "relief" profit margin is not exceeded. In X's case this would be 2.6 percent.

If the price increase made pursuant to the relief provision results in a profit margin in excess of 2.6 percent, X would no longer qualify as a low-profit firm and would thus become subject to the general rules regarding prices. X must therefore be prepared to cost justify the price increase made pursuant to § 300.31 to the extent that it results in a profit margin in excess of 2.6 percent. If it cannot, its prices must be reduced to maintain the 2.6 percent profit margin allowed under § 300.31. Again, according to the general rule, the amount of the price increase that could be justified would be limited by X's profit margin computed under the general rule of 6 CFR 300.5 ("Base Period") or 4 percent.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–138]

REPRICING MANUFACTURERS' INVENTORIES

Price Commission Ruling

Facts. Manufacturer M requested approval from the Price Commission of price increases on certain products. The Price Commission approved the increases. On the effective date of Commission approval, M has in its inventory a supply of the items upon which the price increase has been approved.

Issue. May manufacturer M apply the approved price increase to the items in its inventory on the date of the approved price increase?

Ruling. No. Manufacturers are restricted to repricing only finished goods produced after the authorized effective date of the price increase. However, this effective date may be made retroactive by the Commission. For example, if M manufacturers the product on an annual new model basis, the Commission may set the effective date of the approved price increase so that items manufactured after the incurred cost increase and already shipped to sellers, but not yet available for sale and still in M's inventory, or in which M maintains a security interest, may be sold for the increased price.

To the extent applicable, this ruling amends Price Commission Ruling 1972–20, 37 F.R. 767 (January 18, 1972).

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–139]

RETAILER'S INVENTORY REPRICING

Price Commission Ruling

Facts. Retailer A has in inventory 50 items which cost him $10 per item in stock, and he receives 400 more of the same merchandise which cost him $11 per item on March 15th. A's customary initial percentage markup during the markup base period was 30 percent. He now wishes to reprice his inventory items to reflect his current landed costs.

Issue. Under the Economic Stabilization Regulations, how may a retailer reprice inventory which has been supplemented at higher cost?

Ruling. A retailer may use any pricing method to reprice inventory which does not result in a maximum selling price for any item which exceeds that price which would result from applying his customary initial percentage markup (as calculated during the markup base period) to the actual (landed) cost of merchandise. Economic Stabilization Regulations, 6 CFR 300.5, 36 F.R. 25386 (December 30, 1971); 6 CFR 300.13(a), 36 F.R. 23976 (December 16, 1971). Some acceptable methods of calculating the maximum selling price are:

(1) Delaying markup repricing. When he restocks with higher priced items the retailer, by means of a forecast based on his historical inventory depletion rate, determines the date on which his old, lower-priced inventory items will be entirely replaced by the new higher-cost items. On that forecast date the retailer reprices his entire inventory based upon the higher price of the replacement items. Example: If A predicts that his items will be sold at the rate of five per selling day, he can apply his 30 percent markup to the $11 replacement cost 10 selling days after receiving the higher priced goods, which in the illustration given would be on March 27 (assuming A sells on all days of the week except Sunday).

(2) Item-by-item pricing based on actual (landed) cost of each item. Example: A tags each item with its price, applying the 30 percent markup to each actual cost, and instructs his clerks to place the lower priced items on the shelves first.

(3) Averaging of new and old inventory costs so that the resulting maximum single selling price for the entire inventory reflects a weighting of lower cost stock on hand and new higher cost stock to which the retailer's customary initial percentage markup is applied. This price is applied at least until the entire inventory is sold. Example: On March 16th A reprices the item to $14.15 and sells at that price for at least 90 selling days beginning March 16th. $14.15 is computed as follows: 50 times $13, the selling price of the old items, plus 400 times $14.30, the price at which the new items could be sold if they were not mixed with the old, equals $6,370. $6,370 divided by 450 equals $14.15. In other words, A adds his customary initial percentage markup (30 percent) to the total cost ($500+$4,400 =$4,900) of the old items and the items received March 15th.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972—140]

ALLOWABLE COSTS—MUNICIPAL WATER CHARGES

Price Commission Ruling

Facts. Landlord L leases five single family residences. He charges $175 per month for each of these residences and pays for water provided by the city to each. Each residence is equipped with a water meter. L has noticed that tenant A's consumption of water has increased for the month of March to 2,000 gallons from an average of 1,000 gallons for the previous 12 months as a result of recently commenced diaper washing. The city increased the rate of water from 50 cents to 75 cents per thousand gallons on April 1, 1972. Water bills are payable when the meters are read on May 1, 1972.

Issue. How much may Landlord L increase tenant A's rent?

Ruling. L may increase A's rent 50 cents per month to reflect the increase in the per unit cost of water charged by the city on A's consumption of water for the 12 months after the increase is payable. However, L could not increase A's rent to recover the increase in allowable costs solely due to A's increased consumption of water. To determine the amount of the increase, L may reasonably estimate A's consumption during the 12 months after the increase is payable. If A's consumption decreases or the city reduces the per unit cost of water, the decrease in allowable cost for either of these reasons must be reflected in a reduced monthly rent.

Economic Stabilization Regulations, 6 CFR 301.102(a)(2), 36 F.R. 25386 (December 30, 1971), permits a rent to be charged which exceeds the base rent to reflect, "The amount of any increase in allowable costs occurring after December 28, 1971, allocable to the residence • • •"

A municipal charge for water is an allowable cost under § 301.102(b)(1)(ii) of the regulations. In the context of a product or service provided by a municipality or State the "increase" referred to in § 301.102(a)(2) is the increase in per unit cost. In this case, the increase is a jump from 50 cents per 1,000 gallons to 75 cents per 1,000 gallons or 25 cents.

Section 301.102(b)(2) provides a rule for determining the allocable increase in allowable costs. The increase is the difference between the "Allowable costs related to the residence • • • which were charged," during the 12-month period before the first installment of the increase is payable and the, "allowable costs related to the same residence • • • which will be charged," during the 12 month period after and including the increase. This increase is allocated to the monthly rent of the residence. See Price Commission Ruling 1972–75, 37 F.R. 4099 (February 26, 1972).

The total increase which "will be charged" necessarily requires both a prediction of the continuation of the increased per unit cost and A's water consumption during the 12-month period after the increase in rates. L may make a reasonable estimate of A's consumption based upon past consumption patterns and also assume that the increased cost per 1,000 gallons will hold during the 12 months after the increase. However, if the increase in allowable costs which is in fact charged is less than the estimate, either due to a reduction in rates or consumption less than predicted consumption, L must reduce the monthly rent to reflect the actual increase which he must pay. In other words, as the increase which "will be charged" becomes known and is at variance with the prediction, the actual increase must be substituted for that prediction.

If A's consumption of water is reasonably estimated by L to be 2,000 gallons per month after May 1, 1972, and the new higher rate is predicted to hold, then the yearly increased rent due to the increase in allowable costs will be 25 cents per 1,000 gallons×12 months×2,000 gallons per month or $6 per year. This results in a 50 cent per month permitted rent increase.

This ruling has been approved by the General Counsel of the Price Commission.

V 37 79 APR 22 72 XUM

[Price Commission Ruling 1972–141]

VENDING MACHINES AS RETAILERS

Price Commission Ruling

Facts. Vending Company is in the business of selling food, cigarettes and general merchandise through its vending machines. Some of the machines sell individually brewed coffee; others sell food which is heated by the machines. Vending purchases the instant coffee, individually wrapped and prepared for insertion into the machine, directly from a wholesaler. Vending also purchases some of the food products from the wholesaler, but prepares the sandwiches on its own premises.

Vending Company also owns a fleet of lunch trucks which visit individual places of employment. The driver of the truck sells the same products that are available in the machines, except that coffee, freshly brewed on Vending's premises and doughnuts purchased from a local bakery are available.

Issue. Is Vending Company a retailer under Economic Stabilization Regulations, 6 CFR 300.13, 37 F.R. 2843 (February 8, 1972) or a service organization under Economic Stabilization Regulations 6 CFR 300.14, 37 F.R. 775 (January 19, 1972)?

Ruling. Vending Company is a retailer for most of its sales and a service organization for its self-prepared items. Economic Stabilization Regulation 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971) defines "retailer" as

> A person who carries on the trade or business of purchasing property and, without substantially changing the form of that property, reselling it to ultimate consumers • • •

Packaged food, cigarettes, and general merchandise sold through a vending machine experience no change in form whatsoever. Food products heated by the machine are slightly changed in form. Similarly soft drinks mixed by the machine and instant coffee mixed and brewed by the machine undergo a change in form, but the change is not "substantial" within the meaning of the definition. The sale of the same products and doughnuts on the lunch truck by the driver is a similar activity. All of the above are considered retail sales.

The remaining functions are those of a service organization. The sales of all of the food products and coffee actually prepared by Vending are considered to be a service activity, since Vending substantially changes the form of the products before reselling them.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972—142]

CONTRACT PRENOTIFICATION

Price Commission Ruling

Facts. Manufacturer X is a category I or prenotification firm under 6 CFR 101.11, 37 F.R. 1237 (January 27, 1972). X is under a 10-year supply contract to sell product A to buyer I. The contract contains a formula which will result in the payment of an increased price per unit on June 1, 1972, for units shipped in the prior 3 months. X is also under a 3-year nonsupply contract to provide product A to buyer II with the next delivery by May 1, 1972, and payment by June 1, 1972. This contract states that the price to be paid may be increased over the previous price if certain (allowable) costs have increased. In addition X is about to sign a 6-month contract with buyer III to supply product A at a fixed price which will be higher than has been previously paid by anyone in the same class of purchasers as buyer III. The first payment under this contract will become due on June 1, 1972, for units to be shipped during the next 3 months. Increased allowable costs justifying all of these increased prices have been incurred since the last price increase. The last price increase also established the base price.

Issue. Must the firm request Price Commission approval by its prenotification procedure under § 300.51(a) of the regulations for any of these increases?

Ruling. The firm must prenotify in each case before charging the increased price. Under the facts stated, the firm could prenotify as to all three price increase on the same PC–1 form.

A manufacturer which is a prenotification firm, "[M]ay not charge a price in excess of the base price • • • until the Price Commission has approved that price in excess of the base price • • • If the Price Commission does not act upon a request under this paragraph within 30 days after receiving it • • • (the) increased price may go into effect without Commission action." 6 CFR 300.51(a), 37 F.R. 5223 (March 11, 1972). For purposes of Part 300 of the Economic Stabilization Regulations, "Charge" means to become due and payable without regard to when a contract setting the price, if any, became binding and without regard to delivery date. Progress payments and other partial payments are not considered the "charging" of a price under the regulations, however, unless the payments are allocable to and payment in full or substantially payment in full for specific portions of the products or services being provided.

This interpretation is consistent with the requirement that prenotification firms which entered into a long term contract before August 15, 1971, must comply with § 300.51 of the regulations with regard to any price specified in such contract. 6 CFR 300.101, 36 F.R. 23974 (December 16, 1971).

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972—143]

DETERMINATION AND APPLICATION OF CUSTOMARY INITIAL PERCENTAGE MARKUP

Price Commission Ruling

Facts. During the markup base period and generally during periods of rising replacement prices wholesaler X, whenever he purchased an inventory item, would apply an upward adjustment to the purchase price of that item and reprice his entire inventory of that item at the price so determined. Additionally, to the inventory price so determined, X would add a percentage service fee to each total order from a customer based upon such variables as the nature and number of items sold, delivery times, and manner of purchase by the customer.

Wholesaler Y, whenever he purchased an inventory item, would apply a certain customary percentage markup to the purchase price of that item and reprice his entire inventory of that item at the price so determined.

X and Y wish to continue repricing existing inventory items under their respective methods.

Issue. May X and Y continue to utilize these methods under the provisions of the Economic Stabilization Regulations?

Ruling. No. The continuance of either practice is not in accord with existing provisions of the Economic Stabilization Regulations.

Section 300.13(a) states that a wholesaler may charge a price in excess of its base price whenever its customary initial percentage markup (CIPM) is equal to or less than its last CIPM before November 14, 1971, or, at its option, its CIPM during its last fiscal year ending before August 15, 1971. Economic Stabilization Regulations, 6 CFR 300.13(a), 37 F.R. 284 (January 8, 1972). CIPM means the markup applied to cost (puchase price plus transportation charges) when the item is first offered for sale. Economic Stabilization Regulations, 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971).

Under the Regulations, therefore, a wholesaler's permitted selling price is determined in relation to cost. Cost is determined by utilization of LIFO, FIFO, a weighted average, or any other generally accepted inventory cost accounting method. The CIPM is the amount (expressed as a percent of cost) which is applied to cost when the item is first offered for sale, which presumably occurs when the item or category of items is priced and made available for sale through the wholesaler's customary sales channels.

Neither practice for repricing inventory, however, constitutes an acceptable method for determining or applying the CIPM. Under the regulations, once cost is determined through the inventory cost accounting method utilized by the wholesaler, the sales price becomes fixed and determinate when the item or category of items is offered for sale. Within a stock of inventory the cost of individual items may vary under the particular inventory cost accounting method utilized, however no provision in the regulations allows such periodic upward price adjustments to inventory items which have been previously offered for sale. To allow either X or Y to continue to use his repricing practice would mean that CIPM is indeterminate until the moment of actual sale. It would also lead to the illogical consequence that whenever a wholesaler wishes to increase his prices he merely needs to find the highest price for an inventory item and purchase it at that price. Such a result is wholly inconsistent with existing provisions of the regulations.

Similarly, X's customary percentage add-on fee is an element of his CIPM and is to be determined and applied only when the item or category of items is first offered for sale. In this case a correct interpretation of the regulations requires application of the CIPM, based upon a "customary price differential," to cost when the item or category of items is first offered for sale. "Customary price differential" is defined in § 300.5 as including a price distinction based upon a discount, allowance, add-on, premium, and an extra based on a difference in volume, grade, quality, or location or type of purchaser, or a term or condition of sale or delivery. Economic Stabilization Regulations, 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971).

Thus, if a practice of price distinction based upon such variables is customarily followed, CIPM consists of a range of separate markups where varying conditions of sale are individually provided for. The range is determined and applied when the item or category of items is first offered for sale. Separate markups within the range of markups serve only to reflect these variables and, once established, do not change. Conditions subsequent to the moment an item or category of items is first offered for sale merely determine the price differential by establishing the appropriate markup which will be utilized.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 18, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 18, 1972.

[Pay Board Ruling 1972—25; Price Commission Ruling 1972—133]

DIRECTORS' FEES

Pay Board Ruling and Price Commission Ruling

Facts. A is a director of XYZ Corporation. As a director, he is paid a specified amount for each board of directors meeting he attends. A is also president of XYZ Corporation, and receives a salary for his services as president, under the terms of an employment contract with the corporation.

Issue. Are the amounts paid to A "wages" or "prices" within the Economic Stabilization Regulations?

Ruling. Amounts paid to A as a director are fees for a "service" within the Economic Stabilization Regulations; amounts paid to A as an officer of the corporation are "wages" within the Regulations.

A director, as such, is not an employee of his corporation. No person can order a director to act or vote in a particular way. Even though stockholders are entitled to remove a director from his position, they may not dictate his actions so long as he remains in that office. 19 C.J.S. Corporations secs. 742–743.

Because a director's activities are not generally subject to the control of a superior within the corporation, he cannot therefore be classified as an "employee" for purposes of Economic Stabilization Program.

As defined in the Economic Stabilization Regulations, a "service" includes any service performed by a person for another person other than in an employment relationship. Economic Stabilization Regulations 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971). Therefore the amounts paid to A by XYZ Corporation for his services as a director are fees for a service; and thus are subject to the Price Commission Regulations.

If a person who is a corporation director performs services for the corporation beyond those required of him as a director, and subject to the control of the board of directors or a superior officer of the corporation, he may be an employee. Whether or not services are performed as an employee of the corporation must be determined on the basis of all the facts and circumstances. "Wharton v. Fidelity—Baltimore National Bank," 222 Md. 177, 158 A. 2d 887 (1960).

This ruling has been approved by the General Counsels of the Price Commission and the Pay Board.

Dated: April 17, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 17, 1972.

DEPARTMENT OF THE INTERIOR

National Park Service

MAMMOTH CAVE NATIONAL PARK, KY.

Suitability as Wilderness; Public Hearing

Notice is hereby given in accordance with the provisions of the Act of September 3, 1964 (78 Stat. 890, 892; 16 U.S.C. 1131, 1132), and in accordance with departmental procedures as identified in 43 CFR 19.5, that a public hearing will be held beginning at 9 a.m. on June 23, 1972, in Room 103, Paul L. Garrett Conference Center Building, Western Kentucky University, Bowling Green, Ky., for the purpose of receiving comments and suggestions as to the suitability of lands within Mammoth Cave National Park for designation as wilderness. The park is located in Edmonson, Hart, and Barren Counties, in south-central Kentucky.

A packet containing a draft master plan, a map depicting the roadless areas studied, and providing additional information about the suitability study, may be obtained from the Superintendent, Mammoth Cave National Park, Mammoth Cave, Ky. 42259, or from the Director, Southeast Region, National Park Service, Scott-Hudgents Building, 3401 Whipple Avenue, Atlanta, GA 30344.

A topographic map of the areas studied for their suitability or nonsuitability as wilderness is available for review in the above offices and in Room 1013 of the Department of the Interior Building at 18th and C Streets NW., Washington, D.C.

Interested individuals, representatives of organizations and public officials are invited to express their views in person at the aforementioned public hearing, provided they notify the Hearing Officer, in care of the Superintendent, Mammoth Cave National Park, Mammoth Cave, Ky. 42259, by June 21 of their desire to appear. Those not wishing to appear in person may submit written statements on the suitability study to the Hearing Officer, at that address for inclusion in the official record, which will be held open for 30 days following conclusion of the hearing.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the transcribed hearing record. However, all materials so presented at the hearing shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral

V 37-79 APR 22 72 XUM

statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible, will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative.
(2) Members of the Congress.
(3) Members of the State Legislature.
(4) Official representatives of the counties in which the national park is located.
(5) Officials of other Federal agencies or public bodies.
(6) Organizations in alphabetical order.
(7) Individuals in alphabetical order.
(8) Others not giving advance notice, to the extent there is remaining time.

Dated: April 13, 1972.

THOMAS FLYNN,
Deputy Director,
National Park Service.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

GRAIN STANDARDS

Port Arthur, Tex., Grain Inspection Point

Statement of considerations. On February 3, 1972, there was published in the FEDERAL REGISTER (37 F.R. 2600) a notice announcing (1) a proposed transfer of the designation to operate the official grain inspection agency, as defined in section 3(m) of the U.S. Grain Standards Act (7 U.S.C. 75(m)), at Port Arthur, Tex., and (2) the application by the Beaumont Board of Trade, Beaumont, Tex., for designation to operate the official grain inspection agency. Inspection agencies, members of the grain trade, and other interested parties were given until March 6, 1972, to submit written data, views, or arguments with respect to the proposed transfer and to make application for designation.

No comments were received from any interested parties and no applications for designation were received other than the application from the Beaumont Board of Trade.

After due consideration of all relevant matters, and pursuant to the authority contained in sections 3(m) and 7(f) of the U.S. Grain Standards Act (7 U.S.C. 75(m) and 79(f)), the designation as the official grain inspection agency at Port Arthur, Tex., is hereby transferred from the Houston Merchants Exchange, Houston, Tex., to the Beaumont Board of Trade, Beaumont, Tex.

Effective date. This notice shall become effective 30 days after publication in the FEDERAL REGISTER.

Done in Washington, D.C., on April 18, 1972.

G. R. GRANGE,
Acting Administrator.

National Oceanic and Atmospheric Administration

[Docket No. S-579]

ROBERT L. TOWNSEND

Notice of Loan Application

APRIL 18, 1972.

Robert L. Townsend, 11158 Beacon Avenue South, Seattle WA 98178, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 45 feet in length, to engage in the fishery for salmon, albacore, tuna, and bottomfish off the coasts of Washington, Oregon, California, and Alaska.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Interior Building, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,
Acting Director.

Office of Import Programs

BOWMAN GRAY SCHOOL OF MEDICINE ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00102-33-46040. Applicant: Bowman Gray School of Medicine, Department of Microbiology, Winston-Salem, N.C. 27103. Article: Electron microscope, Model EM9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article will be used in research to study the interactions of bacteria and viruses with their hosts and investigations of the ultrastructure of micro-organisms, animal cells, and plant cells. The article will be used for education for courses in general microbiology and "Ultrastructure of micro-organisms and mammalian cells." Application received by Commissioner of Customs: August 18, 1971.

Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00122-33-46040. Applicant: Westfield State College, Western Avenue, Westfield, Mass. 01085. Article: Electron microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article will be used in biological research, involving morphology and physiology, of plant and animal tissue. The article will also be used in a course in electron microscopy for beginning students. Application received by Commissioner of Customs: September 2, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00133-33-46040. Applicant: The University of Texas at Houston, M. D. Anderson Hospital & Tumor Institute, 6723 Bertner, Houston, TX 77025. Article: Electron microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article will be used to investigate fine structural morphology of normal and neoplastic human tissues in extensive studies of a wide range of human benign and malignant tumors, categorizing their fine structure and correlating the electron microscopic findings with light microscopy. The article will also be used in training graduate students, members of the professional staff, and medical technologists in the principles and techniques of electron microscopy. Application received by Commissioner of Customs: September 15, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 17, 1972.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. Each of the foreign articles to which the foregoing applications relate is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is a relatively complex instrument designed primarily for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its respectively cited memoranda, that the relative simplicity of design and ease of operation of the foreign articles described above are pertinent to the applicants' educational purposes. We, therefore, find that the Forgflo Model EMU-4C electron microscope is not of equivalent scientific value to any of the foreign articles described above for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF CALIFORNIA AT SAN DIEGO

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00173-33-43780. Applicant: University of California, San Diego, 3175 Miramar Road, La Jolla, CA 92037. Article: Medical flowmeter system. Manufacturer: SE Laboratories (Engineering) Ltd., United Kingdom. Intended use of article: The article will be used to perform velocity studies on human subjects to evaluate left ventricular myocardial contractility in normal and diseased states.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated January 19, 1971, that for the applicant's human blood flow velocity studies the signal-to-noise ratio of the foreign article is a pertinent characteristic. HEW further advises that it knows of no comparable domestic instrument which provides a signal-to-noise ratio equivalent to that of the foreign article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc.72-6186 Filed 4-21-72;8:50 am]

UNIVERSITY OF CALIFORNIA AT SANTA BARBARA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00166-01-77030. Applicant: University of California, Santa Barbara, Calif. 93106. Article: NMR spectrometer and electromagnet. Manufacturer: Bruker Scientific Inc., West Germany. Intended use of article: The article will be used for research in the nature of enzymesubstrate, enzymeinhibitor, and membrane-drug interactions by NMR spectroscopy. Preliminary work has shown that chemical shift and relaxation phenomena can be used to characterize the environment provided by the protein active site. By learning more about the active or binding centers of the systems, the applicant hopes to arrive at characteristic features and differences that can be exploited in the design of new drugs.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (May 29, 1969).

Reasons: The captioned application is a resubmission of Docket Numbers 70-00309-01-30500 and 70-00310-01-77030 which were denied without prejudice to resubmission due to procedural and informational deficiencies. The foreign article provides magnetic homogeneity over a 7-14 kilogauss range. The most closely comparable domestic instrument at the time the foreign article was ordered was the pulsed nuclear magnetic system, Model PS-60, manufactured by Nuclear Magnetic Specialties which utilizes a Varian 12 or 15 inch magnet. The Varian magnet does not provide magnetic homogeneity over a 7-14 kilogauss range. The foreign article will be used in work planned by the applicant to elucidate the mechanisms of nuclear relaxation in which field-dependent studies are often required. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 11, 1972, and the National Bureau of Standards (NBS) in its memorandum dated March 7, 1972, that the capability described above is pertinent to the purposes for which the foreign article is intended to be used.

We, therefore, find that the Model PS-60 with a Varian 12- or 15-inch magnet is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

EMORY UNIVERSITY ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00091-33-46500. Applicant: Emory University, Department of Anatomy, Atlanta, Ga. 30322. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article is intended to be used in experiments which include: (1) Studies on the ultrastructural development of cardiac tissue in normal fetal and adult animals with hereditary or experimentally produced cardiomyopathy and heart failure; (2) experiments on variations in

V 37-79 APR 22 72 XUM

protein synthesis in normal and myopathic heart cells; and (3) structural changes in the inner membranes of mitochondria isolated from normal and diseased hearts. The article will also be used in teaching preparative techniques for electron microscopy to advanced graduate students. Application received by Commissioner of Customs: August 13, 1971. Advice submitted by Department of Health, Education, and Welfare on: February 25, 1972.

Docket No. 72-00101-33-46500. Applicant: University of California, School of Medicine, La Jolla, Calif. 92037. Article: Ultramicrotome, LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article will be used in research directed at the study of the process by which the cerebral spinal fluid and materials within the cerebral spinal fluid are absorbed from around the brain back into the vascular system through the arachnoid villi. Application received by Commissioner of Customs: August 18, 1972. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00104-33-46500. Applicant: University of Miami, Post Office Box 8184, Coral Gables, FL 33124. Article: Ultramicrotome, LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article is intended to be used in experiments on normal hard and soft dental tissues, the ultrastructural aspects of the osteogenic cells in regards to their osteoclastic and osteoblastic actions by determined microorganisms in the oral cavity. The article will also be used in teaching investigations of ultrastructural conditions of normal and pathological hard tissues of the oral cavity in human and experimental animals. Application received by Commissioner of Customs: August 20, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00123-33-46500. Applicant: College of William and Mary, Department of Biology, Williamsburg, Va. 23185. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article will be used in experiments which include investigation of the ultrastructural aspects of both differentiating vegetative and reproductive cells of marine red algae and the early stages of development of algal thalli (plants) derived from spore germination within controlled environment culture incubators. Cell wall otogeny, the establishment of polarity, mitosis, meiosis and cytokinesis (cell division) comprise several of the features of this poorly-studied group of plants that will be investigated. A course in "Experimental Electron microscopy" will be taught at the graduate level with the article. Application received by Commissioner of Customs: September 9, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00124-33-46500. Applicant: DHEW, PHS, HSMHA, Center for Disease Control, 255 East Paces Ferry Road, Northeast, Atlanta, GA 30305. Article: Ultramicrotome and Knifemaker. Combination. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article will be used to study the ultrastructural histology in punch biopsies from experimental animals in investigating the development of glumerulonephritis. Application received by Commissioner of Customs: September 9, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72-00131-33-46500. Applicant: Veterans Administration Hospital, Neurology Research, 4150 Clement Street, San Francisco, CA 94121. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article is intended to be used for ultrastructural studies of human peripheral nerve and in electron microscopic autoradiography of experimental neuropathies in mice. Application received by Commissioner of Customs: September 14, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 17, 1972.

Docket No. 72-00132-33-46500. Applicant: State University of New York, School of Basic Sciences, Stony Brook, N.Y. 11790. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of Article: The article will be used to reveal by ultrastructural analysis the localization of rhodopsin in the frog retinal and structural changes which occur during the shortening of horseshoe crab striated muscle. In addition the article will be used for training of students in the course "Techniques in Electron Microscopy." Application received by Commissioner of Customs: September 14, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 17, 1972.

Docket No. 72-00152-33-46500. Applicant: University of Hawaii, Department of Anatomy, 1960 East-West Road, Honolulu, HI 96822. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter A.B., Sweden. Intended use of article: The article is intended to be used in a research study of the uterus and its decidual reaction at the time of pregnancy. Differences between pregnant and pseudopregnant uteri will be observed to determine: (1) Enzymatic differences employing ultracytochemistry, (2) relationships of hormonal control to enzyme systems using ultracytochemistry and autoradiography, (3) changes in cell morphology using routine electron microscopy morphological techniques. Application received by Commissioner of Customs: September 24, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 24, 1972.

Docket No. 72-00181-33-46500. Applicant: College of Medicine and Dentistry of New Jersey at Newark, 100 Bergen Street, Newark, NJ 07103. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The foreign article will be used to produce positive identification of the sites of termination of selected pathways in the central nervous system of mammals and to reveal the normal ultrastructural organization of brain regions receiving the fiber pathways in question. Application received by Commissioner of Customs: October 13, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 24, 1972.

Docket No. 72-00195-33-46500. Applicant: University of Rochester, School of Medicine and Dentistry, 260 Crittenden Boulevard, Rochester, NY 14642. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used to section normal and neoplastic mammalian tissue derived from experimental animals for ultrastructural studies into the mechanism of vascular growth in tumors and the mechanism of tumor parenchymal response to therapeutic agents. Application received by Commissioner of Customs: October 21, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 24, 1972.

Docket No. 72-00217-33-46500. Applicant: Huntington Institute of Applied Medical Research, 734 Fairmount Avenue, Pasadena, CA 91105. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section mammalian normal and pathological tissues collected from experimental animals previously injected with radioisotopes or electron dense markers. These sections will be investigated to (a) characterize certain barrier systems in the central nervous system, (b) determine sites of elaboration and egress of the cerebrospinal fluid, and (c) assess junctional transport of solutes in normal and pathological preparations. Application received by Commissioner of Customs: November 3, 1971. Advice submitted by Department of Health, Education, and Welfare on March 24, 1972.

Comments: No comments have been received with respect to any of the foregoing applications: Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each of the foreign articles provides a range of cutting speeds from 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket No. 69-00665-33-46500), which relates to the

duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "smooth cuts are obtained when the speed of cutting (among such (other) factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with another prior application (Docket No. 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

OHIO AGRICULTURAL RESEARCH AND DEVELOPMENT CENTER AND VETERANS ADMINISTRATION HOSPITAL, SAN DIEGO, CALIF.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00086-33-46040. Applicant: Ohio Agricultural Research and Development Center, Wooster, Ohio 44691. Article: Electron microscope, Elmiskop 101. Manufacturer: Siemens A. G., West Germany. Intended use of article: The article is intended to be used in research projects ranging from, the investigation of plant virus pathology of soybean, corn, and wheat-involving local lesion formation mechanisms, virus location within the tissue and general ultrastructural phenomena resulting from the infection-to pathological conditions in animals such as TGE virus in swine. Application received by Commissioner of Customs: August 9, 1971. Advice submitted by Department of Health, Education, and Welfare on: February 25, 1972.

Docket No. 72-00082-33-46040. Applicant: Veterans Administration Hospital, 3350 La Jolla Village Drive, San Diego, CA 92161. Article: Electron microscope, Model Elmiskop 101. Manufacturer: Siemens A. G., West Germany. Intended use of article: The article is intended to be used for the following diagnostic purposes:

(1) Renal, liver, muscle and nerve, brain and tumor biopsies;

(2) Examination of smears from body secretion for the identification of viral particles;

(3) Study of sedimentation pellets of body fluid;

(4) Identification of viruses from biopsy specimens grown in cultures.

The article will also be used to train young pathologists in both technical and interpretive aspects of electron microscopy as a diagnostic tool in pathology. Application received by Commissioner of Customs: August 5, 1971. Advice submitted by Department of Health, Education, and welfare on: February 25, 1972.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corporation (Forflo). The Model EMU-4C has a specified resolving capability of 5 angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00146-00-46040. Applicant: The University of Texas at Austin, Purchasing Office, Box 7306, University Station, Austin, TX 78712. Article: High voltage cables for electron microscope. Manufacturer: Siemens A.G., West Germany. Intended use of article: The article is an accessory for an existing electron microscope.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to components for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used.

The Department of Commerce knows of no similar compenents being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

SETH M. BODNER,
Director,
Office of Import Programs.

and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72–00096–33–46040. Applicant: Washington University, School of Medicine, 660 South Euclid, St. Louis, MO 63110. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronic Instruments, the Netherlands. Intended use of article: The article is intended to be used to study the effects of a variety of experimental agents on cultured nervous tissue from various parts of the central peripheral nervous system; study the myelin sheath of the central and peripheral nervous systems; and aid in the analysis of the fine structure of the nervous system. Application received by Commissioner of Customs: August 13, 1971. Advice submitted by Department of Health, Education, and Welfare on: February 25, 1972.

Docket No. 72–00114–01–46040. Applicant: University of Texas Medical Branch, Office of the Purchasing Agent, Administration Building, Galveston, Tex. 77550. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electron Instruments, N.V.D., the Netherlands. Intended use of article: The article will be used by qualified investigators for research on biogenic amines and synaptic interconnections in the nervous system. Application received by Commissioner of Customs: August 30, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Docket No. 72–00119–33–46040. Applicant: University of California, Santa Barbara, 4219P Administration Building, Santa Barbara, Calif. 93106. Article: Electron microscope, EM 300. Manufacturer: Philips Electronic Instruments, the Netherlands. Intended use of article: The article is intended to be used in the following biological research: (1) Fine structural studies of mature and differentiating phloem cells to try to determine the relation of structure to function of the various subcellular systems; (2) cytochemical studies on mature and differentiating phloem sieve elements; (3) ultrastructure of the adrenal cortex of the domestic duck, *Anas Platyrhynchos*. Application received by Commissioner of Customs: August 31, 1971. Advice submitted by Department of Health, Education, and Welfare on: March 3, 1972.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU–4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU–4C has a specified resolving capability of 5 angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU–4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,

Office of the Secretary

[Dept. Organization Order 10–5]

ASSISTANT SECRETARY FOR ADMINISTRATION

Designation and Authority

This amendment effective April 3, 1972, amends the material appearing at 34 F.R. 19827 of December 18, 1969.

Department Organization Order 10–5 of December 2, 1969, is hereby amended as follows:

1. In Section 3. *Scope of authority*, paragraph .02 is amended to read:

.02 The authority delegated to the Assistant Secretary for Administration in paragraph .01 above shall include:

a. Serving as "agency head" with respect to the authorities in chapter 4, title 41 of the United States Code, which deal with purchases and contracts for property or services, and other authorities of the Secretary relating to procurement.

b. Carrying out the Secretary's responsibilities for fulfilling the objectives and effecting compliance throughout the Department with the requirements of title VI of the Civil Rights Act of 1964, Executive Orders 11246, 11247, and 11375, and any other statutes, Executive orders, and regulatory provisions relating to equal opportunity under which the Secretary or the Department may have responsibilities. For purposes of carrying out these responsibilities and as required by the applicable Executive orders or implementing regulations of the Secretary of Labor or the Civil Service Commission, the Assistant Secretary for Administration is designated as the Contracts Compliance Officer and the Director of Equal Employment Opportunity for the Department and is authorized to (1) upon recommendations of the heads of operating units, and with the approval of the respective Program Secretarial Officers involved, designate Deputy Contracts Compliance and Equal Employment Opportunity Officers for the operating units; and (2) designate Deputy Contracts Compliance and Equal Employment Opportunity Officers for the Office of the Secretary.

2. In Section 4. *Office of Assistant Secretary for Administration*, section 4 is amended to read:

.01 The Office of the Assistant Secretary for Administration shall consist of:

a. The Deputy Assistant Secretary for Administration, who shall be the principal Assistant of the Assistant Secretary and shall perform the functions of the Assistant Secretary during the latter's absence.

b. The Special Assistant for Civil Rights.

c. Such departmental offices as the Assistant Secretary may establish for the purpose of assisting him in carrying out his administrative management functions.

.02 The Appeals Board is assigned to the Office of the Assistant Secretary for Administration for administrative purposes only.

Effective date: April 3, 1972.

LARRY A. JOBE,
Assistant Secretary
for Administration.

[FR Doc.72–6242 Filed 4–21–72;8:53 am]

[Dept. Organization Order 45–1]

ECONOMIC DEVELOPMENT ADMINISTRATION

Organization and Functions

This order effective March 22, 1972 supersedes the material appearing at 35 F.R. 14472 of September 15, 1970 and 36 F.R. 11870 of June 22, 1971.

SECTION 1. *Purpose.* This order prescribes the organization and assignment of functions within the Economic Development Administration (EDA). Department Organization Order 10–4, "Assistant Secretary for Economic Development," prescribes the scope of authority of the Assistant Secretary for Economic Development and the functions of EDA.

SEC. 2. *Organization Structure.* The principal organization structure and line of authority of the Economic Development Administration shall be as depicted in the attached organization chart (Exhibit 1). A copy of the organization chart is on file with the original of this document of the Office of the Federal Register.

SEC. 3. *Office of the Assistant Secretary for Economic Development.* .01 The Assistant Secretary directs the programs and is responsible for the conduct of all activities of the Economic Development Administration subject to the policies and directives prescribed by the Secretary of Commerce.

.02 The Deputy Assistant Secretary shall direct and coordinate the Regional Offices and assist the Assistant Secretary in all matters affecting the Economic Development Administration and perform the duties of the Assistant Secretary during the latter's absence.

.03 The Investigations and Inspections Staff shall investigate alleged violations of law or other impropriety on the part of applicants or recipients; conduct inspections relating to the conduct and performance of field personnel and review the suitability of applicants for financial assistance. The Staff shall also conduct special investigations requested by the Assistant Secretary, as well as inspections to assure the physical security of all EDA offices.

.04 The Indian Program Staff shall administer the Indian economic development program and advise the Deputy Assistant Secretary concerning its general effectiveness. It shall recommend approval or denial of projects proposed for Indian areas and negotiate and monitor interagency agreements relating to Indian economic development.

SEC. 4. *Deputy Assistant Secretary for Policy Coordination.* The Deputy Assistant Secretary for Policy Coordination, as the principal adviser to the Assistant Secretary on matters of policy coordination, shall:

a. Exercise responsibility for EDA's interagency and intergovernmental relations and its relations with those quasi-public and private agencies interested in economic development;

b. Develop policies for improving Federal, State, and local government economic development programing;

c. Provide staff assistance in defining policy issues, coordinate the development and formulations of policy for consideration by the Assistant Secretary, explain the position of the administration, and exercise principal staff responsibility for policy review and evaluation;

d. Represent the Administration international organizations when so designated;

e. Coordinate and manage Administration representation on interagency committees;

f. Serve as Executive Secretary and, as required, provide or arrange for staff support for the National Public Advisory Committee on Regional Economic Development;

g. Act as an alternate to the Assistant Secretary in serving as Chairman of EDA's Policy Planning Board and provide secretariat services for the Policy Planning Board; and

h. Review and evaluate legislative and administrative proposals related to economic development and intergovernmental relations for substantive and policy implications.

SEC. 5. *Deputy Assistant Secretary for Economic Development Planning.* .01 The Deputy Assistant Secretary for Economic Development Planning is the principal adviser to the Assistant Secretary on matters of development planning. Through the offices reporting to him, he shall:

a. Coordinate and direct EDA economic development planning activities relating to regions, districts (including economic development centers), redevelopment areas, and other areas of substantial need;

b. Formulate and recommend to the Assistant Secretary standards and criteria for administration of economic development planning by Regional Offices;

c. Inform the Deputy Assistant Secretary for Policy Coordination of significant developments and problems affecting interagency and intergovernmental development planning for districts and areas;

d. Recommend designation of economic development districts, economic development centers, redevelopment areas, and Title I areas which fulfill the statutory criteria;

e. Conduct an annual review of the areas and districts designated for assistance under the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3121) (the Act), and recommend such modifications or terminations of eligibility as may be appropriate;

f. Provide economic data, analyses and studies, and planning grants to development districts and areas; and

g. Recommend technical assistance proposals for areas and districts.

.02 The Deputy Assistant Secretary for Economic Development Planning shall direct and supervise the following organization elements:

a. The Office of Planning and Program Support which shall:

1. Have prime responsibility for coordinating the preparation, review and approval of EDA-developed planning documents;

2. Develop analyses and recommended strategies of economic development, including a system of priorities for EDA's financial assistance, for areas and districts;

3. Develop economic development planning systems that reflect EDA objectives and respond to local and regional problems and potentials;

4. Develop the methods and techniques needed to evaluate established planning systems including the ability of local representatives to understand and utilize the planning system as well as the compatibility of locally developed plans with annual agency objectives;

5. Participate in the development of budgetary requirements and coordinate with the office of Administration and Program Analysis in the allocation of resources among Regional Offices as well as among EDA programs;

6. Provide information and special services on domestic and international regional development planning;

7. Provide guidance to Regional Offices on the application of economic development planning techniques and systems to the specific problems of the Region;

8. Advise and assist Regional Offices in implementing economic planning activities after the formal designation of economic development districts and areas;

9. Guide Regional Offices in assisting development organizations to prepare Overall Economic Development Programs (OEDP's);

10. In coordination with Regional Offices, provide guidance to economic development district and area organizations on the techniques and methods of economic analysis;

11. Formulate planning and development policies and procedures for guiding the preparation and submission of district and area OEDP's, including the establishment of policies and standards for their review by Regional Offices;

12. Initiate suspension of the receipt and processing of all applications for assistance from areas and districts which fail to submit acceptable OEDP progress reports;

13. Evaluate services, efficient existing capacity, and competitive producers for use in making determinations on excess capacity, pursuant to section 702 of the Act; and

14. Identify industries which have demonstrated growth trends for the purpose of relating those industries to agency plans.

b. The Office of Economic Research which shall:

1. Direct and conduct a program of internal and external economic research designed to meet both planning and operating needs and concerned with economic development problems and opportunities for geographical subdivisions (e.g., regions, development districts, redevelopment areas, etc.);

2. Arrange for and monitor EDA-sponsored research conducted by other elements of the Department, other Government agencies, or private organizations;

3. Encourage and stimulate research and data collection on economic development, both in and out of Government;

4. Review, evaluate, integrate and disseminate (a) the results of research sponsored by EDA, and (b) current methodological and other research findings wherever generated that are relevant to EDA's objectives and programs;

5. Maintain a central reference collection of economic development materials; and

6. Study and evaluate the effects of Government policies on subnational economic development.

c. The Office of Development Organizations which shall:

1. Design and direct a program to establish multicounty development districts in consultation and with the assistance and cooperation of EDA Regional Offices, and with the concurrence of the States affected;

2. Initiate policy guidelines and criteria concerning the development district and area organizations for use by other elements of EDA, and by appropriate State and local agencies;

V 37-79 APR 22 72 XUM

3. Evaluate and approve proposed area and district economic development organizations;

4. Assist Regional Office efforts to organize economic development districts, including the recruitment of staff;

5. Develop and recommend model administrative budgets, reporting procedures, and job specifications for use by area and district economic development organizations;

6. Establish policies and standards for the review of progress reports by Regional Offices in cooperation with the Office of Planning Program Support;

7. Design a system of records to indicate progress as compared to planned objectives on all grants made under section 301(b) of the Act and assist Regional Offices in implementing system;

8. Provide guidelines to Regional Offices in order to administer planning grants made under the Act to State, district, and area agencies;

9. Evaluate and recommend candidates for appointments to professional staff positions in economic development districts in cooperation with the Regional Offices;

10. Review Regional Office recommendations for the designation and/or termination of economic development districts and economic development centers;

11. Promptly advise interested Federal, State, and local agencies of all changes affecting the eligibility status of existing or proposed economic development districts;

12. Prepare and distribute maps and related materials showing organizational and designation status of economic development districts;

13. Determine whether an area meets the statistical criteria to qualify as a redevelopment area or a Title I area;

14. Recommend changes in the qualification status of redevelopment areas and Title I areas;

15. Recommend designation or change in the designation status of redevelopment or Title I areas;

16. Conduct an annual review of area eligibility and recommend termination of areas no longer eligible for designation; and

17. Recommend minor adjustments to boundaries of redevelopment areas.

SEC. 6. *Deputy Assistant Secretary for Economic Development Operations.* .01 The Deputy Assistant Secretary for Economic Development Operations, through the offices reporting to him, shall:

a. Provide coordinated direction of all EDA activities related to financial assistance for or to physical projects which will improve local economies and supervise the execution of this aspect of EDA's programs;

b. Recommend standards, policies and criteria for the technical evaluation and processing of project applications for financial assistance, including public works grants and loans, business loans, and technical assistance;

c. Direct, conduct, coordinate, monitor and, where appropriate, originate technical assistance projects (including management assistance and feasibility studies) subject to coordination with the Deputy Assistant Secretary for Economic Development Planning on proposed technical assistance projects related to area, district or center planning;

d. Review and recommend approval or denial of project applications;

e. Evaluate activities of the Regional Offices in applying policies, standards, and procedures for processing project applications to assure efficient, effective, and economical accomplishment of approved projects;

f. Execute agreements with other Federal departments and agencies in consultation with the Deputy Assistant Secretary for Policy Coordination for the conduct of specialized technical assistance; and

g. Study and evaluate the manpower development and training needs of redevelopment areas and of economic development districts, and recommend appropriate joint action with the Departments of Labor and Health, Education, and Welfare.

.02 The Deputy Assistant Secretary for Economic Development Operations shall direct and supervise the following organization elements:

a. The Office of Public Works which shall:

1. Recommend policies, standards and procedures for accepting, processing, reviewing, and approving requests for public works grants and loans, consistent with the procedures contained in the Act;

2. Review and recommend for approval or denial public works grant and loan project applications, and suggest alternate methods of financing where indicated;

3. Maintain surveillance, evaluate progress, and submit reports on the application by Regional Offices of standards, policies, and procedures to assure efficient, effective, and economical accomplishment of the approved projects;

4. Arrange for services from other Federal agencies for the administration of approved public works grants and loans; and

5. Maintain operating liaison with Federal agencies having grant-in-aid programs which may supplement EDA programs, and with those Federal agencies delegated responsibility for administering or servicing EDA projects.

b. The Office of Business Development which shall:

1. Recommend policies, standards, and procedures for processing and approving applications for financial assistance for industrial or commercial usage, consistent with the criteria contained in the Act;

2. Review applications for commercial or industrial loans and working capital guarantees, and recommend approval or denial;

3. Maintain surveillance over the implementation by Regional Offices of policies, standards and procedures related to processing loan applications for business development to assure efficient, effective, and economical accomplishment of the business development programs;

4. Develop and implement EDA approved agreements with the Small Business Administration and other Federal agencies to secure support of the business development programs;

5. Monitor operations of industrial and commercial projects approved by EDA, including outstanding loans for projects approved under provisions of the Area Redevelopment Act, and prepare reports of accomplishments;

6. Arrange for or provide needed specialized assistance to recipients of EDA industrial and commercial loans and guarantees and Area Redevelopment Act loans;

7. Develop policies, plans, and procedures to improve or terminate projects in default of loan conditions;

8. Provide assistance in the liquidation of the affairs and functions conducted under the Area Redevelopment Act;

9. Establish contact and promote large scale involvement of the private sector in EDA's economic development activities; and

10. Maintain operating liaison with other agencies concerned with the activities of this Office.

c. The Office of Technical Assistance which shall:

1. Propose policies, standards, and procedures pertaining to the acceptance, review, and approval of requests for technical assistance, consistent with the criteria of the Act;

2. Plan and develop technical assistance projects in cooperation with other offices, where appropriate;

3. Direct or monitor the performance and implemeneation of approved technical assistance projects;

4. Recommend policies, standards, and procedures for evaluating and utilizing the results of technical assistance projects;

5. Execute agreements with other Federal departments and agencies for the the conduct of specialized technical assistance, in consultation with the Deputy Assistant Secretary for Policy Coordination;

6. Recommend, to the Deputy Assistant Secretary for Policy Coordination, policies and practices to facilitate effective relationships with other Government agencies which have complementary programs for technical assistance;

7. Maintain surveillance over the application of policies, standards, and procedures by the Regional Offices in processing project applications;

8. Review and recommend project applications for approval or denial; and

9. Coordinate the efforts of EDA in the manpower training program.

SEC. 7. *Office of Administration and Program Analysis.* The Office of Administration and Program Analysis shall be responsible for providing the full range of administrative management services and for program analysis and evaluation functions with respect to EDA's substantive programs. These functions shall be carried out through the principal organizational elements of the Office, as prescribed below, except that personnel management services, accounting for administrative funds, and in-house equal opportunity staff services shall be obtained from the appropriate Departmental offices.

.01 The Program Analysis Division shall: Develop and implement measures of resource utilization for programing and budgeting purposes; develop and conduct a systematic program evaluation effort for EDA; prepare the annual Program Memorandum and analytical studies required by the Office of Management and Budget; and develop cost benefits studies to aid the Assistant Secretary in making choices and decisions between alternative programs for economic development projects, activities, and programs in achieving the objectives of the Act and EDA.

.02 The Management Analysis Division shall: Conduct organization and management studies and surveys; plan and conduct a program for achieving maximum economy, effectiveness, and efficiency, and for obtaining optimum personnel utilization; develop and conduct a program for the efficient management of all official records, including an issuance system for administrative and program orders, and the design and control of official forms; and develop and administer a report control system for all administrative and operational reports.

.03 The Budget Division shall: Develop and manage an integrated financial management and budgeting system for EDA. It shall develop and prepare the annual budget for EDA; be responsible for the total financial program of EDA, and for the fiscal aspects of EDA programs entrusted to other Federal agencies; and operate a fiscal control system for both program and administrative expenses consistent with the requirements of the Anti-Deficiency Act, which shall include but not be restricted to, allotment of funds, operating budgets, employment limitations, and analyses of reports and proposed actions relating thereto.

.04 The Accounting Division shall: Develop and maintain accounting systems and prepare financial reports for internal and external use, according to the needs of management, the requirements of laws or regulations, and established policies; analyze financial and operating data to assure that financial and management policies are being followed; and serve as the liaison with the Office of the Secretary and other Federal agencies in all accounting matters.

.05 The Information Systems and Services Division shall: Plan, develop, acquire, and coordinate the use of automatic data processing systems and equipment for EDA; provide data processing services, including the conduct of feasibility studies and the development of systems and programs for the applications of automatic data processing techniques; develop and maintain a comprehensive information and data base system to meet specified requirements for administrative, planning, operational, program management, and program evaluation purposes; and provide periodic and special summary reports on current optional trends and performance comparisons to planned goals.

.06 The Office Services Division shall: Provide or arrange for office services for EDA's headquarters and, as required, for the Regional Offices, including the procurement of administrative supplies, vehicle hire, furniture, equipment, and the distribution of printed and bound materials; evaluate, report on, and make recommendations on the utilization of space, supplies, equipment, communications, and related services within EDA; and serve as liaison with the Office of the Secretary on office services matters.

.07 The Executive Secretariat shall: Receive all correspondence addressed to the Office of the Assistant Secretary, and assign it to the appropriate office for action; record controlled and non-controlled correspondence, maintain prompt followup of replies to insure that deadlines are met; and provide a selective reference service to files as requested by EDA officials.

SEC. 8. *Office of the Chief Counsel.* The Office of the Chief Counsel shall:

a. Render all necessary legal services, subject to the provisions of Department Organization Order 10–6; and

b. Have primary responsibility for the preparation, coordination, and clearance of all legislation, regulations, and external orders subject to the provisions of applicable Department orders.

SEC. 9. *Office of Public Affairs.* The Office of Public Affairs shall:

a. Advise on all public information matters;

b. Conduct a public information program under the policy guidance of the Assistant Secretary; and

c. Provide assistance in the editing, printing or reproduction, and distribution of technical materials and publications.

SEC. 10. *Office of Congressional Relations.* The Office of Congressional Relations shall:

a. Advise on all congressional matters pertinent to the activities under the direction of the Assistant Secretary; and

b. Serve as the primary point of coordination for continuing liaison with the Congress in collaboration with the Special Assistant of the Secretary for Congressional Relations.

SEC. 11. *Office of Civil Rights.* The Office of Civil Rights shall:

a. Advise the Assistant Secretary in the development and implementation of policy and guidance affecting equality of opportunity connected with economic development programs;

b. Maintain liaison with Federal, State and local governmental organizations and with nongovernmental organizations to coordinate and assist in planning operations aimed at achieving nondiscrimination and equality of opportunity;

c. Provide leadership, staff services and advice in matters affecting nondiscrimination to economic development program units, to organizations obligated as participants in an economic development program to achieve nondiscrimination, and to ultimate beneficiaries of economic development program activities;

d. Conduct, sponsor, or coordinate meetings, conferences, and training courses for equal employment specialists, program managers, and executives to achieve nondiscrimination in economic development programs;

e. Establish effective systems throughout EDA to obtain and monitor reports concerning the program of equality of opportunity and assure conformance thereto;

f. Establish report requirements to insure equality of opportunity by participants in economic development programs, conduct on-site inspections, and receive, investigate, and adjust complaints; and

g. Receive, investigate, reviews, adjust complaints, and evaluate EDA experience relating to the Equal Employment Opportunity program and make recommendations to the Assistant Secretary for improvement of employment practices within EDA.

SEC. 12. *Economic Development Regional Offices.* .01 The Economic Development Regional Offices, headed by Regional Directors, are as follows:

Name	Located at—	Serves
Atlantic	Philadelphia, Pa.	Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, Virginia, Virgin Islands, and West Virginia.
Southeastern	Atlanta, Ga.	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.
Midwestern	Chicago, Ill.	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.
Rocky Mountain	Denver, Colo.	Colorado, Kansas, Iowa, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.
Southwestern	Austin, Tex.	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.
Western	Seattle, Wash.	Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, and Washington.

.02 Each Regional Director, for the EDA programs in his region, shall:

a. Assist designated areas and districts in organizing, staffing, and funding for economic planning through the development of (OEDPs);

b. Assist local communities in the development of applications for financial assistance to meet the needs of areas and districts serviced by the Regional Office; and

c. Process applications for economic development assistance, monitor and service approved projects, including appropriate public works construction projects and, when appropriate, liquidate projects.

.03 The geographic areas of the EDA Regional Offices are depicted in Exhibit

Assistant Secretary for Administration.

[FR Doc.72-6240 Filed 4-21-72;8:53 am]

[Dept. Organization Order 25-2]

MARITIME ADMINISTRATION

Organization and Functions

This order effective March 24, 1972, supersedes the material appearing at 36 F.R. 20123 of October 15, 1971, and 36 F.R. 23834 of December 15, 1971.

SEC. 1. *Purpose.* This order prescribes the organization and assignment of functions within the Maritime Administration. The delegations of authority to the Assistant Secretary for Maritime Affairs and the Maritime Subsidy Board are set forth in Department Organization Order 10-8.

This revision assigns the functions of the former Assistant Administrator for Administration and Assistant Administrator for Finance, to the Assistant Administrator for Administration and Finance (Section 10). It also moves certain functions from the Office of Policy and Plans to the Assistant Administrator for Administration and Finance.

SEC. 2. *Organization Structure.* The organization structure and line of authority of the Maritime Administration shall be as depicted in the attached organization chart (Exhibit 1). (A copy of the organization chart is filed with the original of this document with the Office of the Federal Register).

SEC. 3. *Office of the Assistant Secretary for Maritime Affairs.* .01 The Assistant Secretary for Maritime Affairs (the "Assistant Secretary"), who is ex-officio Maritime Administrator, is the head of the Maritime Administration and serves as Chairman of the Maritime Subsidy Board.

.02 The Deputy Assistant Secretary for Maritime Affairs shall assist the Assistant Secretary in carrying out his responsibilities and perform such duties as the Assistant Secretary shall prescribe, together with the duties which he performs as a member of the Maritime Subsidy Board. In addition, he shall be the Acting Assistant Secretary during the absence or disability of the Assistant Secretary and, unless the Secretary of Commerce designates another person, during a vacancy in the office of the Assistant Secretary. He shall also be responsible for supervision and coordination of contract compliance activities and activities under Title VI of the Civil Rights Act of 1964.

.03 The Executive Staffs shall consist of the Secretary of the Maritime Administration who also serves as Secretary of the Maritime Subsidy Board, the hearing examiners, and officials concerned with other special services for the Assistant Secretary and the Maritime Subsidy Board.

SEC. 4. *Maritime Subsidy Board.* The Maritime Subsidy Board shall be responsible for and perform the following functions:

a. The functions with respect to making, amending, and terminating subsidy contracts, which shall be deemed to include, in the case of construction-differential sudsidy, the contract for the construction, reconstruction or reconditioning of a vessel and the contract for the sale of the vessel to the subsidy applicant or the contract to pay a construction-differential subsidy and the cost of the national defense features, and, in the case of operating-differential subsidy, the contract with the subsidy applicant for the payment of the subsidy;

b. The functions with respect to: (1) Conducting hearings and making determinations antecedent to making, amending, and terminating subsidy contracts, under the provisions of Titles V, VI, and VIII, and sections 301 (except investigations, hearings and determinations, including changes in determinations, with respect to minimum manning scales, minimum wage scales and minimum working conditions), 708, 805(a), and 805(f) of the Merchant Marine Act, 1963, as amended (the Act), (2) making readjustments in determinations as to operating cost differentials under section 606 of the Act, and (3) the approval of the sale, assignment, or transfer of any operating subsidy contract under section 608 of the Act;

c. The functions with respect to investigating and determining (1) the relative cost of construction of comparable vessels in the United States and foreign countries, (2) the relative cost of operating vessels under the registry of the United States and under foreign registry, and (3) the extent and character of aids and subsidies granted by foreign governments to their merchant marines, under the provisions of subsections (c), (d), and (e) of section 211 of the Act;

d. So much of the functions specified in section 12 of the Shipping Act, 1916, as amended, as the same relate to the functions of the Board under subparagraphs a. through c. of this paragraph; and

e. So much of the functions with respect to adopting rules and regulations, subpenaing witnesses, administering oaths, taking evidence, and requiring the productions of books, papers, and documents, under sections 204 and 214 of the Act, as relate to the functions of the Board.

SEC. 5. *Office of Policy and Plans.* The Office of Policy and Plans shall develop and recommend long-range marine affairs policies and plans, including plans for the revitalization of the U.S. Merchant Marine; in coordination with the Office of Budget and Accounts, develop and maintain a system of multiyear program planning, analysis and evaluation; direct and coordinate the development and maintenance of plans for carrying out the Administration's responsibilities and functions in the event of mobilization for war or other national emergency; conduct economic studies and operations research activities in support of the planning functions and recommend solutions to problems affecting shipping; and review and evaluate operating programs to determine their effectiveness in accomplishing established goals and objectives.

SEC. 6. *Office of the General Counsel.* The Office of the General Counsel shall, subject to the overall authority of the Department's General Counsel as provided in Department Organization Order 10-6, serve as the law office of the Administration; review and give legal clearance to applications for subsidy and other Government aids to shipping, sales, mortgages, charters, and transfers of ships; prepare and approve as to form and legality, contracts, agreements, performance bonds, deeds, leases, general orders, and related documents; render legal opinions as to the interpretation of such documents and the statutes; prepare drafts of proposed legislation, executive orders, and legislative reports to Congressional committees and the Office of Management and Budget; negotiate and settle, or recommend settlement of, admiralty claims, just compensation claims, tort claims, and claims referred to the office for litigation; assist the Department of Justice in the trial, appeal and settlement of litigation; represent the Administration in public proceedings involving all shipping matters before administrative agencies of the Government, and in State and Federal courts; and handle court litigation in actions involving enforcement or defense of the jurisdiction, general orders, and regulations of the Administration.

SEC. 7. *Office of Public Affairs.* The Office of Public Affairs shall develop and coordinate a public information and publications program as needed to further the objectives of the Administration's programs; issue or clear for issuance all information for the general public on shipping and on decisions and activities of the Administration; and prepare periodic and special reports, as assigned.

SEC. 8. *Office of Civil Rights.* The Office of Civil Rights shall formulate and conduct programs to assure compliance by Federal contractors and subcontractors with Executive Orders 11246 and 11375 and related regulations, and applicants for and recipients of Federal financial assistance and their contractors and subcontractors with Title VI of the Civil Rights Act of 1964 and related regulations; plan and direct special programs to assure equal opportunity in employment in the ship and boat building and repair industries, water transportation industry, and related industries as assigned; provide assistance in communicating to minority communities the career opportunities available in the Merchant Marine; assist in the recruitment of qualified minority cadet candidates for the U.S. Merchant Marine Academy and assure equal opportunity for the Academy cadets; conduct compliance reviews of the civil rights and equal employment opportunity programs relating to Maritime Administration employees, and make recommendations for improvement.

SEC. 9. *Office of International Activities.* The Office of International Activities shall plan, conduct, and coordinate Maritime Administration's participation in intergovernmental and international organizations concerned with shipping matters; keep abreast of developments in the United States and foreign countries with a foreign relations impact that may affect the U.S. Merchant Marine; take and/or coordinate action to establish and present Maritime Administration's position in these matters. Within this Office are personnel responsible for representing the Maritime Administration in international activities, as assigned, for development of maritime foreign cost data, and other technical maritime activities in foreign countries.

SEC. 10. *Office of the Assistant Administrator for Administration and Finance.* The Assistant Administrator for Administration and Finance shall be the principal assistant and adviser to the Assistant Secretary on administrative services, personnel, management and organization, financial management, automatic data processing, and management information systems matters. He shall direct the activities of the following organizational units:

.01 The Office of Administrative Services shall plan and establish national policies and programs for the conduct of facilities and supply management and office services activities, including material control and disposal of real and personal property, other than ships; administer the security program; settle loss or damage claims arising from shipments on Government bills of lading; secure allocations of the production capacity of private plants for the manufacture of components and materials required in the event of mobilization; administer programs for the management of mail, files, records equipment, vital records, and records disposition; and, for headquarters of the Maritime Administration, provide or obtain travel and office services, including space, communications, correspondence control, central files, and administrative property management services.

.02 The Office of Management and Organization shall conduct manpower surveys to determine staffing requirements for all components of the Administration; conduct surveys and studies to improve management practices, organization structures, delegations of authorities, procedures, and work methods; maintain a system for the issuance of the manual of orders and other directives; administer programs for the management of reports, forms, correspondence, and committee activities; coordinate the management improvement program; and prepare special progress and administrative reports to the Office of the Secretary and others, as required.

.03 The Office of Personnel shall plan and administer personnel programs and activities relating to recruitment, placement, promotion, separation, employee performance evaluation, training and career development, employee recognition and incentives, employee relations and services, employee-management relations, classification, pay management, and various employee benefit programs. This office shall also plan and administer the equal opportunity program for employment in the Maritime Administration.

.04 The Office of Budget and Accounts shall formulate, recommend, and interpret budgetary policies and procedures; collaborate with the Office of Policy and Plans in discharging that Office's responsibilities for development and maintenance of a system of multi-year program planning, analysis and evaluation; collaborate with operating officials in the development of fiscal plans and budget estimates; develop and present budget requests and justifications; allocate and maintain budgetary control of funds available; review status of funds and program performance in relation to fiscal plans; develop and maintain financial systems of the Administration; perform accounting functions, including maintenance of general accounts and related fiscal records, preparation of financial statements and reports, issuance of invoices, and audits and certification of vouchers for payment; and take necessary action to effect collection of amounts due the Administration.

.05 The Office of Financial Analysis shall render financial advice and opinions with respect to the substantive programs and contractual activities of the Administration; prescribe a uniform system of accounts for subsidized operators, agents, charters, and other contractors; administer a program of external audits of contractors' accounts (except those of research and development contractors) to determine compliance with applicable laws, regulations and contract provisions concerning costs and profits; analyze financial statements and other data submitted by contractors to determine financial qualifications and limitations; and develop and make continuing analyses of data to determine financial condition of the American merchant marine or segments thereof.

.06 The Office of Management Information Systems shall plan and develop data processing and management information systems; develop systems and programs for the application of computer techniques; operate the electronic data processing facility, including auxiliary equipment; and plan, coordinate, and operate the Administration's management data and information center.

SEC. 11. *Office of the Assistant Administrator for Research and Development.* The Assistant Administrator for Research and Development shall be the principal assistant and adviser to the Assistant Secretary on research and development programs. He shall direct the activities of the following organizational units:

.01 The Office of Maritime Technology shall develop, coordinate and manage programs to establish a scientific and technological base for achieving a more productive and competitive U.S. Merchant Marine; initiate, solicit, develop, and recommend specific projects, such as research in hydrodynamics, structures, and oceanographic subjects which have a bearing on improvements in the merchant marine, and institutional and university research in marine science and technology appropriate to maritime affairs; and negotiate and administer technical aspects of contracts in above areas.

.02 The Office of Advanced Ship Development shall develop, organize, coordinate, and manage programs for the application of scientific and technological developments to improve ship systems, shipbuilding, ship machinery, equipment, and other components, with the objective of increasing the efficiency, productivity, and effectiveness of the U.S. Merchant Marine; initiate, solicit, develop, and recommend specific projects; and negotiate and administer technical aspects of contracts in these areas.

.03 The Office of Advanced Ship Operations shall develop, organize, coordinate, and manage programs for the application of scientific, technological, and other developments to upgrade the operational efficiency and competitive position of the U.S. Merchant Marine; develop, coordinate, and implement programs for the application of nuclear power to merchant ships; initiate, solicit, develop, and recommend specific projects in these areas, including navigation and communications, port and terminal operations, cargo handling, marine personnel requirements, automation, ship handling and other operational aspects of the ship; and negotiate and administer technical aspects of contracts in above areas.

.04 The Office of Maritime Research Centers shall plan, direct, coordinate, and control the activities of the National Maritime Research Centers, located at Kings Point, N.Y., and Galveston, Tex. These Centers shall formulate and recommend research and development projects; carry out assigned research programs and projects; serve as test and evaluation centers for appraising the effectiveness of proposed improvements for the Merchant Marine; and sponsor conferences and seminars on maritime research and related subjects.

SEC. 12. *Office of the Assistant Administrator for Operations.* The Assistant Administrator for Operations shall be the principal assistant and adviser to the Assistant Secretary on ship construction, ship operations, domestic shipping, port development, and intermodal transportation systems activities. Within his office are personnel responsible for the conduct of trial, acceptance, and guarantee surveys of ships. He shall direct the activities of the following organizational units:

.01 The Office of Ship Construction shall collect and analyze data on relative costs of shipbuilding in the United States and foreign countries; calculate and recommend the amount of construction-differential subsidy; develop preliminary

[3] Filed as a part of the original document.

V 37 79 APR 22 72 XUM

designs establishing the basic characteristics of proposed ships; review and approve ship designs submitted by applicants for Government aid; recommend and, upon request, conduct research and development projects in ship design and construction; develop or approve contract plans and specifications for the construction, reconstruction, conversion, reconversion, reconsidering, and betterment of ships; review, obtain approval and certification of national defense features by the Department of the Navy; prepare cost estimates, invitations to bid, and recommendations for the award of ship construction-type contracts; administer ship construction contracts; provide naval architectural and engineering services in connection with construction of small special purpose ships for other Government agencies; approve designs, supervise construction, and undertake final acceptance of fishing vessels constructed under Public Law 86–516, as amended; maintain current records of commercial shipyard ways in the United States; and develop requirements for mobilization ship construction programs.

.02 The Office of Domestic Shipping shall formulate and implement national policies and programs for the development and promotion of domestic waterborne commerce, including the Great Lakes, inland waterways, and noncontiguous, coastwise and intercoastal trade; conduct studies, formulate plans, and make recommendations to improve the competitive position and increase the utilization of the domestic waterborne transportation; give national program direction for maintenance and preservation of the national defense reserve fleet, and for the operation, maintenance and repair of Maritime Administration-owned or acquired merchant ships, conduct of ship conditions surveys, and related activities; administer the ship sales and ship exchange programs; provide safety engineering services; approve or recommend approval of transfers of ships to foreign ownership, registry or flag; review and approve maintenance and repair costs for subsidy participation; and develop plans for the acquisition, allocation, and operation of merchant ships in time of national emergency and administer these activities as required.

.03 The Office of Ports and Intermodal Systems shall formulate national policies and programs, and conduct programs for the development and promotion of intermodal transportation systems; conduct studies and formulate plans for the promotion, development, and utilization of ports and port facilities; provide technical advice to other Government agencies, private industry and State and municipal governments in the above fields; and conduct emergency planning for the utilization and control of ports and port facilities under national mobilization conditions.

SEC. 13. *Office of the Assistant Administrator for Maritime Aids.* The Assistant Administrator for Maritime Aids shall be the principal assistant and advisor to the Assistant Secretary on subsidy administration, Title XI mortgage insurance, and other Government aids programs, maritime manpower, marine insurance, and market development activities. He shall direct the activities of the following organizational units:

.01 The Office of Subsidy Administration shall process applications for construction-differential subsidy, operating-differential subsidy, Federal Ship Mortgage and/or Loan Insurance, trade-in allowances, and other forms of Government aid to shipping; conduct negotiations with applicants, obtain comments of other offices and within delegated authority, approve or recommend approval or disapproval, and take other actions in relation to the award and the administration of aid contracts; administer Construction Reserve Funds and Capital Construction Funds; approve actions relating to the administration of Special and Capital Reserve Funds; maintain control records of statutory and contractual reserve funds; collect, analyze, and evaluate costs of operating ships under United States and foreign registry; calculate and recommend operating-differential subsidy rates; analyze and recommend trade route structure and service requirements of the ocean-borne commerce of the United States, and extent of foreign flag competition on essential trade routes; and collect, maintain, analyze, and disseminate statistical data on cargo and commodity movements in the ocean-borne commerce of the United States, composition of world's merchant fleets, and utilization of U.S.-flag ships.

.02 The Office of Maritime Manpower shall analyze and advise the Administration regarding labor management relations and problems as they apply to seamen, longshoremen, and shipyard workers, including labor trends, potential areas of dispute, and the effects of technological changes and proposed legislation on labor; develop plans in cooperation with the Department of Labor to provide reserve maritime manpower for mobilization and other emergencies; obtain, analyze, and publish data for use of industry, labor, Government, and the public concerning maritime employment, wages, hours, manning, working conditions, and manpower requirements; process nominations for appointment of cadets to the U.S. Merchant Marine Academy; administer a grant-in-aid program for the State maritime academies; determine need for and coordinate training programs for licensed and unlicensed personnel in maritime industries; coordinate technical maritime training assistance to foreign countries under international cooperative programs; and issue merchant marine decorations and awards.

.03 The Office of Market Development shall formulate national policies and programs, and conduct programs for the promotion and development of increased trade for U.S.-flag ships in the foreign commerce of the United States; regulate, review and report on the administration of cargo preference activities under Public Law 664, 83d Congress, Public Resolution 17, 73d Congress, and other statutes, in accordance with section 901 of the Merchant Marine Act, 1936, as amended; and calculate and recommend guideline rates, terms, and conditions for transportation of Government-financed cargoes.

.04 The Office of Marine Insurance shall develop, coordinate, control, and administer the marine insurance and the marine war risk insurance activities and programs of the Maritime Administration; maintain contact with the commercial insurance markets, analyze events and trends, and take action to meet changing conditions and foster cooperation between the Federal Government and American marine insurance underwriters in helping to strengthen the domestic marine insurance market; gather, analyze, and disseminate information on marine insurance useful to ship operators and the marine insurance industry; and settle or recommend settlement of claims of a marine insurance and marine war risk insurance nature.

SEC. 14. *Field Organization.* .01a. There shall be three field organizations called Regions, each headed by a Region Director, as specified below:

Region	Headquarters location
Eastern Region	New York, N.Y.
Central Region	New Orleans, La.
Western Region	San Francisco, Calif.

b. The Regions shall have geographic areas of responsibility as shown in Exhibit 2. (A copy of Exhibit 2 is on file with the original of this document with the Office of the Federal Register.)

c. The Region Directors shall be responsible for all field operations and programs of the Maritime Administration within their respective Regions, except ship construction and the U.S. Merchant Marine Academy, subject to national policies, determinations, procedures, and directives of the appropriate office chief in Washington, D.C. The programs and activities under their jurisdiction shall include the custody and preservation of ships in the national defense reserve fleet; operation, repair, and maintenance of ships; marine inspections; training for marine personnel in radar, loran, etc.; accounting and external auditing; contract compliance activities, and activities to assure equal opportunity in employment in water transportation industries, as assigned; market development; development of ports and intermodal transportation systems; procurement and disposal of property and supplies; facilities management; and administrative support activities.

.02 The U.S. Merchant Marine Academy, Kings Point, N.Y., shall develop and maintain programs for the training of U.S. citizens to become officers in the U.S. Merchant Marine.

Effective Date: March 24, 1972.

LARRY A. JOBE,
Assistant Secretary for Administration.

[FR Doc.72-6241 Filed 4-21-72;8:53 am]

[Dept. Administrative Order DAO 208-2]

DIRECTOR, OFFICE OF ADMINISTRATIVE SERVICES

Delegation of Procurement Authority

This order effective April 3, 1972 supersedes the material appearing at 34 F.R. 335 of January 9, 1969.

SECTION 1. *Purpose.* This order redelegates certain procurement authority of the Assistant Secretary for Administration delegated to him in Department Organization Order 10–5. It supersedes existing delegations of procurement authority rendered obsolete by centralization of most procurement performed in the Washington area.

SEC. 2. *Definitions.* .01 "Procurement" means the acquisition (and directly related matters), from non-Federal sources, of personal property, personal and nonpersonal services (including construction) by such means as purchasing, renting, leasing (including real property), contracting, or bartering, but not seizure, condemnation, donation, or requisition.

.02 "Procurement authority" means the powers of an executive agency and of an agency head to perform procurement as set forth in chapter 4, title 41 of the United States Code or other law. It also includes the power to authorize the publication of advertisements, notices, or proposals in a newspaper required by 44 U.S.C. 3702, which is delegable under 5 U.S.C. 302(b)(2). It does not include the authority to decide the objects of procurement, i.e., what procurement items or services are required. The latter is implicit in the managerial authorities of officials of the Department as delegated or assigned to them.

.03 "Contracting Officer" means an official who by delegation or designation has authority to enter into or administer procurement contracts on behalf of the Government and to make related findings and determinations, to the extent and within the limitations of the authority specified in said delegation or designation. Contracting officer includes a person authorized to make small purchases of property or services which in any one transaction do not exceed $2,500.

.04 "Field Office" means, for purpose of this order, any organizational element in a city or locality outside the Washington Metropolitan area, whose head reports to an official in a different city or locality, including the Washington area.

.05 "Management consulting services" means any survey, research study, analysis, or consultation concerned primarily with improving the management system or practices of the Department as a whole or of any of its organizational units.

SEC. 3. *Procurement Authority of Office of Administrative Services.* .01 Except as provided in section 4 and subject to the limitations contained in section 5 of this order, the Departmental Office of Administrative Services shall perform procurement for all elements of the Department. For this purpose, the Director, Office of Administrative Services, is herewith delegated procurement authority.

.02 The Director, Office of Administrative Services, may redelegate his procurement authority, with or without further conditions or limitations, to the Chief, Procurement Division, Office of Administrative Services, who may further delegate such authority of any aspect thereof, subject to further conditions or limitations, to other employees within the Division. Each such delegation or redelegation shall be made by specific written delegation or designation, and shall include or make specific reference to any conditions or limitations on the scope of authority to be exercised. The Chief, Procurement Division, shall be the chief officer responsible for procurement for the Department, subject to the general supervision of the Director, for purposes of 41 U.S.C. 257(b), except as provided in section 4 of this order.

SEC. 4. *Procurement Authority of Operating Units.* .01 The head of each operating unit, or his designee, may give to heads of field offices, with power of redelegation, authority to purchase from commercial sources, supplies, materials and services not to exceed normal imprest fund limitations.

.02 The head of each operating unit is authorized to delegate procurement authority to the head of a field office that has program responsibilities which require the field office to perform procurement beyond that specified in paragraph .01 of this section. Each such delegation shall:

a. Require the advance approval of the Assistant Secretary for Administration, who will review the need for the field office's proposed procurement activity and determine whether staffing arrangements will permit selection and designation of qualified contracting officers for the designated procurement authority.

b. Specify the kinds of procurement actions and classes of procurement items to which exercise of the authority shall be limited, the extent of redelegation of authority that is authorized, and such other conditions and limitations on the scope of authority as the head of the operating unit may desire or be required to impose.

c. Be subject to the conditions and limitations provided in Section 5 of this order.

d. Provide that the head of a field office to whom procurement authority is delegated shall be the chief officer responsible for procurement (41 U.S.C. 257(b)) for that field office, and that he may by written delegation or designation redelegate his procurement authority to other contracting officers within the field office, subject to such conditions and limitations on the scope of their authority as he may provide.

.03 The Director, Office of Administrative Services, may give specified procurement authority to a designated person or persons in the headquarters of operating units whose headquarters are principally located outside the Main Commerce building. The granting of procurement authority under this provision shall be limited to the kinds and amounts of procurement that the Director, Office of Administrative Services, determines can be procured for the operating units more advantageously under such an arrangement, all factors considered, than through the centralized procurement unit of his office. The granting of such procurement authority and the designation of a person or persons in an operating unit headquarters to serve as a contracting officer for such purpose shall be subject to the concurrence of the head of the operating unit involved, or his designee.

.04 The Assistant Secretary for Maritime Affairs is delegated procurement authority, subject to the conditions and limitations provided in section 5 of this order, for (a) general agency services for operating ships, (b) ship construction for the Government's account, and (c) ship construction subsidy contracts under section 502 of the Merchant Marine Act, as amended. The Assistant Secretary for Maritime Affairs may redelegate such authority to a chief officer responsible for procurement for purposes of 41 U.S.C. 257(b) and to other contracting officers within the Maritime Administration, by written delegation or designation, subject to such conditions and limitations on the scope of their authority as he may provide.

.05 The Assistant Secretary for Administration may, in the interests of economy and efficiency, by arrangement with affected heads of operating units, designate certain units to perform centralized field procurement, and make appropriate delegations of procurement authority to effect such operations.

SEC. 5. *Limitations Relating to Delegated Procurement Authority.* .01 The Assistant Secretary for Administration, designated in Department Organization Order 10–5 to serve as "agency head," shall make the determinations and decisions specified in 41 U.S.C. 252(c) (12) and (13), and in 41 U.S.C. 252(c)(11) for each contract or supplement thereto which requires the expenditure of more than $25,000. If the expenditure under (c)(11) is $25,000 or less, the determination shall be made only by a chief officer responsible for procurement indicated in sections 3 and 4 of this order. A determination for advance payments (41 U.S.C. 255) shall also be made by a chief officer responsible for procurement.

.02 With respect to the procurement of management consulting services by contract where the total cost of the contract or any supplement thereto is expected to be greater than $10,000, the approval of the proposed procurement shall be obtained from the Assistant Secretary for Administration prior to submission of the procurement request.

.03 Invitations for bids, requests for proposals, contractual documents, including supplements thereto, notices terminating contracts, and final determinations made by contracting officers under the disputes clause, shall be subject to such legal clearance as specified in instructions to be issued by the General Counsel or his designee with the concurrence of the Assistant Secretary for

V 37 • 79
APR 22 72
XUM

Administration or his designee. Legal advice shall be sought before other actions are taken in connection with contract awards or contract administration wherever it is apparent that such actions may have potential legal consequences of substance.

.04 Procurement authority shall be exercised in accord with applicable statutory requirements, Executive orders, the Federal Procurement Regulations and implementing Departmental regulations, policies, and instructions, and other related laws and regulations.

SEC. 6. *Recording Delegations of Procurement Authority.* Contracting Officers other than those designated in this order shall be selected, designated and their designations terminated in accord with 41 CFR 1–1.404. A file of each instrument of designation and termination of designation shall be maintained by the head of each office where procurement is performed. A copy of such instrument shall be forwarded promptly to the Director, Office of Administrative Services, who shall arrange to maintain a central record of contracting officers of the Department authorized to exercise procurement authority covered by this order.

SEC. 7. *Revisions.* The Assistant Secretary for Administration may amend or revise this order without the approval signature of the Secretary.

Effective date: April 3, 1972.

LARRY A. JOBE,
Assistant Secretary for Administration.

[FR Doc.72-6243 Filed 4-21-72;8:53 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

OCCUPATIONAL SAFETY AND HEALTH

Request for Information on Certain Chemical and Physical Agents

Section 20(a)(3) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(3)) provides that the Secretary of Health, Education, and Welfare, on the basis of information available to him, shall develop criteria dealing with toxic materials and harmful physical agents and substances which will describe exposure levels that are safe for various periods of employment. Section 22(c) of the Act authorizes the National Institute for Occupational Safety and Health to develop recommended occupational safety and health standards and to perform all functions of the Secretary of Health, Education, and Welfare, under sections 20 and 21 of the Act. The Institute is developing recommended biologic standards for persons exposed to a number of chemical agents in the work environment including:

1. Arsenic.
2. Benzene.
3. Toluene.
4. Parathion.
5. Malathion.
6. Methanol.

A biologic standard is the level of such agent, metabolite, or other effect of exposure which may be present within man without his suffering ill effects, taking into consideration (1) the correlation of airborne concentrations of, and extent of exposure to, such substances with effects on specific biological systems of man such as the circulatory, respiratory, urinary, and nervous system, and (2) the analytical methods for determining the amount of the substance which may be present within man.

Any person having information or data which is not readily available in "open scientific literature" in the two areas listed above or in other areas which the person considers relevant to establishing a biologic standard for persons exposed to any of the chemical agents set forth above, is invited to submit such information, with accompanying documentation, to the Assistant Director, National Institute for Occupational Safety and Health, Office of Research and Standards Development, Room 10–28, 5600 Fishers Lane, Rockville, Md. 20852, within 30 days after publication of this notice.

All information received concerning any agent will be available for public inspection after the development of the respective recommended standard.

Dated: April 18, 1972.

JAMES H. EAGEN,
Acting Director, National Institute for Occupational Safety and Health.

[FR Doc.72-6209 Filed 4-21-72;8:50 am]

OCCUPATIONAL SAFETY AND HEALTH

Request for Information on Certain Airborne Dust Contaminants and Chemical and Physical Agents

Section 20(a)(3) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(3)) provides that the Secretary of Health, Education, and Welfare, on the basis of information available to him, shall develop criteria dealing with toxic materials and harmful physical agents and substances which will describe exposure levels that are safe for various periods of employment. Section 22(c) of the Act authorizes the National Institute for Occupational Safety and Health to develop recommended occupational safety and health standards and to perform all functions of the Secretary of Health, Education, and Welfare, under sections 20 and 21 of the Act. The Institute is developing criteria documents and recommended occupational health standards for a number of airborne dust contaminants and chemical and physical agents including,

1. Cotton textile fibers.
2. Lead and lead compounds.
3. Mercury and mercury compounds.
4. Silica.
5. Ultra violet radiation.

Each criteria document will include among other items an evaluation of available information relative to the nine areas listed below.

Any person having information or data which is not readily available in "open scientific literature" in any of the nine areas listed, or in other areas which the person considers relevant to the establishment of a safe and healthful occupational environment involving the chemical and physical agents set forth above, is invited to submit such information, with accompanying documentation, to the Assistant Director, National Institute for Occupational Safety and Health, Office of Research and Standards Development, Room 10–28, 5600 Fishers Lane, Rockville, Md. 20852, within 30 days after publication of this notice.

1. Establishment of safe occupational environment levels for such agents including levels for acute and chronic exposure to airborne concentrations of the chemical agents as well as safe practices concerning direct contact with such agents.

2. Establishment of biologic standards, i.e., the levels of such agents, metabolites, or other effects of exposure which may be present within man without his suffering ill effects taking into consideration (a) the correlation of airborne concentrations of, and extent of exposure to such substances with effects on specific biological systems of man such as the circulatory, respiratory, urinary, and nervous system, and (b) the analytical methods for determining the amount of the substance which may be present within man.

3. Engineering controls, including ventilation, environmental temperature, humidity, and housekeeping and sanitation procedures, with attention to the technological feasibility of such controls.

4. Specifications for the conditions under which personal protective devices should be required.

5. Methodology, including instrumentation, for air sampling and sample analysis of chemical agents and methodology for measuring levels of exposure to physical agents.

6. The need for medical examinations for workers exposed to such agents, the frequency of such examinations, and the specific diagnostic tests which should be used and the rationale for their selection.

7. Work practices or procedures which may be instituted for control of the workplace environment in normal operations and those which may be instituted when environmental levels are temporarily exceeded or where peak concentrations of chemical agents in man are reached.

8. The types of records concerning occupational exposure to such agents that employers should be required to maintain.

9. Warning devices and labels which should be required for the prevention of occupational diseases and hazards caused by such agents.

All information received concerning any agent will be available for public

inspection after the development of the respective criteria document.

Dated: April 17, 1972.

MARCUS M. KEY,
Director, National Institute for Occupational Safety and Health.

ATOMIC ENERGY COMMISSION

[Docket No. 50-358]

CINCINNATI GAS AND ELECTRIC CO. ET AL.

Establishment of Atomic Safety and Licensing Board

On March 7, 1972, the Commission published in the FEDERAL REGISTER (37 F.R. 4925) a notice of hearing concerning the application for a construction permit for a boiling water nuclear reactor (William H. Zimmer Nuclear Power Station) filed by the Cincinnati Gas and Electric Co., Columbus and Southern Ohio Electric Co., and Dayton Power and Light Co. That notice indicated the Safety and Licensing Board for this proceeding would be designated at a later date, and the notice of its membership would be published in the FEDERAL REGISTER.

Pusuant to the Atomic Energy Act of 1954, as amended, the regulations in Title 10, Code of Federal Regulations, Part 2 (rules of practice) and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. Eugene Greuling, Dr. Hugh C. Paxton, and Mr. John B. Farmakides, Chairman. Dr. Forrest J. Remick has been designated as a technically qualified alternate and Mr. Michael Glaser has been designated as an alternate qualified in the conduct of administrative proceedings.

The date and place of a prehearing conference and of a hearing will be set by the Board. Notice as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 18th day of April 1972.

JAMES R. YORE,
Executive Secretary, Atomic Safety and Licensing Board Panel.

[Docket No. 50-268]

GENERAL ELECTRIC CO.

Supplementary Notice of Availability of Applicant's Environmental Report and AEC Draft Detailed Statement on Environmental Considerations for Midwest Fuel Recovery Plant

On March 13, 1972, the Atomic Energy Commission issued a "Notice of Availability of Applicant's Environmental Report and AEC Draft Detailed Statement on Environmental Considerations for Midwest Fuel Recovery Plant" (37 F.R. 5674, March 17, 1972). The notice indicated the availability for public inspection of General Electric Co.'s report discussing environmental considerations related to its Midwest Fuel Recovery Plant, in Grundy County, Ill. The notice also indicated the availability of the Commission's Draft Detailed Statement on environmental considerations related to the Midwest Fuel Recovery Plant.

The notice indicated that interested persons may, within thirty (30) days from the date of publication of the notice in the FEDERAL REGISTER, submit comments on the proposed issuance of an operating license for the facility, the report, and the Draft Detailed Statement for the Commission's consideration.

In accordance with the Commission's regulations, 10 CFR Part 50, Appendix D, notice is hereby given of additional time for submittal of comments on the report and the Draft Detailed Statement, on the proposed issuance of an operating license to the applicant authorizing operation of the Midwest Fuel Recovery Plant, and on whether the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

Such comments may be submitted within forty-five (45) days from the date of publication of this supplemental notice in the FEDERAL REGISTER.

Dated at Bethesda, Md., this 18th day of April 1972.

For the Atomic Energy Commission.

C. T. EDWARDS,
Assistant to the Director, Division of Materials Licensing.

[FR Doc.72-6219 Filed 4-21-72;8:51 am]

[Docket No. 50-234]

GULF OIL CORP.

Notice of Issuance of Amendment to Facility License

The Atomic Energy Commission ("the Commission") has issued, effective as of the date of issuance, Amendment No. 8 to Facility License No. CX-23 dated March 25, 1965. The license presently authorizes Gulf Oil Corp. to possess, use and operate the Experimental Critical Facility located at its Torrey Pines Mesa site near San Diego, Calif., at power levels up to 100 watts (thermal). The amendment extends the expiration date to May 25, 1974.

The Commission has found that the application for the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended ("the Act"), and the Commission's regulations published in 10 CFR Chapter I. The Commission has made the findings required by the Act and the Commission's regulations which are set forth in the amendment, and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. The Commission has also found that prior public notice of this amendment is not required since the amendment does not present significant hazards considerations different from those previously evaluated.

Within fifteen (15) days from the date of publication of the notice in the FEDERAL REGISTER, the applicant may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the licensee's application for license amendment dated March 23, 1972, and (2) the amendment to facility license, which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of the amendment may be obtained upon request sent to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 11th day of April 1972.

For the Atomic Energy Commission.

DUDLEY THOMPSON,
Acting Assistant Director for Reactor Operations, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 23810; Order 72-4-96]

AIR TRAFFIC CONFERENCE OF AMERICA

Order Regarding Sales Agency Reporting Procedures in Pittsburgh Settlement Bank Area

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of April 1972.

By Order 71-9-38, the Board made tentative findings, deferred action and requested comments from interested parties on an amendment to the "Standard Agents' Ticket and Area Settlement Plan" (the Plan) resolution of the Air Traffic Conference of America (ATC) incorporated in Agreement CAB 16874-A27. The amendment, if approved by the Board pursuant to section 412(a) of the Federal Aviation Act of 1958, would permit the ATC to implement, on a trial basis, a system of automated sales reporting for travel agents in the Pittsburgh bank area.[1]

The proposed trial of automated sales reporting for agents in the Pittsburgh bank area (Pittsburgh Test) is a result

V 37-79 APR 22 72 XUM

of discussions between the members of the ATC and various travel agency organizations, as was stated in Order 71-9-38. The original proposal to test the Pittsburgh Plan was first presented by the ATC to the travel agents on April 30, 1968, pursuant to requests by travel agents to further simplify procedures then in effect in the Pittsburgh bank area which allowed the travel agents to report to the bank without the necessity of preparing and submitting the sales report form required of other agents throughout the United States. The test is designed to decrease the amount of travel agent paperwork by increasing the use of modern data processing techniques available to area banks. According to the ATC, the specific purposes of the test are to simplify travel agent paperwork, obtain useful output data from the area bank, utilize the area bank's computer system and establish the basis for future ticket automation.

The ATC maintained that in order to accomplish the benefits anticipated for travel agents, the bank would require that agents report to the area bank once each week rather on the current 10-day cycle. Furthermore, the agents would be required to authorize the Area Settlement Bank to draw on the agent's account an amount not to exceed the total shown on the adding machine tape of the tickets being remitted by the travel agent. These two requirements, coupled with the uncertainty about the degree of benefit the agents would realize from the test, generated considerable controversy and concern among some travel agents as is evidenced by the voluminous correspondence currently on file at the Board.

In Order 71-9-38, the Board raised certain questions concerning the test. In addition, some of the travel agents raised questions and objections to the implementation of the test focusing primarily on the weekly reporting requirement and the proposal to authorize the Bank to draw upon the agent's account to collect moneys due the carriers. In an effort to answer these questions and to analyze the objections raised, the carriers and travel agents agreed to sponsor a series of meetings in Cleveland, Pittsburgh, Philadelphia, and Newark on February 1 through 4 to which all travel agents in the Pittsburgh bank area would be invited. Authorization was obtained from the Board for free transportation to agents wishing to attend these meetings. The meetings were very well attended with more than 800 agents participating. From those attending these meetings over 300 individual agent comments were received, about 60 percent of which favored the test.

Proponents believe that computer processing can provide savings in time and money; furnish a report which can be a useful sales analysis marketing guide; and, at the very least, deserves a comprehensive test. Conversely, opponents contend that the proposal will require extensive alteration of their accounting system and increase their workload, and provides no advantage over the present system. The most strenuous objection is against the authorization the agents will be required to give the Mellon Bank to draw against their own bank account. The only feature of the program generally considered acceptable by opponents is the weekly rather than the present daily reporting of credit card sales.

Consolidated comments generally supporting approval of the agreement have been received from the American Society of Travel Agents, Inc. (ASTA), the Association of Bank Travel Bureaus, Inc. (ABTB), the Association of Retail Travel Agents (ARTA), and the American Automobile Association (AAA), collectively the "travel agent organizations." These comments, in addition to relating the history of efforts to improve and simplify the operations of agents in the Pittsburgh area and confirming the fact as noted previously that there is still considerable opposition on the proposal, contain seven conditions or confirmations of understandings between the agents and the air carriers/ATC. These are paraphrased as follows:

1. Test is limited to 1 year and to the Pittsburgh bank area.

2. No change in duration of test period, its geographical scope, or its terms and conditions without concurrence of travel agency organizations and CAB approval.

3. Results are to be evaluated during and at conclusion of test by the ATC-Travel Agent Dialogue Committee. No extension or wider implementation of test without substantial concurrence of travel agency organizations.

4. Any travel agent seriously affected by the proposal has the right to immediate hearing to include dialogue committee agency representatives. Proof of such adverse effect would entitle the agent to relief from the test.

5. Agents will authorize a check to be drawn at the Mellon Bank on the third day following final date of the reporting period in an amount not to exceed the total shown on the adding machine tape less an appropriate deduction for commissions.

6. ATC to exercise reasonable flexibility in the initiation of any disciplinary proceedings.

7. The travel agent organizations have also indicated to the agents attending the four seminars that (a) the plan would not involve a reduction to 7 days in the amount of time allowed for postal delivery of the sales report, (b) the Secretary of the airlines' Accounting and Finance Conference [2] would accept a certified mail receipt as proof that a duplicate report was satisfactorily filed in the event of loss of the original mailing, (c) ATC would exercise special care to insure that no agent's check is dishonored due to problems in implementing the test, and (d) in the event Tuesday or Wednesday is a holiday, the agent is given additional time to file the report.

ATC believes that the test will benefit both the travel agents and the air carriers and that it should be approved. Additionally, on March 8, 1972, ATC submitted a letter clarifying the air carriers' position as to item No. 4 of the seven conditions and understandings described in the travel agents' comments above. ATC states that the air carriers have not agreed to give ad hoc relief to individual travel agents who experience difficulties under the new reporting system. ATC points out that if a substantial number of agents (or carriers) experience major difficulties with the system during the test, consideration will be given to its modification or termination. In addition, any difficulties which individual travel agents experience during the test will be considered by the joint travel agent/airline working group in evaluating the results of the test and formulating recommendations concerning the function of the mechanized reporting system.

In our previous order we tentatively found that the experimental reporting procedures would simplify the agents' reporting procedures; reduce the possibility of error in processing the tickets; and reduce the period of time required to process a ticket for collection. The comments subsequently filed confirm those findings. There can be little doubt that the format of the required report will be a significant improvement over the lengthy and frequent coupon tabulations which agents must undertake by hand at present. To be sure, this reduction in the sheer effort of preparing the report will be felt less by the very agents who will comprise the test—those in the Pittsburgh Settlement Area—since agents in this area already utilize the "adding machine tape method" of preparing the report. But for this very reason, inter alia, these agents were chosen for the experiment for it was felt that even they would benefit from the reduction in credit sales reporting frequency and the other refinements of the proposed plan.[3]

Moreover, most agents stand to benefit from the receipt of the detailed sales information in the report which the Bank provides to them. Most of the commenting agents appear to recognize that such information will sharpen their abilities to direct their sales efforts toward the most rewarding lines, thus comporting with their assigned principal role to promote the sale of air transportation. And nobody disputes that the air carriers will benefit from receiving more accurate reports and more speedily processed tickets and remittances.[4]

The two most significant concerns expressed by the agents who have commented in opposition to the test have dealt with (1) the effect of the experiment on their cash flow situation, and (2) the objectionableness of allowing the bank's computer to automatically debit the agent's account for the determined remittance due. We understand the reluctance to turn over control of one's checking account to the bank, and if that were the consequences of the instant proposal we would view such with great concern. But in fact the feared consequences do not seem to follow. The agent, in signing the authorization form, sets the dollar amount to be deducted and the date on which such deduction is to be made from his account (that date, of course, within the parameters of the required reporting time). In effect, then, the agent is tendering a postdated check, and should be able to account for it in his records.

The cash flow problem is less easily resolved. There is no dispute that once the system becomes regularized agents will be submitting their reports once a week instead of three times each calendar month. All of the persons submitting formal comments take the view that there will either be no adverse impact on the agent's cash flow or that there will be some positive effect. Analyses were made by ARTA and ASTA which caused them to conclude that the agent's cash flow would be improved, the extent to which would depend upon the days of the week in which sales were made. The Association of Bank Travel Bureaus conducted its own in-house studies of how weekly reporting, as proposed, would affect cash flow, and concluded that there would be a slight improvement for agents over the present 10-day cycle. Recognizing that there may be some cash flow problem for some agents, if the above-mentioned studies are correct the vast majority of agents will not be adversely affected. With this in mind, and considering the benefits projected to be derived from the experiment, we are not persuaded to terminate it even before it begins.

Rather, we think that the projections should be tested as ATC and the travel agent spokesmen propose, and subject to the "ground rules," as clarified by ATC, stated on page 3, supra. Since this Board cannot act as arbiter in cases affecting individual agents, the Board expects that the test will be conducted with due allowance for those rare but recognized "computer errors" and other "bugs" and misunderstandings which arise from novel man-machine joint ventures.

Therefore, acting pursuant to section 412(b) of the Act, the Board finds that Agreement CAB 16874–A27 is not adverse to the public interest nor in violation of the Act.

Accordingly, it is ordered, That:

1. Agreement CAB 16874–A27 be and it hereby is approved for a period of 12 months from the date of commencement thereof; and

2. Requests for extension of the 12-month period shall be filed at least 70 days prior to termination thereof.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-6228 Filed 4-21-72;8:52 am]

[Docket No. 23333; Order 72-4-61]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Reduced Fares for Cargo Agents

Issued under delegated authority April 13, 1972.

By Order 72-3-85, dated March 27, 1972, action was deferred, with a view toward eventual approval, on an agreement adopted by the Traffic Conferences of the International Air Transport Association (IATA). The agreement would have the effect of continuing through August 31, 1972, the past basis upon which the number of reduced-fare tickets are allocated to cargo agents, i.e., two tickets at a 75-percent discount per agency location per year.

In deferring action on the agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 72-3-85 will herein be made final.

Accordingly, it is ordered, That:

Agreement CAB 22968 be and hereby is approved.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-6229 Filed 4-21-72;8:52 am]

[Docket No. 21582, etc.; Order 72-4-91]

PAN AMERICAN WORLD AIRWAYS, INC., ET AL.

Order Instituting an Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of April 1972.

Applications of Pan American World Airways, Inc., Dockets 21582, Continental Air Lines, Inc., 21642, Northwest Airlines, Inc., 21683, Air Micronesia, Inc., 23871, for amendment of certificates of public convenience and necessity.

Applications of Pan American World Airways, Inc., Dockets 21646, Continental Air Lines, Inc., 21659, for exemptions pursuant to section 416(b) of the Federal Aviation Act.

Service to Saipan Case Docket 24421.

Four carriers which hold certificates of public convenience and necessity authorizing them to engage in foreign air transportation in various areas in the Western Pacific have filed applications for amendments to their certificates to permit, inter alia, the offering of service between Saipan, Mariana Islands—a point within the Trust Territory of the Pacific Islands—and Japan. Although the authority requested differs from carrier to carrier, depending on the nature of the existing authority of each, the focus of the applications (with the possible exception of Northwest) is on the Saipan-Japan market.

Pan American World Airways, Inc., currently provides service between Guam—a point not within the Trust Territory—and Japan over segment 1 of its approved service plan for route 130. The carrier desires to include Saipan as an intermediate point on the Guam-Japan service.[2] Continental Air Lines, Inc., and Air Micronesia, Inc. (hereinafter "Continental"), are certificated to provide service, inter alia, to points throughout the Trust Territory and between the Trust Territory, on the one hand, and Guam, Okinawa, and American Samoa, on the other hand. Both carriers seek authority to extend their services from American Samoa, Guam, and the Trust Territory to points in Japan.[3] Northwest Airlines, Inc. serves Japan, Okinawa, and other points in the Western Pacific but has no authority to serve Guam, points in the Trust Territory, or points in American Samoa. It has applied for authority to permit it to engage in transportation between the latter three areas, on the one hand, and points in Japan, on the other hand.[3]

On November 28, 1969, Continental filed a motion for expedited hearing on its certificate application.[4] On September 21, 1971, Pan American also filed

[1] This area includes western New York State and the States of New Jersey, Pennsylvania, and Ohio.

[2] The Accounting and Finance Conference, like the Air Traffic Conference, is an affiliate of the domestic air carriers' trade association, the Air Transport Association.

[3] Thus, it was felt, if these agents would benefit from the experiment there would be a basis for extending the program to reporting areas employing the by-hand reporting method.

[4] Several other benefits to the carriers are expected to be realized. As an example, the leveling out of paper flow from area banks to carriers will permit more orderly planning and processing by revenue accounting departments. Including credit transactions on a weekly cycle will reduce greatly the normal special handling attending such items on the present daily cycle, and all carriers will realize this benefit. Another advantage, particularly important for those carriers having less sophisticated computer systems, will be the availability of much statistical data which the area bank can very routinely provide. This, as one example, will obviate the need in some cases for individual carriers to keypunch this information for their own computer use. By smoothing out work and paper flow within the area bank, we are informed that part-time, inexperienced help, necessary today to cover peak periods, will be replaced by full-time employees. This should be of an indirect benefit to all air line participants in the plan.

[2] Docket 21582.

[3] Dockets 21642, 23871.

[4] Docket 21683.

[4] Alternatively, the carrier sought an exemption which would permit the operation of Saipan-Japan service pendente lite. The exemption application is discussed in the text, infra.

V 37 79 APR 22 72 XUM

a motion for expedited hearing on its application. Continental has filed an answer in support of that motion.[5] In support of their motions for expedited hearing the carriers note the fact that Japan Air Lines currently holds authority which would permit the operation of Saipan-Japan service and they argue that an expedited hearing should be held so as to enable the U.S. carrier selected, if any, to have equivalent authority. In the words of Pan American, "the United States should do all possible to have a U.S. carrier be the first to serve Japan-Saipan."

Upon consideration of the foregoing pleadings and the relevant facts, we have decided to institute an investigation to be set down for hearing at an early date for the primary purpose of considering the need for U.S.-flag service between points in Japan, on the one hand, and Saipan, on the other hand.[6] Although we do not intend to embark on a reexamination of matters considered in the recently concluded "Transpacific Route Investigation," Docket 16242, and the "Pacific Islands Local Service Investigation," Docket 17353, it appears that there may be a need to consider herein the award of authority between Saipan and points in the Western Pacific (other than Japan) which are already on the system of a carrier which might be selected. Authorization of such beyond operations would permit the carrier selected to propose a pattern of service to Saipan integrated with its system operations. Specifically, we will consider Pan American's request for authority to operate beyond Saipan to Guam, and in considering that authorization we will also consider whether the public convenience and necessity require the award of either local traffic rights in the Guam-Saipan market or stopover rights at Saipan for Guam-Japan traffic.[7] In order to maintain the proceeding's focus on the Japan-Saipan market, Pan American's application will be subject to a pretrial restriction requiring every flight serving Saipan to serve a point in Japan.

Specifically, we will consider herein:

(1) Whether Pan American's certificate for route 130 should be amended so as to include Saipan as an intermediate point on segment 1(b) between Guam and Japan;

(2) Whether Continental's certificate for route 171 and/or Air Micronesia's certificate for route 170 should be amended by the addition of a new segment reading as follows:

Between the terminal point Saipan, Mariana Islands, Trust Territory of the Pacific Islands, and intermediate points and a terminal point in Japan;

(3) Whether Northwest's certificate for route 129 should be amended by the addition of a segment reading as follows:

Between the terminal point Saipan, Mariana Islands, Trust Territory of the Pacific Islands, and intermediate points and a terminal point in Japan;.

To the extent that the applications filed by Pan American, Continental, Air Micronesia, and Northwest conform to the scope of the proceeding here instituted, they will be consolidated for hearing herein.

In addition to their applications for certificate amendments, both Pan American and Continental have filed applications for exemptions which would permit the operation of Saipan-Japan service pending the completion of certificate proceedings. In support of these applications, both carriers urge that grant of the exemption authority will be of substantial benefit to the economy of the Trust Territory; will provide valuable service for the traveling public; and will benefit the U.S. economy by providing U.S.-flag competition to the service of Japan Air Lines. Finally, each carrier argues that it alone is the logical choice for selection.

Both Continental and Pan American have filed answers in opposition to the exemption application of the other, directed in each case primarily to the comparative merits of one another's case for selection as the Saipan-Japan carrier. Northwest has filed an answer to both carriers in which it urges the Board to deny the exemption applications and to institute a proceeding to consider the certification of a U.S. carrier in the Japan-Saipan market. Trans World Airlines, Inc., has filed an answer in opposition to Continental's exemption application. Its arguments are largely directed to support of its position that Continental should not receive Saipan-Japan authority in any event, whether by exemption or certificate. TWA takes no position on Pan American's application. Finally, both Continental and Pan American have filed replies to the answers.

In our view, the arguments advanced by Pan American and Continental in support of their applications for exemption fall short of establishing that an exemption should be granted, particularly in circumstances where there are competing applicants for the same authority. Even if all of the assertions of either carrier are accepted as true, they amount to no more than strong support for the grant of the carriers' respective certificate applications; they do not persuade us of the desirability for the grant of an exemption to either carrier pending disposition of those applications. In the circumstances, we are unable to find that enforcement of the Act would not be in the public interest.

Accordingly, it is ordered, That:

1. A proceeding to be known as the "Service to Saipan Case," be and it hereby is instituted in Docket 24421, and shall be set down for hearing before an examiner of the Board at a time and place hereafter designated.

2. The proceeding instituted by paragraph "1" above shall be limited to consideration of:

(a) Whether the public convenience and necessity require the authorization of a U.S. carrier or carriers to engage in foreign air transportation between Saipan, Mariana Islands, the Trust Territory of the Pacific Islands, on the one hand, and points in Japan, on the other hand;

(b) Whether Pan American's certificate for route 130 should be amended so as to include Saipan as an intermediate point on segment 1(b) between Guam and Japan: *Provided,* That every flight serving Saipan shall also serve a point in Japan;

(c) Whether Continental's certificate for route 171 should be amended by the addition of a new segment reading as follows: "Between the terminal point Saipan, Mariana Islands, Trust Territory of the Pacific Islands, and intermediate points and a terminal point in Japan";

(d) Whether Air Micronesia's certificate for route 170 should be amended by the addition of a new segment reading as follows: "Between the terminal point Saipan, Mariana Islands, Trust Territory of the Pacific Islands, and intermediate points and a terminal point in Japan";

(e) Whether Northwest's certificate for route 129 should be amended by the addition of a segment reading as follows: "Between the terminal point Saipan, Mariana Islands, Trust Territory of the Pacific Islands, and intermediate points and a terminal point in Japan";

3. Insofar as they conform to the scope of the proceeding set forth in paragraph "2" above, the applications of Pan American World Airways, Inc., Docket 21582, Continental Air Lines, Inc., Docket 21642, Air Micronesia, Inc., Docket 23871, and Northwest Airlines, Inc., Docket 21683, be and they hereby are consolidated with the proceeding instituted by paragraph "1" above; to the extent not consolidated herein, the foregoing applications be and they hereby are dismissed without prejudice;

4. The applications for exemption of Pan American World Airways, Inc., Docket 21646, and Continental Air Lines, Inc., Docket 21659, be and they hereby are denied;

5. The joint motion of Continental Air Lines, Inc. and Air Micronesia, Inc., to withhold from public disclosure the contents of their Supplemental Answer to Motion of Pan American World Airways, Inc. for expedited hearing, be and it hereby is denied;

6. To the extent not specifically granted herein all motions be and they hereby are denied; and

7. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed no later than 20 days after the date of service of this order, and answers to such pleadings shall be filed no later than 10 days thereafter.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-6230 Filed 4-21-72;8:52 am]

[5] Continental also filed a supplemental answer together with a motion to withhold the contents thereof from public disclosure. The motion is based on the carrier's allegation that the supplemental answer "involves current foreign relations of the United States" and includes information which, if disclosed, might "have serious impact on sensitive areas of governmental concern * * *." Examination of Continental's supplemental answer, however, persuades us that the carrier's concerns are groundless. Accordingly, the motion will be denied.

[6] Although we will not grant the motions for expedited hearing as such, we expect the case to proceed as rapidly as possible with due regard for the development of a complete record.

[7] However, we do not intend to consider the award of new authority between Japan and any point other than Saipan.

[Docket No. 18610]

SOUTHERN AIRWAYS, INC.

Notice of Oral Argument Regarding Route Realignment Investigation (New Route Authority Phase)

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that oral argument in the above-entitled matter is assigned to be held before the Board on May 10, 1972, at 10 a.m., local time, in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, DC.

Dated at Washington, D.C., April 17, 1972.

[SEAL] RALPH L. WISER,
Chief Examiner.

[FR Doc.72-6231 Filed 4-21-72;8:52 am]

[Docket No. 24259]

SUPERIOR AIRWAYS, LTD.

Notice of Postponement of Hearing

The application filed in this proceeding involves an area in Canada to and from which U.S. air carrier operations are restricted by order of the Canadian Transport Commission.[1] On April 27, 1971, the Board issued an order to show cause (Order 71-4-170) proposing to amend the foreign air carrier permits of five Canadian operators so as to restrict the operations of these carriers in a manner similar to that of the U.S. carriers. In addition, there are several U.S. carriers that have applications pending before the Canadian Transport Commission requesting elimination of the foregoing service restriction.

Bureau Counsel has recommended that all procedural steps subsequent to the prehearing conference be deferred pending further action by the Board and the Canadian authorities on this matter.

Under these circumstances the hearing in this matter is postponed until further notice. (See previous notice 37 F.R. 5675, March 17, 1972.)

Dated at Washington, D.C., April 18, 1972.

[SEAL] JOSEPH L. FITZMAURICE,
Hearing Examiner.

[FR Doc.72-6232 Filed 4-21-72;8:52 am]

[1] The operational limitation applies within the area of Northwestern Ontario west of a line drawn due north from Blind River, Ontario (46°11' latitude, 82°58' W. longitude) and extending to the border between Ontario and Manitoba. The operations of U.S. carriers to resort and lake areas in Northwestern Ontario are effectively prohibited since they are limited to two stops on each flight, one being a Customs Port of Entry, the other being a licensed base of a Canadian charter commercial air carrier.

RURAL ELECTRIFICATION ADMINISTRATION

Draft, April 6

New Madrid Station Unit 2, New Madrid County, Mo. Proposed loan of $72,180,000 to Associated Electric Cooperative, Inc., in order to help finance a 600,000 kw. coal-fired steam-electric generating unit. Thermal discharge to the Mississippi River will be 2620×10^6 B.t.u./hr. at full load. (ELR Order No. 4166, 273 pages) (NTIS Order No. PB–208 179–D)

SOIL CONSERVATION SERVICE

Draft, March 30

Oliver Bottoms Resource Conservation and Development Project, Sebastian County, Ark. Proposed installation of 1.4 miles of channel improvement and appurtenant pipe overfall structures for grade stabilization and erosion control on a 521-acre watershed. (ELR Order No. 4154, 8 pages) (NTIS Order No. PB–208 044–D)

Draft, April 7

Eagle-Tumbleweed Draw Watershed Project, Chaves and Eddy Counties, N. Mex. Proposed watershed and flood control structures, including a floodwater retarding structure, two diversions and an outlet channel. Approximately 1,229 acres of rangeland would be committed to the project. (ELR Order No. 4177, 17 pages) (NTIS Order No. PB–208 176–D)

ATOMIC ENERGY COMMISSION

Contact: For nonregulatory matters: Joseph J. DiNunno, Director, Office of Environmental Affairs, Washington, D.C. 20545, 202—973-5391. For regulatory matters: Christopher L. Henderson, Assistant Director of Regulation for Administration, Washington, D.C. 20545, 202—973-7531.

Draft, March 23.

Surry Power Station Units 1 and 2, Surry County, Va. Proposed issuance of an operating permit to the Virginia Electric & Power Co. for the operation of Surry Units 1 and 2. Each unit has a pressurized-water reactor with a power output of 2,441 MWT which will produce 822.5 MWE. Gross capacities, however, are expected to be 2,546 MWT and 855 MWE each. Waste heat of 12 billion B.t.u./hr. will be dissipated by pumping cooling water from the James River through the station's steam condensers and back into the river. Water from the James will be heated 14° F./gal.; the discharge will be made 5.7 miles upstream from intake in order to minimize thermal effects upon nearby oyster seed beds; fish and plankton will be lost at intake; minor quantities of chemical waste will be discharged to the James; negligible quantities of radioactive gaseous and liquid effluents will be released. (ELR Order No. 4141, 209 pages) NTIS Order No. PB–208 049–D)

DEPARTMENT OF COMMERCE

Contact: Dr. Sydney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Washington, D.C. 20230, 202—967-4335.

Draft, April 1

Expo 74, Spokane County, Wash. The project is a proposed international exposition, the theme of which is "How Man Can Live, Work and Play in Harmony With His Environment." The effects of the Expo's structures on noise, air, and water quality and waste disposal are discussed. (ELR Order No. 4131, 126 pages) (NTIS Order No. PB–208 048–D)

DEPARTMENT OF DEFENSE

DEPARTMENT OF AIR FORCE

Contact: Col. Cliff M. Whitehead, Room 5E 425, The Pentagon, Washington, D.C. 20330, 202 OX 5–2889.

Draft, March 28

Eglin Air Force Base, Fla. Proposed outleasing of land to the Gulf Power Co. in order to install new 230,000 volt power transmission lines which would back up the existing power net. Approximately 812 acres of land would be required; certain weather conditions would introduce ozone into the atmosphere; some vegetation will be lost. (ELR Order No. 4111, 20 pages) (NTIS Order No. PB–207 922–D)

Draft, April 5

Keesler Air Force Base, Miss. Proposed extension of the runway from 5,000 feet to 6,000 feet, in order to accommodate flights by C–9 aircraft. (ELR Order No. 4184, 15 pages) (NTIS Order No. PB–208 193–D)

DEPARTMENT OF ARMY

Contact: George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310, 202 OX 4–4269.

Final, March 27

Western Medical Institute of Research, Presidio of San Francisco, Calif. Proposed construction of research facilities for Phase II of the Institute's three-phase construction project. Comments made by EPA, HUD, DOI, and local agencies.

V 37 N 79 APR 22 72 XUM

(ELR Order No. 4054, 80 pages) (NTIS Order No. PB–199 312–F)

DEPARTMENT OF ARMY

Corps of Engineers

Contact: Col. William L. Barnes, Executive Director, Attention: DAEN–CWZ–C, Office of Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202—693–7163.

Draft, March 29

Wicomico River, Salisbury, Md. Proposed filling of South Prong of the river with dredge spoil from the North Prong. Hydraulic ecosystems would be disturbed by the dredge and fill operation. (ELR Order No. 4133, 8 pages) (NTIS Order No. PB–207 905–D)

Draft, April 3

Ediz Hook Beach Erosion Control, Clallam County, Wash. Proposed rock revetment and beach nourishment of 10,000 feet of the seaward shore of Ediz Hook. Material from the revetment would come from existing quarries; beach material from a source near Port Angeles. The purpose of the project is to provide protection for Port Angeles Harbor. (ELR Order No. 4155, 56 pages) (NTIS Order No. PB–208 046–D)

Draft, April 7

Yazoo Basin, Delta Area, Miss. Proposed construction of a pilot study program of bank stabilization works to be considered include vegetation, Gobi-block matting, transverse stone dikes, stone dike tool protection, articulated concrete mats, and other appropriate works. The estimated costs of the project is $9,500,000. Temporary disturbance and damage to streambanks and vegetation will occur. (ELR Order No. 4174, 59 pages) (NTIS Order No. PB–208 189–D)

Draft, April 6

Oil and gas exploration, Louisiana. Determination of permissibility for a permit to explore for oil or gas or develop production of such resources or other mineral resources in navigable waterways of the Gulf of Mexico. State-owned water bottoms on the Gulf and directly connected thereto are included; inland waterways and those not directly connected to the Gulf are not included; land areas, nonnavigable waterways, and privately owned waterways are not included. Granting of such permits would create obstructions to navigation and fishing; temporary turbidity; altered salinity and circulation of marsh areas; possible significant damage to ecosystems as a result of exploration, dredging and disposal, spillage and leakage of petroleum and gas, and burning of wastes and gases. (ELR Order No. 4175, 81 pages) (NTIS Order No. PB–208 188–D)

Draft, April 7

Lytle and Warm Creeks, San Bernardino County, Calif. Proposed construction of concrete channel structures, levees, a bypass weir, etc., on Lytle and Warm Creeks in the Santa Ana River. Loss of natural stream-bed areas would result. (ELR Order No. 4181, 57 pages) (NTIS Order No. PB–208 194–D)

Draft, April 11

Russian River Basin, Sonoma and Mendocino Counties, Calif. Proposed construction of riprap, flexible fence, and jacklines at seven sites on the Russian River. The purposes of the action are channel improvement and bank stabilization. Riparian habitat, and Indian and Russian fur trader archeological sites will be lost; the river's potential inclusion in the National Wild and Scenic Rivers System will be affected. (ELR Order No. 4183, 35 pages) (NTIS Order No. PB–208 177–D)

DEPARTMENT OF THE NAVY

Contact: Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of Navy, Washington, D.C. 20350, 202—697–0892.

Draft, April 4

Naval Ammunition Depot, Oahu, Hawaii. Proposed acquisition of fee title to approximately 1,177 acres of land adjacent to the West Lock Branch of the Naval Ammunition Depot. The purpose of the action is to prevent development of land now within the explosive safety zone. (ELR Order No. 4132, 53 pages) (NTIS Order No. PB–207 911–D)

Draft, April 10

Naval Submarine Base, New London, Conn. Proposed dredging in order to deepen and widen 7.5 miles of existing navigation channel on the Thames River and Long Island Sound. Temporary turbidity will affect marine ecosystems at the site of dredging and that of disposal. (ELR Order No. 4176, 13 pages) (NTIS Order No. PB–208 175–D)

FEDERAL POWER COMMISSION

Contact: Frederick H. Warren, Advisor on Environmental Quality, 441 G Street NW., Washington, DC 20426, 202—386–6084.

Draft, April 3

Project No. 2545, Spokane, Stevens, and Lincoln Counties, Wash. Proposed approval of a relicensing application by the Washington Water Power Co. for its Spokane River Project No. 2545. The project consists of four developments with a combined generating capacity of 99,200 kw. It is also proposed that one of the developments, the Monroe Street Plant, be reconstructed. (ELR Order No. 4118, 13 pages) (NTIS Order No. PB–207 913–D)

Draft, April 4

Brainerd Hydroelectric Project, Crow Wing County, Minn. Proposed approval of an application for a permit by the Northwest Paper Co. to continue operation of the hydroelectric plant and dam. (ELR Order No. 4126, 26 pages) (NTIS Order No. PB–207 897–D)

Draft, March 31

Lacassine Project, Cameron Parish, La. Proposed construction of 22.1 miles of 30-inch pipeline by Michigan Wisconsin Pipeline Co., from Block 71 to its compressor station near Lake Arthur. (ELR Order No. 4130, 24 pages) (NTIS Order No. PB–207 926–D)

Final, April 6

Project No. 2030, Portland, Oreg. Proposed approval of an amendment to the license held by the Portland General Electric Co. for Project No. 2030, to enable the company to construct, maintain, and operate a fish hatchery at its Round Butte Powerhouse. The hatchery would return 1,800 steelhead trout and 1,200 chinook salmon to the area annually. (ELR Order No. 4164, 19 pages) (NTIS Order No. PB–199 877–F)

Final, March 9

Liquified Natural Gas (LNG), Everett, Mass., and Staten Island, N.Y. Proposed construction by Distrigas Corp. of docking areas and terminal facilities for imported LNG. Dredging operations at the two sites will affect marine ecosystems. Comments made by USDA, Army COE, EPA, DOI, State and local agencies. (ELR Order No. 4180, 62 pages) (NTIS Order No. PB–208 178–F)

GENERAL SERVICES ADMINISTRATION

Contact: Rod Kreger, Acting Administrator, GSA–AD, Washington, D.C. 20405, 202—343–6077.

Alternate contact: Aaron Wolcshin Director, Office of Environmental Affairs, GSA–AD, Washington, D.C. 20405, 202—343–4161.

Draft, April 6

Parcel A–2, Sewage Disposal Area, Pleasantown, Calif. Proposed use of the area by the Valley Community Services District for holding treated effluent from its sewage treatment plant. Vehicular traffic will increase at the site; breeding of mosquitoes may result. (ELR Order No. 4168, 12 pages) (NTIS Order No. PB–208 184–D)

Final, April 10

Army Tank Automotive Plans, Cleveland, Ohio. Proposed disposal of the 60.17-acre plant for use by the city of Cleveland as a buffer zone adjacent to the Hopkins International Airport. Comments made by DOD, EPA, DOT. (ELR Order No. 4170, 14 pages) (NTIS Order No. PB–204 562–F)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Contact: Richard H. Broun, Director, Environmental and Land Use Planning Division, Washington, D.C. 20410, 202—755–6186.

Final, March 29

Water Treatment Facilities, Custer County, Okla. Proposed construction of 5 m.g.d. pretreatment and 3 m.g.d. demineralization water treatment facilities at Foss Reservoir, near Clinton. Cost of the facilities is estimated at $2,200,000. Waste water and dissolved solids from the plant would be discharged to the Washita River. Comments made by USDA, Army, DOC, EPA, FPC, DOI, State and local agencies. (ELR Order No. 4139, 76 pages) (NTIS Order No. PB–204 460–F)

DEPARTMENT OF INTERIOR

Contact: Office of Communications, Room 7214, Washington, D.C. 20240, 202—343–6416.

BUREAU OF LAND MANAGEMENT

Draft, March 31

Proposed 1972 Outer Continental Shelf Oil and Gas General Lease Sale Offshore Eastern Louisiana. Proposed sale of 78 tracts (366,440 acres) of OSC lands in late summer, 1972. All tracts offered pose some degree of pollution risk to the marine environment and/or adjacent shoreline. (ELR Order No. 4078, 266 pages) (NTIS Order No. PB–207 792–D)

BUREAU OF MINES

Draft, March 30

Strip Mined Area Reclamation and Recreation Center Development, Lackawanna County, Pa. Proposed reclamation of 125 acres of strip mined area by filling with spoils, grading and planting. The project is to be coordinated with one being conducted by the county to provide a recreation area/mining museum. (ELR Order No. 4077, 52 pages) (NTIS Order No. PB–207 777–D)

PACIFIC NORTHWEST RIVER BASINS COMMISSION

Contact: Mr. Rob Vining, Post Office Box 908, Vancouver, WA 68660, 206—695–3606.

Draft, March 21

Willamette River Basin Comprehensive Water and Related Land Resource Study, Oregon. Proposed comprehensive development plan based upon estimated basin needs for a future 50-year period. Structural developments would include 52 reservoirs, several major and minor channel works for flood control and irrigation works, etc. (ELR Order No. 4084, 27 pages) (NTIS Order No. PB–207 920–D)

DEPARTMENT OF TRANSPORTATION

Contact: Martin Convisser, Director, Office of Program Co-ordination, 400 Seventh Street SW., Washington, DC 20590, 202—462–4357.

FEDERAL AVIATION AGENCY

Draft, March 31

Polk County, Minn. Request for Federal financial assistance to construct a new runway (75 feet by 3,500 feet), taxiway, install lighting, etc. (ELR Order No. 4116, 25 pages) (NTIS Order No. PB–207 909–D)

Litchfield Municipal Airport, Montgomery County, Ill. Proposed extension of runway, taxiway, and apron, installation of lighting, etc. (ELR Order No. 4127, 24 pages) (NTIS Order No. PB–207 916–D)

Draft, April 7

Aitkin Airport, Aitkin County, Minn. Proposed surfacing of runway (3,500 feet by 75 feet), construction of a taxiway and terminal, and installation of lighting and navigational aids. The crossing of Sissabagamah Creek would be necessary; 15 acres of public land would be taken by the project. (ELR Order No. 4157, 41 pages) (NTIS Order No. PB–208 054–D)

Town of Paris, Edgar County, Ill. Proposed acquisition of land and construction of an E/W runway (75 feet by 3,900 feet), taxiway, apron, access road, terminal, etc. An unspecified amount of land would be taken by the project; local air, noise and water pollution would increase accordingly. (ERL Order No. 4160, 44 pages) (NTIS Order No. PB–208 042–D)

Warroad Municipal Airport, Roseau County, Minn. Proposed surfacing of a 75 feet by 3,500 feet NW/SE runway, construction of a taxiway, apron, etc. (ELR Order No. 4167, 11 pages) (NTIS Order No. PB–208 185–D)

Winnsboro Airport, Fairfield County, S.C. Proposed construction of a basic utility airport adequate for propeller driven aircraft of less than 12,500 lbs. Nineteen acres would be lost to the action. (ELR Order No. 4169, 33 pages) (NTIS Order No. PB–208 190–D)

Cleveland Airport, Cuyahoga County, Ohio. Proposed acquisition of 44.532 acres at the northeast corner of the airport; construction of a Crash/Fire/Rescue and Maintenance Building, taxiway, and electrical vault and clearance of 40.2 wooded acres. Nineteen families would be displaced by the action. (ELR Order No. 4171, 12 pages) (NTIS Order No. PB–208 191–D)

Draft, April 10

Jackson Municipal Airport, Jackson, Miss. Proposed extension of a runway from 6,600 feet to 8,500 feet. (ELR Order No. 4173, 19 pages) (NTIS Order No. PB–208 192–D)

Final, April 3

Pocatello Airport, Power County, Idaho. Proposed extension of runway from 8,248 feet by 150 feet to 9,037 feet by 150 feet, construction of taxiways, installation of lighting, etc. Comments made by USDA, EPA, HUD, DOI, and State agencies. (ELR Order No. 4136, 38 pages) (NTIS Order No. PB–204 958–F)

Stapleton International Airport, Denver, Colo. Proposed construction of a new N/S runway (200 feet by 12,000 feet) with connecting taxiways. The relocation of 64th Avenue and the Rocky Mountain Arsenal railroad spur would be necessary; air and noise pollution would increase. Comments made by USDA, Army COE, EPA, HUD, DOI, State and local agencies. (ELR Order No. 4137, 96 pages) (NTIS Order No. PB–204 557–F)

I–94, Morton County, N. Dak. Proposed construction of an interchange on I–94 at the site of the Collins Avenue Separation in the city of Mandan. Three residences and one business would be displaced by the action. (ELR Order No. 4113, 19 pages) (NTIS Order No. PB–207 923–D)

Draft, March 29

Project EBU–183, U.S. 45, Cook County, Ill. Reconstruction of 4.5 miles of U.S. 45. Three residences and six businesses would be displaced by the action. (ELR Order No. 4115, 51 pages) (NTIS Order No. PB–207 910–D)

Draft, April 3

Project I–55–6(80), Will County, Ill. Proposed construction of a combined Safety Rest Area—District State Police Headquarters on I–55. A 4(f) statement is required as land would be taken from Des Plaines Conservation Area. (ELR Order No. 4120, 51 pages) (NTIS Order No. PB–207 931–D)

Project F–10–7( ), Washtenaw and Wayne Counties, Mich. Proposed construction of 12.3 miles of new Interstate quality highway along routes M–14 and I–96. Approximately 195 parcels of land, including wetlands and agricultural areas, would be lost to the action; an unspecified number of homes would be lost; a portion of the Middle Rouge River would be channeled; a 4(f) statement will be required as parkland would be taken. (ELR Order No. 4121, 52 pages) (NTIS Order No. PB–207 930–D)

Project I–275–7(1)21, Wayne County, Mich. Proposed construction of 6.5 miles of I–275, a six-lane controlled access highway. An unspecified number of residences and amount of land would be lost to the action; a 4(f) statement is required as parkland would be taken. A high local water table makes the disruption of groundwater systems probable. (ELR Order No. 4122, 37 pages) (NTIS Order No. PB–207 929–D)

Draft, April 4

U.S. 221, Ashe County, N.C. Proposed reconstruction of 7.7 miles of U.S. 221, and addition of a curb and gutter. Thirty-three families and one business would be displaced; the possibility of siltation of the New River will exist. (ELR Order No. 4123, 36 pages) (NTIS Order No. PB–207 928–D)

Final, April 10

Park Falls Municipal Airport, Price County, Wis. Proposed land acquisition and construction of a 75 feet by 3,200 feet N/S runway, a connecting taxiway, an apron; low intensity lighting, marking, etc. Air and water quality standards will be affected. Comments made by USDA, Army COE, EPA, HEW, DOI, DOT, State and local agencies. (ELR Order No. 4187, 38 pages) (NTIS Order No. PB–204 025–F)

FEDERAL HIGHWAY ADMINISTRATION

Draft, March 23

Project SU–7240(100)C, Tulsa County, Okla. Proposed reconstruction of 3.5 miles of Avery Drive from two to four lanes. A 4(f) statement will be required as right-of-way would be taken from Chandler Park. (ELR Order No. 4082, 30 pages) (NTIS Order No. PB–207 773–D)

Draft, March 28

Project US–1169(3), Cuyahoga County, Ohio. Proposed reconstruction of 2.86 miles of S.R. 252. Six residences would be displaced by the action. (ELR Order No. 4085, 13 pages) (NTIS Order No. PB–207 899–D)

Draft, March 31

S–1078(10), Tehana County, Calif. Proposed construction of a replacement bridge over the Sacramento River, on F.A.S. 1078. Total project length is 0.45 mile, including approaches. A 4(f) statement would be required as land from adjacent county and State parks would be taken. (ELR Order No. 4086, 23 pages) (NTIS Order No. PB–207 918–D)

Project 9.8122812, Catawba County, N.C. Proposed construction of 2.1 miles of new highway between the N.C. 10–16—S.R. 1880 intersection and S.R. 1739. Fourteen residences and 35 acres would be taken by the right-of-way. The possibility of siltation in nearby streams will occur. (ELR Order No. 4089, 20 pages) (NTIS Order No. PB–207 906–D)

Draft, April 3

Projects F–673( ) and F–297–( ), Hardin County, Ohio. Proposed construction of a four-lane, 8.16 mile-long bypass which would remove routes U.S. 30S, U.S. 68, and S.R. 31 from the city of Kenton. Loss of an unspecified amount of farm land will result. (ELR Order No. 4128, 24 pages) (NTIS Order No. PB–207 917–D)

Project S–1262(6), Miami County, Ohio. Proposed widening of County Road 25A from two to four lanes, and construction of several bridges. An unspecified amount of land would be lost to the project. (ELR Order No. 4129, 20 pages) (NTIS Order No. PB–207 927–D)

Project ER–1642(1), Cuyahoga County, Ohio. Proposed replacement of a major bridge over the Cuyahoga River. Total project length, including approaches is 0.8 mile. An unspecified amount of industrial land would be taken by the project. (ELR Order No. 4134, 11 pages) (NTIS Order No. PB–207 904–D)

Draft, April 4

Project F–024–3( ), Putnam County, Tenn. Proposed construction of 5 miles of S.R. 42. Two streams will be crossed by the project; from 10 to 41 residences will be displaced depending upon which of several alternate routes is chosen. (ELR Order No. 4142, 17 pages) (NTIS Order No. PB–208 051–D)

Project I–280–2(2), Wood County, Ohio. Proposed reconstruction of 6.6 miles of four-lane I–280 to the latest interstate standards. Four families, four businesses, and an unspecified amount of land will be lost to the project. (ELR Order No. 4143, 17 pages) (NTIS Order No. PB–208 050–D)

Draft, April 5

Project No. S–120, Washington County, Iowa. Proposed reconstruction of F.A.S. Routes 595 and 2967 for a total length of

V 37 I 79
APR 22 72
XUM

6 miles. A 4(f) statement would be required as some of the land needed is owned by the Iowa State Conservation Commission. (ELR Order No. 4144, 7 pages) (NTIS Order No. PB-208 047-D)

Draft, April 11

Loop 499, Cameron County, Tex. Proposed construction of highway Loop 499, which would total 6.8 miles in length. Thirteen families and four businesses would be displaced by the action. (ELR Order No. 4182, 21 pages) (NTIS Order No. PB-208 187-D)

Final, April 4

Park Road 100, Cameron County, Tex. Proposed construction of 11.7 miles of two-lane highway on a 200-foot right-of-way. The highway would introduce people and vehicles to a totally undeveloped seashore area, and to Padre Island. Damage to existing protective sand dunes would occur; rapid development of the area is expected to result from the project. Comments made by Army COE, EPA, and State agencies. (ELR Order No. 4119, 19 pages) (NTIS Order No. PB-203 480-F)

Project I-65—3(54), Limestone County, Ala. Proposed construction of a rest area on I-65. The project would include parking, water, picnic, sanitary, and tourist information facilities. Comments made by USDA, AEC, Army COE, HUD, DOI, TVA, DOT, State and local agencies. (ELR Order No. 4124, 43 pages) (NTIS Order No. PB-207 900-F)

Trunk Highways 12, 23, and 71, Kandiyohi County, Minn. Proposed rerouting of the three highways to a southwesterly bypass of the city of Willman. The total project length is 10 miles. One farmstead, one residence, one church, and an unspecified amount of land will be lost to the project. Comments made by EPA, Army COE, HEW, HUD, DOI, OEO, and DOT. (ELR Order No. 4125, 38 pages) (NTIS Order No. PB-204 029-F)

Project I-80-2(41), Cheyenne County, Nebr. Proposed construction of 3 miles of I-80 and 5.4 miles of N-19. One business and an unspecified amount of land would be lost to the action. Comments made by USDA, Army COE, EPA, HUD, and DOI. (ELR Order No. 4132, 29 pages) (NTIS Order No. PB-201 237-F)

Final, March 31

F.A.S. Route 414, Kenai Peninsula Borough, Alaska. Proposed construction of 9.8 miles of F.A.S. Route 414. An unspecified number of residences and amount of land will be lost to the project. Comments made by USDA, HUD, DOI, DOT, State and local agencies, and concerned citizens. (ELR Order No. 4145, 44 pages) (NTIS Order No. PB-208 040-F)

Project SP-0056-1(4) Winston County, Miss. Proposed construction of 5.5 miles of Mississippi Highway 25, a two-lane highway with right-of-way for ultimate construction of a four-lane facility. An unspecified amount of land will be lost to the project. Comments made by USDA, Army COE, DOC, and State agencies. (ELR Order No. 4146, 13 pages) (NTIS Order No. PB-199 627-F)

Project F-024-2( ), S.R. 80, Palm Beach County, Fla. Proposed construction of S.R. 80 along a corridor between S.R. 15 and S.R. 700. An unspecified amount of land would be lost to the project. Comments made by USDA, Army COE, USCG, DOC, EPA, DOI, DOT, State and local agencies. (ELR Order No. 4147, 44 pages) (NTIS Order No. PB-202 644-F)

Project F-039-1( ), McMinn County, *Tenn.* Proposed construction of 7 miles of S.R. 30. Six residences would be displaced by the project; several small streams would be crossed. Comments made by USDA, FAA, TVA, State and local agencies. (ELR Order No. 4148, 44 pages) (NTIS Order No. PB-208 053-F)

Project S-6690(1), St. Louis County, Minn. Proposed reconstruction of two-lane County-State Aid Highway 13, for a total length of 4.2 miles. One residence, several garages, and 20 acres will be lost to the project. Comments made by USDA, EPA, HUD, and DOI. (ELR Order No. 4149, 26 pages) (NTIS Order No. PB-204 966-F)

U.S. 65, Polk County, Iowa. Proposed reconstruction of 3 miles of U.S. 65. Approximately 1,200 feet of creek channel change will be required. Comments made by USDA, EPA, DOI, State and local agencies. (ELR Order No. 4150, 19 pages) (NTIS Order No. PB-203 611-F)

I-95, Philadelphia County, Pa. Proposed construction of five sections of I-95, totaling 2.15 miles in length. It is a fully controlled limited access highway, varying in width from six to 10 lanes. An unspecified number of individuals and buildings would be displaced by the action. Comments made by USDA, EPA, HUD, and State agencies. (ELR Order No. 4151, 78 pages) (NTIS Order No. PB-208 052-F)

Project F-918-1(13), Worcester County, Md. Proposed construction of 1.6 miles of new highway and 0.8 mile of existing highway on U.S. 113. Five residences would be displaced by the action. Comments made by USDA, EPA, HUD, State and local agencies. (ELR Order No. 4152, 41 pages) (NTIS Order No. PB-201 502-F)

U.S. COAST GUARD

Contact: D. B. Charter, Jr., Commander, U.S. Coast Guard, Chief, Environmental Coordination Branch, 400 Seventh Street SW., Washington, DC 20591, 202—426-9573.

Draft, April 7

Baltimore Harbor Outer Crossing, Baltimore County, Md. Proposed approval of plans for a high level fixed bridge across the Patapsco River from Hawkins Point, Baltimore City to Sollers Point, Baltimore County. Approximately 80,000 cu. yd. of material would be dredged from the river and disposed in upland containment area. Land would be taken from two public parks—Fort Armistead and Baltimore County Park. (ELR Order No. 4156, 67 pages) (NTIS Order No. PB-208 039-D)

BRIAN P. JENNY,
Acting General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

UNION CARBIDE CORP.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 2F1253) has been filed by Union Carbide Corp., Tarrytown, N.Y. 10591, proposing establishment of an exemption from the requirement of a tolerance (40 CFR Part 180) for residues of α-hydro-*omega*-hydroxypoly(oxyethylene) with a molecular weight of 100,000 or more when used as an inert carrier in pesticide formulations applied to growing crops.

The analytical method proposed in the petition for determining residues of the inert carrier is a turbidimetric procedure with spectrophotometric measurement at 430 nanometers.

Dated: April 18, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator, for Pesticides Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Report 592]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

APRIL 17, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's Rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cutoff rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

7123-C2-P-(2)-72—Miami Valley Radiotelephone (New), for a new two-way station to be located at 5091 Mosiman Road, near Middletown, Ohio, to operate on 454.075 and 454.275 MHz.

7124-C2-MP-72—American Mobile Radio, Inc. (KSV979), replace transmitter operating on 152.24 MHz, located at 2389 Raymond Avenue, Lot No. 15, Signal Hill Tract, Long Beach, CA.

7125-C2-P-(2)-72—Radio Paging, Inc. (KLF613), for additional facilities to operate on 454.075 and 454.175 MHz, located at 1010 Travis Street, The Tennessee Building, Houston, TX.

7126-C2-P-72—Airsignal International, Inc. (KIF653), replace transmitter and relocate facilities operating on 35.220 MHz to the First National Bank Building, 165 Madison, Memphis, TN.

7169-C2-P-72—Page Two, Inc. (New), for a new two-way station to be located at 236 South Academy, Galesburg, IL, to operate on 152.18 MHz and (20) dispatch station pursuant to section 21.519(a) of the rules.

7166-C2-P-72—The Allied Cos., Inc. (KAL873), for additional facilities to operate on 454.225, 454.250, and 454.350 MHz at a new site described as location No. 2: 4137 Lower Silver Lake Road, Topeka, KS.

7166-C2-P-72—Morrison Radio Relay Corp. (KKJ460), relocate facilities operating on 35.22 MHz at location No. 3 to: 600 East Lamar Street, Arlington, TX.

7167-C2-P-(2)-72—R & L Radio (KPL910), replace the repeater transmitter operating on 459.200 MHz at location No. 1: On Highway No. 13, 4.25 miles south of Clinton, Mo., and the control transmitter operating on 454.20 MHz at location No. 2: 137 South Washington Street, Clinton, MO.

7248-C2-P-72—Southwestern Bell Telephone Co. (KAA819), replace auxiliary test transmitter operating on 157.77, 157.80, 157.89, 158.01, and 158.04 MHz, located at 6213 Holmes Street, Kansas City, MO.

7244-C2-P-72—Ratel Communications Co. (KQZ799), for additional facilities to operate on 158.70 MHz, located at 813 Eighth Street, Wichita Falls, TX.

7245-C2-P-72—Southern Bell Telephone & Telegraph Co. (New), for a new two-way station to be located at 1525 Southwest Avenue E. Belle Glade, FL, to operate on 152.75 MHz.

7247-C2-P-(6)-72—Uintah Basin Telephone Association, Inc. (New), for a new two-way station to operate on 152.66 and 152.81 MHz base and 72.12 and 72.04 MHz repeater at location No. 1: 13 miles north-northwest of Altamont, Utah, at location No. 2: 1 mile east of Neola on Highway No. 121, Neola, Utah, to operate on 75.900 and 75.960 MHz for control facilities.

7246-C2-P-72—Myrtle Beach Communications (KRM944), replace transmitter operating on 152.24 MHz, located at 0.75 mile west of intersection of U.S. Highway No. 17 and 29th Avenue, (29th Avenue Extension), Myrtle Beach, SC.

7249-C2-P-72—Massachusetts-Connecticut Mobile Telephone Co. (New), for a new two-way station to be located at Horse Mountain, Northampton, Mass., to operate on 454.05 MHz.

7250-C2-P-(2)-72—Massachusetts-Connecticut Mobile Telephone Co. (KOC479), for additional facilities to operate on 454.275 and 454.925 MHz located at West Rock Ridge, 3.75 miles northwest of New Haven, Conn.

7251-C2-P-(3)-72—Radio Electronics Products Corp. (KMD687), for additional facilities to operate on 75.62 MHz control at location No. 2: 310 Lake Boulevard, Redding, CA, add 152.06 MHz base and 72.420 MHz repeater at location No. 3: Sugarloaf Lookout, 2.3 miles southwest of Delta, Calif.

5119-C2-P-72—A-Bie Answering Service (KFL907), renewal of license expiring April 1, 1972. Term: April 1, 1972 to April 1, 1974.

POINT-TO-POINT MICROWAVE RADIO SERVICE

7128-C1-AP/AL-(8)-72—Microwave Service Co. Consent to assignment of Frank K. Spain doing business as Microwave Service Co. assignor to Microwave Service Co. of Florida, Inc., assignee. Station: KIU45 Newberg, Ala., WAD22 Olive Branch, Miss.; KUV90 Ashland, Miss.; KLN74 Keowrville, Miss.; KLH80 Tupelo, Miss.; KLV82 Okolona, Miss.; KUV91 West Point, Miss., and WAD21 Memphis, Tenn.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

7129-C1-P-72—Range Telephone Cooperative, Inc. (New), 16 miles east of Ashland, Mont. Latitude 45°36'16" N. longitude 106°58'13" W. C.P. for 11,245.00V MHz toward Ashland, Mont., via passive reflector on azimuth 265°12'. From passive reflector to Ashland, Mont., on azimuth 25°40'.

7130-C1-P-72—Range Telephone Cooperative, Inc. (New), 225 feet from the intersection of Custer Street and Highway 212, Ashland, Mont. Latitude 45°35'23" N., longitude 106°15'52" W. C.P. for a new station on frequency 10,715.0V MHz toward Ashland, Mont., on azimuth 206°40'. From Ashland passive reflector to Home Creek Butte, Mont., on azimuth 84°56'.

7131-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS42), Berryessa Peak, 5.6 miles south-southwest of Brooks, Calif. Latitude 38°39'51" N, longitude 122°11'16" W. C.P. to add 4090H and change frequencies from V to H on 4010H, 3930H, 3850H, and 3770H MHz toward Clearlake Oaks, Calif.

7132-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS43), 14.7 miles northeast of Clearlake Oaks, Calif. Latitude 39°09'48" N., longitude 122°28'53" W. C.P. to add 4060H MHz and change polarization from V to H on frequencies 3970H, 3890H, 3810H, and 3730H MHz toward Berryessa Peak, Calif., and add 4050H and change polarization on frequencies from V to H to 3970H, 3890H, 3810H, and 3730H MHz toward Elk Creek, Calif.

7133-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS44), 5.5 miles south-southwest of Elk Creek, Calif. Latitude 39°30'57" N., longitude 122°33'42" W. C.P. to add 4090H MHz and change polarization on frequencies from V to H on 4010H, 3930H, 3850H, and 3770H MHz toward Clearlake Oaks, Calif., and add 4090V MHz toward Paskenta, Calif.

7134-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS46), 11 miles north of Paskenta, Calif. Latitude 40°02'45" N., longitude 122°34'13" W. C.P. to add 4060V MHz toward Elk Creek and Cottonwood, Calif.

7135-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS46), 7.5 miles East of Cottonwood, Calif. Latitude 40°22'19" N., longitude 122°08'29" W. C.P. to add 4090V MHz toward Paskenta and Bear Spring, Calif.

7136-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS51), Bear Spring, 6.6 miles northeast of Montgomery Creek, Calif. Latitude 40°54'23" N., longitude 121°49'39" W. C.P. to add 4050V MHz toward Cottonwood and Pondosa, Calif.

7137-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS52), 4 miles south-southwest of Pondosa, Calif. Latitude 41°08'30" N., longitude 121°42'30" W. C.P. to add 4090V MHz toward Bear Spring and Timber Mountain, Calif.

7138-C1-P-72—The Pacific Telephone & Telegraph Co. (KYS53), 4 miles southwest of Perez, Calif. Latitude 41°37'47" N., longitude 121°17'53" W. C.P. to add 4060V MHz toward Pondosa and Brady Butte, Calif.

7141-C1-ML-72—American Telephone & Telegraph Co. (KYJ90), 0.5 mile southwest of Faulknf, Md. Modification of license to change polarization on frequencies from V to H on 3980V and 4010V MHz toward Woodman, W. Va.

7142-C1-P-72—The Pacific Telephone & Telegraph Co. (KMB70), 140 New Montgomery Street, San Francisco, CA. Latitude 37°47'12" N., longitude 122°23'58" W. C.P. to add 11,465H MHz toward KOSM-TV, San Mateo, Calif.

7143-C1-P-72—The Pacific Telephone & Telegraph Co. (KMC67), East Bay Hills, 3750 Grizzly Peak Boulevard, Oakland, CA. Latitude 37°52'26" N., longitude 122°13'08" W. C.P. to add 4190V MHz toward KYEH-TV, San Jose, Calif.

(INFORMATIVE: Applicant, MCI Indiana-Ohio, Inc., is modifying its original proposal for specialized Common Carrier Radio Service between Cleveland, Ohio, and South Bend, Ind., and points in between, by filing the 11 new applications below. Of these new filings, eight will be replacing eight previously filed applications.

7154-C1-P-72—MCI Indiana-Ohio, Inc. (New), Site 19, Pyrmont, Ohio. C.P. for a new station, 1.6 miles south of Pyrmont, Ohio, at latitude 39°47'16" N., longitude 84°27'41" W. Frequencies 5974.8H MHz on azimuth 128°56' toward Waynesville, Ohio, 6974.8V MHz on azimuth 306°44' toward Lynn, Ind.

7155-C1-P-72—MCI Indiana-Ohio, Inc. (New), Site 20, Lynn, Ind. C.P. for a new station 8 miles northwest of Lynn, Ind., at latitude 40°02'00" N., longitude 84°58'27" W. Frequencies 6226.0V MHz on azimuth 126°27' toward Pyrmont, Ohio, 6197.2V MHz on azimuth 268°49' toward Mount Summit, Ind.

APR 22 72 XUM

POINT-TO-POINT MIRCOWAVE RADIO SYSTEM—continued

7156–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 21, Mount Summit, Ind. C.P. for a new station, 0.5 mile east of Mount Summit, Ind., at latitude 40°00'17'' N., longitude 85°22'53'' W. Frequencies 5945.2V MHz on azimuth 85°30' toward Lynn, Ind., 5974.8H MHz on azimuth 257°05' toward Pendleton, Ind., 3850.0H MHz on azimuth 358°42' toward Muncie, Ind., 3770.0V MHz on azimuth 294°11' toward Anderson, Ind., 5945.2H MHz on azimuth 323°14' toward Summitville, Ind.

7157–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 22, Pendleton, Ind. C.P. for a new station, 5 miles southeast of Pendleton, Ohio, at latitude 39°57'11'' N., longitude 85°-40'20'' W. Frequencies 6226.9H MHz on azimuth 76°54' toward Mount Summit, Ind., 6197.2H MHz on azimuth 252°48' toward McCordsville, Ind.

7158–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 23, McCordsville, Ind. C.P. for a new station, 1 mile west-southwest of McCordsville, Ind., at latitude 39°53'21'' N., longitude 85°56'20'' W. Frequencies 5945.2H MHz on azimuth 72°38' toward Pendleton, Ind., 11,385.0V and 11,305.0V MHz on azimuth 234°38' toward Indianapolis, Ind.

7159–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 27, Summitville, Ind. C.P. for a new station, 4.7 miles north-northwest of Summitville, Ind., at latitude 40°21'36'' N., longitude 85°43'44'' W. Frequencies 6197.2H MHz on azimuth 143°01' toward Mount Summit, Ind., 3770.0V MHz on azimuth 18°46' toward Marion, Ind., 3850.0H MHz on azimuth 292°27' toward Kokomo, Ind., 6226.9H MHz on azimuth 342°32' toward Rich Valley, Ind.

7160–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 30, Rich Valley, Ind. C.P. for a new station, 3.1 miles north of Rich Valley, Ind., at latitude 40°49'50'' N., longitude 85°-55'26'' W. Frequencies 5945.2V MHz on azimuth 162°24' toward Summitville, Ind., 3730.0V MHz on azimuth 66°58' toward Roanoke, Ind., 5974.8V MHz on azimuth 349°26' toward Mentone, Ind.

7161–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 31, Roanoke, Ind. C.P. for a new station, 2.8 miles northwest of Roanoke, Ind., at latitude 40°59'37'' N., longitude 85°24'52'' W. Frequencies 3770.0V MHz on azimuth 247°18' toward Rich Valley, Ind., 3850.0H MHz on azimuth 67°23' toward Fort Wayne, Ind.

7162–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 33, Mentone, Ind. C.P. for a new station, 2.8 miles northwest of Roanoke, Ind., at latitude 40°59'37'' N., longitude 85°24'52'' W. Frequencies 6226.9V MHz on azimuth 169°23' toward Rich Valley, Ind., 6197.2V MHz on azimuth 345°24' toward Wyatt, Ind.

7163–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 34, Wyatt, Ind. C.P. for a new station, 2.6 miles northeast of Wyatt, Ind., at latitude 41°33'12'' N., longitude 86°08'12'' W. Frequencies 5945.2V MHz on azimuth 165°19' toward Mentone, Ind., 10,735.0H and 11,135.0H MHz on azimuth 325°17' toward South Bend, Ind.

7164–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 36, Massillon, Ohio. C.P. for a new station, 3.5 miles west of Massillon, Ohio, at latitude 40°47'32'' N., longitude 81°35'10'' W. Frequencies 5974.8V MHz on azimuth 326°04' toward Medina, Ohio, 10,775.0V and 11,175.0V MHz on azimuth 88°08' toward Canton, Ohio.

7264–C1–P–72—American Telephone & Telegraph Co. (KCM82), 1.6 miles south of Littleton, Mass. Latitude 42°31'29'' N., longitude 71°27'49'' W. C.P. to add 3890V MHz toward West Andover, Maine.

7265–C1–P–72—American Telephone & Telegraph Co. (KSW25), 2.8 miles west of West Andover, Mass. Latitude 42°39'16'' N., longitude 71°13'12'' W. C.P. to add 3930V MHz toward Littleton, Maine.

7266–C1–P–72—American Telephone & Telegraph Co. (New), corner of Canal and Hampshire Streets, Lawrence, Mass. Latitude 42°42'18'' N., longitude 71°09'52'' W. C.P. for a new station on frequencies 3770H, 3850H, and 3930H MHz toward Lawrence, Maine, and 3730H, 3810H, and 3890H MHz toward West Andover, Maine.

7267–C1–P–72—American Telephone & Telegraph Co. (New), 1.2 miles south-southwest of North Pelham, N.H. Latitude 42°45'33'' N., longitude 71°21'58'' W. C.P. for a new station on frequencies 3770V and 3850V MHz toward Lawrence, Maine, and 3770H and 3850H MHz toward Ashburnham, Maine.

7268–C1–P–72—American Telephone & Telegraph Co. (KCD65), 3.5 miles northeast of Ashburnham, Mass. Latitude 42°40'27'' N., longitude 71°52'06'' W. C.P. to add 3730H and 3810H MHz toward North Pelham, N.H.

7269–C1–P–72—The Mountain States Telephone & Telegraph Co. (KPB52), 70 South State Street, Salt Lake City, UT. C.P. to add 3750V MHz toward Camp Williams, Utah.

POINT-TO-POINT MIRCOWAVE RADIO SYSTEM—continued

7270–C1–P–72—The Mountain States Telephone & Telegraph Co. (KPB53), 5 miles northwest of Lehi, Utah. Latitude 40°25'38'' N., longitude 111°56'12'' W. C.P. to add 3710V MHz toward Provo, Utah.

7271–C1–P–72—The Mountain States Telephone & Telegraph Co. (KPB54), 1210 West Center Street, Provo, UT. Latitude 40°14'03'' N., longitude 111°40'41'' W. C.P. to add 10,735V MHz toward Station KBYU Brigham Young University Campus, Utah.

7272–C1–TC–72—Madison Valley Telephone Co. (WJK79), Big Sky, 30.5 miles southwest of Bozeman, Mont. Application for consent to transfer of control Universal Telephone, Inc., transferor to Continental Telephone Corp., transferee.

7273–C1–ML–72—American Telephone & Telegraph Co. (KTQ69), 2 miles east of Hope, N.J. Latitude 40°54'15'' N., longitude 74°55'55'' W. Modification of license to change polarization on frequencies from H to V for 6197.2V, 6375.2V, and 6424.5V and on frequencies from V to H are 6177.5H, 6226.9H, 6286.2H, 6345.5H, and 6404.8H MHz toward Cherryville, N.J.

7274–C1–ML–72—American Telephone & Telegraph Co. (KEA77), 0.8 mile north of Cherryville, N.J. Latitude 40°34'18'' N., longitude 74°54'22'' W. Modification of license to change polarization from H to V on frequencies 5925.5V, 5974.8V, 6034.2V, 6093.5V, and 6152.6V and from V to H on frequencies 5945.2H, 6123.1H, and 6172.5H MHz toward Hope, N.J.

The following applicant proposes to establish omnidirectional facilities for the provision of common carrier "Subscriber-Programed" television service.

7242–C1–P–72—Golden Peso (New), 15 West Sixth Street, Tulsa, OK. Latitude 36°09'01'' N., longitude 95°59'25'' W. C.P. for a new station on frequencies 2152.325 (visual) and 2150.20 (aural) toward various receiving points of system and 2158.50 (visual) and 2154.00 (aural) toward various receiving points of system.

INFORMATIVE: It appears that the following applications may be mutually exclusive subject to the Commission's rules regarding ex parte presentations, reasons of potential electrical interference.

Oklahoma—Tulsa

Golden Peso (New), file No. 7242–C1–P–72.
United Video, Inc. (New), file No. 5064–C1–P–72.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)

Major Amendments

INFORMATIVE: Applicant, MCI Indiana-Ohio, Inc., is amending 16 of its previously filed applications for authority to construct a new specialized common carrier service in a two-State area from Cleveland, Ohio, to South Bend, Ind., and serving a number of other major cities in Ohio and Indiana. The applications now being amended were originally filed on June 26, 1970, and December 21, 1971. They appeared in public notice, July 6, 1970, FCC Report No. 499 and January 17, 1972, FCC Report No. 579, respectively. Each application that is now amended is referenced to the date filed. In addition, 11 new sites are now proposed. The amendments and new applications are necessitated to insure compliance with the new engineering standards set forth in the Commission's first report and order in Docket No. 18920, effective July 15, 1971, and Informative Guidelines published regarding frequency coordination in Report No. 562, FCC Common Carrier Services Information released September 20, 1971.

4124–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 3, station located 3 miles south-southeast of Medina, Ohio. Add frequency 6226.9V MHz on azimuth 145°54' toward Massillon, Ohio.

4129–C1–P–72—MCI Indiana-Ohio, Inc. (New), Site 11, station located 0.7 mile northnortheast of Vienna, Ohio. Add frequency 6256.5V MHz on azimuth 265°13' toward Springfield, Ohio.

8876–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 13, station located 2.7 miles northnorthwest of Waynesville, Ohio. Change direction of transmission of frequency 6226.9H MHz toward Mason, Ohio, to azimuth 212°03'. Add frequency 6226.9H MHz on azimuth 309°09' toward Pyrmont, Ohio.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

8871–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 15, change proposed station location to 2.8 miles south of Mason, Ohio, at latitude 39°18'59'', longitude 84°19'10''. Change direction of transmission of frequency 5945.2V MHz toward Cincinnati, Ohio, to azimuth 214°55'. Change direction of transmission of frequency 5974.8H MHz toward Waynesville, Ind., to azimuth 31°55'. Add frequencies 5974.8H MHz on azimuth 293°53' toward Hamilton, Ohio, 5945.2H MHz on azimuth 243°01' toward Middletown, Ohio.

8874–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 16, station located at Fifth and Vine Streets, Cincinnati Center, Cincinnati, Ohio. Change direction of transmission of frequency 6197.2V MHz toward Mason, Ohio, to azimuth 34°48'.

8873–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 17, station located at Rentschler Building, Second and High Streets, Hamilton, Ohio. Delete frequencies 10,775V and 10,995V MHz. Add frequency 6226.9H MHz on azimuth 131°44' toward Mason, Ohio. Delete Gano, Ohio, as a point of communication.

8872–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 18, station located at 1201 Central Avenue, Middletown, OH. Delete frequencies 6197.2V and 6315.9V MHz. Add frequency 6197.2H MHz on azimuth 161°58' toward Mason, Ohio. Delete Gano, Ohio, as a point of communication.

8868–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 24, station located at Indiana National Bank Building, 1 Indiana Square, Indianapolis, IN. Delete frequencies 11,175V and 10,935V MHz. Add frequencies 10,975.0V and 11,055.0V MHz on azimuth 54°30' toward McCordsville, Ind. Delete Pleasant View, Ind., as a point of communication.

8865–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 25, station located at Hotel Madison, 912 Meridian Street, Anderson, IN. Delete frequencies 10,835V and 11,035V MHz. Add frequency 3710.0H MHz on azimuth 114°00' toward Mount Summit, Ind. Delete Muncie, Ind., as a point of communication.

8864–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 26, station located at Wysler Building, corner of Main and Walnut Streets, Muncie, Ind. Delete frequencies 6034.2V, 6152.8V MHz, 5974.8V 6093.5V MHz, 11,325V, and 11,565V MHz. Delete Marion, Ind., Spiceland, Ind., and Anderson, Ind., as points of communication. Add frequency 3810.0H MHz on azimuth 178°42' toward Mount Summit, Ind., as a new point of communication.

8862–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 28, station located at 2200–2300 Home Avenue Building, Building No. 8, Marion, IN. Delete frequencies 6197.2V, 6315.9V MHz, 5974.8V, 6093.5V MHz, 6226.9V and 6345.5V MHz. Delete Rockford, Ind., Muncie, Ind., and Kokomo, Ind., as points of communication. Add frequency 3730.0V MHz on azimuth 198°49' toward Summitville, Ind., as a new point of communication.

8863–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 29, station located at Armstrong Lanon Building, Sycamore and Main Street, Kokomo, Ind. Delete frequencies 5974.8V and 693.5V MHz. Delete Marion, Ind., as a point of communication. Add frequency 3810.0H MHz on azimuth 112°11' toward Summitville, Ind., as a new point of communication.

8860–C1–P–70—MCI Indisna-Ohio, Inc. (New), Site 32, station located at Fort Wayne Bank Building, Corner of Berry and Calhoun Streets, Fort Wayne, Ind. Delete frequencies 10,895V and 11,135V MHz. Delete Collins, Indiana as a point of communication. Add frequency 3810.0H MHz on azimuth 247°34' toward Roanoke, Ind., as a point of communication.

8857–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 35, station located at St. Joseph Bank Building, 202 South Michigan Street, South Bend, IN. Delete frequencies 6256.5V and 6375.2V MHz. Delete Millersburg, Ind., as a point of communication. Add frequencies 11,225.0H and 11,625.0H MHz on azimuth 148°13' toward Wyatt, Ind., as a new point of communication.

8884–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 37, station located at McKinley and Fourth Streets, Canton, Ohio. Delete frequencies 6004.5H and 6123.1H MHz. Delete Apple Creek, Ohio, as a point of communication. Add frequencies 11,665.0V and 11,265.0V MHz on azimuth 268°16' towards Massillon, Ohio, as a new point of communication.

8877–C1–P–70—MCI Indiana-Ohio, Inc. (New), Site 38, station located at 34 West High Street, Springfield, OH. Delete frequencies 10,755V and 10,995V MHz. Delete Cortaville, Ohio, as a point of communication. Add frequency 5945.2V MHz on azimuth 85°06' toward Vienna, Ohio, as a new point of communication.

92–C1–P–72—The Western Union Telegraph Co. (KQG32), change polarization of frequencies 3830 and 4150 MHz on path toward Columbus, Ohio, to Vertical.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

93–C1–P–72—The Western Union Telegraph Co. (KQG31), change polarization of frequencies 3710 and 4030 MHz on path toward South Vienna, Ohio, to Vertical.

2162–C1–P–71—MCI Pacific-Mountain States, Inc. (New), C.P. for a new station 8 miles northeast of Sage, Wyo. Delete frequency 5974.8H MHz and add frequency 6226.9H MHz on azimuth 257°03' toward Providence, Utah. All other particulars are the same as reported in public notice on March 20, 1972, FCC Report No. 588.

4015–C1–P–72—American Microwave & Communications, Inc. (KYO47), change frequency 6086.0H MHz to 6123.1H MHz toward Perrinton and East Lansing, Mich. Station location: 3.5 miles north of Williamston, Mich.

3325–C1–P–68—Frank K. Spain, doing business as Microwave Service Co. (New), add frequencies 5974H, 6034H, 6094H, 6153H and 10,715H MHz on azimuth 338°30' toward a new point of communication, 1.5 miles south of Porterville, Calif. Station location: 1.5 miles southwest of Woody, Calif. All other particulars remain as reported on public notice dated October 14, 1968, and as amended in other public notices.

684–C1–P–72—Frank K. Spain, doing business as Microwave Service Co. (New), major amendment: Add frequency 10,875H MHz on azimuth 274°45'. This amendment filed simultaneously with applications for new stations which will provide service to Jackson, Miss. Location: 5.7 miles south-southeast of Meridian, Miss., at latitude 32°19'40'' N., longitude 88°41'28'' W. All other particulars same as reported in public notices dated August 16, 1971, and January 10, 1972.

Corrections

3357–C1–P–72—CPI Microwave, Inc. (New), San Antonio, Tex. Correct to read: Change frequency 6271.4H MHz toward Floresville, Tex., to 6301.0H MHz. See Reports Nos. 590 dated April 3, 1972, and 574, dated December 13, 1971.

6235–C1–P–72—MCI Kentucky Central, Inc. (New), correct longitude to read 86°01'23'' W. All other particulars same as reported in public notice No. 589, dated March 27, 1972.

6217–C1–P–72—The Bell Telephone Co. of Pennsylvania (New), Lewistown, Pa. Correct latitude of location to read: Latitude 40°35'51'' N. All other particulars same as indicated in Report No. 588 dated March 20, 1972.

6710–C1–P–72—Cincinnati Bell, Inc. (New), Gibsonburg, Ohio. Correct frequencies toward Fremont, Ohio, to read 10,915V and 10,755V MHz. All other particulars same as indicated in Report No. 590 dated April 3, 1972.

6265–C1–P–72—South Central Bell Telephone Co. (New), Eden, Ky. Correct longitude of location to read: Longitude 85°08'22'' W. All other particulars same as indicated in Report No. 589, dated March 27, 1972.

[Docket No. RP72-114]

ALGONQUIN GAS TRANSMISSION CO.

Proposed Changes in Rates and Charges

APRIL 12, 1972.

Take notice that Algonquin Gas Transmission Co. (Algonquin) on April 3, 1972, tendered for filing proposed changes in its FPC Gas Tariff, Original Volumes Nos. 1 and 2.[1] The proposed changes would increase Algonquin's revenues from jurisdictional sales and service by $136,703 based on sales volumes for the 12-month period ending February 29, 1972. The proposed rate change is described in the company's transmittal letter as follows:

The rate increase reflected in the foregoing revised tariff sheets is filed to compensate only for an increase in purchased gas cost. Such increase in the cost of purchased gas results from the rate increase filed by Algonquin's sole supplier, Texas Eastern Transmission Corp. (Texas Eastern) on or about March 31, 1972, and proposed to become effective on May 1, 1972. The Texas Eastern rate increase reflects an increase in cost of purchased gas to Texas Eastern from its producer suppliers, and is in accordance with the provisions of Article III of the Stipulation and Agreement dated January 21, 1971, approved by Commission order issued March 24, 1971, in Texas Eastern Docket No. RP70-29, et al.

It is proposed that the foregoing revised tariff sheets be permitted to become effective on May 1, 1972, or such other date as the underlying increased rates proposed by Texas Eastern become effective.

It is to be noted that the Texas Eastern increase which occasions this filing is also a tracking increase. To permit Texas Eastern's increase to become effective without correspondingly permitting Algonquin's increase to become effective would not only be inconsistent as between the two regulated companies, but would also result in a loss of revenue to Algonquin which could well be irrecoverable.

Reference is made to the rate increase filing made by Algonquin on March 1, 1972, in Docket No. RP72-110, and particularly to Algonquin's cost of service contained therein. There has been no material change in Algonquin's facilities, sales volumes and cost of service other than cost of gas since the above referred to rate increase filing was made.

[1] Volume No. 1: Fourth Substitute 27th Revised Sheet No. 5, Fourth Substitute 27th Revised Sheet No. 10, Fourth Substitute 28th Revised Sheet No. 11-A, Fourth Substitute 28th Revised Sheet No. 12, Fourth Substitute 28th Revised Sheet No. 14 and Second Substitute 23d Revised Sheet No. 15-J. Volume No. 2: Fourth Substitute 28th Revised Sheet No. 4 and Fourth Substitute 25th Revised Sheet No. 57.

Inasmuch as the rate increase proposed herein by Algonquin is a tracking increase being filed to compensate only for an increase in cost of gas, the Commission is respectfully requested herewith to grant whatever special permission or waivers of compliance with any parts of its rules and regulations as are necessary to effectuate this proposal.

The above-mentioned tariff sheets are being posted in accordance with § 154.16 of the Federal Power Commission's regulations under the Natural Gas Act by mailing a copy of this filing to each of Algonquin's authorized purchasers and interested State commissions as shown on the attached list and by making it available for public inspection during normal working hours at Algonquin's general office in Boston, Mass.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 24, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-7724]

IOWA PUBLIC SERVICE CO.

Notice of Application

APRIL 14, 1972.

Take notice that on April 5, 1972, Iowa Public Service Co. (Applicant) filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of $17 million principal amount of first mortgage bonds and 130,000 shares of cumulative preferred stock (par value $100 per share).

Applicant is incorporated under the laws of the State of Iowa, with its principal business office in Sioux City, Iowa, and is engaged in the electric utility business in northwestern, north central and east central Iowa and a few small communities in South Dakota.

Applicant proposes to sell the new bonds and the new preferred stock at competitive bidding, with the interest rate on the new bonds, the dividend rate on the new preferred stock, the price to be paid for the new bonds, and the price to be paid for the new preferred stock to be determined by the successful bidders. The new bonds and the new preferred stock will be issued on or about June 15, 1972. The new bonds are to mature June 1, 2002, and are to be issued pursuant to the mortgage and deed of trust, dated as of June 1, 1946, under which Chemical Bank is trustee, as supplemented and as proposed to be supplemented by a 12th supplemental indenture thereto. Applicant proposes to use the proceeds from the issuance of the securities to pay off short-term loans and to provide a portion of the funds required for the construction or acquisition of permanent improvements, extensions, and additions to its property. The construction program for 1972 is estimated to total $27,042,100.

47706 — JESS (day-lino) — No. 31 — Apr.'72

Any person desiring to be heard or to make any protest with reference to said application should, on or before May 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP72-233]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

APRIL 12, 1972.

Take notice that on March 29, 1972, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP72-233 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate certain facilities for the receipt into its pipeline system of supplies of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has entered into an agreement providing for the purchase of natural gas from Texaco Inc. produced from portions of blocks 71, 72, 87 and 88 in the block 88 field, High Island Area, offshore Texas, and the delivery of said gas on the producer's platform in block 71. In order to receive the gas into its system, Applicant proposes to construct approximately 6 miles of 16-inch pipeline onshore and 21 miles of 16-inch pipeline offshore, a side tap connection on its existing Louisiana extension transmission pipeline, measurement facilities and miscellaneous appurtenant facilities. Applicant states that the 16-inch offshore pipeline would extend in a southerly direction from its existing Louisiana extension transmission pipeline. Applicant estimates that the proven reserves dedicated under the block 88 field contract total approximately 96 million Mcf, with a corresponding availability of 58,000 Mcf per day. Further, Applicant states that the estimated proven and probable reserves total approximately 104 million Mcf.

Applicant indicates that pursuant to a concurrent liquids transportation agreement, it will transport liquid hydrocarbons (exclusive of crude oil) through the proposed facilities for Texaco Inc. at a rate of 20 cents per barrel.

Applicant states that the estimated cost of the facilities to be constructed is $5,948,000 which it plans to finance in an, as yet, undetermined manner.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 2, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP72-23, 72-24]

TRUNKLINE GAS CO.

Order Approving Rate Settlement of Pipeline Rates

APRIL 11, 1972.

Trunkline Gas Co. (Trunkline), on February 8, 1972, tendered for approval a stipulation and agreement in the above captioned proceedings, which it proposes as the basis for settlement. The proposed

V 37-79 APR 22 72 XUM

settlement was reached after a series of conferences among the parties. Trunkline requests that the Commission approve the stipulation and agreement in settlement and disposition of all issues involved in these proceedings. The Company requests waiver of the Commission's rules and regulations, including but not limited to § 154, to the extent necessary to effectuate all of the provisions of the stipulation and agreement.

The proceedings in Docket No. RP72–23 involve a general rate increase filed by Trunkline on August 17, 1971, and a petition concurrently filed, docketed as RP72–24, requesting authorization to use liberalized depreciation with normalization for accounting and rate purposes on all eligible pre-1970 properties effective at the same time its proposed increased rates become effective in Docket No. RP72–23. The proposed increase of $36.2 million in jurisdictional revenues was suspended until February 17, 1972, by Commission order on September 16, 1971. The proposed settlement provides for an increase of $25.8 million and contains certain provisions which will permit additional rate adjustments reflecting changes in certain specified costs.

The principal provisions of the settlement proposal may be summarized as follows:

(1) Trunkline shall file revised tariff sheets, reflecting the rates shown in Appendix A hereto, to be effective as of February 17, 1972, and to refund with interest of 7 percent annually all amounts collected in excess of the rates set forth in Appendix A.

(2) A purchase gas cost adjustment clause is to be included in Trunkline's tariff which would operate when the aggregate cost change is at least 1 mill per Mcf of jurisdictional sales. After the first such adjustment, any further adjustment may be effected no sooner than 6 months after the most recent adjustment.

(3) A new advance payments adjustment provision is to be added providing for adjustments of Trunkline's rates reflecting increases or decreases in the level of advance payments reflected in the rates proposed in Appendix A. "Advance payments" shall be as defined by current Commission Regulation or any amendment thereof.

(4) Trunkline will adopt normalization for accounting and ratemaking purposes as to liberalized depreciation applicable to its pre-1970 property, effective February 17, 1972. Trunkline has further requested the appropriate permission to use deferred tax accounting for normalization of guideline lives tax depreciation and utilize Account 282—Accumulated deferred income taxes—Liberalized depreciation to reflect normalization of the difference between straight-line depreciation rates and tax straight-line depreciation rates in accordance with the provisions of the Uniform System of Accounts. If Trunkline uses guideline lives tax depreciation applicable to any period of time preceding January 1, 1972, it shall normalize therefor on its books of account for such period.

(5) Trunkline shall reduce its rates to the extent that any net additional revenues from transportation services exceed the related costs of such services.

(6) The rates as shown in Appendix A reflect an 8.5 percent overall rate of return based on the capitalization shown below.

	Amount	Ratio	Cost	Return component
			Percent	*Percent*
Debt	$242,256,000	59.69	7.11	4.24
Preferred	40,600,000	10.00	7.10	0.71
Accumulated deferred Federal income taxes—accelerated amortization	4,296,641	1.06	0.00	0.00
Common equity	118,711,118	29.25	12.14	3.55
Total	$405,863,759	100.00		8.50

We note that the issue of normalization of liberalized depreciation is pending review in the U.S. Court of Appeals for the District of Columbia in Cases Nos. 24,517 and 24,632 (Appeal of the Texas Gas Transmission Corp. Opinion Nos. 578 and 578–A), and Case No. 71–1830 (Appeal of the Transwestern Pipeline Company Opinion Nos. 597 and 597–A). Our approval of this settlement is therefore conditioned on the outcome of such final court review.

The proposed stipulation and agreement was placed into the record of this proceeding and certified to the Commission by the Presiding Examiner on February 9, 1972. Opportunity was given all parties to comment or make such objections as they may have desired as part of the record in this proceeding. No objection or protest to the settlement agreement has been received.

Based upon our review of Trunkline's filing, data distributed and made available to the parties by Staff, and the terms and provisions of the stipulation and agreement, we conclude that the proposed settlement provides a reasonable and appropriate disposition of the issues herein.

The Commission finds: The settlement of these proceedings on the basis of the stipulation and agreement submitted by Trunkline on February 8, 1972, is reasonable and proper and in the public interest in carrying out the provisions of the Natural Gas Act, and should be approved and made effective.

The Commission orders:

(A) The stipulation and agreement submitted by Trunkline on February 8, 1972, and incorporated herein by reference, is approved.

(B) Trunkline shall fully comply with each of the provisions of the stipulation and agreement and of this order.

(C) Section 154.38(d)(3) of the Commission's general rules and regulations is waived to permit the inclusion in Trunkline's tariff of the purchase gas adjustment clause as conditioned herein.

(D) Trunkline's purchase gas adjustment clause, shall be subject to, and modified to conform with, § 154.38(d)(4)(vi) of the Commission's rules and regulations, or any substitution therefore, if adopted by the Commission in rulemaking Docket R–406.

(E) Trunkline shall be permitted to use deferred tax accounting for normalization of liberalized tax depreciation subject to final court review of the lawfulness of such normalization in the cases hereinabove described.

(F) Trunkline shall adjust its rates and refund to its customers with interest at 7 percent amounts collected as a result of normalization practices found unlawful by final nonappealable court order in the cases hereinabove described.

(G) Trunkline shall be permitted to use deferred tax accounting for normalization of guideline lives tax depreciation as requested.

(H) This order is without prejudice to any findings or orders which have been made or may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, Trunkline, or any other party or person affected by this order, in any proceeding now pending or hereafter instituted by or against Trunkline or any other person or party.

(I) The settlement rates provided herein shall be effective March 25, 1972, in accordance with the regulations of the Price Commission issued on February 10, 1972 (37 F.R. 3094), and March 8, 1972 (37 F.R. 5104).

CERTIFICATION OF RATE INCREASE

In compliance with the requirements of the revised regulations of the Price Commission issued January 13, 1972, and effective January 17, 1972, relating to Public Utilities and Public Benefit Corporations 6 CFR 300.16(e), the Federal Power Commission certifies the following with respect to the price increase by Trunkline Gas Co. authorized in this proceeding:

(1) The former price, before the increase granted herein, the new price as granted, and the percentage increase in price are as follows:

Rate schedule	Average former price	Average new price	Percent increase
(a)	(b)	(c)	(d)
	Cents	*Cents*	*Percent*
G–1, P–1	36.15	40.90	13.14
R–1	35.20	39.65	12.64
SG–1	39.30	44.80	13.99
G–2, P–2	39.16	45.01	13.63
R–2	34.50	38.75	12.32
SG–2	43.50	49.76	14.39
Total weighted average	37.79	42.85	13.39

(2) The rate increase is expected to provide increased annual revenues of $25,851,999.

(3) The increase in the utility's profits stated in terms of percentage of its total sales will be from 5.65 to 7.35, 1.70 percentage points or 30.09 percent. A portion of this increase in the ratio of profits to sales can be associated with a 4 percent increase in the ratio of common stock to total capital since the company's last rate filing. Expressed as a percentage return on common equity, the rate allowed in this settlement agreement is 12.14 percent, which is 4.9 percent less than the 5-year average (1966–70) of 12.77 percent earned by the company and 1.8 percent more than the 3-year average (1968–70) of 11.93 percent. A return sufficient to attract and hold resources in a capital intensive industry such as the pipeline industry is of primary importance as a regulatory standard. The allowed return on common stock equity in this settlement consistent with this requirement, and as noted, the settlement earnings are in line with the recent earnings of the company.

(4) The increase in the utility's overall rate of return on capital (rate base) will be from 7.47 percent to 8.5 percent, 1.03 percentage points or 13.79 percent. The increase in overall rate of return reflects the high costs of the company's financing during the period since the last rate increase. For example, the company issued $40 million in new debentures at a cost of 9.42 percent and 200,000 shares of preferred stock at a cost of 9.31 percent and sinking fund requirements forced the retirement of $35 million of existing debt with an average cost of 5.05 percent. The company's cost of preferred stock and debt together account for a weighted debt cost of 4.95 percent. As an additional indication of the company's rising debt cost and revenue requirements, Standard and Poor's reduced the company's debentures from an A rating to a BBB rating in 1970. The higher overall rate of return allowed by this rate settlement is necessary to protect the company's ability to raise new capital.

(5) Sufficient evidence was taken during the course of this proceeding to determine whether or not the criteria set forth in paragraphs (d) (1) through (4) of § 300.16 of the rules and regulations of the Price Commission have been met.

(6) The rate increase granted in this proceeding meets the criteria set out in paragraphs (d) (1) through (4) of § 300.16 of the rules and regulations of the Price Commission.

[SEAL] KENNETH F. PLUMB,
By the Commission.
Secretary.

[Docket No. CI72–658]

JAMES M. FORGOTSON, SR.

Notice of Application

APRIL 20, 1972.

Take notice that on April 14, 1972, James M. Forgotson, Sr. (applicant), 409 Beck Building, Shreveport, La. 71101, filed in Docket No. CI72–658 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipeline Co. (United) from the Roanoke Field, Jefferson Davis Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of natural gas to United on April 7, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that he proposes to continue said sale for 1 year commencing at the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 5,000 Mcf of gas per day at 35 cents per Mcf at 15.025 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 1, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. G–2639, etc.]

J. D. BURKE ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

APRIL 10, 1972.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[14] Gas-well gas. Plus 3.052 cents per Mcf upward B.t.u. adjustment.
[15] Lease sold to W. H. Doran.
[16] Applicant proposes to continue the sale of natural gas heretofore authorized in Docket No. G-19881 to be made pursuant to V. F. Neuhaus (Operator) et al., FPC Gas Rate Schedule No. 4.
[17] Plus 0.48 cent per Mcf upward B.t.u. adjustment.
[18] Applicant proposes to continue the sale of natural gas heretofore authorized in Docket No. G-3239 to be made pursuant to Hunter Oil Co., Inc.
[19] Includes 1 cent per Mcf downward adjustment for wellhead delivery per Opinion No. 607.
[20] Includes 1 cent per Mcf downward adjustment from Area Rate for wellhead delivery. Buyer may make treating charge if necessary. If it is necessary for Buyer to compress gas, the contract calls for a charge of 0.75 cent per Mcf for one-stage compression or 1.5 cents per Mcf for two-stage compression.
[21] Applicant is filing for initial price of 26 cents per Mcf; however, the contract price is 32 cents per Mcf, subject to upward and downward B.t.u. adjustment.
[22] Applicant proposes to continue the sale of natural gas heretofore authorized in Docket No. CI60-966 to be made pursuant to David C. Bintliff (Operator) et al., FPC Gas Rate Schedule No. 8.
[23] Gathering contract with Edwards County Gas Co. for gathering and compression at a cost of 7.5 cents per Mcf.
[24] Applicant is willing to accept a certificate conditioned to an initial rate of 26 cents per Mcf; however, the contract price is 32 cents per Mcf.

FEDERAL RESERVE SYSTEM

AMERICAN FLETCHER CORP.

Proposed Acquisition of Local Finance Corp.

American Fletcher Corp., Indianapolis, Ind., has applied, pursuant to section 4 (c) (8) of the Bank Holding Company Act (12 U.S.C. 1843(c) (8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Local Finance Corp., Marion, Ind. Notice of the application was published on January 21, 22, 24, 25, 26, 27, 29, 31, February 2, or 3, 1972 in newspapers of general circulation in each of the 60 communities in Indiana and Michigan in which Local Finance Corp. and its subsidiaries maintain offices.

Applicant states that Local Finance Corp. and its subsidiaries engage in the activities of making instalment personal loans; purchasing instalment sales finance contracts; selling to its direct borrowers coverage under group credit life and credit disability policies; selling, in Indiana only, to its direct borrowers, casualty insurance on collateral securing such loans; providing various forms of casualty, liability, and fidelity insurance to itself and its subsidiaries; and selling, in Indiana only, "a small amount of auto insurance and homeowners insurance" to its staff members and customers, as a convenience. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 19, 1972.

Board of Governors of the Federal Reserve System, April 18, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

COGAR CORP.

Order Suspending Trading

APRIL 17, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.60 par value, of Cogar Corp. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 11:10 a.m., e.s.t. April 17, 1972, through April 26, 1972.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3101]

DREYFUS THIRD CENTURY FUND, INC., AND ROBERT F. GOHEEN

Notice of Application

APRIL 18, 1972.

Notice is hereby given that the Dreyfus Third Century Fund, Inc., 767 Fifth Avenue, New York, NY 10022 (the "Fund"), an open-end, diversified management investment company registered under the Investment Company Act of 1940 (the "Act"), and Dr. Robert F. Goheen, Princeton University, Princeton, N.J. 08540 (Goheen) (together hereinafter called "Applicants"), have filed an application for an order pursuant to section 6(c) of the Act declaring that Goheen shall not be deemed an "interested person" of the Fund or of the principal underwriter for the continuous offering of Fund shares, the Dreyfus Sales Corp. (Dreyfus Sales), within the meaning of section 2(a)(19) of the Act solely by reason of his status as a director of the Equitable Life Assurance Society of the United States (Equitable). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

The Fund was incorporated under the laws of Delaware on May 6, 1971. Its registration statement under the Securities Act of 1933 was made effective by the Commission on March 22, 1972. The application, as amended, states that Goheen and David W. Burke, a vice president of the Fund and of the Dreyfus Corp. (Adviser), the manager of the Fund, resigned from the Fund's Board of Directors on March 17, 1972. Subsequent to such resignations, the Board approved underwriting agreements between the Fund and Bache & Co., Inc., Reynolds Securities, Inc., and Kidder, Peabody & Co., Inc., underwriters for the Fund's initial offering. Because the composition of the Board prior to their resignations did not conform to that required by section 10(b)(2) of the Act as amended, such agreements could not have been approved for the Fund. The application states, however that because Goheen's background will assist the Fund in accomplishing its special objectives, it is intended that if Goheen is deemed not to be an interested person of the Fund or its principal underwriter, he will be nominated for election to the Board.

Goheen is a director of Equitable, a mutual insurance company incorporated in New York in the business of selling life insurance and annuities. Equitable sells individual variable annuities funded by separate accounts registered under the Investment Company Act of 1940, and sells HR-10 plans registered under the Securities Act of 1933 and funded by separate accounts. Equitable is registered as a broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers (NASD). In December 1971, Equitable organized a wholly owned brokerage subsidiary, Equico Securities, Inc. (Equico), which is a member of the Philadelphia - Baltimore - Washington Stock Exchange. Equico is neither registered under the Securities Exchange Act of 1934 nor a member of the NASD. The Applicants are informed that Equico deals only in listed securities and acts as a broker solely for Equitable. Neither Equitable nor Equico has ever engaged in securities transactions on behalf of the Fund. Furthermore, the Fund has undertaken not to purchase or sell, knowingly, any securities to or through Equitable or Equico.

Goheen's principal occupation is the presidency of Princeton University. It is expected that in June 1972, he will leave that post and assume the chairmanship of the Council on Foundations. Goheen has been on Equitable's 36-member Board since January 1961. Applicants state that Equitable considers Goheen as an outside director. He is a member of the Agency and Insurance Operations Committee of the Board. In his capacities Goheen shares in the general responsibility for supervision of Equitable expected from a director. The application represents, however, that Goheen does not participate in the day-to-day operation of Equitable or Equico. Goheen is not a director or officer of Equico.

Because Goheen is a director of Equitable, under section 2(a)(3) of the Act, he is an affiliated person of a broker-dealer. Therefore, under section 2(a)(19) of the Act, Goheen would be an interested person of the Fund and of the Fund's principal underwriter. The application requests an order declaring that Goheen not be deemed an interested person of Dreyfus Sales, the principal underwriter for the continuous offering of the Fund's securities, in order that, pursuant to section 10(b)(2) of the Act, a majority of the Fund's Board of Directors will not consist of interested persons of such principal underwriter of the Fund.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants assert that Goheen's affiliation with Equitable does not affect and will not impair his independence to act on behalf of the Fund and its shareholders and that the requested exemption is therefore consistent with the provisions of section 6(c).

Notice is further given that any interested person may, not later than May 8, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-6179 Filed 4-21-72;8:49 am]

[811-1804]

ISI VENTURE FUND, INC.

Notice of Filing of Application Declaring Company has Ceased To Be An Investment Company

APRIL 17, 1972.

Notice is hereby given that ISI Venture Fund, Inc. (Applicant), 100 California Street, San Francisco, Calif. 94111, a California corporation registered as a diversified open-end management company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant registered under the Act on February 3, 1969, by filing a Notification of Registration on Form N-8A. On November 10, 1969, Applicant filed a registration statement under the Securities Act of 1933 on Form S-5, which registration statement became effective on November 27, 1970. Applicant represents that it has not made any public offering or sale of its securities. The only investors in the Applicant were the persons who provided the initial $100,000 of capital. These were ISI Corp. (Applicant's investment adviser) and 14 individuals who are closely associated with ISI Corp. or with Applicant's principal underwriter. In November 1971, all of the investors redeemed all of their shares. Applicant has distributed all of its assets and is now in the process of dissolution.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may not later than May 10, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in the application, unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3132]

NARRAGANSETT CAPITAL CORP.

Notice of Filing of Application for Order

APRIL 18, 1972.

Notice is hereby given that Narragansett Capital Corp., 40 Westminster Street, Providence, Rhode Island 02903 (Narragansett), a Rhode Island corporation registered as a closed-end, nondiversified, management investment company under the Investment Company Act of 1940 (Act) and licensed as a small business investment company under the Small Business Investment Act of 1958, has filed an application pursuant to Rule 17d-1 under the Act for an order permitting under section 17(d) and Rule 17d-1, a loan by Narragansett to Bevis Industries, Inc. (Bevis). All interested persons are referred to the application on file with the Commission for a statement of Narragansett's representations which are summarized below.

Background. Narragansett, the principal and controlling stockholder of Bevis, proposes to participate in a reorganization of the financial structure of Bevis by lending it $1,500,000 on an unsecured basis, payable December 31, 1976, to bear interest, payable quarterly at an anticipated rate of 4 percent in excess of the prime rate but not in excess of 10 percent, to be determined by negotiation, subordinated to all present and future bank indebtedness. Bevis' debt to Narragansett will be evidenced by a negotiable promissory note containing the terms described above (the Bevis Note). As part of the proposed refinancing, it is contemplated that Industrial National Bank of Rhode Island (Industrial Bank) will simultaneously make a substantial term loan and will make revolving credit loans to Bevis, as more fully described below.

The Bevis Note will be senior in right of payment to an existing debt, $333,844 in principal amount, of Bevis to Royal Little (Little) an affiliated person of both Narragansett and Bevis, represented by a 5 year convertible Debenture (the Little Debenture). Little will agree to such subordination and will agree not to exercise his conversion rights under the Little Debenture until the Bevis Note is paid in full (or the expiration of its original term, if its term should be extended by Narragansett and Bevis).

The Bevis debt to Little was created in September of 1971, when Bevis borrowed $333,844 from Little in order to make a cash settlement of litigation in which Bevis was involved. Effective January 26, 1971, at the request of Bevis, Little agreed to extend the term of such debt, which was represented by a demand note secured by a pledge of 338,580 shares of Bevis common stock, by surrendering the demand note, and releasing the pledged shares, in exchange for the Little Debenture, an unsecured convertible debenture of Bevis, dated January 26, 1972, $333,844 in principal amount, payable on the fifth anniversary of the date of its issuance, convertible at any time into common stock of Bevis, par value $0.10 a share, at a conversion price of $5 a share, bearing interest payable in 20 equal quarterly installments at the rate of 6 percent (6%) per annum and subordinated to all existing and future indebtedness of Bevis to banks.

Upon the conditions referred to below, Industrial Bank has agreed to lend Bevis up to an aggregate of $4,600,000 in two separate loans. The first of such loans would take the form of an amendment to an existing loan agreement between Bevis and Industrial Bank pursuant to which Industrial Bank would make a 3-year loan of $2,200,000 in principal amount, and the second would take the form of an increase of the amounts available to Bevis under its existing revolving loan from $1,500,000 to $2,500,000. Both these loans would be secured by first mortgages on Bevis' plants located in Webster, Mass., and Baltic, Conn.

The undertaking of Industrial Bank to make the loans to Bevis described above is subject to the conditions that (a) Narragansett make the $1,500,000 loan described above, and (b) both the Commission and the Small Business Administration approve the borrowing by Bevis from Narragansett and the issuance to Narragansett of the Bevis Note.

Bevis urgently requires the proceeds of the loans from Narragansett and Industrial Bank as working capital to relieve a severe shortage of cash which it presently faces.

In order to enable Bevis to continue to pay current operating expenses and make some payments with respect to presently due or overdue trade accounts payable while the necessary approvals from the Commission and the Small Business Administration are forthcoming, it is anticipated that Industrial Bank will make interim funds available on a demand loan basis at an interest rate of 3 percent in excess of the prime rate per annum.

Narragansett now holds directly 836,952 shares, or approximately 40% of the outstanding shares of Common Stock of Bevis. Narragansett's aggregate investment at March 31, 1971, in Bevis was $1,260,016. The value of this investment on that date as determined by the Board of Directors of Narragansett was $2,042,000.

Little is Chairman of the Board and a Director of both Narragansett and Bevis. He acted as Chief Executive Officer of Bevis from March 8, 1971, to January 26, 1972. Harvey J. Sarles (Sarles) is President and a Director of Narragansett, and Vice Chairman and a Director

V 37-79 APR 22 72 XUM

of Bevis. Robert S. Davis is the Secretary of both Narragansett and Bevis.

Little owns beneficially 73,010 shares, or approximately 7.9 percent of the outstanding shares of common stock of Narragansett and Sarles owns 6,775 shares, or approximately .7 percent of such shares outstanding. Little owns 60,997 shares, or approximately 7.8 percent of the outstanding shares of common stock of Bevis and Sarles owns 3,004 shares, or approximately .1 percent of such shares outstanding. As noted above, Little holds the Little Debenture.

Commission jurisdiction. As Little is the Chairman of the Board and a Director of both Narragansett and Bevis and a creditor of Bevis, the proposed loan by Narragansett to Bevis may be viewed as a transaction prohibited by section 17(d) of the Act and Rule 17d–1 thereunder. Taken together the section and rule provide, as here pertinent, that it shall be unlawful for an affiliated person of a registered investment company or any affiliated person of such person, acting as principal, to participate in, or to effect any transaction in connection with any joint enterprise or other joint arrangement in which such registered company, or a company controlled by such registered company, is a participant unless an application with respect to such arrangement has been filed with and granted by the Commission. In passing upon an application, the Commission must consider whether the participation of such registered company or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants. Narragansett seeks an order under section 17(d) of the Act and Rule 17d–1 to the extent they may be applicable to the proposed loan by Narragansett to Bevis.

Supporting statement. Narragansett contends that the proposed transaction is consistent with the general purposes of the Act, is more advantageous to Narragansett than it is to Little, and is in the best interests of Narragansett and its shareholders.

Notice is further given, that any interested person may, no later than May 8, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Narragansett at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

TOPPER CORP.

Order Suspending Trading

APRIL 18, 1972.

The common stock, $1 par value, of Topper Corp. being traded on the American Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Topper Corp. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period April 19, 1972, through April 28, 1972.

By the Commission.

Secretary.

[FR Doc.72–6181 Filed 4–21–72;8:50 am]

[Release No. IC–7130]

SURVEY OF INVESTMENT COMPANY INCENTIVE FEE ARRANGEMENTS

In order to assist registered investment companies, their officers and directors, and others concerned with compliance with the provisions of the Federal securities laws, especially those which relate to investment company incentive fee arrangements, the Commission is publishing a Survey of Investment Company Incentive Fee Arrangements prepared by the Division of Corporate Regulation.

As indicated in Investment Company Act Release No. 7113 (April 6, 1972)[1] there were 999 active open and closed-end investment companies registered with the Commission on January 3, 1972. Of these, 103 had performance fee arrangements in effect on that date.

Publication of this survey is not intended to indicate the Commission's approval of any of the features of investment company incentive fee arrangements contained in it. As indicated in Investment Company Act Release No. 7113, a number of investment company incentive fee contracts now in use contain features which are unfair to investment companies. Publication of the survey at this time is intended to assist those persons who must consider the fairness of such contracts in meeting their fiduciary duties.

The survey is published in Release No. IC–7130, copies of which have been filed with the Office of the Federal Register and may be obtained upon request from the Securities and Exchange Commission, 500 North Capitol Street NW., Washington, DC 20549.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

---

[1] See interpretative releases relating to the Investment Company Act of 1940 and the Investment Advisers Act of 1940 which was published in the FEDERAL REGISTER issue of Apr. 19, 1972, 37 F.R. 7690, on the subject "Factors to be Considered in Connection with Investment Advisory Contracts Containing Incentive Arrangements," 17 CFR Parts 271 and 276.

[Delegation of Authority No. 50 (Rev. 4)]

ASSOCIATE ADMINISTRATOR FOR OPERATIONS AND INVESTMENT

Delegation of Authority

Delegation of Authority No. 50 (Revision 3) (25 F.R. 7418), as amended, (26 F.R. 4440, 27 F.R. 1303, 31 F.R. 13563, 36 F.R. 12258, 36 F.R. 16613, 36 F.R. 22268, and 37 F.R. 2862) is hereby revised to read as follows:

I. Pursuant to authority vested in me by the Small Business Act, 72 Stat. 384, as amended; the Small Business Investment Act of 1958, 72 Stat. 689, as amended; and Title IV of the Economic Opportunity Act of 1964, 78 Stat. 526, as amended, the following authority is hereby delegated to the Associate Administrator for Operations and Investment:

A. *Investment.* 1. To take any and all actions necessary to carry out the provisions of Titles I, II, and III of the Small Business Investment Act of 1958, as amended, and of the regulations thereunder as amended from time to time, including without limitation all necessary action in connection with the servicing, administration, collection, sale and liquidation of partially or fully disbursed loans, obligations and property (real, personal or mixed, tangible or intangible) held by or assigned to SBA and arising out of activities under said Act, and, in connection therewith, to accept or reject offers of settlement or of compromise for cash, credit, or property (real, personal, or mixed, tangible or intangible), and to exercise in the name of the Administration the power conferred on the Administration by section 310 of said Act to issue subpoenas.

B. *Disaster activities.* 1. To declare a disaster area and period.

2. To extend the original disaster period resulting from a disaster declaration.

3. For purposes of class A disasters only, to contract for supplies, materials, and equipment, printing (Government sources only), transportation, communications, space, and special services for the Agency.

4. For purposes of class A disasters only, to enter into contracts for supplies and services pursuant to chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in sections 257 (a) and (b) of that chapter.

II. All authority delegated herein may be exercised by any SBA employee designated as Acting Deputy Administrator for Operations and Investment.

III. All previous authority delegated by the Administrator under Delegation of Authority No. 50 (Revision 3) (25 F.R. 7418), as amended, is hereby rescinded without prejudice to actions taken under such delegation prior to the date hereof.

Effective date: April 23, 1972.

Whereas, it has been reported that during the month of April 1972, because of the effects of certain disasters damage resulted to homes and business property located in the State of Illinois;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitutes a catastrophe within the purview of the Small Business Act, as amended.

Now, Therefore, as Assistant Administrator for Administration and Operations of the Small Business Administration, I hereby determine that:

(1) Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in the counties of Ogle, Will, Livingston, and Kendall, Ill., suffered damage or destruction resulting from a tornado occurring on April 6, 1972.

OFFICE

Small Business Administration Regional Office, 219 South Dearborn Street, Chicago, IL 60604.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to October 31, 1972.

Dated: April 13, 1972.

CLAUDE ALEXANDER,
Assistant Administrator for Administration and Operations.

[FR Doc.72–6149 Filed 4–21–72;8:45 am]

[Declaration of Disaster Loan Area 896; Class B]

WASHINGTON AND OREGON

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of April 1972, because of the effects of a certain disaster, damage resulted to homes and business property located in the States of Washington and Oregon;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in areas constitutes a catastrophe within the purview of the Small Business Act, as amended.

Now, therefore, as Assistant Administrator for Administration and Operations of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Vancouver, Wash., and Portland, Oreg., suffered damage or destruction resulting from a tornado occurring on April 5, 1972.

OFFICE

Small Business Administration District Office, 700 Pittock Block, 921 Southwest Washington Street, Portland, OR 97205.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to October 31, 1972.

Dated: April 7, 1972.

CLAUDE ALEXANDER,
Assistant Administrator for Administration and Operations.

TARIFF COMMISSION

[AA1921–85]

FISH NETS AND NETTING OF MANMADE FIBERS FROM JAPAN

Determinations

On January 18, 1972, the Tariff Commission received advice from the Treasury Department that fish nets and netting of manmade fibers from Japan are being, and are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended.[1] In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160 (a)), the Tariff Commission instituted investigation No. AA1921–85 to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established by reason of the importation of such merchandise into the United States.

A public hearing was held on February 29 and March 1, 1972. Notice of the investigation and hearing was published in the FEDERAL REGISTER of January 27, 1972 (37 F.R. 1277).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission has determined by a vote of 4 to 2 that an industry in the United States is being injured by reason of the importation of fish netting of manmade fibers from Japan that is being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.[2] The Commission unanimously determined that an industry in the United States is not being nor is likely to be injured, nor is prevented from being established, by reason of the importation of fish nets of manmade fibers that are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Statement of Reasons for Affirmative Determination of Chairman Bedell, Vice Chairman Parker, and Commissioner Moore[3]

The Department of the Treasury advised the Tariff Commission on January 18, 1972, that manmade-fiber fish nets and netting from Japan are being or are likely to be sold in the United States at less than fair value. Under the Antidumping Act of 1921, as amended, this determination is conclusive. Accordingly, the only issue considered herein is whether the sales at less than fair value of such articles are injuring or are likely to injure an industry in the United States, or are preventing an industry from being established.

In our opinion an industry in the United States is being injured by reason of the importation of manmade-fiber fish netting from Japan that is being sold at less than fair value (LTFV) within the meaning of the Antidumping Act. Since imports of fish nets are negligible and we have no evidence that imports are likely to increase, at this time, we believe that no U.S. industry is being, or is likely to be injured, by reason of the importation of manmade-fiber fish nets sold at LTFV.

Fish netting is made in an almost infinite number of descriptions depending principally on the combination of specifications relating to yarn size, number of plies, mesh size, and the kind of knot. Fish nets are made by cutting and piecing netting (usually of several different specifications) and then adding some combination of such items as floats, sinkers, twines, and ropes, depending on the use and type of fish to be caught. Very few nets are made by netting producers. Most nets are assembled by distributors or net shop operators; some are assembled by large fishing fleets.

The injured industry. In making our determination, we have considered the injured industry to consist of those facilities in the United States involved in the producton of manmade-fiber fish netting. Fish netting is currently being produced in the United States by approximately a dozen firms, all of which either produce or have the capabilities to produce the same specifications of fish netting as those imported from Japan, which were sold at LTFV.

Market penetration. The Treasury Department's investigation of exports from Japan during the period October 1, 1969, through September 30, 1970, showed that a high percentage of U.S. imports of Japanese manmade-fiber fish netting were sold at LTFV. We find that the price advantage afforded by such sales in the United States at LTFV enabled Japanese exporters of manmade-fiber fish netting to make severe inroads into an exceptionally stable market. During the last 7 years the U.S. market fluctuated only from 3 million to 3.2 million pounds a year. Thus, aided by the LTFV sales, the total U.S. imports of manmade-fiber fish netting from Japan increased steadily from 7.5 percent of the U.S. apparent consumption of fish netting in 1964 to 29 percent in 1971.

Total U.S. imports of manmade-fiber fish netting increased from 153,000 pounds in 1964 to 942,000 pounds in 1971. On the other hand, domestic production of manmade-fiber fish netting increased from 1,809,000 pounds in 1964 to 2,344,000 pounds in 1966 and then declined without interruption to 1,832,000 pounds in 1971.

We believe that the capture of 29 percent of the U.S. market for fish netting by Japanese imports was made possible by the practice of Japanese exporters selling manmade-fiber fish netting at LTFV in the United States.

Lost sales and price depression. The Commission's investigation shows that prices in the U.S. market of Japanese manmade-fiber fish netting are significantly lower than the corresponding prices of domestic manmade-fiber fish netting. These lower prices have resulted in loss of sales by the U.S. industry. Indeed, with respect to one popular type of netting, the imports from Japan have captured almost the entire U.S. market. To a lesser extent, there were losses of sales for other types of netting. In addition, the substantial market penetration has also resulted in marked depression or suppression of the prices of netting produced by the U.S. industry. Although the margins of dumping are a relatively small part of the margins of underselling by the Japanese, they are quite significant in the resulting displacement of the domestic product and the adverse price effects in the U.S. market.

On the basis of the foregoing, we believe that the LTFV imports have clearly contributed in substantial measure to loss of sales by the U.S. industry and a depression of its prices which occurred during a period of generally rising production costs. The extent and margin of dumping employed by Japanese exporters are significant factors in the penetration of the U.S. market, loss of sales by the U.S. industry, and the depression of domestic prices. The Japanese exporters could not but have recognized dumping as necessary to obtain sales. It is not reasonable that they would dump and accept a lower price without need.

Conclusion. In our judgment, imports of manmade-fiber fish netting from Japan which, according to the Department of the Treasury, are being sold at less than fair value have contributed to both a marked decline in prices of domestic netting in the U.S. market, and a substantial loss in sales by the U.S. industry. Accordingly, we have determined that an industry in the United States is being injured by reason of such LTFV imports.

Statements of Reasons for Negative Determination of Commissioners Leonard and Young

The Antidumping Act, 1921, as amended, requires that the Tariff Commission find two conditions satisfied before an affirmative determination can be made.

First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be prevented from being established. The quantum or description of injury is not disclosed in the statute.

And second, such injury (or likelihood of injury or prevention of establishment) must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury determined is being or is likely to be sold at less than fair value.

If either condition is not satisfied, a negative determination must be made. In the instant investigation, we find the second condition described above is not satisfied and therefore a negative determination is required.

The industries. We find that two industries are involved in this case. One consists of the facilities in the United States (which are owned by about a dozen firms) for the production of fish netting and the other consists of the facilities in the United States (which are owned by many enterprises) for the production of fish nets.

Sales at LTFV. The Commission has little guidance in this investigation respecting the extent or severity of sales at less than fair value (LTFV) of fish nets and netting of manmade fiber from Japan. The small sample of Japanese exports examined by the Treasury Department during its investigation did not include any sales of double-knot salmon gill netting, the predominant type of fish netting shipped from Japan to the United States. Information available to the Commission indicates that such netting has probably accounted for upwards of half of U.S. imports from Japan in recent years. The absence of fair value computations by Treasury with respect to such a dominant portion of the imports makes it difficult for us to determine whether there is injury to a domestic industry because of price discrimination (sales at LTFV).

It appears also that the Treasury did not investigate any sales of fish nets by Japan to the United States to determine whether they were made at less than fair value. Shipments from Japan to the United States of fish nets, however, are known to be very small.

Fish netting. In recent years U.S. imports of fish netting from Japan, nearly all netting of manmade fiber, have increased materially, and have supplied an increasing share of the U.S. market. There is, however, little evidence either that the increased imports and rising market penetration have been by reason of the importation of fish netting to the United States at less than fair value or that the fish netting sold at less than fair value has adversely affected prices and profits of a domestic industry.

With an important exception that we note later, Japanese fish netting has undersold domestic fish netting in the U.S. market. The price data available to the Commission suggest that the margin of underselling generally has been substantial, and typically has been several times the amount by which the price of netting sold for export to the United States was less than the price of netting in the Japaneses home market (the LTFV margin). For a given specification of manmade-fiber fish netting, for example, the price of the Japanese product in the U.S. market was 45 cents below the price of the domestic product, whereas the Japanese netting had been sold for export to the United States at only 6 cents per pound below the price in the Japanese home market. Under these circumstances, the increased imports and evident market penetration, even if a substantial part of imports from Japan were sold at LTFV, could scarcely be ascribed to the existence of LTFV sales.

The prices received by domestic producers for fish netting in recent years have not followed a common trend; some prices have increased, some have declined, and some have remained unchanged. On the average, however, such prices have been almost stable over the past 3 years. To the extent prices of individual specifications of fish netting can be traced, the prices of domestic netting of those specifications which the Treasury found had been sold by Japan at less than fair value have been stronger than those of other specifications of Japanese netting. For example, the prices of domestic netting of specifications found by Treasury to have been sold at LTFV were, on the average, unchanged from the beginning of 1969 to the end of 1971. However, the prices examined relating to domestic netting of specifications not included in Treasury's sample of LTFV sales declined by 4 percent during that period. We find little evidence here of price depression by reason of importation of Japanese netting sold at less than fair value.

As noted above, double-knot salmon gill netting constitutes by far the most important type of fish netting of manmade fiber imported into the United States from Japan. Such netting accounts for about half of the imports of fish netting from Japan. Double-knot salmon gill netting of 6- or 7-filament nylon yarn was initially developed by the Japanese. The Japanese for some time have supplied a large part of the U.S. market for such netting; currently imports from Japan supply four-fifths of the annual consumption of such netting used by the U.S. salmon fishery. According to information obtained in the investigation, the Japanese product is of distinctly higher quality than that produced domestically; the knots of the Japanese netting slip less and the dyeing is superior. Largely because of its superior physical characteristics, the Japanese product has dominated the U.S. market for such netting. Thus, based on the information available, the market penetration achieved by imports of double-knot salmon gill netting from Japan could not reasonably be attributed to sales of Japanese netting at less than fair value. The price of Japanese double-knot salmon gill netting, moreover, has risen appreciably in the last 3 years, while the prices of the similar domestic netting have also increased, although to a lesser degree. Beginning in 1970 (for some specifications) and continuing into 1971, such Japaneses netting was sold in the U.S. market at prices higher than those of the domestic product. Thus, even if it were assumed that double-knot salmon gill netting was being sold by Japan at less than fair value, there would be no evidence of adverse price effects on the domestic producers.

Fish nets. The Treasury Department's determination of sales at less than fair value applied to fish nets (as well as fish netting) of manmade fibers from Japan. As noted earlier, the Treasury did not examine any sales of fish nets by Japan to the United States to determine whether they were made at less than fair value, and U.S. imports of such nets from Japan have been very small.

Fish nets are produced in the United States chiefly by a large number of "net shops" located in or near the home ports of the fishermen they serve and by distributors of fish netting. Most are custom made—the size and shape of the net, specifications of netting, and types of sinkers, twines, and ropes (which are a part of fish nets) varying according to the desires of each fisherman. In large part because of the custom-made nature of many nets, there have been few imports of commercial fishing nets into the United States, and there is little likelihood that extensive trade would develop. Accordingly, we have no evidence that a domestic industry is being, or is likely to be injured by reason of LTFV imports of fish nets of manmade fibers from Japan.

Conclusion. In view of the considerations set forth above, we have concluded that no industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of fish nets and netting of manmade fibers from Japan sold in the United States at less than fair value.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.72-6211 Filed 4-21-72;8:51 am]

[1] Notice of the Treasury Department's determination of sales at less than fair value, and the reasons therefor was published in the FEDERAL REGISTER of Jan. 19, 1972 (37 F.R. 815).

[2] Chairman Bedell, Vice Chairman Parker, and Commissioners Sutton and Moore determined in the affirmative.

[3] Commissioner Sutton concurs in the result.

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

APRIL 19, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 26739 Sub 66, Crouch Bros., Inc., now assigned June 19, 1972, at Kansas City, Mo., canceled and transferred to modified procedure.

MC-F-11411, Transcon Lines—Purchase (Portion)—United Buckingham Freight

V 37-79 APR 22 72 XUM

Lines, Inc., now assigned June 19, 1972, at Billings, Mont., canceled and reassigned to June 19, 1972, at Seattle, Wash., at the Edgewater Inn., Pier 67, foot of Wall Street.
MC 116101 Sub 9, Quick Air Freight, Inc., now assigned May 16, 1972, at Columbus, Ohio, canceled and application dismissed.
MC 111812 Sub 448, Midwest Coast Transport, now assigned June 27, 1972, at Washington, D.C., postponed to July 27, 1972, at the offices of the Interstate Commerce Commission, Washington, D.C.
MC 103926 Sub 20, W. T. Mayfield Sons Trucking Co., now assigned May 22, 1972, at Washington, D.C., hearing canceled and application dismissed.
MC 106497 Sub 61, Parkhill Truck Co., now being assigned hearing July 17, 1972, at San Francisco, Calif. (1 week), in a hearing room to be later designated.
MC 128527 Sub 24, May Trucking Co., now being assigned hearing July 24, 1972 (2 days), at San Francisco, Calif., in a hearing room to be later designated.
FD 26945, Colorado & Southern Railway Co.—Construction and Operation—Near Minnequa, Pueblo County, Colo., now assigned May 8, 1972, at Pueblo, Colo., hearing postponed indefinitely.
MC 113678 Sub 431, Curtis, Inc., and MC 115826 Sub 219, W. J. Digby, Inc., now being assigned continued hearing on July 10, 1972, for applicant's evidence (1 week), and on July 26, 1972, for protestant's evidence (3 days), at San Francisco, Calif., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 19, 1972.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42403—*Class and commodity rates between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 659), for interested rail carriers. Rates on fertilizer, iron and steel articles, and synthetic plastic, in carloads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief—Intrastate rates and maintenance of rates from and to points in other states not subject to the same competition.

Tariff—Supplement 138 to Texas-Louisiana Freight Bureau, agent, tariff ICC 998. Rates are published to become effective on May 23, 1972, except that item 15942-A will become effective on June 9, 1972.

AGGREGATE OF INTERMEDIATES

FSA No. 42404—*Class and commodity rates between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 658), for interested rail carriers. Rates on fertilizer, iron and steel articles, and synthetic plastic, in carloads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 138 to Texas-Louisiana Freight Bureau, agent, tariff ICC 998. Rates are published to become effective on May 23, 1972, except that item 15942-A will become effective on June 9, 1972.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73581. By order of April 17, 1972, the Motor Carrier Board approved the transfer to RPM Distributors, Inc., doing business as Central Banana Carriers, Doswell, Va., of the operating rights set forth in Certificate No. MC-117743, issued November 24, 1961, to Peter R. Jacobs, doing business as Central Banana Carriers, Richmond, Va., authorizing the transportation of: Bananas, from Norfolk, Va., to Boston, Mass., Chicago, Ill., Indianapolis, Ind., Louisville, Ky., Huntington and Wheeling W. Va., Richmond, Va., the District of Columbia, and points in Michigan, Ohio, and Pennsylvania; from Baltimore, Md. and Charleston, S.C., to Norfolk and Richmond, Va.; from Philadelphia, Pa., to Norfolk, Va.; and from New York, N.Y., to Richmond, Va. Lewis S. Pendleton, Jr., 11 South 10th Street, Richmond, VA 23219, attorney for applicants.

No. MC-FC-73639. By order of April 14, 1972, the Motor Carrier Board approved the transfer to The White Line Corp., New York, N.Y., of a portion of the operating rights in Certificate No. MC-116792 (Sub-No. 1) issued January 14, 1958 to Fletcher Brothers, Inc., Newark, N.J., authorizing the transportation of crated and uncrated furniture from New York, N.Y., to points in Bergen, Essex, Hudson, Middlesex, Passaic, and Union Counties, N.J. Stanley Nayer, 60 Shelley Lane, Great Neck, NY 11023, attorney for transferee. Martin Werner, 2 West 45th Street, New York, NY 10036, attorney for transferor.

No. MC-FC-73643. By order of April 10, 1972, the Motor Carrier Board approved the transfer to Donald D. Miller, doing business as E K Truck Line, Kansas City, Mo., of the operating rights set forth in Certificate No. MC-413, issued April 17, 1950, to R. E. Parsons, doing business as Parsons Truck Line, Fort Scott, Kans., authorizing the transportation of general commodities, with the usual exceptions, as well as other specified commodities, from, to, or between points and places in Kansas, Missouri, and Oklahoma. Floyd E. Gehrt, 400 Croix, Topeka, KS 66611, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[33 CFR Part 172]

[CGD 72-60PH]

MANUFACTURER REQUIREMENTS

Certification of Boats and Equipment

The Coast Guard is considering issuing regulations governing the certification of boats and associated equipment that comply with U.S. Coast Guard boat safety standards and regulations and the identification of boat hulls. Any interested person may submit written data, views, or arguments concerning this notice to U.S. Coast Guard (CMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received before May 31 1972, will be considered before action is taken on the proposed regulations. Each person submitting comments should include his name and address, identify this notice (CGD 72-60) and give reasons and supporting data for any recommendations. All comments will be available for examination in Room 8234. An informal public hearing to receive comments of interested persons on this proposal will be held on May 17, 1972, in Room 8332 at 9:30 a.m. Each person who intends to make a statement is requested to notify the U.S. Coast Guard (CMC/82), before May 17, 1972.

These rules are proposed under the authority of the Federal Boat Safety Act of 1971 (85 Stat. 213), which was delegated to the Commandant of the Coast Guard on October 5, 1971 (36 F.R. 19593).

The applicability of the Act and these regulations to a particular boat depends not only on the kind of use to which it is put but also where it is used. Most of the provisions of the Act do not apply to waters that are not subject to the jurisdiction of the United States, such as lakes within the boundaries of a State that are not connected to the navigable waters of the United States. However, the applicability of the provisions in section 12(a) of the Act are expanded, by section 4(b), to include boats moving or intended to be moved in interstate commerce. Therefore, it is expected that the proposed hull identification requirements would apply to almost all boats manufactured in the United States or imported after the effective date, and the certification requirements would apply to almost all boats under 20 feet with further exceptions stated in the standards and regulations with which boats must conform. These standards and regulations are the subject of Coast Guard Notice CGD 72-61.

Subpart B of proposed Part 172 concerns certification of compliance with Coast Guard regulations and standards. Section 12(a) of the Act requires, among other things, that:

(a) No person shall—

(1) Manufacture, construct, assemble, introduce, or deliver for introduction in interstate commerce, or import into the United States, or if engaged in the business of selling or distributing boats or associated equipment, sell or offer for sale, any boat, associated equipment, or component thereof to be sold for subsequent assembly, unless—

(A) It conforms with regulations and standards prescribed under this Act, or

(B) It is intended solely for export, and so labeled, tagged, or marked on the boat or equipment and on the outside of the container, if any, which is exported.

(2) Affix, attach, or display a seal, label, plate, insignia, or other device indicating or suggesting compliance with Federal safety standards, on, in, or with a boat or item of associated equipment, which is false or misleading;

In the Act, "boat" means any vessel—

(a) Manufactured or used primarily for noncommercial use; or

(b) Leased, rented, or chartered to another for the latter's noncommercial use;or

(c) Engaged in the carrying of six or fewer passengers.

It should be noted that, in the Act and in these proposed regulations, when the word "manufacturer" is used it means any person engaged in—

(1) The manufacture, construction, or assembly of boats or associated equipment; or

(2) The manufacture or construction of components for boats and associated equipment to be sold for subsequent assembly; or

(3) The importation into the United States for sale of boats, associated equipment, or components thereof.

The effect of the Act is to prohibit persons who build boats, persons who import boats, and persons engaged in the business of distributing and selling boats from allowing the sale to the boating public of boats that do not conform with Coast Guard regulations and standards.

The proposed certification requirements are intended to prevent sales of boats to the boating public without a determination having been made and certified to that the boat or equipment conforms to the standards and regulations. Under section 7 of the Act, the Coast Guard may require or permit the display of seals, labels, plates, insignia, or other devices for the purpose of certifying or evidencing compliance with Federal safety regulations and standards for boats and associated equipment. Sections 172.7 and 172.23 propose the Coast Guard's labeling requirements.

Proposed § 172.9 would allow those persons who only sell or distribute boats to affix the certification label and makes the certification of compliance with Coast Guard standards in place of the actual manufacturer. This recognizes the industry practice of "private labeling" whereby companies sell under their own name products manufactured by another.

Section 12(a)(1) of the Act exempts boats or associated equipment intended for export from conforming with standards and regulations issued under the Act. Proposed § 172.11 would exempt boats and associated equipment intended for export from the labeling requirements of proposed Part 172.

Since the construction or assembly of a boat may take considerable time, the selection of the date of certification, which must appear on the label, is the subject of proposed § 172.15(c). The Act, in section 5(b)(2), provides that a regulation or standard may not compel substantial alteration of a boat or item of associated equipment the construction or manufacture of which is commenced before the effective date of the regulation, except where there is substantial risk of personal injury. Therefore, under this proposal, the date selected for certifying that a boat or item of equipment meets the applicable regulations and standards need not be later than the date its construction or assembly is commenced. However, under this proposal, a date later than the commencement of construction or assembly may be selected as long as the completed boat or equipment conforms with the regulations and standards in effect on the date selected.

The latest day that may be selected for the date of manufacture is practically limited to the date the boat or equipment leaves the control of the person who is required by the proposed regulation to affix the certification label. Because of the possibility of change in the regulations or standards after delivery by a manufacturer and the prohibition in section 12(b) of the Act against a false or misleading seal, label, plate, insignia, or other device indicating or suggesting compliance with Federal safety standards, the proposed regulation would not allow a date to be selected that is after the boat or equipment leaves the place of construction, assembly or import for the purpose of sale. This proposal would allow the manufacturer maximum flexibility in certifying that his boat or associated equipment is built to standards which were put into effect after the date on which construction or assembly began.

Under proposed Part 180, which is the subject of notice CGD 72-61, some boats may display stability warning labels to comply with certain stability requirements. Proposed § 172.15 would require that the certification label indicate that these boats do not meet the safe loading standard in proposed Part 180.

The purpose of proposed Subpart C, Identification of Hulls, is to require identification markings on all boat hulls constructed in, or imported into, the United States after September 30, 1972. These markings would identify the person or company responsible for the manufacture of a hull in compliance with the standards, provide a serial number for that hull different from the number on all other hulls, and indicate when the hull was manufactured. The identity of manufacturer of the hull is needed for the purposes of section 15 of the Federal Boat Safety Act of 1971, which requires manufacturers to notify purchasers, dealers, and distributors of defects in boats that create a substantial risk of personal injury to the public and of boats

that fail to comply with a standard or regulation prescribed under section 5 of the Act. The identity of the manufacturer of a hull is needed by the Coast Guard to notify the manufacturer, under section 15(e) of the Act, when a defect or failure to comply is reported to or discovered by the Coast Guard in the hull so that the manufacturer of the hull can comply with the notice to purchasers, dealers, and distributors, requirements in section 15(a). A serial number identifying each hull is necessary for use in identifying all the individual boats of the kind in which a defect is discovered and in finding and notifying their owners.

The date of manufacture is needed not only to assist in identifying boats that may have a defect but also to identify boats to which boat safety standards and regulations prescribed by the Coast Guard under section 5 of the Act apply. As regulations and standards are adopted to implement the Act, the date of manufacture of a hull will be needed to determine whether it was built before or after the effective date of each new regulation or standard that may apply to it. The identity of specific standards applicable to a boat is also needed by manufacturers, distributors, dealers, and others to provide safety standard information to consumers. The identification of individual hulls is also needed for use in efficient State boat registration programs and for use in recovering stolen boats.

As regulations and standards are adopted for associated equipment, similar identification marking requirements may be proposed to further implement sections 12 and 15 of the Act. However, no standards for associated equipment have been proposed as of the date of this notice, and the identification marking requirements proposed in this notice would apply only to hulls.

Proposed § 172.31 indicates the address a manufacturer may write to obtain a manufacturer identification. The Coast Guard is preparing a list of known manufacturers and assigning tentative manufacturer identifications. Assignment of the manufacturer's identification will begin shortly after publication of the final rule.

The Boating Safety Advisory Council has been consulted and its opinions and advice have been considered in the formulation of these proposed regulations. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which these regulations were discussed is available for examination in Room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 Seventh Street SW., Washington, D.C. 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council at this address.

In consideration of the foregoing, it is proposed that a new Part 172 be added to Title 33 of the Code of Federal Regulations to read as follows:

PART 172—MANUFACTURER REQUIREMENTS

Subpart A—General

Sec.
172.1 Purpose and applicability.
172.3 Definitions.

Subpart B—Manufacturer Certification of Compliance

172.5 Purpose and applicability.
172.7 Compliance certification label required.
172.9 Affixing labels.
172.11 Exceptions to label requirement.
172.13 Removal of labels.
172.15 Contents of label.
172.17 Label numbers and letters.
172.19 Construction of labels.

Subpart C—Identification of Hulls

172.21 Purpose and applicability.
172.23 Hull identification numbers required.
172.25 Hull identification number format.
172.27 Additional characters in hull identification number.
172.29 Hull identification number display.
172.31 Manufacturer identification assigned.

AUTHORITY: The provisions of this Part 172 issued under secs. 5, 7, and 39 of the Federal Boat Safety Act of 1971, Public Law 92-75, 85 Stat. 213, 215, 216, 228 (Aug. 10, 1971); 49 CFR 1.46(o)(1).

Subpart A—General

§ 172.1 Purpose and applicability.

This part prescribes requirements for the certification of boats and associated equipment and identification of boats to which section 4 of the Federal Boat Safety Act of 1971 applies.

§ 172.3 Definitions.

As used in this part—

(a) "Manufacturer" means any person engaged in—

(1) The manufacture, construction, or assembly of boats or associated equipment; or

(2) The importation into the United States for sale of boats, associated equipment, or components thereof.

(b) "Boat" means any vessel manufactured or used primarily for noncommercial use; leased, or rented, or chartered to another for the latter's noncommercial use; or engaged in the carrying of six or fewer passengers.

(c) "Associated equipment" means—

(1) Any system, part, or component of a boat as originally manufactured or any similar part or component manufactured or sold for replacement, repair, or improvement of such system, port or component;

(2) Any accessory or equipment for, or appurtenance to, a boat; and

(3) Any marine safety article, accessory, or equipment intended for use by a person on board a boat; but

(4) Excluding radio equipment.

(d) "Date of certification" means the date on which a boat or item of associated equipment is certified to comply with all applicable U.S. Coast Guard boat safety standards in effect on that date.

(e) "Date of manufacture" means the month and year during which construction or assembly of a boat or item or associated equipment begins.

(f) "Model year" means the period beginning August 1 of any year and ending on July 31 of the following year. Each model year is designated by the year in which it ends.

Subpart B—Manufacturer Certification of Compliance

§ 172.5 Purpose and applicability.

This subpart prescribes requirements for the certification of boats and associated equipment to which section 4 of the Federal Boat Safety Act of 1971 applies and to which a boat safety standard prescribed in Part 180 of this chapter applies.

§ 172.7 Compliance certification label required.

Unless there is affixed to it a certification label that contains the information required by § 172.15—

(a) No person who manufactures, constructs, or assembles a boat or associated equipment may deliver that boat or equipment for the purpose of sale;

(b) No person may import into the United States any boat or associated equipment; and

(c) No person engaged in the business of selling or distributing boats or associated equipment may sell or offer for sale any boat or associated equipment.

§ 172.9 Affixing labels.

(a) Each manufacturer of a boat or item of associated equipment to which a standard or regulation prescribed in Part 180 of this chapter applies shall affix a certification label that contains the information required by § 172.15 to that boat or equipment before it—

(1) Leaves the place of manufacture for the purpose of sale; or

(2) Is imported.

(b) The manufacturer of a boat that is sold to a person engaged in the business of selling or distributing boats need not affix a certification label if the person engaged in the business of selling or distributing boats affixes the certification label before the boat leaves the place of manufacture.

§ 172.11 Exceptions to labeling requirement.

(a) This part does not apply to boats or associated equipment intended solely for export, and so labeled, tagged, or marked on the boat or equipment and on the outside of the container, if any, which is exported.

(b) If an item of associated equipment is so small that a certification label that meets the requirements in § 172.15 cannot be affixed to it, a certification label that contains the information required by § 172.15 may be printed on the smallest container in which the item is packed or on a slip packed with the item.

§ 172.13 Removal of labels.

No person may remove a label required by this part or remove or alter any information on a label required by this part, unless authorized by the Commandant.

V 37-79 APR 22 72 XUM

§ 172.15 Contents of labels.

Each label required by § 172.7 must contain—

(a) The name and address of the manufacturer or person who determines that the boat or associated equipment complies with the standards prescribed by Part 180 of this chapter.

(b) Except as provided in paragraph (d) of this chapter, the words "This (insert "Boat" or "Equipment") Complies with U.S. Coast Guard Boat Safety Standards in effect on (insert date of certification as prescribed in paragraph (c) of this section)."

(c) Date of certification must be no earlier than the date on which construction or assembly began and no later than the date on which the boat or item of associated equipment leaves the place of manufacture or assembly or import for the purposes of sale.

(d) If a boat displays the stability warning label required by § 180.23 of this chapter, the words "Except load capacity" must be inserted after the words "Boat Safety Standards" and before "In Effect" in the statement prescribed by paragraph (b).

§ 172.17 Label numbers and letters.

Letters and numbers on each label must—

(a) Be no less than one-eighth of an inch in height; and

(b) Contrast with the basic color of the label, or for date of certification, be permanently stamped, engraved, or embossed on the label.

§ 172.19 Construction of label.

(a) Each label must be made of material that can withstand exposure to water, oil, salt spray, direct sunlight, heat, cold, and wear expected in normal use of the boat or item of associated equipment without deterioration of legibility.

(b) Each label must be made of material that shows visible traces of the alteration or removal of information on the label.

Subpart C—Identification of Hulls

§ 172.21 Purpose and applicability.

This subpart prescribes the requirements for identification of hulls of boats the construction or assembly of which is begun after September 30, 1972, and to which section 4 of the Federal Boat Safety Act of 1971 applies.

§ 172.23 Hull identification numbers required.

Except as provided in paragraph (b) of this section—

(a) Each manufacturer of a boat hull, or person engaged in the selling or distributing of boats shall identify that hull with a hull identification number that meets the requirements of this subpart.

(b) Each person who imports a boat or boat hull shall identify that hull with a hull identification number that meets the requirements of this subpart, unless the manufacturer of that hull or boat has already identified the hull with a hull identification that meets the requirement of this part.

(c) Each manufacturer of a boat hull or each person who imports a boat or boat hull shall not assign the same first eight characters of a hull identification number to more than one boat hull.

§ 172.25 Hull identification number format.

Each hull identification number required by § 172.23 must consist of 12 characters as follows—

(a) The first three characters must consist of a manufacturer identification assigned under § 172.31.

(b) Characters 4 through 8 must be assigned by the manufacturer and must be letters of the English alphabet or Arabic numerals or both, except the letters I, O, and Q.

(c) Characters 9 through 12 must indicate the date of certification. The characters must be either—

(1) Arabic numerals with characters 9 and 10 indicating the month and characters 11 and 12 indicating the last two numerals of the year; or

(2) A combination of Arabic numerals and letters of the English alphabet with character 9 indicated as "M," characters 10 and 11 the last two numerals of the model year, and character 12 the month of the model year. The first month of the model year, August, must be designated by the letter "A," the second month, September, by the letter "B," and so on until the last month of the model year, July.

§ 172.27 Additional characters in hull identification number.

A manufacturer may display additional characters after the 12 characters required by § 172.25 if they are separated from the hull identification number by a hyphen.

§ 172.29 Hull identification number display.

(a) The hull identification number must be carved, burned, stamped or embossed on the outboard side of the transom above the waterline of the boat in such a way that alteration, removal, or replacement would be obvious and evident.

(b) The characters of the hull identification number must be no less than one-fourth of an inch in height.

§ 172.31 Manufacturer identification assigned.

(a) Each person required by § 172.23 to affix a hull identification number may request a manufacturer identification from the Commandant (BBC), 400 Seventh Street SW., Washington, DC 20590. There is no charge for the assignment.

This proposal is made under the authority of sections 5, 7, and 39 of the Federal Boat Safety Act of 1971, Public Law 92–75, 85 Stat. 213, 215, 216, 228 (Aug. 10, 1971); 49 CFR 1.46(o)(1) (36 F.R. 19593).

Dated: April 17, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Boating Safety.

[FR Doc.72-6023 Filed 4-21-72;8:45 am]

[33 CFR Part 180]

[CGD 72-61 PH]

BOAT SAFETY STANDARDS

Loading, Powering, Emergency Flotation, and Marking of Capacity

The Coast Guard is considering adopting regulations for safe loading, safe powering, emergency flotation, and marking of capacity information on certain boats. Any interested person may submit written data, views, or arguments to U.S. Coast Guard (CMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received before May 31, 1972, will be considered before action is taken on the proposed regulations. Each person submitting comments should include his name and address, identify this notice (CGD 72–61) and give reasons and supporting data for any recommendations. All comments will be available for examination in Room 8234. An informal public hearing to receive comments of interested persons on the proposed regulations will be held on May 17, 1972, in Room 8332 at 9:30 a.m. Each person who wishes to make a statement is requested to notify the U.S. Coast Guard (CMC/82) before May 15, 1972.

These proposed regulations do not apply to sailboats, canoes, kayaks, and inflatable boats. Regulations and standards for these boats are under consideration and may be the subject of future rule making.

These proposed regulations apply to boats manufactured, constructed, or assembled by any person, including backyard amateurs and occasional builders.

The proposed safety standards and regulations are part of a continuing effort by the Coast Guard to reduce the number of drownings associated with recreational boating. Drownings, which account for over 90 percent of all boating deaths, are most often the result of the sinking or capsizing of boats less than 20 feet long. These proposed regulations would require that these boats meet standards for loading, powering, and flotation and require the display of loading and powering information on each boat.

Proposed Subpart C, Safe Loading, is directed at the prevention of capsizings, the major cause of boating fatalities. Almost three-fourths of these capsizing fatalities involved open motorboats or rowboats less than 20 feet long. In addition, nine out of 10 deaths occurring because of overloading are on open motorboats and rowboats less than 20 feet long.

The capacity information that must be displayed on a boat contains a limit on the number of persons the boat may carry as well as the total weight of persons and gear. The limit on the number of persons is determined by a live load test, in proposed §§ 180.39 through 180.43, that requires 60 percent of the weight of persons to be distributed on one side of the boat at the outboard extremity of each passenger carrying area. This live load test is needed to account for the capability of part of the weight of the passenger load being concentrated at one side of a boat when persons move about the boat. The 60 percent factor for this part of the weight is the factor used by the American Boat and Yacht Council.

The application of these proposed standards to boats may require design changes. The regulations would allow boats not meeting these standards to continue to be built until August 1, 1973, if they are labeled with the stability warning label in § 180.23.

The Coast Guard has for many years shared with the Canadian Government and the boating industry a concern over the consequences of overpowering small boats. Jointly conducted boat powering tests over the past decade have demonstrated generally that there is a definite maximum horsepower for each boat above which its handling characteristics become erratic and often dangerous. In recognition of this, the boating industry associations of the United States and Canada have established a program for determining the maximum safe horsepower and for the voluntary display of this information on outboard boats. It is believed that the widespread acceptance of this voluntary program has been instrumental in holding the number of overpowering casualties at the present level.

The proposed standard for outboard horsepower capacity is also based on the standard of the American Boat and Yacht Council except that a "test course" method to establish maximum horsepower is not included in the proposed regulation at this time. While a performance type standard such as the test course method may be desirable, the test course method does not ensure consistent results because it depends on the skill of the driver, placement of loading, course conditions, and many other factors. Work is continuing toward the development of an objective performance standard for determining boat horsepower capacity.

The proposed flotation standard in Subpart D reflects the current industry practice for emergency flotation. In the period from 1968–70, there were 218 deaths, 51 injuries, and over $1 million in property damage resulting from sinkings of boats. A boat which will float when flooded gives its occupants a greater chance of survival because it is available to grasp until assistance arrives. For search and rescue purposes, it is far easier to find a boat than individuals in the water.

Section 5(b) of the Act requires, among other things, that a regulation specify an effective date which is not earlier than 180 days from the date of issuance, unless there exists a boating safety hazard so critical as to require an earlier effective date. The Coast Guard considers capacity requirements to be so critical as to require their adoption as soon as possible. Therefore, the Coast Guard anticipates completing this rule making action and publishing a final rule by July 1, 1972, and making the capacity marking requirements effective on October 1, 1972. The planned effective date for the flotation standard is August 1, 1973.

The Boating Safety Advisory Council has been consulted and its opinions and advice have been considered in the formulation of these proposed regulations. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which these regulations were discussed is available for examination in Room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 Seventh Street SW., Washington, D.C. 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council at this address.

These regulations are proposed under the authority of the Federal Boat Safety Act of 1971 (Public Law 92–75, 85 Stat. 213). The authority and reponsibilities vested in the Secretary of the Department of Transportation by this Act were delegated to the Commandant of the Coast Guard on October 5, 1971 (36 F.R. 19593).

In consideration of the foregoing, the Coast Guard proposes to amend Chapter I of Title 33 of the Code of Federal Regulations by adding a new Part 180 to read as follows:

PART 180—BOATS AND ASSOCIATED EQUIPMENT

Subpart A—General

Sec.
180.1 Purpose and applicability.
180.3 Definitions.

Subpart B—Display of Capacity Information

180.21 Applicability.
180.23 Capacity marking required.
180.25 Display of markings.
180.27 Construction of markings.

Subpart C—Safe Loading

180.31 Applicability.
180.33 Maximum weight capacity: inboard and inboard-outdrive boats.
180.35 Maximum weight capacity: outboard boats.
180.37 Maximum weight capacity: boats without mechanical propulsion.
180.39 Persons capacity: inboard and inboard-outdrive boats.
180.41 Persons capacity: outboard boats.
180.43 Persons capacity: boats without mechanical propulsion.

Subpart D—Safe Powering

180.51 Applicability.
180.53 Horsepower capacity.

Subpart E—Flotation

180.61 Applicability.
180.63 Quantity of flotation required.
180.66 Kind of flotation.
180.67 Method for determining quantity of flotation.

AUTHORITY: The provisions of this Part 180 issued under secs. 5, 7, and 39 of the Federal Boat Safety Act of 1971, Public Law 92–75, 85 Stat. 213, 215, 216, 228 (Aug. 10, 1971); 49 CFR 1.46(o)(1).

Subpart A—General

§ 180.1 Purpose and applicability.

This part prescribes standards and regulations for boats and associated equipment to which section 12 of the Federal Boat Safety Act of 1971 applies and to which certification requirements in Part 172 of this chapter apply.

§ 180.3 Definitions.

(a) "Beam" means the maximum transverse distance between the outer sides of the hull excluding fenders, joiner strips, and other extensions.

(b) "Boat" means any vessel manufactured or used primarily for noncommercial use; leased, rented, or chartered to another for the latter's noncommercial use; or engaged in the carrying of six or fewer passengers.

(c) "Length" means the straight line horizontal distance between the intersection of the stem and stern profiles with the sheer excluding fenders or other extensions.

(d) "Mono-hull boat" means a boat on which the line of intersection of the water surface and the boat at any operating draft forms a single closed curve. For example, a catamaran, trimaran, or pontoon boat is not a mono-hull boat.

(e) "Sailboat" means a boat designed or intended to use sails as the primary means of propulsion.

(f) "Sheer" means the fore and aft curve in a vertical plane of the topmost line in a vessel's side.

(g) "Vessel" includes every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on the water.

Subpart B—Display of Capacity Information

§ 180.21 Applicability.

This subpart applies to mono-hull boats less than 20 feet in length, except sailboats, canoes, kayaks, and inflatable boats.

§ 180.23 Capacity marking required.

(a) Except as provided in paragraph (b) of this section, each boat must be marked in the manner prescribed in §§ 180.25 and 180.27 with the maximum weight capacity and persons capacity determined under §§ 180.33 through 180.43, and horsepower capacity determined under § 180.53.

(b) Any boat the construction or assembly of which begins before August 1, 1973, may have displayed thereon a persons capacity greater than P_2 but not greater than P_1 in §§ 180.39 through 180.43 if the boat displays at least two

V 37 • 79 APR 22 72 XUM

stability warning labels prescribed in paragraph (c) of this section.

(c) Each of the stability warning labels required by paragraph (b) of this section must—

(1) Be waterproof;

(2) Be displayed at normal boarding positions; and

(3) Have a plan view of the boat and the words in block letters in the sizes shown in figure 180.23 in colors that contrast with the background of the label.

Figure 180.23

§ 180.25 Display of markings.

(a) Each marking required by § 180.23 (a) must be permanently displayed in a legible manner where it is clearly visible to the operator when he is getting the boat underway.

(b) The information required to be marked by § 180.23(a) must be displayed in the following manner—

(1) For outboard boats:

U.S. Coast Guard Capacity Information

Maximum horsepower	xxx
Maximum number of persons	xxx
Maximum weight in pounds (persons, motor, and gear)	xxx

(2) For inboard boats, inboard-outdrive boats, and boats without mechanical propulsion:

U.S. Coast Guard Capacity Information

Maximum number of persons	xxx
Maximum weight in pounds (persons, and gear)	xxx

§ 180.27 Construction of markings.

Each marking required by § 180.23(a) must be—

(a) Capable of withstanding the combined effects of exposure to water, oil, salt spray, direct sunlight, heat, cold, and wear expected in normal operation of the boat, without loss or deterioration of legibility; and

(b) Resistant to efforts to remove or alter the information without leaving some obvious sign of such efforts.

Subpart C—Safe Loading

§ 180.31 Applicability.

This subpart applies to mono-hull boats less than 20 feet in length except sailboats, canoes, kayaks, and inflatable boats.

§ 180.33 Maximum weight capacity: inboard and inboard-outdrive boats.

(a) The maximum weight capacity marked on a boat that has one or more inboard engines or inboard-outdrive units for propulsion must not exceed W in the formula.

$$W=\frac{\text{(Maximum displacement)}}{5}-\frac{\text{Boat weight}}{5}-\frac{\text{(Machinery weight)}}{5}$$

(b) For the purposes of paragraph (a) of this section—

(1) "Maximum displacement" is the weight of the volume of water displaced by the boat at its maximum level immersion in calm water without water coming aboard. For the purpose of this paragraph, a boat is level when it is transversely level and the points where the sheer intersects the stem and the stern (or transom) are equidistant above the water surface.

(2) "Boat weight" is the combined weight of the boat hull and all its permanent appurtenances, including machinery weight.

(3) "Machinery weight" is the combined weight of installed engines or motors, full fuel system and tanks, control equipment, drive units and batteries.

§ 180.35 Maximum weight capacity: outboard boats.

(a) The maximum weight capacity marked on a boat that is designed or intended to use one or more outboard motors for propulsion must be a number that does not exceed one-fifth of the difference between its maximum displacement and boat weight.

(b) For the purposes of paragraph (a) of this section—

(1) "Maximum displacement" is the weight of the volume of water displaced by the boat at its maximum level immersion in calm water without water coming aboard except for water coming through one opening in the motor well with its greatest dimension not over 3 inches for outboard motor controls or fuel lines. For the purpose of this paragraph, a boat is level when it is transversely level and the points at which the sheer intersects the stern and transom are equidistant above the water surface.

(2) "Boat weight" is the combined weight of the boat hull and all its permanent appurtenances. For the purpose of this paragraph, outboard motors are not permanent appurtenances.

§ 180.37 Maximum weight capacity: boats without mechanical propulsion.

(a) The maximum weight capacity marked on a boat that is not designed or intended to have mechanical propulsion must not exceed one-fifth of the difference between the boat's maximum displacement and the boat weight .

(b) For the purposes of paragraph (a) of this section—

(1) "Maximum displacement" is the weight of the volume of water displaced by the boat at its maximum level immersion in calm water without water coming aboard. For the purpose of this paragraph, a boat is level when it is transversely level and the points where the sheer intersects the stem and the stern (transom) are equidistant above the water surface.

(2) "Boat weight" is the combined weight of the boat hull and all its permanent appurtenances.

§ 180.39 Persons capacity: inboard and inboard-outdrive boats.

The persons capacity marked on a boat that is designed or intended to use one or more inboard engines or inboard-outdrive units must be a whole number that does not exceed the lesser of P_1 or P_2 in the following formulas:

(a)

$$P_1=\frac{\text{(Maximum weight capacity)}}{150}$$

where "Maximum weight capacity" is that marked on the boat.

(b)

$$P_2=\frac{\text{(Live load capacity)}}{150}$$

where "Live load capacity" is determined from the following test in calm water:

(1) Float the boat, with all its permanent appurtenances, including installed engines, full fuel system and tanks, control equipment, drive units and batteries.

(2) Gradually add weights along one outboard extremity of each passenger carrying area, at the height of the seat nearest the center of that area and distributed equally forward and aft of that center in a plane parallel to the floor boards, until the boat assumes the maximum list or trim, or both, without water coming aboard.

(3) Compute the live load capacity in the following formula:

$$\text{Live load capacity}=\frac{A}{.6}$$

where A is the total of the weights added in subparagraph (2) of this paragraph.

§ 180.41 Persons capacity: outboard boats.

The persons capacity marked on a boat that is designed or intended to use one or more outboard motors for propulsion must be a whole number that does not exceed the lesser of P_1 or P_2 in the following formulas:

(a)

$$P_1=\frac{\text{(Maximum weight capacity)}}{150}$$

where "Maximum weight capacity" is that marked on the boat.

(b)

$$P_2=\frac{\text{(Live load capacity)}}{150}$$

where "Live load capacity" is determined from the following test in calm water:

(1) Float the boat with all its permanent appurtenances.

(2) Add, in normal operating positions, the dry motor and control weight, battery weight and portable tank weight, if any, shown in table 180.67(a) for the maximum horsepower capacity marked on the boat. For permanently installed fuel tanks, add 6 pounds of weight for each gallon of fuel capacity.

(3) Gradually add weights along one outboard extremity of each passenger carrying area, at the height of the seat nearest the center of that area and distributed equally forward and aft of that center in a plane parallel to the floor boards until the boat assumes the maximum list or trim, or both, without water coming aboard.

(4) Compute the live load capacity in the following formula:

$$\text{Live load capacity}=\frac{A}{.6}$$

where A is the total of the weights added in subparagraph (3) of this paragraph.

§ 180.43 Persons capacity: boats without mechanical propulsion.

The persons capacity marked on a boat that is not designed or intended to have mechanical propulsion must be a whole number that does not exceed the lesser of P_1 or P_2 in the following formulas:

(a)

$$P_1=\frac{\text{(Maximum weight capacity)}}{150}$$

where "Maximum weight capacity" is that marked on the boat.

(b)

$$P_2=\frac{\text{(Live load capacity)}}{150}$$

where "Live load" is determined from the following test in calm waters:

(1) Float the boat, with all its permanent appurtenances.

(2) Gradually add weights along one outboard extremity of each passenger carrying area, at the height of the seat nearest the center of that area and distributed equally forward and aft of that center in a plane parallel to the floor boards until the boat assumes the maximum list or trim, or both, without water coming aboard.

(3) Compute the live load capacity in the following formula:

$$\text{Live load capacity}=\frac{A}{.6}$$

where A is the total of the weights added in subparagraph (2) of this paragraph.

Subpart D—Safe Powering

§ 180.51 Applicability.

This subpart applies to mono-hull boats less than 20 feet in length, except sailboats, canoes, kayaks, and inflatable boats, that are designed or intended to use one or more outboard motors for propulsion.

TABLE 180.53—OUTBOARD BOAT HORSEPOWER CAPACITY

COMPUTE: FACTOR=BOAT LENGTH×TRANSOM WIDTH

If factor (nearest whole number) is	0–35	36–39	40–42	43–45	46–52
Horsepower capacity is	3	5	7½	10	15

NOTE: For flat bottom hard chine boats reduce one capacity increment (e.g. 5 to 3).

If factor is 53 or more and the boat has—	Remote steering and at least 20" transom height	No remote steering, or less than 20" transom	
		For flat bottom hard chine boats	For other boats
Horsepower capacity is (raise to nearest multiple of 5).	(2×Factor)−90	(0.5×Factor)−15	(0.8×Factor)−25

Subpart E—Flotation

§ 180.61 Applicability.

This subpart applies to mono-hull boats less than 20 feet in length, except sailboats, canoes, kayaks, and inflatable boats.

§ 180.63 Quantity of flotation required.

Each boat must have—

(a) At least that quantity of flotation prescribed in § 180.67; or

(b) Enough permanent flotation to keep any portion of the boat above the surface of the water when the boat is filled with water and loaded with—

(1) A weight that, when submerged, equals the persons capacity marked on the boat times 20 pounds; and

(2) A weight that, when submerged, equals 25 percent of the dead weight; and

(3) For outboard motorboats, a weight that, when submerged, equals the submerged motor and control weight from table 180.67(a).

(c) For the purpose of this section "dead weight" means—

(1) For outboard boats, the maximum weight capacity marked on the boat minus the sum of—

(i) Motor and control weight, and battery weight (dry) from table 180.67(a); and

(ii) 150 pounds times the persons capacity marked on the boat; and

(2) For inboard motorboats, the maximum weight capacity marked on the boat minus 150 pounds times the persons capacity marked on the boat.

§ 180.65 Kind of flotation.

(a) Except as provided in paragraph (b) of this section, the flotation required by § 180.63 must be inherently buoyant materials that are—

(1) Capable of withstanding the combined effects of contact with oil, oil products, or other liquids or compounds with which the material may be expected to come in contact during normal use, including fuel oil, gasoline, grease, lubricating oil, common bilge solvents, and salt and fresh water;

(2) Capable of withstanding combined exposure to sunlight, vibration, shock and temperature variations which may be expected during normal use; and

(3) Installed in such a manner that it is fully effective when the boat is flooded or capsized.

(b) If the construction or assembly of a boat is begun before August 1, 1973, it may have two or more air chambers that—

(1) Are completely watertight, except that pressure equalization openings may be provided if these openings are fitted with means to prevent water from entering the air chambers;

(2) Maintain their watertight integrity when the boat is flooded or capsized;

(3) Are designed and arranged so that the flooding of one chamber will not result in sufficient loss of buoyancy to cause

V 37 ■ 79
APR 22 72
XUM

the boat to sink with its maximum weight capacity in normal operating position; and

(4) Are fitted with a means of being easily drained.

§ 180.67 Method for determining quantity of flotation.

The minimum quantity of flotation material required by § 180.63 must be determined by the following method:

(a) Step 1: Determine the Submerged Weight of Boat (W_s) in the formula:

$$W_s = Wh\ K_1 + Wd\ K_2 + 0.69\ We.$$

where

W_s = Submerged weight of boat.
